(7) not to exceed [$242,165,000] *$251,165,000* for design and construction services *of which $9,000,000 shall be available for payment to a public entity in fiscal year 1991 to house the Bureau of Mines, the United States Geological Survey and the National Weather Service in Tucson, Arizona, such location to be designated by the housed agencies and such agencies are to be housed rent free, exclusive of operating expenses, in such location;* which shall remain available until expended[, including expenses for preliminary design for a 300,000 square foot Government-owned facility for the Center for Disease Control at their campus on Clifton Road in Atlanta, Georgia, such expenses to be reimbursed to GSA by the Center for Disease Control]: *Provided further,* That for the purposes of this authorization, buildings constructed pursuant to the purchase contract authority of the Public Buildings Amendments of 1972 (40 U.S.C. 602a), and buildings under the control of another department or agency where alterations of such buildings are required in connection with the moving of such other department or agency from buildings then, or thereafter to be, under the control of the General Services Administration shall be considered to be federally owned buildings: *Provided further,* That none of the funds available to the General Services Administration *with the exception of those of Capital Improvements of United States-Mexico Border Facilities; the Augusta, Georgia, United States Courthouse; the Boston, Massachusetts, Federal Building United States Courthouse; the Carson City, Nevada, Federal Building-Post Office parking facility; the Shreveport, Louisiana, Federal Building and United States Courthouse; the District of Columbia Pension Building, National Building Museum; the Knoxville, Tennessee, United States Courthouse-Post Office; the Charleston, West Virginia, Federal Building United States Courthouse; Building No. 6, World Trade Center, New York, New York; and the Tucson, Arizona, United States Geological Survey, National Weather Service, and Bureau of Mines space expansion* shall be available for expenses in connection with any construction, repair, alteration, and acquisition project for which a prospectus, if required by the Public Buildings Act of 1959, as amended, has not been approved, except that necessary funds may be expended for each project for required expenses in connection with the development of a proposed prospectus: *Provided further,* That funds available in the Federal Buildings Fund may be expended for emergency repairs when advance approval is obtained from the Committees on Appropriations of the House and Senate: *Provided further,* That amounts necessary to provide reimbursable special services to other agencies under section 210(f)(6) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 490(f)(6)) and amounts to provide such reimbursable fencing, lighting, guard booths, and other facilities on private or other property not in Government ownership or control as may be appropriate to enable the United States Secret Service to perform its protective functions pursuant to 18 U.S.C. 3056, as amended, shall be available from such revenues and collections: *Provided further,* That revenues and collections and any other sums accruing to this Fund during fiscal year 1991 excluding reimbursements under section 210(f)(6) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)(6)) in excess of [$5,279,209,000] *$5,084,586,800* shall remain in the Fund and shall not be available for expenditure except as authorized in appropriations Acts.

FEDERAL SUPPLY SERVICE

OPERATING EXPENSES

For expenses authorized by law, not otherwise provided for, necessary for property management activities, utilization of excess and disposal of surplus personal property, rehabilitation of personal property, transportation management activities, transportation audits by in-house personnel, procurement, and other related supply management activities, including services as authorized by 5 U.S.C. 3109; [$53,957,000] *$52,243,000.*

FEDERAL PROPERTY RESOURCES SERVICE

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for carrying out the functions of the Administrator with respect to utilization of excess real property; the disposal of surplus real property, the utilization survey, deed compliance inspection, appraisal, environmental and cultural analysis, and land use planning functions pertaining to excess and surplus real property, including services as authorized by 5 U.S.C. 3109; [$13,386,000] *$12,798,000,* to be derived from proceeds from transfers of excess real property and disposal of surplus real property and related personal property, subject to the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 4601-5).

REAL PROPERTY RELOCATION

For expenses not otherwise provided for, $8,000,000 to remain available until expended, necessary for carrying out the functions of the Administrator with respect to relocation of Federal agencies from property which has been determined by the Administrator to be other than optimally utilized under the provisions of section 210(e) of the Federal Property and Administrative Services Act of 1949, as amended[: *Provided, T1That $2,500,000 of this amount shall be made available to pay expenses related to the relocation of the United States Fish and Wildlife Service regional office authorized and directed by Public Law 101-136*]: *Provided further,* That such relocations shall only be undertaken when the estimated proceeds from the disposition of the original facilities approximate the appraised fair market value of such new facilities and exceed the estimated costs of relocation. Relocation costs include expenses for and associated with acquisition of sites and facilities, and expenses of moving or repurchasing equipment and personal property. These funds may be used for payments to other Federal entities to accomplish the relocation functions: *Provided further,* That nothing in this paragraph shall be construed as relieving the Administrator of General Services or the head of any other Federal agency from any obligation or restriction under the Public Buildings Act of 1959 (including any obligation concerning submission and approval of a prospectus), the Federal Property and Administrative Services Act of 1949, as amended, or any other Federal law, or as authorizing the Administrator of General Services or the head of any other Federal agency to take actions inconsistent with statutory obligations or restrictions placed upon the Administrator of General Services or such agency head with respect to authority to acquire or dispose of real property.

GENERAL MANAGEMENT AND ADMINISTRATION

SALARIES AND EXPENSES

[For necessary expenses, not otherwise provided, for Policy Direction, Board of Contract Appeals, and accounting, records management, and other support services incident to adjudication of Indian Tribal Claims by the United States Court of Claims, and services authorized by 5 U.S.C. 3109, $35,100,000: *Provided,* That this appropriation shall be available, for general administrative and staff support services, subject to reimbursement by the applicable organization or agencies pursuant to subsections (a) and (b) of section 1535 of title 31, United States Code: *Provided further,* That not to exceed $5,000 shall be available for official reception and representation expenses.]

For necessary expenses of agency management of activities under the control of the General Services Administration, and general administrative and staff support services not otherwise provided for; for providing accounting, records management, and other support incident to adjudication of Indian Tribal Claims by the United States Court of Claims, and services authorized by 5 U.S.C. 3109; $91,455,000, of which $800,000 shall be available only for, and is hereby specifically earmarked for personnel and associated costs in support of Congressional District and Senate State offices: Provided, That this appropriation shall be available, subject to reimbursement by the applicable agency, for services performed for other agencies pursuant to subsections (a) and (b) of section 1535 of title 31, United States Code: Provided further, That not to exceed $5,000 shall be available for official reception and representation expenses.

INFORMATION RESOURCES MANAGEMENT SERVICE

OPERATING EXPENSES

For expenses authorized by law, not otherwise provided for, necessary for carrying out Government-wide and internal responsibilities relating to automated data management, telecommunications, information resources management, and related activities, including services as authorized by 5 U.S.C. 3109; and for the Information Security Oversight Office established pursuant to Executive Order 12356; [$39,961,000] *$39,268,000.*

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General [$30,997,000] *$30,139,000* of which not to exceed $1,000,000 shall remain available until expended for procurement and installment of an automation program in support of audits and investigations: *Provided,* That not to exceed $10,000 shall be available for payment for information and detection of fraud against the Government, including payment for recovery of stolen Government property: *Provided further,* That not to exceed $2,500 shall be available for awards to employees of other Federal agencies and private citizens in recognition of efforts and initiatives resulting in enhanced Office of Inspector General effectiveness.

ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

For carrying out the provisions of the Act of August 25, 1958, as amended (3 U.S.C. 102 note), and Public Law 95-138; [$1,808,000]

$1,964,000: Provided, That the Administrator of General Services shall transfer to the Secretary of the Treasury such sums as may be necessary to carry out the provisions of such Acts.

GENERAL SERVICES ADMINISTRATION—GENERAL PROVISIONS

SECTION 1. The appropriate appropriation or fund available to the General Services Administration shall be credited with the cost of operation, protection, maintenance, upkeep, repair, and improvement, included as part of rentals received from Government corporations pursuant to law (40 U.S.C. 129).

SEC. 2. Funds available to the General Services Administration shall be available for the hire of passenger motor vehicles.

SEC. 3. Not to exceed 1 per centum of funds made available in appropriations for operating expenses and salaries and expenses, during the current fiscal year, may be transferred between such appropriations for mandatory program requirements. Any transfers proposed shall be submitted promptly to the Committees on Appropriations of the House and Senate for approval.

SEC. 4. Funds in the Federal Buildings Fund made available for fiscal year 1991 for Federal Buildings Fund activities may be transferred between such activities only to the extent necessary to meet program requirements. Any transfers proposed shall be submitted promptly to the Committees on Appropriations of the House and Senate for approval.

[SEC. 5. Funds hereafter made available to the General Services Administration for the payment of rent shall be available for the purpose of leasing, for periods not to exceed thirty years, space in buildings erected on land owned by the United States.

[SEC. 6. Notwithstanding any provisions of this Act or any other Act in any fiscal year, the Administrator of General Services is authorized and directed to charge the Department of the Interior for design and alterations to the Avondale, Maryland, property at rates so as to recover the approximate applicable cost incurred by General Services Administration in providing such alterations, and the Department of the Interior is authorized to repay such charges out of any appropriation available to the department and the payments shall be deposited in the fund established by 40 U.S.C. 490(f).

[SEC. 7. The General Services Administration shall take immediate action to secure corrections to health and safety problems at the IRS Manhattan District Office and is directed if unable to correct such problems through the lessor within 90 days, to take such actions necessary to accomplish the corrections and withhold such amounts expended on such corrections from rental payments.]

SEC. [8] *5.* Notwithstanding any other provision of law, the Secretary of the Interior shall transfer to the General Services Administration, without consideration, approximately 14 acres of the United States Geological Survey Western Region Headquarters together with any improvements, structures and fixtures located thereon. The General Services Administration shall construct additional facilities for the United States Geological Survey on this site.

SEC. [9] *6.* (a) Notwithstanding any other provision of law, agencies are hereafter authorized to make rent payments to the General Services Administration for lease space relating to expansion needs of the agency and General Services Administration is authorized to use such funds, in addition to the amount received as New Obligational Authority in the Rental of Space activity of the Federal Buildings Fund. Such payments are to be at the commercial equivalent rates specified by section 201(j) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 490(j)) and are to be deposited into the Fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 490(f)).

(b) There are hereby appropriated, out of the Federal Buildings Fund, such sums as may be necessary to carry out the purpose of subsection (a).

SEC. [10] *7.* None of the funds appropriated by this Act may be obligated or expended in any way for the purpose of the sale, excessing, surplusing, or disposal of lands in the vicinity of Norfolk Lake, Arkansas, administered by the Corps of Engineers, Department of the Army, without the specific approval of the Congress.

SEC. [11] *8.* None of the funds appropriated by this Act may be obligated or expended in any way for the purpose of the sale, excessing, surplusing, or disposal of lands in the vicinity of Bull Shoals Lake, Arkansas, administered by the Corps of Engineers, Department of the Army, without the specific approval of the Congress.

SEC. [12] *9.* Notwithstanding any other provision of law, the Administrator of General Services is authorized to sell by publicly advertising for bids and on such terms and conditions as the Administrator deems proper, the John W. McCormack Post Office and Courthouse located at One Post Office Square in Boston, Massachusetts. All proceeds from such sale, less direct expenses incurred in the sale, shall be deposited into the fund established under section 210(f) of the Federal Property and Administrative Services Act.

[SEC. 13. Notwithstanding any other provisions of law, the Administrator of General Services is authorized and directed to provide not less than 12,000 square feet of storage, office and public space in Pittsfield, Massachusetts, for the New England Regional Archives of the National Archives and Records Administration.]

[SEC. 14.] *10.* Notwithstanding the provisions of the Act of September 13, 1982 (Public Law 97-258, 31 U.S.C. 1345), any agency, department or instrumentality of the United States which provides or proposes to provide child care services for Federal employees may reimburse any Federal employee or any person employed to provide such services for travel, transportation and subsistence expenses incurred for training classes, conferences or other meetings in connection with the provision of such services: *Provided,* That any per diem allowance made pursuant to this section shall not exceed the rate specified in regulations prescribed pursuant to section 5707 of title 5, United States Code.

[SEC. 15. The Administrator of General Services is directed to coordinate its requirements for office and other space to house Government activities by utilizing assets of the Resolution Trust Corporation and its receivers and conservators.]

SEC. 11. Notwithstanding any other provision of law, the Fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 490(f)), is authorized to receive any revenues, collections, or other income received during fiscal year 1991 in the form of rebates, cash incentives or otherwise, related to energy savings, all of which shall remain in the Fund until expended, and remain available for Federal energy management improvement programs as may be authorized by law or as may be deemed appropriate by the Administrator of General Services. The General Services Administration is authorized to use such funds, in addition to amounts received as New Obligational Authority, in such activity or activities of the Fund as may be necessary.

SEC. 12. Notwithstanding any other provision of law, the General Services Administration is hereby authorized to sell, at competitive bid, the Federal Building located at 500 Quarrier Street in Charleston, West Virginia, and to deposit such proceeds into the Federal Buildings Fund.

SEC. 13. (a) Notwithstanding any other provision of law, the Administrator of General Services is authorized to sell on such terms and conditions as the Administrator deems proper, the Federal Building and United States Courthouse located at 110 South Fourth Street in Minneapolis, Minnesota. All proceeds from such sale, less direct expenses, shall be deposited into the fund established under section 210(f) of the Federal Property and Administrative Services Act, and the General Services Administration is authorized to use such funds, in addition to amounts received as New Obligational Authority in the Construction and Acquisition of Facilities activity of the Federal Buildings Fund for the construction of a new Federal Building and United States Courthouse in Minneapolis, Minnesota.

(b) In addition, the General Services Administration is hereby authorized to accept donations from the City of Minneapolis, Minnesota and to deposit such donations into the fund established under section 210(f) of the Federal Property and Administrative Services Act, and the General Services Administration is authorized to use such funds, in addition to the amount received as New Obligational Authority in the Construction and Acquisition of Facilities activity of the Federal Buildings Fund for the construction of a new Federal Building and United States Courthouse in Minneapolis, Minnesota.

(c) There are hereby appropriated, out of the Federal Buildings Fund, such sums as may be necessary for carrying out the purposes of subsections (a) and (b).

SEC. 14. The Administrator of General Services shall issue a request for proposals for the procurement of move management services within thirty days after enactment of this Act.

SEC. 15. The General Services Administration is authorized to utilize and lease space in the Harlem International Trade Center located at 125th Street in the county of New York, New York, for future Federal long-term office space needs in the Metropolitan New York City area up to 200,000 square feet pursuant to the availability of Federal tenants.

The lease rate for such office space shall not exceed comparable rates for equivalent space in the surrounding area or comparable rates in the Harlem International Trade Center.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

For necessary expenses in connection with National Archives and Records Administration and related activities, as provided by law, and for expenses necessary for the review and declassification of documents,

and for the hire of passenger motor vehicles, [$139,756,000] *$131,469,000*, of which [$5,000,000] *$6,500,000* for allocations and grants for historical publications and records as authorized by 44 U.S.C. 2504, as amended, shall remain available until expended [and of which $9,877,000 shall remain available until expended for renovations and improvements to the John F. Kennedy Library.]

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

GENERAL PROVISION

SECTION 1. (a)(1) The position of Director of the Center for Legislative Archives within the National Archives and Records Administration shall be established without regard to chapter 51 title 5. Effective on the first day of the first applicable pay period beginning on or after the date of the enactment of this Act, the basic rate of pay for such position shall be the minimum rate of pay grade GS-16 of the General Schedule under section 5332 of title 5, United States Code.

(2) There is established within the Center for Legislative Archives within the National Archives and Records Administration the position of Specialist in Congressional History. Such position shall be classified at the grade of GS-13 of the General Schedule on the date of the enactment of this Act, and may be reclassified thereafter at the grade of GS-14 of the General Schedule under the provisions of chapter 51 of title 5, United States Code.

(b) There shall be made available from funds appropriated in each fiscal year to the National Archives and Records Administration, $20,000 for the administrative expenses of the Advisory Committee on the Records of Congress established under section 2701 of title 44, United States Code.

(c) There are authorized to be appropriated such sums as may be necessary to carry out the purposes of subsections (a) and (b) of this section.

(d)(1) Title 44, United States Code, is amended by inserting after chapter 25, the following new chapter:

"CHAPTER 27—ADVISORY COMMITTEE ON THE RECORDS OF CONGRESS

"Sec.
"2701. Advisory Committee on the Records of Congress.
"2702. Membership; chairman; meetings.
"2703. Functions of the Committee.
"2704. Powers of the Committee.
"2705. Compensation and travel expenses.
"2706. Administrative provisions.

"§ 2701. Advisory Committee on the Records of Congress

"(a) There is established the Advisory Committee on the Records of Congress (hereafter in this chapter referred to as the Committee).

"(b) The Committee shall be subject to the provisions of the Federal Advisory Committee Act (5 U.S.C. App.), except that the Committee shall be of permanent duration, notwithstanding any provision of section 14 of the Federal Advisory Committee Act.

"§ 2702. Membership; chairman; meetings

"(a)(1) The Committee shall consist of the eleven members including—

"(A)(i) the Secretary of the Senate;

"(ii) the Clerk of the House of Representatives;

"(iii) the Archivist of the United States;

"(iv) the Historian of the Senate; and

"(v) the Historian of the House of Representatives; and

"(B) six members of whom one shall be appointed by each of the following:

"(i) the Speaker of the House of Representatives;

"(ii) the Minority Leader of the House of Representatives;

"(iii) the Majority Leader of the Senate;

"(iv) the Minority Leader of the Senate;

"(v) the Secretary of the Senate; and

"(vi) the Clerk of the House of Representatives.

"(2) Each member appointed under paragraph (1)(B) shall have expertise in United States history or archival management.

"(b) The Secretary of the Senate shall serve as Chairman during the two-year period beginning on January 1, 1991, and the Clerk of the House of Representatives shall serve as Chairman during the two-year period beginning on January 1, 1993. Thereafter, such members shall alternate serving as Chairman for a term of two years.

"(c)(1) Members of the Committee referred to in subsection (a)(1)(A) shall serve only while holding such offices. Members appointed to the Committee under subsection (a)(1)(B) shall serve for a term of two years, and may be reappointed without limitation. The initial appointments for such terms shall begin on January 1, 1991.

"(2) Any vacancy on the Committee shall not affect the powers of the Committee. Any vacancy in an appointed position on the Committee shall be filled in the same manner in which the original appointment was made.

"(d)(1) No later than thirty days after the date on which the first session of the 102d Congress begins, the Committee shall hold its first meeting. Thereafter, the Committee shall meet semi-annually or at the call of a majority of its members.

"(2) Seven members of the Committee shall constitute a quorum, but a lesser number may hold hearings.

"§ 2703. Functions of the Committee

"The Committee shall—

"(1) review the management and preservation of the records of Congress;

"(2) report to and advise the Congress and the Archivist of the United States on such management and preservation; and

"(3)(A) no later than December 31, 1991, conduct a study and submit a report to the Congress on—

"(i) the effect any transfer of records of the National Archives and Records Administration from facilities located in Washington, D.C., to any location outside of Washington, D.C., shall have on the management and preservation of the records of Congress; and

"(ii) the five year plan for the management and preservation of the records of Congress; and

"(B) no later than December 31, 1995, conduct a study to update the report submitted under subparagraph (A)(ii), and submit a report to the Congress.

"§ 2704. Powers of the Committee

"(a) For purposes of carrying out the duties referred to under section 2703, the Committee or, on the authorization of the Committee, any subcommittee or member thereof, may hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as is appropriate.

"(b) The Committee may secure directly from any department or agency of the United States such information as the Committee may require to carry out the duties referred to under section 2703. Upon request of the Chairman of the Committee, the head of such department or agency shall furnish such information to the Committee.

"§ 2705. Compensation and travel expenses

"A member of the Committee may not be paid compensation for service performed as a member of the Committee. However, members of the Committee shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of service for the Committee.

"§ 2706. Administrative provisions

"(a) Upon request of the Committee, the head of any Federal agency is authorized to detail to the Committee, on a non-reimbursable basis, any of the personnel of such agency to assist the Committee in carrying out the duties referred to under section 2703 and such detail shall be without interruption or loss of civil service status or privilege.

"(b) For purposes of supporting the Committee, the Archivist may obtain the services of experts and consultants in accordance with the provisions of section 3109 of title 5, United States Code, but at rates for individuals not to exceed the daily equivalent of the minimum annual rate of basic pay payable for GS-16 of the General Schedule under section 5332 of such title.".

(2) The table of chapters for title 44, United States Code, is amended by inserting after the item relating to chapter 25 of such title the following:

"27. Advisory Committee on the Records of Congress..... 2701".

OFFICE OF GOVERNMENT ETHICS

SALARIES AND EXPENSES

For necessary expenses to carry out functions of the Office of Government Ethics pursuant to the Ethics in Government Act of 1978, as amended by Public Law 100-598, and the Ethics Reform Act of 1989, Public Law 101-194, including services as authorized by 5 U.S.C. 3109, rental of conference rooms in the District of Columbia and elsewhere, hire of passenger motor vehicles, and not to exceed $1,500 for official reception and representation expenses: $3,725,000.

OFFICE OF PERSONNEL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

For necessary expenses to carry out functions of the Office of Personnel Management pursuant to Reorganization Plan Numbered 2 of 1978 and the Civil Service Reform Act of 1978, including services as authorized by 5 U.S.C. 3109, medical examinations performed for veterans by private physicians on a fee basis, rental of conference rooms in the District of Columbia and elsewhere, hire of passenger motor vehicles, not to exceed $2,500 for official reception and representation expenses, and advances for reimbursements to applicable funds of the Office of Personnel Management and the Federal Bureau of Investigation for expenses incurred under Executive Order 10422 of January 9, 1953, as amended: *Provided*, That, notwithstanding 31 U.S.C. 3302, the Director is hereby authorized to accept gifts for goods and services, which shall be available only for hosting National Civil Service Appreciation Conferences, to be held in several locations throughout the United States in 1991. Goods and services provided in connection with the conference may include, but are not limited to, food

and refreshments; rental of seminar rooms, banquet rooms, and facilities; and use of communications, printing and other equipment. Awards of minimal intrinsic value will be allowed. Gifts provided by an individual donor shall not exceed 50 percent of the total value of the gifts provided at each location; [$114,461,000] *$114,461,000, of which not less than $250,000 shall be made available to continue the use of job sharing arrangements in agencies as authorized in section 3402 of title 5, United States Code, and of which not less than $1,000,000 shall be made available for establishment of Federal health promotion and disease prevention programs for Federal employees*; and in addition $74,379,000 for administrative expenses, to be transferred from the appropriate trust funds of the Office of Personnel Management in the amounts determined by the Office of Personnel Management without regard to other statutes, including direct procurement of health benefits printing, for the retirement and insurance programs: *Provided further*, That amounts authorized to be transferred from the appropriate trust funds for implementation of the Federal Employees' Retirement System automated recordkeeping system in this or prior Acts, may be transferred at any time the Office of Personnel Management deems appropriate: *Provided*, That the provisions of this appropriation shall not affect the authority to use applicable trust funds as provided by section 8348(a)(1)(B) of title 5, U.S.C.: *Provided further*, That no part of this appropriation shall be available for salaries and expenses of the Legal Examining Unit of the Office of Personnel Management established pursuant to Executive Order 9358 of July 1, 1943, or any successor unit of like purpose: *Provided further*, That the President's Commission on White House Fellows, established by Executive Order 11183 of October 3, 1964, may, during the fiscal year ending September 30, 1991, accept donations of money, property, and personal services in connection with the development of a publicity brochure to provide information about the White House Fellows, except that no such donations shall be accepted for travel or reimbursement of travel expenses, or for the salaries of employees of such Commission.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act, as amended, including services as authorized by 5 U.S.C. 3109, rental of conference rooms in the District of Columbia and elsewhere, hire of passenger motor vehicles: $4,607,000; and in addition, not to exceed $3,043,000 for administrative expenses to audit the Office of Personnel Management's insurance programs, to be transferred from the appropriate trust funds of the Office of Personnel Management, as determined by the Inspector General.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH BENEFITS

For payment of Government contributions with respect to retired employees, as authorized by chapter 89 of title 5, United States Code, and the Retired Federal Employees Health Benefits Act (74 Stat. 849), as amended, $3,509,563,000, to remain available until expended.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEE LIFE INSURANCE

For payment of Government contributions with respect to employees retiring after December 31, 1989, as required by chapter 87 of title 5, United States Code, $8,700,000, to remain available until expended.

PAYMENT TO CIVIL SERVICE RETIREMENT AND DISABILITY FUND

For financing the unfunded liability of new and increased annuity benefits becoming effective on or after October 20, 1969, as authorized by 5 U.S.C. 8348, and annuities under special Acts to be credited to the Civil Service Retirement and Disability Fund, $5,687,105,000: *Provided*, That annuities authorized by the Act of May 29, 1944, as amended and the Act of August 19, 1950, as amended (33 U.S.C. 771-75), may hereafter be paid out of the Civil Service Retirement and Disability Fund.

REVOLVING FUND

Pursuant to section 4109(d)(1) of title 5, United States Code, costs for entertainment expenses of the President's Commission on Executive Exchange shall not exceed $12,000.

OFFICE OF PERSONNEL MANAGEMENT

GENERAL PROVISION

SECTION 1. Section 8902(k)(1) of title 5, United States Code, is amended—

(1) by striking out "performed by a clinical psychologist or optometrist" and inserting in lieu thereof "performed by a clinical psychologist, optometrist, nurse midwife, or nurse practitioner/clinical specialist"; and

(2) by striking out "qualified clinical social worker or optometrist" and inserting in lieu thereof "qualified clinical social worker, optometrist, nurse midwife, or nurse practitioner/nurse clinical specialist".

MERIT SYSTEMS PROTECTION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out functions of the Merit Systems Protection Board pursuant to Reorganization Plan Numbered 2 of 1978 and the Civil Service Reform Act of 1978, including services as authorized by 5 U.S.C. 3109, rental of conference rooms in the District of Columbia and elsewhere, hire of passenger motor vehicles, and direct procurement of survey printing, $22,564,000, together with not to exceed $1,500,000 for administrative expenses to adjudicate retirement appeals to be transferred from the Civil Service Retirement and Disability Fund in amounts determined by the Merit Systems Protection Board.

OFFICE OF SPECIAL COUNSEL

SALARIES AND EXPENSES

For necessary expenses to carry out functions of the Office of Special Counsel pursuant to Reorganization Plan Numbered 2 of 1978, the Civil Service Reform Act of 1978 (Public Law 95-454), and the Whistleblower Protection Act of 1989 (Public Law 101-12), including services as authorized by 5 U.S.C. 3109, payment of fees and expenses for witnesses, rental of conference rooms in the District of Columbia and elsewhere, and hire of passenger motor vehicles; $6,608,000.

FEDERAL LABOR RELATIONS AUTHORITY

SALARIES AND EXPENSES

For necessary expenses to carry out functions of the Federal Labor Relations Authority, pursuant to Reorganization Plan Numbered 2 of 1978, and the Civil Service Reform Act of 1978, including services as authorized by 5 U.S.C. 3109, including hire of experts and consultants, hire of passenger motor vehicles, rental of conference rooms in the District of Columbia and elsewhere; $18,443,000: *Provided*, That public members of the Federal Services Impasses Panel may be paid travel expenses and per diem in lieu of subsistence as authorized by law (5 U.S.C. 5703) for persons employed intermittently in the Government service, and compensation as authorized by 5 U.S.C. 3109.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

For necessary expenses, including contract reporting and other services as authorized by 5 U.S.C. 3109; $31,598,000: *Provided*, That travel expenses of the judges shall be paid upon the written certificate of the judge.

This title may be cited as the "Independent Agencies Appropriations Act, 1991".

TITLE V—GENERAL PROVISIONS

THIS ACT

SEC. 501. Where appropriations in this Act are expendable for travel expenses of employees and no specific limitation has been placed thereon, the expenditures for such travel expenses may not exceed the amount set forth therefor in the budget estimates submitted for the appropriations without the advance approval of the House and Senate Committees on Appropriations: *Provided*, That this section shall not apply to travel performed by uncompensated officials of local boards and appeal boards of the Selective Service System; to travel performed directly in connection with care and treatment of medical beneficiaries of the Department of Veterans Affairs; to travel of the Office of Personnel Management in carrying out its observation responsibilities of the Voting Rights Act; or to payments to interagency motor pools where separately set forth in the budget schedules.

SEC. 502. No part of any appropriation contained in this Act shall be available to pay the salary of any person filling a position, other than a temporary position, formerly held by an employee who has left to enter the Armed Forces of the United States and has satisfactorily completed his period of active military or naval service and has within ninety days after his release from such service or from hospitalization continuing after discharge for a period of not more than one year made application for restoration to his former position and has been certified by the Office of Personnel Management as still qualified to perform the duties of his former position and has not been restored thereto.

SEC. 503. No part of any appropriation made available in this Act shall be used for the purchase or sale of real estate or for the purpose of establishing new offices inside or outside the District of Columbia: *Provided*, That this limitation shall not apply to programs which have been approved by the Congress and appropriations made therefor.

SEC. 504. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 505. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where other-

wise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 506. No part of any appropriation contained in this Act shall be available for the procurement of, or for the payment of, the salary of any person engaged in the procurement of any hand or measuring tool(s) not produced in the United States or its possessions except to the extent that the Administrator of General Services or his designee shall determine that a satisfactory quality and sufficient quantity of hand or measuring tools produced in the United States or its possessions cannot be procured as and when needed from sources in the United States and its possessions, or except in accordance with procedures prescribed by section 6-104.4(b) of Armed Services Procurement Regulation dated January 1, 1969, as such regulation existed on June 15, 1970: *Provided,* That a factor of 75 per centum in lieu of 50 per centum shall be used for evaluating foreign source end products against a domestic source end product. This section shall be applicable to all solicitations for bids opened after its enactment.

SEC. 507. None of the funds made available to the General Services Administration pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949 shall be obligated or expended after the date of enactment of this Act for the procurement by contract of any service which, before such date, was performed by individuals in their capacity as employees of the General Services Administration in any position of guards, elevator operators, messengers, and custodians, except that such funds may be obligated or expended for the procurement by contract of the covered services with sheltered workshops employing the severely handicapped under Public Law 92-28.

SEC. 508. No funds appropriated in this Act shall be available for administrative expenses in connection with implementing or enforcing any provisions of the rule TD ATF-66 issued June 13, 1980, by the Department of the Treasury, Bureau of Alcohol, Tobacco and Firearms on labeling and advertising of wine, distilled spirits and malt beverages, except if the expenditure of such funds, is necessary to comply with a final order of the Federal court system.

[SEC. 509. None of the funds appropriated in this Act may be used for administrative expenses to close the Federal Information Center of the General Services Administration located in Sacramento, California.]

SEC. [510] *509.* None of the funds made available by this Act for the Department of the Treasury may be used for the purpose of eliminating any existing requirement for sureties on customs bonds.

SEC. [511] *510.* None of the funds made available by this Act shall be available for any activity or for paying the salary of any Government employee where funding an activity or paying a salary to a Government employee would result in a decision, determination, rule, regulation, or policy that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

SEC. [512] *511.* None of the funds made available by this Act shall be available for the purpose of transferring control over the Federal Law Enforcement Training Center located at Glynco, Georgia, Marana, Arizona, and Artesia, New Mexico, out of the Treasury Department.

SEC. [513] *512.* No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes within the United States not heretofore authorized by the Congress.

SEC. [514] *513.* No part of any appropriation contained in this Act shall be available for the payment of the salary of any officer or employee of the United States Postal Service, who—

(1) prohibits or prevents, or attempts or threatens to prohibit or prevent, any officer or employee of the United States Postal Service from having any direct oral or written communication or contact with any Member or committee of Congress in connection with any matter pertaining to the employment of such officer or employee or pertaining to the United States Postal Service in any way, irrespective of whether such communication or contact is at the initiative of such officer or employee or in response to the request or inquiry of such Member or committee; or

(2) removes, suspends from duty without pay, demotes, reduces in rank, seniority, status, pay, or performance of efficiency rating, denies promotion to, relocates, reassigns, transfers, disciplines, or discriminates in regard to any employment right, entitlement, or benefit, or any term or condition of employment of, any officer or employee of the United States Postal Service, or attempts or threatens to commit any of the foregoing actions with respect to such officer or employee, by reason of any communication or contact of such officer or employee with any Member or committee of Congress as described in paragraph (1) of this subsection.

SEC. [515] *514.* No funds appropriated by this Act shall be available to pay for an abortion, or the administrative expenses in connection with any health plan under the Federal employees health benefit program which provides any benefits or coverage for abortions.

SEC. [516] *515.* The provision of section [515] *514* shall not apply where the life of the mother would be endangered if the fetus were carried to term.

SEC. [517] *516.* None of the funds appropriated by this Act may be used to solicit bids, lease space, or enter into any contract to close or consolidate executive seminar centers for the Office of Personnel Management.

[SEC. 518. The Administrator of General Services, under section 210(h) of the Federal Property and Administrative Services Act of 1949, as amended, may acquire, by means of a lease of up to thirty years duration, space for the United States Courts in Tacoma, Washington, at the site of Union Station, Tacoma, Washington.]

SEC. [519] *517.* Funds under this Act shall be available to authorized by sections 4501-4506 of title 5, United States Code, when the achievement involved is certified, or when an award for such achievement is otherwise payable, in accordance with such sections. Such funds may not be used for any purpose with respect to which the preceding sentence relates beyond fiscal year [1990] *1991.*

SEC. [520] *518.* (a) Notwithstanding any other provision of law, during fiscal year 1991, the authority to establish higher rates of pay under section 5303 of title 5, United States Code, may—

(1) in addition to positions paid under any of the pay systems referred to in subsection (a) of section 5303 of title 5, United States Code, be exercised with respect to positions paid under any other pay system established by or under Federal statute for positions within the executive branch of the Government; and

(2) in addition to the circumstance described in the first sentence of subsection (a) of section 5303 of title 5, United States Code, be exercised based on—

(A) pay rates for the positions involved being generally less than the rates payable for similar positions held—

(i) by individuals outside the Government; or

(ii) by other individuals within the executive branch of the Government;

(B) the remoteness of the area or location involved;

(C) the undesirability of the working conditions or the nature of the work involved, including exposure to toxic substances or other occupational hazards; or

(D) any other circumstances which the President (or an agency duly authorized or designated by the President in accordance with the last sentence of section 5303(a) of title 5, United States Code, for purposes of this subparagraph) may identify.

Nothing in paragraph (2) shall be considered to permit the exercise of any authority based on any of the circumstances under such paragraph without an appropriate finding that such circumstances are significantly handicapping the Government's recruitment or retention efforts.

(b)(1) A rate of pay established during fiscal year 1991 through the exercise of any additional authority under subsection (a) of section 5303 of title 5, United States Code—

(A) shall be subject to revision or adjustment,

(B) shall be subject to reduction or termination (including pay retention), and

(C) shall otherwise be treated,

in the manner as generally applies with respect to any rate otherwise established under section 5303 of title 5, United States Code.

(2) The President (or an agency duly authorized or designated by the President in accordance with the last sentence of section 5303(a) of title 5, United States Code, for purposes of this subsection) may prescribe any regulations necessary to carry out this subsection.

(c) Any additional authority under this section may, during fiscal year 1991, be exercised only to the extent that amounts otherwise appropriated under this Act for purposes of section 5303 of title 5, United States Code, are available.

[SEC. 521. None of the funds available in this Act may be used to contract out positions or downgrade the position classification of the Bureau of Engraving and Printing Police Force.]

SEC. 519. None of the funds appropriated or otherwise made available to the Department of the Treasury by this or any other Act shall be obligated or expended to contract out positions in, or downgrade the position classifications of, members of the United States Mint Police Force and the Bureau of Engraving and Printing Police Force, or for studying the feasibility of contracting out such positions.

SEC. [522] *520.* The Office of Personnel Management may, during the fiscal year ending September 30, 1991, accept donations of supplies and equipment for the Federal Executive Institute for the enhancement of the morale and educational experience of attendees at the Institute.

SEC. [523] *521.* No part of any appropriation contained in this Act shall be available for the procurement of, or for the payment of, the salary of any person engaged in the procurement of stainless steel flatware not

produced in the United States or its possessions, except to the extent that the Administrator of General Services or his designee shall determine that a satisfactory quality and sufficient quantity of stainless steel flatware produced in the United States or its possessions, cannot be procured as and when needed from sources in the United States or its possessions or except in accordance with procedures provided by section 6-104.4(b) of Armed Services Procurement Regulations, dated January 1, 1969. This section shall be applicable to all solicitations for bids issued after its enactment.

SEC. [524] *522.* (1) The Secretary of the Treasury shall issue, no later than one hundred and eighty days after the enactment of this Act, to the House Committee on Appropriations and the Senate Committee on Appropriations a report making recommendations on appropriate measures to reduce the Federal expenditures incurred when former Presidents and spouses of former Presidents travel for the purpose of speaking or making an appearance for a payment of money or any thing of value, in excess of any actual and necessary travel expenses.

(2) The Secretary of the Treasury, in consultation with the advisory committee established by Public Law 90-331, shall consider among other expenses, administrative expenses and expenses associated with Secret Service protection, and shall determine what methods of reimbursement would be feasible to offset expenditures by the Federal Government that are associated with such speeches or appearances by former Presidents or spouses of former Presidents.

SEC. [525] *523.* The United States Secret Service may, during the fiscal year ending September 30, 1991, accept donations of money to off-set costs incurred while protecting former Presidents and spouses of former Presidents when the former President or spouse travels for the purpose of making an appearance or speech for a payment of money or any thing of value.

[SEC. 526. None of the funds made available by this Act may be used to withdraw the designation of the Virginia Inland Port at Front Royal, Virginia, as a United States Customs Service port of entry.]

SEC. [527] *524.* None of the funds made available to the Postal Service by this Act shall be used to transfer mail processing capabilities from the Las Cruces, New Mexico postal facility, and that every effort will be made by the Postal Service to recognize the rapid rate of population growth in Las Cruces and to automate the Las Cruces, New Mexico postal facility in order that mail processing can be expedited and handled in Las Cruces.

[ADDITIONAL AUTHORITY FOR THE SECRET SERVICE

[SEC. 528. (a) IN GENERAL.—Section 3056(b)(1) of title 18, United States Code, is amended—

[(1) by inserting "financial institutions, and the Resolution Trust Corporation, and concurrent with the authority of any other Federal law enforcement agency," after "land bank associations,";

[(2) by inserting "215," after "213,";

[(3) by inserting "656," after "493,";

[(4) by inserting "1005," after "709,"; and

[(5) by inserting "1341, 1343, 1344, 1510," after "1014,".

[b) EFFECT OF AMENDMENTS.—The amendments made by this section shall not alter the authority of any other Federal law enforcement agency.]

SEC. 525. (a) Notwithstanding any other law—

(1) the Attorney General may accept, and Federal departments and agencies, including the United States Secret Service, the Internal Revenue Service, the Resolution Trust Corporation, and the appropriate Federal banking agency, may provide, without reimbursement, the services of attorneys, law enforcement personnel, and other employees of any other departments or agencies of the Federal Government to assist the Department of Justice, subject to the supervision of the Attorney General, in the investigation and prosecution of fraud or other criminal or unlawful activity in or against any federally insured financial institution or the Resolution Trust Corporation; and

(2) any attorney of a department or agency whose services are accepted pursuant to paragraph (1) may, subject to the supervision of the Attorney General, conduct any kind of legal proceeding, civil or criminal, including grand jury proceedings and proceedings before committing magistrates, and perform any other investigative or prosecutorial function, which United States attorney are authorized by law to conduct or perform, whether or not the attorney is a resident of the district in which the proceeding is brought; and

(3) any law enforcement personnel of the United States Secret Service whose services are accepted pursuant to paragraph (1) may, subject to the supervision of the Attorney General, conduct or perform any kind of investigation, civil or criminal, which the Department of Justice law enforcement presonnel are authorized by law to conduct or perform.

(b) This section—

(1) shall not, except as expressly provided herein, alter the authority of any Federal law enforcement agency; and

(2) shall expire coterminously with the authority of the Resolution Trust Corporation or six years from the date of enactment of this section, whichever date occurs earlier, except that the Attorney General may extend the authority conferred herein as he deems appropriate.

SEC. 526. Such sums as may be necessary for fiscal year 1991 pay raises for programs funded by this Act shall be absorbed within the levels appropriated by this Act.

SEC. 527. Section 12 of the President Protection Assistance Act of 1976 (18 U.S.C. 3056 note) is amended by striking out "Expenditures for this reimbursement are authorized not to exceed $160,000 in any one fiscal year" and inserting in lieu thereof "Expenditures for this reimbursement are authorized not to exceed $200,000 in any one fiscal year".

SEC. 528. Title 41, United States Code, chapter 4, subchapter IV, is amended by inserting at the end thereof, the following new section:

"The Internal Revenue Service may use competitive procedures or procedures other than competitive procedures to procure the services of experts for use in the examination of tax returns or litigating any action under the Internal Revenue Code in the United States Tax Court, whether or not the expert is expected to testify at trial. The Internal Revenue Service need not provide any written justification for the use of procedures other than competitive procedures when procuring expert services for cases involving the Internal Revenue Code and need not furnish for publication in the Commerce Business Daily or otherwise any notice of solicitation or synopsis with respect to such procurement.".

TITLE VI—GENERAL PROVISIONS

DEPARTMENTS, AGENCIES, AND CORPORATIONS

SEC. 601. Unless otherwise specifically provided, the maximum amount allowable during the current fiscal year in accordance with section 16 of the Act of August 2, 1946 (60 Stat. 810), for the purchase of any passenger motor vehicle (exclusive of buses and ambulances), is hereby fixed at $7,100 except station wagons for which the maximum shall be $8,100: *Provided,* That these limits may be exceeded by not to exceed $3,700 for police-type vehicles, and by not to exceed $4,000 for special heavy-duty vehicles: *Provided further,* That the limits set forth in this section may be exceeded by not more than five percent for electric or hybrid vehicles purchased for demonstration under the provisions of the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976.

SEC. 602. Appropriations of the executive departments and independent establishments for the current fiscal year available for expenses of travel or for the expenses of the activity concerned, are hereby made available for quarters allowances and cost-of-living allowances, in accordance with 5 U.S.C. 5922-24.

SEC. 603. Unless otherwise specified during the current fiscal year no part of any appropriation contained in this or any other Act shall be used to pay the compensation of any officer or employee of the Government of the United States (including any agency the majority of the stock of which is owned by the Government of the United States) whose post of duty is in the continental United States unless such person (1) is a citizen of the United States, (2) is a person in the service of the United States on the date of enactment of this Act, who, being eligible for citizenship, has filed a declaration of intention to become a citizen of the United States prior to such date and is actually residing in the United States, (3) is a person who owes allegiance to the United States, (4) is an alien from Cuba, Poland, South Vietnam, or the Baltic countries lawfully admitted to the United States for permanent residence, or (5) South Vietnamese, Cambodian, and Laotian refugees paroled in the United States after January 1, 1975: *Provided,* That for the purpose of this section, an affidavit signed by any such person shall be considered prima facie evidence that the requirements of this section with respect to his status have been complied with: *Provided further,* That any person making a false affidavit shall be guilty of a felony, and, upon conviction, shall be fined no more than $4,000 or imprisoned for not more than one year, or both: *Provided further,* That the above penal clause shall be in addition to, and not in substitution for any other provisions of existing law: *Provided further,* That any payment made to any officer or employee contrary to the provisions of this section shall be recoverable in action by the Federal Government. This section shall not apply to citizens of Ireland, Israel, the Republic of the Philippines or to nationals of those countries allied with the United States in the current defense effort, or to temporary employment of translators, or to temporary employment in the field service (not to exceed sixty days) as a result of emergencies.

SEC. 604. Appropriations available to any department or agency during the current fiscal year for necessary expenses, including maintenance or operating expenses, shall also be available for payment to the Gener-

al Services Administration for charges for space and services and those expenses of renovation and alteration of buildings and facilities which constitute public improvements performed in accordance with the Public Buildings Act of 1959 (73 Stat. 749), the Public Buildings Amendments of 1972 (86 Stat. 216), or other applicable law.

SEC. 605. Funds made available by this or any other Act for administrative expenses in the current fiscal year of the corporations and agencies subject to chapter 91 of title 31, United States Code, shall be available, in addition to objects for which such funds are otherwise available, for rent in the District of Columbia; services in accordance with 5 U.S.C. 3109; and the objects specified under this head, all the provisions of which shall be applicable to the expenditure of such funds unless otherwise specified in the Act by which they are made available: *Provided*, That in the event any functions budgeted as administrative expenses are subsequently transferred to or paid from other funds, the limitations on administrative expenses shall be correspondingly reduced.

SEC. 606. No part of any appropriation for the current fiscal year contained in this or any other Act shall be paid to any person for the filling of any position for which he or she has been nominated after the Senate has voted not to approve the nomination of said person.

SEC. 607. Pursuant to section 1415 of the Act of July 15, 1952 (66 Stat. 662), foreign credits (including currencies) owed to or owned by the United States may be used by Federal agencies for any purpose for which appropriations are made for the current fiscal year (including the carrying out of Acts requiring or authorizing the use of such credits), only when reimbursement therefor is made to the Treasury from applicable appropriations of the agency concerned: *Provided*, That such credits received as exchanged allowances or proceeds of sales of personal property may be used in whole or part payment for acquisition of similar items, to the extent and in the manner authorized by law, without reimbursement to the Treasury.

SEC. 608. No part of any appropriation contained in this or any other Act shall be available for interagency financing of boards, commissions, councils, committees, or similar groups (whether or not they are interagency entities) which do not have a prior and specific statutory approval to receive financial support from more than one agency or instrumentality.

SEC. 609. Funds made available by this or any other Act to the "Postal Service Fund" (39 U.S.C. 2003) shall be available for employment of guards for all buildings and areas owned or occupied by the Postal Service and under the charge and control of the Postal Service, and such guards shall have, with respect to such property, the powers of special policemen provided by the first section of the Act of June 1, 1948, as amended (62 Stat. 281; 40 U.S.C. 318), and, as to property owned or occupied by the Postal Service, the Postmaster General may take the same actions as the Administrator of General Services may take under the provisions of sections 2 and 3 of the Act of June 1, 1948, as amended (62 Stat. 281; 40 U.S.C. 318a, 318b), attaching thereto penal consequences under the authority and within the limits provided in section 4 of the Act of June 1, 1948, as amended (62 Stat. 281; 40 U.S.C. 318c).

SEC. 610. None of the funds made available pursuant to the provisions of this Act shall be used to implement, administer, or enforce any regulation which has been disapproved pursuant to a resolution of disapproval duly adopted in accordance with the applicable law of the United States.

SEC. 611. No part of any appropriation contained in, or funds made available by, this or any other Act, shall be available for any agency to pay to the Administrator of the General Services Administration a higher rate per square foot for rental of space and services (established pursuant to section 210(j) of the Federal Property and Administrative Services Act of 1949, as amended) than the rate per square foot established for the space and services by the General Services Administration for the fiscal year for which appropriations were granted.

SEC. 612. (a) Notwithstanding any other provision of law, and except as otherwise provided in this section, no part of any of the funds appropriated for the fiscal years ending September 30, 1991, or September 30, 1992, by this Act or any other Act, may be used to pay any prevailing rate employee described in section 5342(a)(2)(A) of title 5, United States Code, or any employee covered by section 5348 of that title—

(1) during the period from the date of expiration of the limitation imposed by section 612 of the Treasury, Postal Service, and General Government Appropriations Act, 1990, until the first day of the first applicable pay period that begins not less than ninety days after that date, in an amount that exceeds the rate payable for the applicable grade and step of the applicable wage schedule in accordance with such section 612; and

(2) during the period consisting of the remainder, if any, of fiscal year 1991, and that portion of fiscal year 1992, that precedes the normal effective date of the applicable wage survey adjustment that is to be effective in fiscal year 1992, in an amount that exceeds, as a result of a wage survey adjustment, the rate payable under paragraph (1) of this subsection by more than the overall average percentage adjustment in the General Schedule during fiscal year 1991.

(b) Notwithstanding any other provision of law, no prevailing rate employee described in subparagraph (B) or (C) of section 5342(a)(2) of title 5, United States Code, may be paid during the periods for which subsection (a) of this section is in effect at a rate that exceeds the rates that would be payable under subsection (a) were subsection (a) applicable to such employee.

(c) For the purpose of this section, the rates payable to an employee who is covered by this section and who is paid from a schedule that was not in existence on September 30, 1990, shall be determined under regulations prescribed by the Office of Personnel Management.

(d) Notwithstanding any other provision of law, rates of premium pay for employees subject to this section may not be changed from the rates in effect on September 30, 1990, except to the extent determined by the Office of Personnel Management to be consistent with the purpose of this section.

(e) The provisions of this section shall apply with respect to pay for services performed by any affected employee on or after October 1, 1990.

(f) For the purpose of administering any provision of law, including section 8431 of title 5, United States Code, or any rule or regulation that provides premium pay, retirement, life insurance, or any other employee benefit, that requires any deduction or contribution, or that imposes any requirement or limitation, on the basis of a rate of salary or basic pay, the rate of salary or basic pay payable after the application of this section shall be treated as the rate of salary or basic pay.

(g) Nothing in this section may be construed to permit or require the payment to any employee covered by this section at a rate in excess of the rate that would be payable were this section not in effect.

(h) The Office of Personnel Management may provide for exceptions to the limitations imposed by this section if the Office determines that such exceptions are necessary to ensure the recruitment or retention of qualified employees.

SEC. 613. None of the funds made available in this Act may be used to plan, implement, or administer (1) any reduction in the number of regions, districts or entry processing locations of the United States Customs Service; or (2) any consolidation or centralization of duty assessment or appraisement functions of any offices in the United States Customs Service.

SEC. 614. During the period in which the head of any department or agency, or any other officer or civilian employee of the Government appointed by the President of the United States, holds office, no funds may be obligated or expended in excess of $5,000 to furnish or redecorate the office of such department head, agency head, officer or employee, or to purchase furniture or make improvements for any such office, unless advance notice of such furnishing or redecoration is expressly approved by the Committees on Appropriations of the House and Senate.

SEC. 615. Funds appropriated in this or any other Act may be used to pay travel to the United States for the immediate family of employees serving abroad in cases of death or life threatening illness of said employee.

SEC. 616. (a) Notwithstanding the provisions of sections 112 and 113 of title 3, United States Code, each Executive agency detailing any personnel shall submit a report on an annual basis in each fiscal year to the Senate and House Committees on Appropriations on all employees or members of the armed services detailed to Executive agencies, listing the grade, position, and offices of each person detailed and the agency to which each such person is detailed.

(b) The provisions of this section shall not apply to Federal employees or members of the armed services detailed to or from—

(1) the Central Intelligence Agency;

(2) the National Security Agency;

(3) the Defense Intelligence Agency;

(4) the offices within the Department of Defense for the collection of specialized national foreign intelligence through reconnaissance programs;

(5) the Bureau of Intelligence and Research of the Department of State;

(6) any agency, office, or unit of the Army, Navy, Air Force, and Marine Corps, the Federal Bureau of Investigation and the Drug Enforcement Administration of the Department of Justice, the Department of the Treasury, and the Department of Energy performing intelligence functions; and

(7) the Director of Central Intelligence.

(c) The exemptions in part (b) of this section are not intended to apply to information on the use of personnel detailed to or from the intelligence agencies which is currently being supplied to the Senate and House Intelligence and Appropriations

Committees by the executive branch through budget justification materials and other reports.

(d) For the purposes of this section, the term "Executive agency" has the same meaning as defined under section 105 of title 5, United States Code (except that the provisions of section 104(2) of title 5, United States Code shall not apply) and includes the White House Office, the Executive Residence, and any office, council, or organizational unit of the Executive Office of the President.

SEC. 617. No funds appropriated in this or any other Act for fiscal year 1991 may be used to implement or enforce the agreements in Standard Forms 312 and 4355 of the Government or any other nondisclosure policy, form or agreement if such policy, form or agreement—

(1) concerns information other than that specifically marked as classified; or, unmarked but known by the employee to be classified; or, unclassified but known by the employee to be in the process of a classification determination;

(2) contains the term classifiable;

(3) directly or indirectly obstructs, by requirement of prior written authorization, limitation of authorized disclosure, or otherwise, the right of any individual to petition or communicate with Members of Congress in a secure manner as provided by the rules and procedures of the Congress;

(4) interferes with the right of the Congress to obtain executive branch information in a secure manner as provided by the rules and procedures of the Congress;

(5) imposes any obligations or invokes any remedies inconsistent with statutory law:

Provided, That nothing in this section shall affect the enforcement of those aspects of such nondisclosure policy, form or agreement that do not fall within subsection (1)-(5) of this section.

[SEC. 618. (a) Notwithstanding any other provision of law, in the case of fiscal year 1991, the overall average percentage of the adjustment under section 5305 of title 5, United States Code, in the rates of pay under the General Schedule, and in the rates of pay under the other statutory pay systems (as defined by section 5301(c) of such title), shall be an increase of 4.1 percent.

[(b) Any increase in a pay rate or schedule which takes effect under such section 5305 in fiscal year 1991 (in accordance with subsection (a)) shall, to the maximum extent practicable, be of the same percentage, and shall take effect as of the first day of the first applicable pay period commencing on or after January 1, 1991.]

SEC. [619] *618.* Notwithstanding any other provision of law, no executive branch agency shall purchase, construct, and/or lease any additional facilities, except within or contiguous to existing locations to be used for the purpose of conducting Federal law enforcement training without the advance approval of the House and Senate Committees on Appropriations.

SEC. [620] *619.* None of the funds appropriated by this or any other Act may be expended by any Federal agency to procure any product or service that is subject to the provisions of Public Law 89-306 and that will be available under the procurement by the Administrator of General Services known as "FTS2000" unless—

(1) such product or service is procured by the Administrator of General Services as part of the procurement known as "FTS2000"; or

(2) that agency establishes to the satisfaction of the Administrator of General Services that—

(A) the agency's requirements for such procurement are unique and cannot be satisfied by property and service procured by the Administrator of General Services as part of the procurement known as "FTS2000"; and

(B) the agency procurement, pursuant to such delegation, would be cost-effective and would not adversely affect the cost-effectiveness of the FTS2000 procurement.

SEC. [621] *620.* No department, agency, or instrumentality of the United States receiving appropriated funds under this Act for fiscal year 1991, or under any other Act appropriating funds for fiscal year 1991, shall obligate or expend any such funds, unless such department, agency, or instrumentality has in place, and will continue to administer in good faith, a written policy designed to ensure that all of its workplaces are free from the illegal use, possession, or distribution of controlled substances (as defined in the Controlled Substances Act) by the officers and employees of such department, agency, or instrumentality.

SEC. [622] *621.* (a) No amount of any grant made by a Federal agency shall be used to finance the acquisition of goods or services (including construction services) unless the recipient of the grant agrees, as a condition for the receipt of such grant, to—

(1) announce in any solicitation for offers to procure such goods or services (including construction services) the amount of Federal funds that will be used to finance the acquisition for which such offers are being solicited; and

(2) express the amount announced pursuant to paragraph (1) as a percentage of the total costs of the planned acquisition.

(b) The requirements of subsection (a) shall not apply to a procurement for goods or services (including construction services) that has an aggregate value of less than $500,000.

SEC. [623] *622.* Notwithstanding section 1346 of title 31, United States Code, or section 608 of this Act, funds made available for fiscal year 1991 by this or any other Act shall be available for the interagency funding of national security and emergency preparedness telecommunications initiatives which benefit multiple Federal departments, agencies, or entities, as provided by Executive Order Numbered 12472 (April 3, 1984).

SEC. [624] *623.* Notwithstanding any provisions of this Act or any other Act, during the fiscal year ending September 30, 1991, any department, division, bureau, or office participating in the Federal Flexiplace Project may use funds appropriated in this or any other Act to install telephone lines, necessary equipment, and pay monthly charges, in any private residence or private apartment: *Provided,* That the head of the department, division, bureau, or office certifies that adequate safeguards against private misuse exist, and that the service is necessary for direct support of the agency's mission.

SEC. [625] *624.* Notwithstanding the provisions of the Act of September 13, 1982 (Public Law 97-258, 31 U.S.C. 1345), any agency, department or instrumentality of the United States which provides or proposes to provide child care services for Federal employees may reimburse any Federal employee or any person employed to provide such services for travel, transportation and subsistence expenses incurred for training classes, conferences or other meetings in connection with the provision of such services: *Provided,* That any per diem allowance made pursuant to this section shall not exceed the rate specified in regulations prescribed pursuant to section 5707 of title 5, United States Code.

[SEC. 626. (a) Notwithstanding any other provision of law, the Secretary of Education, by appropriate release instrument, shall release New College of California, Inc., from the requirement not to mortgage, or encumber the property as specified in condition subsequent No. 2 as set forth at page 3 of that quitclaim Deed dated April 14, 1975, wherein the United States of America conveyed to New College of California, Inc., certain real property identified in that deed instrument. The intent purpose of such release and waiver being to enable New College of California, Inc., to secure needed financing for repairs to the facility, as identified in paragraph (b) necessitated by earthquake activity of October, 1989; such purpose to be included in the instrument releasing the requirement not to mortgage.

[(b) The property, sometimes known as 50 Fell Street, is described as: A parcel of land situated in the City and County of San Francisco, State of California, said parcel being described in the Judgment on Declaration of Taking entered 11 March 1946 in Civil Action No. 25791 in the District Court of the United States in and for the Northern District of California, Southern Division, which was filed March 22, 1946, in the Office of the Recorder, City and County of San Francisco, California. Beginning at a point on the northerly line of Fell Street distant therefrom 100 feet easterly from the easterly line of Van Ness Avenue and running thence easterly along said line of Fell Street 109 feet; thence at a right angle northerly 120 feet; thence at a right angle westerly 109 feet; thence at a right angle southerly 120 feet to the Point of Beginning, being a portion of Western Addition, Block No. 69, and known on the assessor's map as Lot 10, Block 814, City and County of San Francisco, California.]

SEC. 625. (a) Agencies receiving funds appropriated by any Act and which award contracts under the Federal Acquisition Regulations shall provide to the General Accounting Office during October 1991, the following information for contracts awarded during fiscal year 1991—

(1) the number and total dollar value of contracts awarded which required bonding of the contractors;

(2) the number and total dollar value of contracts for which individual sureties were used to meet the bonding requirements;

(3) the number of defaults by contractors using individual sureties and percentage they represent of total defaults;

(4) the number of individual sureties who defaulted on their obligation and the total dollar value of such defaults; and

(5) the number of contracts awarded to Minority Business Enterprises which required bonding of contractors and the number of these which used individual sureties to meet the bonding requirements.

(b) The General Accounting Office shall compile the information collected under subsection (a) and provide a report to the Senate and House Appropriations Committees no later than April 1, 1992. Such report shall include—

(1) the percentage of contracts for which individual sureties were used to meet bonding requirements;

(2) the percentage of total defaults by contractors using individual sureties;

(3) the percentage of individual sureties which default on their obligations; and

(4) the percentage of contracts awarded to Minority Business Enterprises for which individual sureties were used to meet bonding requirements.

SEC. 626. None of the funds appropriated by this or any other Act may be obligated or expended by any Federal department, agency, or other instrumentality for the salaries or expenses of any employee appointed to a position of a confidential or policy-determining character excepted from the competitive service pursuant to section 3302 of title 5, United States Code, without a certification to the Office of Personnel Management from the head of the Federal department, agency, or other instrumentality employing the Schedule C appointee that the Schedule C position was not created solely or primarily in order to detail the employee to the White House.

SEC. 627. None of the funds appropriated or made available to any department, agency, or office by this Act or any other Act, shall be available for obligation or expenditure to issue any accounting principles, standards, or requirements for the Federal Government which are inconsistent with those established pursuant to section 3511 of title 31, United States Code.

This Act may be cited as the "Treasury, Postal Service and General Government Appropriations Act, 1991".

The PRESIDING OFFICER (Mr. GLENN). The Senator from Arizona.

Mr. DECONCINI. Mr. President, I am pleased to bring before the Senate H.R. 5241, the Fiscal Year 1991 Appropriations Act for the Department of the Treasury, Postal Service, and General Government. H.R. 5241 responds to the increasing requirements of Federal law enforcement, revenue generation and General Government operations. This was a particularly difficult year to formulate funding recommendations for the Department of the Treasury, Postal Service, the Executive Office of the President and certain independent agencies because the President's budget request for some of the agencies, like the Internal Revenue Service, was higher than the subcommittee's 302(b) allocation would permit us to spend.

Nonetheless, I believe the committee recommendations contained in H.R. 5241 meet the highest priorities of the Federal agencies which receive funding under the act. The committee bill totals $20.720 billion in budget authority and $19.881 billion in outlays. This amount is $2.547 million below the President's request and $10.183 million below the House-passed bill. In relation to our 302(b) allocation, the recommendation is $84.349 million below our domestic discretionary ceiling for budget authority and is within our ceiling for domestic discretionary outlays.

This points out, Mr. President, there is no room here for add ons without finding some reduction.

Briefly, I will go over some of the highlights contained in the committee bill.

First, let me thank my distinguished ranking member who is not here, Senator DOMENICI, who is part of the budget summit going on, and I am pleased to have our colleague from Mississippi, Senator COCHRAN, sitting in and handling this for us.

For Federal law enforcement, the bill contains an additional $21.639 million for the U.S. Customs Service. This amount of funding will restore reductions due to increased pay costs and permit the Customs Service to increase by 500 the number of inspectors at our land border, sea, and airports of entry for drug interdiction and merchandise processing purposes.

The bill includes an additional $30.419 million for the Bureau of Alcohol, Tobacco, and Firearms. This increase will allow ATF to add 287 positions above the fiscal year 1990 level for the armed career criminal program.

It includes an additional $10.350 million for the construction of additional Federal law enforcement training center dormitories to meet increased student training demands.

The bill includes an additional $15.1 million for the Secret Service to allow the service to fund some overdue protection initiatives and curb the erosion of base funding from other programs.

The bill increases by $32 million to a new level of $82 million the amount of funding available for the Office of National Drug Control Policy's designated high intensity drug trafficking areas. Mr. President, over the past several months, the subcommittee has held field hearings in Phoenix and New York on the Office of National Drug Control Policy's strategic plan for the high intensity drug trafficking areas. From the testimony presented at the Arizona hearing and the one in New York, it was evident that the Congress needed to provide additional resources to support State and local law enforcement activities in each of the five high intensity drug trafficking areas. Existing plans by the Office of National Drug Control Policy allocate no direct funds to State and local law enforcement for carrying out the job they will be asked to do in each of the five HIDTA areas, and I think it is up to the Congress to make sure some of this money gets to the individuals who are on the front lines of this drug war. The recommendations contained in the bill do just that.

For the General Services Administration, the bill provides $1.283 billion for construction of new Federal office buildings requested by the Administration in its fiscal year 1991 budget amendment and $211.659 million for full funding of construction, repair and alterations of United States-Mexico border facilities. Mr. President, as you may know, for the past 3 years the Congress has provided increased funding to repair our deteriorated land border ports of entry along the United States-Mexico border. The funding we propose for fiscal year 1991 will enable the United States to provide modern and efficient inspection facilities along the border—facilities which will ultimately enhance the flow of trade while permitting us to do a better job of interdicting the illegal entry of narcotics.

For the Internal Revenue Service the bill provides an increase of $405.606 million over the fiscal year 1990 enacted level of funding. This amount represents a 7-percent increase over the fiscal year 1990 level. This level of funding will permit the IRS to achieve its goals for taxpayer service, meet growing labor and other nondiscretionary support costs and maintain the current schedule for redesign of the IRS tax processing systems, which is critical to the well-being of our tax collection system.

Mr. President, in previous years the Congress has attempted to provide the full amount of funding required by the Internal Revenue Service to carry out its enormous tax collection responsibilities. However, due to unanticipated mandatory labor costs IRS has been repeatedly faced with budget shortfalls.

Mr. President, in fiscal year 1991, we hope to alter this situation by providing an additional $95 million to the IRS for the specific purpose of meeting mandatory pay, labor, and other nondiscretionary program costs. This action will permit the agency to cover its basic requirements without having to shift funds from critical areas.

For the Executive Office of the President agencies like the White House, the Office of Management and Budget, and numerous other Federal agencies, the committee bill provides $329.973 million, which is $59.155 million above the amount of funding provided in fiscal year 1990.

For the mandatory programs under the jurisdiction of the Office of Personnel Management, which fund civil service employee and annuitant retirement, health, and life insurance benefits, the committee bill contains the full requested amount of $9.205 billion. This level of funding reflects an increase of $263.727 million over the fiscal year 1990 enacted level and will permit the Federal Government to meet its statutory obligations to current Federal employees as well as Federal retirees.

All other programs in the committee bill are either at or slightly above the President's requested level of funding.

This is a balanced bill, Mr. President, which will permit Federal law enforcement agencies and the many basic Government agencies under our jurisdiction to operate effectively in fiscal year 1991. It meets funding priorities and at the same time meets the

budget deficit reduction targets. I urge its adoption by the full Senate.

(The remarks of Mr. DOMENICI appear at this point in the RECORD by unanimous consent.)

Mr. DOMENICI. Mr. President, we are pleased to bring before the Senate today H.R. 5241, the fiscal year 1991 treasury, Postal Service and General Government Appropriations Act. This bill, as reported by the Appropriations Committee, provides a total of $20.7 billion for programs and activities of the United States Treasury Department, the United States Postal Service, the Executive Office of the President, and a number of very important agencies, including the General Services Administration, the Office of Personnel Management, and the National Archives and Records Administration.

The bill recommends total discretionary spending of $11.5 billion in budget authority and $10.3 billion in outlays for fiscal year 1991. These amounts are below the Treasury, Postal Service, and General Government Subcommittee's 302(b) discretionary spending allocations. Total discretionary spending recommended by this bill is also $3 million in budget authority and $153 million in outlays below the levels requested by the President.

It has not been easy to meet the fiscal year 1991 spending targets set for this bill given the new and increased funding needs of the many and varied programs and activities it funds. We have attempted to provide at least the level requested for most of these agencies, recognizing that they are responsible for the basic, day-today operations of our Federal Government. Obviously, within the total funding provided, we are recommending some spending priorities and policies which are different than those contained in the President's budget and the House-passed bill.

I would like to highlight some of these.

First, this bill continues to place, a high funding priority on law and drug enforcement activities. For the Customs Service; the Financial Crimes Enforcement Network; the Federal Law Enforcement Training Center; the Secret Service; and the Bureau of Alcohol, Tobacco, and Firearms, additional funding is provided to cover the full cost of increased pay and other mandatory expenses and to restore cuts in essential support requirements. This additional funding will prevent reductions in law enforcement personnel levels so important to this Nation's fight against crime and illegal drugs.

In addition, we have provided some specific funding enhancements for key law enforcement programs.

We have provided the Federal Law Enforcement Training Center with additional funds to expand its financial fraud institute, to establish a drug demand reduction training program, and to proceed with construction projects to increase the center's training capacity.

We have provided additional funding for the Bureau of Alcohol, Tobacco and Firearms to expand its highly successful armed career criminal program and to establish eight additional Achilles task forces targeted specifically on armed habitual criminals and narcotics traffickers.

We have provided increased funding to allow the Customs Service to hire additional inspectors; this increase, in addition to the 221 new Customs positions requested by the President and funding restorations to prevent the loss of 636 positions, will provide Customs with an additional 720 full-time equivalent positions for its drug interdiction, enforcement and commercial operations functions in fiscal year 1991.

Another priority funding item included in this bill is $212 million to repair, renovate, expand, and construct inspection facilities along our Nation's southern land border with Mexico; 3 years ago, the chairman of this subcommittee, Senator DECONCINI, and I initiated a multiyear southwest border facilities' capital improvements program. We had seen some of these border facilities. Many were in a serious state of disrepair, lacking even in the most basic needs. Others were simply inadequate to efficiently handle the heavy volume of increasing traffick and workload. Through this funding initiative, we are beginning to rectify these problems. Work is now underway at U.S. facilities all along the border, from California to Texas. We are renovating, replacing, and expanding existing facilities to allow the efficient processing of passengers, vehicles and cargo across our border. We are constructing new facilities at some of the busiest ports simply overwhelmed by the sheer volume of traffic. This bill recommends the funding needed to complete all projects started under this program and to construct inspection facilities at new border crossings which may be opened by the United States and Mexico in the near future. This funding is essential to our economic future. Trade with Mexico is acclerating at a rapid pace and we can no longer wait to finish this work. These facilities must be put in place now.

The last thing I would like to bring to the attention of my colleagues is the funding included in this bill for the Internal Revenue Service. For fiscal year 1991, the President requested a $634 million funding increase for the IRS. Funding constraints have prevented us from providing the full amount requested by the President. However, this bill recommends total funding of $5.9 billion for the IRS for fiscal year 1991. This recommendation is $405.6 million above the current funding level.

In developing this recommendation, we have worked with the IRS to provide the funding it requires to maintain its on-board personnel strength. We have not funded any "Phantom" staff years. No absorption of pay increases, rising retirement and health benefit, or other mandatory labor and support costs is assumed. Our funding recommendation will allow the IRS when it loses a person, to fill that vacancy. This has not been possible in the current fiscal year. The IRS has been under a hiring freeze for virtually all of fiscal year 1990.

Year after year, the IRS has experienced a shortfall in funds necessary to cover its base operating expenses. In fiscal year 1989 the Internal Revenue Service faced a $360 million funding shortfall resulting from sequestration, full absorption of pay raises, and increased employee benefits' costs. IRS's base program deficiency in fiscal year 1990 as a result of last year's deficiencies and unfunded labor cost increases is $463 million. Despite attempts by the IRS to meet these budget shortfalls through hiring freezes and cutbacks in less essential spending for supporting services and information systems, start-up of new program initiatives has been delayed.

The IRS commissioner has testified that addressing the base level funding deficiencies of the agency is essential and must be done before consideration can be given to funding new initiatives. We agree. These are costs that must be paid. If they are not funded, as in the past, new initiatives will ultimately suffer. We have therefore adopted this more realistic approach to budgeting in formulating our fiscal year 1991 funding recommendation for the IRS.

As a result, we have provided an additional $95 million not included in the President's request to fully fund IRS's fiscal year 1991 labor and base operating requirements. While we were not able to fund all of the initiatives proposed by the President for fiscal year 1991, we have accommodated some. We have provided the additional funding requested to increase IRS's antidrug enforcement efforts. We have also provided all but $60 million of the increase requested for essential investments in the long-term health of the tax system. The $60 million reduction we have taken from the President's requested increase for the IRS information systems account defers some data processing procurements until fiscal year 1992 without adversely affecting progress on tax systems modernization.

As I have indicated, the fiscal year 1991 appropriations level recommended for the IRS provides the funding necessary for the IRS to maintain its

current on-board personnel strength. In addition, it will fund approximately 1,400 new full-time equivalent positions, allowing the IRS to increase its enforcement efforts, to proceed with tax systems modernization plans, and to provide increased levels of service to American taxpayers in fiscal year 1991.

In closing, Mr. President, I would like to commend my good friend from Arizona, the chairman of the Treasury Appropriations Subcommittee, for his hard work and leadership on this bill. I would also like to express my appreciation to Patty Lynch of his staff for her many hours of work in preparing this bill.

Mr. President, this is a good bill and one my colleagues should support. I urge its adoption.

Mr. DECONCINI. Before I yield to the Senator from Mississippi, I want to take this opportunity to compliment the members of the Treasury Subcommittee and the staff of the committee, Becky Davies, on the minority side, and Patty Lynch on our side. Our subcommittee has worked hard to put this together. I want the record to show that we could not have done it without the cooperation of the members of the subcommittee and their staffs.

I am now glad to yield to the Senator from Mississippi.

(Mr. WIRTH assumed the chair.)

Mr. COCHRAN. Mr. President, let me say that the distinguished Senator from New Mexico, who is the ranking Republican member of the subcommittee, is not here because he is involved in negotiations at Andrews Air Force Base with other House and Senate leadership over the issue of the budget. It may be later today before he can come and participate in a discussion of the bill.

Mr. President, the subcommittee has worked very hard to bring a bill to the Senate that is within the guidelines of the 302(b) allocation and the other requirements of the Budget Act.

Some amendments will be brought up. I can say that the distinguished Senator from Delaware [Mr. ROTH] has an interest in these amendments as they relate to the Federal law enforcement pay reform issues. Before any agreement is reached on an order for proceeding with respect to those issues, I hope the committee will wait until the distinguished Senator from Delaware is present to discuss the matter with the committee leadership.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the committee amendments to H.R. 5241, with the exception of the following committee amendments; beginning on page 92, line 13, through and including line 19 on page 95, and committee amendments beginning on page 78, line 13, through and including line 2 on page 79, be considered and agreed to en bloc; provided that no points of order are waived thereon, and that the measure as amended be considered as original text for the purpose of further amendments, and that the two remaining committee amendments be considered in reverse order; and provided further that the remaining committee amendments may be temporarily laid aside by agreement of the floor managers of the bill.

Mr. COCHRAN. Mr. President, reserving the right to object.

The PRESIDING OFFICER. The Senator from Mississippi is recognized.

Mr. COCHRAN. Mr. President, I reserve the right to object, not necessarily because I have an objection to make, but because the distinguished Senator from Delaware [Mr. ROTH] has an interest in the order in which we are proceeding to take up these amendments as they relate to the Federal law enforcement pay raise issue. I ask that the chairman of the subcommittee withhold seeking this consent until Senator ROTH can be here to discuss the ramifications of the agreement as they relate to that issue.

Mr. DECONCINI. Mr. President, I have no option but to wait for Senator ROTH. I hope that he will agree to the arrangement that we have made with the chairman of the Governmental Affairs Committee, the distinguished Senator from Ohio, so that we can both get our issues up here and debated. I appreciate the cooperation of the Senator from Ohio in doing this because we can both do it. It is just a matter of accommodating and getting it done in an orderly manner. I will certainly accede to the request of the Senator from Mississippi and withdraw the unanimous-consent request at this time.

Mr. GLENN. Mr. President, I think it is good to wait until Senator ROTH gets here if it is not too long. I understand he is on the way. I know personally of his interest in this matter in committee, and certainly want him to be part of any debate or approval of what amendments will be considered or not before we go ahead. I wonder if it might be possible if we could perhaps have a quorum call while we check to see how long he might be?

Mr. COCHRAN. Mr. President, I thank the distinguished Senators for their understanding of the situation. I am advised that Senator ROTH is on his way to the floor. He should be here momentarily. So if the chairman would like to proceed with a quorum call.

Mr. DECONCINI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COCHRAN. Mr. President, I ask unanimous consent I may be permitted to proceed as in morning business for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator is recognized for 5 minutes.

THE IMPORTANCE OF TURKEY

Mr. COCHRAN. Mr. President, just before the Senate adjourned for the August recess, the invasion of Kuwait by the armed forces of Iraq had stunned the world.

President Bush provided immediate and strong leadership for a multinational show of force and resolve to prevent Saddam Hussein from profiting from the illegal and immoral assault against the nation and the people of Kuwait.

Among the countries in the region which responded with decisive and courageous support for the economic embargo against Iraq, was Turkey.

Coincidentally, the distinguished President pro tempore of the Senate, Mr. BYRD, had planned a trip to Turkey several months before these events in response to an invitation from President Ozal, and he had invited this Senator to accompany him.

It is fortuitous that we were able to visit Turkey when we did. Although a full report of our discussions and findings will be made to the Senate later, I take this time on the Senate floor to emphasize how important Turkey is to the success of the multinational economic embargo against Iraq and to the stability of the Middle East in the months and years ahead.

Not only has Turkey been a major source of food for Iraq, it has been a purchaser of oil and a transporter of oil, through the pipeline that takes Iraqi oil to the Mediterranean Sea. Turkey promptly shut off the flow of oil from Iraqi after the invasion and suspended trade of all kind with Iraqi, in spite of the very substantial economic losses that were obviously going to be incurred because of that action. It did what it thought ought to be done without hesitation and it is bearing, voluntarily, a heavy financial burden.

As Senators know, Turkey borders Syria and Iraq to the south and Iran and the Soviet Union to the east. It has the largest army in NATO except in the United States. Its armed forces are well equipped, well trained, and not afraid to fight.

In recent years Turkey's economy has begun to expand, and major progress has been made to strengthen its national infrastructure. It has applied for membership in the European Economic Community. With the ex-

ception of Israel, it is the only democracy in the Middle East.

During the Korean war, Turkey sent troops to fight alongside our soldiers under the flag of the United Nations. Now, it is responding again to a crisis as a responsible and courageous member of the world community, the United Nations, and NATO.

It seems to this Senator that as much as any country in the world, Turkey is displaying the kind of character and leadership we need so much in these uncertain and dangerous times.

We don't know how this so-called crisis in the gulf will be resolved. But, from my impressions, gained during the meetings Senator BYRD and I had with Government officials and military leaders in Turkey during our recent visit, I am convinced our policies will prevail with the resolute assistance and cooperation of other countries like Turkey.

We are fortunate indeed to have an ally like Turkey when the going gets a bit rough. They deserve to be counted as one of the best and most dependable friends of freedom and democracy in the world today.

Mr. McCAIN. Mr. President, I ask unanimous consent to address the Senate as in morning business for 7 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

JAPAN AND THE CRISIS IN THE GULF

Mr. McCAIN. Mr. President, there are times when our allies must stand up and be counted on the basis of their actions, and not their words. The events of the last month have made it clear that we cannot hope for a peaceful solution in the gulf, or the effective military action, unless the United States is willing to take the risk of acting as a global policeman, and unless the world supports the United States and the other military forces who support the United Nations in checking Saddam Hussein's murderous acts of aggression.

It is clear that most of the world fully understands this situation. The vast majority of Arab States support the U.N. resolution, and the U.S. military presence in the gulf. Many Arab nations are commiting military forces—in spite of the fact they have major economic problems, and are anything but wealthy.

Many of our European allies are providing similar support, and the Soviet Union has provided an unprecedented amount of political support, as well as a limited military presence. The American people have made it clear that they fully support President Bush, even though they clearly understand that this may mean conflict.

Yet, Mr. President, one key nation has left its resolve unclear. Japan, the world's largest creditor nation, has offered about a billion dollar aid package—just as it talked vaguely about a major aid effort when the United States acted as the world's policeman in the gulf in 1987 and 1988. Yet, Japan has so far, done little more than pledge a few billions to aid Jordan at a time when massive financial need to many nations is already clearly required.

Mr. President, a billion dollars means very little when the United States alone will have to spend at least $15 billion to pay the operating costs of operation Desert Shield and when the full cost may well be in excess of $25 billion—even if we do not fight. Policemen are not a charitable institution that can be supported with a few token shillings. Policemen have to be paid, particularly when they are trying to halt a thief that threatens 70 percent of Japan's oil and the very lifeblood of its economy.

Mr. President, if combat arises, which we all devoutly hope and pray will not happen, it will not be Japanese boys whose lives are at risk; it will be American boys.

Mr. President, I believe that Japan has had few stronger supporters than I. I took the lead in supporting the sale of the JFX. I have consistently opposed Japan-bashing in any form. I have opposed trade barriers and trade retaliation.

I want to make it clear to my friends in Japan, however, that enough is enough, and that the contemptible tokenism of the actions of the Japanese Government to date merit nothing but the world's contempt and American hostility.

If Japan wants friends in the United States, and to continue the progress of economic interdependence among nations, then it must assume the mantle of a world power. Japan must pledge at least $8 billion, not $1. Japan must contribute at least half as much to the ultimate cost of supporting Desert Shield and enforcing the United Nations embargo as the United States has contributed. Japan must begin to make good on this commitment immediately and not in the coming months, years, or at some undeterminated moment in the future. Japan must no longer cower behind the world's most flexible constitution, and the protests of a few dock workers and students.

Throughout this crisis, the United States has been motivated by the conviction that what we have set out to accomplish is nothing less than a new world order. We are heartened by the prospect that this new order may be defined by a much greater sense of shared purposes and shared responsibilities among nations than the world has ever known. We can be certain that as some states experience a relative decline in international influence in tomorrow's world, other states will assume the status of a great state, to whom the world will look for leadership.

Japan expects to be considered a great state. Given its vast wealth, its democratic principles, and its enormous influence in Asia and beyond, Japan should, indeed, occupy a position in world affairs commensurate with its strengths. But Japan's greatness will still depend on her willingness to act forcefully—sometimes at risk to herself—sometimes alone—in the interests of international stability and world peace.

A great state exercises great responsibilities. The United States has demonstrated to the world once again that it accepts this condition of greatness. The time has come for Japan to accept it as well. Japan's destiny will be determined here in this crisis, in this hour. She no longer enjoys the luxury of developing her place in the world. Japan faces the question squarely—will Japan be the world leader that her thriving economy and political freedoms enable her to be? Japan must answer that question today. Further procrastination will serve neither the world nor Japan.

Mr. President, the United States awaits Japan's commitment to a more peaceful, safer, and freer world. We sincerely want Japan to shoulder the international responsibilities of a great state, to take the risks, endure the sacrifices, and provide the example of leadership the world expects of her. If the 21st century is to be less hostile to the values of democracy and to peaceful relations between nations, then Japan will have to do her share. Japan is called to greatness today. For her sake and for the sake of the world, I hope Japan answers that call.

Mr. DECONCINI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

TREASURY, POSTAL SERVICE, EXECUTIVE OFFICE OF THE PRESIDENT, AND INDEPENDENT AGENCIES APPROPRIATIONS ACT, FISCAL YEAR 1991

The Senate continued with the consideration of the bill.

UNANIMOUS-CONSENT AGREEMENT

Mr. DECONCINI. Mr. President, the Senator from Mississippi asked us to reconsider the unanimous-consent request. I think it has been worked out with the Senator from Delaware. I will

propose a new unanimous-consent request.

I ask unanimous consent that the committee amendments to H.R. 5241, with the exception of the following committee amendment beginning on page 92, line 13, through and including line 19 on page 95, be considered and agreed to en bloc, provided that no points of order are waived thereon and that the measure as amended be considered as original text for the purpose of further amendments; and, providing further that the remaining committee amendments may be temporarily laid aside by an agreement of the floor managers of the bill.

The PRESIDING OFFICER. Is there objection to the unanimous-consent request? Without objection, it is so ordered.

Mr. DECONCINI. Mr. President, this means that the Senator from Ohio, and I believe the Senator from Delaware, will propose an amendment on Federal pay. We will proceed on that basis. I yield the floor.

Mr. GLENN addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

AMENDMENT NO. 2612

(Purpose: To establish a Federal pay system with locality-based adjustments, and for other purposes)

Mr. GLENN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Ohio [Mr. GLENN], for himself, Mr. ROTH, and Mr. LAUTENBERG, proposes an amendment numbered 2612.

Mr. GLENN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. GLENN. Mr. President, I rise to offer an amendment concerning Federal pay reform. I start out by saying that this amendment has the support of the administration. We worked very closely with the Office of Personnel Management. This pay reform proposal has been literally some 3 years in the making.

Mr. President, pay-related recruitment and retention problems are widespread throughout the Federal service and demand a comprehensive solution. To address these governmentwide problems, on March 9, 1990, I introduced S. 2274, the Federal Pay Reform Act of 1990.

I should have started out by saying that I propose this amendment today on behalf of myself, and the distinguished Senator from Delaware [Mr. ROTH] who has worked long and hard on this with us, and has shown a long-time interest for many, many years in this particular subject.

Mr. President, to address these governmentwide problems, on March 9, 1990, we introduced S. 2274, the Federal Pay Reform Act of 1990. The bill would amend the current civil service pay-setting process and establish a mechanism for locality-based salary adjustments. The Governmental Affairs Committee held 2 days of hearings in late March which highlighted widespread recruitment and retention problems throughout the whole Government. Because of inadequate pay, the Government simply is not competitive with other employers, especially in the high-cost, high paying urban centers of the country where much of our governmental activity takes place.

On July 25, the committee approved the bill to be reported to the Senate for its consideration. The amendment I am offering today incorporates the provisions of that bill S. 2274 except that it provides the President with unlimited discretion to offer an annual alternative pay plan.

The pay adjustment process used for over a decade has caused Federal pay rates to fall far behind the rates paid in the private sector for similar jobs.

The Pay Comparability Act of 1970 calls for pay comparability between the Federal and the private sectors. However, every year since 1978 Presidents have, one after another, proposed Federal pay increases at amounts lower than those received by private sector workers resulting in the pay gap that exists today.

Look at the recent figures. Based on the most recent pay survey, the President's pay agent determined that Federal salaries lagged the private sector by over 30 percent for comparable jobs. OPM, the Office of Personnel Management, estimates that Federal pay is currently at the 12th percentile, which means that 88 percent of private sector employees covered by its annual survey received higher salaries for similar jobs. Is it any wonder then that agency officials are complaining about the difficulties they face in hiring staff?

Mr. President, during the past spring every single departmental Secretary, every single one of them, wrote to me about their concerns in attracting and retaining the quality staff needed to carry out their programs. Each one of those Secretaries urged to me to give prompt attention to reforming the Federal pay system to provide immediate relief to their most pressing problems in this area.

Let me cite the situation in New York City as just an illustration of the problems that agencies are facing. In 1988, the New York Federal Executive Board, comprised of representatives of all major Federal agencies in the area, made a survey of the staffing situation in those agencies. The board found recruiting and retention problems in all agencies. Among the professional occupations the board found that one-third of the positions were vacant.

Mr. President, one-third of the positions were vacant. Loss rates for entry level professionals at GS-5 and GS-7 levels were an incredible 50 and 52 percent, respectively.

Similarly, the board found one-half of the clerical positions were vacant, and of those hired during the past year, 37 percent quit for higher pay. Consequently, agencies were contracting for word processing clerical support at hourly rates equivalent to annual salaries of $42,000, substantially higher than the $18,000 per year that Federal employees were being paid for the same work.

To address these problems, my amendment takes a significant first step toward closing the pay gap by instituting a form of locality pay to make the Government more competitive in the areas where the pay gap is the greatest. It would add a locality adjustment to basic pay rates in those areas where non-Federal pay rates, both private sector and State and local governments, are above the national average.

It would also keep the overall gap from widening by mandating that yearly increases in basic salary rates will be equal to the national average percentage increase in non-Federal salaries each year. The amendment also gives the President the authority to recommend lower pay increases, if a national emergency or economic conditions warrant them. I know that is of concern to my distinguished colleague from Delaware, the cosponsor of this amendment.

Other provisions in my amendment would give agencies more flexibility in their recruiting efforts. The agencies would be authorized to hire new employees at salaries above the minimum rate for the appropriate grade when they meet certain criteria, or to grant recruiting bonuses.

Also, the amendment broadens the circumstances under which special pay rates could be authorized and provides for even higher rates for 800 critical pay positions Governmentwide to hire and retain what we refer to as "world class experts." I can assure you that the U.S. Government needs some world class experts in some of these positions. Retention and relocation and bonus authority would be available to help agencies meet special staffing needs.

Finally, to address the specific needs of the law enforcement community, the amendment authorizes the President's pay agent to establish a separate pay system for law enforcement personnel.

39-059 O-91-45 (Pt. 16)

Mr. President, I am well aware of the budget crisis we face, and it was uppermost in our minds as we crafted S. 2274. No pay increases are required to be granted in the fiscal year 1991 by this amendment, but agencies could exercise the new authorities, if funds were already available.

If we expect Government programs to be run effectively, we must make the goal of attracting and retraining the best and the brightest a reality. We cannot do that by paying salaries that are among the lowest in the country. Last year Congress addressed the problem of inadequate pay for Federal executives. Now we need to turn our attention to the problem of low pay for the rest of the work force. I urge the support of all my colleagues for this amendment.

Mr. ROTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. ROTH. Mr. President, I rise to express my strong support for reform of the Federal compensation structure. I want to compliment Connie Newman, the head of OPM, as well as the administration, for its leadership in seeking appropriate reform.

I think the arguments for pay reform are indeed compelling. The Federal Government is experiencing a quiet crisis. As the pay gap between the private sector and the Federal Government expands, the ability of the Federal Government to attract and retain valued employees becomes more difficult.

This legislation would represent a step forward in addressing this challenge. This is a complex task, but like the reform of the Federal Employee Retirement System several years ago, it is a task this committee has undertaken as we attempt to remain competitive with the private sector in attracting valued employees.

As the Governmental Affairs Committee began consideration of pay reform earlier this year, I pointed out that this initiative must be balanced with a realistic view of the Government's available resources. We hope this balance has been achieved, as it takes realistic view of what the Government can afford at a time when the deficit continues to grow.

At a time when communication and technological advances in the workplace provide fertile ground for sweeping improvements in employee productivity, we must do more to attract and retain highly educated and well-trained employees. Demands for competent public service, including social services and law enforcement, require that we address this quiet crisis in the near term.

In its 1989 report, "Leadership in America—Rebuilding the Public Service," the National Commission on the Public Service, chaired by Paula Volcker, pointed to some startling statistics:

Only 13% of Federal government senior executives interviewed would recommend that young people start their careers in government, while several recent surveys show that less than half the senior career civil servants would recommend a job in government to their own children; Of the 610 engineering students who received degrees at M.I.T. and Stanford in 1986, and the 600 who graduated from Rensselaer Polytechnic Institute in 1987, only 29 took jobs in government at any level; and

More than 50% of the respondents to a recent survey of Federal personnel officers said recruitment of quality personnel had become more difficult over the past five years.

The General Accounting Office testified that of 64 college students in various discussion groups, only 2 indicated a willingness to accept a starting salary at the Federal entry-level rate. While the pay gap between the private and Federal sector is a significant factor contributing to the failure of the Federal Government to recruit and retain the best possible employees, it is not the only factor.

We must do more to promote the ideal of public service, and all Americans must recognize the value these public servants are providing. And we must do more to ensure that civil servants know what their responsibilities are and know how they are performing.

This goal may best be achieved through the implementation of a pay for performance system which requires managers and employees to review together performance appraisals and suggestions for improvements. Managers must be provided with the proper training to ensure that reviews are a successful tool for quality performance. This legislation establishes a labor-management committee which will advise the Office of Personnel Management in the creation of a pay for performance system.

We must also provide Federal employees with the assurance that they will be rewarded appropriately for their service. If employees are not recognized for their service, or told how they can perform their jobs better, we will continue down the slippery slope of a Federal Government that can't do. And this is unacceptable at a time when the Federal Government has the capability to be more responsive to the needs of the American people.

Since introducing the administration's pay reform proposal last May, I have heard from a number of Cabinet Secretaries urging the passage of a comprehensive pay reform proposal. The following are some excerpts from those letters:

Secretary of Defense Cheney wrote:

The Department faces a formidable challenge in attracting and retaining top quality civilian personnel as we reshape our civilian work force in the coming years. Increased flexibility is essential. The Department has a particularly crucial need for the legislation to improve its ability to attract and retain highly skilled and experienced scientific, technical, professional and administrative personnel.

Secretary of Energy Watkins wrote:

Since coming to the Department, my efforts to staff key positions, particularly in highly technical fields, have been stymied continually by our inability to offer competitive salaries and financial incentives. The Administration's proposal will help remedy these problems immediately while also restructuring the entire Federal pay system in a way which will enable us to compete successfully in the marketplace over the long term. Without statutory relief, the Department is unable to hire the individuals having the special skills and experience necessary to revitalize the nuclear weapons complex.

Secretary of Health and Human Services Sullivan wrote:

The Department of Health and Human Services has encountered particular difficulty in recent years in staffing positions requiring high levels of professional competence in medical and related occupations. In addition to addressing the underlying structural problems of the current system, this legislation offers immediate relief in the form of special allowances that will help us hire and retain these highly skilled professionals. We are also interested in the authorities that would be granted by the proposal for special pay treatment of world class experts and separate systems for occupations that cannot be accommodated fully in the general system. We believe the health related occupations may require such separate treatment.

Current law provides the President complete discretion to recommend an alternative pay raise than that recommended by the President's pay agent in the event of national emergency or serious economic condition. This legislation retains that authority. Given this authority, I believe this legislation represents a reasonable approach in light of persistent budget deficits.

Mr. President, this is a moderate bill to meet the compelling need for Federal employee compensation reform. I support the amendment brought forth today and urge my colleagues to adopt it.

I yield back the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. DECONCINI. Mr. President, the amendment that the Senator from Delaware and Senator from Ohio have offered is a good amendment. In my opinion it does not go far enough in the area of law enforcement which I will discuss a little bit later when I offer an amendment on that subject matter. But I know the time that the distinguished chairman of the Governmental Affairs Committee has spent on this has been I think more than a year, maybe several years, a lot longer than maybe he wanted to.

I think it is really a tragedy, as I am sure the distinguished chairman would agree, that as we face the deficit prob-

lem we kind of cut off our nose to spite our face. We want our Federal employees to work harder for less. We ask agencies to absorb pay raises that we do not give them money to absorb and when they reprogram them they have to take it away from something else we told them to do. So it has been a long time.

Regardless of how the other amendment comes out, I say to the Senator from Ohio, I am pleased to see him bring forward an amendment that is going to at least create a level playing field for Federal workers.

We hear a lot of complaint about Federal workers and, yes, there are some who are a disgrace, but the majority are not. They are hard working people. They are committed. They get up every morning to serve their employer, the U.S. Government and the U.S. taxpayer, and there is no reason for us to think that they should not be paid, and paid a comparable wage to what they would be paid in the private sector.

So I am pleased to support this amendment and I am advised that we have no objection to it.

I see the managing Senator on the minority side is not here right now.

Mr. ROTH. I am managing.

Mr. DECONCINI. So the majority is prepared to accept this amendment.

I yield to the minority for their comments on accepting the amendment.

FEDERAL PAY REFORM AMENDMENT

Mr. LIEBERMAN. Mr. President, for some time now, the Federal budget deficit has touched virtually everything we in the Congress and the administratioin have tried to do. As we have struggled to deal with the deficit, however, we have sometimes been pennywise and pound foolish. A prime example of this has been our failure to pay Federal workers a fair and competitive salary—which has made it extremely difficult for the Federal Government to attract and keep skilled workers, diminished the effectiveness of many Federal programs, and in many instances actually cost the Federal Government money.

Year after year, by keeping Federal salaries low, we have made it more and more difficult for all Federal agencies to recruit and retain skilled workers. This is especially true in some of the areas of our country, such as my own State of Connecticut where the cost of living is extremely high.

GAO has found that, as a rule, private sector jobs are paying 25 percent more than their counterpart positions in the Federal Government. Current law calls for Federal pay to be comparable to pay for similar private positions, yet the pay gap continues to grow. At the same time, the number of special salary provisions for specific agencis and positions has grown dramatically, as we struggle to deal with the problems caused by inadequate pay. The time has come for a rational, comprehensive approach to Federal pay reform.

The cost of pay reform is substantial, but there are real costs to failing to enact pay reform. Make no mistake about it, inadequate pay does affect the ability of Federal agencies to carry out the functions we assign to them, and often costs the Government money.

For example, FBI special agents in the New Haven, CT, field office have been struggling to get accelerated grade raises, so they can meet the high cost of living in that area. The FBI cannot be expected to retain trained agents who earn less than their counterparts in the State and local police, and that is the case now.

The IRS provides another important example. The Governmental Affairs Committee has recently held hearings on the serious problems the IRS is having collecting taxes that are owed to the Government. GAO and the IRS estimate that IRS accounts receivable reached $60 billion in fiscal year 1989, $87 billion if accrued interest and penalties are included. Much of these delinquent taxes become uncollectible each year as the applicable 6 year statute of limitations expires.

There are a lot of reasons for the growth in uncollected taxes, but inadequate pay and the inability to retain skilled employees clearly contribute to the problem.

In the past year, I have met with employees of the Internal Revenue Service and the Treasury Department who work in Connecticut. These public servants have repeatedly raised with me the difficulty they have making ends meet because of Connecticut's high cost of living. They also told me of the trouble the IRS has had in retaining revenue agents and auditors in Connecticut. While the IRS is able to hire people straight out of college, after these people get their CPA and some experience—that is, at the point that they are becoming truly productive auditors and agents—they leave to take advantage of much higher salaries in the private sector. This loss of experienced agents and auditors cripples the IRS' ability to carry out its important functions. Locality pay would go a long way toward helping the IRS retain talented, experienced, and public-service oriented employees.

The pay reform bill reported out by the Governmental Affairs Committee would begin to address the inadequacy of Federal salaries by providing for locality pay and certain automatic pay adjustments, particularly for workers in expensive cities. The bill as it currently stands reflects months of negotiation and, ultimately, compromise with the administration.

While the current bill is not perfect, if we do not act now, there will be no comprehensive and thoughtful pay reform. Our Federal work force, and the effectiveness of our Government, will continue to decline, or more likely, we will yield to pressure from particular groups of Federal employees and grant them special pay relief. This will result in a crazy quilt of special benefits, which will eat up funds that could otherwise be spent implementing a rational, comprehensive solution to the Federal pay problem.

The amendment offered by Senator GLENN offers a realistic and reasonable approach to pay reform in view of the current budget crisis, and I am pleased to support it.

Mr. KERRY. Mr. President, I would like to thank the chairman of the Governmental Affairs Committee, Senator GLENN, and the distinguished ranking member, Senator ROTH, for their diligent work to assure that all Federal employees be more fairly compensated for their dedicated public service. I am proud to have been an early cosponsor of the Senator from Ohio's timely proposal and I am pleased this measure included provisions which will make Federal workers in the Boston area eligible for higher pay based on our high cost of living. This provision accomplished what I intended in my legislation S. 2792, a companion measure to one introduced by Congressman FRANK.

Federal employees have, in the past, been asked to shoulder a disproportionate amount of the budget shortfalls. They have had to survive on static wages while their cost of living soared. As a result, the difference between Federal and non-Federal salaries increased dramatically. This pay gap has made it increasingly difficult to attract and retain the kind of professionals that we need to protect the public's interest associated with billions of dollars of taxpayers money. This amendment will help the Federal Government attract and keep the talented individuals needed to fight a real war on drugs, to clean up the environment, to provide citizens with adequate health care, and to resolve the savings and loan debacle. Once again I would like to thank my distinguished colleague from Ohio for recognizing the need to adequately reward our Federal employees. The present administration's plan to reform Federal employee salaries, while well intentioned, was inadequate to meet the needs of our Federal employees. I am pleased with the bipartisan cooperation which produced this more comprehensive and progressive piece of legislation we have passed today.

Mr. President, I also wish to commend the Senator from Arizona for his leadership on this very important issue as it relates to Federal law enforcement personnel. I would like to commend both sides of the aisle for

the spirit of cooperation which allowed the passage of this amendment.

For far too long, Federal law enforcement agents have not received proper and competitive compensation for their heroic and often thankless work. They have been asked to place their lives on the line, each and every day, and their sacrifice has long been taken for granted. This amendment allows us to show our appreciation for their courageous work and is an important piece of legislation which shows our commitment to fight the war on drugs and our commitment to make the streets of our cities and towns safe again. Those individuals who risk their lives daily for the public safety deserve to be fairly rewarded for their courage, and that is why I was an early cosponsor of this important measure. This amendment will also allow us to attract and retain the finest individuals to Federal service with one of our fine law enforcement agencies. I am also particularly pleased that this amendment also recognizes that Boston is a high cost area and will provide a pay differential to Federal law enforcement officers rectifying this fact.

Finally, I want to commend Senator DECONCINI for the work he has done to bring us a sound appropriatons bill. I am particularly grateful for including in this bill $184 million for design and construction of a much needed new Federal courthouse in Boston. Replacement of the existing, antiquated Federal courthouse in Boston, constructed in the early 1930's is long overdue. Given the increased demands on our criminal justice system in recent years, a new modern facility will help expedite the work of the court. In addition, given the high level of unemployment in the construction trades in Massachusetts at this time, this project will create hundreds of jobs in a depressed economy at a time when they are desperately needed.

Mr. ROTH. Mr. President, as I indicated in my prior statement I strongly support this amendment. We are happy to join the majority in accepting this amendment because frankly I think there is no more critical problem in Government than providing the kind of compensation and environment that will attract the bright young people who we are going to need in the years ahead. So we are happy to accept the amendment.

Mr. DECONCINI. I thank the Senator from Delaware.

I urge adoption of the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment of the Senator from Ohio.

The amendment (No. 2612) was agreed to.

Mr. GLENN. Mr. President, I move to reconsider the vote.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DECONCINI. I thank the Chair, and thank the Senator from Delaware and the Senator from Ohio.

AMENDMENT NO. 2611

Mr. DECONCINI. Mr. President, on behalf of the two Senators from the State of Maine, Senator MITCHELL, the majority leader, and Senator COHEN, I send several amendments to the desk and ask that they be considered and agreed to en bloc.

The PRESIDING OFFICER. Does the chairman of the subcommittee request that the pending committee amendment be set aside?

Mr. DECONCINI. I thank the Chair and apologize. I ask unanimous consent that the pending amendment be set aside and we proceed with the Mitchell-Cohen amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for Mr. MITCHELL (for himself and Mr. COHEN), proposes an amendment numbered 2611.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 18, line 16, strike "$160,000" and insert in lieu thereof, in italics: "$300,000".

On page 94, line 23, insert "(a)" after "SEC. 527".

On page 95, line 3, strike "$160,000" and insert in lieu thereof, "$300,000".

On page 95, insert between lines 4 and 5 the following new subsection:

"(b) Funds appropriated for fiscal year 1991 for reimbursements for Presidential protection assistance authorized under Section 12 of the Presidential Protection Assistance Act of 1976 (18 U.S.C. 3056 note) shall be made available for any such reimbursements claimed during fiscal year 1990.".

Mr. DECONCINI. Mr. President, the amendment I am offering on behalf of the distinguished Senators from Maine will raise the amount of reimbursement funding from the U.S. Secret Service which may be provided to State and local law enforcement jurisdictions within the State of Maine for Presidential protection and assistance.

The amendments have been cleared on both sides of the aisle.

The PRESIDING OFFICER. Is there further discussion of the amendment? If not, the question is on agreeing to the amendment.

The amendment (No. 2611) was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote.

Mr. GLENN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DECONCINI. I thank the Chair.

AMENDMENT NO. 2613

Mr. DECONCINI. Mr. President, I ask unanimous consent that the pending amendment be set aside, and I send to the desk a number of technical amendments and ask for their immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI] proposes an amendment numbered 2613.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with and the amendments all be considered en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 16, line 14, before the period, add the following new proviso:

": *Provided*, That of the $247,878,000 provided for tax systems modernization up to $15,000,000 shall be available until expended for the establishment of a Federally funded research and development center and may be utilized to conduct and evaluate market surveys, develop and evaluate requests for proposals, and assist with systems engineering, technical evaluations, and independent technical reviews in conjunction with tax systems modernization.

On page 19, line 20, after the word "in" strike "this or".

On page 21, strike lines 18 through line 25.

On page 22, line 1, strike "2" and insert in lieu thereof, "1".

On page 31, line 14, strike "may" and insert in lieu thereof, "shall".

On page 31, line 19, strike "available" and insert in lieu thereof, "transferred".

On page 46, line 16, insert a colon before "*Provided*".

On page 51, line 21, place "Ysleta, New Border Station" in italics.

On page 52, starting on line 22, strike "$251,165,000" and line type "for design and construction services", and insert immediately following the line type: "$251,165,000 for design and construction services" in italics.

On page 54, line 4, strike "Building" and insert in lieu thereof, "Building" in italics.

Mr. DECONCINI. Mr. President, this amounts to 10 amendments that are technical in nature and permits the IRS to expend up to $15 million in funds appropriated for tax systems modernization of a federally funded research and development center and affects authority of the Department

of Treasury and eliminates bill language and technical changes necessary to make the bill correct.

I believe they have been approved on the minority side.

Mr. ROTH. That is correct.

Mr. DECONCINI. I ask that the amendment be agreed to.

The PRESIDING OFFICER (Mr. SARBANES). The question is on agreeing to the amendment.

The amendment (No. 2613) was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. ROTH. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2614 TO COMMITTEE AMENDMENT BEGINNING ON PAGE 92, LINE 13

(Purpose: To provide for Federal law enforcement pay reform)

Mr. DECONCINI. Mr. President, I ask unanimous consent that the pending amendment be set aside and that the amendment of the Senator from Arizona be considered.

The PRESIDING OFFICER. Is there objection to the unanimous-consent request? Hearing none, it is so ordered.

The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for himself and Mr. D'AMATO, proposes an amendment numbered 2614, to the committee amendment beginning on page 92, line 13.

Mr. DECONCINI. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 94, insert between lines 19 and 20 the following new section:

"SEC. 526. (a) This section may be cited as the "Federal Law Enforcement Pay Reform Act of 1990".

(b)(1) Subchapter VII of chapter 53 of title 5, United States Code, is amended by adding at the end the following:

"§ 5376. Pay for law enforcement officers

"(a) For the purpose of this section, the term 'law enforcement officer' means any law enforcement officer within the meaning of section 8331(20) or section 8401(17) with respect to whom the provisions of subchapter III of chapter 53 apply (or would apply, but for this section.)

"(b) Except as otherwise provided in subsection (c)—

"(1) effective for pay periods beginning on or after October 1, 1991, and until otherwise provided for under this subsection—

"(A) the minimum rate of basic pay for a law enforcement officer whose position is classified at a grade above GS-2 and below GS-11 shall be determined in accordance with the following table:

"If classified at the following grade:	The minimum rate of basic pay shall be the rate payable for the following step of that grade (determined using the rates of basic pay in effect as of September 30, 1990):
GS-3	step 10;
GS-4	step 10;
GS-5	step 10;
GS-6	step 8;
GS-7	step 6;
GS-8	step 6;
GS-9	step 4;
GS-10	step 3;

and

"(B) the rate for each step above the minimum rate for each grade under subparagraph (A) shall, for any law enforcement officer, be the rate prescribed by the Office of Personnel Management, taking into consideration the minimum rates set forth in subparagraph (A) and the need to provide for appropriate pay relationships within and between grades;

"(2) in order to ensure the continued competitiveness of the rates of pay established under this subsection—

"(A) the Office of Personnel Management shall prescribe regulations under which the Office shall—

"(i) compare rates paid to law enforcement officers under this subsection with the rates generally being paid to individuals performing the same levels of work for State and local governments (determined on a nationwide basis); and

"(ii) determine whether an increase should be made under this paragraph as of the next opportunity allowable under subparagraph (B) and, if so, the size of that increase; and

"(B) whenever the Office makes an affirmative determination under the provisions of subparagraph (A)(ii), provide for any pay incease determined under those provisions to be appropriate, effective beginning with the first applicable pay period beginning on or after October 1, 1993, or October 1 of any third year thereafter (whichever occurs next);

"(3) effective at the beginning of the first applicable pay period beginning on or after the first day of the month in which an adjustment takes effect under section 5305 in the rates of pay under the General Schedule, the rates of pay in effect under this subsection shall be adjusted by the overall average percentage (as set forth in the report transmitted to the Congress under such section 5305) of the adjustment in the rates of pay under the General Schedule; and

"(4) the Office shall prescribe such regulations as may be necessary for the coordination of paragraphs (2) and (3).

"(c)(1) The purpose of this subsection is to establish a pay-adjustment mechanism for law enforcement officers which takes into account the fact—

"(A) that the cost of living in certain parts of the United States is appreciably higher than in others; and

"(B) that the Government's success in recruiting and retaining the best-qualified individuals to serve as law enforcement officers, particularly in areas having higher living costs, will in large part depend on its ability to keep rates of pay at levels that are competitive with those offered by State and local governments.

"(2) To carry out the purpose of this subsection, the Office of Personnel Management shall prescribe regulations which shall provide for the following:

"(A) The establishment of an appropriate number of geographic regions (established using consolidated metropolitan statistical areas, as defined by the Office of Management and Budget) with respect to which pay comparisons shall be made, special pay rates for law enforcement officers may be established or adjusted, and the provisions of this subsection shall otherwise be carried out.

"(B)(i) Procedures for identifying those regions for which higher pay rates are needed, as identified under clause (ii).

"(ii) A region shall be considered to satisfy the requirements for higher pay rates if, using the average of—

"(I) a value (determined by the Office, and expressed as a percentage) representing that region's relative cost of living, as compared with the cost of living in the United States as a whole, and

"(II) a value (determined by the Office, and expressed as a percentage) representing the relative size of the average salary for State and local law enforcement officers within that region (expressed as a single weighted average salary), as compared with the average salary for State and local law enforcement officers in the United States as a whole (expressed as a single weighted average salary),

such region is determined to be a least 5 percent above the national average (which, for purposes of this clause, shall be deemed to be equal to 100 percent).

"(C) Procedures under which higher rates of pay for law enforcement officers within a particular region shall be established or adjusted under this subsection.

"(3)(A) A rate of basic pay payable to a law enforcement officer under this subsection may not be less than the rate to which such officer would otherwise be entitled if this subsection had not been enacted.

"(B) A rate of basic pay payable to a law enforcement officer under this subsection, based on such officer's serving in a particular region, shall cease to apply if such officer is transferred or reassigned to a place outside of such region.

"(4) The first rates of pay established under this subsection shall be effective for pay periods beginning on or after October 1, 1991, and, notwithstanding any other provision of this subsection, shall be based on pay data compiled by the National Advisory Commission on Law Enforcement, as contained in its report submitted under section 6160(h) of the Anti-Drug Abuse Act of 1988. Subsequent adjustments under this subsection may be made, effective for applicable pay periods beginning on or after October 1, 1993, and October 1 of any third year thereafter, subject to the preceding paragraphs of this subsection.

"(d)(1) The Bureau of Labor Statistics shall conduct such pay surveys as may be necessary in order to compile any data (relating to rates of pay being paid by State or local governments) which may be necessary to carry out this section. To the extent practicable, data so compiled shall reflect rates of pay in effect as of January 1, 1993, and January 1 of every third year thereafter.

"(2) Except as otherwise expressly provided for in this section, any comparisons or determinations under this section shall, to the extent that they involve rates of pay or

other data relating to State or local government, be based solely on data compiled under this subsection.

(2) The table of sections for chapter 53 of title 5, United States Code, is amended by adding after the item relating to section 5375 the following:

"5376. Pay for law enforcement officers.".

(c)(1) The appropriate agency head (as defined in paragraph (3)) shall prescribe regulations under which the purposes of the amendments made by subsection (b) shall be carried out with respect to individuals holding positions described in paragraph (2).

(2) This subsection applies with respect to any—

(A) member of the United States Secret Service Uniformed Division;

(B) member of the United States Park Police;

(C) special agent within the Diplomatic Security Service;

(D) postal inspector;

(E) probation officer (referred to in section 3672 of title 18, United States Code); or

(F) pretrial services officer (referred to in section 3153 of title 18, United States Code).

(3) For the purpose of this subsection, the term "appropriate agency head" means—

(A) with respect to any individual under paragraph (2)(A), the Secretary of the Treasury;

(B) with respect to any individual under paragraph (2)(B), the Secretary of the Interior;

(C) with respect to any individual under paragraph (2)(C), the Secretary of State;

(D) with respect to any individual under paragraph (2)(D), the Postmaster General; and

(E) with respect to any individual under paragraph (2)(E) or (2)(F), the Director of the Administrative Office of the United States Courts.

(d) Not later than January 1, 1993, the Office of Personnel Management, in consultation with Federal law enforcement agencies and law enforcement employee groups, shall submit to Congress, in writing, a plan to establish a separate pay and classification system for law enforcement officers and specifications for legislation to implement such plan.

(e)(1) Subchapter IV of chapter 59 of title 5, United States Code, is amended by adding at the end the following:

"§ 5949. Retention allowances for law enforcement officers

"(a) For the purpose of this section, the term 'law enforcement officer' means—

"(1) a law enforcement officer within the meaning of section 5376(a);

"(2) a member of the United States Secret Service Uniformed Division;

"(3) a member of the United States Park Police;

"(4) a special agent within the Diplomatic Security Service;

"(5) a postal inspector;

"(6) a probation officer (referred to in section 3672 of title 18, United States Code); and

"(7) a pretrial services officer (referred to in section 3153 of title 18, United States Code).

"(b)(1) Notwithstanding any other provision of law, and in order to retain highly qualified law enforcement officers who possess special skills or experience or whose continued services are particularly important due to factors associated with the geographic area to which they are assigned, the head of an agency, subject to the provisions of this section and such regulations as the President or his designee may prescribe, may enter into a service agreement with a law enforcement officer.

"(2) Under any such agreement, the law enforcement officer shall agree to complete a specified period of service in such agency in return for an allowance, for the duration of such agreement, in an amount determined by the agency head and specified in the agreement, but not to exceed $10,000 per year.

"(c) In order to be eligible for an allowance under this section, a law enforcement officer must then satisfy the age and service requirements under section 8336 or 8412, as the case may be, for entitlement to an annuity.

"(d) Any agreement entered into by a law enforcement officer under this section shall be for a period of 1 year of service in the agency involved unless the officer requests an agreement for a longer period of service.

"(e) Unless otherwise provided for in the agreement under subsection (f), an agreement under this section shall provide that the law enforcement officer, in the event that such officer voluntarily, or because of misconduct fails to complete at least 1 year of service pursuant to such agreement, shall be required to refund the total amount received under this section, unless the head of the agency, pursuant to such regulations as may be prescribed under this section by the President or his designee, determines that such failure is necessitated by circumstances beyond the control of the officer.

"(f) Any agreement under this section shall specify, subject to such regulations as the President or his designee may prescribe, the terms under which the head of the agency and the law enforcement officer may elect to terminate such agreement, and the amounts, if any, required to be refunded by the law enforcement officer for each reasons for termination.

"(g)(1) Any allowance paid under this section shall not be considered as basic pay for the purposes of subchapter VI and section 5595 of chapter 55, chapter 81, 83, 84, or 87, or other benefits related to basic pay.

"(2) Any allowance under this section for a law enforcement officer shall be paid in the same manner and at the same time as the officer's basic pay is paid.

"(h) An agency head may delgate, in whole or in part, any functions vested in such agency head under this section.".

(2) The table of sections for chapter 59 of title 5, United States Code, is amended by adding after the item relating to section 5948 the following:

"5949. Retention allowances for law enforcement officers.".

(f)(1) Subchapter II of chapter 57 of title 5, United States Code, is amended by inserting after section 5724c the following:

"§ 5724d. Relocation payments for law enforcement officers

"(a) For the purpose of this section, the term 'law enforcement officer' has the same meaning as under section 5949(a).

"(b) Under such regulations as the head of an agency (or designee thereof) may prescribe and to the extent considered necessary and appropriate, as provided therein, appropriations or other funds available to such agency for administrative expenses are available for payments under this section.

"(c) Payments under this section—

"(1) may be paid to any law enforcement officer within the agency who is transferred or reassigned, in the interest of the Government, to an area or region (not within a foreign country) having higher than average housing costs (as determined under the regulations); and

"(2) may not be made to a law enforcement officer if, or to the extent that, such payment would cause the total amount paid to such officer under this section to exceed $20,000 (including, in the case of any individual who is married to another law enforcement officer, any amounts paid under this section to the spouse).

"(d) An agency may make a payment under this section only after the law enforcement officer selected agrees in writing to remain a law enforcement officer for a period of time (not to exceed 3 years) specified in the agreement, unless separated for reasons beyond the officer's control which are acceptable to the agency. If the individual violates the agreement, any money paid to the individual under the agreement is recoverable from the individual as a debt due the United States.".

(2) The table of sections for chapter 57 of title 5, United States Code, is amended by inserting after the item relating to section 5724c the following:

"5724d. Relocation payments for law enforcement officers.".

(g)(1)(A) Section 5333 of title 5, United States Code, is amended by adding at the end the following:

"(c) In applying subsection (a) with respect to a law enforcement officer (within the meaning of section 5376(a)), the reference in such subsection to 'GS-11' shall be deemed to read 'GS-3'.".

(B) Each of the appropriate agency heads (as defined in subsection (c)(3)) shall prescribe regulations under which the purpose of the amendment made by paragraph (1) shall be carried out with respect to individuals under subsection (c)(2) under the juridiction of such agency head.

(2)(A) Chapter 45 of title 5, United States Code, is amended by adding at the end the following:

"SUBCHAPTER III—AWARDS TO LAW ENFORCEMENT OFFICERS FOR FOREIGN LANGUAGE CAPABILITIES

"§ 4521. Definition

"For the purpose of this subchapter, the term 'law enforcement officer' has the same meaning as under section 5949(a).

"§ 4522. General provision

"An award under this subchapter is in addition to the basic pay of the recipient.

"§ 4523. Award authority

"(a) An agency may pay a cash award, up to 25 percent of basic pay, to any law enforcement officer employed in or under such agency who possesses and makes substantial use of 1 or more languages (other than English) in the performance of official duties.

"(b) Awards under this section shall be paid under regulations prescribed by the head of the agency involved (or designee thereof). Regulations prescribed by an agency head (or designee) under this subsection shall include—

"(1) procedures under which foreign language proficiency shall be ascertained;

"(2) criteria for the selection of individuals for recognition under this section; and

"(3) any other provisions which may be necessary to carry out the purposes of this subchapter.".

(B) The table of sections for chapter 45 of title 5, United States Code, is amended by adding at the end the following:

"SUBCHAPTER III—AWARDS TO LAW ENFORCEMENT OFFICERS FOR FOREIGN LANGUAGE CAPABILITIES

"4521. Definition.
"4522. General provision.
"4523. Award authority.".

(3)(A) Section 8335(b) of title 5, United States Code is amended—

(i) in the first sentence, by striking "law enforcement officer or a"; and

(ii) by inserting after the first sentence the following: "A law enforcement officer who is otherwise eligible for immediate retirement under section 8336(c) of this title shall be separated from the service on the last day of the month in which he becomes 57 years of age or completes 20 years of service if then over that age.".

(B) Section 8425(b) of title 5, United States Code, is amended—

(i) in the first sentence, by striking "law enforcement officer or" each place it appears; and

(ii) by inserting after the first sentence the following: "A law enforcement officer who is otherwise eligible for immediate retirement under section 8412(d) shall be separated from the service on the last day of the month in which that law enforcement officer becomes 57 years of age or completes 20 years of service if then over that age.".

(4) Section 5542(a) of title 5, United States Code, is amended by adding at the end the following:

"(4) Notwithstanding paragraphs (1) and (2) of this subsection, for an employee who is a law enforcement officer (within the meaning of section 5949(a) of this title), the overtime hourly rate of pay is an amount equal to one and one-half times the hourly rate of basic pay to the employee, and all that amount is premium pay.".

(5) Section 5547 of title 5, United States Code, is amended by adding at the end the following:

"(c)(1) The provisions of subsection (a) shall not apply to the pay of a law enforcement officer for any pay period in which such officer is required to perform overtime under section 5542(a) or administratively uncontrollable overtime under section 5545(c)(2).

"(2) Notwithstanding the provisions of paragraph (1), no law enforcement officer may be paid premium pay to the extent that the aggregate rate of pay of such employee for the aggregate of all pay periods in any calendar year exceeds the scheduled rate of pay for level V of the Executive Schedule.

"(iv) a member of—

"(I) the Metropolitan Police or the Fire Department of the District of Columbia; or

"(II) a member of the United States Secret Service Uniformed Division, a member of the United States Park Police other than for purposes of sections 5545(a) and 5546;".

On page 94, line 20, strike "526" and insert in lieu thereof, "527".

On page 94, line 23, strike "527" and insert in lieu thereof, "528".

On page 95, line 5, strike "528" and insert in lieu thereof, "529".

Mr. DECONCINI. Mr. President, this is a critical time in our Nation's history. I am pleased that the Senate has just adopted a major pay bill for Federal employees. The Congress, with the support of the Bush administration, has escalated the "war against drugs," committing more than $20 billion toward this effort between fiscal years 1989 and 1991. The Department of Defense has finally become actively involved, mobilizing air, sea, and land resources to support Federal, State, and local law enforcement agencies. It is an all-out national offensive against the drug epidemic that has left no segment of our society untouched. Only the amount of resources and their proper allocation continue to be a matter of debate between the administration and this Congress.

Nevertheless, at the very time that a strong stand has been taken against drug traffickers, drug producers, and the drug syndicates, we continue to ignore a major problem which has been building for several years within the ranks of Federal law enforcement agencies. It affects the very officers and agents tasked with front line combat duty in the drug war.

In April the National Advisory Commission on Law Enforcement issued its final report after a year-long investigation.

I have a copy of that here which I will be more than happy to have anybody look at if they care to. Copies were sent to Senators' offices.

The Commission, established by a provision I inserted in the Anti-Drug Abuse Act of 1988, includes such members as Attorney General Dick Thornburgh, Office of Personnel Management Director Constance Newman, FBI Director William Sessions, and my colleagues Senator BOSCHWITZ and Senator COATS. That distinguished Commission concluded that Federal law enforcement agencies face serious employee recruitment and retention problems. Although reports of inadequate salaries and hiring problems have been around for some time, the Commission has now documented that these problems have reached a critical stage.

Imagine entering into a war, developing a battle plan, making commitments, purchasing equipment, and then finding out that troops are not available and that qualified replacements are not to be found. This is the scenario we are facing today.

Law enforcement has always been a proud profession with its own history and traditions. The men and women who have accepted appointments as Federal law enforcement officers have always given more than they have received. Their lives and backgrounds are closely scrutinized. Their conduct on and off duty is always held to a higher standard then most and their personal sacrifices have been many. Yet very little consideration has been given to compensate them at a level appropriate to their contributions.

Most Federal agent candidates are required to have college degrees and blemish-free backgrounds verified by extensive security investigations and polygraph examinations. They undergo medical, physcial and sometimes psychological preemployment screening and must successfully pass written examinations and a battery of interviews. They must be willing to accept periodic transfers, extensive travel, long work days, dangerous assignments and sometimes uncompensated overtime.

Most Federal agents can look forward to three or four transfers during a career. For those who are selected for advancement, more transfers will occur as they assume management level positions. Some Federal agents have relocated "in the best interest of the Government" in excess of 10 times during their careers.

When you consider what is expected of candidates, it should be no great surprise that the average starting salary of Federal officers—$18,250—no longer attracts the number of qualified individuals that this profession requires. Where salary once was the attraction to a career in Federal law enforcement, it is today's low salaries that are now discouraging the most qualified candidates from considering Federal law enforcement as a profession.

The Commission found that the recruitment and retention problems are the direct result of the large disparity that exists between the pay and benefits of Federal officers compared with those of State and local agencies. Surprisingly, the physical dangers associated with the profession have little to do with recruitment and retention problems.

The disparities identified across the country are shocking. Why would good candidates consider positions with DEA, Secret Service, FBI, Customs, the Bureau of Prisons or any other Federal law enforcement agency, when State and local agencies in Chicago, Los Angeles, and San Francisco provide entry level salaries of over $30,000 per year? In fact, the Commission found more than 50 U.S. cities where the entry level salary for State and local officers was in excess of $24,000 a year—a salary which is about $6,000 more than the average starting pay of a Federal officer. I think that is astounding and something that has to be dealt with.

Federal officers also experience the impact of the salary disparity when they are transferred to a high cost area. The case of the Customs agent moved from Tucson to Los Angeles, the DEA agent transferred from Indianapolis to San Francisco, or the Secret Service agent moving from Charlotte to New York City have all caused financial disasters for the families involved in such moves. The purchase of a comparable residence at the new duty station can be prohibitive.

I am introducing this amendment to make the pay and benefits of Federal officers more competitive with their State and local counterparts. The amendment would raise the starting salaries of Federal officers by approximately $3,000 per year. It provides cost of living bonuses for those assigned to the 13 highest cost areas. The amendment would also allow agencies to pay one-time relocation bonuses to Federal officers transferred to high cost areas to help in purchasing comparable housing. It also would allow for bonuses to be paid to employees whose position requires foreign language proficiency. In addition, it extends the mandatory retirement age from 55 to 57, helping agencies to retain experienced personnel.

Attorney General Thornburgh, the top law enforcement officer in the United States has pledged his support for this legislation. He is well aware of the critical recruitment and retention problems that now exist for all Federal law enforcement agencies. Similarly, the American Federation of Government Employees made a significant departure from its longstanding position recently when it openly supported this occupation specific pay reform measure.

Some have voiced concerns that we must be cautious in making adjustments to salaries when it only affects a segment of the Federal work force. Mr. President, I submit that when a problem of this magnitude, identified by the National Law Enforcement Commission, is brought to our attention, it would be sheer negligence for us not to take action to correct the problem. This body created the Commission and gave it the mandate to investigate and report on the problem. They did just that and now the ball is in our court. To date, 39 of my colleagues from both sides of the aisle have cosponsored this initiative and I ask the rest of the Members to join us. Crime fighting is not a partisan issue and it, therefore, deserves all of our support.

Federal officers register few complaints about the increasing dangers of their job. They accept them as part of their chosen profession. They do not make an issue about the conditions of their work environment or the many uncompensated hours that they put in. However, it is now apparent from the significant numbers leaving Federal law enforcement, and the reduced candidate pool available, that major adjustments must be made immediately to ensure the uninterrupted mission of public safety championed by Federal law enforcement agencies.

The war on drugs has been declared. The long-standing battle against illegal drugs, organized crime, white collar crime, terrorism, and other violent crimes continues with a greater commitment than ever. This is not the time to allow the most crucial resource in the war on drugs, the Federal law enforcement officers, to become extinct.

Mr. President, I have a number of charts here I would like to put up. The first one is on the left as we view them here. Mr. Finan will help me change them as we go through them.

I would like to point out, Mr. President, this first chart on the left, this first exhibit, shows the disparity between every entry level salary for Federal law enforcement officers in four different categories when compared with their State and local counterparts. Uniformed Federal officers begin at $16,305, which is the first column, the top of the first column on the left of the first exhibit on the left.

We will see the disparity there between the entrance level Federal officer at $16,305, and what a law enforcement officer received on the entrance level in Lowell, MA, San Francisco, and New Jersey, from the police departments and the State police, ranging from $31,570 in San Francisco to $31,000 in Lowell, MA, and $25,182 in New Jersey.

Nonuniformed Federal officers, investigators, those types of law enforcement, beginning at $16,305, as compared with the nonuniform counterpart at the State and local level with starting salaries such as we see here. The nonuniformed officer starts at $16,305. Look what they start in the Boston Police Department, $34,456. In Des Plains, IL, police start at $27,079. In Dade County, FL, at $25,134 and New York State police at $39,589.

Why do people not want to go into the Federal law enforcement? That pretty well tells the story.

Federal probation officers begin at $20,195 compared with State and local officers starting salaries much higher; the California corrections officers start at $34,560, the Dallas adult probation at $21,168.

Federal correction officers begin at $18,174 as compared to their State and local counterparts. That is the last row there, which would be New York City corrections at $25,977; Los Angeles at $34,452.

So, from $16,305 to as much as $31,000 for uniformed officers and probation officers from $20,000 going up to as much as $34,000; we see the disparity. I think it is clear it is long overdue we do something about this.

The next visual exhibit on the right, I want to point out this chart gives a visual picture of the Federal law enforcement starting salary at GS-5 and GS-7 levels, represented by the first and second block on the left.

Mr. Finan will point to those two blocks which represent the GS-5 and GS-7 levels, compared to the mean entry level starting salary of State and local law enforcement represented at the third block being pointed to right there and compare to the mean starting salary of college graduates, which is represented by the fourth block.

If that does not tell us how far behind the curve we are, I do not know what needs to be said.

The third exhibit, these 13 cities that are listed here represent locations where the cost of living, the cost of housing, and the disparity between Federal law enforcement salaries and local law enforcement salaries is great enough that retention and recruitment is a serious problem and where, under this legislation, cost of living allowances would be paid at percentages between 5 and 25 percent.

These will just give some idea of the Federal law enforcement officers, how many there are in each of those cities. In Los Angeles, one of the highest cost-of-living areas for anybody, but for law enforcement, this amendment would provide for a cost of living allowance of 25 percent.

In San Diego, another high cost of living area, it would be 10 percent. In other high cost of living areas it ranges from 5 to 25.

The next exhibit is this chart. The significance of this chart is by increasing the mandatory retirement age from 55 years to 57 we can retain experienced law enforcement management officials for almost 4 more years. Between 1986 and 1989 approximately 2,500 senior law enforcement officers left Federal service, with a combined experience level of over 50,000 years of laws enforcement.

So we see by this chart, in 1988, 840 were the number of total retirements. Their average age that they retired at was not 55, it was 53 years and 3 months. And, in 1986 it was 925, with the average retirement of 53 years and 4 months. So Federal law enforcement people are leaving earlier. They are not staying even until 55. Why? Because of the pay differential that needs to be changed.

The last chart, Mr. President, the grades and salaries on the left side are the 1990 salaries under the General Schedule of Federal Employees that now range from GS-3 at $12,982 down to GS-10, first step, $27,206.

The grades and salaries of this proposal, on the right side, demonstrate the GS-3 step 1 would be $16,879 going through the various steps up to GS-10 going from $27,206 to $29,020.

Mr. President, I ask Mr. Finan to put up the last. This is important.

This is a June 25 Washington Post article about the "Violence, Tensions Increasing Along the U.S.-Mexican Border," which is of course of great interest to me. I will just highlight areas of quotes to this particular article. I would commend to Senators that they read the whole thing. It will just knock their socks off.

Right here it says:

In recent days, the San Diego Police Department has pledged to assign a SWAT team and a elite unit called the Special Response Team to help patrol the area west of the San Ysidro crossing. Wednesday, the border patrol announced it was installing floodlights in the area and installing 30 more agents there in a bid to curb what it has called a "an alarming increase in violence."

This is what is happening on our border, not to mention many of our cities.

Further it states, and I would like to quote:

But, said Border Patrol spokesman Swofford, from January through mid-May, there have been 73 assaults on agents, an increase of 145 percent over the same period last year. More than 100 stoning incidents also have been reported, resulting in injuries to several agents, he said.

It goes on to point out the first 4 months of this year, apprehension averaged 1,300 a day in the San Diego-Tijuana sector, up 50 percent from last year.

This article, Mr. President, only points out the severity of what our law enforcement officers are up against and it is high time that we do something about it.

What we have done is adopted a major pay bill for all Federal employees, which includes the Federal law enforcement. But it does not go to what the Commission labored over for more than 1 year. This Commission was not just something appointed by the President. This Commission was authorized by the Senate and the House. The Commission members spent a great deal of time on this.

I remember attending those meetings myself where the head of the FBI, Mr. Sessions, was there; Mr. Webster was there; Mr. Thornburgh came. It is clear that this is a lot of work that has been put in to making it correct.

Mr. President, I am advised I need to ask unanimous consent that the previous unanimous-consent agreement to lay the committee amendment aside be vitiated, and I ask unanimous consent instead that the amendment I am offering be an amendment to the committee amendment, as amended. I made the wrong request.

The PRESIDING OFFICER. Without objection, the previous order is vitiated, and the amendment offered by the Senator is pending to the committee amendment.

● Mr. BRADLEY. Mr. President, I rise as a cosponsor of the amendment offered by my colleague, the gentleman from Arizona [Mr. DECONCINI] to raise pay levels for Federal law enforcement officers. The amendment implements the key recommendations of the National Advisory Commission on Law Enforcement, which was established by the Anti-Drug Abuse Act of 1988.

The amendment provides pay hikes of 5 to 25 percent for Federal officers living in unusually high cost-of-living areas, such as New Jersey; allows for payments of one-time housing bonuses of up to $20,000 to Federal officers transferred to areas with unusually high housing costs; and raises Federal law enforcement entry salaries to parity with State and local law enforcement officers.

Mr. President, the problems facing Federal law enforcement officers in New Jersey are acute. Many Federal agencies are having problems recruiting qualified officers because starting pay for State and local law enforcement officers is thousands of dollars more than Federal pay levels. Federal agencies also have some problems retaining experienced officers.

These pay incentives have particularly crippled the law enforcement efforts of the FBI office in Newark. Two years ago, the New York FBI office established a demonstration project that raised pay by 25 percent to help offset the high cost of living in the New York area. The demonstration has certainly helped retention and recruitment efforts in the New York City office, but has decimated the Newark office. It has created an anomaly under which two agents might live next door to each other, but one might make substantially more than the other doing the same job with the same record of service. Many agents have requested transfers from Newark to New York. As many of the transfer requests are being made by senior agents, law enforcement in New Jersey is losing some of its most experienced crime fighters.

The experience in New York shows that Federal pay raises will help recruitment and retention efforts. This legislation will go a long way in solving our Federal law enforcement efforts in New Jersey, and I urge my colleagues to support it.●

Mr. DECONCINI. I yield the floor, Mr. President.

The PRESIDING OFFICER. Who seeks recognition?

Mr. GLENN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DECONCINI. Mr. President, I ask unanimous consent to modify amendment No. 2614 with a new page 11, and I send that page 11 to the desk as a modification.

The PRESIDING OFFICER. The Senator has a right to modify his amendment.

The amendment is so modified.

The modification is as follows:

At the end of the amendment add the following:

(h) If the President determines that national emergency or serious economic conditions affecting the general welfare require that the annual general adjustment and the locality adjustments be held below the levels described in the previous section, or that any other provision of this section be waived or modified, the President shall prepare and report that determination to the Congress in the budget transmittal described in the previous section. In evaluating an economic condition affecting the general welfare under this subsection, the President shall consider pertinent economic measures including, but not limited to, the Indexes of leading Economic Indicators, the Gross National Product, the unemployment rate, the budget deficit, the Consumer Price Index, the Producer Price Index, the Employment Cost Index, and the Implicit Price Deflator for Personal Consumption Expenditures. The President shall include in the report to Congress under this subsection his assessment of the impact that holding the general adjustment and the locality adjustments below the levels described in the previous section will have on the Government's ability to recruit and retain well-qualified employees.

Mr. DECONCINI. Mr. President, this modification is to place in the bill language somewhat similar to the language that was in the previous pay bill for Federal employees which permits the President some discretion in implementing the location pay and the increased pay.

I do not like it too much, Mr. President, but I feel that the Senators from Ohio and Delaware have worked in good faith here trying to accommodate not only the law enforcement Federal officials, on which the commission has worked so long and so hard to put together a bill, but in fact have accommodated all Federal officials. I am prepared to go to conference with this language in the bill. I think that may clear this amendment rather rapidly, as a matter of fact.

Mr. GLENN addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. GLENN. Mr. President, I think this is a good change to the proposal made by the distinguished Senator from Arizona. I, too, want more pay for Government employees. I want it to apply to the Federal law enforcement officers as well as others in Government. We want to make certain that we get something through here. This does one thing. It makes it certain that the administration now has the full legal tools they need to go ahead and raise pay.

We can work out the differences in conference between the bills of the House and the Senate. I think getting these before that conference is very, very important, for pay legislation has been stalled for far, far too long.

So while I would obviously prefer that the Federal Law Enforcement Pay Reform Act not be done separate-

ly, nevertheless attaching it with this provision I think let us consider this in conference, and work out the best solution.

Mr. President, Connie Newman, who is Director of the Office of Personnel Management, has objected to some of this separate consideration. I ask unanimous consent to enter her letter and factsheet in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

OFFICE OF PERSONNEL MANAGEMENT,
Washington, DC, July 26, 1990.

Hon. DENNIS DECONCINI,
U.S. Senate,
Washington, DC.

DEAR SENATOR DECONCINI: I understand that you are considering offering S. 2250, your proposed "Federal Law Enforcement Pay Reform Act of 1990," as an amendment to the FY 1991 Treasury, Postal Service and General Government appropriations bill. I am writing to tell you why we are opposed to such an amendment.

I certainly realize that the Federal law enforcement community faces very serious pay-related recruitment and retention problems, but these problems are not unique to the law enforcement community; rather, they are widespread throughout the Federal service. As you know, we have been working on a Governmentwide solution to these problems, as evidenced by S. 2547, the Administration's proposed Federal Pay Reform Act. We are actively pursuing a Governmentwide approach to pay reform in both the Senate and the House, and I believe there is a very real likelihood we are going to be successful.

Dealing with the problems of the Federal pay system on a fragmented basis will, I believe, only delay the needed comprehensive solution, and is likely to lead to dysfunctional conflicts between different and competing personnel systems in different agencies or even within single agencies. While no one would question the vital importance of our Federal law enforcement community to the Nation's well-being and safety, there are many thousands of Federal employees in other fields who are equally deserving of the benefits of a fair and efficiently functioning pay system.

We are also very much concerned by the cost of S. 2250. In view of the Government's grave fiscal problems, we believe that any changes in the Federal pay system must be very carefully structured to ensure that any additional payroll expenditures are targeted as narrowly as possible toward the most serious problem areas. The pay improvements in S. 2250 would be extended so broadly through the Government's law enforcement activities that we believe the costs would be prohibitive.

I would very much like to work with you to ensure that any Governmentwide solution to the problems of Federal employee pay satisfactorily address your special concern for the needs of the law enforcement community. I believe, and hope you will agree, that such an approach is preferable to that taken by S. 2250.

The Office of Management and Budget advises that, from the standpoint of the Administration's program, there is no objection to the submission of this letter.

Sincerely,

CONSTANCE BERRY NEWMAN,
Director.

FEDERAL LAW ENFORCEMENT PAY REFORM ACT OF 1990, S. 2250—AUGUST 28, 1990

The various pay enhancement provisions would be expensive, having large hidden costs, as well as interfere and be disequitable with long-term Administration pay reform goals which would include the establishment of separate pay systems.

S. 2250 will carry an estimated 1992 cost of $486 million, over twice the cost estimated by the National Advisory Commission on Law Enforcement (NACLE). The 1991 cost is estimated at over $150 million. NACLE estimated the annual cost of all provisions at $180-$200 million in its study.

If the annualized costs were fully absorded, law enforcement man-year reductions would total about 11,012—6,479 for Justice, 1,358 for Treasury and 3,175 for other agencies. The other agency reduction is based on an average man-year cost of about $43 thousand.

S. 2250 contradicts the philosophy behind the Administration's pay reform package, which would authorize agencies to establish separate pay scales tailored to a few occupations. Flexibility within the Administration's pay reform plan will meet special agency needs. Clearly, it has not been demonstrated by the NACLE report that law enforcement salary problems are so pressing that they can't be resolved through both the Administration's immediate relief and long-term proposals.

The Administration's pay reform plan tackles salary issues that need to be addressed now—a modest 5 percent increase for GS-5s and GS-7s and an 8 percent georgraphical differential in three cities starting in 1991. S. 2250 has charged ahead of the Administration, proposing increases for GS-5s through GS-10s, including a 30 percent increase for GS-5s and a 17 percent increase for GS-7s. Additionally, geographic pay increases of up to 25 percent for 13 cities have been proposed. Such an inconsistent pay policy would surely have a detrimental effect on employee morale throughout the Federal sector by undermining the fairness of the Administration's immediate relief provisions.

S. 2250 has large, hidden costs for increased retirement benefits. Retirement benefits for the 1991 payroll could reach $2 billion based upon OPM analysis of law enforcement retirement costs. General pay benefits associated with increased salary increases have also been estimated and will substantially increase the funding requirements of this bill.

Law Enforcement salaries for higher graded personnel have already been addressed through the passage of H.R. 215 which lifts the GS-10, Step 1 cap on administratively uncontrollable overtime (AUO) and will provide annual $6,000-plus salary increases to law enforcement personnel higher than a GS-10. Based on 2nd quarter, 1990 employment statistics, 60 percent of Justice law enforcement and 75 percent of Treasury personnel are graded higher than GS-10. With the 1991 AUO increase, FBI agents will average $51,000 annually. DEA and Secret Service agents will earn $50,000.

Retention problems do not exist for the 30,000 Special Agents employed by the Federal Government. The "quit" rate for Special Agents is currently 1.3 percent, among the lowest of all Federal jobs. Special Agents account for 50 percent of all law enforcement positions which would be covered by S. 2250. Pay increase proposals in this bill may be appropriate for some law enforcement occupations, but should not target jobs which do not have retention problems.

S. 2250 provides for relocation and retention bonuses, but so does the Administration. S. 2250 does provide for an up-to-25 percent language bonus for certain law enforcement personnel. The FBI and DEA already have modest language programs tailored to language skill and the amount of usage. S. 2250 provides no guidance on implementing an up-to-25 percent language bonus.

S. 2250 and the Administration's pay reform proposal will rely on salary surveys by the Bureau of Labor Statistics to adjust salary rates. A distinct possibility of overlapping and administratively costly surveys exists. The periodic administration of salary review would be more efficient under one, government-wide pay reform package.

ESTIMATED 1991 COSTS OF DeCONCINI PROPOSALS—AUG. 13, 1990

[In millions of dollars]

Governemnt total	113.0	134.1	70.2	26.2	62.3	80.2	466.0

Mr. GLENN. Mr. President, I think this is a good move. On our side I certainly commend the distinguished Senator from Arizona for his action in this regard, and look forward to working with him on this.

Mr. ROTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. ROTH. I, too, wish to commend the distinguished Senator from Arizona. I think that the modification made in his amendment enables us to go to conference in a sincere effort to arrive at the kind of approach that will begin to take care of the inadequacies of current Federal compensation. This is a problem not only for the law enforcement officials, where it is most serious—and I share the concern of the distinguished Senator from Arizona in that regard—but it also concludes any omnibus proposal.

I think it lays the groundwork for the conference, working together with the administration through Connie Newman, who has taken such a strong lead in these matters, to arrive at an equitable approach, bearing in mind the serious problems we have on the deficit as well.

So I am happy to agree to the revision.

Mr. COCHRAN addressed the Chair.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I think this deals with the issue raised earlier in a way that will permit the Senate to move along with this bill and take up other amendments. I do not see any need to pursue the debate any longer except to congratulate the distinguished Senator from Delaware for his hard work and his effort to reconcile the differences that existed a little while ago on this issue.

I commend the distinguished chairman of the subcommittee and the distinguished Senator from Ohio for working this matter out. We have no objection to proceeding to agreement to the amendment on a voice vote.

Mr. DECONCINI. Mr. President, when I modified my amendment I modified the wrong part of the amendment. I am rewriting that and will send another and ask unanimous consent for the modification after I clear it with the Senator from Ohio and the Senator from Delaware. So I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GLENN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FLOOR PRIVILEGES

Mr. GLENN. Mr. President, I ask unanimous consent that Mr. Robert McArter, who is temporarily my Governmental Affairs Committee staff from GAO, the General Accounting Office, be allowed on the Senate floor during the consideration of the Treasury and Postal appropriations bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DECONCINI addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona.

MODIFICATION TO AMENDMENT NO. 2611

Mr. DECONCINI. Mr. President, referring to the previous amendment that we adopted here for the Senators from Maine, I ask unanimous consent that amendment be modified and I send the modification to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment previously agreed to is now modified.

The modification to amendment No. 2611 is as follows:

In amendment No. 2611; on page 95, line 3, change language to read "strike $200,000" instead of "$160,000".

Mr. DECONCINI. I thank the Chair. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DECONCINI. Mr. President, I ask unanimous consent that I be allowed to modify amendment No. 2614, the amendment that I previously sent to the desk.

The PRESIDING OFFICER. The Senator has the right to modify his amendment, and it has been so modified.

Mr. DECONCINI. I thank the chair.

Mr. D'AMATO addressed the Chair.

The PRESIDING OFFICER. The Senator from New York is recognized.

Mr. D'AMATO. Mr. President, I strongly support Senator DECONCINI's

amendment providing a fair deal for our Federal law enforcement officers.

For almost 3 years, we have been talking about the need to pay our Federal law enforcement officers what they deserve.

Starting salaries for newly hired Federal law enforcement agents range between $16,000 and $20,000, but the average starting salary for local law enforcement officers is over $22,000. In some areas it is around $30,000.

To correct this imbalance, Senator DECONCINI's amendment:

First, raises Federal law enforcement salaries to make them competitive with local pay scales;

Second, provides 5 to 25 percent locality pay differentials for high cost of living cities, including: Los Angeles, New York, San Francisco, Boston, Washington, DC, Chicago, Denver, Philadelphia, and Seattle;

Third, directs the Office of Personnel Management [OPM] to develop a new pay and classification system for law enforcement;

Fourth, permits law enforcement agencies to pay bonuses to retain exceptional law enforcement officers with special skills who would otherwise retire; and

Fifth, provides bonuses for foreign language ability, and increases the mandatory retirement age from 55 to 57.

The National Commission on Law Enforcement's estimate of the cost of these proposals is between $150 million and $200 million per year, only 2.7 to 3.7 percent above next fiscal year's total outlays for law enforcement.

We have had enough study. It is time to act. This amendment is a matter of simple justice and fairness for our Federal law enforcement officers. I urge my colleagues to give this amendment their full support.

Mr. DECONCINI. Mr. President, I urge the adoption of the amendment, as modified.

The PRESIDING OFFICER (Mr. KERREY). Is there further debate on the amendment? The question is on agreeing to the amendment.

The amendment (No. 2614), as modified, was agreed to.

Mr. DECONCINI. I move to reconsider the vote.

Mr. GLENN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2615

Mr. HOLLINGS. Mr. President, I ask unanimous consent that the pending amendment be set aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HOLLINGS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from South Carolina [Mr. HOLLINGS] proposes an amendment numbered 2615.

On page 11 of the bill, line 5, before the period, insert the following: ": *Provided further,* That not less than $600,000 shall be available to increase by 10 the number of full-time inspectors in the Charleston, South Carolina Customs District".

Mr. HOLLINGS. Mr. President, last month I discussed our needs in Charleston with our distinguished manager of the bill, the senior Senator from Arizona. I had just had a meeting with the Commissioner of Customs, Carol Hallett, with regard to the situation at Charleston International Airport. Charleston is the east coast base for the military airlift command flights from Europe and Central America and also receives State Department evacuation flights, such as from Liberia last month. Just late last evening, I witnessed the arrival of the first 350 evacuees from Iraq.

Our problem in Charleston is that Customs just does not have sufficient inspectors to cope with the explosion of cargo coming into Charleston's docks. Charleston is now second only to New York in container cargo on the east coast—and to man the airport. I met with the Commissioner because the District Director put out a notice that Customs would not inspect the MAC flights before 5:30 p.m. in order to keep up the work of the docks.

If you do not come in until after 5:30, that means they are late and they miss all the outgoing flights, and that means all those who were coming in, instead of immediately moving on to their final destination, miss those flights. Some 17 in all would be missed, leaving out within the next 2-hour period in there, and then they would all have to find rooms, and they would all stay over, and it would be added costs to the Government for the individuals and the Government itself.

Of course, this is completely intolerable, as it would mean that returning servicemen and their families would miss those flights. As I pointed out, Commissioner Hallett recognized the impact of this, and on August 17, she wrote me that she would return to the former schedule of having inspectors at the airport at 4 p.m.

This alone is only a temporary fix because the flight, for example, on yesterday, was scheduled to come in much earlier than that particular time, and we just cannot wait until late evening for Customs just to sit on the ground there and meet the flights. In fact, one flight had to just stay over in Halifax, Nova Scotia, for 2 hours, knowing they could not be processed, so they just held them over there, and they came in late.

I believe Charleston needs a minimum of 10 additional inspectors to keep up with increased amount of cargo coming into the Port of Charleston and for the international airport and these evacuation flights, military flights that are constantly being received throughout the day.

I particularly wanted to thank my colleague, the chairman of our subcommittee, for his consideration of this.

Mr. DECONCINI. Mr. President, the Senator from South Carolina raises a very good point here. Charleston is, I think, the second largest container point—if the Senator will correct me—in the United States. It is growing, and I was advised that the Americans coming from the Middle East that have been held hostage there are coming to that port and need to be cleared. There is just no reason that Customs ought not to have done what we told them to do in report language and in letters previously.

I support the amendment that puts it into the bill and makes it clear that 10 additional agents will be assigned to the Customs branch in that area.

Mr. COCHRAN. Mr. President, we have reviewed the amendment on this side and have no objection to it. We recommend its adoption.

Mr. HOLLINGS. I thank the Senator from Mississippi and the Senator from Arizona and urge the adoption of the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2615) was agreed to.

Mr. HOLLINGS. I move to reconsider the vote.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DECONCINI. Mr. President, I ask that the pending committee amendment be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2616

Mr. DECONCINI. I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for Mr. BIDEN, proposes an amendment numbered 2616.

Mr. DECONCINI. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 29, line 9, strike "$16,500,000: *Provided,*" and insert in lieu thereof, "$17,500,000: *Provided,* That not less than $1,000,000 of such amount shall be available for the establishment of a Technology Re-

search and Development Center within the Office of National Drug Control Policy: *Provided further,*".

On page 75, line 13, strike "$114,461,000" and insert in lieu thereof, $113,461,000".

Mr. DECONCINI. This amendment was sent to the desk on behalf of Senator BIDEN, the chairman of the Judiciary Committee. It would provide $1 million in fiscal year 1991 to the Office of National Drug Control Policy for the establishment of a new technological research and development center. The center will employ a chief scientist and 11 staff to better coordinate Federal drug research and development efforts. This amendment has been cleared on both sides, and I urge its adoption.

Mr. COCHRAN addressed the Chair.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, we have reviewed this amendment offered on behalf of the Senator from Delaware, and we have no objection to it.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2616) was agreed to.

Mr. DECONCINI. I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DECONCINI. Mr. President, I ask unanimous-consent to set aside the committee amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2617

Mr. DECONCINI. I send an amendment to the desk on behalf of myself and Senator DOMENICI and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for himself and Mr. DOMENICI, proposes an amendment numbered 2617.

Mr. DECONCINI. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 67 of the bill, line 12, add the following new section:

SEC. 16. Notwithstanding any other provision of law, the General Services Administration is directed to maintain during the fiscal year ending September 30, 1991, the vehicle rental rates and per mile rates charged to schools and dormitories funded by the Bureau of Indian Affairs that were in effect on June 30, 1990, except for subsequent per mile rate adjustments related to fuel cost increases.

Mr. DECONCINI. This amendment addresses a problem which has arisen with the proposed implementation of the new GSA Interagency Fleet Management System lease and mileage rates for school buses at the beginning of fiscal year 1991. My amendment places a 1 year moratorium on the implementation of the school bus rates for the federally funded Bureau of Indian Affairs [BIA] schools. This action is necessary to give the schools, which are wholly dependent on Federal funding, time to work with the BIA and GSA to determine their student transportation budget needs based on the new rates and to get their budget request for future fiscal years appropriately adjusted.

The BIA, the agency responsible for submitting the schools' budget request, was unaware of the pending GSA rate increases when the schools' fiscal year 1991 budgets were proposed. Now the schools are facing lease and mileage rate increases of 50 percent or more in the academic year beginning October. School has already started and administrators have allocated their budgets for the year. They have no ability to raise revenues to meet these unexpected costs because the schools are located on Indian reservation trust lands.

The schools serve Native American children who live in widely dispersed homes in rural areas where there are more unpaved roads than paved highways. Their buses must operate daily on miles and miles of rough, unimproved road systems to get students to classes. This drives their annual student transportation costs up. However, the BIA reimburses them for only part of these costs.

For example, despite the fact that these schools pay transportation costs which mirror the current national average school bus cost of $1.98 per mile, they receive only $1.15 per mile in reimbursement from the BIA. The new GSA rates will only exacerbate this situation. The temporary moratorium will give the schools time to adjust their transportation budgets and to consider the most cost effective ways of providing student transportation services. The language allows GSA to implement mileage rate adjustments related to fuel cost increases.

This amendment prevents the BIA schools from taking drastic measures to meet their student transportation costs. It protects the classroom instruction budget at these schools against funding reductions. It will give the schools time to determine the total funding needs under the new rate structure and include this additional amount in the fiscal year 1992 BIA budget. This is a reasonable proposal which has been worked out with the participation of all interested parties. I ask for the adoption of this amendment.

I believe it is acceptable on the other side.

Mr. COCHRAN. Mr. President, on behalf of the Senator from New Mexico [Mr. DOMENICI], I ask that the amendment be approved.

The PRESIDING OFFICER. Is there objection to the amendment? The question is on agreeing to the amendment.

The amendment (No. 2617) was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Arizona.

INVESTIGATIONS OF BOMBINGS

Mr. DECONCINI. Mr. President, in the past year, questions have arisen as to the scope of the investigative jurisdiction of the Bureau of Alcohol, Tobacco, and Firearms [ATF] and the Postal Inspection Service over mailed bombs. In order to encourage the two agencies to work out their differences, the Appropriations Committee included strong language in the bill and the report.

Mr. President, I am pleased to report that the two agencies have met and have entered into a memorandum of understanding which provides, in effect, that the two agencies will jointly investigate cases involving mailed bombs; that where the investigation indicates that the mails were used to deliver a bomb, the evidence will be processed by the Postal Inspection Service; that in all cases where the bomb was not delivered by mail, the ATF will process the evidence; and that each agency will lend its support and expertise to the other and work cooperatively to solve these crimes.

I ask unanimous consent that a copy of the memorandum of understanding be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE UNITED STATES POSTAL INSPECTION SERVICE AND THE BUREAU OF ALCOHOL, TOBACCO, AND FIREARMS, DEPARTMENT OF THE TREASURY

1. PURPOSE

The purpose of this memorandum is to further implement the Investigative Guidelines, Title XI, Organized Crime Control Act of 1970, March 1, 1973, which allocated investigative jurisdiction over certain offenses involving unlawful use of explosives. As provided in the Guidelines, the Bureau of Alcohol, Tobacco and Firearms (ATF) was given, among other things, primary investigative jurisdiction over violations of 18 U.S.C. Section 844 (d) and (i) and other violations of Section 844 directed at Treasury Department property and functions. The United States Postal Inspection Service (Inspection Service) was accorded primary jurisdiction to investigate incidents involving explosives or incendiary devices sent through the mails

or directed against Postal Service property or functions.

2. SCOPE

This memorandum pertains only to those incidents involving explosives or explosive or incendiary devices unlawfully sent through the mail. The jurisdiction of the Federal Bureau of Investigation, as well as state and local law enforcement agencies, is acknowledged by the parties but is outside the scope of this agreement.

3. NOTIFICATION

Each agency will immediately notify the other of any report received of an incident involving explosives or an explosive or incendiary device sent through the mail. If, in the course of an ATF investigation, evidence is found that any such explosive or incendiary device was sent through the mail, ATF will immediately notify the Inspection Service.

4. INVESTIGATIONS

a. Response and Crime Scene.—Whenever ATF receives a report of a mail bombing, it shall immediately notify the Inspection Service. Whenever ATF responds to any bombing, it shall take reasonable steps to determine whether the explosive device or incendiary device had been sent through the mail. If there is any indication that the device had been mailed, ATF shall immediately notify the Inspection Service. The local Special Agent in Charge (SAC) and Inspector in Charge (INC) will determine when to initiate processing of the scene. This determination will be based on the initial assessment of the crime scene, the anticipated time of arrival of Inspection Service personnel, and the concern for public safety. If initial indications are that the bomb was not delivered by mail, ATF will act in accordance with its normal procedures. However, if, at any time, ATF obtains information indicating that the bomb was delivered by mail, it shall notify the Inspection Service and a joint task force will conduct the investigation.

b. Post-Crime Scene Investigation.—The ensuing investigation after examination of the crime scene will be conducted jointly by the Inspection Service, ATF, and available federal, state and or local authorities in a task force type of approach. Investigative strategies employed will be determined jointly by Inspection Service, ATF, and other involved agencies. In addition, contacts with federal, state, or local prosecutorial offices will be made jointly by the Inspection Service and ATF unless otherwise agreed.

c. Coordination.—Inspection Service and ATF managers will coordinate investigative activities and maintain appropriate liaison. Related activities such as press releases, press conferences and other investigative approaches will also require joint coordination by ATF and the Inspection Service.

5. EXAMINATION OF EVIDENCE

a. All evidence recovered during a crime scene investigation shall immediately be turned over to the Inspection Service at the crime scene or other mutually agreed location for examination by the Inspection Service crime laboratory. ATF assistance will be provided to the Inspection Service examination of the evidence if requested. In those cases where it had not been determined through processing of the crime scene that the explosives or explosive or incendiary device had been mailed and subsequent laboratory examination revealed that the mails had been used, the Inspection Service will be immediately notified and the evidence will be examined jointly by Inspection Service and ATF crime laboratory personnel.

b. Regardless of which agency has custody of the evidence, the crime laboratories of each agency will be available to the other on request to provide any assistance, information or expertise.

6. IMPLEMENTATION AND RESOLUTION OF DISPUTES

a. Primary responsibility for the implementation of this agreement is in the local Special Agent in Charge of ATF and the Inspector in Charge of the Inspection Service, or their designees. They shall make every reasonable effort to implement this memorandum.

b. In the event a dispute arises regarding this Memorandum of Understanding which they are unable to resolve, the matter shall be referred to the Chief, Explosives Division, ATF and the Manager, Fraud and Prohibited Mailings Branch, Postal Inspection Service.

c. In the event the parties are unable to resolve a dispute, they agree to ask the Assistant Attorney General, Criminal Division, to mediate the dispute.

d. The parties agree to advise their agents of the provisions of this agreement.

e. Nothing in this agreement is intended to augment or diminish the authority of ATF or the Inspection Service to investigate crimes against the United States nor does this agreement confer any rights on any third party in litigation with the United States.

STEPHEN E. HIGGINS,
Director, Bureau of Alcohol, Tobacco and Firearms.
Date: August 24, 1990.

CHARLES R. CLAUSON,
Chief Postal Inspector.
Date: August 24, 1990.

INVESTIGATION OF FINANCIAL INSTITUTION FRAUD

Mr. DECONCINI. Mr. President, section 525 of the bill contains a provision which authorizes certain Federal law enforcement agencies to investigate financial institution fraud. Under current law, the Department of Justice has primary investigative jurisdiction on financial institution fraud. The provision contained in H.R. 5241 will permit the Attorney General to utilize the combined talents of other law enforcement agencies and in particular, the U.S. Secret Service to carry out these investigations and curtail the growing backlog.

The following letter from Attorney General Richard Thornburgh states the commitment of the Attorney General to utilize the expertise of these agencies to undertake financial institution investigations.

I ask unanimous consent that a letter from the Attorney General, dated July 31, 1990, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

OFFICE OF THE ATTORNEY GENERAL,
Washington, DC, July 31, 1990.

Hon. DENNIS DECONCINI,
Chairman, Subcommittee on Treasury, Postal Service, General Government, Committee on Appropriations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: As a follow-up to our conversation last Thursday, I want to reiterate in the strongest terms my commitment to effectively employ the Secret Service in helping this Department combat the fraud associated with the savings and loan crisis. In light of the magnitude of the task before us, I welcome these additional resources. I expect that the help Director Simpson is so willing to provide will greatly assist us in expediting these investigations.

I believe it is critical that the Secret Service be brought into the picture as soon as possible. I understand the FBI has offered and Director Simpson has accepted the use of the FBI's specialized training programs that have evolved since the beginning of these cases. We also can use immediate help in those areas of the country where the problem is most acute. Providing additional experienced investigators, for example, in Texas and California should have an immediate impact. I can assure you that the Department and the FBI will work hand-in-hand with the Treasury Department and Secret Service to maximize the impact these fine investigators will have on the problem.

I also want to express my appreciation for your support and assistance in helping to ensure continuation of a coordinated approach to the investigation and prosecution of financial institution fraud. The proposed bill language agreed upon by the FBI and Secret Service and which you support both addresses the needs of all participants and ensures full participation by the Secret Service. I believe this approach will result in the most effective use of the resources Secret Service will bring to bear on the issue.

Sincerely,

DICK THORNBURGH,
Attorney General.

AMENDMENT NO. 2618

(Purpose: To include an exemption for intelligence community personnel from certification requirements of detailee position)

Mr. COCHRAN. Mr. President, on behalf of the distinguished Senator from New Mexico [Mr. DOMENICI], I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. Does the Senator request to lay the pending amendment aside?

Mr. COCHRAN. The Senator asks unanimous consent that the pending amendment be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Mississippi [Mr. COCHRAN], for Mr. DOMENICI, proposes an amendment numbered 2618.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 114, line 4, after the section designation, insert "(a)" and after line 15, insert the following new subsection:

(b) The provisions of this section shall not apply to Federal employees or members of the armed services detailed to or from—

(1) the Central Intelligence Agency;

(2) the National Security Agency;

(3) the Defense Intelligence Agency;

(4) the offices within the Department of Defense for the collection of specialized national foreign intelligence through reconnaissance programs;

(5) the Bureau of Intelligence and Research of the Department of State;

(6) any agency, office, or unit of the Army, Navy, Air Force, and Marine Corps, the Federal Bureau of Investigation and the Drug Enforcement Administration of the Department of Justice, the Department of the Treasury, and the Department of Energy performing intelligence functions; and

(7) the Director of Central Intelligence.

Mr. COCHRAN. Mr. President, this amendment modifies section 626 of the bill to exempt intelligence community personnel from certain requirements relating to agency detailees. I understand the amendment has been reviewed and that there is no objection to it.

Mr. DeCONCINI. Mr. President, this side has no objection to the amendment and we are prepared to accept it.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2618) was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. DeCONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DeCONCINI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DECONCINI. Mr. President, may I ask of the chair what is the pending amendment?

The PRESIDING OFFICER. The pending amendment is the committee amendment.

Mr. DECONCINI. Mr. President, I am prepared to proceed.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment.

The committee amendment beginning on page 92, line 13, as amended, was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote by which the committee amendment was agreed to.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2619

(Purpose: To provide that Federal employees may participate in State and local government programs encouraging the use of public transportation).

Mr. DECONCINI. Mr. President, I send an amendment to the desk on behalf of the Senator from Maryland [Ms. MIKULSKI].

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for Ms. MIKULSKI, proposes an amendment numbered 2619.

Mr. DECONCINI. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

On page —, insert between lines — and — the following new section:

SEC. . (a) A Federal agency may participate in any program established by a State or local government that encourages employees to use public transportation. Such programs may involve the sale of discounted transit passes or other incentives that reduce the cost to the employees of using public transportation.

(b) notwithstanding the provisions of section 5536 of title 5, United States Code, or any other provision of law, an employee may participate in a program described under subsection (a).

(c)(1) For purposes of this section the term "Federal agency" shall mean an Executive agency as defined under section 105 of title 5, United States Code, and shall include any agency of the legislative or judicial branch of Government.

(2) For purposes of subsection (b), the term "employee" shall mean an employee as defined under section 2105 of title 5, United States Code, and shall include an employee of any legislative or judicial agency.

(d) No later than June 30, 1993, the General Accounting Office shall conduct a study and submit a report on the implementation of programs under subsection (a) and the employees (including information of the employing agencies and rates of pay of such employees) who have participated in such programs.

(e) The provisions of this section are repealed effective December 31, 1993.

Mr. DECONCINI. Mr. President, this amendment allows agencies to participate in State and local government programs encouraging the use of public transportation. There is no cost associated with the amendment. The cost to the agency would be absorbed within existing funds. The amendment has been cleared on both sides, I am so advised.

Mr. COCHRAN. Mr. President, we have reviewed the amendment on this side of the aisle. It has been cleared. We urge its adoption.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2619) was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2620

(Purpose: To express the sense of the Senate regarding burdensharing in the Persian Gulf)

Mr. DECONCINI. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for himself and Mr. D'AMATO, proposes an amendment numbered 2620.

Mr. DECONCINI. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

On page 114, after line 22, add the following new section:

SEC. . (a) The Senate finds that—

(1) democracy and freedom of the independent Arab nations have been threatened by the invasion and illegal annexation of Kuwait by the Government of the Republic of Iraq;

(2) the safety of American citizens and those of other countries have been directly threatened by the decision of the Government of Iraq to move them and use them as "human shields" at strategic defense and industrial installations;

(3) the stability of world oil production and marketing has been threatened by the illegal Iraqi seizure of Kuwaiti ports and oil production facilities;

(4) the United Nations has condemned Iraq's invasion of Kuwait, has voted to impose an economic embargo on Iraq, and has declared null and void the annexation of Kuwait;

(5) the United Nations Security Council has approved the use of appropriate military force by individual nations to enforce United Nations sanctions;

(6) the President of the United States has taken the lead in unifying world opinion and directing international efforts against the Iraqi aggression and in defense of Saudi Arabia and the other Gulf states;

(7) a majority of Arab nations have condemned Iraq's actions and have supported Arab military and diplomatic efforts to defend the Gulf states and to ensure Iraq's withdrawal from Kuwait;

(8) the United States is deploying tens of thousands of American troops and military hardware to the Persian Gulf in defense of the strategic interests of the United States in the region, placing American defense forces at considerable risk of attack and at costs estimated to be in excess of $25 million a day, during a time of an increasing budget deficit;

(9) a principle position of the United States and its NATO and major non-NATO allies is one of burdensharing in the collective defense of the Western alliance;

(10) the Senate and the American people are deeply concerned about the need for reduced budget deficit and improved economic growth; and

(11) President George Bush has announced his intention to develop an economic action plan under which nations benefitting from the economic embargo and the military actions in the Persian Gulf assist those nations which are committing their military personnel and materiel to support these United Nations actions.

(b) It is the sense of the Senate that—

(1) the President of the United States be congratulated for taking the diplomatic initiative to encourage other nations to share the international financial burden of the defense of Saudi Arabia; and

(2) the President of the United States—

(A) in consultation with the allies of the United States in the Persian Gulf defense operation, should—

(i) take steps to ensure that United States allies are sharing an appropriate portion of the collective defense of their interests in the Gulf;

(ii) take steps to ensure that those allies who are precluded from any overt military participation in the Gulf, or who decide against participating in these defensive actions, or who only provide minimal participation are assuming an appropriate financial share of the collective defense commensurate with their national means; and

(iii) take steps to ensure that those oil producing nations which may benefit from increased individual oil production and world oil prices as a result of the embargo of Iraqi and Kuwaiti oil proportionally share the burden of the costs of the embargo, either directly with those nations providing the defense, or by equivalent "in-kind" payments or by assuming some of the other international financial burdens of the major defense-providing nations;

(B) in concert with the Secretary of State, the Secretary of Defense, the Secretary of the Treasury, and the Director of the Office of Management and Budget, shall consult with Congress on the steps the President is taking to meet the goals enumerated in subparagraph (A) and shall provide a report to the congressional leadership no later than November 30, 1990, detailing the progress of such steps to date;

(C) during his consultations with other international leaders, should consider stressing, among other points, that failure by any country to actively contribute in the most appropriate manner for that country could have a detrimental impact on its bilateral realtionship with the United States; and

(D) should also inform Congress of any legislative initiatives which need to be taken to meet the goals enumerated in subparagraphs (A) through (C).

Mr. DECONCINI. Mr. President, I take to the floor to introduce this amendment calling for other nations to help in sharing the responsibility for the military action in the Persian Gulf. I am proud to be joined in this effort by my friend and colleague from New York, Senator D'AMATO. Senator D'AMATO was one of the first voices to be raised calling for sanctions against Iraq for its past aggressions and its use of chemical weapons, those chemical weapons used against their own people.

I happen to have had the pleasure, if you can call it that, but the distinct experience of visiting with some Iraqi Kurds who told stories of these chemical weapons being used against the Iraqi citizens of Kurdish extraction during the Iran-Iraq war.

This amendment has two parts. It congratulates President Bush for the actions which he has undertaken thus far to obtain from our allies in this effort a greater share of the military and financial responsibility for the defensive operations in the gulf. It also expresses the sense of the Senate that the President should consult with our allies about shouldering a greater share of this burden, and report back to Congress on his progress.

Mr. President, on August 2, Saddam Hussein lived up to his reputation as the "Butcher of Baghdad" when he ruthlessly invaded his neighbor to the south, the Emirate of Kuwait. He established a puppet government composed of Iraqi nationals after he was unable to find any quisling Kuwaitis who would assist him in bringing a vestige of legitimacy to his so-called provisional Kuwaiti government. From reports of those who are only now beginning to make their way out of Kuwait, Iraqi soldiers looted and ransacked stores, businesses, and homes in that tiny country. The hordes then turned their attention to brutally terrorizing the people of Kuwait and searching house-to-house in order to round-up foreign nationals. The Kuwaiti people have bravely resisted these attempts at destroying their national will and have provided refuge for foreigners at great personal risk to themselves in their own homes and other hiding places.

On August 7, President Bush wisely ordered United States troops to Saudi Arabia to accomplish four goals: Obtain the complete and unconditional withdrawal of Iraqi troops from Kuwait; restore the legitimate government of Kuwait; protect American citizens in Iraq and Kuwait; and maintain stability in the region. This rapid response by President Bush, as well as his ability to obtain widespread international condemnation of Saddam Hussein and support for the United Nations economic embargo and the defense of Saudi Arabia, undoubtedly prevented Saddam's tanks from rolling down the highway—and, believe me, it is some freeway from Kuwait City to Dhahran in Saudi Arabia—and overrunning Saudi Arabia.

Since being halted from further aggression by an unprecedented international expression of outrage and condemnation, Saddam has shown the world his true colors. We already knew about his prior record of broken threaties, aggression against his neighbors, and the hideous use of chemical weapons against his own people. Now, we have been exposed to some of the most outrageous, inexplicable actions by a ruthless leaders. He has taken hostage thousands of innocent civilians—foreign nationals, Moslem and Christian alike. He has paraded women and children before television cameras in a sorry attempt to put a human face on his inhuman acts. He has toyed with the frayed emotions of hundreds of these hostages by first saying they were free to go, then repeatedly throwing up new hurdles over which they must jump in order to gain their valued freedom. And he has provided a sadly ironic twist to the Pentagons's name for the military operations in the Persian Gulf—Desert Shield. He has made human shields in the desert of countless innocent foreigners.

During my travels in August, the people of Arizona expressed their strong support for the actions taken by the President thus far. They were pleased that this country reacted as quickly as it did to defend our National interests.

They also, however, shared with me other concerns. Why, they asked, is it always to America which other countries turn to help them out of a bind? Why are not other countries doing more to help us defend Saudi Arabia from Iraq and enforce the United Nations embargo? Other countries are far more dependent on Persian Gulf oil than we are, why do they not send troops to Saudi Arabia? These are very legitimate questions and the American people deserve an answer.

President Bush has started to provide an answer to these questions. Last week, he sent Treasury Secretary Brady and Secretary of State Baker to Europe, Asia, and the Middle East to obtain more support—either military, financial, or payments in-kind—from our allies and friends. The amendment I am offering today supports these actions and urges the President to consider taking certain steps in consulting with our allies.

My amendment urges the President to ensure that our allies are sharing an appropriate share of the burden of the collective defense of international interests in the gulf.

It urges him to ensure that those who are constitutionally precluded from military operations in the Gulf—such as West Germany and Japan—or those who decided against any military participation, or who provide only minimal participation in the operations, assume an appropriate share of the burden commensurate to their national means. This is not asking too much, in my judgment.

It urges him to ensure that oil-producing countries—which may benefit from increased oil production and increased world oil prices as a result of the embargo of Iraqi and Kuwaiti oil—share a proportionally larger share of the burden.

The amendment also calls upon the President and certain cabinet officials to consult with Congress on the administration's progress on burdensharing arrangements and the other goals outlined in this amendment and to report to Congress no later than November 30, 1990.

The amendment encourages the President to consider stressing, among other points, that failure by a given country to contribute in the most appropriate manner could have a detrimental impact on its bilateral relationship with the United States.

Finally, the amendment encourages the President to inform Congress of any legislative actions which need to be taken to assist him in reaching these goals.

I am certain, from what I have read in the papers and seen on television, that the President has already taken a number of these steps. His representatives have pressed the case for greater international military and financial support in London, and Bonn, Tokyo and Seoul, with the Saudis and the Kuwaitis. His actions are beginning to bear some fruit. Saudi Arabia's King Fahd has promised a multi-billion-dollar aid package to include food, water, fuel, and transportation for our forces. Kuwait's Emir, Sheik Jabir Ahmed Sabah, has also pledged to provide up to $5 billion this year alone. Considering his country's vast wealth, and his family's even greater personal wealth, this is only appropriate.

Granted these nations are benefitting directly from the United States presence in the gulf. United States troops are defending Saudi Arabia from an Iraqi attack from the north, while President Bush's diplomatic actions, in concert with the United Nations, seek to restore the legitimate Government of Kuwait.

However, others are benefiting as well and those nations can do more. Some have already provided substantial support and assistance. Great Britain, which has stood by us from the start, has sent four warships, a squadron of Tornado jet fighters each to Saudi Arabia and Bahrain, a Vaguar fighter squadron to Oman, and surface-to-air missiles to Bahrain. British forces in the area include approximately 2,000 men. France has sent 14 naval vessels to the region and has increased its troops to more than 4,000 men. Britain is an oil exporter, but France imports close to 30 percent of its oil from the region.

Arab countries, including Egypt, Syria, Morocco, and others have sent troops to Saudi Arabia. More ground troops from these countries are needed and the Saudis appear ready to request that additional Arab troops be deployed in their country.

Other nations can and should do more. Japan, which relies on imports for 99 percent of its total oil consumption, imports nearly half of its oil from the Persian Gulf. Yet Japan had difficulty even sending 800 four-wheel-drive vehicles for troop transport use in Saudi Arabia because its merchant marine was hesitant about sending a ship into the region. It took nearly a week for the vehicles to be shipped. There does not seem to be this same hesitation, however, when four-wheel-drive vehicles are sent to U.S. ports for sale in this country.

Arizonans have voiced similar frustrations about the reluctance of West Germany, and other NATO allies, to play a more active role in the Persian Gulf. According to last week's Fortune magazine, Italy, the Netherlands, Spain, and Belgium rely to varying degrees on imported gulf oil. Imports account for more than 90 percent of all of the oil consumed in Western Europe, whereas the United States imports less than 50 percent of the oil consumed in this country. These countries have sent some ships to the region. Italy and The Netherlands have each sent two frigates, while Spain has sent a frigate and two corvettes. But NATO remains disinclined to take on a greater role in this operation.

West Germany's post-World War II Constitution, similar to that of Japan, has been interpreted as prohibiting it from sending any troops outside of NATO territory. Japan is also constrained because its Constitution limits the amount of its budget which can be used on its military. But these constraints do not mean that these countries cannot contribute in substantial ways to the international effort.

Germany can send more ships to the Mediterranean to offset the many United States naval vessels now in the Red Sea, the Persian Gulf and the Gulf of Oman. It can send doctors, food, other inkind payments. It can take on more of the burden for refugees and for those countries which are suffering economically through their support for the United Nations embargo against Iraq. It could perhaps buy much of the food from those countries which normally exported food to Iraq and deliver it to regions suffering from famine around the globe.

Similarly, Japan and South Korea can do more, much more. Our colleague, the distinguished chairman of the Armed Services Committee, Senator NUNN, has suggested that Japan, can afford up to $5 billion to defray the expenses for this international effort. Japan's Prime Minister has offered approximately $1 billion. South Korea, which imports 100 percent of its oil, 25 percent of which comes from the Persian Gulf, can send some troops. It can provide transport and some additional assistance as well. Strife-torn Pakistan has sent troops to the region. Even starving Bangladesh has sent approximately 5,000 troops. I do not understand why the economic powerhouses are having such difficulty doing more.

It is estimated that by the end of this month, the end of the fiscal year, we will have spent $2.5 billion on Operation Desert Shield. The Pentagon has told the budget negotiators that we will spend approximately $11.3 billion in the coming fiscal year. Our budget deficit is hovering somewhere around $170 billion and, with strong hints of an impending recession, we cannot expect an economic miracle to pull us out of this one. Tough choices will have to be made to turn this economy around and reduce our deficit. Deeper cuts in social programs and defense programs will have to be made. We may even have to cut or freeze our entitlement programs.

Mr. President, I think we can do these types of alterations to our revenues without the freeze of entitlement programs. I hope the budget summiteers rule that out of consideration.

With even greater sacrifices expected for the American taxpayer in the coming year, we cannot play "Uncle Sugar" to the world any longer, especially not with our brave fighting men and women literally feeling the heat every day on the sands of Saudi Arabia. Other countries must also sacrifice.

We bore the financial brunt of the Kuwaiti reflagging operation in 1987 and 1988. Asia and Europe were the beneficiaries.

Again, we are bearing a significant portion of the burden in this operation. As President Bush has said, it is in our national interest to do so. But it is also in the national interests of West Germany, and Japan, and South Korea, and the Netherlands, and the world as a whole to participate in this effort economically, as well as with troops. This time the burden and the responsibility must be shared. If not, I do not think that the American people will be as willing to support similar operations in the future which also benefit other wealthy countries.

It has been suggested in the media that President Bush proposed his international economic assistance plan because of the rumblings of concern coming from Congress about the costs to this country of Operation Desert Shield. That is partially correct. These rumblings are coming from Congress, but it is because we have heard from the American people on this issue. I believe that adoption of this resolution will help President Bush in his discussions with world leaders. It will demonstrate that the Congress of the United States and the American people fully support the President as he attempts to get other nations to share the burden in the Persian Gulf.

I urge the adoption of the amendment.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, this amendment could just as well be entitled "A resolution to commend the President on his leadership and to urge that he continue to do what he has been doing." In no way should my remarks be considered critical of the intent of the amendment, if that is, in fact, its purpose. This is a matter that does come within the jurisdiction of the Committee on Foreign Relations of the Senate. We have been advised that Senators who are members of that committee are reviewing the resolution and may have a desire to comment on it before the Senate votes on the amendment.

Let me just say at this point, Mr. President, that I think the distinguished Senator from Arizona is certainly correct when he points out the very hard work that is being undertaken by the administration, not only by the President but by members of his Cabinet and others, to elicit the support of other countries around the world in the effort to make this economic embargo work and to make it very clear to Saddam Hussein that his effort to intimidate by the use of force and to gain, through an invasion of a neighboring country, more control and more power that would be detrimental to the rest of the world is simply not going to work and will not be tolerated.

The President and his administration ought certainly to be commended for the wonderful leadership that they have shown. I know Senators have been impressed with the fact that the United Nations has moved as it has to adopt resolutions that have been very forceful and very strong to indicate not only an economic embargo be imposed against Iraq, but that it be enforced with the use of force, if that is necessary, under certain circumstances.

I think it is also important to recognize the unity displayed by our NATO allies in not only supporting and fully participating in the economic embargo that the President has recommended, but also participating in the deployment of military forces to the region to help convince Saddam Hussein that he cannot win, that he cannot expect to achieve any positive result from the actions that he has undertaken so far.

What I hope the Senate will not do, however, is adopt a measure that would in any way suggest that the President is not providing strong and important leadership in working to help achieve these goals. I do not say the working of the amendment does that but I am not an expert in these matters and am not a member of the Committee on Foreign Relations. It seems to me, however, that we need not suggest to the President that he should consult with Members of Congress about how he is doing what he has already done. It is inappropriate to suggest he is not taking the initiative, that he is not displaying strong leadership, when I think the facts are certainly on the other side of that question.

We do hope that the whole world understands that the United States Congress supports the President in this situation and that we are firmly committed to helping ensure that the embargo works and that it is enforced; that the leaders in Iraq and elsewhere in the region do not make the mistaken assumption that under appropriate circumstances force will not be used, because, we intend to make it very clear that we will not tolerate the military annexation of territory or the plunder of neighboring countries, actions we have seen the President of Iraq undertake in recent weeks.

It is my hope that the Senate will have a chance to look at this resolution, and, for that reason, Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I believe the pending business is amendment No. 2620 offered by the distinguished Senator from Arizona [Mr. DECONCINI]; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. HELMS. Mr. President, I am assuming that I have been identified as a cosponsor of this amendment; is that correct?

The PRESIDING OFFICER. The Senator has not been identified as of this time as a cosponsor of the amendment.

Mr. DECONCINI. I would welcome a cosponsor. I have Senator D'AMATO of New York and now the distinguished ranking member on the Foreign Relations Committee, and I am honored to have him.

Mr. HELMS. I thank the Senator, and I commend him on his amendment. It is an excellent one.

I am assuming that the very brief phrase that we discussed has been deleted. Has the Senator modified his amendment along the lines we discussed?

Mr. DECONCINI. I have not yet done so. But if the Senator would like to do that—I am awaiting clearing on this side before modifying it. Before it comes to a vote, I assure the Senator that I will make the modification that he and the Republican leader are suggesting.

Mr. HELMS. With that understanding, I ask unanimous consent that I be added as a cosponsor.

I thank the Senator for offering the amendment, and I doubly thank him for my being a cosponsor.

The PRESIDING OFFICER. Hearing no objection, the Senator is added as a cosponsor.

Mr. HELMS. Mr. President, is there any sort of pattern for further amendments? Do we have another amendment to be proposed that has already been placed in order by unanimous consent?

The PRESIDING OFFICER. This amendment is a first-degree amendment pending. A second-degree amendment or second-degree perfecting amendment would be in order.

Mr. HELMS. Very well.

I ask the distinguished Senator if he would forbear for a little bit. I have an amendment that I know he will gladly agree to, and it will enhance his amendment and certainly be welcomed by most Senators, if not all.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. LIEBERMAN). Without objection, it is so ordered.

Mr. HELMS. Mr. President, on the presumption that the DeConcini amendment will be adopted shortly—which I hope it will be inasmuch as I am a cosponsor of it—might I ask unanimous consent that I be recognized immediately thereafter to offer another amendment?

The PRESIDING OFFICER. Is there objection?

The Senator from Arizona.

Mr. DECONCINI. Mr. President, reserving the right to object, I did not hear the request. I want to cooperate with the Senator from North Carolina.

Mr. HELMS. I expressed the hope that the Senator's amendment will be adopted quickly and unanimously and I asked unanimous consent that I be recognized immediately thereafter to offer another amendment.

Mr. DECONCINI. I have no objection.

The PRESIDING OFFICER. Hearing no objection, it is so ordered.

Mr. HELMS. I thank the Chair.

The PRESIDING OFFICER. The Senator from Arizona [Mr. DECONCINI].

AMENDMENT NO. 2620, AS MODIFIED

Mr. DECONCINI. Mr. President, I send a modification of my amendment to the desk and ask my amendment be modified forthwith.

The PRESIDING OFFICER. The Senator has that right.

The amendment, as modified, is as follows:

On page 114, after line 22, add the following new section:

SEC. . (a) The Senate finds that—

(1) democracy and freedom of the independent Arab nations have been threatened by the invasion and illegal annexation of Kuwait by the Government of the Republic of Iraq;

(2) the safety of American citizens and those of other countries have been directly threatened by the decision of the Government of Iraq to move them and use them as "human shields" at strategic defense and industrial installations;

(3) the stability of world oil production and marketing has been threatened by the illegal Iraqi seizure of Kuwaiti ports and oil production facilities;

(4) the United Nations has condemned Iraq's invasion of Kuwait, has voted to impose an economic embargo on Iraq, and has declared null and void the annexation of Kuwait;

(5) the United Nations Security Council has approved the use of appropriate military force by individual nations to enforce United Nations sanctions;

(6) the President of the United States has taken the lead in unifying world opinion and directing international efforts against the Iraqi aggression and in defense of Saudi Arabia and the other Gulf states;

(7) a majority of Arab nations have condemned Iraq's actions and have supported Arab military and diplomatic efforts to defend the Gulf states and to ensure Iraq's withdrawal from Kuwait;

(8) the United States is deploying tens of thousands of American troops and military hardware to the Persian Gulf in defense of the strategic interests of the United States in the region at costs estimated to be in excess of $40 million a day, during a time of an increasing budget deficit;

(9) a principal position of the United States and its NATO and major non-NATO allies is one of burdensharing in the collective defense of the Western alliance;

(10) the Senate and the American people are deeply concerned about the need for a reduced budget deficit and improved economic growth; and

(11) President George Bush has announced his intention to develop an economic action plan under which nations benefitting from the economic embargo and the military actions in the Persian Gulf assist those nations which are committing their military personnel and materiel to support these United Nations actions.

(b) It is the sense of the Senate that—

(1) the President of the United States should be congratulated for taking the diplomatic initiative to encourage other nations to share the international financial burden of the defense of Saudi Arabia; and

(2) the President of the United States—

(A) in consultation with the allies of the United States in the Persian Gulf defense operation, should—

(i) take steps to ensure that United States allies are sharing an appropriate portion of the collective defense of their interests in the Gulf;

(ii) take steps to ensure that those allies who are precluded from any overt military participation in the Gulf, or who decide against participating in these defensive actions, or who only provide minimal participation are assuming an appropriate financial share of the collective defense commensurate with their national means; and

(iii) take steps to ensure that those oil producing nations which may benefit from increased individual oil production and world oil prices as a result of the embargo of Iraqi and Kuwaiti oil proportionally share the burden of the costs of the embargo, either directly with those nations providing the defense, or by equivalent "in-kind" payments, or by assuming some of the other international financial burdens of the major defense-providing nations;

(B) in concert with the Secretary of State, the Secretary of Defense, the Secretary of the Treasury, and the Director of the Office of Management and Budget, shall consult with Congress on the steps the President is taking to meet the goals enumerated in subparagraph (A) and shall provide a report to the Congress no later than November 30, 1990, detailing the progress of such steps to date;

(C) during his consultations with other international leaders, should consider stressing, among other points, that failure by any country to actively contribute in the most appropriate manner for that country could have a detrimental impact on its bilateral relationship with the United States; and

(D) should also inform Congress of any legislative initiatives which need to be taken to meet the goals enumerated in subparagraphs (A) through (C).

Mr. DECONCINI. Mr. President, this modification is in accordance with the discussion I had with the distinguished Senator from North Carolina, changing some wording on page 2, the bottom of that page, line 25, taking out the words "placing American defense forces at considerable risk of attack and"—those words are deleted. Also, there are a couple of clarifications, words of distinction here, that are modified as well.

The other changes include one on line 2, page 3. I am advised from good sources, the State Department and Foreign Relations Committee, that the amount now is $40 million a day. So that is changed to $40 million.

In line 19 on page 3, after the words "United States" the word "should" should be inserted, to read "United States should be congratulated".

Over on page 5, on lines 9 and 10, we change the words "congressional leadership." It should read, "report to the Congress no later than November 30, 1990".

Those are the changes, Mr. President, that I believe have been cleared now on both sides and the Foreign Relations Committee, and the distinguished ranking member, Senator HELMS. I am prepared to go with the amendment unless the Senator from Mississippi cares to proceed.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Let me express our thanks to the distinguished Senator from Arizona for making these modifications in the amendment. The amendment has been cleared on this side of the aisle.

We do think it expresses support for the President in his efforts in the Middle East and the crisis in the Gulf, getting multinational cooperation for an embargo and a show of military force under the circumstances, and a sharing of the economic burden, all of which the Congress should enthusiastically support, in my judgment. I hope the Senate will approve the resolution.

Mr. DECONCINI. I thank the Senator from Mississippi. I want to assure him my purpose here is to do just what he has said. The President has really demonstrated some very outstanding leadership, as I pointed out in my prepared statement, and also taking the first major steps through Secretary Brady of Treasury and Secretary Baker of State in getting some burden sharing. There is just no reason that these countries should not participate. It looks like it will be successful. I want to encourage good actions. That is the purpose of this amendment.

Also, I want to send a signal to other nations that we are willing to take on this kind of burden but we expect them to be participants. So I thank the Senator for his support of the amendment. I urge the adoption of the amendment.

The PRESIDING OFFICER. Is there further debate? Hearing none, the question is on agreeing to the amendment, as modified.

The amendment (No. 2620), as modified, was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Under the previous order, the Senator from North Carolina is now recognized.

AMENDMENT NO. 2621

(Purpose: To amend title 39, United States Code, to authorize the provision of free mailing privileges for members of the Armed Forces who are participants in a temporary overseas deployment for an operational contingency in arduous circumstances)

Mr. HELMS. Mr. President, thank you very much. I shall be brief. I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS] proposes an amendment numbered 2621.

On page 114, after line 22, insert the following new section:

SEC. 628. Section 3401(a) of title 39, United States Code, is amended in clause (1)(A) by striking out "or" the first time it appears in such clause and inserting ", or temporarily deployed overseas for an operational contingency in arduous circumstances, as determined by the Secretary of Defense" after "belligerent".

Mr. HELMS. Mr. President, last week at the request of the administration and the leadership of the Senate, I participated in the leadership delegation to Saudi Arabia to talk with the troops deployed in Operation Desert Shield and to get a firsthand view of the United States response to the crisis in Kuwait.

It was not the most pleasurable trip I have ever taken. I remember the desert heat was 126 degrees. But the longer I am home and the more I think about those young men with whom I visited in the desert and on the battleships in the Persian Gulf, the prouder I become of America.

We visited with the marines dug in somewhere near the frontlines, and we met with sailors aboard the battleship U.S.S. *Wisconsin* at sea in the Persian Gulf. A great many of them were from North Carolina, as it turned out. In fact, nearly half of the young men and women sent to the Middle East came from U.S. bases in North Carolina.

I reiterate I now feel an almost overwhelming sense of pride in finding such loyalty and dedication that I saw among these courageous and dedicated young Americans.

No shots have been fired, but these young troops and these young sailors were standing by their guns, locked and loaded ready for action if, as, and when it occurs.

Despite the unbearable heat, despite the sand, despite the haze that cloaked the gulf, their morale was and is high, but there was one point that they kept repeating to me over and over. It may be trivial to those of us back home. It involved their not having stamps to mail letters back to their loved ones in the United States. They cannot get stamps, and even if they could, the stamps would soon be stuck together by the humidity and the sweat and the heat.

No one needs to be told that mail is the crucial link between the fighting man or woman and his or her family and friends back home. These young people, suddenly picked up from the United States and transported to the other side of the world, find themselves divided from their families, cut off from their children, and no way to get back in contact.

So one young soldier, one marine after another, and sailors, came to me and asked me to do something about getting the mail out so their loved ones back in the United States could hear from them. They asked for the privilege the soldiers in the Vietnam war had, that being simply to write their name up in the right-hand corner of the envelope and the rank or rating and serial number in the upper left-hand corner. Those of us in World War II remember all we had to do was write the word "free" and put, in my case, Jesse Helms—I can almost remember my service number—and that is all there was to it.

I talked to the President about it upon my return and he wants to do something about it, but it requires a modest change in the law. So I asked the Department of Defense to suggest some language, and they provided the text for an amendment, which the distinguished clerk has just read. That is the pending amendment, of course.

According to the Department of Defense, section 3401 of title 39, United States Code, authorizes free mailing privileges for members of the Armed Forces who are engaged in action against an enemy of the United States, engaged in military operations involving an armed conflict with a hostile force or serving with a friendly force in an armed conflict in which the United States is not a belligerent.

Our forces currently deployed with Operation Desert Shield—and I am talking about the sailors, marines, soldiers, all of them, both regular and Reserve—stand poised, stand ready to deter and, if necessary, employ armed force to encounter the Iraqi force. But the United States is not yet in armed conflict, so, technically, the free mailing privilege does not apply.

This is a difficult circumstance because it imposes upon our military personnel many of the same hardships of actual hostilities. Under current law, these men and women are not eligible for free mail privileges.

So, simply said, the pending amendment, which I have just sent to the desk, will add language to title 39 permitting free mailing privileges to personnel temporarily deployed overseas for an operational contingency in arduous circumstances as determined by the Secretary of Defense. That will take care of it. That will free up the guy 40 miles from nowhere in 126 to 130-degree heat at least to send letters back home to their loved ones.

The Department of Defense tells me the budgetary impact of this action will be minimal, but the impact upon the morale of our troops involved overseas in Operation Desert Shield will be maximal.

Mr. President, the troops have asked for this amendment, the Department of Defense has asked for this provision, and President Bush has assured me that it is high on his list of priorities.

With that, I assume Senators will agree to adopt this amendment forthwith. I yield the floor.

Mr. DECONCINI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The Senator from Arizona has suggested the absence of a quorum. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DECONCINI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CONRAD). Without objection, it is so ordered.

Mr. DECONCINI. Mr. President, the Senator from North Carolina has come forward with a very, very good amendment. I ask unanimous consent that I be added as a cosponsor of the amendment of Senator HELMS.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2622 TO AMENDMENT NO. 2621

Mr. DECONCINI. Mr. President, I discussed this with the distinguished Senator from North Carolina. It so happened at the time that he offered his amendment, this side of the aisle was considering a very similar amendment by the Senator from California [Mr. CRANSTON]. In fact, they have both visited the Persian Gulf and have come to the same conclusion that something needs to be done to facilitate the distribution of mail to be sure that there is no added burden to the troops that are there.

With the indulgence of my friend from North Carolina, I am sending a modification to his amendment to the desk at this time.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. DECONCINI], for Mr. CRANSTON, proposes an amendment numbered 2622 to amendment No. 2621.

At the end of the amendment, add the following new subsection:

This section shall apply to military personnel participating in "Operation Desert Shield".

Mr. DECONCINI. Mr. President, the Senator from California supports the amendment of the Senator from North Carolina completely. He wants to just reiterate his deep impressions of the need to recognize what the Senator from North Carolina is doing here, that these troops that are deployed in the Persian Gulf area have some particular recognition as to the ability to be able to send mail out without having to go around and try to find a local 7-Eleven and get some stamps to mail it, and there just are not any there. I appreciate that very much.

Mr. CRANSTON. Mr. President, last week I visited, as part of the congressional delegation led by our friend and distinguished colleague, Senator PELL, America's fighting men and women serving in uniform in Saudi Arabia and in the gulf.

The one thing that all of our troops told me is of their wish for letters, and more letters, from home. Therefore, I urge those with loved ones participating in Operation Desert Shield to write to them as often as possible.

Here in Congress, too, we can do things to ensure that their sacrifice does not impose any unnecessary hardship on their lives.

For that reason I am today offering an amendment to grant those troops participating in Operation Desert Shield free mail privileges. Current law provides free mail privileges for soldiers only when America's forces are engaged in action against an enemy of the United States, or engaged in military operations involving armed conflict with a hostile foreign force, or when serving with a friendly foreign force in armed conflict in which the United States is not a belligerent.

My amendment would cover another circumstance under which free mail may be granted. Specifically, free mail may also be granted when American forces are deployed overseas for an operational contingency in arduous circumstances, as determined by the Secretary of Defense. Further, adding this new circumstance does not impose additional costs on the Postal Service since current law mandates that the Postal Service be reimbursed by the Department of Defense for free mail expenses.

In a letter dated just last Thursday from Secretary Cheney to Budget Director Darman, Secretary Cheney recommended revising the current free mail statute in precisely the manner which my amendment does.

Mr. President, adoption of this amendment will send a message to our troops that we care and deeply appreciate the sacrifice which they are making to this cause. The easier the lines of communication are between the home-front and the gulf, the better our troops will understand that we stand behind them.

Mr. President, the Senator from North Carolina [Mr. HELMS], and I, have exactly the same goal—helping our service men and women deployed under Operation Desert Shield stay in touch with their families while serving on this mission.

My modification simply makes it clear that this change in the authorizing statute is to be effective immediately with respect to the current gulf crisis. It is urgent that this provision be implemented without any delay.

I am pleased that there is broad support for this change in law and I know it will mean much to the many service men and women who raised this issue with me during my trip last week with other Members of the Senate.

Mr. HELMS. Mr. President, I am happy to accept the modification suggested by the Senator on behalf of the Senator from California. Even though it is not necessary, it does nail down without any question the intent of the amendment. It leaves in place, of course, the discretionary authority of the Secretary of Defense, but it makes unquestionably clear to our troops that it is intended to help them now in Operation Desert Shield. So I have no objection to the modification and, in fact, welcome it.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment.

The amendment (No. 2622) to amendment No. 2621 was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question is on agreeing to the amendment, as amended.

The amendment (No. 2621) as amended was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. COCHRAN. Mr. President, inasmuch as the distinguished Senator from New Mexico [Mr. DOMENICI] is still involved at Andrews Air Force Base in his discussions on the budget as the ranking minority member of the Senate Budget Committee, he is not able to be here at this time to deliver remarks that he had prepared on the subject of the appropriations bill that is before us. As the Senate knows, he is also the ranking minority member of the Treasury, Postal Service, and General Government Appropriations Subcommittee.

I ask unanimous consent, therefore, Mr. President, that the statement of Senator DOMENICI be printed in the RECORD immediately following the statement that was made earlier today by the chairman of the subcommittee, Mr. DECONCINI.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2623

(Purpose: To increase the funding available for construction of the Minneapolis, MN, Federal Building and U.S. Courthouse Annex)

Mr. COCHRAN. Mr. President, on behalf of the Senators from Minnesota, Senator DURENBERGER and Senator BOSCHWITZ, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Mississippi [Mr. COCHRAN], for Mr. DURENBERGER (for himself and Mr. BOSCHWITZ), proposes an amendment numbered 2623.

Mr. COCHRAN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

On page 41, line 17, strike "$5,084,586,800" and insert in lieu thereof "$5,099,606,800".

On page 41, line 18, strike "$1,282,830,000" and insert in lieu thereof "$1,298,133,000".

On page 44, line 25, strike "Courthouse Annex, $47,710,000" and insert in lieu thereof "Courthouse, $63,013,000".

On page 52, line 18, strike "$1,505,780,000" and insert in lieu thereof "$1,505,497,000".

On page 55, line 6, strike "$5,084,586,800" and insert in lieu thereof "$5,099,606,800".

Mr. COCHRAN. Mr. President, this involves a problem concerning the construction of a courthouse and Federal building in Minnesota. This amendment is offered on behalf of the Senators there to deal with a specific problem that was encountered in connection with whether or not an amount of $15 million was going to be budgeted by GSA for repairs and maintenance on that building. It helps address this problem and, we hope, clarifies the situation in a way that will permit this project to proceed without any unnecessary delay or interruption.

The Senator from Minnesota [Mr. DURENBERGER] is here on the floor. I will let him explain, to whatever extent he would like, the situation here.

Mr. DURENBERGER. Mr. President, the amendment today that the Senator from Minnesota [Mr. BOSCHWITZ] and I offer, corrects a misimpression given the Subcommittee on Treasury, Postal Service, and General Government Appropriations by the General Services Administration regarding the funding of a new Federal courthouse in Minneapolis, MN.

Contained within the President's 1991 budget was $47,710,000 for the construction of a new Federal building on land adjacent to the current building. In addition, another $15,303,000 was proposed to repair and update the current building. Thus, the Federal Government planned to allocate $83,013,000 for new, and much needed, Federal facilities in Minneapolis.

Minnesotans and those who use the current Minneapolis Federal building appreciate the commitment for new facilities. The current facilities are so inadequate they embarrass the Federal Government. However, the original GSA proposal to build the new building on adjacent land and rehabilitate the current building, does not meet the long-term plans of Minneapolis.

Accordingly, Senator BOSCHWITZ, Congressman SABO, and I have facilitated negotiations between the city and the GSA toward finding a different site that meets both the Federal Government's and city's needs. These negotiations are ongoing.

To provide greater flexibility, Senator BOSCHWITZ and I asked the Appropriations Subcommittee to allocate the total amount, $83,013,000, recommend-

ed for the original plan to be put toward a different, yet to be determined site. The subcommittee accepted our request but relied upon GSA assurances that the additional $15,303,000 was available for the new site from the repair and alteration account. It now turns out that this is not the case due to bureaucratic accounting procedures.

Thus, this amendment corrects an accounting error and fulfills the subcommittee's intent. It will provide the General Services Administration $83,013,000 for the construction of a new Federal building in Minneapolis, MN.

Mr. President, my colleague from Mississippi has accurately stated the amendment, but I wanted to rise to explain just briefly why it is that we have to ask the chairman of the subcommittee and the ranking member their indulgence to consider this particular amendment. I rise also to express my special appreciation to the chairman of the subcommittee who has the impossible task of dealing with such a wide variety of demands against such a limited appropriation.

This is a very difficult case. I personally have spent literally hundreds of hours on just this one building. I know that there have been a variety of debates, as there always are, on the figures of something planned 5 years ago, or 4 years ago, which gets changed in midstream and becomes something else.

There is really no reason other than special courtesy that the Senator from Arizona and the Senator for Mississippi should even consider this amendment. But I wanted to say something on their behalf before this amendment is adopted. We probably should have had this straightened out before it got to the subcommittee. We certainly should have straightened it out at the subcommittee level, particularly given the difficulty of their task. And having not accomplished that so-called $15 million mistake here, I just have to be present to express my appreciation to them, the chairman in particular, for accepting this amendment.

I ask that the amendment be adopted.

Mr. DECONCINI. Mr. President, I must say that we had information from the GSA on this particular building, but I cannot turn down my colleague from Minnesota for his request. I understand the situation very clearly, and we are prepared to accept the amendment.

Mr. BOSCHWITZ. Mr. President, this amendment corrects a misunderstanding between the General Services Administration and the Senate regarding the Courthouse and Federal Building in Minneapolis, MN.

The President included in his 1991 budget, $47,710,000 for construction of an annex to the existing Minneapolis Courthouse and Federal Building. In a General Services Administration report to Congress, GSA also identified $15,303,000 for repairs and alterations to the existing facility. The proposal to add an annex and refurbish the current courthouse, however, may not meet the long-term development needs of the city of Minneapolis or the courts. At the request of Senator DURENBERGER and myself, GSA and the city of Minneapolis have become involved in ongoing discussions regarding construction of new Federal facilities in Minneapolis.

Included in the legislation we are discussing today is $47,710,000 for that new construction. Along with this amount, we were acting on the assumption that the $15,303,000 identified for repair and alterations by GSA would also be available for new construction in fiscal year 1991. After the committee has reported this bill, we learned that this $15 million was only a planned expenditure and the money would not be available for several years. This incorrect information or misunderstanding lead the subcommittee to fund the courthouse at an amount lower than it intended.

Therefore, today in this amendment we are asking that the $15,303,000 originally intended for this project be added. This brings the funding level to GSA's total project cost and closer to that of the House of Representatives.

The amount currently appropriated in the bill before us does not represent the amount required for the project. We understand it was not the intention of the subcommittee, its chairman or ranking member to shortchange the project, but rather it resulted from misinformation and confusion. We ask that today you accept our amendment.

It is also important to note that the Senate Committee on Environment and Public Works has already approved a prospectus outlining the desperate need for new Federal facilities in Minneapolis and has indicated its willingness to consider proposals for a new facility. I ask that the pertinent statements from the June 7, 1990, CONGRESSIONAL RECORD be inserted following my statement.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BOSCHWITZ. This amendment increases new obligational authority. It would not increase budget authority. The Congressional Budget Office does indicate that this amendment would increase outlays by $459,000 in fiscal year 1991. Senator DURENBERGER and I understand that the bill reported to the Senate is $176,000 below the subcommittee's total 302(b) outlay allocation. I keeping with the Budget Act, we have worked with the subcommittee to offer the needed reduction to offset the remaining increase in outlays.

This amendment has the approval of the distinguished Republican floor manager, and I yield the floor.

EXHIBIT 1

CONSTRUCTION OF NEW FEDERAL BUILDING SPACE IN MINNESOTA

Mr. DURENBERGER. Mr. President, today the Senate Committee on Environment and Public Works sends to the Senate a General Services Administration's facilities prospectus dealing with the construction of new Federal facilities in Minneapolis, MN.

The prospectus outlines the desperate need for new Federal facilities in Minneapolis and includes a proposal to renovate the current Federal building and construct a new building on Federal land—a parking lot adjacent to the current building.

Mr. President, I am very pleased that GSA is taking these steps but the proposal outlined in the prospectus may not meet the long-term development needs of the city of Minneapolis. Accordingly, and at my request, GSA has begun negotiations with the city of Minneapolis and others concerned with this issue to see if alternative site can be selected.

Thus, I want to make clear to the Senate and to GSA that it is the intent of the Environment and Public Works Committee that approval of the prospectus in no way inhibits GSA from seeking a more satisfactory site. Nor should the approval of the prospectus affect the negotiations between the GSA and the city of Minneapolis. The purpose of approving the prospectus is to authorize much-needed space for the U.S. Courts and Federal agencies in Minneapolis. Should these discussions result in the submission of an amended prospectus, or a new prospectus, the committee will be happy to consider it. I ask the committee chairman, Senator Burdick, if this is a correct understanding of the committee's intent?

Mr. BURDICK. Mr. President, the Senator from Minnesota is correct. It is not the committee's intent in authorizing this project to interfere with the on-going negotiations regarding new Federal facilities in Minneapolis. If a better arrangement is found, we would be happy to look at a new prospectus.

Mr. DURENBERGER. Mr. President, I thank the distinguished chairman for clarifying this point for me and appreciate the help he has given me on this issue. I would also like to ask the ranking member, if this is his understanding as well?

Mr. CHAFEE. Mr. President, I agree with the committee chairman. By approving the prospectus, it is not the committee's intention to interfere in the discussions currently taking place between GSA and the city regarding this construction project. The committee is aware of this negotiations and hopes that a project can be designed that will meet the concerns of all parties involved.

Mr. DURENBERGER. Mr. President, I thank the ranking member and appreciate his assistance in this matter. Does the Senator from New York and chairman of the Subcommittee on Water Resources, Transportation, and Infrastructure, Senator Moynihan, have any comments on this issue?

Mr. MOYNIHAN. Mr. President, I agree with the distinguished chairman and ranking member of our committee. In fact, I understand the Senator from Minnesota's concerns. The committee is always interested in finding better ways to meet the space needs of Federal courts and is willing to consider a new prospectus, if that is appropriate.

Mr. DURENBERGER. Mr. President, I thank the Senator from New York for his words and appreciate his willingness to consider this matter.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment.

The amendment (No. 2623) was agreed to.

Mr. DECONCINI. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2624

Mr. COCHRAN. Mr. President, on behalf of the distinguished Senator from North Dakota [Mr. BURDICK] and this Senator, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Mississippi [Mr. COCHRAN], for Mr. BURDICK (for himself and Mr. COCHRAN), proposes an amendment numbered 2624.

Mr. COCHRAN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

At the appropriate place in the bill, insert:

SEC. . None of the funds in this Act, or otherwise made available by this Act, may be used to pay the salaries of personnel at the Office of Management and Budget who withhold, or fail to make available, funds made available by law needed to eliminate the backlog of applications for insured loans by the Rural Electrification Administration.

Mr. COCHRAN. Mr. President, the amendment I have sent to the desk is an effort to direct the Office of Management and Budget to be more sensitive to the approval of allocation of funds to the REA, when it comes time to approve loan applications that are submitted to the REA. The language in here simply withholds the obligation of funds to OMB for any purpose that would obstruct the clear intent of congressional authorizing legislation and appropriations bills that make available to that agency the funds to carry out that important program.

We hope this addresses the problem so that funds can be allocated in a timely way and there will not be any delays or holding up of approvals simply by withholding allocations to the agency. That is what this seeks to address. We hope it can be included in the bill.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. DECONCINI. Mr. President, we accept that amendment and are prepared to support it.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment.

The amendment (No. 2624) was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote.

Mr. DECONCINI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DECONCINI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BUMPERS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WIRTH). Without objection, it is so ordered.

Mr. BUMPERS. Mr. President, I ask unanimous consent that I be permitted to proceed for 5 minutes on a subject unrelated to the pending business.

The PRESIDING OFFICER. Without objection, it is so ordered.

MISPLACED PRIORITIES

Mr. BUMPERS. Mr. President, about 2 months ago, James R. Allison wrote to the newspaper in Eureka Springs, AR. I will not repeat all of the letter, but it is addressed to Senator PRYOR, Senator BUMPERS, and Congressman HAMMERSCHMIDT.

I just happened to find this in the newspaper clippings that come into my office from State newspapers. I started reading it, and I found it so poignant and so right on target with my own philosophy and my own concerns about the country and the budget and what I consider misplaced priorities I felt constrained to come over and discuss what this working man has to say. I will read some of it just so everybody understands the gist of it.

He said:

I have watched with great interest the recent debate over Senator Moynihan's proposal to reduce the Social Security Tax which has increased to 7.65% beginning this year and has debilitated even more the lower and middle class "take home" survival income. Those of use who earn below or near the basic poverty level or the quote "middle class" who have worked and are working hard to be there enjoying the "American Dream" have experienced a serious and almost fatal illness called "regressive taxing" in the last 10 years. Simply put, "regressive taxing means that those of us who earn under $50,000 are paying a bigger percentage of our survival income than those making in excess of $50,000. It is very difficult for a Ozark country boy, ten years strong, to even fathom $50,000 a year as "middle class" but having been in the fast lane of income in Dallas for 16 years I can even sympathize with that group because "big city" life is sometimes more costly. What the bottom line reveals is that we on the far end of the income scale right up to the $50,000 a year level are seeing less "take home pay" in the last 10 years while we at the same time experience one shock after economic shock. What do I mean when I say "shock"? . . . I am so glad you asked: Have you been to the grocery store lately to see how many bags of groceries you can take out for $50 now?; Have you been to a doctor's office of late and then went to the drugstore to fill the prescription?; Has your company with a "health insurance" program complained about increasing costs or worse, has your share been increased or God forbid, have you had to furnish your own because the company does not provide it or you are self-employed?; Have you faced the hospital without "health insurance" because you can not afford insurance and provide for your family?; Have you paid this winters heating bill?; Have you priced a basic need in our way of life lately, a car?; Have you received those yearly "woe notices" from your house and automobile insurance companies about increased premiums due to increased costs?; Have you seen an increase in state income and/or sales tax and local sales, personal and real estate taxes?; Have you felt the despair of trying to buy or build a house or improve your house or experienced rent increases?; Have you despaired over sending a child to college or help them get a "start" towards the "American Dream?" Have you tried to find a job lately in a depressed area and if you're lucky? find out what "minimum wages" mean in the reality of providing for a family? and etc., etc., etc. If you have felt any of these shocks lately, you will know that to us on the lower income scale these shocks can and many times are major catastrophes while to those on the upper end of the income scale these shocks are simply annoyances. I admire many of those who have worked hard on the "American Dream" and realized the success of being on the upper income scale but at the same time they must take proportionate responsibility for the moral needs of all our citizens because simply put, the "American Dream" would not exist without the efforts of all of us wherever you are on the income or social scale.

Later on he points out:

* * * although we know that a system of equal income for all would not work we do know that justice for all could prevail if we only made the tax system fairer for all. The dignity lost and sacrifices made are a lot less of a loss in human spirit for a yearly wage earner of a $100,000, $200,000 or $1,000,000 than a family of four struggling on less than $20,000, $10,000 or even $5,000. It's not that we should punish anyone for making more than $50,000 but rather have them pay a proportionate share for realizing a dream of opportunity found in America that we all contribute to as participants no matter which end of the income or social scale because it is us who made this country great in the past, the present and hopefully in the future.

There is much more to the letter, Mr. President, and I ask unanimous consent that it be printed immediately after my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BUMPERS. Mr. President, I think one of the reasons there is so much cynicism across the country

about politicians and government—it has always been so but I think it is more pervasive now perhaps than any time in my lifetime—is that the Congress and the President are not doing very much that is relevant in peoples' lives. As Mr. Allison said in this remarkable letter, you get a notice from your liability insurance carrier and your automobile insurance goes up. You get a statement from the tax assessor on your home, and your real estate taxes go up. Wage earners are not making any more in real income now than they did in 1959.

It is very difficult even for U.S. Senators who make $98,000 to relate to people like this man with a wife and two children who is trying to make it on so much less, who loves his children no less, who wants them to have a good education, a decent home, clothing that is at least adequate, a balanced diet, and is struggling under extremely difficult circumstances to achieve any of that.

Our summiteers are supposed to come back here with a budget for us, but according to all reports they are bogging down on taxes. Mr. President, there are not more than 5 to 10 people in this body of 100 who do not know that taxes are going to have to be raised.

I remember in January when we were told the budget deficit for 1991 was going to be $100 billion, and in order to meet the Gramm-Rudman targets we were going to have to come up with another $36 billion in taxes and spending cuts. Within 6 months after that prediction we were told that this had been a mistake, the economy was not vibrant, and that the deficit was not going to be $100 billion—it was going to be $150 billion.

The summiteers went to work and said we have to come up with $50 billion, half in taxes, half in spending cuts. Of the $25 billion in spending cuts it was expected that defense would take half of that, or roughly $12.5 billion, pre-Persian Gulf. All of a sudden, 3 weeks later, the Director of OMB came and said it is not going to be a $150 billion deficit; it is going to be $169.8 billion; the economy is still sick; corporate profits are down.

Since that time we have not had any additional projections. So I will make my own. My own projection is that come September 30 we will be told that the deficit for 1991 is not going to be $169.8 billion, it is more likely to be in the vicinity of $185 billion to $215 billion. Bear in mind that figure does not include Social Security, the trust funds, and the S&L bailout.

Mr. President, the fact that we have a unique accounting system here where we just do not count things, we just do not put them out where they are visible if they are unpleasant, does not change the numbers. The real deficit for 1991 that we are facing is between $350 and $400 billion.

In short, Mr. President, one-third of the budget as presently projected next year will be paid for with hot checks. When one considers that in the past 3 to 4 months the Japanese have sold more American debentures than they have bought; and when one considers that Germany is totally engrossed and absorbed with unification, and most of their spear money will not go into buying American bonds and notes but rather into solving all the problems of the reunification, this body should ask itself a question.

If the economy is not growing and we are looking at a $350 to $400 billion deficit for next year, and if the Japanese are selling more than they are buying, and the interest rates in Japan have almost as good a yield as we have here, and Germany is engrossed in reunification and it is going to take every spare dime they can come up with to solve the environmental problems they are inheriting in East Germany, you tell me where are we going to get the $400 billion? We are going to print money. What does that mean? It means inflation—lots of it.

Mr. President, what I just said is the conventional economic wisdom. It may not happen that way at all. I have said that I predicted about six of the last three recessions, so I do have a tendency to be a lot more apocalyptic about these things than history has proven to be right.

But my point is this: One of the vast differences that you find between most European countries and us is that they decide what they want, and they decide how they are going to pay for it. In this country—it has been this way in modern times, and especially in the last 10 years—we decide what we want, and we do not worry about how we are going to pay for it. So we have now this $3.2 trillion deficit, going up by our own accounting figures at a rate of about $200 billion a year, but actually going up almost $400 billion a year.

How long can that go on? I have no idea. I have been absolutely amazed that we have been able to do this the past 10 years. But now the two schools of thought are still that we have to come up with $50 billion in spending cuts and increased taxes. I do not think $50 billion is very relevant when you are talking about a true deficit of $400 billion. It seems to me that $100 billion would be much more relevant, given what has transpired in the last 6 months and knowing what the real deficit is going to be.

Then you have this next question: Who are you going to cut and who are you going to tax? Well, I understand that the people on the other side of the aisle have proposed to tax beer and wine. And the people on this side of the aisle have said, no, that is not fair; that is regressive. And people like my friends from Eureka Springs are the ones who are going to have to bear the burden of that.

A value added tax has been suggested, and in all fairness, the proposals I have seen are not quite as regressive as they might be, because housing and health care and food are eliminated from the value added tax proposals, which takes some of the regressivity out of it.

Mr. President, I am telling you now, I am not voting for a budget proposal that taxes this man and does not tax U.S. Senators, who make so much more money. In 1981, we passed that colossal tax increase, and according to the President's own budget numbers—these are his, not mine—the 1981 tax bill reduced taxes, since it passed in 1981, as of September 30 of this year, $1.763 trillion.

In short, almost 75 percent of the tax cuts of 1981 are in the deficit; 75 percent of the additional $2 trillion deficit we have incurred in the last 10 years occurred as a result of the tax bill of 1981. Incidentally, I want to put on my epitaph that I voted no—1 of 11 Senators.

Where did it go? It went essentially to the top 20 percent of the wealthiest people in America. Who are they? They are the people who make more than $60,000 a year. Believe it or not, 80 percent of the people in this country make less than $63,000 a year. Ask the Joint Committee on Taxation what happened to that $1,763 tax cut of 1981. It went to the top 5 percent mostly, but generally to the top 20 percent, whose pretax earnings have gone up 46 percent, while the bottom 20 percent has gone down 16 percent.

Is that a great nation? Are we talking about improving people's pride and their dignity? The 2 million biggest wage earners in the United States now make more than the bottom 100 million.

But I think also, Mr. President, that the people of this country at the belt buckle level are very resilient, and there is a lot of native intelligence. Every poll shows it. Every poll shows an increasing number of people who think this country's priorities are wrong and that we are off track.

Why would they not? When you talk about refusing to tax the people who got it all in 1981 and say, no, let us go back and put it on the 80 percent who got nothing, what kind of democracy is that, what kind of fairness is that, what kind of justice is that?

Back to the President of the United States, who could go on all three networks, go on television in prime time, and say to the American people: Folks, we have big problems; here are the numbers, and these are not made up; they are real. And nobody is going to solve this problem for us except the

American people under my leadership. I have a 70- to 75-percent approval rating with you people. You all love what I have done in the Persian Gulf; 75 percent of the people say they totally agree with me. Very few people disagree. And right now I have the highest approval rating that any President of the United States has ever had. But I am willing to sacrifice some of that, because I know this proposal is not going to meet with the approval of a lot of folks. It is tough and stringent. But here it is. And if my approval rating goes down to 40 percent or 45 percent, what does it matter as long as I am saying to the American people we are the makers of our own destiny? We can do nothing, or we can adopt the program I am outlining here.

I think the response would be overwhelmingly in the President's favor.

Mr. President, I heard, I believe it was, Robert White make this point. When this country was founded, de-Tocqueville came here from France to study our system. He found the most unique thing about American democracy was that people here believed in what they called enlightened self interest. They were willing to make sacrifices because they thought that every time you lend a helping hand to somebody else, you help yourself. That is not just a political theory; that is also biblical.

I must say that is one of the reasons I am a Democrat. I still believe it. I believe that when I see somebody reaching for the first rung on the ladder, as I did one time and got a lot of helping hands, I have an obligation to reach down and give a helping hand. That is what enlightened self interest was. That is what it still ought to be.

So, Mr. President, I do not understand what is going on in this budget summit. What has to be done seems palpably clear to me and it does to all the economists. Now they are saying, well, what we do right now is not as important as the stage we set for the future over the next 4 years.

I am very empathetic—and I am not being critical of the summiteers. I am sure they are doing their best to grapple with economic theories, to grapple with the politics of the problem. But I am saying, Mr. President, here is a man who put it all in perspective. I am honored to have him as a constituent, and I am honored to honor him by putting this very eloquent, poignant statement in the RECORD so that all the Members of this body, indeed all the people across America can see what he believes this country is all about and what I believe this country is all about.

EXHIBIT 1

[From the Eureka Springs Times-Echo, May 17, 1990]

TAXES

Dear Editor:

To the Honorable: David Pryor, Dale Bumpers, and John Paul Hammerschmidt:

I have watched with great interest the recent debate over Senator Moynihan's proposal to reduce the Social Security Tax which has increased to 7.65% beginning this year and has debilitated even more the lower and middle class "take home" survival income. Those of use who earn below or near the basic poverty level or the quote "middle class" who have worked and are working hard to be there enjoying the "American Dream: have experienced a serious and almost fatal illness called "regressive taxing" in the last 10 years. Simply put, "regressive taxing means that those of us who earn under $50,000 are paying a bigger percentage of our survival income than those making in excess of $50,000. It is very difficult for a Ozark country boy, ten years strong, to even fathom $50,000 a year as "middle class" but having been in the fast lane of income in Dallas for 16 years I can ever sympathize with that group because "big city" life is something more costly. What the bottom line reveals is that we on the far end of the income scale right up to the $50,000 a year level are seeing less "take home: pay in the last 10 years while we at the same time experience one shock after economic shock. What do I mean when I say "shock"? . . . I am so glad you asked: Have you been to the grocery store lately to see how many bags of groceries you can take out for $50 now?; Have you been to a doctor's office of late and then went to the drugstore to fill the prescription?; Has your company with a "health insurance" program complained about increasing costs or worse, has your share been increased or God forbid, have you had to furnish your own because the company does not provide it or you are self-employed?; Have you faced the hospital without "health insurance" because you can not afford insurance and provide for your family?; Have you paid this winters heating bill?; Have you priced a basic need in our way of life lately, a car?; Have you received those yearly "woe notices" from your house and automobile insurance companies about increased premiums due to increased costs?; Have you seen an increase in state income and/or sales tax and local sales, personal and real estate taxes?; Have you felt the despair of trying to buy or build a house or improve your house or experienced rent increases?; Have you despaired over sending a child to college or help them get a "start" towards the "American Dream?" Have you tried to find a job lately in a depressed area and if you're lucky find out what "minimum wages" mean in the reality of providing for a family? and etc. etc., etc. If you have felt any of these shocks lately, you will know that to us on the lower income scale these shocks can and many times are major catastrophes while to those on the upper end of the income scale these shocks are simply annoyances. I admire many of those who have worked hard on the "American Dream" and realized the success of being on the upper income scale but at the same time they must take proportionate responsibility for the moral needs of all our citizens because simply put, the "American Dream" would not exist without the efforts of all of us wherever you are on the income or social scale.

It would probably surprise many of you politicians to realize there are a great many of us who lead contented and fulfilling lives on the lower end of the income scale but that feeling of contentedness is being seriously challenged by ever escalating costs of "basic" needs and it is being shattered by a government who more and more is dumping the tax burden down the scale of income. The government even has ostentatiously set a level of income they consider poverty level but yet they continue to reach into the pockets of those they consider in poverty so that a system of disproportionate taxing can continue. Shame on our system for allowing that kind taxing to exist. I hope you do not consider me a radical to suggest that a government which can tell us what is a poverty level could also tell us what amount a person or family needs for basic survival in our society and then not tax anyone (rich or poor) until they have exceeded that level. Whether the level is $15,000, $20,000, $25,000 or etc. everyone should be able to count on a take home pay to fulfill their basic needs without the shocks we all have experienced with taxing, and I am talking Federal Income Tax and Social Security Tax. Even if we had the burden of Federal Income Tax and Social Security Tax lifted from us to a certain level we are still paying an ever increasing rate of state income, sales and etc. tax along with increasing local sales, real estate personal and etc. tax. This ever increasing state and local taxes are a partial result of federal cuts to states, counties, and cities and while I will not argue the merits of those decisions, it does translate to the reality of an even greater tax burden for those on the lower income scale. Why would it not work to spread the tax burden more up the scale proportionately and protect a certain amount of income needed for basic economical suvival for everyone? I am not an economist or technician but I will bet that there are enough in Washington on the taxpayer's payroll that could figure out what impact a proposal of this nature would have and I further say that if the impact means someone on the upper scale has to buy a Chrysler New Yorker instead of a Rolls Royce or some other so priced car so that some of the desperation felt by many on the low income scale is eased, then I say we are all beginning to realize the "American Dream." It can be done and more importantly, it should be done.

Democracy means justice and equality for all and although we know that a system of equal income for all would not work we do know that justice for all could prevail if we only made the tax system fairer for all. The dignity lost and sacrifices made are a lot less of a loss in human spirit for a yearly wage earner of a $100,000, $200,000 or $1,000,000 than a family of four struggling on less than $20,000, $10,000 or even $5,000. It's not that we should punish anyone for making more than $50,000 but rather have them pay a proportionate share for realizing a dream of opportunity found in America that we all contribute to as participants no matter which end of the income or social scale because it is us who made this country great in the past, the present and hopefully in the future.

There are even many of us who could deal with the tax burden as it is, if only our President, our Senators and our Congressmen would ask all to pay a fair share and then use the funds wisely to reduce the debt and most of all return the funds to worthwhile projects cut and create programs to address the social decay of dignity that is eroding the very fibers of our Democracy and Society. I truly believe in the basic goodness and decency in the vast majority of our citizens and if that be true, the conscience of America must hurt when we see

the homeless or 50% of the 30,000 elderly, who invested their lives through depression and wars to make this country great, go hungry or our 19th ranking in childbirth mortality or the total despair of poverty or I could go on and on but I would emphasize that the priorities of this country should be reexamined closely and that we who have been blessed by the "American Experience" should reach out in compassion to those, no matter the reasons, who have fallen through the net of dignity into despair. You can't convince me that a 200 year plus Democracy that has survived and solved dilemmas•through out its rich history can not now reach out a hand of dignity to those in our Society that are in desperate need. Shame on us for sending our dollars for guns overseas when we will not even increase the budget for the needs of our elderly such as the "Meal on Wheels" to feed the increasing number of hungry Senior Citizens; Shame on us for buying a "Stealth Bomber" when entire families are homeless in ever crowded and growing shelters that strip them of pride and dignity; Shame on us for anything in our budget that does not serve the purpose of helping all Americans to a level of basic pride and dignity.

I know what I say is not new by any means but IF only the vast majority of good and decent citizens would rise up to say that we must reach out with compassion and help, I truly believe that the President, the Senators and the Congressmen would listen because I still firmly believe in our Democracy despite the feeling that most of our politicians, decision makers and lobbyist have either not lived at the bottom end of the income scale or have forgotten what it is like to take care of a family's shelter, food, medical needs, transportation needs etc. on $5,000, $10,000, $15,000 or even up to that higher level of middle income. If they only felt the desperation I and others have felt, and I consider myself lucky with an income of under $15,000 a year for a family of four compared to a greater number of less fortunate citizens. I may be only one voice now but rest assured that the neglect of basic human needs and human dignity will in the future ring forth a mighty chorus so loud that those in Washington and State Capitols will hear the thunder of voices even through the insulation they have wrapped themselves with, even if sacrifices have to be made . . . and please, may this time the sacrifices start at the top and let the "trickle down theory" exist as what it should be, not what it is today.

JAMES R. ALLISON,
Voting Constituent,
Eureka Springs.

Mr. BUMPERS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HEINZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. AKAKA). Without objection, it is so ordered.

TREATMENT OF WAR CRIMINALS

Mr. HEINZ. Mr. President, over Labor Day, a number of us were privileged to participate in a congressional delegation to the Middle East, most specifically Saudi Arabia, the Persian Gulf, some of the emirates, in my case Bahrain, and the country of Egypt where we met with President Mubarak; in the case of Saudi Arabia, King Fahd; and the Emir of Bahrain; and, of course, most important of all, we visited our American fighting men and women in the Air Force, the Army, the Navy and the Marines on station in and around the Persian Gulf.

The week before taking that trip, the junior Senator from Missouri and I had discussed the fate of the people we were unable to visit during that trip, namely the hostages, Americans and others, held in both Kuwait and Iraq. As I stand here this evening, we convene in the Senate, there are still some 1,500 Americans being held in Kuwait and Iraq, and several other nationalities as well.

It is a well-known fact that numbers of these hostages have been used as human shields. They have been placed in harm's way purposely by the Iraqis around their installations, chemical and biological facilities, and other critical and strategic points that in the event of hostilities with this country and countries represented there in Saudi Arabia, the Saudis, the Moroccans, the Egyptians, the French, and others would want to make, as a practical matter, among our first targets should it come to a shooting war.

Mr. President, Senator BOND and I agreed that the most critical thing we could do for the benefit of our hostages, either for those who are segregated as human shields, or those who have not yet been apprehended, those who are in safe houses, those who are within the American Embassy compounds and other embassies, is to send a very strong message to Saddam Hussein that if any harm should come to our hostages in the event of hostilities between Iraq and the United States or the United Nations forces, sanctioned forces there, Saddam Hussein, his leadership, and any of the perpetrators, who would carry out acts which resulted in harm to Americans or other hostages would be tried and treated as war criminals.

When I say "treated as war criminals," I mean they would be pursued after the hostilities and conflict were over, they would be apprehended, they would be brought to justice, and they would be subjected to the full sweep and power of international law with just as much certainty and severity as were the Nazi war criminals who were tried at Nuremberg in the aftermath of World War II.

I do not think this is medicine that is too strong for this occasion. Indeed, it is this Senator's view, Mr. President, that this is the minimum message we should send, send strongly, swiftly, and surely now, particularly if we want to provide the maximum amount of safety for our and other hostages by making it very clear to Saddam Hussein and his murderous group of retainers that there will be no place they can run, there will be no place they can hide if any harm comes to those people we are not now in a position to rescue and help.

So Senator BOND and I intend to offer a resolution in just a minute or two. It is our intention to ask that that resolution be put over, that it might be voted on tomorrow, perhaps as one of the first orders of business, and I mention particularly Senator BOND—and he is, as I speak, on his way over here, I understand—because this is as much his idea as it is this Senator's.

Let me, if I may, elaborate a bit on the resolution. I do so because I think it is important for everybody in the Chamber, even those who are out at Andrews Air Force Base working, as we are all glad and grateful they are, on the budget, to understand for the record how little regard, if any, Saddam Hussein throughout his career but particularly now has shown for anything but his own power, his own selfish goals, his own well-being, and that this is the time, right now, when we have returned from the Persian Gulf and we know what the situation is to make him understand he cannot threaten innocents with impunity.

So the purpose of our amendment is to make clear to Hussein that, in the event of hostilities, he will simply be unable under any circumstances ever to escape the culpability of his actions, that those who support him will be held accountable, and, that saying I was just following orders will not be an excuse.

So our resolution makes clear to both Saddam Hussein and the international community that the United States Senate considers Iraq's actions to be criminal, above and beyond what is acceptable even in the conduct of warfare, and it expresses the demands of the American people that one of our goals in conflict with Iraq, along with protection of our citizens and the restoration of Kuwait's independence, will be the apprehension and prosecution of Saddam Hussein himself, together with those people who have anything to do with hostages coming to harm.

We hope the hostilities will not break out. We hope that this dispute will be settled without shots being fired, and without lives being lost. But should lives be lost, should the hostages be harmed, should hostages be killed, should war break out even if that is not our wish that it break out, and if that conflict involves the United States and Iraq, as it would surely, Saddam Hussein must be sent a message once and for all that he will not

be able to hide behind any sort of settlement that will allow him to retain his power or escape retribution for the kinds of inhuman actions he is taking: The exploitation, the placing in harm's way, or the death of hostages.

AMENDMENT NO. 2625

(Purpose: To express the sense of the Senate that Saddam Hussein should be tried for war crimes in the event of hostilities between the government of Iraq and the United States)

Mr. HEINZ. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Pennsylvania [Mr. HEINZ], for himself and Mr. BOND, proposes an amendment numbered 2625.

At the appropriate place in the bill, insert the following new section:

SEC. . (a) THE CONGRESS FINDS THAT—

(1) President Saddam Hussein of Iraq has attempted to evade the consequences of his illegal invasion of Kuwait by the taking of civilian hostages;

(2) Saddam Hussein has violated standards of civilized conduct by willfully seeking to endanger the lives of foreign civilians in Kuwait and Iraq;

(3) He has further violated international diplomatic practice by laying siege to Western embassies in Kuwait;

(4) Iraq's conduct both at home and on the battlefield during the recent war with Iran has demonstrated a willingness to use the most barbaric methods of warfare, including the gassing of civilian women and children;

(5) The Nuremberg conventions, while denying national quilt for acts of war, do also stipulate that individual leaders may be held responsible for violations of the conventions of war and of civilized behavior;

(6) The taking of hostages, the use of gas, the terrorizing of civilians and diplomats, and other such acts in both peace and war have long been considered crimes against humanity for which prosecution is justifiable.

(b) It is the sense of the Senate that in the event of hostilities between the United States and the government of Iraq it shall be the policy of the United States to pursue Saddam Hussein, other Iraqi leaders, and other such perpetrators as may be determined responsible in order to bring them to justice as war criminals, and to seek their prosecution and punishment under international auspices of the international community.

Mr. HEINZ. Mr. President, I think that I have not only explained the resolution, but it speaks for itself. It is my understanding that Senator BOND is on his way to the floor, so I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. President, I rise today in support of this very important resolution. I am pleased that my distinguished colleague from Pennsylvania, Senator HEINZ, has brought it to the attention of this body, because I believe it is of such importance that we in the United States Senate should participate in sending a very strong and clear message to Saddam Hussein and to the other people in Iraq.

This amendment makes it clear that in the event hostilities break out in the Persian Gulf, the United States and other civilized nations will hold individual Iraqis personally—personally—responsible for the commission of war crimes, just as we did Nazi and Japanese war criminals following World War II.

Saddam Hussein has shocked the civilized world by his moves to take Western civilians, including women and children, as hostages and to use them as shields in the hope of deterring attacks on Iraqi military and industrial facilities. Hussein's moves are controlled, calculated, and clear violations of customary international law and the Fourth Geneva Convention, to which Iraq is a signatory, which prohibits specifically the taking of civilians as hostages.

Customary international law and the international covenant on civil and political rights, to which Iraq is also a signatory, guarantee all civilians the right to freedom of movement, the right to leave any country and the right not to be discriminated against on the basis of national religion. All of these rights are being violated, and we fear further violations may occur. Iraq has threatened to use chemical and biological weapons, which is a clear violation of international law.

During the recess, as we watched what was going on in Iraq, it became clear that our civilians and civilians of other nations were at risk, at risk of the most basic type of retaliation, threats, and harm from a ruthless dictator. It was for this reason that I circulated a letter to my colleagues asking that they join with me in condemning the process and the purported plans of Saddam Hussein.

I commend Senator Heinz for bringing this measure to the attention of the Senate now, because it is extremely important that we get this message across. Whether hostilities increase, whether we actually go to war, whether this can be resolved by economic boycotts and diplomatic negotiations, the point must remain clear: We intend to hold individual Iraqi soldiers and even irregulars responsible if they violate international law.

Yes, Mr. President, there is a real threat. There is a threat that far worse could happen to our hostages than has already happened. And the suffering that we have seen and we have heard reported by those who have been let free is unconscionable. But if individual Iraqi soldiers think that they are carrying out the will of Saddam Hussein by taking further steps against civilian hostages, or in the worst case taking the lives of hostages or putting them in mortal danger, then we must let them know that we will pursue them, we will pursue them long after hostilities, disagreements, or controversy are over with. They will be held personally responsible.

I hope, Mr. President, that when President Bush has an opportunity to speak to the world, or particularly to the people of Iraq, that he will make the point of the Geneva Convention in the Nuremberg trials. That is the one and most important message we can send to attempt to safeguard and to protect those who are held hostage by Iraq.

After World War II, in the Nuremberg trials, the civilized world made it clear that atrocities against humanity, even during war, will not be excused, and that those individuals responsible for such atrocities will be held personally responsible for their crimes against humanity. This resolution will serve as a first step toward putting the Iraqis on notice that we remain committed to those principles.

Mr. President, I urge all of my colleagues to support this amendment. I hope that we also will continue to see the leaders of the world call attention to the principles of the Nuremberg trials and the Geneva conventions. Prime Minister Margaret Thatcher has already stated the clear position of the British Government. I believe that our State Department and other leaders have stated that as well. But that message must continue to be drummed home to the people who have it within their power to harm the hostages now held in Kuwait or Iraq.

Mr. President, this is one very important piece of a very difficult crisis that we face in the Middle East. For the sake of our hostages, I urge the Senate to support this amendment and to send a very clear signal to Saddam Hussein and everybody down the chain of command in Saddam Hussein's army and legions.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. KOHL). Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, it had been my hope that we would complete action on the pending Treasury-Postal appropriations bill this evening. I had several discussions on the matter with the managers of the bill and with the Republican leader earlier in the day while I was out at Andrews Air Force Base at the budget discussions going on there.

But I am now advised that the negotiations on the budget are continuing with another meeting of all participants scheduled to commence shortly, and the Republican leader suggested that it would be more useful to defer any further action on this bill tonight that might involve votes until tomorrow so as to permit that meeting to go forward, there being approximately 10 Senators participating in those discussions.

Therefore, Mr. President, to accommodate that request and to permit those important discussions to continue, there will be no rollcall votes this evening, and I will now propound a unanimous-consent request limiting the remaining amendments on the pending bill which has been cleared on the Republican side and with respect to which I am authorized by the Republican leader to proceed.

UNANIMOUS-CONSENT AGREEMENT—TREASURY-POSTAL APPROPRIATIONS

Mr. MITCHELL. Accordingly, Mr. President, I ask unanimous consent that the only remaining amendments to the Treasury-Postal appropriations bill be the following: Senator GLENN's amendment relative to IRS tax collections; Senator BRADLEY's sense-of-the-Senate amendment relative to the Convention on the Rights of the Child; Senator DOLE's amendment on wheat; Senator PRYOR's amendment on the bill's nondisclosure provisions; and Senator HEINZ' amendment on the Middle East, which is now pending as amendment No. 2625. I further ask unanimous consent that no motions to recommit be in order; that the listed amendments be subject to relevant second-degree amendments except for the amendment offered by Senator GLENN, and with respect to that amendment no second-degree amendment shall be in order; and that no points of order be waived.

Mr. President, I withhold the request momentarily at the request of the minority staff.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I renew my request.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

PROGRAM

Mr. MITCHELL. Mr. President, we will be back on the bill at about 10 o'clock tomorrow morning. Although we do not have time agreements on these amendments, I do not expect any of these amendments to be very time-consuming. Therefore, we hope to complete action on the bill during the day tomorrow. There will be votes, I am advised, on at least some of these amendments. So Senators should be aware that we hope to complete action on the Treasury-Postal appropriations bill tomorrow, with votes possible on one or more of these amendments during the day.

MORNING BUSINESS

Mr. MITCHELL. Mr. President, I ask unanimous consent that there be a period for morning business with Senators permitted to speak therein.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations: calendar Nos. 876 and 903. I further ask unanimous consent that the nominees be confirmed en bloc; that any statements appear in the RECORD as if read; that the motions to reconsider be laid upon the table en bloc; that the President be immediately notified of the Senate's action; and that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

PANAMA CANAL COMMISSION

Gilberto Guardia Fabrega, a citizen of the Republic of Panama, to be Administrator of the Panama Canal Commission.

THE JUDICIARY

Graham C. Mullen, of North Carolina, to be U.S. district judge for the Western District of North Carolina.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now resume legislative session.

NATIONAL EMERGENCY WITH RESPECT TO IRAQ—MESSAGE FROM THE PRESIDENT RECEIVED DURING ADJOURNMENT—PM 138

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on August 9, 1990, during the adjournment of the Senate, received the following message from the President of the United States, together with accompanying papers; which was referred to the Committee on Banking, Housing, and Urban Affairs:

THE WHITE HOUSE,
Washington, DC, August 9, 1990.

Hon. DAN QUAYLE,
President of the Senate,
Washington, DC.

DEAR MR. PRESIDENT: On August 2, 1990, I reported to the Congress that, pursuant to section 204(b) of the International Emergency Economic Powers Act, 50 U.S.C. section 1703(b), and section 201 of the National Emergencies Act, 50 U.S.C. section 1621, I exercised my statutory authority to declare a national emergency and to issue two Executive orders that imposed a comprehensive economic embargo against Iraq and blocked both Iraqi and Kuwaiti government property within the jurisdiction of the United States or under the control of U.S. persons.

In the days after the imposition of U.S. economic sanctions, the Iraqi government has tightened its unlawful grip over the territory of Kuwait and has installed a puppet regime that in no way represents the people or legitimate Government of Kuwait. On August 6, the United Nations Security Council, to bring the invasion and occupation of Kuwait to an end and to restore the sovereignty, independence, and territorial integrity of Kuwait, decided that all nations shall impose sweeping economic sanctions against both Iraq and Kuwait.

Today, I have taken additional steps to respond to these developments and to ensure that the economic measures we are taking with respect to Iraq and Kuwait conform to United Nations Security Council Resolution 661 of August 6, 1990. Specifically, pursuant to section 204(b) of the International Emergency Economic Powers Act, 50 U.S.C. section 1703(b), section 201 of the National Emergencies Act, 50 U.S.C. section 1621, and the United Nations Participation Act, 22 U.S.C. section 287(c), I have issued two new Executive orders.

The order I have issued with respect to Iraq:

—prohibits exports and imports of goods and services between the United States and Iraq, and any activity that promotes or is intended to promote such exportation and importation;

—prohibits any dealing by a U.S. person in connection with property of Iraq; origin exported from Iraq after August 6, 1990, or intended for exportation to or from Iraq to any country, and related activities;

—prohibits transactions related to travel to or from Iraq or to activities by any such person within Iraq, except for transactions necessary for prompt departure from Iraq, the conduct of official business of the

United States Government or of the United Nations, or journalistic travel;

—prohibits transactions related to transportation to or from Iraq, or the use of vessels or aircraft registered in Iraq by U.S. persons;

—prohibits the performance by any U.S. person of any contract in support of certain categories of projects in Iraq;

—prohibits the commitment or transfer of funds or other financial or economic resources by any U.S. person to the Government of Iraq, or any other person in Iraq;

—blocks all property of the Government of Iraq now or hereafter located in the United States or in the possession or control of U.S. persons, including their foreign branches; and

—clarifies that the definition of U.S. persons includes vessels of U.S. registry.

In a separate order, I have extended to Kuwait all economic sanctions currently in effect against Iraq. Specifically, that order:

—prohibits exports and imports of goods and services between the United States and Kuwait, and any activity that promotes or is intended to promote such exportation or importation;

—prohibits any dealing by a U.S. person in connection with property of Kuwaiti origin exported from Kuwait after August 6, 1990, or intended for exportation to or from Kuwait to any country, and related activities;

—prohibits transactions related to travel to or from Kuwait or to activities by any such person within Kuwait, except for transactions necessary for prompt departure from Kuwait, the conduct of official business of the United States Government or of the United Nations, or journalistic travel;

—prohibits transactions related to transportation to or from Kuwait, or the use of vessels or aircraft registered in Kuwait by U.S. persons;

—prohibits the performance by any U.S. person of any contract in support of certain categories of projects in Kuwait;

—prohibits the commitment or transfer of funds or other financial or economic resources by any U.S. person to the Government of Kuwait, or any other person in Kuwait;

—blocks all property of the Government of Kuwait now or hereafter located in the United States or in the possession or control of U.S. persons, including their foreign branches; and

—clarifies that definition of U.S. persons includes vessels of U.S. registry.

Today's orders provide that the Secretary of the Treasury, in consultation with the Secretary of State, is authorized to take such actions, including the promulgation of rules and regulations, as may be necessary to carry out the purposes of those orders. The orders were effective at 8:55 pm e.d.t., August 9, 1990.

The declarations of national emergency made by Executive Orders 12722 and 12723, and any other provision of those orders not inconsistent with today's orders, remain in force and are unaffected by today's orders.

I am enclosing a copy of each of today's orders.

Sincerely,

GEORGE BUSH.

NOTIFICATION OF DEPLOYMENT OF U.S. TROOPS UNDER THE WAR POWERS ACT—MESSAGE FROM THE PRESIDENT RECEIVED DURING ADJOURNMENT—PM 139

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on August 9, 1990, during the adjournment of the Senate, received the following message from the President of the United States; which was referred to the Committee on Foreign Relations:

THE WHITE HOUSE,
Washington, DC, August 9, 1990.

Hon. ROBERT C. BYRD,
President pro tempore of the Senate, Washington, DC.

DEAR MR. PRESIDENT: On August 2, 1990, Iraq invaded and occupied the sovereign state of Kuwait in flagrant violation of the Charter of the United Nations. In the period since August 2, Iraq has massed an enormous and sophisticated war machine on the Kuwaiti-Saudi Arabian border and in southern Iraq, capable of initiating further hostilities with little or no additional preparation. Iraq's actions pose a direct threat to neighboring countries and to vital U.S. interests in the Persian Gulf region.

In response to this threat and after receiving the request of the Government of Saudi Arabia, I ordered the forward deployment of substantial elements of the United States Armed Forces into the region. I am providing this report on the deployment and mission of our Armed Forces in accordance with my desire that Congress be fully informed and consistent with the War Powers Resolution.

Two squadrons of F-15 aircraft, one brigade of the 82nd Airborne Division, and other elements of the Armed Forces began arriving in Saudi Arabia at approximately 9:00 a.m. (EDT) on August 8, 1990. Additional U.S. air, naval, and ground Forces also will be deployed. The Forces are equipped for combat, and their mission is defensive. They are prepared to take action in concert with Saudi forces, friendly regional forces, and others to deter Iraqi aggression and to preserve the integrity of Saudi Arabia.

I do not believe involvement in hostilities is imminent; to the contrary, it is my belief that this deployment will facilitate a peaceful resolution of the crisis. If necessary, however, the Forces are fully prepared to defend themselves. Although it is not possible to predict the precise scope and duration of this deployment, our Armed Forces will remain so long as their presence is required to contribute to the security of the region and desired by the Saudi government to enhance the capability of Saudi armed forces to defend the Kingdom.

I have taken these actions pursuant to my constitutional authority to conduct our foreign relations and as Commander in Chief. These actions are in exercise of our inherent right of individual and collective self-defense. I look forward to cooperation with the Congress in helping to restore peace and stability to the Persian Gulf region.

Sincerely,

GEORGE BUSH.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Kalbaugh, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

ANNUAL REPORT OF THE NATIONAL ENDOWMENT FOR THE ARTS—MESSAGE FROM THE PRESIDENT—PM 140

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Labor and Human Resources:

To the Congress of the United States:

In accordance with the provisions of the National Foundation on the Arts and Humanities Act of 1965, as amended (20 U.S.C. 959(b)), I transmit herewith the annual Report of the National Endowment for the Arts for Fiscal Year 1989.

GEORGE BUSH.

THE WHITE HOUSE, *September 10, 1990.*

BUDGET SEQUESTER AMOUNTS FOR EACH PROGRAM, PROJECT, AND ACTIVITY—MESSAGE FROM THE PRESIDENT—PM 141

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with accompanying papers; which, pursuant to Public Law 100-119, section 252(a)(5) was referred jointly to the Committee on Appropriations, the Committee on the Budget, the Committee on Agriculture, Nutrition, and Forestry, the Committee on Armed Services, the Committee on Banking, Housing, and Urban Affairs, the Committee on Commerce, Science, and Transportation, the Committee on Energy and Natural Resources, the Committee on Environment and Public Works, the Committee on Finance, the Committee on Foreign Relations, the Committee on Governmental Affairs, the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Rules and Administration, the Committee on Small Business, the Committee on Veterans' Af-

fairs, the Select Committee on Intelligence, the Select Committee on Indian Affairs, the Special Committee on Aging:

To the Congress of the United States:

In accordance with the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended, I transmit herewith the program, project, and activity information required by section 252(a)(5) of the act.

The attachment provides information on both base and sequester amounts for each program, project, and activity in each budget account subject to the sequester.

GEORGE BUSH.

THE WHITE HOUSE, *September 10, 1990.*

MESSAGES FROM THE HOUSE RECEIVED DURING ADJOURNMENT

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on August 9, 1990, during the adjournment of the Senate, received a message announcing that the Speaker has signed the following enrolled bills and joint resolutions:

S. 666. An act to enroll twenty individuals under the Alaska Native Claims Settlement Act;

S. 2461. An act to amend the Public Health Service Act to revise and extend the program of grants for reducing the waiting period for receiving treatment services for drug abuse, and for other purposes;

S. 2952. An act to amend the Energy Policy and Conservation Act to extend the authority for titles I and II:

HR. 498. An act to clarify and strengthen the authority for certain Department of the Interior law enforcement services, activities, and officers in Indian country, and for other purposes;

HR. 1159. An act to amend the National Trails System Act by designating the Juan Bautista de Anza National Historic Trail, and for other purposes;

HR. 1199. An act to amend title 38, United States Code, to establish a system of competitive pay for nurses employed by the Department of Veterans Affairs, to authorize the Secretary of Veterans Affairs to make such system applicable to certain other health-care personnel, to make certain improvements in veterans' health and education programs, and for other purposes;

HR. 1465. An act to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes;

HR. 1594. An act to make miscellaneous and technical changes to various trade laws;

H.R. 3048. An act to designate the Agricultural Research Service, United States Department of Agriculture, animal health research building in Clay Center, NE, as the "Virginia D. Smith Animal Health Research Laboratory";

H.R. 3086. An act to amend title 5, United States Code, to grant appeal rights to members of the excepted service affected by adverse personnel actions, and for other purposes;

H.R. 3248. An act to revise the boundary of Gettysburg National Military Park in the Commonwealth of Pennsylvania, and for other purposes;

H.R. 4035. An act to designate the Federal building located at 777 Sonoma Avenue in Santa Rosa, CA, as the "John F. Shea Federal Building";

H.R. 4273. An act to amend the Public Health Service Act to extend the program of grants for preventive health services with respect to tuberculosis, and for other purposes;

H.R. 4314. An act to implement the Inter-American Convention on International Commercial Arbitration;

H.R. 4790. An act to amend the Public Health Service Act to establish a program of grants for the detection and control of breast and cervical cancer;

H.R. 5131. An act to amend the Federal Aviation Act of 1958 to extend the civil penalty assessment demonstration program, and for other purposes;

H.R. 5350. An act to provide for a temporary increase in the public debt limit;

H.R. 5432. An act to extend the expiration date of the Defense Production Act of 1950;

S.J. Res. 248. Joint resolution to designate the month of September 1990 as "International Visitors' Month";

S.J. Res. 296. Joint resolution designating August 7, 1990, as "National Neighborhood Crime Watch Day";

S.J. Res. 343. Joint resolution to designate August 13 through August 19, 1990, as "Home Health Aide Week";

H.J. Res. 467. Joint resolution designating September 21, 1990, as "National POW/MIA Recognition Day," and recognizing the National League of Families POW/MIA flag;

H.J. Res. 515. Joint resolution designating the week beginning September 16, 1990, as "National Give Kids a Fighting Chance Week";

H.J. Res. 554. Joint resolution designating January 6, 1991, as "National Law Enforcement Training Week"; and

H.J. Res. 627. Joint resolution designating Labor Day weekend, September 1 through September 3, 1990, as "National Drive for Life Weekend."

Under the authority of the order of the Senate of January 3, 1989, the enrolled bills and joint resolutions were signed on August 9, 1990, during the adjournment of the Senate by the President pro tempore [Mr. BYRD].

ENROLLED JOINT RESOLUTION SIGNED

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on August 13, 1990, during the adjournment of the Senate, received a message from the House of Representatives announcing that the Speaker has signed the following enrolled joint resolution:

H.J. Res. 625. Joint resolution designating August 6, 1990, as "Voting Rights Celebration Day."

(Under the authority of the order of the Senate of August 2, 1990, the joint resolution had been signed on August 2, 1990, by the majority leader, Mr. MITCHELL.)

ENROLLED BILL SIGNED

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on August 14, 1990, during the adjournment of the Senate, received a message from the House of Representatives announcing that the Speaker pro tempore [Mr. HOYER] had signed the following enrolled bill:

S. 2240. An act to amend the Public Health Service Act to provide grants to improve the quality and availability of care for individuals and families with HIV disease, and for other purposes.

Under the authority of the order of the Senate of January 3, 1989, the enrolled bill was signed on August 14, 1990, by the President pro tempore [Mr. BYRD].

MESSAGES FROM THE HOUSE

At 12:06 p.m., a message from the House of Representatives, delivered by Mr. Hayes, one of its reading clerks, announced that the House has passed the bill (S. 566) to authorize a new Housing Opportunities Partnerships Program to support State and local strategies for achieving more affordable housing; to increase home ownership; and for other purposes; with amendments, in which it requests the concurrence of the Senate.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 5170. An act to amend the Airport and Airway Improvement Act of 1982 to authorize appropriations for fiscal years 1991 and 1992, to improve aviation safety and capacity, to reduce the surplus in the Airport and Airway Trust Fund, to authorize the Secretary of Transportation to grant authority for the imposition of airport passenger facility charges, and for other purposes.

The message further announced that the House has agreed to the following concurrent resolution;

H. Con. Res. 365. A concurrent resolution providing for a joint session of Congress to receive a message from the President.

At 1:44 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the bill (S. 2597) to amend the act of June 20, 1910, to clarify in the State of New Mexico authority to exchange lands granted by the United States in trust, and to validate prior land exchanges.

MEASURES REFERRED

The following bill was read the first and second times by unanimous consent, and referred as indicated:

H.R. 5170. An act to amend the Airport and Airway Improvement Act of 1982 to authorize appropriations for fiscal years 1991 and 1992, to improve aviation safety and capacity, to reduce the surplus in the Airport

and Airway Trust Fund, to authorize the Secretary of Transportation to grant authority for the imposition of airport passenger facility charges, and for other purposes; to the Committee on Commerce, Science, and Transportation.

MEASURES PLACED ON THE CALENDAR

Pursuant to the provisions of the order of August 4, 1977, the Committee on Governmental Affairs was discharged from the further consideration of the following bills, which were placed on the calendar:

S. 101. A bill to mandate a balanced budget, to provide for the reduction of the national debt, to protect retirement funds, to require honest budgetary accounting, and for other purposes.

S. 532. A bill to amend the Congressional Budget Act of 1974 to provide that any concurrent resolution on the budget that contains reconciliation directives shall include a directive with respect to the statutory limit on the public debt, and for other purposes.

S. 2999. A bill to exclude the Social Security trust funds from the deficit calculation.

S. 3008. A bill to exclude the Federal hospital insurance trust fund from the deficit calculation.

ENROLLED BILLS AND JOINT RESOLUTIONS PRESENTED

The Secretary of the Senate reported that he had presented to the President of the United States the following enrolled bills and joint resolutions:

On August 9, 1990:

S. 666. An act to enroll 20 individuals under the Alaska Native Claims Settlement Act;

S. 2461. An act to amend the Public Health Service Act to revise and extend the program of grants for reducing the waiting period for receiving treatment services for drug abuse, and for other purposes;

S. 2952. An act to amend the Energy Policy and Conservation Act to extend the authority for titles I and II;

S.J. Res. 248. Joint resolution to designate the month of September 1990 as "International Visitors' Month";

S.J. Res. 296. Joint resolution designating August 7, 1990, as "National Neighborhood Crime Watch Day"; and

S.J. Res. 343. Joint resolution to designate August 13 through August 19, 1990, as "Home Health Aide Week."

On August 14, 1990:

S. 2240. An act to amend the Public Health Service Act to provide grants to improve the quality and availability of care for individuals and families with HIV disease, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-3416. A communication from the President and Chief Executive Officer of the Farm Credit System Assistance Board, transmitting, pursuant to law, the second annual report of the Board dated June 1990; to the Committee on Agriculture, Nutrition, and Forestry.

EC-3417. A communication from the Director of the Office of Management and Budget, Executive Office of the President, transmitting, pursuant to law, the cumulative report on budget rescissions and deferrals dated August 1, 1990; pursuant to the order of January 30, 1975, as modified on April 11, 1986; referred jointly to the Committee on Appropriations, the Committee on the Budget, the Committee on Agriculture, Nutrition, and Forestry, the Committee on Armed Services, the Committee on Commerce, Science, and Transportation, the Committee on Finance, and the Committee on Foreign Relations.

EC-3418. A communication from the Director of the Office of Management and Budget, Executive Office of the President, transmitting, pursuant to law, notification dated August 10, 1990, of the President's intent to exempt all military personnel accounts from sequester, if a sequester is necessary; referred jointly to the Committee on Appropriations, the Committee on the Budget, and the Committee on Armed Services.

EC-3419. A communication from the Deputy Assistant Secretary of Defense (Procurement), transmitting, pursuant to law, notice of the delay in submission of a report to recommend a financial analysis methodology to be used in future return on investment studies of the defense industry; to the Committee on Armed Services.

EC-3420. A communication from the Secretary of Veterans Affairs, transmitting, pursuant to law, a report on a violation of the Anti-Deficiency Act; to the Committee on Appropriations.

EC-3421. A communication from the Deputy Assistant Secretary of the Air Force, transmitting, pursuant to law, notification of the completion of a study on converting the Laboratory Supply Support function at Kirkland Air Force Base, NM, to performance under contract; to the Committee on Armed Services.

EC-3422. A communication from the Deputy Assistant Secretary of the Air Force, transmitting, pursuant to law, notification of the Air Force's plans to study conversion of the Strategic Air Command's radar bombing scoring sites and six mobile duty location sites to performance under contract; to the Committee on Armed Services.

EC-3423. A communication from the Executive Secretary of the Federal Financial Institutions Examination Council, transmitting, pursuant to law, a study on the feasibility of establishing a formalized risk management training program; to the Committee on Banking, Housing, and Urban Affairs.

EC-3424. A communication from the Secretary of the Interstate Commerce Commission, transmitting, pursuant to law, notification that the Commission has extended the time period for issuing a final decision in Finance Docket No. 31387 (Sub-No. 1), by 30 days to August 23, 1990; to the Committee on Commerce, Science, and Transportation.

EC-3425. A communication from the Secretary of Agriculture, transmitting a draft of proposed legislation to designate a segment of the Little Bighorn River in Wyoming as a component of the National Wild and Scenic Rivers Systems and for other purposes; to the Committee on Energy and Natural Resources.

EC-3426. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, notification of the intent to make refunds listed on the enclosure; to the Committee on Energy and Natural Resources.

EC-3427. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, notification of the intention to make refunds listed on the enclosure; to the Committee on Energy and Natural Resources.

EC-3428. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, notification of the intention to make refunds listed on the enclosure; to the Committee on Energy and Natural Resources.

EC-3429. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, notification of the intention to make refunds listed on the enclosure; to the Committee on Energy and Natural Resources.

EC-3430. A communication from the Secretary of Energy, transmitting, pursuant to law, a report on the project "Full-Scale Demonstration of Low-NO_x Cell Burner Retrofit"; to the Committee on Energy and Natural Resources.

EC-3431. A communication from the Secretary of Energy, transmitting, pursuant to law, a report on the "10 MW Demonstration of Gas Suspension Absorption" project; to the Committee on Energy and Natural Resources.

EC-3432. A communication from the Secretary of the Interior, transmitting, pursuant to law, a report assessing the estimated total number of acres of wetland habitat as of the 1780's and the 1980's; to the Committee on Environment and Public Works.

EC-3433. A communication from the Chairman of the U.S. Nuclear Regulatory Commission, transmitting, pursuant to law, a report on abnormal occurrences at licensed nuclear facilities for the first calender quarter of 1990; to the Committee on Environment and Public Works.

EC-3434. A communication from the Administrator of the Environmental Protection Agency, transmitting, pursuant to law, a report on "Special Wastes from Mineral Processing"; to the Committee on Environment and Public Works.

EC-3435. A communication from the Administrator of General Services, transmitting, pursuant to law, an informational copy of a lease prospectus for the Federal Aviation Administration's eastern region in New York; to the Committee on the Environment and Public Works.

EC-3436. A communication from the U.S. Trade Representative, transmitting, pursuant to law, a report on recent developments regarding implementation of section 301 of the Trade Act of 1974; to the Committee on Finance.

EC-3437. A communication from the President of the United States, transmitting, pursuant to law, a determination under the Trade Act of 1974 with respect to the German Democratic Republic; to the Committee on Finance.

EC-3438. A communication from the Secretary of Health and Human Services, transmitting, pursuant to law, a report entitled "Prior and Concurrent Authorization Demonstrations"; to the Committee on Finance.

EC-3439. A communication from the Assistant Secretary of State (Legislative Affairs), transmitting, pursuant to law, a quarterly report concerning human rights activities in Ethiopia for the period January 15 through April 14, 1990; to the Committee on Foreign Relations.

EC-3440. A communication from the Assistant Secretary of State (Legislative Affairs), transmitting, pursuant to law, a report on Application of Travel Restrictions to Personnel of Certain Countries and Organizations; to the Committee on Foreign Relations.

EC-3441. A communication from the Assistant Legal Advisor for Treaty Affairs, Department of State, transmitting, pursuant to law, a report on international agreements, other than treaties, entered into by the United States in the 60 day period prior to August 2, 1990; to the Committee on Foreign Relations.

EC-3442. A communication from the Plan Administrator of the Federal Intermediate Credit Bank of Jackson, transmitting, pursuant to law, the annual pension plan report of the Federal Intermediate Credit Bank of Jackson for the plan year ending December 31, 1990; to the Committee on Governmental Affairs.

EC-3443. A communication from the vice president of the Federal Home Loan Mortgage Corporation, transmitting, pursuant to law, the annual pension plan report of the corporation's employee pension plan for 1989; to the Committee on Governmental Affairs.

EC-3444. A communication from the Director, morale, welfare, and recreation support activity, headquarters, U.S. Marine Corps, transmitting, pursuant to law, the annual report of the retirement plan for civilian employees of the U.S. Marine Corps morale, welfare, and recreation activities, the morale, welfare, and recreation support activities and miscellaneous nonappropriated fund instrumentalities; to the Committee on Governmental Affairs.

EC-3445. A communication from the Chairman of the Federal Communications Commission, transmitting, pursuant to law, the annual report of the Commission under the Government in the Sunshine Act for calendar year 1989; to the Committee on Governmental Affairs.

EC-3446. A communication from the Administrator of General Services, transmitting, pursuant to law, the annual report of personal property furnished to non-Federal recipients for fiscal year 1989; to the Committee on Governmental Affairs.

EC-3447. A communication from the Benefits Administrator of the Farm Credit Services, transmitting, pursuant to law, the annual financial report of the Retirement Plan for the Employees of the Seventh Farm Credit District as of January 1, 1990; to the Committee on Governmental Affairs.

By Mr. KENNEDY, from the Committee on Labor and Human Resources, with an amendment in the nature of a substitute:

S. 2600. A bill to combat homelessness through the establishment of housing-based family support centers, through the provisions of housing-based services to elderly individuals with chronic and debilitating illnesses and conditions, through the provision of residence-based outpatient mental health services, and through the use of grants for the improvement of community development corporations, and for other purposes (Rept. No. 101-435).

S. 2863. A bill to amend the Steward B. McKinney Homeless Assistance Act and the Public Health Service Act to reauthorize certain health, education, training, and community services programs, and for other purposes (Rept. No. 101-436).

By Mr. SASSER, from the Committee on the Budget, without amendment:

S. 2835. A bill to amend the Balanced Budget and Emergency Deficit Control Act of 1985 to require the President and Congress to set, on an annual basis, the ratio of defense versus nondefense spending reductions required under sequestration (Rept. No. 101-437); referred to the Committee on Governmental Affairs.

By Mr. SASSER, from the Committee on the Budget, without amendment:

S. 3011. An original bill to amend the Congressional Budget Act to create a functional category for gross interest on public debt (Rept. No. 101-438); referred to the Committee on Governmental Affairs.

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 1660. A bill relating to telephone operator consumer services, and for other purposes (Rept. No. 101-439).

39-059 O-91-46 (Pt. 16)

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute and an amendment to the title:

S. 1884. A bill to promote the use of recycled materials derived from municipal refuse, and for other purposes (Rept. No. 101-440).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 1933. A bill to provide for the minting of coins in commemoration of the bicentennial of the death of Benjamin Franklin and to enact a fireservice bill of rights and programs to fulfill those rights (Rept. No. 101-441).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with amendments:

S. 2170. A bill to prescribe the conditions under which contractors receiving operating-differential subsidy of their affiliates may engage in coastwise or intercoastal trade (Rept. No. 101-442).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with amendments:

S. 2516. A bill to augment and improve the quality of international data compiled by the Bureau of Economic Analysis under the International Investment and Trade in Services Survey Act by allowing that agency to share statistical establishment list information compiled by the Bureau of the Census and for other purposes (Rept. No. 101-443).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 2760. A bill to authorize appropriations for fiscal year 1991 for the Maritime Administration, and for other purposes (Rept. No. 101-444).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with amendments:

S. 2782. A bill to amend the Coastal Zone Management Act of 1972 to authorize appropriations for fiscal years 1991 through 1995 and to require State coastal zone management agencies to prepare and submit for the approval of the Secretary of Commerce programs for the improvement of coastal zone water quality, and for other purposes (Rept. No. 101-445).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with amendments:

S. 2789. A bill to authorize appropriations for the Earthquake Hazards Reduction Act of 1977, and for other purposes (Rept. No. 101-446).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 2851. A bill to alter the Federal rules applicable to commercial air carriers at high density traffic airports (Rept. No. 101-447).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with amendments and an amendment to the title:

S. 2933. A bill to amend title 49, United States Code, regarding the collection of overpayments of undercharges on shipments via motor common carriers of property and nonhousehold goods freight forwarders, and for other purposes (Rept. No. 101-448).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, with amendments:

S. 2936. A bill to amend the Hazardous Materials Transportation Act to authorize appropriations for fiscal years 1990, 1991, and 1992, and for other purposes (Rept. No. 101-449).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, without amendment:

S. 3012. An original bill to amend the Independent Safety Board Act of 1974 to authorize appropriations for fiscal years 1991, 1992, and 1993, and for other purposes (Rept. No. 101-450).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, without amendment and a preamble:

S.J. Res. 355. A joint resolution to express appreciation for the benefit brought to the Nation by Amtrak during its 20 years of existence (Rept. No. 101-451).

By Mr. HOLLINGS, from the Committee on Commerce, Science, and Transportation, without amendment:

H.R. 4522. A bill to improve the information available to emergency response personnel in the field, and for other purposes (Rept. No. 101-452).

By Mr. BIDEN, from the Committee on the Judiciary, without amendment and with a preamble:

H.J. Res. 520. A joint resolution granting the consent of Congress to amendments to the Washington Metropolitan Area Transit Regulation Compact.

By Mr. KENNEDY, from the Committee on Labor and Human Resources, with an amendment in the nature of a substitute:

S. 2793. A bill to amend the United States Institute of Peace Act to honor the memory of the late Spark M. Matsunaga, United States Senator from the State of Hawaii, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. KENNEDY, from the Committee on Labor and Human Resources, with an amendment in the nature of a substitute:

S. 2442. A bill to amend the Occupational Safety and Health Act of 1970 to expand the rights of victims of occupational safety and health hazards, and for other purposes (Rept. No. 101-453).

By Mr. GLENN, from the Committee on Governmental Affairs, with an amendment in the nature of a substitute:

S. 1957. A bill to provide for the efficient and cost effective acquisition of nondevelopmental items for federal agencies, and for other purposes (Rept. No. 101-454).

EXECUTIVE REPORTS OF COMMITTEES SUBMITTED DURING ADJOURNMENT

Under the authority of the order of the Senate of August 4, 1990, the following executive reports of committees were submitted on August 30, 1990, during the adjournment of the Senate:

By Mr. PELL, from the Committee on Foreign Relations:

Treaty Doc. 100-20. Convention Against Torture and other Cruel, Inhuman, or Degrading Treatment or Punishment (with additional views) (Exec. Rept. No. 101-30).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and refered as indicated:

By Mr. SHELBY:

S. 3013. A bill to amend the International Emergency Economic Powers Act to increase the amount of civil and criminal penalties which may be imposed under that Act; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. BENTSEN:

S. 3014. A bill to amend title XVIII of the Social Security Act to provide for assessment and adjustment of the coinsurance amount for post-hospital extended care services; to the Committee on Finance.

By Mr. HOLLINGS:

S. 3015. A bill to amend title XVIII of the Social Security Act to improve the limitations on actual physician's charges for unassigned claims; to the Committee on Finance.

By Mr. LEVIN (for himself and Mr. RIEGLE):

S. 3016. A bill for the relief of Janice and Leslie Sedore and Ruth Hillman; to the Committee on the Judiciary.

By Mr. JOHNSTON (for himself and Mr. MCCLURE):

S. 3017. A bill to amend section 28(w) of the Mineral Leasing Act of 1920, as amended, to repeal the 60-day waiting period for the granting of pipeline rights of way; to the Committee on Energy and Natural Resources.

By Mr. MITCHELL (for Mr. DOLE):

S. 3018. A bill to require the Secretary of Agriculture to announce an acreage limitation program for the 1991 crop of wheat; read the first time.

By Mr. MITCHELL (for himself and Mr. DOLE) (by request):

S.J. Res. 361. A joint resolution approving the extension of nondiscriminatory treatment (most favored nation treatment) to the products of Czechoslovakia; to the Committee on Finance.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SHELBY:

S. 3013. A bill to amend the International Emergency Economic Powers Act to increase the amount of civil and criminal penalties which may be imposed under the Act; to the Committee on Banking, Housing, and Urban Affairs.

INCREASE IN PENALTIES FOR VIOLATIONS OF EMBARGO AGAINST IRAQ

● Mr. SHELBY. Mr. President, I rise today to introduce a bill to increase the penalties for a violation of the Presidential embargo against Iraq and Kuwait. Currently, the penalties for a violation of a Presidential embargo are so insubstantial as to be almost meaningless. The civil fine for a violation of a Presidential embargo is currently set at $10,000 and the criminal fine is set at $50,000. My bill will raise the civil fine for a violation to $250,000 and the criminal fine will be set at $1,000,000.

I do not have to remind my colleagues of the commitment we have

made in the Middle East. Not only have we placed the lives of thousands of U.S. men and women on the line, we have entered into a commitment that will cost our Nation billions of dollars. An integral part of our success in the Mideast will depend on the success of the President's embargo against Iraq and Kuwait. If our mission in the Mideast is to be a success, the embargo must be strong and impenetrable. To ensure the effectiveness of the embargo we need to say to those individuals and businesses that would do business with the barbarous regime in Iraq for mere profit—you will be punished severely. The current fines are so low that they do not serve as a deterrent or even adequate punishment for violating a Presidential embargo. The current law is a mere slap on the wrist. I believe that my amendment will put some bite into the punishment for a violation of a Presidential embargo.

I encourage all my colleagues in the Senate to join me in supporting this legislation. The least we can do for the men and women whose lives we have laid on the line is to ensure that those in this country who work against their mission will be punished and not allowed to enjoy the fruits of their illgotten gains.●

By Mr. BENTSEN:

S. 3014. A bill to amend title XVIII of the Social Security Act to provide for assessment and adjustment of the coinsurance amount for post-hospital extended care services; to the Committee on Finance.

ADJUSTMENTS TO COINSURANCE AMOUNT FOR POST-HOSPITAL EXTENDED CARE SERVICES

● Mr. BENTSEN. Mr. President, the bill I am introducing today would rectify a serious problem with the coinsurance requirements under Medicare's skilled nursing facility [SNF] benefit. When the Medicare Program first began, beneficiaries paid a daily SNF coinsurance amount of $5 beginning on the 21st day of a nursing home stay. That amount has increased rapidly over the past 25 years. In 1990, beneficiaries are paying $74 a day.

On average, the beneficiary contribution covers more than 50 percent of the cost of a nursing home day. This is much higher than the 20 percent coinsurance required for most Medicare services. And in some cases, the $74 actually exceeds the cost of a day of care in a SNF. When this occurs, it's less costly for beneficiaries to give up their Medicare benefits and directly pay the entire nursing home cost themselves. CBO estimates that this happens in about 20,000 cases each year, or 5 percent of Medicare nursing home stays nationally. But it varies by geographic region. In the region including the States of Alabama, Kentucky, Mississippi, and Tennessee, for example, over 14 percent of the patients are better off paying the whole cost of the nursing home day than the $74 Medicare coinsurance rate.

The problem results from the link between the coinsurance rate for nursing home stays and the inpatient hospital deductible. The coinsurance rate is set to equal one-eighth of the hospital deductible, which is computed to represent the average cost of a hospital day. Hospital costs have grown much faster than nursing home costs over the years, and the result is that the SNF coinsurance amount is out of proportion to the cost of nursing home care.

S. 3014 would break the link between the hospital deductible and the SNF coinsurance rate and lower the coinsurance amount to $65 in 1991. The $65 coinsurance amount would stay in place over time until the coinsurance rate was reduced to 20 percent. This would happen gradually over a number of years. Extrapolating current CBO projections of nursing home cost increases, the SNF coinsurance rate would not be increased from the $65 level until the year 2005.

I would have liked to propose moving immediately to a 20-percent coinsurance rate, but CBO estimates that it would cost $240 million to do that in 1991. This is simply not feasible given our difficult budgetary situation. But I hope we can take the modest steps proposed in this bill to ensure that beneficiaries are not required to contribute an excessive amount toward the cost of their nursing home stay.

CBO estimates that the gradual reduction in the SNF coinsurance rate proposed in this bill would cost $60 million in fiscal year 1991, and $850 million over 5 years. We are involved in an important effort to reduce the Federal deficit, and even this modest approach may not be affordable this year, but I hope that steps can be taken to accommodate some reduction in the coinsurance rate.

Mr. President, I ask unanimous consent that the text of S. 3014 be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3014

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ASSESSMENT AND ADJUSTMENT OF COINSURANCE AMOUNT FOR POST-HOSPITAL EXTENDED CARE SERVICES.

(a) IN GENERAL—Paragraph (3) of section 1813(a) of the Social Security Act (42 U.S.C. 1395e(a)), as restored by section 101(a) of the Medicare Catastrophic Coverage Repeal Act of 1989, is amended to read as follows:

"(3)(A) The amount payable for post-hospital extended care services furnished an individual during any spell of illness shall be reduced by a coinsurance amount equal to $65.00 for each day (before the 101st day) on which such individual is furnished such services after such services have been furnished to such individual for 20 days during such spell.

"(B) Before September 1 of each year (beginning with 1991), the Secretary shall estimate the national average per diem reasonable cost recognized under this title for post-hospital extended care services which will be furnished in the succeeding calendar year.

"(C) The Secretary shall, in September of each year (beginning with 1991), promulgate the coinsurance amount which shall apply to post-hospital extended care services furnished in the succeeding year. Such amount shall be equal to the greater of—

(1) 20 percent of the national average per diem cost estimated under subparagraph (B) in that year, rounded to the nearest multiple of 50 cents (if such amount is not a multiple of 50 cents); or

(2) $65.00.

(b) CONFORMING AMENDMENT.—Subparagraph (B) of section 1813(b)(3) of such Act (42 U.S.C. 1395e(b)(3)), as revived by section 101(a) of the Medicare Catastrophic Coverage Repeal Act of 1989, is amended by striking "and post-hospital extended care services".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to post-hospital extended care services furnished on or after January 1, 1991.●

By MR. HOLLINGS:

S. 3015. A bill to amend title XVIII of the Social Security Act to improve the limitation on actual physicians' charges for unassigned claims; to the Committee on Finance.

LIMITATION ON PHYSICIANS' ACTUAL CHARGES FOR UNASSIGNED CLAIMS

Mr. HOLLINGS. Mr. President, today I am introducing legislation, technical in nature, that would correct a glitch in the transition to the Medicare resource-based relative value system [RBRVS] of physician payment. As many of my colleagues will remember, landmark physician payment reform was enacted as part of OBRA '89 just last December. This new law provides for an orderly transition to new payment levels over a 5-year phase-in period beginning January 1, 1992.

Unfortunately, the final reconciliation bill imposed balance billing limits of 125 percent of the local prevailing—or a physician's MAAC, whichever is less—on all Medicare services starting this January 1, 1991—1 full year before implementation of the RBRVS begins. What does this mean for your physician constituents who treat this Nation's elderly? Basically it means that those physicians that have the lowest reimbursement will be penalized for keeping health care costs down. Is that what we intended? I don't believe so.

By design, the RBRVS was to reallocate reimbursement toward historically undervalued services and geographic areas. Congress deliberately chose a 5-year transition period to avoid abrupt cuts in certain services and to ensure continued Medicare patient access. If left unchanged, the 1991

limits will completely short-circuit the safeguards of the 5-year phase-in. Specifically, the 1991 balance billings limits the lower revenues significantly for many medical services actually scheduled for increases in 1992 under the RBRVS. The results will be particularly harsh where fees for service are now far below the predicted national prevailing rate of the RBRVS, and the problem is not restricted to just one or two specialties.

For instance: in my state of South Carolina, the average practice will lose $1,400. In the neighboring State of North Carolina, the same practices will lose up to $4,000. In Kansas, significant reductions will result in several historically low-paying carrier locales and for some specialists, e.g. anesthesiology. In Wyoming, 17 percent of medical practices will face over $10,000 loss in 1 year!

Mr. President, I ask unanimous consent to include in the record a table of differences by CPT code between current MAAC's and a limitation at 125 percent of the prevailing and excerpts from letters from physicians in Greenville, SC, and Farmington, ME, which demonstrate the impact of those losses on a practice when volume is taken into account.

Mr. President, there simply is no need to cause additional disruption in physician reimbursement for 1 year when we have taken action to correct long-standing problems. My bill is modest in scope and will cause no additional revenue expenditure to the Federal Government. It calls for delaying the phase-in of balance billing restrictions until 1992. It merely will put physician payment reform back on the right track. This 1 year delay will keep faith with organized medicine's commitment to the RBRVS by not penalizing the very physicians the RBRVS was designed to assist.

I urge my colleagues to lend their full support to my measure.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 3015

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LIMITATION ON PHYSICIANS' ACTUAL CHARGES FOR UNASSIGNED CLAIMS.

(a) DELAY IN EFFECTIVE DATE OF LIMITATION ON PHYSICIANS' SERVICES.—Section 1848(g) of the Social Security Act (42 U.S.C. 1394w-4) is amended—

(1) in paragraph (1), by striking "1991" and inserting "1992";

(2) in paragraph (2)—

(A) in subparagraphs (A) and (B), by striking "1991" each place it appears and inserting "1992"; and

(B) in subparagraphs (B) and (C), by striking "1992" each place it appears and inserting "1993"; and

(3) by striking subparagraph (D) and inserting a new subparagraph (D) to read as follows:

"(D) RECOGNIZED PAYMENT AMOUNT.—In this section, the term 'recognized payment amount' means, for services furnished after January 1, 1992, the fee schedule amount determined under subsection (a).".

By Mr. JOHNSTON (for himself and Mr. MCCLURE):

S. 3017. A bill to amend section 28(w) of the Mineral Leasing Act of 1920, as amended, to repeal the 60-day waiting period for the granting of pipeline rights of way; to the Committee on Energy and Natural Resources.

REPEAL OF WAITING PERIOD FOR PIPELINE RIGHTS-OF-WAY

● Mr. JOHNSTON. Mr. President, on behalf of Senator MCCLURE and myself, today I am introducing legislation to remove an unnecessary, and at times very costly, procedural roadblock to the issuance of rights-of-way for the construction of pipeline projects that cross Federal Lands. This bill would repeal the requirement under section 28 of the Mineral Leasing Act that no right-of-way for a pipeline 24 or more inches in diameter may be granted until 60 days after the agency head has notified the Senate Committee on Energy and Natural Resources and the House Committee on Interior and Insular Affairs of his intention to grant the right-of-way.

The delay created by this provision can be much longer than 60 days. This is because under section 28 the 60 days does not include "days on which the House of Representatives of the Senate has adjourned for more than 3 days." For example, in a case where the Secretary of the Interior provides the congressional committees with notice of his intention to grant a right-

of-way in late June the waiting period would likely last more than 100 calendar days due to the intervening Independence Day recess and August recess, which do not count for purposes of calculating the statutory 60-day period. An even more extreme example would occur where the Secretary provided the committees with notice in late September or early October and the Congress adjourned in mid-October and did not reconvene until January of the following year. In that case it would take at least 5 months for the statutory waiting period to expire.

Under current law, section 28 provides that the Senate Energy Committee and the House Interior Committee may by committee resolution waive the waiting period. This provision, however, is not satisfactory, because the Department of the Interior has in the past stated that it would consider a waiver by committee resolution to be legally ineffective and would wait the full 60 days of congressional session before granting a right-of-way.

In 1985, the then Solicitor of the Department of the Interior provided me with his legal opinion that under the Supreme Court's 1983 invalidation of the legislative veto in INS against Chadha the committee waiver provision of section 28 of the Mineral Leasing Act is an unconstitutional legislative veto provision. The Solicitor added that, nothwithstanding the invalidity of the waiver provision, the statutory waiting period would still be applicable.

While I disagree with the Solicitor's legal opinion and believe that the weight of legal precedent and analysis support my position, the point remains that the Department of the Interior may continue to adhere to the position that it is legally obligated to disregard committee resolutions to waive the waiting period. In that event, the only choice for the Congress, short of amending section 28, is legislation passed by both Houses of the Congress to authorize the immediate granting of a right-of-way for a particular pipeline project notwithstanding the generally applicable statutory waiting perood. This is not a practical alternative.

The 60-day waiting period serves no useful purpose. It does not confer additional rights upon parties interested in an agency's consideration of a right-of-way application. It does not, without further action by the full Congress, prevent the agency head from granting the right-of-way upon the expiration of the waiting period. Furthermore, repeal of the waiting period does not deprive the Congress of notice and the opportunity to act in response to an application for a right-of-way to construct a pipeline that will cross Federal lands. Repeal of the 60-day waiting period does not relieve the agency head of the obligation under section 28 to provide the committees with notice of the receipt of an application for a right-of-way for a pipeline 24 inches or more in diameter.

While the statutory waiting period under section 28 serves no clearly identifiable public policy, it does frustrate the achievement of energy policy goals. First, the waiting period thwarts efforts by the Federal Energy Regulatory Commission to expedite the regulatory approval and construction of new natural gas pipelines. The FERC has attempted to minimize regulatory obstacles to increased competition in the natural gas industry. To this end, the FERC has done its best within the existing statutory framework to expedite the certification of new pipeline facilities.

This year, for example, the completion of several pipeline projects designed to increase natural gas deliverability for the upcoming winter heating season has been jeopardized by the mandatory waiting period under section 28. Such increased gas deliverability could help to prevent a recurrence of last December's heating fuel crunch in some regions of the country. In most cases, the construction permits for the pipelines are conditioned to limit the period during which construction may occur so as to minimize environmental disturbance. Should the construction period for the pipeline run out prior to the expiration of the statutory waiting period for granting the right-of-way, the pipeline company might have to wait until the next calendar year before constructing the pipeline.

Second, the waiting period frustrates the Nation's energy policy response to the Persian Gulf crisis. One of the short-term initiatives announced by the Department of Energy has been the displacement of imported oil with domestic natural gas in facilities with dual fuel capability. In many cases such displacement will not occur year-round unless new pipelines can be constructed to serve capacity-constrained markets.

In conclusion, Mr. President, I urge the quick passage of this modest but nonetheless very constructive legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3017

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled,

SECTION 1. REPEAL OF WAITING PERIOD.

(a) Section 28(w)(1) of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185(w)(1)), is amended by striking "House and Senate Committees on Interior and Insular Affairs" and inserting in lieu thereof "House Committee on Interior and Insular Affairs and the Senate Committee on Energy and Natural Resources".

(b) Section 28(w)(2) of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185(w)(2)), is amended to read as follows:

"(2) The Secretary or agency head shall notify the House Committee on Interior and Insular Affairs and the Senate Committee on Energy and Natural Resources promptly upon receipt of an application for a right-of-way for a pipeline twenty-four inches or more in diameter, and no right-of-way for such a pipeline shall be granted until a notice of intention to grant the right-of-way, together with the Secretary's or agency head's detailed findings as to terms and conditions he proposes to impose, has been submitted to such committees."●

ADDITIONAL COSPONSORS

S. 38

At the request of Mr. WILSON, the name of the Senator from Michigan [Mr. LEVIN] was added as a cosponsor of S. 38, a bill to make long-term care insurance available to civilian Federal employees, and for other purposes.

S. 190

At the request of Mr. EXON, his name was added as a cosponsor of S. 190, a bill to amend section 3104 of title 38, United States Code, to permit certain service-connected disabled veterans who are retired members of the Armed Forces to receive compensation concurrently with retired pay without reduction in the amount of the compensation and retired pay.

S. 260

At the request of Mr. CONRAD, his name was added as a cosponsor of S. 260, a bill to amend the Internal Revenue Code of 1986 to make the exclusion from gross income of amounts paid for employee educational assistance programs.

S. 273

At the request of Mr. HEINZ, the name of the Senator from Nevada [Mr. REID] was added as a cosponsor of S. 273, a bill to amend title 39, United States Code, to designate as nonmailable matter of solicitations of donations which could reasonably be misconstrued as a bill, invoice, or statement of account due, solicitations for the purchase of products or services which are provided either free of charge or at a lower price by the Federal Government connection or endorsement, unless such matter contains an appropriate, conspicuous disclaimer, and for other purposes.

S. 435

At the request of Mr. REID, the name of the Senator from Washington [Mr. ADAMS] was added as a cosponsor of S. 435, a bill to amend section 118 of the Internal Revenue Code to provide for certain exceptions from certain rules determining contributions in aid of construction.

S. 563

At the request of Mr. EXON, his name was added as a cosponsor of S. 563, a bill to amend section 3104 of title 38, United States Code, to permit certain service-connected disabled veterans who are retired members of the Armed Forces to receive retired pay concurrently with disability compensation after a reduction in the amount of retired pay.

S. 685

At the request of Mr. METZENBAUM, the name of the Senator from Massachusetts [Mr. KERRY] was added as a cosponsor of S. 685, a bill to amend title I of the Employee Retirement Income Security Act of 1974 to clarify the applicability of rules relating to fiduciary duties in relation to plan assets of terminated pension plans and to provide for an explicit exception to such rules for employer reversions meeting certain requirements.

S. 891

At the request of Mr. REID, the name of the Senator from Wisconsin [Mr. KASTEN] was added as a cosponsor of S. 891, a bill to provide for the modernization of testing of consumer products which contain hazardous or toxic substances.

S. 1126

At the request of Mr. BUMPERS, the name of the Senator from South Dakota [Mr. DASCHLE] was added as a cosponsor of S. 1126, a bill to provide for the disposition of hardrock minerals on Federal lands, and for other purposes.

S. 1273

At the request of Mr. BOREN, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of S. 1273, a bill to amend the Internal Revenue Code of 1986 with respect to treatment by cooperatives of gains or losses from sale of certain assets.

S. 1349

At the request of Mr. PRYOR, the name of the Senator from Washington [Mr. GORTON] was added as a cosponsor of S. 1349, a bill to amend the Internal Revenue Code of 1986 to exclude small transactions and to make certain clarifications relating to broker reporting requirements.

S. 1619

At the request of Mr. BOSCHWITZ, the name of the Senator from Wyoming [Mr. SIMPSON] was added as a cosponsor of S. 1619, a bill to amend the Internal Revenue Code of 1986 to reduce the occupational tax on small retail liquor and beer dealers, and for other purposes.

S. 1651

At the request of Mr. MCCAIN, the names of the Senator from Florida [Mr. MACK], the Senator from Maryland [Mr. SARBANES], the Senator from Kansas [Mrs. KASSEBAUM], the Senator from Pennsylvania [Mr. SPECTER], the Senator from West Virginia [Mr. BYRD], the Senator from Massachusetts [Mr. KERRY], the Senator from Illinois [Mr. SIMON], the Senator from Indiana [Mr. COATS], the Senator from Alabama [Mr. HEFLIN], the Senator from Ohio [Mr. METZENBAUM], the Senator from South Carolina [Mr. HOLLINGS], the Senator from Texas [Mr. GRAMM], the Senator from Colorado [Mr. WIRTH], the Senator from Nevada [Mr. REID], the Senator from Maryland [Ms. MIKULSKI], the Senator from Illinois [Mr. DIXON], the Senator from Minnesota [Mr. DURENBERGER], and the Senator from South Dakota [Mr. PRESSLER] were added as cosponsors of S. 1651, a bill to require the Secretary of the Treasury to mint coins in commemoration of the 50th anniversary of the United States Organization.

At the request of Ms. MIKULSKI, the names of the Senator from Wyoming [Mr. WALLOP], the Senator from New York [Mr. MOYNIHAN], the Senator from Idaho [Mr. SYMMS], the Senator from Flordia [Mr. GRAHAM], the Senator from Alabama [Mr. SHELBY], and the Senator from Wisconsin [Mr. KOHL] were added as cosponsors of S. 1651, supra.

S. 1682

At the request of Mr. BENTSEN, the name of the Senator from Hawaii [Mr. AKAKA] was added as a cosponsor of S. 1682, a bill to amend the Internal Revenue Code of 1986 to encourage savings by increasing the amount of deductible contributions which may be made to an individual retirement account, to allow distributions from individual retirement accounts to be used without penalty to purchase a first home or to pay for higher education expenses, and for other purposes.

S. 1758

At the request of Mr. GLENN, the name of the Senator from South Dakota [Mr. DASCHLE] was added as a cosponsor of S. 1758, a bill to provide for the establishment of an Office for Small Government advocacy, and for other purposes.

S. 1815

At the request of Mr. BOSCHWITZ, the name of the Senator from Iowa [Mr. GRASSLEY] was added as a cosponsor of S. 1815, a bill to amend the Internal Revenue Code of 1986 to exclude the imposition of employer social security taxes on cash tips.

S. 1860

At the request of Mr. BOREN, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 1860, a bill to amend title 38, United States Code, to require the Secretary of Veterans Affairs to furnish outpatient medical services for any disability of a former prisoner of war.

S. 1884

At the request of Mr. GORE, the names of the Senator from Indiana [Mr. LUGAR], the Senator from North Dakota [Mr. CONRAD], and the Senator from Maryland [Ms. MIKULSKI] were added as cosponsors of S. 1884, a bill to promote the use of recycled materials derived from municipal refuse, and for other purposes.

S. 1890

At the request of Mr. SASSER, his name was added as a cosponsor of S. 1890, a bill to amend title 5, United States Code, to provide relief from certain inequities remaining in the crediting of National Guard technician service in connection with civil service retirement, and for other purposes.

S. 1911

At the request of Mr. CONRAD, his name was added as a cosponsor of S. 1911, a bill to provide assistance in the development of new or improved programs to help younger individuals through grants to the States for community planning, services, and training; to establish within the Department of Health and Human Services an operation agency to be designated as the Administration on Children, Youth, and Families; to provide for a White House Conference on Young Americans; and for other purposes.

S. 2044

At the request of Mr. BIDEN, the names of the Senator from Massachusetts [Mr. KENNEDY] and the Senator from Massachusetts [Mr. KERRY] were added as cosponsors of S. 2044, a bill to require tuna products to be labeled respecting the method used to catch the tuna, and for other purposes.

S. 2128

At the request of Mr. KERRY, the name of the Senator from South Dakota [Mr. DASCHLE] was added as a cosponsor of S. 2128, a bill to direct the Secretary of Veterans Affairs to establish and maintain a comprehensive services program for homeless veterans.

S. 2250

At the request of Mr. DECONCINI, the names of the Senator from Iowa [Mr. GRASSLEY] and the Senator from South Dakota [Mr. DASCHLE] were added as cosponsors of S. 2250, a bill to amend title 5, United States Code, with respect to setting rates of basic pay for law enforcement officers, and for other purposes.

S. 2290

At the request of Mr. HEINZ, the name of the Senator from Arkansas [Mr. PRYOR] was added as a cosponsor of S. 2290, a bill to amend titles II and XVI of the Social Security Act to improve widow's and windower's eligibility for insurance benefits and children's eligibility for supplemental security income benefits.

S. 2307

At the request of Mr. RIEGLE, the name of the Senator from North Dakota [Mr. CONRAD] was added as a

cosponsor of S. 2307, a bill to require the Secretary of Health and Human Services to provide intensive outreach and other services and protections to homeless individuals.

S. 2312

At the request of Mr. SYMMS, the name of the Senator from Massachusetts [Mr. KERRY] was added as a cosponsor of S. 2312, a bill to amend the Internal Revenue Code of 1986 to exclude from gross income payments made by public utilities to customers to subsidize the cost of energy and water conservation services and measures.

S. 2334

At the request of Mr. CONRAD, his name was added as a cosponsor of S. 2334, a bill to expand the U.S. Department of Agriculture's low input sustainable agriculture research and education programs, and to provide biotechnology risk assessment research, and for other purposes.

S. 2346

At the request of Mr. REID, the name of the Senator from California [Mr. CRANSTON] was added as a cosponsor of S. 2346, a bill to prohibit certain practices in the raising of calves, and for other purposes.

S. 2356

At the request of Mr. SYMMS, the names of the Senator from Washington [Mr. ADAMS], and the Senator from Alabama [Mr. SHELBY] were added as cosponsors of S. 2356, a bill to amend the Internal Revenue Code of 1986 to allow tax-exempt organizations to establish cash and deferred pension arrangements for their employees.

S. 2366

At the request of Mr. BOND, the name of the Senator from Rhode Island [Mr. PELL] was added as a cosponsor of S. 2366, a bill to encourage States to establish parents as Teachers programs.

S. 2415

At the request of Mr. DOMENICI, the name of the Senator from Maine [Mr. MITCHELL] was added as a cosponsor of S. 2415, a bill to encourage solar and geothermal power production by removing the size limitations contained in the Public Utility Regulatory Act of 1978.

S. 2426

At the request of Mr. CONRAD, his name was added as a cosponsor of S. 2426, a bill to authorize the President to designate a private nonprofit foundation as eligible to receive funds for the purpose of promoting community tree planting and cultivation projects, to authorize the Secretary of Agriculture to establish a rural tree planting program and a community tree planning program, and for other purposes.

S. 2465

At the request of Mr. GRASSLEY, the names of the Senator from Indiana [Mr. COATS], the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from North Carolina [Mr. HELMS], the Senator from Ohio [Mr. METZENBAUM], and the Senator from Missouri [Mr. BOND] were added as cosponsors of S. 2465, a bill to provide a new civil cause of action in Federal law for acts of international terrorism that provides extraterritorial jurisdiction over terrorist acts abroad against U.S. nationals.

S. 2509

At the request of Mr. PRYOR, the name of the Senator from Oregon [Mr. HATFIELD] was added as a cosponsor of S. 2509, a bill to improve the nutrition of elderly Americans, and for other purposes.

S. 2591

At the request of Mr. BAUCUS, the names of the Senator from North Carolina [Mr. HELMS], the Senator from Nebraska [Mr. KERREY], the Senator from South Dakota [Mr. DASCHLE], the Senator from South Dakota [Mr. PRESSLER], the Senator from North Dakota [Mr. CONRAD], and the Senator from Missouri [Mr. BOND] were added as cosponsors of S. 2591, a bill to amend title XVIII of the Social Security Act to provide relief from certain regulations relating to physicians' services.

S. 2602

At the request of Mr. METZENBAUM, the name of the Senator from West Virginia [Mr. ROCKEFELLER] was added as a cosponsor of S. 2602, a bill to amend the Public Health Service Act to provide assistance for biomedical and health services research, treatment programs and for other purposes relating to Alzheimer's disease and related disorders.

S. 2619

At the request of Mr. GLENN, the name of the Senator from Massachusetts [Mr. KERRY] was added as a cosponsor of S. 2619, a bill to amend title XVIII of the Social Security Act to provide for coverage of bone mass measurements for certain individuals under part B of the Medicare Program.

S. 2640

At the request of Mr. DASCHLE, the names of the Senator from Arkansas [Mr. BUMPERS], the Senator from Delaware [Mr. BIDEN], and the Senator from Washington [Mr. ADAMS] were added as cosponsors of S. 2640, a bill to amend title XVIII of the Social Security Act to prevent fraud and abuse and encourage competition in the sale of Medicare supplemental insurance.

S. 2641

At the request of Mr. RIEGLE, the names of the Senator from Hawaii [Mr. AKAKA] and the Senator from Arkansas [Mr. BUMPERS] were added as cosponsors of S. 2641, a bill to amend title XVIII of the Social Security Act to provide for simplification in the purchase of Medicare supplemental insurance.

S. 2672

At the request of Mr. THURMOND, the names of the Senator from Washington [Mr. ADAMS] and the Senator from Florida [Mr. GRAHAM] were added as cosponsors of S. 2672, a bill to establish a U.S. Marshals Foundation.

S. 2688

At the request of Mr. GRAHAM, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of S. 2688, a bill to amend section 21B of the Federal Home Loan Bank Act to provide for Resolution Funding Corporation borrowing from the Treasury.

S. 2766

At the request of Mr. MCCAIN, the name of the Senator from Indiana [Mr. COATS] was added as a cosponsor of S. 2766, a bill to provide for the restoration of certain Medicare catastrophic benefits, plus addition of colon cancer screening benefit.

S. 2767

At the request of Mr. MCCAIN, the name of the Senator from Indiana [Mr. COATS] was added as a cosponsor of S. 2767, a bill to provide for retention of certain Medicare catastrophic benefits provided by health maintenance organizations.

S. 2813

At the request of Mr. GRAHAM, the names of the Senator from Colorado [Mr. WIRTH], the Senator from Colorado [Mr. ARMSTRONG], and the Senator from Iowa [Mr. GRASSLEY] were added as cosponsors of S. 2813, a bill to authorize the minting of commemorative coins to support the training of American athletes participating in the 1992 Olympic games.

S. 2819

At the request of Mr. MOYNIHAN, the name of the Senator from Minnesota [Mr. DURENBERGER] was added as a cosponsor of S. 2819, a bill to amend title XVIII of the Social Security Act to provide coverage of services rendered by community mental health centers as partial hospitalization services, and for other purposes.

S. 2836

At the request of Mr. MITCHELL, the name of the Senator from Ohio [Mr. GLENN] was added as a cosponsor of S. 2836, a bill to deny the People's Republic of China nondiscriminatory—most-favored-nation—trade treatment.

S. 2840

At the request of Mr. GLENN, the names of the Senator from Michigan [Mr. LEVIN] and the Senator from New Jersey [Mr. BRADLEY] were added as cosponsors of S. 2840, a bill to improve the management of the Federal

Government by establishing a Deputy Director for Management in the Office of Management and Budget; by establishing a chief financial officer of the United States who shall be in the Office of Management and Budget; by requiring the development of systems that provide complete, accurate and timely financial information; by increasing financial discipline and accountability by requiring independently audited agency financial statements; and for other purposes.

S. 2843

At the request of Mr. DURENBERGER, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 2843, a bill to amend title XIX of the Social Security Act to clarify that States may use a more liberal methodology in determining income and resource eligibility under medicaid for certain medically needy individuals.

S. 2850

At the request of Mr. MCCAIN, the name of the Senator from North Dakota [Mr. BURDICK] was added as a cosponsor of S. 2850, a bill to authorize demonstration projects in connection with providing health services to Indians.

S. 2873

At the request of Mr. BOSCHWITZ, the names of the Senator from Idaho [Mr. SYMMS], the Senator from Wyoming [Mr. WALLOP], and the Senator from Indiana [Mr. COATS] were added as cosponsors of S. 2873, a bill to provide for treatment of Federal pay in the same manner as non-Federal pay with respect to garnishment and similar legal process.

S. 2885

At the request of Mr. KASTEN, the names of the Senator from Maine [Mr. COHEN] and the Senator from Washington [Mr. GORTON] were added as cosponsors of S. 2885, a bill to amend the Federal Deposit Insurance Act to require States in which the failure of State chartered savings associations has involved a disproportionately large share of the thrift resolution costs to pay a State thrift deposit insurance premium as a condition of future Federal deposit insurance.

S. 2893

At the request of Mr. LIEBERMAN, the name of the Senator from Washington [Mr. ADAMS] was added as a cosponsor of S. 2893, a bill to facilitate and assist in the economic adjustment and industrial diversification of workers, communities, and businesses adversely affected by the termination or reduction of defense contracts or the realignment or closure of defense facilities.

S. 2904

At the request of Mr. INOUYE, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of S. 2904, a bill to require the Secretary of Commerce to make additional frequencies available for commercial assignment in order to promote the development and use of new telecommunications technologies, and for other purposes.

S. 2924

At the request of Mr. MITCHELL, the name of the Senator from Idaho [Mr. SYMMS] was added as a cosponsor of S. 2924, a bill to expand the meat inspection programs of the United States by establishing a comprehensive inspection program to ensure the quality and wholesomeness of all fish products intended for human consumption in the United States, and for other purposes.

S. 2959

At the request of Mr. HEINZ, the name of the Senator from Maine [Mr. COHEN] was added as a cosponsor of S. 2959, a bill to amend the Railroad Retirement Solvency Act of 1983 to extend for 2 years the transfer to the Railroad Retirement Account of income tax revenues from tier 2 benefits.

S. 2961

At the request of Ms. MIKULSKI, the names of the Senator from Ohio [Mr. GLENN] and the Senator from Wisconsin [Mr. KOHL] were added as cosponsors of S. 2961, a bill to amend the Public Health Service Act to promote greater equity in the delivery of health care services to women through expanded research on women's health issues, improved access to health care services, and the development of disease prevention activities responsive to the needs of women, and for other purposes.

SENATE JOINT RESOLUTION 12

At the request of Mr. THURMOND, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of Senate Joint Resolution 12, a joint resolution proposing an amendment to the Constitution relating to a Federal balanced budget.

SENATE JOINT RESOLUTION 272

At the request of Mr. COCHRAN, the names of the Senator from Wisconsin [Mr. KASTEN], the Senator from South Carolina [Mr. THURMOND], the Senator from Louisiana [Mr. JOHNSTON], the Senator from Georgia [Mr. FOWLER], the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from West Virginia [Mr. ROCKEFELLER], the Senator from Alabama [Mr. SHELBY], the Senator from Rhode Island [Mr. CHAFEE], the Senator from South Carolina [Mr. HOLLINGS], the Senator from Louisiana [Mr. BREAUX], the Senator from Vermont [Mr. JEFFORDS], the Senator from Tennessee [Mr. GORE], the Senator from Nevada [Mr. REID], the Senator from North Dakota [Mr. BURDICK], the Senator from Wyoming [Mr. WALLOP], the Senator from Arizona [Mr. MCCAIN], the Senator from Pennsylvania [Mr. SPECTER], the Senator from Florida [Mr. MACK], the Senator from Idaho [Mr. SYMMS], the Senator from Florida [Mr. GRAHAM], the Senator from North Carolina [Mr. SANFORD], the Senator from Rhode Island [Mr. PELL], and the Senator from Tennessee [Mr. SASSER] were added as cosponsors of Senate Joint Resolution 272, a joint resolution to designate March 30, 1990, as "National Doctor's Day."

SENATE JOINT RESOLUTION 305

At the request of Mr. THURMOND, the names of the Senator from Washington [Mr. ADAMS], the Senator from Florida [Mr. MACK], the Senator from Hawaii [Mr. INOUYE], the Senator from Georgia [Mr. FOWLER], the Senator from North Carolina [Mr. HELMS], the Senator from Alaska [Mr. STEVENS], the Senator from Texas [Mr. BENTSEN], and the Senator from Alaska [Mr. MURKOWSKI] were added as cosponsors of Senate Joint Resolution 305, a joint resolution to designate the month of September 1990, as "National Awareness Month of Children with Cancer."

SENATE JOINT RESOLUTION 309

At the request of Mr. BIDEN, the name of the Senator from Missouri [Mr. DANFORTH] was added as a cosponsor of Senate Joint Resolution 309, a joint resolution designating the month of October 1990 as "Crime Prevention Month."

SENATE JOINT RESOLUTION 329

At the request of Mr. KASTEN, the names of the Senator from Pennsylvania [Mr. SPECTER] and the Senator from Minnesota [Mr. BOSCHWITZ] were added as cosponsors of Senate Joint Resolution 329, a joint resolution to designate the week of June 17, 1990, through June 23, 1990, as "National Week To Commemorate the Victims of the Famine in Ukraine, 1932-1933," and to commemorate the Ukrainian famine of 1932-1933 and the policies of Russification to suppress Ukrainian identity.

SENATE JOINT RESOLUTION 344

At the request of Mr. THURMOND, the names of the Senator from Louisiana [Mr. BREAUX] and the Senator from Delaware [Mr. ROTH] were added as cosponsors of Senate Joint Resolution 344, a joint resolution to designate the week of November 18 through 24, 1990, as "National Wild Turkey Week" and November 22, 1990, as "National Wild Turkey Day."

SENATE JOINT RESOLUTION 346

At the request of Mr. BOSCHWITZ, the names of the Senator from Minnesota [Mr. DURENBERGER], the Senator from Missouri [Mr. BOND], the Senator from Alabama [Mr. HEFLIN], the Senator from North Dakota [Mr. BURDICK], the Senator from Georgia [Mr. FOWLER], the Senator from South Carolina [Mr. THURMOND], the Senator from Utah [Mr. HATCH], the Senator from Vermont [Mr. JEFFORDS], the

Senator from Idaho [Mr. MCCLURE], the Senator from Tennessee [Mr. SASSER], the Senator from Kansas [Mr. DOLE], the Senator from Mississippi [Mr. COCHRAN], the Senator from Wisconsin [Mr. KASTEN], the Senator from Utah [Mr. GARN], the Senator from New Mexico [Mr. DOMENICI], the Senator from Florida [Mr. GRAHAM], the Senator from Washington [Mr. GORTON], the Senator from Iowa [Mr. GRASSLEY], the Senator from North Dakota [Mr. CONRAD], the Senator from California [Mr. WILSON], the Senator from Kansas [Mrs. KASSEBAUM], the Senator from Connecticut [Mr. DODD], the Senator from Illinois [Mr. SIMON], the Senator from Pennsylvania [Mr. SPECTER], the Senator from Connecticut [Mr. LIEBERMAN], the Senator from Kentucky [Mr. MCCONNELL], the Senator from Hawaii [Mr. INOUYE], the Senator from Nevada [Mr. REID], the Senator from Ohio [Mr. METZENBAUM], the Senator from New York [Mr. D'AMATO], the Senator from New York [Mr. MOYNIHAN], the Senator from Indiana [Mr. LUGAR], the Senator from Maine [Mr. COHEN], the Senator from Alaska [Mr. STEVENS], the Senator from Georgia [Mr. NUNN], the Senator from Arkansas [Mr. BUMPERS], the Senator from Tennessee [Mr. GORE], the Senator from Texas [Mr. BENTSEN], and the Senator from Montana [Mr. BAUCUS] were added as cosponsors of Senate Joint Resolution 346, a joint resolution to designate October 20 through 28, 1990, as "National Red Ribbon Week for a Drug-Free America."

SENATE JOINT RESOLUTION 349

At the request of Mr. D'AMATO, the name of the Senator from New Jersey [Mr. BRADLEY] was added as a cosponsor of Senate Joint Resolution 349, a joint resolution designating October 1990, as "Italian-American Heritage and Culture Month."

SENATE JOINT RESOLUTION 356

At the request of Mr. DOLE, the names of the Senator from Alaska [Mr. STEVENS], the Senator from North Carolina [Mr. HELMS], the Senator from North Dakota [Mr. BURDICK], the Senator from Montana [Mr. BURNS], the Senator from Rhode Island [Mr. CHAFEE], the Senator from Indiana [Mr. COATS], the Senator from New Mexico [Mr. DOMENICI], the Senator from Minnesota [Mr. DURENBERGER], the Senator from Tennessee [Mr. GORE], the Senator from Washington [Mr. GORTON], the Senator from Iowa [Mr. GRASSLEY], the Senator from Utah [Mr. HATCH], the Senator from Alabama [Mr. HEFLIN], the Senator from Hawaii [Mr. INOUYE], the Senator from Vermont [Mr. JEFFORDS], the Senator from Wisconsin [Mr. KASTEN], the Senator from Indiana [Mr. LUGAR], the Senator from Idaho [Mr. MCCLURE], the Senator from Tennessee [Mr. SASSER], the Senator from Idaho [Mr. SYMMS], the Senator from South Carolina [Mr. THURMOND], and the Senator from Virginia [Mr. WARNER] were added as cosponsors of Senate Joint Resolution 356, a joint resolution designating November 4 through 11, 1990, as "National Key Club Week."

SENATE JOINT RESOLUTION 359

At the request of Mr. D'AMATO, the names of the Senator from New Mexico [Mr. DOMENICI], the Senator from Ohio [Mr. GLENN], the Senator from Hawaii [Mr. INOUYE], the Senator from Washington [Mr. GORTON], the Senator from Alaska [Mr. STEVENS], the Senator from Indiana [Mr. COATS], the Senator from California [Mr. WILSON], the Senator from Tennessee [Mr. SASSER], the Senator from Illinois [Mr. DIXON], and the Senator from South Carolina [Mr. HOLLINGS] were added as cosponsors of Senate Joint Resolution 359, a joint resolution designating the week beginning September 16, 1990, as "Emergency Medical Services Week."

SENATE CONCURRENT RESOLUTION 52

At the request of Mr. HATFIELD, the name of the Senator from Hawaii [Mr. AKAKA], was added as a cosponsor of Senate Concurrent Resolution 52, a concurrent resolution to express the sense of the Congress that science, mathematics, and technology education should be a national priority.

SENATE CONCURRENT RESOLUTION 134

At the request of Mr. HEINZ, the name of the Senator from Minnesota [Mr. BOSCHWITZ] was added as a cosponsor of Senate Concurrent Resolution 134, a concurrent resolution expressing the sense of Congress concerning a 1991 White House Conference on Aging.

SENATE RESOLUTION 80

At the request of Mr. KASTEN, the name of the Senator from Hawaii [Mr. AKAKA] was added as a cosponsor of Senate Resolution 80, a resolution relating to legislation which would require interstate mail-order companies to impose State taxes on items mailed across State borders.

AMENDMENTS SUBMITTED

TREASURY, POSTAL SERVICE, EXECUTIVE OFFICE OF THE PRESIDENT, AND RELATED AGENCIES APPROPRIATIONS ACT, FISCAL YEAR 1991

MITCHELL (AND COHEN) AMENDMENT NO. 2611

Mr. DECONCINI (for Mr. MITCHELL, for himself and Mr. COHEN) proposed an amendment, which was subsequently modified, to the bill (H.R. 5241) making appropriations for the Treasury Department, the U.S. Postal Service, the Executive Office of the President, and certain independent agencies, for the fiscal year ending September 30, 1991, and for other purposes, as follows:

On page 18, line 16, strike "$160,000" and insert in lieu thereof, in italics: "$300,000".

On page 94, line 23, insert "(a)" after "SEC. 527". On page 95, line 3, strike "$200,000" and insert in lieu thereof, "$300,000".

On page 95, insert between lines 4 and 5 the following new subsection:

"(b) Funds appropriated for fiscal year 1991 for reimbursements for Presidential protection assistance authorized under Section 12 of the Presidential Protection Assistance Act of 1976 (18 U.S.C. 3056 note) shall be made available for any such reimbursements claimed during fiscal year 1990.".

GLENN (AND OTHERS) AMENDMENT NO. 2612

Mr. GLENN (for himself, Mr. ROTH and Mr. LAUTENBERG) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 94 between lines 19 and 20 add the following new section.

SEC. 526. SHORT TITLE.

This title may be cited as the "Federal Pay Reform Act of 1990".

TABLE OF CONTENTS

Sec. 701. Short title.

Subtitle D—Pay for Performance
Sec. 761. Policy.
Sec. 762. Pay-for-Performance Labor-Management Committee.
Sec. 763. Report to Congress.
Sec. 764. Effective date.
Subtitle E—Technical and Conforming Amendments
Sec. 771. Amendments to title 5, United States Code.
Sec. 772. Amendments relating to positions above GS-15.
Sec. 773. Amendments relating to the Administrative Office of the United States Courts Personnel.
Sec. 774. References to GS-16, 17, and 18 positions.
Sec. 775. Additional conforming amendments.
Sec. 776. Effective date.

Subtitle A—Federal Pay Comparability Reform and Locality-Based Pay Adjustments

SEC. 711. POLICY.

Section 5301 of title 5, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1) by inserting "within each pay area" after "work";

(B) in paragraph (2) by inserting "within each pay area" after "maintained"; and

(C) in paragraph (3) by striking out "pay rates for the same levels of work" and inserting in lieu thereof "and State and local government pay rates for the same levels of work within each pay area"; and

(2) in subsection (c)—

(A) in paragraph (2) by striking out "or" at the end thereof;

(B) in paragraph (3) by striking out the period and inserting in lieu thereof a semicolon and "and"; and

(C) by adding at the end thereof the following new paragraph:

"(4) chapter 54 of this title, relating to the performance management and recognition system.".

SEC. 712. LOCALITY-BASED ADJUSTMENTS.

Chapter 53 of title 5, United States Code, is amended by inserting after section 5301 the following new section:

"§ 5302. Locality-based adjustments

"(a) Locality-based pay adjustments shall be determined by the pay agent, referred to under section 5305, based on pay relative data determined by the Bureau of Labor Statistics under section 5305 for positions under statutory pay systems including professional, administrative, technical, clerical, and other positions (including law enforcement officers). The adjustments shall be paid in wage areas surveyed by the Bureau of Labor Statistics and shall apply to each employee in a statutory pay system as defined under section 5301(c) whose permanent duty station is within the boundaries of the applicable wage area. An employee whose permanent duty station is not located within the boundaries of wage area surveyed by the Bureau of Labor Statistics shall receive that locality-based pay adjustment, if any, payable to employees in the nearest wage locality.

"(b) For purposes of pay retention under section 5363 of this title, that portion of a pay rate based on locality-based adjustments shall not be a rate of basic pay, if an employee transfers to a locality with a differing locality-based pay rate. Locality-based pay rates shall be part of basic pay for all other purposes, including retirement, life insurance, lump-sum leave payments, and severance pay.".

SEC. 713. HIGHER MINIMUM RATES; PRESIDENTIAL AUTHORITY.

Section 5303 of title 5, United States Code, is amended to read as follows:

"§ 5303. Higher minimum rates; Presidential authority

"(a) Whenever the President finds that the Government's recruitment or retention efforts with respect to 1 or more occupations in 1 or more areas or locations are significantly handicapped, due to any of the circumstances described in subsection (b), he may establish for the areas or locations involved, with respect to individuals in positions paid under any of the pay systems referred to in subsection (c), higher minimum rates of basic pay for 1 or more grades or levels, occupational groups, series, classes, or subdivisions thereof, and may make corresponding increases in all step rates of the pay range for each such grade or level (including under an alternative pay schedule). However, a minimum rate so established may not exceed 160 percent of the minimum pay rate prescribed by statute (or established under an alternative pay schedule, if applicable) for the grade or level. The President may authorize the exercise of the authority conferred on him by this section by the Office of Personnel Management or, in the case of individuals not subject to the provisions of this title governing appointments in the competitive service, by such other agency as he may designate.

"(b) Authority under subsection (a) may be exercised if the Government's efforts to recruit or retain well-qualified individuals are significantly handicapped by—

"(1) the remoteness of the area or location involved;

"(2) the undesirability of the working conditions or the nature of the work involved (including exposure to toxic substances or other occupational hazards); or

"(3) any other circumstances which the President (or an agency duly authorized or designated by the President in accordance with the last sentence of subsection (a)) considers appropriate.

"(c) Authority under subsection (a) may be exercised with respect to positions paid under—

"(1) a statutory pay system; or

"(2) any other pay system established by or under Federal statute for civilian positions within the executive branch.

"(d) Within the limitations applicable under the preceding provisions of this section, rates of pay established under this section may be revised from time to time by the President or by such agency as he may designate. The actions and revisions have the force and effect of statute.

"(e) An increase in a rate of pay established under this section is not an equivalent increase in pay within the meaning of section 5335 and may not be considered part of basic pay of an employee.

"(f) The rate of basic pay established under this section and received by an individual immediately before a statutory increase, which becomes effective prior to, on, or after the date of enactment of the statute, in the pay schedule applicable to such individual of any pay system referred to in subsection (c), shall be initially adjusted, effective on the effective date of the statutory increase, under conversion rules prescribed by the President or by such agency as the President may designate.

"(g) The Office of Personnel Management may make appropriate locality-based adjustments under section 5302 for any position for which a rate of pay is established under this section, except any such adjustment may not exceed the minimum rate limitation under subsection (a).".

SEC. 714. PRESIDENTIAL POLICIES AND REGULATIONS.

Section 5304 of title 5, United States Code, is amended—

(1) by amending paragraph (1) to read as follows:

"(1) reviewing and reporting to the President biennially the comparison of Federal pay rates with pay rates in private enterprise and State and local governments;";

(2) in paragraph (2) by striking out "annual comparison" and inserting in lieu thereof "annual general adjustment and locality-based adjustments"; and

(3) in paragraph (4) by inserting "and State and local government" after "enterprise".

SEC. 715. ANNUAL GENERAL ADJUSTMENT AND LOCALITY-BASED ADJUSTMENTS.

(a) ADJUSTMENTS.—Section 5305 of title 5, United States Code, is amended by striking out subsections (a) through (k) and inserting in lieu thereof:

"(a)(1) In order to carry out the policy stated in section 5301 of this title, the President shall—

"(A) direct the Bureau of Labor Statistics to determine in each fiscal year the increase in wages or salaries as reflected by the employment cost index (wages and salaries, white-collar occupations excluding sales) based on information for the preceding 12-month period ending on September 30 of each year; and

"(B) direct the Bureau of Labor Statistics to determine pay relative data for each locality surveyed by examining a broad representation of positions in professional, administrative, technical, clerical, and other positions.

"(2) A pay relative shall be the average earnings in a locality expressed as a percentage of the average earnings in all wage areas combined. The wage areas surveyed shall be those areas determined by such agent as the President considers appropriate, in consultation with the Bureau of Labor Statistics and shall be limited to those areas located within the conterminous United States and shall not include Alaska, Hawaii, or areas outside the United States. Each wage area shall be surveyed at least once every 2 years.

"(b) No later than November 1 of each year, the Bureau of Labor Statistics shall submit a report of the determinations made under subsection (a) to the pay agent referred to under subsection (a).

"(c)(1) No later than December 31 of each year, the pay agent referred to under subsection (a) shall report to the President and the Congress the annual general adjustment which shall be that percentage adjustment to statutory pay rates which equals the increase in the employment cost index. The

pay agent shall also report locality adjustments necessary to reflect the pay relative data determined by the Bureau of Labor Statistics. No locality adjustment shall be reported for any wage area where the pay relative is 1.0 or less. Such adjustments shall be included in the budget next transmitted under section 1105(a) of title 31, United States Code by the President to the Congress after the date of the submission of the agent's report.

"(2) The employment cost index adjustment described under paragraph (1) shall be rounded to the nearest tenth of a percent. The locality-based adjustment described under paragraph (1) shall be rounded to the nearest tenth of a percent.

"(d) Except as provided in subsection (e) of this section, the President shall make adjustments in the rates of pay of each statutory pay system equal to the sum of the general annual adjustment and any locality-based adjustment figures as reported under subsection (c) of this section and in accordance with the principles of section 5301(a) of this title, effective as of the beginning of the first applicable pay period beginning on or after October 1 of the applicable year.

"(e) If the President determines that national emergency or serious economic conditions affecting the general welfare require that the annual general adjustment and the locality adjustments be held below the levels described in subsection (c), the President shall prepare and report that determination to the Congress in the budget transmittal described in subsection (c). In evaluating an economic condition affecting the general welfare under this subsection, the President shall consider pertinent economic measures including, but not limited to, the Indexes of Leading Economic Indicators, the Gross National Product, the unemployment rate, the budget deficit, the Consumer Price Index, the Producer Price Index, the Employment Cost Index, and the Implicit Price Deflator for Personal Consumption Expenditures. The President shall include in the report to Congress under this subsection his assessment of the impact that holding the general adjustment and the locality adjustments below the levels described in subsection (c) will have on the Government's ability to recruit and retain well-qualified employees.".

(b) REDESIGNATIONS.—Section 5305 of title 5, United States Code, is amended—

(1) by redesignating subsection (l) as subsection (f);

(2) by striking out subsection (m); and

(3) by redesignating subsections (n) through (r) as subsections (g) through (k), respectively.

SEC. 716. FEDERAL PAY COUNCIL.

Section 5306 of title 5, United States Code, is amended—

(1) by amending subsection (a) to read as follows:

"(a)(1) The President shall establish a Federal Pay Council of 9 members, of whom—

"(A) 3 shall be chosen from among persons generally recognized for their impartiality, knowledge, and experience in the field of labor relations and pay policy; and

"(B) 6 shall be representatives of employee organizations which represent substantial numbers of employees holding General Schedule positions, and who shall be selected with due consideration to such factors as the relative numbers of employees represented by the various organizations, except that not more than 3 members of the Council at any one time shall be from a single employee organization, council, federation, alliance, association, or affiliation of employee organizations.

"(2) Members of the Council who are not otherwise employees of the United States shall neither receive pay nor be considered to be employees by reason of service as such members.

"(3) The pay agent, referred to under section 5305, shall—

"(A) provide for meetings with the Council and give thorough consideration to the views and recommendations of the Council and the individual views and recommendations, if any, of the members of the Council regarding—

"(i) the establishment or modification of pay localities;

"(ii) the coverage of the annual survey conducted by the Bureau of Labor Statistics under section 5305(a) (including, but not limited to, the occupations, establishment sizes, and industries, to be surveyed, and how pay localities are to be surveyed); and

"(iii) the process of comparing the rates of pay payable under the General Schedule with rates of pay for the same levels of work performed by non-Federal workers;

"(B) give thorough consideration to the views and recommendations of employee organizations not represented on the Council regarding the subjects in subparagraph (A); and

"(C) include in its report to the President the views and recommendations submitted as provided in this subsection by the Council, by any member of the Council, and by employee organizations not represented on the Council.";

(2) by striking out subsection (b);

(3) by redesignating subsection (c) through (f) as subsections (b) through (e), respectively;

(4) in subsections (b) through (e) (as redesignated in paragraph (3)) by striking out "Committee" each place it appears and inserting in lieu thereof "Council" in each such place; and

(5) by striking out subsections (g) and (h) and inserting in lieu thereof:

"(f) The Council may appoint and fix the pay of such personnel as may be necessary to carry out its function, except such personnel may not exceed 20 persons. One such person may be an Executive Director whose rate of pay may not exceed the annual rate of basic pay of level V of the Executive Schedule.".

SEC. 717. PAY LIMITATION.

Section 5308 of title 5, United States Code, is amended to read as follows:

"§ 5308. Pay limitation

"Except for locality-based adjustments alone or in combination with rates set under section 5303, pay may not be paid, by reason of any provision of this subchapter, at a rate in excess of the rate of basic pay for level V of the Executive Schedule. Pay adjusted in accordance with this subchapter, including any locality-based adjustment, may not exceed the rate of basic pay for level II of the Executive Schedule.".

SEC. 718. CRITICAL-POSITION PAY AUTHORITY.

Subchapter I of chapter 53 of title 5, United States Code, is amended by adding at the end thereof the following new section:

"§ 5309. Critical-position pay authority

"(a) The Director of the Office of Personnel Management, in consultation with the Director of the Office of Management and Budget, may, from time to time, allocate and reallocate among the departments and agencies of the executive branch, critical-position pay authority for not to exceed a Government-wide total of 800 positions.

"(b) The head of an agency that receives an allocation of critical-position pay authority may exercise such authority for not to exceed the number of positions for which authority is received from the Director of the Office of Personnel Management under subsection (a).

"(c) For purposes of this section, 'critical-position pay authority' means the authority for the head of an agency, notwithstanding any other law, including any provision of this chapter, to fix the rate of basic pay for any position which such agency head determines to be a critical position at an annual rate that does not exceed the rate in effect for level I of the Executive Schedule, except that the aggregate annual amount paid (including any allowance, bonus, award, or other direct compensation) to an employee under this section during any fiscal year may not exceed the annual rate payable for positions at level I of the Executive Schedule in effect at the end of such fiscal year.

"(d) Critical-position pay authority for a position may be reexercised when a position becomes vacant and is refilled only upon a redetermination by the agency head that the position remains a critical position within the meaning of this section. Such authority may be reexercised only if the allocation made by the Director of the Office of Personnel Management required for such exercise under subsection (a) is reconfirmed by the Director of the Office of Personnel Management at the time of such reexercise.

"(e) In determining whether a position is a critical position to which this section shall apply, the head of the agency shall consider—

"(1) the extent to which the position requires expertise of an extremely high level in a scientific, technical, professional, or administrative field;

"(2) the extent to which additional compensation is necessary to recruit or retain exceptionally qualified individuals; and

"(3) the extent to which the position is critical to the agency's successful accomplishment of an important mission.

"(f)(1) The Office of Personnel Management shall establish a Critical Position Advisory Panel to make recommendations on—

"(A) the criteria that should be used to determine which positions should be critical positions; and

"(B) the qualifications that should be expected of individuals assigned to critical positions.

"(2) The panel shall be composed of members with exceptional expertise and experience in management, administration, and personnel matters.

"(g) On October 1 of each year, the Office of Personnel Management shall submit a report to the Congress listing all critical-pay positions in the Government.".

SEC. 719. REPORTS BY THE PAY AGENT.

(a) REPORT ON LOCALITY-BASED ADJUSTMENTS FOR CERTAIN EMPLOYEES.—Within 2 years after the date of the enactment of this title, the pay agent, referred to under section 5305 of title 5, United States Code, shall report to the President and the Congress on the feasibility of including within the scope of the locality-based adjustment plan those employees who are stationed outside the continental United States or in Alaska who receive allowances based on living costs and conditions of environment

under section 5941 of title 5, United States Code.

(b) REPORT ON ADJUSTMENTS RELATING TO EMPLOYMENT PERFORMANCE.—Within 2 years after the date of the enactment of this title, the pay agent referred to under section 5305 of title 5, United States Code, shall report to the President and the Congress on the feasibility of linking all or part of the annual adjustments and locality-based adjustments to the employee's on-the-job performance.

(c) REPORT ON OTHER PLANS.—Within 3 years following implementation of the pay increases for fiscal year 1992, the pay agent shall submit a plan to the President and the Congress to close any remaining differences in Federal pay in comparison with private enterprise and State and local government pay rates.

(d) REPORTS ON SEPARATE PAY SYSTEMS.—Within 2 years after the date of the enactment of this title, the pay agent shall report on the desirability of establishing separate pay systems for certain occupations.

(e) SPECIAL OCCUPATIONAL PAY SYSTEM.—Notwithstanding the provisions of subsection (d), the President's Pay Agent shall establish a special occupational pay system consistent with chapter 53 of title 5, United States Code, for law enforcement officer positions (as defined by the President's Pay Agent) that would otherwise be subject to chapter 51 of such title.

SEC. 720. IMPLEMENTATION.

In the implementation of the amendments made under this subtitle for the fiscal year beginning on October 1, 1991, the Bureau of Labor Statistics may use pay relative and locality data from commercially available sources, as necessary.

SEC. 721. EFFECTIVE DATE.

The provisions of this subtitle and amendments made by this subtitle shall take effect on October 1, 1990, and the annual general adjustment and any locality-based adjustments under such amendments shall take effect on the first applicable pay period beginning on or after October 1, 1991. The provisions of title 5, United States Code, (before the amendments made by this subtitle) shall apply for pay adjustments made under section 5305 of such title before October 1, 1991.

Subtitle B—Miscellaneous Federal Pay Reform Provisions

SEC. 731. EQUAL PAY PRINCIPLES.

Section 2301(b)(3) of title 5, United States Code, is amended by striking out "employers in the private sector" and inserting in lieu thereof "non-Federal employers".

SEC. 732. TIME OFF DUTY AS AN INCENTIVE AWARD.

Section 4502 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(e) The Office of Personnel Management may by regulation permit agencies to grant employees time off duty, without loss of pay or charge to leave, as an award in recognition of superior accomplishment or other personal effort that contributes to the quality, efficiency, or economy of Government operations. Such time off duty may not exceed 5 working days in any calendar year for any employee.".

SEC. 733. CLASSIFICATION OF GENERAL SCHEDULE POSITIONS ABOVE GS-15.

Section 5108 of title 5, United States Code, is amended—

(1) in the heading by striking out "at GS-16, 17, and 18" and inserting in lieu thereof "above GS-15";

(2) in subsection (a)—

(A) in clause (i) by striking out "GS-16, 17, and 18" and inserting in lieu thereof "a position above GS-15"; and

(B) in the sentence immediately following clause (iii) by striking out " in GS-16, 17, or 18," and inserting in lieu thereof "above GS-15,";

(3) in subsection (b)—

(A) in paragraph (1) by striking out "in GS-16, 17, and 18" and inserting in lieu thereof "above GS-15"; and

(B) in paragraph (2) by striking out "GS-16, 17, and 18" and inserting in lieu thereof "above GS-15"; and

(4) in subsection (c)—

(A) by striking out paragraph (1);

(B) by redesignating paragraph (2) as paragraph (1) and striking out "in GS-16, 17, and 18" and inserting in lieu thereof "above GS-15" in such paragraph; and

(C) by redesignating paragraph (3) as paragraph (2) and striking out "GS-16, 17, and 18" and inserting in lieu thereof "above GS-15" in such paragraph.

SEC. 734. RECRUITMENT AND RELOCATION BONUSES, RETENTION ALLOWANCES, AND SENIOR GENERAL SCHEDULE POSITIONS.

Chapter 53 of title 5, United States Code is amended by inserting after section 5309 (as added by section 718 of this title) the following new sections:

"§ 5310. Recruitment and relocation bonuses

"(a) The Office may authorize the head of an agency to pay a bonus to an employee who is newly appointed to a position under the General Schedule, or to an employee under the General Schedule or under any other pay authority in the executive, legislative, or judicial branch, who is required to relocate to accept a position under the General Schedule, if the Office determines that the agency would be likely, in the absence of such a bonus, to encounter difficulty in filling the position.

"(b)(1) The amount of a bonus under this section shall be determined by regulations of the Office, but may not exceed 25 percent of the annual rate of basic pay of the position to which the employee is being appointed or relocated.

"(2) Payment of a bonus under this section shall be contingent upon the employee entering into an agreement with the agency to complete a period of employment with the agency, with the required period determined pursuant to regulations of the Office. If the employee voluntarily fails to complete such period of service or is separated from the service before completion of such period of service for cause on charges of misconduct or delinquency, the employee shall repay the bonus on a pro rate basis.

"(3) A bonus under this section shall be paid as a lump sum, and may not be considered to be part of the basic pay of an employee.

"(4) Under regulations of the Office, a recruitment bonus may be paid to a newly-hired employee before the employee enters on duty.

"(c)(1) The Office shall prescribe such regulations as it considers necessary for the administration of this section.

"(2) If a labor organization representing employees of an agency under the General Schedule has been accorded exclusive recognition under section 7111 or has been granted national consultation rights under section 7113, the agency shall consult with that labor organization on any criteria the agency will use at the level of recognition for determining eligibility for and the amount of relocation bonuses under this section.

"§ 5310A. Retention allowances

"(a) The Office may authorize the head of an agency to pay an allowance to an employee under the General Schedule, if—

"(1) the unusually high or unique qualifications of the employee or a special need of the agency for the employee's services make it essential to retain the employee; and

"(2) the agency determines that the employee would be likely to leave in the absence of a retention allowance.

"(b)(1) A retention allowance, which shall be stated as a percentage of the rate of basic pay of the employee, may not exceed 25 percent of such rate of basic pay.

"(2) A retention allowance may not be considered to be part of the basic pay of an employee, and the reduction or elimination of a retention allowance may not be appealed.

"(3) A retention allowance shall be paid in the same manner and at the same time as the employee's basic pay is paid.

"(c)(1) The Office shall prescribe such regulations as it considers necessary for the administration of this section.

"(2) If a labor organization representing employees of an agency under the General Schedule has been accorded exclusive recognition under section 7111 or has been granted national consultation rights under section 7113, the agency shall consult with that labor organization on any criteria the agency shall use at the level of recognition in determining eligibility for and the amount of allowances under this section.

"§ 5310B. Pay for senior General Schedule positions

"(a)(1) This section applies to employees in—

"(A) positions that are classified above GS-15 under section 5108, but that are not—

"(i) Senior Executive Service positions under section 3132; or

"(ii) positions in the Federal Bureau of Investigation and the Drug Enforcement Administration Senior Executive Service under section 3151; and

"(B) scientific and professional positions established under section 3104.

"(2) An employee paid under this section shall not be covered by sections 5302, 5303, and 5304, but shall be subject to the other provisions of this subchapter.

"(b) Subject to regulations and criteria prescribed by the Office of Personnel Management, the head of an agency may set the rate of basic pay of a position to which this section applies at not less than 120 percent of the minimum rate for GS-15 nor more than the rate for level IV of the Executive Schedule.

"§ 5310C. Bar to judicial review

"There shall be no judicial review of matters entrusted to the discretion of the President, the pay agent, or the Office of Personnel Management under this subchapter or under section 5372 or 5382.".

SEC. 735. MINIMUM RATE FOR NEW APPOINTMENTS.

Section 5333(a) of title 5, United States Code, is amended by striking out "in GS-11 or above" and inserting in lieu thereof "in the General Schedule or other statutory pay system".

SEC. 736. PAY FOR ADMINISTRATIVE LAW JUDGES.

(a) IN GENERAL.—Section 5372 of title 5, United States Code, is amended to read as follows:

"§ 5372. Administrative law judges

"(a)(1) The President shall, in his sole discretion, establish and from time to time adjust 3 or more rates of basic pay for administrative law judges, of which the minimum rate may not be less than 120 percent of the minimum rate for GS-15, as in effect from time to time, and the maximum rate may not be more than the rate for level IV of the Executive Schedule, as in effect from time to time.

"(2) The rates of basic pay that are established and adjusted under this subsection shall be printed in the Federal Register and shall supersede any prior rates of basic pay for administrative law judges.

"(b) The Office of Personnel Management shall determine, in its sole discretion, at which rate of basic pay each administrative law judge shall be paid. In making such determination, the Office shall consider the complexity and variety of the cases assigned to the administrative law judge, and any administrative responsibilities of the administrative law judge, and may consider the administrative law judge's length of service as an administrative law judge. Notwithstanding section 1104(a)(2), this authority may not be delegated to the head of any agency.

"(c) The Office of Personnel Management shall prescribe such regulations as it considers necessary for the administration of this section.".

(b) LIMITATION ON PAY.—Section 5373 of title 5, United States Code, is amended by striking out "maximum rate for GS-18" and inserting in lieu thereof "rate for level IV of the Executive Schedule".

SEC. 737. SENIOR EXECUTIVE SERVICE PAY ADJUSTMENT CORRESPONDING TO GENERAL SCHEDULE PAY ADJUSTMENT.

Section 5382(c) of title 5, United States Code, is amended to read as follows:

"(c) Subject to subsection (b), effective at the beginning of the first applicable pay period commencing on or after the effective date of an adjustment in the rates of basic pay of the General Schedule or of the rates of pay of the Executive Schedule, each rate of basic pay for the Senior Executive Service shall be adjusted by an amount determined by the President in his sole discretion to be appropriate.".

SEC. 738. ADVANCES OF PAY.

Section 5522 of title 5, United States Code, is amended—

(1) by redesignating subsection (c) as subsection (d);

(2) by inserting after subsection (b) the following:

"(c) Under regulations prescribed by the Office of Personnel Management, an agency may provide for the advance payment of basic pay, covering not more than 2 pay periods, to any individual who is newly appointed to a position in the agency and who has to relocate to accept such appointment."; and

(3) in subsection (d), as redesignated, by striking out "subsection (a)" both times it occurs and inserting in lieu thereof "subsection (a) or (c)".

SEC. 739. PREMIUM PAY AMENDMENTS.

Subchapter V of chapter 55 of title 5, United States Code, is amended—

(1) in section 5542 by adding at the end thereof the following new subsection:

"(c) This section shall not apply to an employee who is subject to the overtime pay provisions of section 7 of the Fair Labor Standards Act of 1938. In the case of an employee who would, were it not for the preceding sentence, be subject to this section, hours of work in excess of 8 hours in a day shall be deemed to be overtime hours for the purposes of such section 7 and hours in a paid non-work status shall be deemed to be hours of work.";

(2) in section 5544 by adding at the end of subsection (a) "This section, other than the sixth sentence, shall not be applicable to an employee who is subject to the overtime pay provisions of section 7 of the Fair Labor Standards Act of 1938. In the case of an employee who would, were it not for the preceding sentence, be subject to this section, hours of work in excess of 8 hours in a day shall be deemed to be overtime hours for the purposes of such section 7 and hours in a paid non-work status shall be deemed to be hours of work.";

(3) in section 5545(d)—

(A) by striking out "irregular or intermittent"; and

(B) by amending paragraph (1) to read as follows:

"(1) may apply to an employee in a position which by its nature inherently involves physical hardship or hazard only if the Office determines such application to be appropriate; and"; and

(4) in section 5547 by amending subsection (b) to read as follows:

"(b)(1) Subject to regulations prescribed by the Office of Personnel Management, the provisions of the first sentence of subsection (a) shall not apply to an employee who is paid premium pay by reason of work on, or in support of, an emergency involving a direct threat to life or property, including a forest wildlife emergency.

"(2) Notwithstanding paragraph (1), no employee (other than an employee subject to the second sentence of subsection (a)) may be paid premium pay under sections 5542, 5545 (a), (b), and (c), and 5546 (a) and (b) to the extent that the aggregate of basic and premium pay for such employee for the aggregate of all pay periods in any calendar year would otherwise exceed the maximum annual rate of basic pay for GS-15 in effect at the end of such calendar year.".

SEC. 740. TRAVEL AND TRANSPORTATION EXPENSES FOR CANDIDATES AND NEW APPOINTEES.

Chapter 57 of title 5, United States Code, is amended—

(1) in section 5703—

(A) in the section heading by inserting after "pay" the following: "; interview expenses"; and

(B) by adding at the end thereof the following: "An individual being considered for employment by an agency may be paid travel or transportation expenses under this subchapter to travel to and from pre-employment interviews determined necessary by the agency.";

(2) in section 5723—

(A) in the section heading by striking out "; manpower shortage positions"; and

(B) in subsection (a) by amending paragraph (1) to read as follows:

"(1) travel expenses of a new appointee or a student trainee when assigned on completion of college work; and";

(3) by repealing section 5752; and

(4) in the table of sections for such chapter—

(A) by amending the item relating to section 5703 to read as follows:

"5703. Per diem, travel, and transportation expenses; experts and consultants; individuals serving without pay; interview expenses.";

(B) by amending the item relating to section 5723 to read as follows:

"5723. Travel and transportation expenses of new appointees and student trainees.";

and

(C) by striking out the item relating to section 5752.

SEC. 741. UNIFORM ALLOWANCES.

Subchapter I of chapter 59 of title 5, United States Code, is amended—

(1) in section 5901(a) by striking out "$125" each place it appears and inserting in lieu thereof "$400";

(2) by amending section 5902 to read as follows:

"§ 5902. Increase in maximum uniform allowances

"Notwithstanding section 5901, the Office of Personnel Management may from time to time, by regulation, adjust the maximum amount for the cost of uniforms and the maximum allowance for uniforms under section 5901, and such adjustment shall also adjust the amount prescribed under the first sentence of section 5901."; and

(3) by amending section 5903 to read as follows:

"§ 5903. Regulations

"The Office of Personnel Management may prescribe such regulations as it considers necessary for the administration of this subchapter.".

SEC. 742. EXTENSION OF PHYSICIANS COMPARABILITY ALLOWANCES.

Section 5948(d) of title 5, United States Code, is amended—

(1) by striking "September 30, 1990" and inserting in lieu thereof "September 30, 1995"; and

(2) by striking "September 30, 1992" and inserting in lieu thereof "September 30, 1997".

SEC. 743. REEMPLOYMENT OF RETIREES.

(a) CIVIL SERVICE RETIREMENT SYSTEM RETIREES.—Section 8344 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(i) The Director of the Office of Personnel Management may, at the request of the head of an Executive agency, waive the application of the provisions of this section on a case-by-case basis to fill vacancies in scientific, technical, professional, or administrative positions for which there is exceptional difficulty in recruiting qualified applicants. An employee to whom such waiver applies shall not be deemed an employee for the purposes of chapter 83 or 84 while such waiver is in effect. The Office shall prescribe regulations establishing criteria for the exercise of this authority.".

(b) FEDERAL EMPLOYEES RETIREMENT SYSTEM RETIREES.—Section 8468 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(f) The Director of the Office of Personnel Management may, at the request of the head of an Executive agency, waive the application of the provisions of this section on a case-by-case basis to fill vacancies in scientific, technical, professional, or administrative positions for which there is exceptional difficulty in recruiting qualified applicants. An employee to whom such waiver applies shall not be deemed an employee for the purposes of chapter 83 or 84 while such waiver is in effect. The Office shall prescribe regulations establishing criteria for the exercise of this authority.".

(c) ADMINISTRATION BY THE OFFICE OF PERSONNEL MANAGEMENT.—In the administration of the provisions of sections 8344(i) and

8468(f) of title 5, United States Code (as added by the amendments under this section) the Office of Personnel Management shall ensure that the combined number of waivers granted under such sections shall not apply to more than 1,250 positions at any time.

SEC. 744. COMPENSATION OF STANDING TRUSTEES APPOINTED UNDER TITLES 11 AND 28, UNITED STATES CODE.

(a) COMPENSATION.—Section 586(e)(1)(A) of title 28, United States Code, is amended to read as follows:

"(A) a maximum annual compensation for such individual consisting of—

"(i) an amount not to exceed the highest annual rate of basic pay in effect for level V of the Executive Schedule; and

"(ii) the cash value of employment benefits comparable to the employment benefits provided by the United States to individuals who are employed by the United States at the same rate of basic pay to perform similar services during the same period of time; and".

(b) APPLICATION TO ALL STANDING TRUSTEES.—The amendment made by subsection (a) shall apply to any trustee to whom the provisions of section 302(d)(3) of the Bankruptcy Judges, United States Trustees, and Family Farmer Bankruptcy Act of 1986 (Pub. Law 99-54; 100 Stat. 3121) apply.

SEC. 745. ADJUSTMENTS OF COMPENSATION IN PAY OF UNIFORMED SERVICES.

(a) Section 1009 of title 37, United States Code, is amended—

(1) by amending subsection (a) to read as follows:

"(a) Effective on October 1, 1991, and on the first day of October of each year thereafter, the President shall make an adjustment, by a percentage determined by the President, in the current rates of—

"(1) the monthly basic pay authorized members of the uniformed services pursuant to section 203(a) of this title;

"(2) the basic allowance for subsistence authorized members of the uniformed services pursuant to section 402 of this title; and

"(3) the basic allowance for quarters authorized members of the uniformed services pursuant to section 403(a) of this title.";

(2) in subsection (b) by striking out paragraphs (1), (2), and (3) and inserting in lieu thereof:

"(1) be based on the rates of the various elements of compensation as defined in, or made under, section 402 or 403 of this title, or this section; and

"(2) subject to subsections (c) and (d) of this section, provide all eligible members with the same overall percentage increase in each element of compensation set forth in subsection (a) of this section.";

(3) in subsections (c) (1) and (2) and subsection (d)(2)(A) by striking out "subsection (b)(3)" each place that it appears and inserting in lieu thereof "subsection (b)(2)";

(4) in subsection (d)(2)(B) by striking out "in the General Schedule rates of basic pay for civilian employees" and inserting in lieu thereof "described in subsection (b)(2) of this section"; and

(5) by adding at the end thereof the following new subsection:

"(g) Basic pay authorized for members of the uniformed services may not be paid at a rate in excess of the rate of basic pay payable for level V of the Executive Schedule under title 5.".

SEC. 746. COMPENSATION FOR AGENCY BOARDS OF CONTRACTS APPEALS.

Section 8(b) of the Contract Disputes Act of 1978 (41 U.S.C. 607(b)) is amended—

(1) in paragraph (1)—

(A) by striking out "GS-18 under the General Schedule contained in section 5332, United States Code," and inserting in lieu thereof "rate 6 in the Senior Executive Service established under section 5382 of title 5, United States Code,";

(B) by striking out "GS-17 under such General Schedule," and inserting in lieu thereof "rate 5 in the Senior Executive Service established under section 5382 of such title,";

(C) by striking out "GS-16 under such General Schedule" and inserting in lieu thereof "rate 4 in the Senior Executive Service established under section 5382 of such title"; and

(D) striking out the fifth sentence; and

(2) in paragraph (2)—

(A) by striking out "GS-18 under the General Schedule contained in section 5332, United States Code," and inserting in lieu thereof "rate 6 in the Senior Executive Service established under section 5382 of title 5, United States Code,"; and

(B) by striking out "GS-16 under such General Schedule" and inserting in lieu thereof "rate 4 in the Senior Executive Service established under section 5382 of title 5, United States Code,".

SEC. 747. EFFECTIVE DATE.

The provisions of this subtitle and the amendments made by this subtitle shall take effect on October 1, 1990, and any adjustments in pay under such provisions shall take effect on such date as determined by the Office of Personnel Management, but no later than the first applicable pay period beginning on or after October 1, 1991.

Subtitle C—Administrative Office of the United States Courts Personnel

SEC. 751. SHORT TITLE.

This subtitle may be cited as the "Administrative Office of the United States Courts Personnel Act of 1990".

SEC. 752. DEFINITIONS.

For purposes of this subtitle the term—

(1) "Director" means the Director of the Administrative Office of the United States Courts;

(2) "employee" means any employee of the Administrative Office of the United States Courts, except any employee referred to in section 603 of title 28, United States Code; and

(3) "Office" means the Administrative Office of the United States Courts.

SEC. 753. GENERAL PERSONNEL AUTHORITY.

The Director of the Administrative Office of the United States Courts may appoint, fix the compensation of, assign, and direct such personnel as the Director determines necessary to discharge the duties and functions of the Administrative Office.

SEC. 754. ESTABLISHMENT OF PERSONNEL MANAGEMENT SYSTEM.

(a) ESTABLISHMENT.—The Director shall establish a personnel management system for the Office—

(1) which provides for the appointment, pay, promotion, and assignment of all employees on the basis of merit; and

(2) to which the provisions of title 5, United States Code, governing appointments and other personnel actions in the competitive civil service, or the provisions of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates shall not apply.

(b) PERSONNEL MANAGEMENT SYSTEM.—The personnel management system established under subsection (a) shall, at a minimum—

(1) provide for a schedule of pay rates applicable to all employees;

(2) provide that the basic rate of pay of any person appointed under this section shall not exceed the rate of basic pay for level V of the Executive Schedule, except as provided in paragraph (11);

(3) incorporate pay comparability principles as set forth under section 5301(a) of title 5, United States Code;

(4) provide for the adjustment of the pay of employees at the same time and in the same percentage amount as rates of basic pay are adjusted for General Schedule and prevailing rate employees, as appropriate;

(5) establish procedures for employee evaluations, the granting of periodic pay adjustments, incentive awards, and resolution of employee grievances;

(6) establish procedures for disciplinary actions, including reduction in grade or pay, suspension, and removal, based on unacceptable performance or misconduct, except that the Director may exempt from such procedures positions of a confidential or policy-determining character, not to exceed 4 percent of the authorized positions of the Office;

(7) establish procedures for premium pay (including overtime) similar to the provisions of subchapter V of chapter 55 of title 5, United States Code;

(8) include the merit system principles set forth under section 2301(b) of title 5, United States Code;

(9) prohibit personnel practices prohibited under section 2302(b) of title 5, United States Code;

(10) prohibit discrimination on the basis of race, color, religion, age, sex, national origin, political affiliation, marital status, or handicapping condition; and

(11) provide for the basic rate of pay of not more than 5 percent of the authorized positions of the Office (excluding the positions referred to in section 603 of title 28, United States Code) to be set at rates not to exceed the rate of basic pay for positions at level IV of the Executive Schedule.

SEC. 755. ADMINISTRATIVE PROVISIONS.

(a) WORK SCHEDULES.—In establishing procedures under section 754(b)(7) the Director may at his discretion implement flexible and compressed work schedules and may exempt the hours constituting such schedules from premium pay to the extent the Director determines necessary to implement such schedules.

(b) DISCRIMINATION COMPLAINTS.—In implementing the provisions of section 754(b)(10), the Director shall, no later than 6 months after the date of the enactment of this title, promulgate regulations providing procedures for resolving complaints of discrimination by employees and applicants for employment.

(c) PAY LIMITATION.—Notwithstanding any other provision of this section, aggregate pay in any 1 year period (including basic pay and incentive awards) of any individual whose basic rate of pay is set under this subtitle may not exceed the annual aggregate pay computed at the basic rate of pay for the position of the Director.

(d) TRAVEL EXPENSES AND LEAVE FOR CERTAIN POSITIONS.—The Director may apply the provisions of sections 5723 and 6304(f) of title 5, United States Code, to the positions referred to under section 754(b)(11) and in section 603 of title 28, United States Code, including the Deputy Director.

(e) INCENTIVE AWARDS FOR CERTAIN POSITIONS.—The Director may provide for incen-

tive awards for the positions referred to in section 603 of title 28, United States Code, including the Deputy Director, subject to the aggregate pay limitation under subsection (c).

(f) PAY, INCENTIVE AWARDS, AND TRAVEL EXPENSES OF DIRECTOR.—The Chief Justice of the United States or the Judicial Conference of the United States may grant incentive awards to the Director, except that the Director's aggregate pay for any fiscal year, including aggregate annual pay and incentive awards, may not exceed the aggregate annual pay of a United States circuit judge. The Chief Justice or the Judicial Conference may authorize application of section 5723 of title 5, United States Code, to the Director.

(g) TRAINING PROGRAMS.—The Director may develop and conduct programs to meet the short and long range training needs of the agency.

(h) EMPLOYEE GRIEVANCES AND APPEALS.—(1) Notwithstanding any other provision of law, an individual who is an employee of the Office on the day before the effective date of this subtitle and who, as of that day, was entitled to—

(A) appeal a reduction in grade or removal to the Merit Systems Protection Board under chapter 43 of title 5, United States Code,

(B) appeal an adverse action to the Merit Systems Protection Board under chapter 75 of title 5, United States Code, or

(C) file an appeal with the Equal Employment Opportunity Commission under 29 CFR, Part 1613,

shall continue to be entitled to file such appeal so long as the individual remains an employee of the Office.

(2) The provisions of paragraph (1) shall not apply to employees in positions referred to in section 603 of title 28, United States Code, or in positions of a confidential or policy-determining character described under section 754(b)(11).

SEC. 756. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated for fiscal year 1990 and for each year thereafter such sums as may be necessary to carry out the provisions of this subtitle.

SEC. 757. EFFECTIVE DATE.

The provisions of this subtitle shall take effect 60 days after the date of the enactment of this title.

Subtitle D—Pay for Performance

SEC. 761. POLICY.

It is the policy of the Congress that—

(1) the Federal Government should institute systems for determining pay for its General Schedule employees under which the linkage between their performance and their pay will be strengthened;

(2) the design of such systems should be developed by the Office of Personnel Management, in conjunction with the Pay-for-Performance Labor-Management Committee;

(3) the systems should provide flexibility to adapt to the different needs of different agencies and organizational components in the Federal Government; and

(4) any legislation needed to implement the systems should be enacted in a timely fashion so as to permit implementation of the system by October 1, 1993.

SEC. 762. PAY-FOR-PERFORMANCE LABOR-MANAGEMENT COMMITTEE.

(a) ESTABLISHMENT.—The Office of Personnel Management shall establish a Pay-for-Performance Labor-Management Committee to advise the Office on the design and establishment of systems for strengthening the linkage between the performance of General Schedule employees and their pay.

(b) MEMBERSHIP.—The members of the Committee shall be—

(1) a Chairman, who shall be appointed by the Director of the Office of Personnel Management on the basis of the appointee's education, training, and experience as an expert in compensation practices, and after consultation with the Chairmen of the Senate Committee on Governmental Affairs and the House Committee on Post Office and Civil Service;

(2) an employee of the Office of Personnel Management, designated by the Director of such Office;

(3) an employee of the Office of Management and Budget, designated by the Director of such Office;

(4) an employee of the Department of Defense, designated by the Secretary of Defense;

(5) 3 individuals, each of whom shall be an employee designated by the head of each of 3 other departments or agencies selected by the Director of the Office of Personnel Management from among departments and agencies having substantial numbers of General Schedule employees; and

(6) 6 individuals appointed by the Director of the Office of Personnel Management to serve as representatives of employee organizations which represent substantial numbers of General Schedule employees, and who shall be selected with due consideration to such factors as the relative numbers of General Schedule employees represented by the various organizations, except that not more than 4 members of the Committee at any one time shall be from a single employee organization, council, federation, alliance, association, or affiliation of employee organizations.

(c) PAY FOR MEMBERS.—The Chairman shall be paid at a rate of basic pay for the Senior Executive Service, to be determined by the Director of the Office of Personnel Management. The members of the Committee who are otherwise employees of the Federal Government shall not receive any additional pay by reason of their service on the Committee. The members of the Committee who are not otherwise employees of the Federal Government shall not be paid for their service on the Committee and shall not be considered employees of the Federal Government for any purpose by reason of their service on the Committee.

(d) ADMINISTRATIVE SUPPORT.—The Office of Personnel Management may provide staff and administrative support for the Committee.

(e) FUNCTIONS.—The Committee shall review available reports and studies on performance evaluation and performance-based pay systems (including a report to be prepared by the National Academy of Sciences) and any other pertinent information.

(f) REPORT TO THE OFFICE OF PERSONNEL MANAGEMENT.—No later than 1 year after the date of the enactment of this Act, the Committee shall submit a report to the Director of the Office of Personnel Management which shall include recommendations as to—

(1) the types of pay raises to be covered;

(2) guidelines for pay-for-performance systems, including the criteria to be used in determining eligibility for and the amount of increases in basic pay above the midpoint of the pay range;

(3) the role organizational performance should play in pay-for-performance systems;

(4) any differences in pay-for-performance systems for different categories of employees;

(5) the role for employee organizations in the implementation and operation of pay-for-performance systems; and

(6) whether demonstration projects on pay-for-performance are desirable.

SEC. 763. REPORT TO THE CONGRESS.

No later than 6 months after the report of the Pay-for-Performance Labor-Management Committee is submitted to the Director of the Office of Personnel Management, the Director shall transmit the Committee's report to the Congress, together with appropriate legislation to implement the recommendations of the Committee, or, if the Office determines that some other action is appropriate, an explanation of the reasons the Office's views are different from those of the Committee.

SEC. 764. EFFECTIVE DATE.

The provisions of this subtitle shall be effective on the date of the enactment of this title.

Subtitle E—Technical and Conforming Amendments

SEC. 771. AMENDMENTS TO TITLE 5, UNITED STATES CODE.

(a) TABLE OF SECTIONS.—The table of sections for subchapter I of chapter 53 of title 5, United States Code, is amended to read as follows:

"SUBCHAPTER I—PAY COMPARABILITY SYSTEM

"Sec.
"5301. Policy.
"5302. Locality-based adjustments.
"5303. Higher minimum rates; Presidential authority.
"5304. Presidential policies and regulations.
"5305. Annual general adjustment and locality-based adjustments.
"5306. Federal Pay Council.
"5307. Pay fixed by administrative action.
"5308. Pay limitation.
"5309. Critical position pay authority.
"5310. Recruitment and relocation bonuses.
"5310A. Retention allowances.
"5310B. Pay for Senior General Schedule positions.
"5310C. Bar to judicial review.".

(b) SECTION HEADINGS.—(1) The heading for section 5305 of title 5, United States Code, is amended to read as follows:

"§ 5305. Annual general adjustment and locality-based adjustments".

(2) The heading for section 5306 of title 5, United States Code, is amended to read as follows:

"§ 5306. Federal Pay Council".

SEC. 772. AMENDMENTS RELATING TO POSITIONS ABOVE GS-15.

(a) AMENDMENTS TO TITLE 5, UNITED STATES CODE.—(1) All citations in this subsection shall refer to title 5, United States Code.

(2)(A) Section 3132(a)(2) is amended in the first sentence by striking out "in GS-16, 17, or 18" and inserting in lieu thereof "above GS-15".

(B) The table of sections for chapter 33 is amended by amending the item relating to section 3324 to read as follows:

"3324. Appointments above GS-15.".

(C) Section 3304a(a) is amended in the first sentence by striking out "in GS-16, GS-17, or GS-18" and inserting in lieu thereof "above GS-15".

(D) The heading for section 3324 is amended by striking out "at GS-16, 17, and

18" and inserting in lieu thereof "above GS-15".

(E) Section 3324(a) is amended in the first sentence by striking out "in GS-16, 17, or 18" and inserting in lieu thereof "above GS-15".

(F) Section 3405(b) is amended by striking out "for GS-16" and inserting in lieu thereof "above GS-15".

(G) The table of sections for chapter 51 is amended by amending the item relating to section 5108 to read as follows:

"5108. Classification of positions above GS-15.".

(H) Section 5102(c)(25) is amended by striking out "for GS-18" and inserting in lieu thereof "for level IV of the Executive Schedule".

(I) Section 5104 is amended by striking out paragraphs (16), (17), and (18).

(J) Section 5109(b) is amended by striking out "at GS-18" and inserting in lieu thereof "above GS-15".

(K) Section 5382(b) is amended by striking out "for GS-16" and inserting in lieu thereof "above GS-15".

(L) Section 5595(a)(2)(B)(i) is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(M) Section 5723(a)(1)(C) is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15 of the General Schedule".

(N) Section 8476(d)(1) is amended by striking out "grade GS-18" and inserting in lieu thereof "above GS-15".

(b) AMENDMENTS TO OTHER PROVISIONS OF LAW.—(1) Section 204 of House Resolution 988 of the Ninety-third Congress enacted into law by chapter III of title I of Public Law 93-554 (2 U.S.C. 29b(b)(3)) is amended by striking out "in grade GS-18" and inserting in lieu thereof "above GS-15".

(2) The Ethics in Government Act of 1978 (5 U.S.C. App.) is amended—

(A) in section 101(f)—

(i) in paragraph (3)—

(I) by striking out "at GS-16 or above" and inserting in lieu thereof "above GS-15"; and

(II) by striking out "for GS-16" and inserting in lieu thereof "for above GS-15"; and

(ii) in paragraph (6) by striking out "GS-16" and inserting in lieu thereof "above GS-15";

(B) in section 109—

(i) in paragraph (8) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15"; and

(ii) in paragraph (13)(B)—

(I) in clause (i) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15"; and

(II) in clause (ii) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15";

(C) in section 501(a)—

(i) in paragraph (1) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15"; and

(ii) in paragraph (2) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15"; and

(D) in section 502 by striking out "grade GS-16" and inserting in lieu therefore "above GS-15".

(3) Section 118(b) of the John C. Stennis Center for Public Service Training and Development Act (2 U.S.C. 1107(b)) is amended by striking out "in grade GS-18" and inserting in lieu thereof "above GS-15".

(4) Section 119(a)(2) of the John C. Stennis Center for Public Service Training and Development Act (2 U.S.C. 1108(a)(2)) is amended by striking out "for grade GS-18" and inserting in lieu thereof "above GS-15".

(5) Section 105 of title 3, United States Code, is amended—

(A) in subsection (a)—

(i) in paragraph (2)(C) by striking out "GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) in paragraph (2)(D) by striking out "GS-16" and inserting in lieu thereof "above GS-15"; and(B) in subsection (b)—

(i) in paragraph (2)(A) by striking out "GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) in paragraph (2)(B) by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(6) Section 106(a)(1)(C) of title 3, United States Code, is amended by striking out "GS-18" and inserting in lieu thereof "above GS-15".

(7) Section 107 of title 3, United States Code, is amended—

(A) in subsection (a)(1)—

(i) in subparagraph (B) by striking out "GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) in subparagraph (C) by striking out "GS-16" and inserting in lieu thereof "above GS-15"; and

(B) in subsection (b)(1)—

(i) in subparagraph (A)(ii) by striking out "GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) in subparagraph (B) by striking out "GS-18" and inserting in lieu thereof "above GS-15".

(8) Section 7(d)(1)(A) of the Federal Advisory Committee Act (5 U.S.C. App.) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(9) Section 6(a)(8) of the Inspector General Act of 1978 (5 U.S.C. App.) is amended by striking out "grade GS-18 of the General Schedule by section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of Executive Schedule".

(10) Section 12(b) of the Commodity Exchange Act (7 U.S.C. 16(b)) is amended by striking out "GS-18 under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(11) Section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136w(d)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "the rate for level V of the Executive Schedule".

(12) Section 505(c) of the Federal Crop Insurance Act (7 U.S.C. 1505(c)) is amended by striking out "grade GS-18 under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(13) Section 602(d) of the Act of August 28, 1954 (68 Stat. 908, chapter 1041; 7 U.S.C. 1762(d)) is amended by striking out "grade GS-16, GS-17, or GS-18" and inserting in lieu thereof "above GS-15".

(14) Section 1412(a)(1) at the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3127(a)(1)) is amended by striking out "for GS-18 of the General Schedule established in section 5332 of title 5, United States Code" and inserting in lieu thereof "above GS-15".

(15) Section 7043(b) of title 10, United States Code, is amended by striking out "grade GS-18 of General Schedule under section 5332 of title 5" and inserting in lieu thereof "the rate for level V of the Executive Schedule".

(16) Section 1202(d) of the National Housing Act (12 U.S.C. 1749bbb-1(d)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(17) Section 205(a)(1) of the Act entitled "An Act to increase deposit insurance from $20,000 to $40,000 to provide full insurance for public unit deposits of $100,000 per account, to establish a National Commission on Electronic Fund Transfers, and for other purposes.", approved October 28, 1974 (12 U.S.C. 2405(a)(1); Public Law 93-495) is amended by striking out "GS-18 of the General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(18) Section 103(h) of the National Consumer Cooperative Bank Act (12 U.S.C. 3013(h)) is amended by striking out "grade GS-18 under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(19) Section 10 of the Act of March 3, 1901 (15 U.S.C. 278) is amended by striking out "in grade GS-18 of the General Schedule under section 5332 of title 5 of such Code" and inserting in lieu thereof "at the rate for level V of the Executive Schedule".

(20) Section 21(i)(2) of the Small Business Act (15 U.S.C. 648(i)(2)) is amended by striking out "under GS-18 of the General Schedule," and inserting in lieu thereof "at the rate for level V of the Executive Schedule".

(21) Section 53 of the Federal Energy Administration Act of 1974 (15 U.S.C. 790b(b)) is amended by striking out "in grade GS-16, GS-17, or GS-18" and inserting in lieu thereof "above grade GS-15".

(22) Section 20(b)(5) of the Federal Hazardous Substances Labeling Act (15 U.S.C. 1275(b)(5)) is amended by striking out "of basic pay payable for grade GS-18 of General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "for level V of the Executive Schedule".

(23) Section 4(g) of the Consumer Product Safety Act (15 U.S.C. 2053(g)) is amended—

(A) in paragraph (1) by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in paragraph (3) by striking out "GS-16, GS-17, and GS-18" and inserting in lieu thereof "above GS-15".

(24) Section 28(g) of the Consumer Product Safety Act (15 U.S.C. 2077(f)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "grades above GS-15".

(25) Section 202(d)(1) of the National Productivity and Quality of Working Life Act of 1975 (15 U.S.C. 2412(d)(1)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(26) Section 401 of the National Productivity and Quality of Working Life Act of 1975 (15 U.S.C. 2451) is amended—

(A) in paragraph (5) by striking out "GS-18 under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in paragraph (8) by striking out "GS-18 under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(27) Section 5205(f)(1)(A) of the Competitiveness Policy Council Act (15 U.S.C.

4804(f)(1)(A)) is amended by striking out "GS-18 of the General Schedule pursuant to section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(28) Section 5206(a)(1) of the Competitiveness Policy Council Act (15 U.S.C. 4805(a)(1)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(29) Section 1303(g)(3) of the International Security and Development Cooperation Act of 1985 (16 U.S.C. 469j(g)(3)) is amended by striking out "grade GS-18 of General Schedule (5 U.S.C. 5332(a))" and inserting in lieu thereof "level V of the Executive Schedule".

(30) Section 319(a)(2)(B) of the Federal Power Act (16 U.S.C. 825q-1(a)(2)(B)) is amended by striking out "GS-18 of General Schedule under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(31) Section 4 of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839b) is amended—

(A) in subsection (a)(3) by striking out "step one of level GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (b)(3)—

(i) by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "V of the Executive Schedule"; and

(ii) by striking out "step 1 of level GS-18" and inserting in lieu thereof "above GS-15".

(32) Section 201 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1401) is amended—

(A) in subsection (d) by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (e) by striking out "GS-18 of General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(33) Section 203(b) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1403(b)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(34) Section 302(d) of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1852(d)) is amended by striking out "GS-18 of General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(35) Section 11(a) of the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3640(a)) is amended by striking out "GS-18 of General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(36) Section 3(g)(2)(A) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3702(g)(2)(A)) is amended by striking out "grade GS-18 of General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(37) Section 4351 of title 18, United States Code, is amended—

(A) in subsection (d) by striking out "GS-18 by section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (f) by striking out "GS-18 by section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(38) Section 4352(a)(14) of title 18, United States Code, is amended by striking out "GS-18 by section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(39) Section 141(e)(2) of the Trade Act of 1974 (19 U.S.C. 2171(e)(2)) is amended by striking out "grade GS-18 as provided section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(40) Section 1411(d) of the Defense Dependents' Education Act of 1978 (20 U.S.C. 929(d)) is amended by striking out "grade GS-18 in section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(41) Section 6(e) of the National Arts and Cultural Development Act of 1964 (20 U.S.C. 955(e)) is amended by striking out "grade GS-18 by section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(42) Section 8(e) of the National Foundation on the Arts and the Humanities Act of 1965 (20 U.S.C. 957(e)) is amended by striking out "grade GS-18 by section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(43) Section 204(e) of the Museum Services Act (20 U.S.C. 963(e)) is amended by striking out "grade GS-18 set forth in section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(44) Section 491(h)(1) of the Higher Education Act of 1965 (20 U.S.C. 1098(h)(1)) is amended by striking out "GS-18 of General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(45) Section 932(a)(7) of the Higher Education Act of 1965 (20 U.S.C. 1134i(a)(7)) is amended by striking out "GS-18 of General Schedule under section 5332, title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule,".

(46) Section 1206(h)(1)(B) of the Higher Education Act of 1965 (20 U.S.C. 1145a(h)(1)(B)) is amended by striking out "GS-18 of General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(47) Section 406(e)(9)(B) of the General Education Provisions Act (20 U.S.C. 1221e-1(e)(9)(B)) is amended by striking out "grade GS-18 of General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(48) Section 444 of the General Education Provisions Act (20 U.S.C. 1233c) is amended by striking out "grade GS-18 in section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(49) Section 435(c) of the Elementary and Secondary Education Amendments of 1967 (20 U.S.C. 1233d(c)) is amended by striking out "grade GS-18 in section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(50) Section 603(b)(1) of the Education of the Handicapped Act (20 U.S.C. 1402(b)(1)) is amended by striking out "grade GS-18 of the General Schedule under section 5104 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(51) Section 6 of the National Commission on Libraries and Information Science Act (20 U.S.C. 1505) is amended—

(A) in subsection (b) by striking out "grade GS-18 in section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in paragraph (c)(2) by striking out "for grade GS-18 in section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(52) Section 13(a)(2) of the Harry S Truman Memorial Scholarship Act (20 U.S.C. 2012(a)(2)) is amended by striking out "grade GS-18 in section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(53) Section 4(f) of the American Folklife Preservation Act (20 U.S.C. 2103(f)) is amended by striking out "GS-18 of General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(54) The second section 1429(f) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2839(f)) is amended by striking out "GS-18 of General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(55) Section 5051(g)(1) of the Anti-Drug Abuse Act of 1988 (20 U.S.C. 3172 note) is amended by striking out "grade GS-18 of General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule,".

(56) Section 203(c)(4) of the Department of Education Organization Act (20 U.S.C. 3413(c)(4)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(57) Section 401(b)(1) of the Department of Education Organization Act (20 U.S.C. 3461(b)(1)) is amended by striking out "GS-16, GS-17, and GS-18" and inserting in lieu thereof "above GS-15".

(58) Section 402 of the Department of Education Organization Act (20 U.S.C. 3462) is amended by striking out "GS-18 of the General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(59) Section 303(a)(1) of the Education of the Deaf Act of 1986 (20 U.S.C. 4343(a)(1)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(60) Section 304(b) of the Education of the Deaf Act of 1986 (20 U.S.C. 4344(b)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(61) Section 1508(b) of the American Indian, Alaska Native, and Native Hawaiian Culture and Art Development Act (20 U.S.C. 4415(b)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(62) Section 813(b) of the James Madison Memorial Fellowship Act (20 U.S.C. 4512(b)(3)) is amended by striking out "grade GS-18 of the General Schedule set forth in section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(63) Section 814(a)(2) of the James Madison Memorial Fellowship Act (20 U.S.C. 4513(a)(2)) is amended by striking out "grade GS-18 in section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(64) Section 1410(b) of the Barry Goldwater Scholarship and Excellence in Education Act (20 U.S.C. 4709(b)) is amended by

striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(65) Section 1411(a)(2) of the Barry Goldwater Scholarship and Excellence in Education Act (20 U.S.C. 4710(a)(2)) is amended by striking out "grade GS-18 under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(66) Section 513(b)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(b)(3)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(67) Section 514(g)(5)(B) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360d(g)(5)(B)) is amended by striking out "grade GS-18 of the General Schedule," and inserting in lieu thereof "level V of the Executive Schedule".

(68) Section 515(g)(2)(B) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360e(g)(2)(B)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(69) Section 520(f)(3) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360j(f)(3)) is amended by striking out "grade GS-18 of the General Schedule," and inserting in lieu thereof "level V of the Executive Schedule".

(70) Section 706(b)(5)(D) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 376(b)(5)(D)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(71) Section 1003(d)(4) of the National Narcotics Leadership Act of 1988 (21 U.S.C. 1502(d)(4)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(72) Section 604(c) of the United States Information and Education Exchange Act of 1948 (22 U.S.C. 1469(c)(2)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(73) Section 104 of the Act of March 14, 1980 (Public Law 96-209; 22 U.S.C. 1622d) is amended by striking out "GS-18 under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(74) Section 41(b) of the Arms Control and Disarmament Act (22 U.S.C. 2581(b)(1)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(75) Section 2(g) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2669(g)) is amended by striking out "GS-18 under section 5332 of such title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(76) Section 4(a)(7)(A) of the Board for International Broadcasting Act of 1973 (22 U.S.C. 2873(a)(7)(A)) is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(77) Section 4(b) of the Japan-United States Friendship Act (22 U.S.C. 2903(b)) is amended by striking out "grade GS-18 in section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(78) Section 6 of the Japan-United States Friendship Act (22 U.S.C. 2905) is amended—

(A) in paragraph (5) by striking out "a GS-18 of the General Schedule of such title" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in paragraph (6) by striking out "grade GS-18 in section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(79) Section 1102(b) of the Panama Canal Act of 1979 (22 U.S.C. 3612(b)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(80) Section 1104(b) of the Panama Canal Act of 1979 (22 U.S.C. 3614(b)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(81) Section 1010(b) of the Foreign Service Act of 1980 (22 U.S.C. 4110(b)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(82) Section 1105(c) of the Foreign Service Act of 1980 (22 U.S.C. 4135(c)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(83) Section 1706(i) of the United States Institute of Peace Act (22 U.S.C. 4605(i)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(84) Section 302 of the Diplomatic Security Act (22 U.S.C. 4832(a)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "V of the Executive Schedule".

(85) Section 131(o) of title 23, United States Code, is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(86) Section 12 of the Act of December 22, 1974 (25 U.S.C. 640d-11; Public Law 93-531) is amended—

(A) in subsection (b)(3) by striking out "of GS-18 of the General Schedule under section 5332 of title 5" and inserting in lieu thereof "at level V of the Executive Schedule"; and

(B) in subsection (d)(1)(A) by striking out "GS-18 of the General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(87) Section 8 of the Indian Gaming Regulatory Act (25 U.S.C. 2707) is amended—

(A) in subsection (a) by striking out "GS-18 of the General Schedule under section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (c) by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(88) Section 594(c) of title 28, United States Code, is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(89) Section 213(b)(2) of the Labor Management Relations Act, 1947 (29 U.S.C. 183(b)(2)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(90) Section 7(c)(2) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656(c)(2)) is amended by striking out "grade GS-18 under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(91) Section 18 of the Rehabilitation Act of 1973 (29 U.S.C. 717) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(92) Section 304(e)(2) of the Rehabilitation Act of 1973 (29 U.S.C. 774(e)(2)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(93) Section 402(a) of the Rehabilitation Act of 1973 (29 U.S.C. 782(a)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(94) Section 403(b)(1) of the Rehabilitation Act of 1973 (29 U.S.C. 783(b)(1)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(95) Section 502 of the Rehabilitation Act of 1973 (29 U.S.C. 792) is amended—

(A) in subsection (a)(5)(A) by striking out "GS-18 under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (f)—

(i) by striking out "as a GS-18 under section 5332 of title 5, United States Code" and inserting in lieu thereof "at level V of the Executive Schedule"; and

(ii) by striking out "such title 5" and inserting in lieu thereof "title 5, United States Code".

(96) Section 506(b) of the Rehabilitation Act of 1973 (29 U.S.C. 794b(b)) is amended by striking out "grade GS-18 of the General Schedule, under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(97) Section 512(d)(1) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1142(d)(1)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(98) Section 4002(h)(7) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1302(h)(7)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(99) Section 105(a)(2)(B)(ii) of the Technology-Related Assistance for Individuals with Disabilities Act of 1988 (29 U.S.C. 2215(a)(2)(B)(ii)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(100) Section 102(d) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 812(d)) is amended by striking out "grade GS-18 as provided in the General Schedule under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(101) Section 9(c) of an Act entitled "An Act to establish a State Mining and Mineral Resources Research Institute program, and for other purposes", approved August 29, 1984 (30 U.S.C. 1229(c)) is amended by strik-

ing out "grade GS-18 of the General Schedule under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(102) Section 805(d)(1) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1315(d)(1)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(103) Section 332(1) of title 31, United States Code, is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(104) Section 731(e) of title 31, United States Code, is amended by striking out "GS-18 under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(105) Section 732(c)(4) of title 31, United States Code, is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(106) Section 751(e) of title 31, United States Code, is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(107) Section 6 of the Act of July 3, 1930 (33 U.S.C. 569a) is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(108) Section 5 of the National Advisory Committee on Oceans and Atmosphere Act of 1977 (33 U.S.C. 857-16) is amended by striking out "a GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(109) Section 204 of the National Sea Grant College Program Act (33 U.S.C. 1123) is amended—

(A) in subsection (b)(2) by striking out "GS-18 of the General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (d)(1) by striking out "GS-18 of the General Schedule under section 5332 of such title" and inserting in lieu thereof "level V of the Executive Schedule".

(110) Section 209(c)(5)(A) of the National Sea Grant College Program Act (33 U.S.C. 1128(c)(5)(A)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(111) Section 310(e) of the Federal Water Pollution Control Act (33 U.S.C. 1320(e)) is amended by striking out "grade GS-18, as provided in the General Schedule under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(112) Section 315(f) of the Federal Water Pollution Control Act (33 U.S.C. 1325(f)) is amended by striking out "Grade GS-18, as provided in the General Schedule under section 5332 of title V of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(113) Section 515(c)(2) of the Federal Water Pollution Control Act (33 U.S.C. 1374(c)(2)) is amended by striking out "grade GS-18, as provided in the General Schedule under section 5332 of title V of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(114) Section 6(a) of an Act entitled "An Act to establish a commission to assist in the first observance of the Federal legal holiday honoring Martin Luther King, Jr.", approved August 27, 1984 (36 U.S.C. 169j-5(a)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(115) Section 3(a) of an Act entitled "An Act to establish the United States Holocaust Memorial Council", approved October 7, 1980 (36 U.S.C. 1403(a)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(116) Section 4(a) of an Act entitled "An Act to establish the United States Holocaust Memorial Council", approved October 7, 1980 (36 U.S.C. 1404(b)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(117) Section 5 of an Act entitled "An Act to establish the United States Holocaust Memorial Council", approved October 7, 1980 (36 U.S.C. 1405) is amended—

(A) in subsection (a) by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (b)(2) by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(118) Section 3(h) of the Pennsylvania Avenue Development Corporation Act of 1972 (40 U.S.C. 872(h)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(119) Section 4(b) of the Pennsylvania Avenue Development Corporation Act of 1972 (40 U.S.C. 873(b)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(120) Section 1(e)(1) of the Act of June 25, 1938 (popularly known as the Wagner-O'Day Act) (41 U.S.C. 46(e)(1)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(121) Section 26(b) of the Office of Federal Procurement Policy Act (41 U.S.C. 422(b)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(122) Section 208(c) of the Public Health Service Act (42 U.S.C. 210(c)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(123) Section 337(b)(2) of the Public Health Service Act (42 U.S.C. 254j(b)(2)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(124) Section 406(b)(4) of the Public Health Service Act (42 U.S.C. 284a(b)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(125) Section 430(c) of the Public Health Service Act (42 U.S.C. 285c-4(c)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(126) Section 442(c) of the Public Health Service Act (42 U.S.C. 285d-7(c)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(127) Section 480(b)(4) of the Public Health Service Act (42 U.S.C. 287a(b)(4)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(128) Section 485(b)(4) of the Public Health Service Act (42 U.S.C. 287c-2(b)(4)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(129) Section 505(b)(4) of the Public Health Service Act (42 U.S.C. 290aa-3a(b)(4)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(130) Section 788B(c) of the Public Health Service Act (42 U.S.C. 295g-8b(c)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(131) Section 799(g) of the Public Health Service Act (42 U.S.C. 295i(g)) is amended by striking out "GS-18 under the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(132) Section 1446(c) of the Safe Drinking Water Act (42 U.S.C. 300j-5(c)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(133) Section 1451 of the Safe Drinking Water Act (42 U.S.C. 300j-10) is amended by striking out "GS-18 of the General Schedule under section 5332 of the title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(134) Section 1801(e)(1) of the Public Health Service Act (42 U.S.C. 300v(e)(1)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(135) Section 2119(d) of the Public Health Service Act (42 U.S.C. 300aa-19(d)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(136) Section 1122(i)(3) of the Social Security Act (42 U.S.C. 1320a-1(i)(3)) is amended by striking out "grade GS-18 in section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(137) Section 1153(d)(3) of the Social Security Act (42 U.S.C. 1320c-2(d)(3)) is amended by striking out "grade GS-18 under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(138) Section 1878(h) of the Social Security Act (42 U.S.C. 1395oo(h)) is amended by striking out "grade GS-18 in section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(139) Section 4(g) of the National Science Foundation Act of 1950 (42 U.S.C. 1863(g)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(140) Section 14(c) of the National Science Foundation Act of 1950 (42 U.S.C. 1873(c)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(141) Section 105(a)(5) of the Water Resources Planning Act (42 U.S.C. 1962a-4(a)(5)) is amended by striking out "grade GS-18 under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(142) Section 205(a)(4) of the Water Resources Planning Act (42 U.S.C. 1962b-4(a)(4)) is amended by striking out "grade GS-18 under section 5332 of title 5, United

States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(143) Section 205(c) of the Water Resources Planning Act (42 U.S.C. 1962b-5(c)) is amended by striking out "grade GS-18 of the Classification Act of 1949, as amended" and inserting in lieu thereof "level V of the Executive Schedule".

(144) Section 203(c) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2473(c)) is amended—

(A) in paragraph (2) by striking out "grade 18 of the General Schedule of the Classification Act of 1949, as amended," and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in paragraph (9) by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(145) Section 6 of the National Aeronautics and Space Administration Authorization Act, 1968 (42 U.S.C. 2477) is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(146) Section 205(b)(4) of the Older Americans Act of 1965 (42 U.S.C. 3015(b)(4)) is amended by striking out "grade GS-18 in section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(147) Section 105(c) of the Public Works Improvement Act of 1984 (42 U.S.C. 3121 note) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(148) Section 7(e) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(e)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(149) Section 807 of the Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3788) is amended—

(A) in subsection (d) by striking out "GS-18 of the General Schedule under section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (e) by striking out "GS-18 of the General Schedule under section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(150) Section 8(h)(2) of Public Law 95-155 (42 U.S.C. 4365(h)(2)) is amended by striking out "grade GS-18, as provided in the General Schedule under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(151) Section 203(c) of the Environment Quality Improvement Act of 1970 (42 U.S.C. 4372(c)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(152) Section 508(b) of the Intergovernmental Personnel Act of 1970 (42 U.S.C. 4768(b)) is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(153) Section 15(b)(3) of the Noise Control Act of 1972 (42 U.S.C. 4914(b)(3)) is amended by striking out "Grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(154) Section 402(2)(B) of the Domestic Volunteer Service Act of 1973 (42 U.S.C. 5042(2)(B)) is amended by striking out "GS-18 employee under section 5332 of such title" and inserting in lieu thereof "at level V of the Executive Schedule".

(155) Section 202(b)(3) of the Child Abuse Prevention and Treatment Act (42 U.S.C. 5112(b)(3)) is amended by striking out "GS-18 employee under section 5322 of title 5, United States Code" and inserting in lieu thereof "at level V of the Executive Schedule".

(156) Section 202 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5612(b)) is amended—

(A) in subsection (b) by striking out "GS-18 of the General Schedule by section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule"; and

(B) in subsection (d) by striking out "GS-18 of the General Schedule by section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(157) Section 241(e)(5) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5651(e)(5)) is amended by striking out "GS-18 of the General Schedule by section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(158) Section 205(b)(4) of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6614(b)(4)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(159) Section 207(c)(2) of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6616(c)(2)) is amended by striking out "grade GS-18 of the General Schedule by section 5332 of title 5" and inserting in lieu thereof "level V of the Executive Schedule".

(160) Section 302(d) of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6632(d)) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(161) Section 601(a)(1) of the Department of Energy Organization Act (42 U.S.C. 7211(a)(1)) is amended by striking out "at GS-16, GS-17, or GS-18" and inserting in lieu thereof "above GS-15".

(162) Section 621 of the Department of Energy Organization Act (42 U.S.C. 7231) is amended—

(A) in subsection (b)(1) by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule";

(B) in subsection (c)—

(i) in paragraph (1) by striking out "at GS-16, GS-17, and GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) in paragraph (2) by striking out "under GS-16, GS-17, and GS-18" and inserting in lieu thereof "above GS-15";

(C) in subsection (d)—

(i) by striking out "at GS-16, GS-17, and GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule"; and

(D) in subsection (e)—

(i) by striking out "at GS-16, GS-17, or GS-18" and inserting in lieu thereof "above GS-15"; and

(ii) by striking out "deemed GS-18" and inserting in lieu thereof "deemed at level V of the Executive Schedule".

(163) Section 623 of the Department of Energy Organization Act (42 U.S.C. 7233) is amended by striking out "grade GS-18 of the General Schedule under section 5332 of title 5, United States Code," and inserting in lieu thereof "level V of the Executive Schedule".

(164) Section 212(b)(3)(A) of the Clean Air Act (42 U.S.C. 7546(b)(3)(A)) is amended by striking out "GS-18 by section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(165) Section 605(a) of the Neighborhood Reinvestment Corporation Act (42 U.S.C. 8104(a)) is amended by striking out "GS-18 of the General Schedule under section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(166) Section 601(b) of the Mental Health Systems Act (42 U.S.C. 9511(b)) is amended by striking out "grade GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(167) Section 143(a)(4)(A)(ii) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10163(a)(4)(A)(ii)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(168) Section 408(2) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10248(2)) is amended by striking out "grade GS-18 of the General Schedule by section 5332 of title 5, United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(169) Section 506(b)(3) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10266(b)(3)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(170) Section 507(e) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10267(e)) is amended by striking out "GS-18 of the General Schedule" and inserting in lieu thereof "level V of the Executive Schedule".

(171) Section 7(b)(9) of the Railroad Retirement Act of 1974 (45 U.S.C. 231f(b)(9)) is amended by striking out "four positions in grade GS-16 of the General Schedule established by that Act, four positions in grade GS-17 of such schedule, and one position in grade GS-18 of such schedule." and inserting in lieu thereof "eight positions above GS-15 of the General Schedule and one position at level V of the Executive Schedule.".

(172) Section 13110(d) of title 46, United States Code, is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(173) Section 711(d)(1) of the Communications Act of 1934 (47 U.S.C. 611(d)(1)) is amended by striking out "grade GS-18, as provided in the General Schedule under section 5332 of title 5 of the United States Code" and inserting in lieu thereof "level V of the Executive Schedule".

(174) Section 10363(c) of title 49, United States Code, is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(175) Section 10383(c) of title 49, United States Code, is amended by striking out "GS-18" and inserting in lieu thereof "level V of the Executive Schedule".

(176) Section 303(a) of National Security Act of 1947 (50 U.S.C. 405(a)) is amended by striking out "grade GS-18 of the General Schedule established by section 5332 of the title 5, United States Code" and inserting in

lieu thereof "level V of the Executive Schedule".

(c) AMENDMENTS RELATING TO GS-17 AND GS-16.—(1) Section 605A(c) of the Act of August 28, 1954 (7 U.S.C. 1765a(c)) is amended by striking out "GS-17" and inserting in lieu thereof "above GS-15".

(2) Section 274B(c)(3) of the Immigration and Nationality Act (8 U.S.C. 1324b(c)(3)) is amended by striking out "grade GS-17" and inserting in lieu thereof "above GS-15".

(3) Section 207 of title 18, United States Code, is amended—

(A) in subsection (c)(2)(A)(ii) by striking out "GS-17" and inserting in lieu thereof "above GS-15"; and

(B) in subsection (e)(6) by striking out "GS-17" and inserting in lieu thereof "above GS-15".

(4) Section 202(c)(2) of the Rehabilitation Act of 1973 (29 U.S.C. 761a(c)(2)) is amended—

(A) by striking out "grade GS-17" and inserting in lieu thereof "above GS-15"; and

(B) by striking out "in grade GS-17" and inserting in lieu thereof "above GS-15".

(5) Section 7(d)(2)(B) of the Federal Triangle Development Act (40 U.S.C. 1106(d)(2)(B)) is amended by striking out "GS-17" and inserting in lieu thereof "above GS-15".

(6) Section 9(b) of the Act entitled "An Act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1989, and for other purposes" approved September 27, 1988 (2 U.S.C. 178h(b)) is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(7) Section 113(b) of title 3, United States Code, is amended—

(A) in paragraph (2) by striking out "GS-16" and inserting in lieu thereof "above GS-15"; and

(B) in paragraph (3) by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(8) Section 114 of title 3, United States Code, is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(9) Section 3304a of title 5, United States Code, is amended in subsection (a) by striking out "in GS-16, GS-17, or GS-18," and inserting in lieu thereof "above GS-15".

(10) Section 3405 of title 5, United States Code, is amended in subsection (b) by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(11) Section 5371 of title 5, United States Code, is amended by striking out "not less than minimum rate for GS-16 nor more than the maximum rate for GS-18" and inserting in lieu thereof "above GS-15".

(12) The Act of June 20, 1956 (8 U.S.C. 1553) is amended by striking out "of GS-16" and inserting in lieu thereof "above GS-15".

(13) Section 2318(b) of title 10, United States Code, is amended by striking out "GS-16 or above" and inserting thereof "above GS-15".

(14) Section 4(g)(3) of the Consumer Product Safety Act (15 U.S.C. 2053(g)(3)) is amended by striking out "in grades GS-16, GS-17, and GS-18" and inserting in lieu thereof "above GS-15".

(15) Section 103(d)(1) of the Arctic Research and Policy Act of 1984 (15 U.S.C. 4102(d)(1)) is amended by striking out "for GS-16" and inserting in lieu thereof "above GS-15".

(16) Section 11(b) of the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3640(b)) is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(17) Section 205(c) of the Museum Services Act (20 U.S.C. 964(c)) is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(18) Section 3(c)(1) of the Asbestos School Hazard Detection and Control Act of 1980 (20 U.S.C. 3602(c)(1)) is amended by striking out "grade GS-16" and inserting in lieu thereof "above GS-15".

(19) Section 6103(a) of the Training Technology Transfer Act of 1988 (20 U.S.C. 5093(a)) is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(20) Section 586(e)(1)(A) of title 28, United States Code, is amended by striking out "step 1 of grade GS-16" and inserting in lieu thereof "above GS-15".

(21) Section 12(k) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 661(k)) is amended by striking out "GS-16" and inserting in lieu thereof "above GS-15".

(22) Section 428(b) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 938(b)) is amended by striking out "GS-16" and inserting in lieu thereof "levels above GS-15".

(23) Section 752(b)(2) of title 31, United States Code, is amended by striking out "grade GS-16" and inserting in lieu thereof "above GS-15".

(24) Section 3801(a) of title 31, United States Code, is amended—

(A) in paragraph (4)(B) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15"; and

(B) in paragraph (8)(B) by striking out "grade GS-16" and inserting in lieu thereof "above GS-15".

(25) Section 7(c) of title 35, United States Code, is amended by striking out "grade GS-16" and inserting in lieu thereof "above GS-15".

(26) (42 U.S.C. 7211(a)(1)) is amended by striking out "GS-16 of the General Schedule" and inserting in lieu thereof "above GS-15".

(d) AMENDMENT RELATING TO RULES OF THE HOUSE OF REPRESENTATIVES.—Clause 3(b)(1) of Rule XLVII of the Rules of the House of Representatives is amended by striking out "grade GS-16" and inserting in lieu thereof "above GS-15".

SEC. 773. AMENDMENTS RELATING TO THE ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS PERSONNEL.

(a) APPLICATION OF MERIT SYSTEM PRINCIPLES.—Section 2301(a) of title 5, United States Code, is amended—

(1) in paragraph (1) by adding "and" at the end thereof;

(2) by striking out paragraph (2); and

(3) by redesignating paragraph (3) as paragraph (2).

(b) PROHIBITED PERSONNEL PRACTICES.—Section 2302(a)(2)(C) of title 5, United States Code, is amended by striking out ", the Administrative Office of the United States Courts,".

(c) PERFORMANCE APPRAISAL.—Section 4301(1) of title 5, United States Code, is amended—

(1) in subparagraph (A) by adding "and" at the end thereof;

(2) by striking out subparagraph (B); and

(3) by redesignating subparagraph (C) as subparagraph (B).

(d) AWARDS FOR SUPERIOR ACCOMPLISHMENTS.—Section 4501(1) of title 5, United States Code, is amended—

(1) by striking out subparagraph (B); and

(2) by redesignating subparagraphs (C) through (G) as subparagraphs (B) through (F), respectively.

(e) PERSONNEL RESEARCH PROGRAMS AND DEMONSTRATION PROJECTS.—Section 4701(a)(1) of title 5, United States Code, is amended by striking out ", the Administrative Office of the United States Courts,".

(f) PAY AND ALLOWANCES CLASSIFICATION.—Section 5102(a)(1) of title 5, United States Code, is amended—

(1) by striking out subparagraph (B); and

(2) by redesignating subparagraphs (C) through (G) as subparagraphs (B) through (F), respectively.

(g) PREVAILING RATE EMPLOYEES.—Section 5349(a) of title 5, United States Code, is amended in the first sentence by striking out "the Administrative Office of the United States Courts,".

(h) SEVERANCE PAY.—Section 5595 of title 5, United State Code, is amended—

(1) in subsection (a)(1)—

(A) in subparagraph (C) by striking out "and" at the end thereof; and

(B) by adding at the end thereof the following new subparagraph:

"(E) the Administrative Office of the United States Courts, the Federal Judicial Center, and the courts named under section 610 of title 28; and"; and

(2) in subsection (b) by amending such subsection to read as follows:

"(b)(1) Under regulations prescribed by the President or such officer or agency as he may designate, an employee who—

"(A) has been employed currently for a continuous period of at least 12 months; and

"(B) is involuntarily separated from the service, not by removal for cause on charges of misconduct, delinquency, or inefficiency;

is entitled to be paid severance pay in regular pay periods by the agency from which separated.

"(2) Notwithstanding the provisions of paragraph (1), the Director of the Administrative Office of the United States Courts may prescribe regulations to effect the application and operation of this section to the agencies specified in subsection (a)(1)(E) of this section.".

(i) BACK PAY.—Section 5596 of title 5, United States Code, is amended—

(1) in subsection (a)(2) by inserting ", the Federal Judicial Center, and the courts named by section 610 of title 28" after "Courts"; and

(2) in subsection (c) in the second sentence by inserting after "employees" a comma and "or to the agencies described under subsection (a)(2) of this section".

(j) CIVIL SERVICE RETIREMENT.—(1) Section 8331(1)(v) of title 5, United States Code, is amended to read as follows:

"(v) an employee of the Administrative Office of the United States Courts, of the Federal Judicial Center, or of a court named by section 610 of title 28, if excluded by the Director of the Administrative Office under section 8347(p) of this title.".

(2) Section 8347 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(p) The Director of the Administrative Office of the United States Courts may exclude from the operation of this subchapter an employee of the Administrative Office, of the Federal Judicial Center, or of a court named by section 610 of title 28, whose employment is temporary or of uncertain duration.".

(k) FEDERAL EMPLOYEES' RETIREMENT SYSTEM.—(1) Section 8401(11)(i)(I) of title 5, United States Code, is amended by striking out "(v),".

(2) Section 8402(c) of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(7) The Director of the Administrative Office of the United States Courts may exclude from the operation of this chapter an employee of the Administrative Office, of the Federal Judicial Center, or of a court named by section 610 of title 28, whose employment is temporary or of uncertain duration.".

(l) COMPENSATION OF EMPLOYEES OF THE OFFICE.—Section 602(a) of title 28, United States Code, is amended to read as follows:

"(a) The Director shall appoint and fix the compensation of necessary employees of the Administrative Office in accordance with the Administrative Office of the United States Courts Personnel Act of 1990.".

(m) SPECIAL EMPLOYEES.—Section 602(b) of title 28, United States Code, is amended by striking out "604(a)(15)(B)" and inserting in lieu thereof "604(a)(16)(B)".

(n) SALARY OF DEPUTY DIRECTOR; LEAVE OF DIRECTOR.—Section 603 of title 28, United States Code, is amended—

(1) in the second sentence by striking out "of the Deputy Director"; and

(2) by inserting after the first sentence "Notwithstanding any other provision of law, the Director shall not be an employee for purposes of subchapter I of chapter 63 of title 5, United States Code. The salary of the Deputy Director shall be 92 percent of the salary of the Director.".

(o) REDESIGNATIONS.—Section 604(a) of title 28, United States Code, is amended—

(1) by redesignating the first paragraph (19) as paragraph (18);

(2) in paragraph (22) by adding "and" after the semicolon; and

(3) in paragraph (23) by striking out the semicolon and inserting in lieu thereof a period.

SEC. 774. REFERENCES TO GS-16, 17, AND 18 POSITIONS.

Reference in any other Federal law, Executive order, rule, regulation, or delegation of authority, or any document of or pertaining to GS-16, GS-17, or GS-18 of the General Schedule shall be deemed to refer to a position classified above GS-15 under section 5108 of title 5, United States Code.

SEC. 775. ADDITIONAL CONFORMING AMENDMENTS.

After consultation with the appropriate committees of the Congress, the Office of Personnel Management shall prepare and submit to the Congress recommended legislation containing technical and conforming amendments to reflect the changes made by this title to the United States Code, and any other provision of law. No later than 6 months after the date of the enactment of this title, the Office of Personnel Management shall submit such recommended legislation.

SEC. 776. EFFECTIVE DATE.

(a) IN GENERAL.—The amendments made by this subtitle (except for the amendments made by section 773) shall take effect on such date determined by the Office of Personnel Management, but in no event shall such effective date be later than October 1, 1991.

(b) AMENDMENTS RELATING TO THE ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS PERSONNEL.—The amendments made by section 773 shall take effect 60 days after the date of the enactment of this subtitle.

DECONCINI AMENDMENT NO. 2613

Mr. DECONCINI proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 16, line 14, before the period, add the following new proviso: ": *Provided*, That of the $247,878,000 provided for tax systems modernization up to $15,000,000 shall be available until expended for the establishment of a Federally funded research and development center and may be utilized to conduct and evaluate market surveys, develop and evaluate requests for proposals, and assist with systems engineering, technical evaluations, and independent technical reviews in conjunction with tax systems modernization".

On page 19, line 20, after the word "in" strike, "this or".

On page 21, stike lines 18 through line 25.

On page 22, line 1, strike "2" and insert in lieu thereof, "1".

On page 31, line 14, strike "may" and insert in lieu thereof, "shall".

On page 31, line 19, strike "available" and insert in lieu thereof, "transferred".

On page 46, line 16, insert a colon before *"Provided"*.

On page 51, line 21, place "Ysleta, New Border Station" in italics.

On page 52, starting on line 22, strike "$251,165,000" and line type "for design and construction services", and insert immediately following the line type: "$251,165,000 for design and construction services" in italics.

On page 54, line 4, strike "Building" and insert in lieu thereof, "Building" in italics.

DECONCINI (AND OTHERS) AMENDMENT NO. 2614

Mr. DECONCINI (for himself, Mr. D'AMATO, and Mr. LAUTENBERG) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 94, insert between lines 19 and 20 the following new section:

"SEC. 526. (a) This section may be cited as the "Federal Law Enforcement Pay Reform Act of 1990".

(b)(1) Subchapter VII of chapter 53 of title 5, United States Code, is amended by adding at the end the following:

"§ 5376. Pay for law enforcement officers

"(a) For the purpose of this section, the term 'law enforcement officer' means any law enforcement officer within the meaning of section 8331(20) or section 8401(17) with respect to whom the provisions of subchapter III of chapter 53 apply (or would apply, but for this section.)

"(b) Except as otherwise provided in subsection (c)—

"(1) effective for pay periods beginning on or after October 1, 1991, and until otherwise provided for under this subsection—

"(A) the minimum rate of basic pay for a law enforcement officer whose position is classified at a grade above GS-2 and below GS-11 shall be determined in accordance with the following table:

"If classified at the following grade:	The minimum rate of basic pay shall be the rate payable for the following step of that grade (determined using the rates of basic pay in effect as of September 30, 1990):
GS-3	step 10;
GS-4	step 10;
GS-5	step 10;
GS-6	step 8;
GS-7	step 6;
GS-8	step 6;
GS-9	step 4;
GS-10	step 3;

and

"(B) the rate for each step above the minimum rate for each grade under subparagraph (A) shall, for any law enforcement officer, be the rate prescribed by the Office of Personnel Management, taking into consideration the minimum rates set forth in subparagraph (A) and the need to provide for appropriate pay relationships within and between grades;

"(2) in order to ensure the continued competitiveness of the rates of pay established under this subsection—

"(A) the Office of Personnel Management shall prescribe regulations under which the Office shall—

"(i) compare rates paid to law enforcement officers under this subsection with the rates generally being paid to individuals performing the same levels of work for State and local governments (determined on a nationwide basis); and

"(ii) determine whether an increase should be made under this paragraph as of the next opportunity allowable under subparagraph (B) and, if so, the size of that increase; and

"(B) whenever the Office makes an affirmative determination under the provisions of subparagraph (A)(ii), provide for any pay incease determined under those provisions to be appropriate, effective beginning with the first applicable pay period beginning on or after October 1, 1993, or October 1 of any third year thereafter (whichever occurs next);

"(3) effective at the beginning of the first applicable pay period beginning on or after the first day of the month in which an adjustment takes effect under section 5305 in the rates of pay under the General Schedule, the rates of pay in effect under this subsection shall be adjusted by the overall average percentage (as set forth in the report transmitted to the Congress under such section 5305) of the adjustment in the rates of pay under the General Schedule; and

"(4) the Office shall prescribe such regulations as may be necessary for the coordination of paragraphs (2) and (3).

"(c)(1) The purpose of this subsection is to establish a pay-adjustment mechanism for law enforcement officers which takes into account the fact—

"(A) that the cost of living in certain parts of the United States is appreciably higher than in others; and

"(B) that the Government's success in recruiting and retaining the best-qualified individuals to serve as law enforcement officers, particularly in areas having higher living costs, will in large part depend on its ability to keep rates of pay at levels that are competitive with those offered by State and local governments.

"(2) To carry out the purpose of this subsection, the Office of Personnel Management shall prescribe regulations which shall provide for the following:

"(A) The establishment of an appropriate number of geographic regions (established using consolidated metropolitan statistical areas, as defined by the Office of Management and Budget) with respect to which pay comparisons shall be made, special pay rates for law enforcement officers may be established or adjusted, and the provisions of this subsection shall otherwise be carried out.

"(B)(i) Procedures for identifying those regions for which higher pay rates are needed, as identified under clause (ii).

"(ii) A region shall be considered to satisfy the requirements for higher pay rates if, using the average of—

"(I) a value (determined by the Office, and expressed as a percentage) representing that region's relative cost of living, as compared with the cost of living in the United States as a whole, and

"(II) a value (determined by the Office, and expressed as a percentage) representing the relative size of the average salary for State and local law enforcement officers within that region (expressed as a single weighted average salary), as compared with the average salary for State and local law enforcement officers in the United States as a whole (expressed as a single weighted average salary),

such region is determined to be a least 5 percent above the national average (which, for purposes of this clause, shall deemed to be equal to 100 percent).

"(C) Procedures under which higher rates of pay for law enforcement officers within a particular region shall be established or adjusted under this subsection.

"(3)(A) A rate of basic pay payable to a law enforcement officer under this subsection may not be less than the rate to which such officer would otherwise be entitled if this subsection had not been enacted.

"(B) A rate of basic pay payable to a law enforcement officer under this subsection, based on such officer's serving in a particular region, shall cease to apply if such officer is transferred or reassigned to a place outside of such region.

"(4) The first rates of pay established under this subsection shall be effective for pay periods beginning on or after October 1, 1991, and, notwithstanding any other provision of this subsection, shall be based on pay data compiled by the National Advisory Commission on Law Enforcement, as contained in its report submitted under section 6160(h) of the Anti-Drug Abuse Act of 1988. Subsequent adjustments under this subsection may be made, effective for applicable pay periods beginning on or after October 1, 1993, and October 1 of any third year thereafter, subject to the preceding paragraphs of this subsection.

"(d)(1) The Bureau of Labor Statistics shall conduct such pay surveys as may be necessary in order to compile any data (relating to rates of pay being paid by State or local governments) which may be necessary to carry out this section. To the extent practicable, data so compiled shall reflect rates of pay in effect as of January 1, 1993, and January 1 of every third year thereafter.

"(2) Except as otherwise expressly provided for in this section, any comparisons or determinations under this section shall, to the extent that they involve rates of pay or other data relating to State or local government, be based solely on data compiled under this subsection.

(2) The table of sections for chapter 53 of title 5, United States Code, is amended by adding after the item relating to section 5375 the following:

"5376. Pay for law enforcement officers.".

(c)(1) The appropriate agency head (as defined in paragraph (3)) shall prescribe regulations under which the purposes of the amendments made by subsection (b) shall be carried out with respect to individuals holding positions described in paragraph (2).

(2) This subsection applies with respect to any—

(A) member of the United States Secret Service Uniformed Division;

(B) member of the United States Park Police;

(C) special agent within the Diplomatic Security Service;

(D) postal inspector;

(E) probation officer (referred to in section 3672 of title 18, United States Code); or

(F) pretrial services officer (referred to in section 3153 of title 18, United States Code).

(3) For the purpose of this subsection, the term "appropriate agency head" means—

(A) with respect to any individual under paragraph (2)(A), the Secretary of the Treasury;

(B) with respect to any individual under paragraph (2)(B), the Secretary of the Interior;

(C) with respect to any individual under paragraph (2)(C), the Secretary of State;

(D) with respect to any individual under paragraph (2)(D), the Postmaster General; and

(E) with respect to any individual under paragraph (2)(E) or (2)(F), the Director of the Administrative Office of the United States Courts.

(d) Not later than January 1, 1993, the Office of Personnel Management, in consultation with Federal law enforcement agencies and law enforcement employee groups, shall submit to Congress, in writing, a plan to establish a separate pay and classification system for law enforcement officers and specifications for legislation to implement such plan.

(e)(1) Subchapter IV of chapter 59 of title 5, United States Code, is amended by adding at the end the following:

"§ 5949. Retention allowances for law enforcement officers

"(a) For the purpose of this section, the term 'law enforcement officer' means—

"(1) a law enforcement officer within the meaning of section 5376(a);

"(2) a member of the United States Secret Service Uniformed Division;

"(3) a member of the United States Park Police;

"(4) a special agent within the Diplomatic Security Service;

"(5) a postal inspector;

"(6) a probation officer (referred to in section 3672 of title 18, United States Code); and

"(7) a pretrial services officer (referred to in section 3153 of title 18, United States Code).

"(b)(1) Notwithstanding any other provision of law, and in order to retain highly qualified law enforcement officers who possess special skills or experience or whose continued services are particularly important due to factors associated with the geographic area to which they are assigned, the head of an agency, subject to the provisions of this section and such regulations as the President or his designee may prescribe, may enter into a service agreement with a law enforcement officer.

"(2) Under any such agreement, the law enforcement officer shall agree to complete a specified period of service in such agency in return for an allowance, for the duration of such agreement, in an amount determined by the agency head and specified in the agreement, but not to exceed $10,000 per year.

"(c) In order to be eligible for an allowance under this section, a law enforcement officer must then satisfy the age and service requirements under section 8336 or 8412, as the case may be, for entitlement to an annuity.

"(d) Any agreement entered into by a law enforcement officer under this section shall be for a period of 1 year of service in the agency involved unless the officer requests an agreement for a longer period of service.

"(e) Unless otherwise provided for in the agreement under subsection (f), an agreement under this section shall provide that the law enforcement officer, in the event that such officer voluntarily, or because of misconduct fails to complete at least 1 year of service pursuant to such agreement, shall be required to refund the total amount received under this section, unless the head of the agency, pursuant to such regulations as may be prescribed under this section by the President or his designee, determines that such failure is necessitated by circumstances beyond the control of the officer.

"(f) Any agreement under this section shall specify, subject to such regulations as the President or his designee may prescribe, the terms under which the head of the agency and the law enforcement officer may elect to terminate such agreement, and the amounts, if any, required to be refunded by the law enforcement officer for each reasons for termination.

"(g)(1) Any allowance paid under this section shall not be considered as basic pay for the purposes of subchapter VI and section 5595 of chapter 55, chapter 81, 83, 84, or 87, or other benefits related to basic pay.

"(2) Any allowance under this section for a law enforcement officer shall be paid in the same manner and at the same time as the officer's basic pay is paid.

"(h) An agency head may delgate, in whole or in part, any functions vested in such agency head under this section.".

(2) The table of sections for chapter 59 of title 5, United States Code, is amended by adding after the item relating to section 5948 the following:

"5949. Retention allowances for law enforcement officers.".

(f)(1) Subchapter II of chapter 57 of title 5, United States Code, is amended by inserting after section 5724c the following:

"§ 5724d. Relocation payments for law enforcement officers

"(a) For the purpose of this section, the term 'law enforcement officer' has the same meaning as under section 5949(a).

"(b) Under such regulations as the head of an agency (or designee thereof) may prescribe and to the extent considered necessary and appropriate, as provided therein, appropriations or other funds available to such agency for administrative expenses are available for payments under this section.

"(c) Payments under this section—

"(1) may be paid to any law enforcement officer within the agency who is transferred or reassigned, in the interest of the Government, to an area or region (not within a foreign country) having higher than average

housing costs (as determined under the regulations); and

"(2) may not be made to a law enforcement officer if, or to the extent that, such payment would cause the total amount paid to such officer under this section to exceed $20,000 (including, in the case of any individual who is married to another law enforcement officer, any amounts paid under this section to the spouse).

"(d) An agency may make a payment under this section only after the law enforcement officer selected agrees in writing to remain a law enforcement officer for a period of time (not to exceed 3 years) specified in the agreement, unless separated for reasons beyond the officer's control which are acceptable to the agency. If the individual violates the agreement, any money paid to the individual under the agreement is recoverable from the individual as a debt due the United States.".

(2) The table of sections for chapter 57 of title 5, United States Code, is amended by inserting after the item relating to section 5724c the following:

"5724d. Relocation payments for law enforcement officers.".

(g)(1)(A) Section 5333 of title 5, United States Code, is amended by adding at the end the following:

"(c) In applying subsection (a) with respect to a law enforcement officer (within the meaning of section 5376(a)), the reference in such subsection to 'GS-11' shall be deemed to read "GS-3'.".

(B) Each of the appropriate agency heads (as defined in subsection (c)(3)) shall prescribe regulations under which the purpose of the amendment made by paragraph (1) shall be carried out with respect to individuals under subsection (c)(2) under the juridiction of such agency head.

(2)(A) Chapter 45 of title 5, United States Code, is amended by adding at the end the following:

"SUBCHAPTER III—AWARDS TO LAW ENFORCEMENT OFFICERS FOR FOREIGN LANGUAGE CAPABILITIES

"§ 4521. Definition

"For the purpose of this subchapter, the term 'law enforcement officer' has the same meaning as under section 5949(a).

"§ 4522. General provision

"An award under this subchapter is in addition to the basic pay of the recipient.

"§ 4523. Award authority

"(a) An agency may pay a cash award, up to 25 percent of basic pay, to any law enforcement officer employed in or under such agency who possesses and makes substantial use of 1 or more languages (other than English) in the performance of official duties.

"(b) Awards under this section shall be paid under regulations prescribed by the head of the agency involved (or designee thereof). Regulations prescribed by an agency head (or designee) under this subsection shall include—

"(1) procedures under which foreign language proficiency shall be ascertained;

"(2) criteria for the selection of individuals for recognition under this section; and

"(3) any other provisions which may be necessary to carry out the purposes of this subchapter.".

(B) The table of sections for chapter 45 of title 5, United States Code, is amended by adding at the end the following:

"SUBCHAPTER III—AWARDS TO LAW ENFORCEMENT OFFICERS FOR FOREIGN LANGUAGE CAPABILITIES

"4521. Definition.

"4522. General provision.

"4523. Award authority.".

(3)(A) Section 8335(b) of title 5, United States Code is amended—

(i) in the first sentence, by striking "law enforcement officer or a"; and

(ii) by inserting after the first sentence the following: "A law enforcement officer who is otherwise eligible for immediate retirement under section 8336(c) of this title shall be separated from the service on the last day of the month in which he becomes 57 years of age or completes 20 years of service if then over that age.".

(B) Section 8425(b) of title 5, United States Code, is amended—

(i) in the first sentence, by striking "law enforcement officer or" each place it appears; and

(ii) by inserting after the first sentence the following: "A law enforcement officer who is otherwise eligible for immediate retirement under section 8412(d) shall be separated from the service on the last day of the month in which that law enforcement officer becomes 57 years of age or completes 20 years of service if then over that age.".

(4) Section 5542(a) of title 5, United States Code, is amended by adding at the end the following:

"(4) Notwithstanding paragraphs (1) and (2) of this subsection, for an employee who is a law enforcement officer (within the meaning of section 5949(a) of this title), the overtime hourly rate of pay is an amount equal to one and one-half times the hourly rate of basic pay to the employee, and all that amount is premium pay.".

(5) Section 5547 of title 5, United States Code, is amended by adding at the end the following:

"(c)(1) The provisions of subsection (a) shall not apply to the pay of a law enforcement officer for any pay period in which such officer is required to perform overtime under section 5542(a) or administratively uncontrollable overtime under section 5545(c)(2).

"(2) Notwithstanding the provisions of paragraph (1), no law enforcement officer may be paid premium pay to the extent that the aggregate rate of pay of such employee for the aggregate of all pay periods in any calendar year exceeds the scheduled rate of pay for level V of the Executive Schedule.

"(iv) a member of—

"(I) the Metropolitan Police or the Fire Department of the District of Columbia; or

"(II) a member of the United States Secret Service Uniformed Division, a member of the United States Park Police other than for purposes of sections 5545(a) and 5546;".

On page 94, line 20, strike "526" and insert in lieu thereof, "527".

On page 94, line 23, strike "527" and insert in lieu thereof, "528".

On page 95, line 5, strike "528" and insert in lieu thereof, "529".

At the end of the amendment add the following:

(h) If the President determines that national emergency or serious economic conditions affecting the general welfare requiring that the annual adjustment and the locality adjustments be held below the levels described in the previous section, or that any other provision of the section be *** the President shall prepare and report that determination to the Congres in the budget transmittal described in the previous section. In evaluating an economic condition affecting the general welfare under this subsection, the President shall consider pertinent economic measures including, but not limited to, the Indexes of Leading Economic Indicators, the Gross National Product, the unemployment rate, the budget deficit, the Consumer Price Index, the Producer Price Index, the Employment Cost Index, and the Implicit Price Deflator for Personal Consumption Expenditures. The President shall include in the report to Congress under this subsection his assessment of the impact that holding the general adjustment and the locality adjustments below the levels described in the pervious section will have on the Government's ability to recruit and retain well-qualified employees.".

HOLLINGS AMENDMENT NO. 2615

Mr. HOLLINGS proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 11 of the bill, line 5, before the period, insert the following: ": *Provided further,* That not less than $600,000 shall be available to increase by 10 the number of full-time inspectors in the Charleston, South Carolina Customs District".

BIDEN AMENDMENT NO. 2616

Mr. DECONCINI (for Mr. BIDEN) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 29, line 9, strike "$16,500,000: *Provided,*" and insert in lieu thereof, "$17,500,000: *Provided,* That not less than $1,000,000 of such amount shall be available for the establishment of a Technology Research and Development Center within the Office of National Drug Control Policy: *Provided further,*".

On page 75, line 13, strike "$114,461,000" and insert in lieu thereof, $113,461,000.

DECONCINI (AND DOMENICI) AMENDMENT NO. 2617

Mr. DECONCINI (for himself and Mr. DOMENICI) proposed an amendment to the bill H.R. 5241, supra, as follows:

On Page 76 of the bill, line 12, add the following new section:

SEC. 16. Notwithstanding any other provision of law, the General Services Administration is directed to maintain during the Fiscal Year ending September 30, 1991, the vehicle rental rates and per mile rates charged to schools and dormitories funded by the Bureau of Indian Affairs that were in effect on June 30, 1990, except for subsequent per mile rate adjustments related to fuel cost increases.

DOMENICI AMENDMENT NO. 2618

Mr. COCHRAN (for Mr. DOMENICI) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 114, line 4, after the section designation, insert "(a)" and after line 15, insert the following new subsection:

(b) The provisions of this section shall not apply to Federal employees or members of the armed services detailed to or from—

(1) the Central Intelligence Agency;

(2) the National Security Agency;

(3) the Defense Intelligence Agency;

(4) the offices within the Department of Defense for the collection of specialized national foreign intelligence through reconnaissance programs;

(5) the Bureau of Intelligence and Research of the Department of State;

(6) any agency, office, or unit of the Army, Navy, Air Force, and Marine Corps, the Federal Bureau of Investigation and the Drug Enforcement Administration of the Department of Justice, the Department of the Treasury, and the Department of Energy performing intelligence functions; and

(7) the Director of Central Intelligence.

MIKULSKI AMENDMENT NO. 2619

Mr. DECONCINI (for Ms. MIKULSKI) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page , insert between line and the following new section:

SEC. . (a) A Federal agency may participate in any program established by a State or local government that encourages employees to use public transportation. Such programs may involve the sale of discounted transit passes or other incentives that reduce the cost to the employee of using public transportation.

(b) Notwithstanding the provision of section 5536 of title 5, United States Code, or any other provision of law, an employee may participate in a program described under subsection (a).

(c)(1) For purposes of this section the term "Federal agency" shall mean an Executive agency as defined under section 105 of title 5, United States Code, and shall include any agency of the legislative or judicial branch of Government.

(2) For purposes of subsection (b), the term "employee" shall mean an employee as defined under section 2105 of title 5, United States Code, and shall include an employee of any legislative or judicial agency.

(d) No later than June 30, 1993, the General Accounting Office shall conduct a study and submit a report on the implementation of programs under subsection (a) and the employees (including information of the employing agencies and rates of pay of such employees) who have participated in such programs.

(e) The provisions of this section are repealed effective December 31, 1993.

DECONCINI (AND OTHERS) AMENDMENT NO. 2620

Mr. DECONCINI (for himself Mr. D'AMATO, and Mr. HELMS) proposed an amendment which was subsequently modified, to the bill H.R. 5241, supra as follows:

On page 114, after line 22, add the following new section:

SEC. . (a) The Senate finds that—

(1) democracy and freedom of the independent Arab nations have been threatened by the invasion and illegal annexation of Kuwait by the Government of the Republic of Iraq;

(2) the safety of American citizens and those of other countries have been directly threatened by the decision of the Government of Iraq to move them and use them as "human shields" at strategic defense and industrial installations;

(3) the stability of world oil production and marketing has been threatened by the illegal Iraqi seizure of Kuwaiti ports and oil production facilities;

(4) the United Nations has condemned Iraq's invasion of Kuwait, has voted to impose an economic embargo on Iraq, and has declared null and void the annexation of Kuwait;

(5) the United Nationns Security Council has approved the use of appropriate military force by individual nations to enforce United Nations sanctions;

(6) the President of the United States has taken the lead in unifying world opinion and directing international efforts against the Iraqi aggession and in defense of Saudi Arabia and the other Gulf states;

(7) a majority of Arab nations have condemned Iraq's actions and have supported Arab military and diplomatic efforts to defend the Gulf states and to ensure Iraq's withdrawal from Kuwait;

(8) the United States is deploying tens of thousands of American troops and military hardware to the Persian Gulf in defense of the strategic interests of the United States in the region at costs estimated to be in excess of $40 million a day, during a time of an increasing budget deficit;

(9) a principal position of the United States and its NATO and major non-NATO allies is one of burdensharing in the collective defense of the Western alliance;

(10) the Senate and the American people are deeply concerned about the need for a reduced budget deficit and improved economic growth; and

(11) President George Bush has announced his intention to develop an economic action plan under which nations benefitting from the economic embargo and the military actions in the Persian Gulf assist those nations which are committing their military personnel and materiel to support these United Nations actions.

(b) It is the sense of the Senate that—

(1) the President of the United States should be congratulated for taking the diplomatic initiative to encourage other nations to share the international financial burden of the defense of Saudi Arabia; and

(2) the President of the United States—

(A) in consultation with the allies of the United States in the Persian Gulf defense operation, should—

(i) take steps to ensure that United States allies are sharing an appropriate portion of the collective defense of their interests in the Gulf;

(ii) take steps to ensure that those allies who are precluded from any overt military participation in the Gulf, or who decide against participating in these defensive actions, or who only provide minimal participation are assuming an appropriate financial share of the collective defense commensurate with their national means; and

(iii) take steps to ensure that those oil producing nations which may benefit from increased individual oil production and world oil prices as a result of the embargo of Iraqi and Kuwaiti oil proportionally share the burden of the costs of the embargo, either directly with those nations providing the defense, or by equivalent "in-kind" payments, or by assuming some of the other international financial burdens of the major defense-providing nations;

(B) in concert with the Secretary of State, the Secretary of Defense, the Secretary of the Treasury, and the Director of the Office of Management and Budget, shall consult with Congress on the steps the President is taking to meet the goals enumerated in subparagraph (A) and shall provide a report to the Congress no later than November 30, 1990, detailing the progress of such steps to date;

(C) during his consultations with other international leaders, should consider stressing, among other points, that failure by any country to actively contribute in the most appropriate manner for that country could have a detrimental impact on its bilateral relationship with the United States; and

(D) should also inform Congress of any legislative initiatives which need to be taken to meet the goals enumerated in subparagraphs (A) through (C).

HELMS (AND OTHERS) AMENDMENT NO. 2621

Mr. HELMS (for himself, Mr. DECONCINI, and Mr. SARBANES) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 114, after line 22, insert the following new section:

SEC. 628. Section 3401(a) of title 39, United States Code, is amended in clause (1)(A) by striking out "or" the first time it appears in such clause and inserting ", or temporarily deployed overseas for an operational contingency in arduous circumstances, as determined by the Secretary of Defense" after "belligerent".

CRANSTON (AND SARBANES) AMENDMENT NO. 2622

Mr. DECONCINI (for Mr. CRANSTON, for himself and Mr. SARBANES) proposed an amendment to the bill H.R. 5241, supra, as follows:

At the end of the amendment, add the following new subsection:

This section shall apply to military personnel participating in "Operation Desert Shield".

DURENBERGER (AND BOSCHWITZ) AMENDMENT NO. 2623

Mr. COCHRAN (for Mr. DURENBERGER, for himself and Mr. BOSCHWITZ) proposed an amendment to the bill H.R. 5241, supra, as follows:

On page 41, line 17, strike "$5,084,586,800" and insert in lieu thereof "$5,099,606,800".

On page 41, line 18, strike "$1,282,830,000" and insert in lieu thereof "$1,298,133,000".

On page 44, line 25, strike "Courthouse Annex, $47,710,000" and insert in lieu thereof "Courthouse, $63,013,000".

On page 52, line 18, strike "$1,505,780,000" and insert in lieu thereof "$1,505,497,000".

On page 55, line 6, strike "$5,084,586,800" and insert in lieu thereof "$5,099,606,800".

BURDICK (AND COCHRAN) AMENDMENT NO. 2624

Mr. COCHRAN (for Mr. BURDICK, for himself and Mr. COCHRAN) proposed an amendment to the bill H.R. 5241, supra, as follows:

At the appropriate place in the bill, insert:

SEC. . None of the funds in this Act, or otherwise made available by this Act, may be used to pay the salaries of personnel at the Office of Management and Budget who withhold, or fail to make available, funds made available by law needed to eliminate

the backlog of applications for insured loans by the Rural Electrification Administration.

HEINZ (AND BOND) AMENDMENT NO. 2625

Mr. HEINZ (for himself and Mr. BOND) proposed an amendment to the bill H.R. 5241, supra, as follows:

At the appropriate place in the bill, insert the following new section:

SEC. . (a) The Congress finds that—

(1) President Saddam Hussein of Iraq has attempted to evade the consequences of his illegal invasion of Kuwait by the taking of civilian hostages;

(2) Saddam Hussein has violated standards of civilized conduct by willfully seeking to endanger the lives of foreign civilians in Kuwait and Iraq;

(3) He has further violated international diplomatic practice by laying siege to Western embassies in Kuwait;

(4) Iraq's conduct both at home and on the battlefield during the recent war with Iran has demonstrated a willingness to use the most barbaric methods of warfare, including the gassing of civilian women and children;

(5) The Nuremberg conventions, while denying national guilt for acts of war, do also stipulate that individual leaders may be held responsible for violations of the conventions of war and of civilized behavior;

(6) The taking of hostages, the use of gas, the terrorizing of civilians and diplomats, and other such acts in both peace and war have long been considered crimes against humanity for which prosecution is justifiable.

(b) It is the sense of the Senate that in the event of hostilities between the United States and the Government of Iraq it shall be the policy of the United States to pursue Saddam Hussein, other Iraqi leaders, and other such perpetrators as may be determined responsible in order to bring them to justice as war criminals, and to seek their prosecution and punishment under international auspices of the international community.

NOTICES OF HEARINGS

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. INOUYE. Mr. President, I would like to announce that the Select Committee on Indian Affairs will be holding a joint hearing with the House Committee on Interior and Insular Affairs on Tuesday, September 11, 1990, beginning at 9:30 a.m., in 485 Russell Senate Office Building on H.R. 5539, the San Carlos water settlement.

Those wishing additional information should contact the Select Committee on Indian Affairs at 224-2251.

Mr. INOUYE. Mr. President, I would like to announce that the Select Committee on Indian Affairs will be holding a markup on Wednesday, September 12, 1990, beginning at 10 a.m., in 485 Russell Senate Office Building on S. 2850, the Innovative Indian Health Facilities and Delivery System Demonstration Project Act; S. 2928, the Technical Amendments to the Indian Self-Determination Act; S. 381, a bill to provide Federal recognition of the Mowa Band of Choctaw Indians; S. 2888, the Indian Health Care, Provision; and S. 2995, a portion of income derived from trust or restricted land held by an Indian shall not be considered as a resource or income in determining eligibility for assistance under any Federal or federally assisted program.

Those wishing additional information should contact the Select Committee on Indian Affairs at 224-2251.

Mr. INOUYE. Mr. President, I would like to announce that the Select Committee on Indian Affairs will be holding a joint hearing with the Senate Committee on Energy and Natural Resources on Thursday, September 13, 1990, beginning at 8:30 a.m., in 366 Dirksen Senate Office Building on S. 2870, the Fort Hall Indian Water Rights Act of 1990.

Those wishing additional information should contact the Select Committee on Indian Affairs at 224-2251.

Mr. INOUYE. Mr. President, I would like to announce that the Select Committee on Indian Affairs will be holding a markup on Tuesday, September 18, 1990, beginning at 10 a.m., in 485 Russell Senate Office Building on S. 2645, the Urban Indian Health Equity Act; H.R. 5539, the San Carlos water settlement and H.R. 5063, the Fort McDowell Indian water settlement to be followed by a hearing on S. 2895, the Seneca Nation Settlement Act of 1990.

Those wishing additional information should contact the Select Committee on Indian Affairs at 224-2251.

Mr. INOUYE. Mr. President, I would like to announce that the Select Committee on Indian Affairs will be holding a markup on Tuesday, September 25, 1990, beginning at 10 a.m., in 485 Russell Senate Office Building on S. 1554, the Truckee-Carson-Pyramid Lake Water Rights Settlement Act and S. 2870, the Fort Hall Indian Water Rights Act of 1990 to be followed by an oversight hearing on a proposal to establish Wounded Knee Memorial and Historic Site.

Those wishing additional information should contact the Select Committee on Indian Affairs at 224-2251.

COMMITTEE ON VETERANS' AFFAIRS

Mr. CRANSTON. Mr. President, I announce, for the information of Senators, that the Committee on Veterans' Affairs, which I am privileged to chair, is scheduled to hold a hearing on Wednesday, September 12, 1990, at 9 a.m., jointly with the House Committee on Veterans' Affairs, to consider the adequacy of the Soldiers' and Sailors' Civil Relief Act and Veterans Reemployment Rights for Operation Desert Shield personnel, in room 334 of Cannon House Office Building.

SPECIAL COMMITTEE ON AGING

Mr. PRYOR. Mr. President, I would like to announce for the public that the Senate Special Committee on Aging has scheduled a hearing entitled "Older Americans: An Effective, but Ignored Weapon Against Fraud and Abuse." The hearing will focus on Medicare's lack of responsiveness to concerns raised by beneficiaries about provider abuse and related issues.

The hearing will take place on Wednesday, September 12, 1990, beginning at 9:30 a.m. in room 628 of the Dirksen Senate Office Building.

For further information, please contact Portia Mittelman, staff director at (202) 224-5364.

SUBCOMMITTEE ON WATER AND POWER AND SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. JOHNSTON. Mr. President, I would like to announce for the public that the joint hearing before the Subcommittee on Water and Power of the Senate Committee on Energy and Natural Resources and the Select Committee on Indian Affairs previously scheduled to take place Thursday, September 13, 1990, at 9 a.m. in room SD-366 of the Dirksen Senate Office Building, Washington, DC, has been rescheduled to begin at 8:30 a.m. in room SD-562. The subject of the hearing will be S. 2870, the Fort Hall Indian Water Rights Act of 1990.

The subcommittee will postpone consideration of S. 2657, S. 2658, and H.R. 4148 until a later date.

For further information, please contact Tom Jensen, counsel for the subcommittee at (202) 224-2366.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. JOHNSTON. Mr. President, I would like to announce for the public that a hearing has been scheduled before the Committee on Energy and Natural Resources. The purpose of the hearing is to receive testimony on the implications of the Middle Eastern crisis for near- and mid-term oil supply.

The hearing will take place on Thursday, September 13, 1990, at 9:30 a.m. in room 366 of the Dirksen Senate Office Building in Washington, DC.

Those wishing to submit written testimony for the record should address it to the Committee on Energy and Natural Resources, room 364 of the Dirksen Senate Office Building, Washington, DC 20510.

For further information, please contact Patricia Beneke of the committee staff at (202) 224-2383.

SUBCOMMITTEE ON MINERAL RESOURCES DEVELOPMENT AND PRODUCTION

Mr. BINGAMAN. Mr. President, I would like to announce for the public that a hearing has been scheduled before the Mineral Resources Development and Production Subcommittee of the Committee on Energy and Natural Resources.

The hearing will take place on Thursday, September 13, 1990, at 2 p.m. in room 428A of the Russell

Senate Office Building in Washington, DC.

The purpose of the hearing is to receive testimony concerning the royalty and fee provisions of S. 1126, a bill to provide for the disposition of hardrock minerals on Federal lands.

Those wishing to submit written statements for the hearing record should deliver them to the Committee on Energy and Natural Resources, U.S. Senate, Dirksen Senate Office Building, room 364, Washington, DC 20510. For further information, please contact Lisa Vehmas of the subcommittee staff at (202) 224-7555.

SUBCOMMITTEE ON PUBLIC LANDS, NATIONAL PARKS AND FORESTS

Mr. BUMPERS. Mr. President, I would like to advise the public and my colleagues in the Senate that the Subcommittee on Public Lands, National Parks and Forests has scheduled four hearings in room SD-366 of the Dirksen Senate Office Building.

The purpose of the hearings is to receive testimony on several measures currently pending before the subcommittee. The hearings have been scheduled as follows:

September 19, 2 p.m.:

S. 2674, to provide for the reestablishment of the gray wolf in Yellowstone National Park and the Central Idaho Wilderness Areas.

September 20 2 p.m.:

S. 2771, to establish the Vancouver National Historical Reserve in the State of Washington, and for other purposes;

S. 2802, to authorize the establishment of the Fort Totten National Historical Site;

S. 2809 and H.R. 3683, to amend the National Trails System to provide for the study and designation of the Underground Railroad Historic Trail;

S. 2818 and H.R. 4834, to provide for a visitor center at Salem Maritime Nationl Historic Site in the Commonwealth of Massachusetts; and

H.R. 5084, to authorize the National Park Service to acquire and manage the Mary McLeod Bethune Council House National Historic Site, and for other purposes.

September 26, 2 p.m.:

S. 2474, to authorize an exchange of lands in South Dakota and Colorado;

Section 6 of S. 2543, entitled the "Admiralty Island National Monument Land Management Act of 1990," relating to a study of certain native villages in Alaska;

S. 2815, to establish the Kokapelli National Outdoor Theater in the State of Utah, and for other purposes;

S. 2816, to disclaim right, title, and interest of the United States in and to certain private lands conditionally relinquished to the United States under the act of June 4, 1987 (30 Stat. 11, 36), and for other purposes;

S. 2891, to authorize and direct an exchange of lands in Colorado;

H.R. 2566, to disclaim any interests of the United States in certain lands on San Juan Island, WA, and for other purposes; and

H.R. 3888, to allow a certain parcel of land in Rockingham County, VA, to be used for a child care center.

September 27, 2 p.m.:

S. 2882 and H.R. 3209 to modify the boundaries of the Indiana Dunes National Lakeshore, and for other purposes.

Due to the limited time available for the hearings, witnesses will be asked to testify by invitation only. However, anyone wishing to submit written testimony to be included in the hearing record is welcome to do so. Those wishing to submit written testimony should send two copies to the Subcommittee on Public Lands, National Parks and Forests, SD-364, Washington, DC 20510.

For further information regarding the hearings, please contact David Brooks at (202) 224-9863 or Beth Norcross at (202) 224-7933 of the subcommittee staff.

AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON EDUCATION, ARTS, AND THE HUMANITIES

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Subcommittee on Education, Arts, and the Humanities of the Committee on Labor and Human Resources be authorized to meet during the session of the Senate on Monday, September 10, 9 a.m., for a hearing on S. 2034, the national education report card.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be allowed to meet during the session of the Senate on Monday, September 10, 1990, at 10 a.m. to conduct a hearing on capital standards.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

THE LITTLE TOWN A NOTCH ABOVE US

● Mr. GORE. Mr. President, a lot of people in Washington, DC, were surprised by the recent issue of Money magazine and its fourth annual "The Best Places to Live Now" survey. Not only had Washington slipped from last year's 15th place in the survey to 142d, but Johnson City, TN, ranked 141st. Even the Washington Post was surprised. But, for those of us from Tennessee, well acquainted with Johnson City, no explanations were needed.

Tucked away in the foothills of the Appalachian Mountains, Johnson City boasts some of the most beautiful scenery in the country.

But, Johnson City is more than just a pretty face. The city's children benefit from excellent schools. Every resident can take advantage of the first-rate health services—the Mountain Home VA Hospital and the James H. Quillen Medical School. Businesses and industries praise the transportation network that links the area to other economic centers in the Southeast. All of these contribute to a quality of life that makes Johnson City special—ranked higher than even our Nation's Capital.

But what is truly exceptional about Johnson City are the people who call it home. There is no such thing as a stranger in Johnson City. Hospitality is the hallmark. And, as Washington Post reporter Phil McCombs discovered, that friendliness begins at the office of my friend, Mayor P.C. Snapp.

Unfortunately, because Mayor Snapp's barber was fishing the day of the interview, Phil McCombs did not talk to him, but pharmacist Clay Marrs and Tom Hodge, editorial director of the Johnson City Press spoke with Phil McCombs and told him what everyone in Johnson City—had they been interviewed—would have said—that with the mountains, lakes and hospitality, there is not a city in the United States they would rather live.

Tennesseans have known all along that Johnson City, and the other Tennessee cities listed in the Money magazine survey, Chattanooga, Clarksville, Knoxville, Memphis, and Nashville—some also ranked higher than Washington, DC—are great places to live and work.

Mr. President, I am pleased to include the Washington Post story "The Little Town a Notch Above Us" in the CONGRESSIONAL RECORD as a tribute to Mayor Snapp, Clay Marrs, Tom Hodge, and to all the wonderful people who call Johnson City, TN, home.

The article follows:

[From the Washington Post, Aug. 23, 1990]

THE LITTLE TOWN A NOTCH ABOVE US—JOHNSON CITY, TN.: NICE PLACE NO. 141

(By Phil McCombs)

As if the Washington area didn't have enough problems, comes now the September issue of Money magazine with its fourth annual "The Best Places to Live Now" survey showing that the area has dropped from the quite respectable 15th place it held last year.

To 142nd.

Ouch. Los Angeles-Long Beach was No. 10, for heaven's sake. And, according to Money, you'd be better off in Galveston, Tex. (32nd), Reno, Nev. (48th), or Florence, Ala. (60th). Even Buffalo ranked 91st of the 300 metropolitan areas evaluated.

Buffalo.

And get this: In 141st place this year, one notch above the nation's capital, is Johnson City, Tenn., a jurisdiction of about 50,000 souls in a "tri-city" metropolitan area on the eastern tip of the state that also includes Kingsport and Bristol, the latter being a two-state town that spills over into Virginia.

In an effort to assess what is so much better about Johnson City than Washington, a reporter telephoned city hall there and asked for the mayor's office.

"This is the mayor's office", said the woman pleasantly.

Could one possiby speak with the mayor?

"Yes, you may. Just a moment," she said without hesitation. And without asking who was calling.

Mayor P.C. Snapp came on the line. "It's like heaven down here," he said. "It probably takes me five minutes to drive to work. We've got a school system that was rated among the top 12 out of 142 systems in the state. We had the first curb-side recycling program in the state. The crime rate is very low too. I think we had four murders last year—that was an increase of 25 percent because we had three the year before—and all of these were people who knew one another. We have a minor legue baseball team, the Johnson City Cardinals, and were state high school basketball champs, Triple-A, this year."

A baseball team.

There is also this: "Just yesterday I was in New York at Moody's, or whatever they're called. We had been an A-rated city, and after going up there and presenting our case we're now an A-1, which means we can sell bonds a lot cheaper."

And this: Snapp's modern house has four bedrooms, two full baths, living room, dining room, TS kitchen, garage, a deck off the back and a third of an acre wooded lot. He figures he could get maybe $85,000 for it.

It's a suburban-rural area with lakes and mountains and countryside close at hand. The economy down there, he said, is "diversified," with East Tennessee State University, a new medical center, a new Veterans Affairs hospital and Texas Instruments providing more than 5,000 jobs.

"And Sears has its payment center here, where they have this—what's it called?—Discover card. Then another one is the Sears Tele-Catalogue center—if you call from five surrounding states to order something from Sears, it comes to this center. My wife, incidentally, works there. Mary Anne."

There's an arts center, of course, and "the foliage is real nice in the fall of the year. There are a lot of places here and there you can drive and look—hills and flatlands, undulating in places. On a clear day you can see Roan Mountain, part of the Appalachian chain, 6,000 foot, though near here it's 1,700 foot."

He recommended that a reporter talk to his barber for local color. But then he remembered that it was Wednesday, the barber's fishing day.

Tom Hodge, editorial director of the Johnson City Press, a paper where he's worked for 40 years, puts his love for the area this way: "I was born here and worked here and all over the United States, and chose to remain here. I never found a place I would rather raise my children than right here. It's a mixture of mountains and lakes with four full seasons, and, in my opinion, some of the most hospitable people in the world."

Clay Marrs, a pharmacist over at the Blankenship Pharmacy, located up against Interstate 181 halfway between the struggling old downtown and the busy new Miracle Mall, takes his Sunday school lessons from Hodge over at the First United Methodist Church. He says he's been up to Washington and doesn't like it much. "Washington has all the pitfalls of big cities," says Marrs, "all the hubbub of super-activity. Here we have busy days, but we're not under the pressure you are in the big city. There's too much going on, and you can't flatten it down, there's just no way."

And he's right. Somehow you just can't flatten it down, no matter how hard you try. All you can do, like the editors of Money, is drop it down to No. 142.

The magazine's editors asked 252 subscribers to rate the importance of characteristics such as weather and crime, then with the help of a consulting firm assigned points to each area depending on how it was thought to deliver on each characteristic. Most important to this year's readers were clean water, low crime, clean air, good cheap medical care, sound local government and low taxes.

Some of these are available around here, some clearly aren't.

The consulting firm, incidentally, is located in Portland, Ore. (38th), and, as it turned out, the Pacific Northwest nearly swept the top ratings, with four of the top eight places this year being in Washington state and another next door in Oregon. But that's another story.

At least Washington, at 142, is one notch above Lynchburg, Va.

Whew.●

AMERICAN MILITARY RESCUE ASSISTANCE FOLLOWING EARTHQUAKE IN REPUBLIC OF THE PHILIPPINES

● Mr. McCAIN. Mr. President, this morning I would like to take a moment to recognize the efforts of the men and women of the our military that have taken part in the recent earthquake rescue efforts in the Republic of the Philippines.

The earthquake that shook the Philippines on July 17 measured 7.7 on the Richter scale; the devastation was vast. The majority of the destruction was centered in Baguio, a town of 170,000 located high in the mountains 130 miles north of Manila.

During the initial hours following the initial tremor, the only means of rescue and support for the town of Baguio was by helicopter. Teams of medical support personnel and relief rescue members were flown by Marine Corps helicopters attached to Marine Air Ground Task Force 4-90, from the 1st Marine Aircraft Wing and the 13th Marine Expeditionary Unit, to Baguio. For 4 days, before Bangio's Loakan Airport was repaired and operational, the Marines flew mission after mission providing the earthquake victims much needed food, medicine and temporary shelter. The around-the-clock effort of these Marines is reflected in the many tons of emergency supplies flown in to the mountain town and the number of lives saved through medical evacuation to hospitals to the south.

Tons of relief supplies, equipment and support personnel were flown to the Philippines in Marine Corps KC-130 aircraft stationed on Okinawa, Japan with Marine Corps Squadron VMGR-152. Once in the Philippines, CH-53D's from HMH-363, OV-10's from VMO-2, and UH-1N's from HMLA-267 along with CH-53E's and CH-46's from the 13th Marine Expeditionary Force provided continuous relief efforts to the earthquake stricken area.

Amid the rubble and the tremors of the after shocks, the Marines worked hand-in-hand with the people of Baguio searching for survivors and claiming the dead. The work was dangerous as the rescuers worked midst destroyed buildings in the intense heat and humidity of a Philippine summer. The destruction was massive and it is estimated that 90 percent of all of the buildings and houses in Baguio were seriously damaged or destroyed.

Mr. President, this tragic event helps remind us that while the men and women of our Armed Forces serve in the defense of this Nation, they also provide a strength and determination that can be brought to bear in crises such as the one recently experienced in the Philippines. The humanitarian efforts of those that participated in the rescue efforts should be held out as demonstration that the good will of this Nation extends far beyond the negotiation table. As they have so many times in the past, the Marines, soldiers, sailors and airmen of this Nation demonstrated their readiness and willingness to perform missions that required moments of daring and acts of heroism.

Mr. President, it is important that we take a moment to remember that the men and women of our military serve in harms way in many different types of operations. During the rescue operation, a Marine Corps aircraft crashed, killing the pilot, Capt. Michael J. Shannon, and injuring the co-pilot. Mr. President, Captain Shannon died while serving in a humanitarian effort to save the lives of the victims of this devastating earthquake. As a Marine pilot, he knew the risks of his profession. Mr. President, the world is a better place because of the sacrifices of all of the members of our Armed Forces that participated in the rescue operation. In particular, I would ask that we recognize the sacrifice of Captain Shannon, his service to his country and to his fellow man.●

WHY IS AMERICA FAILING ITS CHILDREN?

● Mr. KOHL. Mr. President, the stark black and white cover of yesterday's New York Times magazine, struck me with the question, "Why Is America Failing Its Children?" T. Berry Brazel-

ton, a pediatrician at Harvard Medical School and Children's Hospital Medical Center in Boston, has once again pricked our conscience on where our national priorities ought to be.

It is a time when the National Commission on Children tells us that 25 percent of our children are living in poverty. It is a time when a new twist has been added to the Peace Corps: Foreign students doing service in the United States, shocked at the poverty and homelessness they find in our streets. It is a time when the leaders of the world will soon be gathering at the United Nations to participate in the Summit on Children. And it is a time, when at Andrews Air Force Base our own summiteers and President are meeting to define our budget. In so doing, we have an opportunity to realign our national priorities for the next 5 years.

We ought to recommit to our Nation's children and families, Mr. President. It is the best investment we can make in our future. I urge my colleagues to read Dr. Brazelton's article, to give serious consideration to this point that we have no choice but to make families our top priority. I ask that the article be printed in the RECORD.

The article follows:

[From the New York Times magazine, Sept. 9, 1990]

WHY IS AMERICA FAILING ITS CHILDREN?

(By T. Berry Brazelton)

Frightened children crowd the chaotic, steamy hall outside a Los Angeles courtroom. Some are crying. Others can only muster the energy to whimper. Most are dirty, with sallow skin and dull expressions, and they cling to their mothers' skirts.

In succseesion, the mothers and a few fathers are called to appear before a sympathetic but harried judge, who has already studied the pile of reports from welfare workers and now allots 30 minutes to hear and decide each case. The question: Which children can stay with their parents and which ones cannot?

The children in the courthouse have been living at a shelter that tries to rehabilitate families. Their stories have a pathetic sameness. A family of four had been wandering for two years after relatives threw them out. When the father succeeds in panhandling money, he drinks and becomes abusive and violent. The mother, haggard and slow-moving, appears half-witted. Her file says she is incapable of caring for there two children. The daughter, age 8, was failing second grade and has changed schools five times. Her 5-year-old brother has bad dreams. At the welfare hotel where the family lived for a while, he was scared that "a mean man" would take him away from his mother. When asked how that made him feel, he replied "itchy." The reason, his mother said, was that there were not enough beds and that the children slept on the bug-infested floor.

What choice do the courts have with such families? Often, the judges will deem the case hopeless and try to salvage children by putting them in foster care—"before it is too late."

But, in too many cases, it already seems too late to me. The families are locked into a system that is not working for anyone—the family or the courts—and judges and social workers can offer only Band-Aids.

I was at the courthouse several months ago with other members of the National Commission on Children, a group appointed by the White House and Congress in 1989 to study the status of America's future generation. The panel's 36 members come from all professions, all political persuasions and all parts of the country. In the first year of its two-year tenure, the commission has been visiting prisons, courtrooms and neighborhoods, and holding hearings and meetings in cities and towns from Connecticut to California. What it learns will shape its recommendations, due next spring, for private and public initiatives for the 90's.

As a pediatrician with 40 years' experience with 25,000 children, mostly middle class, I have begun to regard the growing neglect and poverty of the young as the biggest threat to the nation's future. I also see evidence that we could start preventing this terrible waste, with remedies available right now—but we seem to have lost the will even to think about it.

Consider the reaction when the commission reported its first-year findings last month. Children are the poorest group in society, with more than one in five living in a household whose income is below the poverty level, $12,700 for a family of four. Despite medical advances, the United States infant mortality rate is worse than in some third world countries, and every day more than 100 American babies die before their first birthday. About one million teen-agers become pregnant each year, and as many as 18 percent of newborns in some city hospitals are born exposed to alcohol, crack and other hard drugs.

On hearing all this, the press asked, "So, what's new?" The panel could only reply, alas, that nothing is new. Americans have become numb to reports of the hopelessness of their children.

Are we really so cynical or are we afraid to face the problem? As the commission has noted, the figures are widely reported, but too rarely followed up by action. Taxpayers and legislators are not yet determined to insure that every child has the opportunity to grow up healthy and whole, to be secure, and to become literate and economically productive.

Certainly, the uneven face of American poverty is a factor. Although at least 21 percent of all children are needy, the problem is more intense in city neighborhoods and rural pockets. Forty-five percent of black children and 39 percent of Hispanic children were poor in 1987, compared with 15 percent of whites. More than half the children in households headed by single women are impoverished.

Employment does not guarantee escape from poverty. Forty-four percent of poor two-parent families have at least one full-time worker, and 25 percent of these households have a parent who works part time. The prevalent bias—that those who are destitute deserve it—is not borne out by the commission's investigations.

Needy children are in double jeopardy. They have the most health problems, and the least access to care. Poor women do not receive prenatal care or adequate preventive care for their infants. When they do seek help, no one seems to care about them as people. Thus, they go to doctors and hospitals only in emergencies. In general, the families that suffer the most social stress receive the least social support. The widening gap in this country between rich and poor makes it even more likely that these children will repeat their parents' poverty. They will not be prepared to contribute to society—except in an antagonistic, often violent, way.

When I testify about the problems of middle-class, two-career families, I find the news media attentive. The increasing pressure on such families is enormous. But even there, in pressing for decent day care, maternity and paternity leaves from work and other initiatives related to children's well-being, I have learned how little commitment there is at the national level to family issues.

We are the least family-oriented society in the civilized world. If you asked any citizen, "Does America believe in families and children?" the answer would be, "Of course." But how much denial and distortion is couched in that answer!

If there is an implicit bias in the United States, it is this: Families should be self-sufficient, and if they're not, they deserve to suffer. That outlook appears to dominate political and private decisions. Only for the group of desperate families willing to label themselves hopeless—unwed, unemployed, homeless—do we have handouts, like Aid to Families with Dependent Children. to qualify for help, a family must first identify itself as a failure. The labels stick. Treated as such, people will feel and act like failures. Despite the huge amount spent on welfare, the efforts are generally counterproductive, offering money without real support.

Programs like Head Start and Women, Infants and Children (a supplemental food program) have often succeeded because they reached out to parents. Families are educated together. As children succeed, their parents begin to feel successful. This progress has a lasting effect. Unfortunately, few programs take such an approach, and the human and financial commitment required is considerable. To succeed, a program has to make people feel as if they are individuals worthy of help. How is that done? It might mean that someone has to enter the bleak, often dangerous, world of poor families to help clean up their house, for example, to buy the groceries and to play with their children.

Several months ago, I was hurrying to an appointment in lower Manhattan. I saw a typical homeless man approaching. He had long, matted hair and dirty, slept-in clothing. I was relieved to see that his eyes were fixed on the ground. I averted mine to avoid contact, which would have added guilt to my feelings about his condition.

As we passed each other, he said, "I sure like your show, Doc."

Startled and unbelieving, I asked, "Do you watch it?"

"When I can find a free TV," he replied.

"Do you have any children?"

"Yeah, a baby. She's right over here, if you want to see her."

He took me over to the protected corner of a bank building, where a young woman was tenderly nursing her 4-month-old baby. The father, whose image had already changed in my eyes, picked up the infant, cradled her and began to play.

Soon they were locked in a reciprocal exchange of "Yeah," "Coo," "That's right," "Coo," "Come on, one more time." He turned to me and said, "That's how you do it on your television show."

I was completely won over. We were on the same wave-length and talked about baby and family issues for several minutes. All the ingredients for being a successful parent were there, needing only adequate support.

I didn't give them housing or money, but they welcomed my respect and empathy. Their gift to me was insight into the depth of my prejudices.

When I returned to my Cambridge, Mass., office that afternoon, a young father brought me his 4-month-old baby. He was as proud and committed as my friend of the streets. He demonstrated the same tender communication as he looked down at his daughter. "How is my girl?" he said. She cooed. He cooed back. Their communication was a replica of the powerful bonds I saw growing in the homeless family in New York.

Families do care about one another. What an opportunity we have to strengthen and cement young families around a new baby.

Members of the National Commission on Children went to a high-security prison in rural South Carolina to talk to teen-agers serving sentences of 15 to 20 years for rape, murder and armed robbery.

Many of the young men, white and black, carried the signs of intractable poverty: the shifty, gaze-avoiding look with head half-cocked that says, "Hit me again, I'm no good." The looks of others, however, were clear-eyed, direct and confident. They sat in a ring next to us in the room where we met. The armed guards who surrounded us were as unobtrusive as possible. We wanted to find out what brought these children there.

As we talked, the questions became more personal. Their responses seemed to fall into two categories.

One group became sullen and lifeless. Their shoulders sagged. Their hands shifted uneasily in their laps. Their dirty hair and sallow complexions gave the impression that they had given up. Only their eyes belied this, becoming steely as they watched the more verbal members talk with us. They were angry, not hopeless.

The verbal teen-agers were alert and carried themselves with the confidence of athletes. Their complexions were clearer, their hair was likely to be clean and thick. Their responses were open and charming, and had none of the ominous hostility of those of the other group. They used body language to capture our attention. One could easily imagine offering a home to one of them, though their histories included murder and rape.

A handsome youth in this group told us his story. He grew up in poverty in rural South Carolina, raised by a struggling single mother. Even as a child, he felt sorry for her. He saw her as overwhelmed—with too many kids, no support, no hope in her job. No one ever had time to do anything but scold or swat him. He couldn't wait until he reached the age of 12. Then, he figured, he could be on his own and be as angry as he always wanted. He could rob, vandalize, even murder, if anyone got in his way. He could get all the things he wanted, trying to banish the empty feeling he always had. He spoke as if this had been his destiny, and he had fulfilled it.

Others spoke of anger and crime as an antidote to boredom and emptiness. They told us how sure they were that they needed to be incarcerated. A curly headed boy said, "I knew that if they didn't put me in jail the first time, I'd keep on until they did."

A commission member asked, "What will you do when you finish your term here?"

"Get put back in, I guess," he replied. His energy and air of self-confidence covered his underlying turbulence.

I felt this boy had the capacity for what physicists call escape velocity. As particles circle a central focus, centrifugal force holds them in their orbit. A few particles spin out of orbit and shoot off into space with escape velocity. These particles are indowed with unusual force. They continue on a long trajectory.

Some young prisoners had that kind of personal force. If they had been salvaged early and had had this energy channeled more positively, they might have become the children who escape from poverty. But no one had stood by to help or guide them. No one had given their families individual attention or expert advice.

When I saw these teenagers in the Bennettsville, S.C., prison, I thought: From years of experience, I know that we have the knowledge to recognize this expectation of failure, when a child is as young as 9 months. Can we avert it if we start to help them then?

In our work at Children's Hospital in Boston, where I founded the Child Development Unit, we assess babies of all ages and from all sectors of society. By 9 months of age, the babies who show signs that they expect to fail for the rest of their lives can be identified by various tests. For instance, we can tell a lot when we hand them two blocks to play with. A child who expects to succeed in demanding situations will take one block, mouth it, rub it in his hair, drop it over the side of the table, looking up to see who will retrieve it. Finally, he'll show his cognitive capacity to match size and shape by putting the two blocks together. At that point, he'll look up at the examiner with a twinkling, bright-eyed look. He expects to be praised.

By contrast, a child who expects to fail may dutifully take the two blocks. He won't dare to experiment. His repertory is already limited by the realization that no one will care. He slides the two blocks close to each other, demonstrating appropriate cognitive capacity. But, as if compelled, he slides them past each other. As he fails in the task, he looks up at us with a dull look of failure. He cocks his head to one side, as if to say: "Hit me again. I'm no good, and I deserve it." At 15 months, he'll trip as he walks. Then he'll look up vacantly to receive the recognition of his failure. At 18 months, he'll make the adults who take care of him so angry, with temper tantrums and other provocations, that they'll want to strangle him. He already feels it is his destiny to fail.

We don't know whether he expects to fail because he comes from a chaotic, unrewarding environment, or whether learning disabilities or hyperactivity have held him back. Either factor produces such a pattern. A hyperactive child senses his failure long before it can be diagnosed. He already experiences the damaged self-image that will be the most serious hurdle for any potential remedial action. Poor children sense the hopelessness in their parents and learn to fail. No one in their surroundings has the time or the energy to observe them as they work to master a developmental task. No one supports them as they struggle toward a goal. If they do master something, there is not one to say: "Look what you just did! You did it yourself!" The rewards to fuel future success are not present.

Some children need help from the day they are born. The newborns who are exposed to alcohol and hard drugs like crack and heroin are potentially handicapped by the disorganization of their nervous systems, a condition that is hard to establish medically but is apparent to anyone who sees the baby. They are either limp and unresponsive or are hypersensitive and behave chaotically. They have difficulty receiving and responding to the stimuli of a soothing voice or face. When they are cuddled or rocked, they react with piercing wails and jerky motions. Few people could love these babies. They are likely to suffer later from learning disabilities and to be either hyperactive or emotionally flat. They also tend to be at the mercy of their impulses. The social programs required to educate them will cost billions of dollars. Then, eventually, it will cost billions more to incarcerate them. A new generation will have to live with them, as well as pay the price of our generation's insensitivity to their parents' hopelessness.

What would help? Special centers for fragile infants and mothers would allow two generations a safe haven, a place to withdraw from their addiction and despair. A new mother has a rare incentive to re-evaluate her own life. Early intervention in teaching mothers how to care for their babies could help.

Recently, I assessed a premature infant at Boston City Hospital. She was one of twins born to a drug addict. The other baby was still on life support, but at 1 week of age, this one was now out of the oxygen unit and could be evaluated. She still had an intravenous line dripping into her right hand for feeding. The intestinal tracts of such babies cannot tolerate food, and they must be fed artificially. Meanwhile, they are at high risk.

The neonatologist told me she and the other doctors thought that the baby was blind, because her eyes wandered independently. They weren't sure if she could hear, and her muscle tone was so poor that they thought she had a damaged nervous system. Newborns of mothers addicted to cocaine are unresponsive. During pregnancy, the drug crosses into the placenta and remains in a fetus's system for two to three hours after a 20-minute hit for the mother.

As I tried to arouse this limp infant, she suddenly began to stiffen and scream, changing from a listless state to a hyperactive one. Her screams, coupled with her scrawny, wrinkled body and frowning face, made her extremely unattractive. What would an addicted parent in an addicted environment do to such a baby? The ingredients for child abuse were all there. When I tried to swaddle her, she fought her way out of the wrappings with frantic motions of arms, legs and torso. When I tried to give her a pacifier, she spit it across the room.

Finally, in desperation, I forced her left thumb into her mouth and held it there. She gagged, and the onlookers winced. I held it in her mouth until she finally began to suck on it. At that point, her eyes, which had been wandering, came together. She seemed to focus all of her kinetic energy on her sucking. Her eyes opened to follow my face and voice, as I rocked her gently and talked quietly to her. She followed a bright red ball that I held about 18 inches in front of her eyes. Her face brightened and softened, her features became babyish and pretty for the first time. Her entire body relaxed in my hands, as she followed me with her eyes and turned to my voice. She had become an engaging baby. No longer did we think she was blind, or even brain-damaged. She was saving herself.

The nurses who had cared for her were amazed. They brought in the mother, a depressed, fragile-looking woman who had been indicted on charges that she had abused her fetus. As she watched her transformed baby responding to my face and voice, relaxed and responsive, sucking on her fist to control herself, the mother began to weep and said: "What I've done to my baby!"

The woman, addicted to crack, heroin and methadone, is in treatment and is showing signs of progress. Her baby is in an early intervention program and is doing well. She probably does not have permanent brain damage, though she may eventually have various physiological problems.

But a lot is known about remedial treatment for fragile premature babies, knowledge that could also be applied to drug-exposed babies. In a recent study in eight cities of high-risk premature infants, sponsored chiefly by the Robert Wood Johnson Foundation, it was demonstrated that intervention for the infant and personal care and attention for the families paid off. At age 3, the I.Q.'s of the babies who received help increased by 6 to 13 points, enough to provide them with the basis for making it in society.

Many of these babies will have learning disabilities, attention disorders like hyperactivity and, eventually, impulse disorders, meaning they will lack all sense of self-control. If they are sent home to a parent who is addicted or to an otherwise chaotic environment, they have little hope for recovery.

Can some addicted mothers be salvaged for their babies' sake? The effort needs to be made, because there are not enough foster homes for the lost children. If this isn't addressed as a national emergency, the country will throw away two generations—the babies and their mothers.

The course of American poverty can be changed. We must identify what endangers children and what protects them. We must begin early to enhance parents' desire to nurture their children. A few programs follow this approach, and they are outlined in Lisbeth B. and Daniel Schorr's excellent book, "Within Our Reach: Breaking the Cycle of Disadvantage" (Doubleday, Anchor).

Take two outstanding programs, in Tacoma, Wash., and New Haven.

In Tacoma several years ago, a group from Catholic Community Services was bemoaning the tragedy of troubled families who were on the verge of giving up their children. The families received aid from a patchwork of services, but needed more concerted help. The group created a program, with the help of financing from the National Institute of Mental Health, that offers the services of social workers, psychologists and counselors for any family in imminent danger of losing their child or children. The worker has only two families at a time and meets frequently with them at home, even occasionally helping with daily problems like balancing checkbooks. Gradually the family learns to trust this counselor, who can then help them with the harder task of rebuilding their lives. The success of the Tacoma program is demonstrated in the number of preserved families. Ninety percent of the families in the program are together after nine years.

The New Haven program is for school-age children. Starting two decades ago, Dr. James P. Comer, a Yale child psychiatrist, reorganized communities around efforts of improve elementary schools in devastated neighborhoods. The parents work with the teachers, principal and other school staff as part of a team. Children do better in school when they see that their parents are involved in their education. At the same time, the parents find allies who can help them with the problems of living in the inner city.

More than 100 schools across the country have adopted the parent-partnership approach, and they have reported impressive gains in students' test scores. With support from the Rockefeller Foundation, Dr. Comer's approach will be tried in the District of Columbia public schools.

According to the Schorrs, the programs that succeed in helping children have four things in common, all seemingly self-evident but all difficult to achieve with the current Band-Aid system. Help must be available at all times and in many different ways. There must be provision, missing from current welfare policies, for meeting individual needs. The staff must be trained and, just as important, build trust among the people. The program must also be accepted in the community.

The challenge for the National Commission on Children is to come up with ways to strengthen families and to support them as they nurture their children's development. We can do it, but it will be expensive and difficult. American leaders seem able to focus only on danger from outside the country, not yet recognizing in any committed way that the greatest threat is from within, in the breakdown of families and in the growing numbers of poor. The anger and addictions of the impoverished and the harm being done to their children are a national crisis. If we want poor children—and therefore all children—to have a future in this country, we have no choice but to make families our top priority.●

TRIBUTE TO QUEENS MINORITY BUSINESS DEVELOPMENT CENTER

● Mr. D'AMATO. Mr. President, I rise today to congratulate the members of the Queens Minority Business Development Center as they prepare for Minority Enterprise Development Week 1990, which will be observed during the first week of October.

The Queens Minority Business Development Center, which operates under a cooperative agreement with the U.S. Department of Commerce Minority Business Development Agency, is dedicated to establishing and strengthening minority-owned businesses throughout the Queens Borough. The center operates as a highly skilled business consulting firm that renders technical assistance and professional services to minority-owned firms. This assistance is accomplished by providing expertise in particular service areas such as financial management, loan proposals, marketing development and training.

Small businesses are certainly the backbone of our economy. The furnishing of technical assistance and counseling through consulting firms such as the Queens Minority Business Development Center will go a long way in assisting in the rejuvenation of our economy.

I strongly urge the Queens Minority Business Development Center to continue their efforts to help New York State's minority businessmen and businesswomen. Moreover, I would like to personally thank them for their contribution to America's future.●

DOWNRIVER SALVATION ARMY MARKS ITS CENTENNIAL

● Mr. RIEGLE. Mr. President, this week marks the centennial celebration of the Salvation Army in the Downriver Detroit area and the 125th anniversary of the Salvation Army's inception. The Salvation Army's history is one of service to the community and enhancement of the lives of everyone this fine organization comes in contact with through its extensive network. This association deserves recognition for its altruistic work and its efforts to spread good will around the world.

Since 1865, when William Booth began preaching the word of God to the downtrodden in London's East End, the Salvation Army has maintained the highest level of integrity. The goal of the organization has been to rescue the more unfortunate in our society by providing hospitals, drug and alcohol rehabilitation centers, senior activity clubs, boys and girls camps and clubs, and day-care centers. It also provides family assistance, education programs for unwed mothers, aid to prisoners and their families, and spiritual and secular guidance for all.

There are presently more than 14,000 corps communities worldwide. The Salvation Army now grants much of its assistance to people in less developed countries. These services include disaster relief, the acquisition of fundamental requirements, and vocational instruction.

The Downriver Corps has met the challenges they have faced in the Downriver area with the same unwavering determination that has been the distinguishing feature of the international corps. The fact that they are able to have a centennial celebration is a testimony to the importance of their cause.●

HONORING CAMP FIVE IN LAONA, WI

● Mr. KASTEN. Mr. President, I rise today to report to my colleagues on the very entertaining and instructive visit I paid over the congressional recess to Camp Five in Laona, WI.

Camp Five is a living museum—an industrial forest that demonstrates with breathtaking vividness the richness of Wisconsin's forestry resources. It combines a recreational environment—including wildlife habitat—with a working multiple-use commercial forest.

The guiding spirit behind Camp Five—indeed, behind the whole economic project of the State of Wisconsin—is the prudent combination of environmental protection and wise resource management.

Camp Five doesn't just profess this approach as an ideal; it demonstrates it in action. Everyone I met there was convinced that a genuine community of interests exists among environmentalists, loggers, timber owners and other citizens concerned about the future.

I think the country as a whole has a lot to learn from their attitude—and I encourage all my colleagues here in the Senate to investigate the intriguing facility that is Camp Five in Laona, WI.●

TOWN OF HARRISON, NJ, COMMEMORATES 150TH ANNIVERSARY

● Mr. LAUTENBERG. Mr. President, I rise to pay tribute to the town of Harrison, NJ, celebrating its sesquicentennial this year.

Harrison's citizens will gather on September 22 to enjoy a gala celebration in honor of its 150th year. Since 1668, Harrison has had historical significance. That year, Capt. William Sandford arrived from the West Indies and purchased a tract of land from present day Harrison to what is today the northern boundary of Rutherford, NJ.

172 years later on February 22, 1840, the New Jersey State Legislature established Harrison. For the next 50 years the town saw many changes as it prepared to go into the 20th century.

There was development of heavy industry, increasing residential development, and the formation of the board of education and the construction of two schools. Many more changes have taken place over the years, including the construction of residential neighborhoods and industrial complexes.

A five-man commission governed Harrison from 1840 to 1903. In 1904 a mayor/council form of government replaced the previous commission government.

Only five mayors have served since the town has been governed by a mayor and council. For 43 years the country's longest continuous elected mayor has served. I am proud to recognize the Honorable Frank E. Rodgers, who has served his community with pride and distinction.

I join Mayor Rodgers and all the proud citizens of Harrison in extending my heartiest congratulations as they commemorate their rich 150-year history.

For 1½ centuries this proud town has played an important role in New Jersey. Best wishes to all as you celebrate this significant milestone.●

WOMEN'S HEALTH EQUITY ACT—ADDITIONAL COSPONSORS

● Ms. MIKULSKI. Mr. President, the names of two original cosponsors of my bill S. 2961, the Women's Health Equity Act of 1990, were mistakenly omitted. Senator GLENN, of Ohio, and Senator KOHL, of Wisconsin, have been strong in their support of women's health issues and wished to be included among the original cosponsors of this package.

The substance of Senator GLENN's bill S. 2619, on coverage of bone mass measurement for osteoporosis, has been included in my bill. Senator KOHL has been very active in support of legislation to aid women and families with substance abuse problems. I greatly regret having omitted their names from my earlier list of original cosponsors.●

JOINT SESSION OF THE TWO HOUSES TO RECEIVE A MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of House Concurrent Resolution 365 just received from the House.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 365) providing for a joint session of Congress to receive a message from the President.

The PRESIDING OFFICER. Is there objection to the request of the majority leader?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDEING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (H. Con. Res. 365) was agreed to as follows:

H. CON. RES. 365

Resolved by the House of Representatives (the Senate concurring), That the two Houses of Congress assemble in the Hall of the House of Representatives on Tuesday, September 11, 1990, at 9 o'clock post meridiem, for the purpose of receiving such communication as the President of the United States shall be pleased to make to them.

Passed the House of Representatives September 6, 1990.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the concurrent resolution was agreed to and I move to lay that motion on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

ACREAGE LIMITATION PROGRAM FOR 1991 CROP OF WHEAT

Mr. MITCHELL. Mr. President, on behalf of Senator DOLE, I send a bill to the desk and ask for its first reading.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 3018) to require the Secretary of Agriculture to announce an acreage limitation program for the 1991 crop of wheat.

Mr. MITCHELL. Mr. President, on behalf of Senator DOLE I now ask for the bill's second reading and, in my own right, on behalf of some Members on this side of the aisle, I object to that request.

The PRESIDING OFFICER. Objection is heard.

The bill will be held over to the next legislative day for a second reading.

ORDERS FOR TOMORROW

Mr. MITCHELL. Mr. President, I ask unanimous consent that when the Senate complete its business today, it stand in recess until 8:30 a.m. on Tuesday, September 11; that following the prayer, the Journal of proceedings be deemed approved to date; and the time for the two leaders be reserved for their use later in the day; that there be a period for morning business not to extend beyond 10 a.m.; and that the following Senators be recognized to speak, beginning with Senator ROCKEFELLER for 30 minutes, then Senator LAUTENBERG for 10 minutes, then Senator SPECTER for 15 minutes, and then Senator BIDEN for 45 minutes; and that at 10 a.m. the Senate resume consideration of H.R. 5241, the Treasury-Postal Service appropriations bill; I further ask unanimous consent that the Senate stand in recess at 12:30 p.m. to 2:15 p.m. tomorrow, to accommodate the party conferences.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS UNTIL TOMORROW AT 8:30 A.M.

Mr. MITCHELL. Mr. President, if there is no further business to come before the Senate today, I now ask unanimous consent that the Senate stand in recess under the previous order until 8:30 a.m. on Tuesday, September 11, 1990.

There being no objection, the Senate, at 7:09 p.m., recessed until Tuesday, September 11, 1990, at 8:30 a.m.

NOMINATIONS

Executive nominations received by the Senate September 10, 1990:

DEPARTMENT OF STATE

G. CONFIRMATIONS

Executive Nominations Confirmed by the Senate September 10, 1990:

PANAMA CANAL COMMISSION

GILBERTO GUARDIA FABREGA, A CITIZEN OF THE REPUBLIC OF PANAMA, TO BE ADMINISTRATOR OF THE PANAMA CANAL COMMISSION.

THE ABOVE NOMINATION WAS APPROVED SUBJECT TO THE NOMINEE'S COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

THE JUDICIARY

GRAHAM C. MULLEN, OF NORTH CAROLINA, TO BE UNITED STATES DISTRICT JUDGE FOR THE WESTERN DISTRICT OF NORTH CAROLINA.

WITHDRAWALS

Executive message received September 10, 1990, withdrawing from further Senate consideration the following nominations:

UNITED STATES ARMY

THE FOLLOWING-NAMED ARMY JUDGE ADVOCATE GENERAL'S CORPS OFFICERS FOR APPOINTMENT IN THE REGULAR ARMY OF THE UNITED STATES TO THE GRADE INDICATED UNDER THE PROVISIONS OF TITLE 10, UNITED STATES CODE, SECTIONS 611(A) AND 624(C), WHICH NOMINATIONS WERE SENT TO THE SENATE ON JULY 24, 1989:

To be permanent brigadier general

COLONEL THOMAS M. CREAN, XXX-XX-XXXX UNITED STATES ARMY
COLONEL KENNETH D. GRAY, XXX-XX-XXXX UNITED STATES ARMY

HOUSE OF REPRESENTATIVES—*Monday, September 10, 1990*

The House met at 12 noon and was called to order by the Speaker pro tempore [Mr. MAZZOLI].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
September 10, 1990.

I hereby designate the Honorable Romano L. Mazzoli to act as Speaker pro tempore today.

THOMAS S. FOLEY,
Speaker of the House of Representatives.

PRAYER

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

We pray for Your protection and providence, O God, in all the avenues of life. We attempt to use our own resources to be the people we ought to be and yet we still are weak and alone and fall short of the mark. On this day, O God, we pray that Your abiding and sustaining love will nurture us and make us whole and give us that quiet spirit of confidence and peace that is our earnest desire. In Your name, we pray. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The gentleman from California [Mr. CAMPBELL] will lead the House in the Pledge of Allegiance.

Mr. CAMPBELL of California led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

SUNDRY MESSAGES FROM THE PRESIDENT

Sundry messages in writing from the President of the United States were communicated to the House by Mr. Kalbaugh, one of his secretaries.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 1101. An act to extend the authorization of appropriations for the Water Resources Research Act of 1984 through the end of fiscal year 1994.

BIPARTISAN SUPPORT NEEDED FOR MIDDLE EAST CRISIS

(Mr. HUBBARD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUBBARD. Mr. Speaker, political watchers are saying today that now that Congress is back in session the bipartisan support for President George Bush's handling of the Middle East crisis will begin to come apart.

My constituency's voter registration is about 91 percent Democrat and 9 percent Republican.

The great majority of my constituents supports President Bush in his efforts thus far to halt the naked aggression of the modern day Adolf Hitler, the butcher of Baghdad—Saddam Hussein.

If we've learned anything from Hitler's rise to power, it's that this kind of aggression can only be confronted in a united effort.

As elected Representatives, hopefully we will be united in the face of a grave threat in the Middle East to our economy, even to our very way of life. We need to provide Saddam Hussein with unequivocal evidence of our country's determination to do whatever is necessary to force Iraq to surrender its human and territorial prey.

As Democrats and Republicans, we should remember: The less partisanship over this crisis by Democrats and Republicans, the better the prospects for success in the dangerous days and weeks ahead in the Middle East.

We might remember Kentucky's motto—"United we stand, divided we fall."

POLLS DO NOT REFLECT CONSTITUENTS' OPINION

(Mr. JACOBS asked and was given permission to address the House for 1 minute.)

Mr. JACOBS. Mr. Speaker, I have been amazed at the disparity between the tenor of the mail I have received from my constituents, and the national polls on the Middle East involvement of the United States. To clarify to my constituents who have written these many letters, and perhaps to save some postage for the taxpayers, let me explain.

Uncle Sam is in Saudi Arabia to defend everything he does not believe in, and one thing he wants.

SUPPORT FOR PRESIDENT ON IRAQ

(Mr. GEKAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEKAS. Mr. Speaker, "politics end at the water's edge," is a thesis of American diplomacy that we have tried to live by for many, many years. Yet I must say in the past 10, 15 years, that has been fractured a thousand times with some of the rhetoric that has come even from this floor in against the President's action, any President's action.

It is refreshing to note that what the President of the United States, the current President has done, in garnering the international moral imperative of the United Nations and all the surrounding nations to Iraq, has been an exercise that has borne the praise of the American people and of citizens around the world. I am pleased to note, then, as a refreshing change that the rhetoric also on the floor of the House has begun to moderate, and indicates and reflects the will of the American people to support their President 100 percent in this exercise in Saudi Arabia.

REQUEST TO PRESIDENT GORBACHEV: REMOVE MILITARY ADVISERS FROM IRAQ

(Mr. LANTOS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANTOS. Mr. Speaker, I would like to commend President Bush and President Gorbachev on the conclusion of a successful summit. This summit could have been far more successful had President Gorbachev done just one thing.

Summits are symbolism, and the symbolism of 156 Soviet military advisers remaining in Iraq is a very ugly symbol. The Soviet advisers do not make one iota of substantive difference, but they send a confusing and uncertain and mixed message.

Therefore, I call on Mr. Gorbachev with friendship and in good faith that he forthwith rectify this error. We want every last Soviet military adviser out of Iraq—and we want them out now.

If Mr. Gorbachev thinks about this for a minute, the future of the Soviet Union depends on the good feelings, trade, technology, and investment of the United States, Western Europe, and Japan, and not the good will of the bankrupt dictator of Iraq, Saddam Hussein. Let the Soviets get the Soviet military advisers out of Iraq. Now.

□ 1210

EMPHASIZING UNITED STATES COMMITMENT TO DEMOCRACY IN BURMA

(Mr. ROHRABACHER asked and was given permission to address the House for 1 minute and to revise and extend his remarks).

Mr. ROHRABACHER. Mr. Speaker, the Burmese people languish under a vicious, brutal, and corrupt military dictatorship.

Three months ago the gangsters in Rangoon sought to appease foreign critics by permitting an election. To the surprise of everyone—and I include myself—the election was legitimate. Although the regime used intimidation and terror, 85 percent of the Burmese voters cast their ballot for the opposition.

Since the election, however, the clique that suppresses the Burmese people and pillages their country has shown no signs of budging or recognizing the results of the election. Just 4 days ago leaders of the victorious democratic opposition were jailed. This outrage has not gone unnoticed because of our commitment on the Saudi Arabian Penninsula.

We are watching you, General Ne Win, and we are watching all of you who are holding the people of Burma hostage. Now is the time for you to save yourselves by siding with the people and the cause of democracy.

That is why, today, I am introducing a sense of the Congress resolution, underscoring our absolute commitment to democracy in Burma.

DESERT SHIELD—NOT A PIGGY BANK FOR ALLIES

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, Egypt wants America to forgive their $7 billion loan. After all, they said they sent 2,000 men to Saudi Arabia. If you have a calculator, you can figure that out. That is $3.5 million per man. That must have been a troop of bionic soldiers.

Now, Jordan does not even want a loan. Jordan just wants $4 billion in cash. What did they do? They kept the port of Aqaba open, and that kept this thing alive.

What is going to be next? Will the battle of the press conferences end up with Saddam Hussein changing Americans room and board for being held hostage over there?

This has turned into a giant piggy bank, not a desert shield, and it is time that the world starts forgiving America's debt. We keep saving their assets. The American people are sick and tired of getting screwed, and I think it is time that we tell everybody we are not going to forgive their debts. They can pay their debts just like we do.

NO APPEASEMENT IN THE MIDDLE EAST CRISIS

(Mr. INHOFE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. INHOFE. Mr. Speaker, after this recess I was not going to say anything today until I overheard some of my colleagues talk in a very critical vein about the way our President is handling his very strong position in the Middle East, perhaps preferring something of appeasement.

Mr. Speaker, we have not faced this kind of crisis since World War II. We have become dependent upon the Middle East for our ability not only to survive but to fight a war and defend ourselves. There is a possibility that the President will be coming to us in this body and asking for a declaration of war against Iraq, and when that time comes, I hope our decisions will not be predicated upon what is best for a political party but upon what is best for America.

I can assure the Members, Mr. Speaker, that it is not going to be a policy of appeasement. An appeaser is a guy who throws his friends to the alligators, hoping they will eat him last.

There was a poem that was written by—and I am going from memory now—Hiram Mann, and I think it is very appropriate today. This is how it goes:

"No man survives when freedom fails.
The best man rot in filthy jails,
And those who cry, 'Appease, appease'
Are hanged by those they try to please."

Mr. Speaker, I say, go get 'em, Mr. President.

FULL FINANCIAL PARTICIPATION SOUGHT IN OPERATION DESERT SHIELD

(Mr. McMILLEN of Maryland asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McMILLEN of Maryland. Mr. Speaker, I was pleased to read of reports that Saudi Arabia and Kuwait have assured the United States Government that they will provide billions to defray the cost of the United States military buildup to counter Iraqi aggression. This is a major step toward a fair burdensharing of the gulf crisis.

On August 23, 1990, I wrote the President and asked him to begin negotiations with Saudi Arabia regarding financial compensation for the United States troop presence there. Because the gulf crisis will provide the Saudis with a windfall of billions of dollars, it is only fair for them to share some of the financial burden of having troops in the region.

But the Saudis are not the only ones who should be paying. Considering that the Mideast oil we are protecting is the lifeblood of Japan and Europe, it is essential that those countries fully participate in Operation Desert Shield.

Yet, West Germany has refused to share the cost, of the buildup of United States troops in the region, while the Japanese gulf effort has been meager.

It is wrong for the President to ask the American Federal employee to take an upaid furlough from work in order to protect the economies of Western Europe and Japan. Nor should the President be forgiving the Egyptian debt at this time.

Mr. President, the United States cannot afford to return to the days of isolationism, but we can no longer act in isolation. If we are to act as the world's policeman, we need to have the help of our allies, not their indifference.

KENTUCKIANS: RISE AND BE COUNTED

(Mr. MAZZOLI asked and was given permission to address the House for 1 minute.)

Mr. MAZZOLI. Mr. Speaker, today I call on all Kentuckians to rise and be counted: rise and be counted, that is, for the 1990 census.

It is not too late for Kentuckians to be counted for the 1990 census.

Until the end of September, a toll free number—1-800-999-1990—can be called by those who believe they were not counted April 1 when the census was taken.

Mr. Speaker, needless to say, the stakes are high for the Commonwealth of Kentucky to have an accurate count of its population. The Commonwealth's fair share of highway, health, social, and educational funds, just to name a few programs, is dependent on an accurate census count of its people.

The Census Bureau wants an accurate count just as much as Kentucky does. The Census Bureau is as anxious

as we are that all Kentuckians be counted.

Mr. Speaker, let me again repeat the toll free number for Kentuckians to call if they think they have not been counted in the 1990 census: 1-800-999-1990.

VA READY TO BACK UP DOD

(Mr. MONTGOMERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MONTGOMERY. Mr. Speaker, I certainly support the President's actions in Saudi Arabia. We will do everything possible to support and protect our men and women who are serving there. We must be prepared for any event that might occur.

In 1982, the Congress told the Department of Defense and the Veterans' Administration that we wanted them to develop contingency procedures for our veterans' hospital system to back up our military hospitals in case of war or other national emergencies. Though VA and DOD conduct exercises on a regular basis to make certain these procedures are in good working order, this is the first time the plan has been fully activated.

I'm pleased to report to my colleagues that our new Department of Veterans Affairs is on standby and ready to take immediate action in case hostilities break out in the Middle East.

Since the crisis began, VA's 172 hospitals have been providing DOD with a count of available hospital beds—initially on a daily basis, but now weekly—which could be used for military casualties. Eighty of the hospitals would receive patients directly from the battlefield or from a DOD facility. However, all VA hospitals are potential sites for receiving casualties.

VA is reporting that, within 24 hours, it could provide over 10,000 beds; within 72 hours, almost 14,000 beds; and within 1 month, 25,000 beds. Our military hospitals have a total of 16,000 beds.

VA medical personnel would work closely with DOD in areas such as communications; transportation; patient sorting, processing and emergency care at military installation arrival points; acute medical care; data management; and supply. VA also is responsible for maintaining a patient locator and information system, which is particularly important to families. VA works closely with Red Cross on this.

I want to emphasize that, if it were necessary for VA hospitals to begin accepting military casualties, no veteran patients would be unnecessarily displaced.

Mr. Speaker, I know we all hope and pray that these procedures will never have to be used, but at least we know that VA has planned well and can handle the job.

In a related matter, I want to report that on Wednesday, the House and Senate Veterans' Affairs Committees will hold a joint hearing on the Soldiers' and Sailors' Civil Relief Act to determine if the protection the act provides for military personnel called up because of the crisis in the Middle East is sufficient. We will also review reservists' reemployment rights.

Mr. Speaker, the Veterans' Affairs and Armed Services Committees are going to make certain that the men and women who have been called on to serve in Saudi Arabia as well as here at home receive appropriate assistance.

□ 1220

GOVERNMENT SHOULD NOT BE IN CENSORSHIP BUSINESS

(Mr. WYDEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WYDEN. Mr. Speaker, last Friday the Solicitor General urged the Supreme Court to overturn Roe versus Wade, the 1973 ruling establishing the constitutional right to free choice for women. The case that the Justice Department is using as a vehicle, Rust versus Sullivan, was filed by family planning clinics across the country to overturn misleading regulations that would restrict doctors in federally funded family programs from informing patients about a full range of options available to them.

Mr. Speaker, the Government should not be in the censorship business, and if this were the private sector our physicians would be exposed to liability problems for not fully informing their patients about the full range of choices available to them, including abortion.

The gentleman from Illinois [Mr. PORTER] and I have introduced legislation that would spell out in statute that the patients at federally funded clinics would have exactly the same rights as those who go to private clinics. Given the Solicitor General's opinion of last Friday on attempts to overturn Roe versus Wade, I hope that our colleagues on both sides of the aisle will support the legislation that the gentleman from Illinois [Mr. PORTER] and I have introduced.

THOUGHTS ABOUT OUR OPERATIONS IN SAUDIA ARABIA

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, some thoughts about our operations in Saudia Arabia. They are going well. They have been well planned. They have been well executed and our troops are psychologically prepared and equipped for this operation. There are some other things that we should focus on now.

Saddam Hussein has qualified as a war criminal under international law. He and those who surround him should be tried for those crimes.

Second, Iraq should be required when this is over to reduce the size of its military forces to those that are only necessary to defend that country.

Third, Iraq should be required to rid itself of weapons of mass destruction, such as atomic weapons, such as chemical weapons and the delivery system for those, and there should be international inspections of Iraq to make sure that that is carried out.

Let us be patient. Let us be firm. Let us help establish a new world order of peace and peace under law.

MORAL BURDEN SHARING IN SAUDI ARABIA

(Mr. VENTO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VENTO. Mr. Speaker, many questions have been raised with regard to the Desert Shield Operation in Saudi Arabia. I think it is very pertinent that we raise the questions of cost and burden sharing, but I would like to speak today about the sharing of the moral burden with regard to this operation. The United States has nearly 100,000 troops in Saudi Arabia today to prevent the type of unprovoked, premeditated attack on a sovereign nation that occurred in Kuwait. That is the reason we are there; but we should not, Mr. Speaker, slip into being the latter day mercenaries, or world policemen, in terms of what our role is there. Nor should we slip into the trap of suggesting that it is our responsibility to be there to maintain, for instance, the supply of cheap oil to this country, the so-called suggestion that somehow this is the American way of life. That is not my understanding of why we are there. If we are there so that you or I can drive our Ford or Chevrolet 15 miles to the gallon, then we ought to get out of there.

Mr. Speaker, we should, I think, expect the resolutions from the United Nations and the encouragement that we have received on a global basis, I think quite justifiably from the Soviet Union, is a new world order that makes it possible.

We should also expect from supportive notions, that share the same values that we have with regard to the territorial integrity of Kuwait to have a presence in that desert; to be there standing alongside American troops.

The United States should not be playing the Lone Ranger in Saudia Arabia. This has gone on for over a month. Surely the burden sharing and the dollars are very important to all of us as we look at the plight of our budget; but the other question is, Where are the other nation's troops? Where are the other men and countries that should be providing assistance on this issue?

The United States should not set alone on this powder keg and side into a conflict without other nations offering their own troops along with just economic burden sharing, Mr. Speaker.

GREAT LEADERSHIP FROM PRESIDENT BUSH

(Mr. McEWEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McEWEN. Mr. Speaker, I think it is appropriate that as the President returned from his meeting with the President of the Soviet Union that we express our gratitude for the excellent leadership that President Bush has given to our Nation and to the world in an unprecedented fashion over these past 30 days.

Never since 1950 has the United Nations joined together to enforce one of its resolutions, and yet we saw that through the leadership of President Bush and the cooperation of our allies we were able to have that alignment whereby the free nations of the world said to Mr. Hussein that he had to discontinue the barbarous actions in which he has engaged in Kuwait.

I believe that this would not have come about had it not been for the respect that the world has for our Nation and its leadership in President Bush.

I recall that just 2 weeks ago tomorrow China admitted that they intended to veto this resolution and Mr. Bush, through his cooperation with their leadership in sending the Kuwaiti Foreign Minister, met with them and 2 weeks ago tomorrow they said that they would not veto the resolution, but they would continue to oppose it.

Then we saw that 2 days later in the Security Council there was a unanimous vote with China voting with us, unprecedented.

Also it was unprecedented to see Egypt, to see the United Arab Emirates, to see Saudi Arabia, to see Oman, to see Bahrain, to see these other Arab nations uniting with the United States, Morocco and the others, to stand against the tyranny that is existing there in the Middle East.

Now we see Korea giving every request that we have made of them to assist in the airlift, to assist in marine fleets.

We see over $5 billion committed now from Japan.

We see our NATO allies cooperating.

The bottom line is simply in this time of international tensions our Nation is abundantly blessed to have the person in the White House at this moment who is able to accomplish this as skillfully as he has. I look forward to the presentation of the President of the United States tomorrow evening and wish him well.

PROGRAM PROJECT AND ACTIVITY INFORMATION REPORT REQUIRED BY BALANCED BUDGET AND EMERGENCY DEFICIT CONTROL ACT OF 1985—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 101-232)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read, and, together with the accompanying papers, without objection, referred to the Committee on Appropriations and ordered to be printed:

To the Congress of the United States:

In accordance with the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended, I transmit herewith the program, project, and activity information required by section 252(a)(5) of the act.

The attachment provides information on both base and sequester amounts for each program, project, and activity in each budget account subject to the sequester.

GEORGE BUSH.

THE WHITE HOUSE, *September 10, 1990.*

ANNUAL REPORT OF NATIONAL ENDOWMENT FOR THE ARTS, FISCAL YEAR 1989—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read, and, together with the accompanying papers, without objection, referred to the Committee on Education and Labor.

To the Congress of the United States:

In accordance with the provisions of the National Foundation on the Arts and Humanities Act of 1965, as amended (20 U.S.C. 959(b)), I transmit herewith the Annual Report of the National Endowment for the Arts for Fiscal Year 1989.

GEORGE BUSH.

THE WHITE HOUSE, *September 10, 1990.*

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. MAZZOLI). Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken on Tuesday, September 11, 1990.

CLARIFYING AUTHORITY OF NEW MEXICO TO EXCHANGE LANDS

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2597) to amend the act of June 20, 1910, to clarify in the State of New Mexico authority to exchange lands granted by the United States in trust, and to validate prior land exchanges.

The Clerk read as follows:

S. 2597

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY TO EXCHANGE LAND.

Section 10 of the Act of June 20, 1920 (36 Stat. 563), is amended by inserting after the ninth paragraph thereof the following new paragraph:

"The State commissioner of public lands may exchange any land granted or confirmed by this Act for any land of the United States or an agency thereof, a State agency or political subdivision, a beneficiary of lands granted or confirmed by this Act, as Indian tribe or pueblo, or a private entity when the commissioner finds, after consultation with the chief administrative officer of the affected beneficiary of lands granted or confirmed by this Act, that—

"(1) based upon appraisals of the true value thereof, the value of the land to be received by the State is equal to or greater than the land to be conveyed by the State; and

"(2) the proposed exchange is beneficial to the interests of the affected beneficiary.".

SEC. 2. EFFECTIVE DATE.

(a) FINDING.—The Congress finds that the retroactive application of the amendments made in section 1 to approve, validate, and ratify land exchanges made prior to the effective date of the amendment will not prejudice the interests of any person and will benefit the interests of the parties to such exchanges, the beneficiaries of land granted or confirmed under the Act of June 20, 1910, and the public.

(b) RETROACTIVE APPLICATION.—On the date that the Secretary of State of the State of New Mexico certifies that the people of the State of New Mexico have consented to this Act by amendment of article XXI of the constitution of the State of New Mexico, the amendment made in section 1 shall be effective as of June 20, 1910, so as to approve, validate, and ratify all exchanges made after that date of lands granted or confirmed to the State of New Mexico after that date.

SEC. 3. CONSENT TO CONSTITUTIONAL AMENDMENTS.

The consent of Congress is given to amendment to article XXI of the Constitution of the State of New Mexico to consent to the amendment made in section 1, to

become effective as of June 20, 1910, as provided in section 2.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes, and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on S. 2597, the Senate bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this is a noncontroversial bill that has already passed the Senate. It is intended to resolve uncertainties that have arisen over the interpretation of those portions of the enabling act under which New Mexico was admitted to the Union that relate to the grant of public lands to New Mexico before and at the time of its statehood in 1912.

The total territorial and statehood grants to New Mexico amounted to some 13.4 million acres. Presently there are approximately 9 million surface acres and 13 million acres of minerals. There have been approximately 4 million acres of surface sold and some minor adjustments in ownership of minerals through condemnation action by the Federal Government. Annual income provided to New Mexico public schools, universities, and other beneficiary institutions is over $350 million. The surface ownership in New Mexico is approximately 45 percent private, 12 percent State trust lands, 10 percent Indian land and the balance, approximately 33 percent, Federal. The majority of the Federal land is managed by the Bureau of Land Management, the U.S. Forest Service, and the military departments.

As in other Western States, the land ownership pattern in New Mexico is an extremely complicated one that presents many problems for the United States, the State, and other landowners. As in other States, land exchanges have often been utilized to rearrange this land ownership pattern to produce a more manageable division.

Land exchanges involving New Mexico's grant lands have been carried out since statehood, but some recent rulings by courts and a recent opinion by the attorney general of New Mexico have cast doubt on the legal ability of the State, under the enabling act, to carry out such exchanges.

Earlier this year, the New Mexico Legislature passed a joint resolution and memorial asking that Congress authorize an amendment to the enabling act and authorizing a constitutional amendment to be on the ballot in the November 1990 general election. The intent of the New Mexico Legislature and S. 2597 are to set forth the terms that clarify the authority to exchange lands and to validate prior land exchanges.

S. 2597 would clarify the New Mexico public lands commissioner's authority to exchange any land granted and confirmed by the New Mexico enabling act. This authorization would include any land of the United States or an agency thereof, State agency or political subdivision, beneficiary of the lands granted or confirmed by this act, any Indian tribe or pueblo, or private entity.

This bill would also retroactively apply, so as to remove doubts about the legality of past exchanges.

Mr. Speaker, this is a noncontroversial measure, supported by the administration, as well as the New Mexico delegation, including our colleague on the Interior Committee, Mr. RICHARDSON. It deals with a technical but real problem. I urge its passage.

□ 1230

Mr. ANDERSON. Mr. Speaker, will the gentleman yield?

Mr. VENTO. I yield to the gentleman from California, the chairman of the Committee on Public Works and Transportation.

(By unanimous consent Mr. ANDERSON was allowed to speak out of order.)

TAX THE GREEDY, NOT THE NEEDY

Mr. ANDERSON. Mr. Speaker, I rise to express concern about the reports this past weekend of a proposal to increase the gas tax as part of the budget agreement. Mr. Speaker, I believe that is the wrong kind of signal to send to the American taxpayers.

We should not try to balance the budget on the backs of the middle- and low-income Americans.

A gas tax would do just that. It is regressive and unduly burdens the average American wage earner. Perhaps that is why House Resolution 41, which expresses opposition to fuels tax increases, for deficit reduction, has been cosponsored by 250 of our colleagues.

No one wants sequestration to happen, but there has to be a more equitable way of addressing the problem.

For example, why can we not eliminate some of the unfair and distorted tax preferences enjoyed by corporate fat cats?

To the budget negotiators, my message is a simple one: if you must tax, tax the greedy, not the needy.

Mr. VENTO. Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

(Mr. LAGOMARSINO asked and was given permission to revise and extend his remarks.)

Mr. Speaker, I associate myself with the remarks of the chairman of the Subcommittee on National Parks and Public Lands, Mr. VENTO.

As Chairman VENTO explained, S. 2597 is needed to clarify the State of New Mexico's authority to exchange lands granted by the United States in trust and to validate prior land exchanges.

The need for this legislation resulted from a 1988 legal opinion issued by the New Mexico attorney general that questioned the authority for future land exchanges and cast doubt on the validity of many prior exchanges. This cloud over exchanges originated from the New Mexico Enabling Act of 1910 which placed some significant restrictions of the State's ability to conduct land exchanges of school trust lands.

As has been mentioned, there is a sense of urgency in passage of S. 2597. Because this bill contains an amendment to the New Mexico Enabling Act of 1910, the amendment must also be approved by New Mexico's voters this November. The New Mexico secretary of state requires that congressional action must be approved by September 11, 1990 to qualify for being placed on the November ballot.

As a result, Chairman VENTO should be commended by everyone involved in this issue for his expeditious action particularly at a time during the session when we are already faced with an enormous legislative burden.

Finally, I would like to reiterate that S. 2597 is supported by all five members of the New Mexico congressional delegation as well as State elected officals involved in land exchanges such as the attorney general and commissioner of public lands.

I urge my colleagues to support S. 2597.

Mr. Speaker, I yield such time as he may consume to the gentleman from New Mexico [Mr. SKEEN].

Mr. SKEEN. Mr. Speaker, I rise in strong support of this legislation.

I want to thank the gentleman from Minnesota [Mr. VENTO] and the ranking member, the gentleman from California [Mr. LAGOMARSINO] for their tremendous assistance in bringing this important legislation before the House. I also want to acknowledge the help of the gentleman from New Mexico [Mr. RICHARDSON] for his strong support of this bill and to our State land commissioner, Bill Humphries, for his leadership on this matter. For reasons I will explain

shortly, it is essential this legislation pass the House today.

Senate bill 2597 amends the State of New Mexico's Enabling Act to fill a void in current authority to exchange State lands.

I have introduced similar legislation in the House, H.R. 4777.

Last year the New Mexico attorney general issued an opinion that stated the land commissioner has limited authority to exchange State lands under his jurisdiction.

Specifically, the attorney general determined the land commissioner only has the constitutional authority to exchange for lands under the jurisdiction of the Department of the Interior and the U.S. Forest Service. This excludes opportunities to exchange lands with other Federal agencies, local governments, schools, and private land owners.

The attorney general indicated that any attempt to broaden the exchange authority should be made by amending the State Enabling Act. He also recommended the change be made retroactive to the beginning of statehood. This would ensure all previous exchanges made by the State land commissioner are valid.

The legislation being considered today adequately addresses all these concerns.

Let me give you an indication of the need for this expanded authority.

The New Mexico land commissioner has responsibility over lands that encompass approximately 12 percent of the land mass in the State. Much of this land is fragmented in a checkerboard pattern and involves hundreds of small parcels of land.

The need to consolidate State lands is obvious. It will improve the management of these lands and will assist other entities who, for whatever reasons, would like to exchange for State lands.

The bottom line is current authority is too restrictive to allow the land commissioner to properly carry out his responsibilities.

To remedy this void, Congress must pass this legislation allowing a change in the State's Enabling Act. The voters of New Mexico must then approve a constitutional amendment. But for New Mexicans to have a chance to vote on this measure in November, Congress must pass the legislation by September 11, 1990. Otherwise it will be another 2 years before a similar initiative can be placed on the ballot.

To my knowledge there is no opposition to this legislation. The New Mexico State Legislature is on record as supporting a broadening of the exchange authority of the land commissioner, and the entire New Mexico congressional delegation and the administration supports this legislation.

Again, I appreciate the chairman's assistance in ensuring this legislation is considered by Congress before the September 11 deadline. This is a great example of bipartisan cooperation working to address important matters.

Again, I urge my colleagues to support this legislation.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

First of all, Mr. Speaker, let me acknowledge with gratitude the response from the gentleman from New Mexico [Mr. SKEEN] who first called this issue to my attention, and just before we recessed, and, frankly, I know that they are very anxious to get this matter accomplished because this has to go immediately to the President and be signed for it to make the November ballot. Even then, Mr. Speaker, I am certain that we are facing some risk that that may not accomplish it, and for that I would say that, if it does not happen, I regret it. I felt this was an important issue that should be heard by the subcommittee in somewhat of an unusual procedure with the cooperation of the chairman, the gentleman from Arizona [Mr. UDALL] and ranking member, as well as, of course, our colleagues on the Committee on Interior and Insular Affairs, not least of which, of course, is the gentleman from New Mexico [Mr. RICHARDSON] who serves on my subcommittee and whose statement I have here to submit for the RECORD. We were able to bring this bill up this week. I had hoped, quite frankly, when we last talked that we would be able to deal with this last week in the full House, that we would be able to bring it up in that particular manner, but, as my colleagues know, we were not in session for business, but merely for pro forma sessions last week because of the events and the status of the Senate, being out.

Mr. Speaker, the House leadership came to the conclusion that it would be well advised to try to accommodate the Members with additional time in their districts, which I am sure was put to good use. But I just want to call to my colleagues' attention that the subcommittee was meeting last week. We did have the hearing on Tuesday. We did a considerable amount of work in our subcommittee last week, but again that is the basis for putting this off to the last minute here. Simply, Mr. Speaker, I did not anticipate the events that occurred would occur last week and that we would have the time to do it.

So, with this, the House leadership did respond, and others, by putting this on the Suspension Calendar today, and I am optimistic that they will have no trouble in acting on this measure and that this will be send to the President. Hopefully we can pull him out of Andrews Air Force Base long enough to get this measure signed, but, Mr. Speaker, this is a matter which has to be acted on promptly. I think Members on the floor and in their offices should recognize that this has a profound impact on the State of New Mexico, and these lands that are impacted are important to the State.

Mr. Speaker, with that said, I would submit the statement from the gentleman from New Mexico [Mr. RICHARDSON], my colleague, a strong advocate and a hard worker on the subcommittee.

Mr. RICHARDSON. Mr. Speaker, I want to thank my good friend and colleague Chairman VENTO and the House leadership for bringing S. 2597, a bill to amend the New Mexico Enabling Act of 1910 and clarify lands granted in trust and to validate prior exchanges, to the floor for final passage. Congressional action must be completed by September 11, 1990, in order for the proposed amendment to be presented to New Mexico voters on the November 1990 general election ballot.

In 1910, Congress passed the Enabling Act that led to statehood for New Mexico. This act was consented to by the people of New Mexico and it became a part of New Mexico's Constitution. Approximately 13 million acres of land was transferred by the Federal Government to the State of New Mexico to be held in trust. These lands are managed and administered by the State Land Commissioner.

Historically, the State land office has engaged in many exchanges with the U.S. Government, primarily the Department of Interior. A wide range of exchanges have taken place including the Carlsbad Caverns exchange, the White Sands Missile Range exchange, the El Malpais exchange, and most recently the Denazin exchange. Under the enabling act, however, Congress placed strict limits on the disposal of the trust lands granted to New Mexico and Arizona. Recent court decisions in Arizona, have raised the question of whether the New Mexico Enabling Act contains authority for the State to make exchanges as described above.

In May 1987, the State land commissioner requested the State attorney general's opinion on the following question:

May the Commissioner of Public Lands exchange state trust lands for equal value lands in private fee simple ownership and for lands held by other state agencies, local governing bodies, trust land beneficiary institutions, and federal agencies other than the Department of Interior?

The Department of Interior was excepted from the question because of a 1957 statute which purports to authorize the Commissioner to exchange with the Department of Interior.

The attorney general's response in Opinion No. 88–35 (May 23, 1988) was no. (The opinion did not address exchanges made pursuant to the 1957 statute.) The opinion finds that exchanges were not permitted by the Enabling Act, and cast doubt on the validity of that statute, since legislation cannot expand constitutional powers. The attorney general advised the Commissioner that, "if land exchanges proposed by your office are to be effectuated, we believe the best way to do that would be through amendment of the Enabling Act."

As a result, the New Mexico Legislature passed both a resolution and a memorial—the resolution proposes an amendment to the

New Mexico Constitution clarifying the commissioner's authority to exchange lands and the memorial asks the U.S. Congress to consent to the amendment by amending the New Mexico Enabling Act. The New Mexico Secretary of State's Office requires that congressional action be completed by September 11, 1990, in order for the proposed amendment to be presented to the voters on the November 1990 general election ballot.

Mr. Speaker, S. 2597 would clarify that the State of New Mexico has authority to exchange State trust lands with the Federal Government, State agencies, city governments, Indian Tribes, institutions for whom the lands are held in trust, and private entities. The bill also makes the Enabling Act amendment retroactive to 1910 to assure that exchanges since 1910 are validated. I urge my colleagues support for this legislation and swift passage.

Mr. VENTO. Mr. Speaker, I yield back the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the Senate bill, S. 2597.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

□ 1240

DESIGNATING PORTIONS OF THE DELAWARE RIVER AS PART OF THE WILD AND SCENIC RIVERS SYSTEM

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3764) to amend the Wild and Scenic Rivers Act to designate certain segments of the Delaware River in the States of Pennsylvania and New Jersey as components of the National Wild and Scenic Rivers System, as amended.

The Clerk read as follows:

H.R. 3764

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. WILD AND SCENIC RIVER.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended by adding the following new paragraph at the end:

"(109) DELAWARE, PENNSYLVANIA AND NEW JERSEY.—The segment consisting of approximately 8.5 miles from the Bucks County and Northampton County border to a point just north of the Gilbert Generating Station, the segment consisting of approximately 11.5 miles from a point just south of the Gilbert Generating Station to a point just north of the Point Pleasant Pumping Station, the segment consisting of approximately 6.5 miles from a point just south of the Point Pleasant Pumping Station to the north side of the Route 202 bridge, and the segment consisting of approximately 6 miles between the southern boundary of the town of New Hope to Washington's Crossing; to be administered by the Secretary of the Interior. In preparing the comprehensive management plan for the segments designated under this paragraph the Secretary shall give priority to the acquisition of the islands in the Delaware River, undeveloped open space along the river, and a tract of approximately 250 acres in Bridgeton Township, Bucks County, Pennsylvania as generally depicted on a map entitled "Thomas McBrien Property," dated July 1990.

SEC. 2. EXISTING FACILITIES.

The designation of segments of the Delaware River made by section 1 of this Act shall not preclude or interfere with the operation or maintenance of the Gilbert Generating Station or the Point Pleasant Pumping Station as authorized under any license or permit as of the date of enactment of this Act or any replacement or modification of such facilities that has no greater impact on such segments; nor shall such designation be used in any proceeding to prevent the relicensing or repremitting of such facilities as currently authorized.

SEC. 3. STUDIES.

(a) Section 5(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1276 (a)), as amended, is further amended by adding the following new paragraphs:

" DELAWARE RIVER, PENNSYLVANIA AND NEW JERSEY.—The segment from Washington's Crossing to the point where the river intersects the Trenton, New Jersey, city limits, together with the Cook's Creek, Tinicum Creek, and Tohickon Creek tributaries to the Delaware River.

(b) The Secretary of the Interior, pursuant to section 11(b)(1) of the Wild and Scenic Rivers Act, shall undertake a river conservation plan for the segment of the Delaware River from the northern city limits of Trenton, New Jersey, to the southern boundary of Bucks County, Pennsylvania.

SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act.

The SPEAKER pro tempore. (Mr. MAZZOLI). Is a second demanded?

Mr. LAGOMARSINO. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes, and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill is sponsored by the gentleman from Pennsylvania [Mr. KOSTMAYER], and would designate four segments of the Delaware River between Pennsylvania and New Jersey as components of the National Wild and Scenic River System, and would require that additional segments of the Delaware River be studied pursuant to the Wild and Scenic River Act for future steps to protect their natural and other resources and values.

Mr. Speaker, I have, personally, visited this area with the gentleman from Pennsylvania [Mr. KOSTMAYER]. We have had hearings on this segment in the 100th Congress, and, of course, we have had hearings this Congress on his legislation that is now being presented in revised form to the House.

These river segments that would be designated are in the northern boundary of Bucks County, to Washington's Crossing. The bill would exclude from designation two areas each associated with the existing facilities, the Gilbert Generating Station, and the Point Pleasant Pumping Station.

The Delaware River is one of the few remaining free-flowing, relatively undeveloped rivers in its region. It rises in the Appalachian Plateau region of the Catskill Mountains in New York and flows over 300 miles to the Atlantic Ocean.

At the fall line at Trenton, the river enters the Atlantic coastal plain, a physiographic region where it is a steeply sloped valley, flattens out, and the river gradually expands until it reaches its broadest point at the mouth of Delaware Bay.

While there is extensive urban development from southern Bucks County, PA, through the port of Philadephia, the portions of the river dealt with in this bill are comparatively rural or suburban.

The river affords many valuable opportunities for enjoyment of relatively undisturbed landscapes and outdoor water-based recreation.

This is not, of course, the first time that the House has considered legislation dealing with the Delaware River. Some 114 miles of the Delaware River have already been designated as components of the National Wild and Scenic River System by legislation enacted in 1978.

Proposals for similar legislation affecting other portions of the river have been considered as well. In 1983, the Subcommittee on Public Lands and National Parks made a field inspection of portions of the lower Delaware for designation under the Wild and Scenic Rivers Act. In 1983 the subcommittee favorably reported to the full Committee on Interior and Insular Affairs some of the same parts of the river as the bill now before us. However, no further action was taken.

As I indicated earlier in my statement, I personally visited this site in the last Congress. We were there on a related hearing dealing with the canal legislation, the Lehigh-Delaware Canal legislation, which was signed by the President in the last Congress. I can attest, as I indicated, to the qualities of this resource, both in terms of the cultural and historic resources lo-

cated in the corridor of the Delaware River, the segments of which are designated here, and the natural conditions.

Mr. Speaker, this bill speaks to the development and concept, of course, of linear parks that have been advocated under the President's Commission on American Outdoors.

Such parks, such views, recognizing that there are parks close to urban centers, close to people, are increasingly important as we attempt to provide for recreation and protection of natural areas in urban areas. It is an appropriate role of the Park Service, and certainly under the Wild and Scenic Rivers Act, there is an opportunity and a framework in which such resources can be adequately protected.

The major reason Congress has not acted in the past was because of concerns about the effect of the bills related to portions of the Delaware River bordering Bucks County, PA, might have on the proposal to build a pumping station at Point Pleasant. The Point Pleasant station is now in operation, it has been built, as is the Gilbert Generating Station, and both are outside the river segments that would be affected by this measure.

Therefore, Mr. Speaker, I think that it is appropriate for the Congress to act on this measure. Clearly there is a debate about the appropriateness of these segments under the Wild and Scenic Rivers Act. But, as I said, I have visited the sites. I can and do, personally, attest to the qualities of them. Furthermore, under the Wild and Scenic Rivers Act, we permit a number of different designations. It could be wild and scenic, it could be recreational.

In other words, there are a number of categories and techniques that are utilized in terms of managing rivers. We leave that determination to the Park Service here, to the professionals in the Park Service, to select the appropriate type of designation.

It is my assumption that they will select recreational, because indeed some of the development in the river corridor and the natural qualities of it have been affected by those buildings and other structures.

But nevertheless, I think that that being said, the fact is though that the designations are appropriate in the context of the Wild and Scenic Rivers Act.

Far too many miles of river today are unprotected under the Wild and Scenic Rivers Act. It is principally because of the conflict that is inherent when we begin to designate areas in and around rivers. Invariably these rivers, from our earliest history, have been the place where individuals and populations have located. It is the place where industries occur. Very often these rivers are used as working rivers, carrying barges and so forth.

I think, too, that the rivers largely have been abused and misused, Mr. Speaker. So often these facilities that are located on the rivers really in the past used them as a dumping ground, to eliminate waste, even to carry the storm water or sanitary water, a nice way of saying it.

Mr. Speaker, I think there is a changing attitude and view. But nevertheless, because of these conflicts, the powerplants, the flood control structures, the natural qualities of those rivers have been adversely impacted. Today and in the past decade we have started to reclaim these rivers for the natural qualities, for the special cultural resources that they have, and attempt to reclaim them for urban populations that look for park values, look for the use of these rivers in a better way.

Mr. Speaker, I believe that this bill is really a major step. This is an intensely urban area. There are not many open spaces remaining in it.

The gentleman from Pennsylvania [Mr. KOSTMAYER], who has written this legislation, certainly deserves special credit and recognition for his leadership and his persistence in working for the protection of key parts of the Delaware River. Since his first days in Congress, Mr. Speaker, and I came to Congress with the gentleman from Pennsylvania [Mr. KOSTMAYER] some 14 years ago, he has taken on the task. He fought the powerplants, the water projects, the channelization and abuse of this river in his unyielding advocacy to try to claim this river for its natural, environmental, and cultural qualities. Obviously, there are some battles that he won, there are some that he has lost. I think today we are here as much as anything to ratify and protect the portions of that river that remain. Now, some, of course, say that the qualities do not exist.

□ 1250

Mr. Speaker, I reserve the balance of my time on this matter, and I urge my colleagues to support it.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, with all due respect to my friend from Pennsylvania, Mr. KOSTMAYER, I must rise in strong opposition to H.R. 3764.

Although I am also concerned about protecting the important resource values on these segments of the lower Delaware River, I believe this bill runs roughshod over existing statutes and administrative practices and sets a dangerous precedent. There are other techniques available such as a national recreation area, as was the case with the Chattahoochee River in Georgia.

There are three fundamental problems with this bill. The first is that it establishes a precedent of designating a stream under the Wild and Scenic Rivers Act which is far too developed to meet existing criteria. The second problem is that there has been very limited discussion with private landowners on how the designation will impact them.

Finally, the bill directs the Federal Government to initiate an ill-advised land acquisition program.

Oftentimes, members of the Interior Committee discuss the issue of precedence when considering legislation and especially the need to avoid dangerous precedents. The same argument holds here. Passage of this bill will be a directive to the administration to rewrite their criteria for determining how much development is acceptable along a wild, scenic, or recreational river. It is telling other members to bring forward their proposals for designating any river in their district which they would like to protect, regardless of how developed it is. Of even more concern, it is signaling the administration that greater levels of development are acceptable at existing units of the Wild and Scenic River System.

Mr. Speaker, I am inserting into the RECORD letters to Chairman UDALL by the Assistant Secretary of the Interior for Fish and Wildlife and Parks and the Executive Director of the Delaware River Basin Commission that discuss some of my concerns with this legislation in more detail.

U.S. DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
WASHINGTON, DC, AUGUST 2, 1990.

Hon. MORRIS K. UDALL,
Chairman, Committee on Interior and Insular Affairs, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: H.R. 3674, a bill to designate certain segments of the lower Delaware River as components of the National Wild and Scenic Rivers System, is scheduled for consideration soon by the full Committee on Interior and Insular Affairs.

The bill as introduced would designate 32.5 miles of the lower Delaware as components of the National System. The river segments have not been formally studied. Moreover, as the National Park Service testified on May 14, the river shoreline is simply too heavily developed to qualify even for the inventory of rivers that should be studied.

An amendment proposed in the Subcommittee on National Parks and Public Lands adds a requirement that an additional six miles immediately downstream be studied for inclusion in the National System. This six mile segment includes the Interstate 95 crossing of the river north of Philadelphia and Trenton; it is paralleled on both banks by roads and by a railroad on the New Jersey bank; it contains much residential development, particularly on the New Jersey side.

We continue to oppose the bill, and we oppose the amendment. In our view these river segments contain residential, transportation, and commercial development in such concentrations as to be inappropriate as

part of the National Wild and Scenic Rivers System.

Sincerely,

CONSTANCE B. HARRIMAN,
Assistant Secretary,
Fish and Wildlife and Parks.

DELAWARE RIVER BASIN COMMISSION,
West Trenton NJ, July 27, 1990.

DEAR CHAIRMAN UDALL: This concerns the matter of H.R. 3764 now pending in Congress which relates to a section of the Delaware River for consideration under the Wild and Scenic Rivers Act. Congressman Peter H. Kostmayer introduced H.R. 3764 and, and as I understand, has offered amendments to his original bill.

First, let me state that the following views are being expressed by me as Executive Director of the Delaware River Basin Commission at the request of three of our Commissioners, representing the States of New Jersey and Pennsylvania, and the United States. I did comment informally to Mr. David Weiss of the Subcommittee on General Oversight and Investigations several months ago, at his request, on H.R. 3764 and H.R. 3765.

It was hoped that this office would have been informed, in advance of scheduled hearings. But, that did not occur.

Most of the following remarks were communicated to Mr. Weiss.

ACCURACY OF MILEAGE SEGMENTS

The River segment from the Bucks County/Northampton County point down to the Gilbert Generating Station is not 8.5 miles. It is 4.2 miles. The segment from just south of Gilbert to just upstream of the Point Pleasant intake is 14.2 miles, not 11.5 miles.

Another important water supply taking point which was neglected is that of the New Jersey Water Supply Authority's at the head of the D&R Canal. This intake serves 100 mgd to New Jersey residents and businesses. The point selected to resume designation south of the Point Pleasant intake should fall below the D&R Canal inlet.

ACKNOWLEDGING EXISTING INFRASTRUCTURE

H.R. 3764 recognizes the Gilbert Generating Station and Point Pleasant intakes, as well as the Lambertville Sewage Treatment Plant Outfall. However, it doesn't consider other existing water supply intakes of: PA American WCO at Yardley; Naval Air Propulsion Center; Yardley Ball Corp.; and James River Corp. at Milford.

Also, the bill doesn't consider wastewater outfalls of: Heritage Hills above Washington Crossing; James River Paper Corp. at Milford; Rieglesville Municipal STP; and Frenchtown Municipal STP.

In addition, there are three (3) pipeline crossings in the segment from Washington Crossing to the Bucks County/Northhampton County point on the Delaware River: Getty (Texaco); Sun Oil; and Buckeye Pipeline.

Why superimpose U.S. National Park Service jurisdiction over these facilities and the users they serve, when the Pennsylvania Department of Environmental Resources, the New Jersey Department of Environmental Protection, and the Delaware River Basin Commission already adequately perform such regulatory functions?

MAJOR ISLANDS AFFECTED

In the River stretch from Bucks County/Northhamptom point to Washington Crossing, there are thirteen (13) islands over five acres in size. Our files indicate that on the New Jersey side, there are three—two owned by the State and one five-acre island undeveloped and privately owned.

Of the ten (10) islands on the Pennsylvania side, three are in private/non-profit ownership and already developed. Two of those are zoned residential/conservation and one residential. One is owned by the State of New Jersey. Of the six remaining, three are zoned residential/agricultural, one resource protection, one conservation management and one residential-2. Why not allow the municipal, county and/or state governments to acquire any further properties they might deem important for scenic or recreational purposes, or continue to adequately handle the zoning?

CONTROLS ON FUTURE INFRASTRUCTURE

The States of Pennsylvania and New Jersey possess environmental control authorities in the areas of: waste discharge; wetland protection; stream encroachment; recreation facility management; and flood plain control.

The Delaware River Basin Commission also regulates all of the above, save recreational facility management. The DRBC must also review and approve any new water intake facility. Again, why institute another review and regulatory agency atop those that already exist? It should be pointed out that the National Park Service, the U.S. Environmental Protection Agency, and other Federal agencies have a direct voice to the DRBC through the Federal Commissioner.

It is hoped that the Committee on Interior and Insular Affairs, the Subcommittee on Parks and Public Lands, and Congress in general, will consider the above comments before acting on H.R. 3764.

I would be most happy to discuss this matter with you, Congressman Vento, and/or Congressman Kostmayer at your mutual convenience(s).

Respectfully,

GERALD M. HANSLER

Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. COUGHLIN].

Mr. COUGHLIN. Mr. Speaker, I am not going to oppose this legislation although I have serious reservations about it in its present form.

As my colleagues know, I have long supported the designation of free flowing and undeveloped rivers as units of the National Wild and Scenic Rivers System. These pristine resources must be preserved and protected for present and future generations. I have also consistently voted for legislation embodying these principles and will continue to do so. Given these long held beliefs, I reluctantly rise to express my serious reservations.

First, there are questions as to whether the Delaware River segments covered by H.R. 3764 meet the criteria for inclusion into the National Wild and Scenic Rivers System. The National Park Service, in fact, testified against H.R. 3764 because its study of the Delaware River corridor showed that the area is too developed to be eligible for designation. I am also familiar with the river and it is truly beautiful but it is far from what we commonly believe to be a pristine river corridor.

If blocking unwanted development is one of the purposes of the legislation—as we stated during the testimony of one county commissioner—then other devices should be explored. The National Wild and Scenic Rivers System should not be misused in this fashion.

Second, my constituents will be directly affected by the legislation through its failure to protect the continued operation of existing facilities outside the boundaries of the designated segments. Nor are protections afforded for water supply projects that have been authorized but upon which construction has not begun. Moreover, the legislation's impact on the ability to supply customers with water was extensively discussed in the testimony presented on behalf of two of my constituent water companies.

I am also aware that good faith efforts were made during the bill's markup to meet these concerns while affording the river segments protection. Despite this failure, I am confident that the discussions can continue in the Senate and that revisions in the bill's savings language can be made in the Senate.

Therefore, I will not oppose the bill's passage today but will reserve my ultimate judgment until after the Senate addresses the concerns I raised today.

Mr. VENTO. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. KOSTMAYER].

Mr. KOSTMAYER. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I want to thank the gentleman from Minnesota [Mr. VENTO], chairman of the Subcommittee on National Parks and Public Lands, for his assistance not only on this matter, but on a variety of other matters with which he has assisted me and been very helpful. I also want to thank my very good friend, the gentleman from California [Mr. LAGOMARSINO] for his assistance.

Mr. Speaker, let me say very briefly that the Delaware River remains one of the few undammed rivers in the Eastern United States. We would like to keep it that way. One hundred and fourteen miles of this river, which is a little more than 300 miles long, have already been designated by the Congress as wild and scenic back in 1978. Through that designation in 1978, we were able to stop construction of the Tocks Island Dam. This segment is further downstream. It goes from a little village called Uhlerstown, PA, for 32 miles down to another little village called Washington Crossing, PA. That is where General Washington crossed the Delaware River on Christmas night, 1776, to fight the Battle of Trenton. This is an area which I think is adequately defined as wild and

scenic. I think it fits the criteria. I think it is long overdue.

I am grateful that the Congress is considering this action, and I urge its speedy adoption.

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. KOSTMAYER. I am happy to yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Speaker, I wanted to point out that this is the area where Washington crossed the Delaware that would be designated by the gentleman's legislation. It would be designated wild and scenic. But it would be classified according to what the Park Service thought was appropriate, which may be recreational. I think it is an important point in terms of we do not normally deal with sites, that is to say, there is no historic fabric remaining there. The boat is not there. The lines in the water have long since disappeared. But I do think from that standpoint that it does show the nature of the cultural and historic resource, not necessarily that event, but others.

Mr. KOSTMAYER. Reclaiming my time, the boats are there. The men who died there are buried there. It is historic territory. It is marked by a State park on both sides of New Jersey and Pennsylvania. There is a museum there. For a long time Emanuel Leutze's famous painting "Washington Crossing the Delaware" hung there, but it is now in the Metropolitan Museum of Art in New York City.

Mr. Speaker, I rise today to ask the support of Members for my legislation to designate approximately 32 miles of the Delaware River as a component of the Wild and Scenic Rivers System.

As my good friend and colleague, Mr. VENTO, mentioned during his remarks, my efforts to protect the Delaware began in 1977, when I was a freshman. In that year, Members voted to designate approximately 114 miles of the Middle Delaware as part of the Wild and Scenic River System. Unfortunately, however, portions of the legislation that would have protected the river segments adjoining Bucks County were deleted from the final version signed by President Carter.

Since then, I have continued efforts to protect the Delaware. Mr. Speaker, in 1983 the National Parks Subcommittee approved legislation to designate as wild and scenic the portion of the Delaware that runs through Bucks County. Due to controversy over the construction of the Point Pleasant Pumping Sttion, however, further progress on the bill was stalled.

In 1988, President Reagan signed legislation that created the Delaware and Lehigh Canal National Heritage Corridor, commemorating the areas along the Pennsylvania shore of the river as part of the National Park System.

Mr. Speaker, I urge my colleagues to vote to protect the Delaware because I believe, as I did when I came here 14 years ago, that the natural, cultural, and historic resources of the river make it an invaluable resource not only for the people of southeastern Pennsylvania, but for all Americans. Designating the Delaware as wild and scenic will ensure that our Nation's citizens will be able to enjoy and cherish the solitude that this river provides in the midst of the most congested area of our country.

Clearly, the Delaware qualifies for preservation under the Wild and Scenic Act. It has outstandingly remarkable values, and provides unique recreational resources to millions of people. Further delay of Federal protection for this river would be a serious mistake. Let us move forward to save the Delaware.

In closing, Mr. Speaker, I again wish to thank Mr. VENTO, the chairman of the Parks Subcommittee, and Mr. LAGOMARSINO, the ranking member, for their help in bringing this legislation to the floor.

Mr. VENTO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 3764, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

HOTEL AND MOTEL FIRE SAFETY ACT OF 1990

Mr. ROE. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 94) to amend the Federal Fire Prevention and Control Act of 1974 to allow for the development and issuance of guidelines concerning the use and installation of automatic sprinkler systems and smoke detectors in places of public accommodation affecting commerce, and for other purposes.

The Clerk read as follows:

Senate amendment: Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hotel and Motel Fire Safety Act of 1990".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) more than 400 Americans have lost their lives in multistory hotel fires over the last 5 years;

(2) when properly installed and maintained, automatic sprinklers and smoke detectors provide the most effective safeguards against the loss of life and property from fire;

(3) automatic sprinklers and smoke detectors should supplement and not supplant other fire protection measures, including existing requirements for fire resistive walls and fire retardant furnishings;

(4) some State and local governments and the hotel industry need to act more rapidly to require the installation and use of automatic sprinkler systems in hotels; and

(5) through the United States Fire Administration and the Center for Fire Research, the Federal Government has helped to develop and promote the use of residential sprinkler systems and other means of fire prevention and control.

(b) PURPOSE.—It is the purpose of this Act to save lives and protect property by promoting fire and life safety in hotels, motels, and all places of public accommodation affecting commerce.

SEC. 3. HOTEL AND MOTEL FIRE PREVENTION AND CONTROL.

(a) IN GENERAL.—The Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2201 et seq.) is amended by adding at the end the following new sections:

"LISTINGS OF CERTIFIED PLACES OF PUBLIC ACCOMMODATION

"SEC. 28. (a) SUBMISSIONS BY STATES.—(1) Not later than 2 years after the date of enactment of this section, each State shall, under procedures formulated by the Director, submit to the Director a list of those places of public accommodation affecting commerce located in the State which the Governor of the State or his designee certifies meet the requirements of the guidelines described in section 29.

"(2) The Director shall formulate procedures under which each State shall periodically update the list submitted pursuant to paragraph (1).

"(b) COMPILATION AND DISTRIBUTION OF MASTER LIST.—(1) Not later than 60 days after the expiration of the 2-year period referred to in subsection (a), the Director shall compile and publish in the Federal Register a national master list of all of the places of public accommodation affecting commerce located in each State that meet the requirements of the guidelines described in section 29, and shall distribute such list to each agency of the Federal Government and take steps to make the employees of such agencies aware of its existence and contents.

"(2) The Director shall periodically update the national master list compiled pursuant to paragraph (1) to reflect changes in the State lists submitted to the Director pursuant to subsection (a), and shall periodically redistribute the updated master list to each agency of the Federal Government.

"(3) For purposes of this subsection, the term 'agency' has the meaning given to it under section 5701(1) of title 5, United States Code.

"FIRE PREVENTION AND CONTROL GUIDELINES FOR PLACES OF PUBLIC ACCOMMODATION

"SEC. 29. (a) CONTENTS OF GUIDELINES.—The guidelines referred to in sections 28 and 30 consist of—

"(1) a requirement that hard-wired, single-station smoke detectors be installed in accordance with National Fire Association Standard 74 in each guest room in each place of public accommodation affecting commerce; and

"(2) a requirement that an automatic sprinkler system be installed in accordance with National Fire Protection Association Standard 13 or 13-R, whichever is appropriate, in each place of public accommodation affecting commerce except those places that are 3 stories or lower.

"(b) EFFECT ON STATE AND LOCAL LAW.—The provisions of this section shall not be construed to limit the power of any State or political subdivision thereof to implement

or enforce any law, rule, regulation, or standard concerning fire prevention and control.

"(c) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

"(1) The term 'smoke detector' means an alarm that is designed to respond to the presence of visible or invisible particles of combustion.

"(2) The term 'automatic sprinkler system' means an electronically supervised, integrated system of piping to which sprinklers are attached in a systematic pattern, and which, when activated by heat from a fire, will protect human lives by discharging water over the fire area, and by providing appropriate warning signals (to the extent such signals are required by Federal, State, or local laws or regulations) through the building's fire alarm system.

"DISSEMINATION OF FIRE PREVENTION AND CONTROL INFORMATION

"SEC. 30. The Director, acting through the Administrator, is authorized to take steps to encourage the States to promote the use of automatic sprinkler systems and automatic smoke detection systems, and to disseminate to the maximum extent possible information on the life safety value and use of such systems. Such steps may include, but need not be limited to, providing copies of the guidelines described in section 29 and of the master list compiled under section 28(b) to Federal agencies, State and local governments, and fire services throughout the United States, and making copies of the master list compiled under section 28(b) available upon request to interested private organizations and individuals.".

(b) DEFINITIONS.—(1) Section 4 of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2203) is amended by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively, by redesignating paragraphs (6) and (7) as paragraphs (8) and (9), respectively, and by inserting immediately after paragraph (3) the following new paragraph:

"(4) 'Director' means the Director of the Federal Emergency Management Agency;".

(2) Section 4 of such Act (as amended by paragraph (1)) is further amended by inserting immediately after paragraph (6), as so redesignated, the following new paragraph:

"(7) 'place of public accommodation affecting commerce' means any inn, hotel, or other establishment not owned by the Federal Government that provides lodging to transient guests, except that such term does not include an establishment treated as an apartment building for purposes of any State or local law or regulation or an establishment located within a building that contains not more than 5 rooms for rent or hire and that is actually occupied as a residence by the proprietor of such establishment;".

SEC. 4. ADHERENCE TO FIRE SAFETY GUIDELINES IN ESTABLISHING RATES AND DISCOUNTS FOR LODGING EXPENSES.

(a) AMENDMENT TO TITLE 5.—Subchapter I of chapter 57 of title 5, United States Code, is amended by inserting immediately after section 5707 the following new section:

"§ 5707a. Adherence to fire safety guidelines in establishing rates and discounts for lodging expenses

"(a) Studies or surveys conducted for the purposes of establishing per diem rates for lodging expenses under this chapter shall be limited to places of public accommodation that meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974. The provisions of this subsection shall not apply with respect to studies and surveys that are conducted in any jurisdiction that is not a State as defined in section 4 of the Federal Fire Prevention and Control Act of 1974.

"(b) The Administrator of General Services may not include in any directory which lists lodging accommodations any hotel, motel, or other place of public accommodation that does not meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974.

"(c) The Administrator of General Services shall include in each directory which lists lodging accommodations a description of the access and safety devices, including appropriate emergency alerting devices, which each listed place of public accommodation provides for guests who are hearing-impaired or visually or physically handicapped.

"(d) The Administrator of General Services may take any additional actions the Administrator determines appropriate to encourage employees traveling on official business to stay at places of public accommodation that meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974.".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 57 of title 5, United States Code, is amended by inserting immediately after the item relating to section 5707 the following new item:

"5707a. Adherence to fire safety guidelines in establishing rates and discounts for lodging expenses.".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect 60 days after the date of the publication in the Federal Register of the master list of certified places of public accommodation maintained by the Director of the Federal Emergency Management Agency pursuant to section 28(b) of the Federal Fire Prevention and Control Act of 1974 (as added by section 3 of this Act).

SEC. 5. ESTABLISHMENT OF APPROVED ACCOMMODATIONS PERCENTAGE FOR FEDERAL AGENCIES.

(a) APPROVED ACCOMMODATIONS PERCENTAGE.—

(1) IN GENERAL.—Section 5707 of title 5, United States Code, is amended by adding at the end the following new subsection:

"(d)(1) Each agency shall ensure that its approved accommodations percentage for a fiscal year shall be not less than—

"(A) 65 percent, for the first fiscal year that begins 4 years after the date of enactment of this subsection;

"(B) 75 percent, for the fiscal year that begins 5 years after the date of enactment of this subsection; and

"(C) 90 percent, for the fiscal year that begins 6 years after the date of enactment of this subsection and for each subsequent fiscal year.

"(2) In this subsection, an agency's 'approved accommodations percentage' for a fiscal year is the percentage determined by multiplying 100 by the quotient of—

"(A) the total number of nights spent by civilian employees of the agency (as described in section 5702(a)) for which payment was made under this chapter for lodging expenses incurred in any State at any approved hotel, motel, or other place of public accommodation not owned by the Federal Government; divided by

"(B) the total number of nights spent by such employees for which payment was made under this chapter for lodging expenses incurred in any State at any hotel, motel, or other place of public accommodation not owned by the Federal Government.

"(3) For purposes of this subsection, a hotel, motel, or other place of public accommodation is approved if it meets the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974.

"(4) For purposes of this subsection—

"(A) the term 'agency' does not include the government of the District of Columbia; and

"(B) the term 'State' means any State, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, the Virgin Islands, the Canal Zone, Guam, American Samoa, or any other territory or possession.".

(2) CONFORMING AMENDMENT.—Section 5701 of such title is amended in the matter preceding paragraph (1) by striking "For the purpose" and inserting "Except as otherwise provided in section 5707(d), for the purpose".

(b) GAO AUDIT OF AGENCY COMPLIANCE.—Not later than 6 months after the last day of the first fiscal year during which lodging expenses are subject to the requirements of section 5707(d) of title 5, United States Code, as added by subsection (a), and not later than 6 months after the last day of every fiscal year thereafter, the Comptroller General shall conduct an audit of the compliance of agencies with the requirements of section 5707(d) of title 5, United States Code (as added by subsection (a)), and shall submit a report to Congress describing the results of such audit.

SEC. 6. PROHIBITING FEDERAL FUNDING OF CONFERENCES HELD AT NON-CERTIFIED PLACES OF PUBLIC ACCOMMODATION.

(a) IN GENERAL.—No Federal funds may be used to sponsor of fund in whole or in part a meeting, convention, conference, or training seminar that is conducted in, or that otherwise uses the rooms, facilities, or services of, a place of public accommodation that does not meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974 (as added by section 3(a) of this Act).

(b) WAIVER.—

(1) IN GENERAL.—The head of an agency of the Federal Government sponsoring or funding a particular meeting, convention, conference, or training seminar may waive the prohibition described in subsection (a) if the head of such agency determines that a waiver of such prohibition is necessary in the public interest in the case of such particular event.

(2) *Delegation of authority.*—The head of an agency of the Federal Government may delegate the authority provided under paragraph (1) to waive the prohibition described in subsection (a) and to determine whether such a waiver is necessary in the public interest to an officer or employee of the agency if such officer or employee is given such authority with respect to all meetings, conventions, conferences, and training seminars sponsored or funded by the agency.

(c) NOTICE REQUIREMENTS.—

(1) ADVERTISEMENTS AND APPLICATIONS.—(A) Any advertisement for or application for attendance at a meeting, convention, confer-

ence, or training seminar sponsored or funded in whole or in part by the Federal Government shall include a notice regarding the prohibition described in subsection (a).

(B) The requirement described in subparagraph (A) shall not apply in the case of an event for which a head of an agency of the Federal Government, pursuant to subsection (b), waives the prohibition described in subsection (a).

(2) PROVIDING NOTICE TO RECIPIENTS OF FUNDS.—(A) Each Executive department, Government corporation, and independent establishment providing Federal funds to non-Federal entities shall notify recipients of such funds of the prohibition described in subsection (a).

(B) In subparagraph (A), the terms "Executive department", "Government corporation", and "independent establishment" have the meanings given such terms in chapter 1 of title 5, United States Code.

(d) EFFECTIVE DATE.—The provisions of this section shall take effect on the first day of the first fiscal year that begins after the expiration of the 425-day period that begins on the date of the publication in the Federal Register of the master list referred to in section 28(b) of the Federal Fire Prevention and Control Act of 1974 (as added by section 3 of this Act).

SEC. 7. WAIVER OF FEDERAL LIABILITY.

In any action for damages resulting from a fire at a place of public accommodation, the Federal Government may not be found liable for death of or injury to any person or damage to any property because an officer or employee of the Federal Government was negligent in carrying out any requirement under this Act or the amendments made by this Act.

SEC. 8. EFFECT ON CERTAIN REQUIREMENTS.

Nothing in this Act shall be construed to encourage model building code organizations, or State or local governments, to reduce requirements for fire resistive walls or other safety features.

The SPEAKER pro tempore. Is a second demanded?

Mr. WALKER. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from New Jersey [Mr. ROE] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. WALKER] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New Jersey [Mr. ROE].

Mr. ROE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 94, the Hotel and Motel Fire Safety Act of 1990, as amended by the Senate on August 4, 1990. The bill is designed to motivate hotels and motels to install fire safety equipment by encouraging Federal employees to stay at hotels and motels that have sprinkers and smoke detectors.

The Senate passed bill that we are considering today is similar to the bill passed under suspension of the rules by the House on November 17, 1989. The Senate passed bill makes the following changes:

It alters the sprinkler exemption guidelines to allow Federal employees to be reimbursed for their stay at hotels and motels that have only smoke detectors, if the hotels are under four-stories. The House passed bill provided for sprinkler exemption if the hotels were under three-stories, had no interior corridors adjoining guest rooms, and had immediate egress from the room to the outside. The Senate modified this provision in response to concerns expressed that small businesses unable to bear significant increased costs to install sprinkler equipment would be necessarily and unreasonably impacted. I agree with the Senate that raising the exemption from under three-stories to under four-stories would not have a serious impact on fire safety. However, I do believe that among the issues that merit further consideration is the need for installation of smoke detectors in the corridors of three-story hotels that lack sprinklers and exterior egress from the rooms.

The amended bill gives States 2 years to submit a list to the U.S. Fire Administration of Hotels that meet the Federal fire safety guidelines. The House passed bill allowed States only 1 year. Since the bill does not affect Federal travel until 4 years after enactment, this change should not delay implementation.

Third, the Senate, added a provision that the bill is not to be construed by State and local governments and building code organizations to reduce requirements for other safety features, such as fire resistive construction materials. This provision recognizes the importance of other fire safety measures, and clarifies that sprinklers and smoke detectors are not the only means of fire safety in hotels.

H.R. 94 requires all federally listed hotels to install sprinklers in accordance with the applicable National Fire Protection Association [NFPA] standard. Hotels that, at the time of enactment, have sprinkler systems that were installed in accordance with an equivalent State code should also be deemed to meet this requirement. Any hotel that installs a sprinkler system after enactment must conform to the NFPA standard in effect at the time of the installation.

The Senate made no changes in the provisions that address travel of Federal employees. Specifically, the bill allows Federal agencies to phase in the requirements, while insuring that each year an increased percentage of Federal employees stay in facilities that meet the fire safety guidelines. The bill also would prohibit the General Services Administration [GSA] from listing in any directory of lodging for Federal employees the rates of any hotel or motel that does not meet the safety guidelines. GSA also would be prohibited from including noncomplying facilities in any survey conducted to determine Federal employee per diem rates. These provisions represent an agreement reached in the House by the Committee on Science, Space, and Technology and the Committee on Government Operations.

I want to extend my appreciation for the efforts of the chairman of the Committee on Government Operations, Congressman JOHN CONYERS, along with Congressman FRANK HORTON, ranking Republican member of the committee. Also, I especially want to thank Congresswoman CARDISS COLLINS, The chairman of the Subcommittee on Government Activities and Transportation, and Congressman HOWARD NIELSON, the ranking Republican member of that subcommittee for the cooperation and understanding that they extended to us as we worked on this legislation.

I want to congratulate the primary sponsors of the bill, Congressmen DOUG WALGREN and SHERWOOD BOEHLERT, for their vision in identifying this overlooked fire safety problem and for their sustained efforts to ensure passage of this legislation to increase the fire safety of public accommodations, and our current chairman of the subcommittee, the gentleman from North Carolina [Mr. VALENTINE].

The bill as amended by the Senate strikes the proper balance between the Federal Government's desire to encourage effective fire safety in hotels and motels and the authority and rights of States and local governments to establish fire and building codes.

I urge my colleagues to support H.R. 94, as amended by the Senate.

□ 1300

Mr. WALKER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the Hotel Fire Safety Act of 1989 which was introduced by the gentleman from New York [Mr. BOEHLERT], who is the Republican vice chairman of the Science Committee's Technology Panel which handles fire research and control matters.

Mr. Speaker, H.R. 94, first passed by the House last November, is a responsible approach to encourage hotels to further improve their fire prevention efforts. It uses the carrot and not a stick. In fact, the legislation does not put any new mandatory requirements on hotels. Rather, it simply induces them to install sprinklers and smoke detectors over the next 4 years before requiring an annually increasing majority of Federal employees to stay at hotels so equipped.

Agencies are guaranteed sufficient flexibility where cost and availability make this impractical. Paperwork is at

a minimum and the phase-in is gradual.

This market share coercion will hopefully have a positive and not disruptive effect on the industry. Small family businesses are protected by exempting establishments with fewer than six units. And from what I understand, a hotel could recover their upfront investment on the installation of smoke alarms and sprinkler systems through lower insurance premiums within about 5 years, with operational savings in the outyears. Therefore, it is in the long term financial best interests of the industry to increase fire safety in order to reduce its risk and potential liability.

Additionally, the bill version we are clearing today for the President's signature has been improved by the Senate in broadening the exemption for hotels to those with three floors or less. This better takes into account an ability to pay by the proprietor. The bill we had passed in the House was at a two-story level, and this raises it to three, and I think is a very responsible approach.

The administration does support the enactment of H.R. 94. With less than half of the public accommodations today protected by sprinklers, I am proud to be a cosponsor of H.R. 94, and I urge its passage by the House.

Mr. BOEHLERT. Mr. Speaker, today is a landmark day in the history of fire safety.

The legislation we are sending on to the President this morning is analogous to the creation of the Food and Drug Administration or the Consumer Product Safety Commission in this regard—it is a signal recognition of a major safety threat and of the Federal Government's responsibility to help eliminate it.

The United States has the worst rate of fire deaths and losses in the industrialized world. And the reason is as simple as it is pathetic—we don't take the simple, obvious, cost-effective steps to protect ourselves.

This was brought home to me with brutal force at a hearing several years back on the Dupont Plaza Hotel fire in Puerto Rico, which killed 97 Americans on New Year's Eve, 1986. They were all incinerated in about 10 minutes by a fire ball that ripped through the casino. If the hotel had had sprinklers, no one would even have been injured.

From the moment we heard that testimony, Mr. WALGREN and I dedicated ourselves to this bill, and it is with great satisfaction that we now see our three years of work bearing fruit.

Incidentally, Senator BRYAN, who did a brilliant job of championing this bill in the Senate, has a similar story to tell. He was the Governor of Nevada at the time of the MGM Grand fire in Las Vegas. He tells of walking through the ruins of the hotel after the fire and seeing the clear line between the undamaged, sprinklered section and the devastated remainder.

Sprinklers clearly save lives and prevent damage. And they are affordable. It's the rare hotel today that is built without sprinklers both because of concerns in the industry and ever stricter State regulation.

But the problem of existing hotels—the bulk of hotels, after all—has largely been ignored. That's where H.R. 94 comes in. Given that installing sprinklers is generally no more expensive than installing new carpet, there's no reason not to expect hotels to install this safety equipment.

The bill does not require any hotel to do anything. But it does put the purchasing power of the Federal Government to work to encourage safety improvements. The Federal Government should not be putting its employees at risk or, in effect, subsidizing unsafe properties.

This is a reasonable approach with ample precedents in both the Federal and private sector. It has been made even more reasonable—I hope not overly reasonable—by the amendments we worked out with the Senate, which exempt more hotels. While fire safety experts have their qualms about the safety of three-story properties, this bill still will have an impact on those hotels that present the greatest threat to life safety.

In any event, the bill is not a cure-all for fire safety. It encourages what we view as the bare minimum necessary to protect hotel guests. The bill, for example, acknowledges the important role of containment, but sets no standards in that area. The smoke detector requirements are less comprehensive than would be ideal; among the steps that merit further investigation is the installation of smoke detectors in the corridors of three-story hotels that lack sprinklers and exterior egress from the rooms. And the list could go on.

One question of interpretation has arisen about the bill already. The bill requires all federally listed hotels to install sprinklers in accordance with the applicable National Fire Protection Association standard. Hotels that, at the time of enactment, have sprinkler systems that were installed in accordance with an equivalent State code should be deemed to meet this requirement. Any hotel that installs a sprinkler system after enactment must conform precisely to the NFPA standard in effect at the time of the installation.

H.R. 94 will raise public awareness about fire safety and will increase the use of fire safety equipment. It is a step that is long overdue.

Mr. ROE. Mr. Speaker, I yield 3 minutes to the gentleman from North Carolina [Mr. VALENTINE], the distinguished chairman of the Subcommittee on Science, Research and Technology.

Mr. VALENTINE. Mr. Speaker, I thank the chairman of our full committee for yielding this time to me.

Mr. Speaker, I rise in full support of H.R. 94, the Hotel and Motel Fire Safety Act of 1990, a bill designed to protect the American public. H.R. 94, will encourage hotels and motels to provide the traveling public with a greater measure of fire protection through the use of fire sprinklers and smoke detectors in hotels.

The bill was first introduced last Congress, as a result of a hearing held by the Subcommittee on Science, Research and Technology on the Dupont Plaza Hotel fire in San Juan, Puerto Rico, on December 31, 1986. That tragic fire claimed the lives of 97 people. Investigations of the fire by the National Institute of Standards and Technology and the U.S. Fire Administration concluded that a sprinkler system would have prevented this tragedy.

The bill requires Federal agencies, through a phase-in period, to insure that an increasing percentage of its employees stay in hotels that meet the fire safety guidelines under the bill. The guidelines provide for automatic sprinklers and smoke detectors in accordance with appropriate existing national standards in all hotels four stories and over in height.

Hotel fire safety is a necessary goal in this country. Statistics show that the United States currently has one of the worst fire records of any country in the industrialized world. Annually, about 6,000 Americans die from fires in this Nation. Data shows that 36 percent of multiple fatalities occur in our Nation's hotels. Sprinklers and smoke detectors are effective means of fire safety; and combined, provide one of the best safeguards against the dangers of fire for the traveling public.

I urge my colleagues to support H.R. 94, as amended by the Senate. This bill represents a significant step toward protecting the public from fires in hotels and motels.

Mr. ROE. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Pennsylvania [Mr. WALGREN], former chairman of the subcommittee and one of the prime authors of this legislation.

Mr. WALGREN. Mr. Speaker, I would like to recognize all those who have made essential contributions to the act which we have before us today that will go on to the President for his signature, and especially the contribution of the gentleman from New York [Mr. BOEHLERT]. The gentleman from New York and I were the chairman and ranking minority member respectively of the Science, Research and Technology Subcommittee which had responsibility for fire research at the time of the DuPont Plaza Hotel fire now some 4 years ago. I do not think there was any hearing or any incident that moved us together more deeply than the testimony that we heard about the 97 people who lost their lives in that fire, and from their families who had every expectation when they went to a facility of that kind that their family members would be protected with state-of-art fire protection equipment. That simply was not the case.

The gentleman from New York [Mr. BOEHLERT] has maintained a steadfast interest in this, along with others. I also want to particularly recognize the gentleman from Pennsylvania [Mr. WELDON] and all those involved in the

Congressional Fire Service Caucus which has given this issue a great deal of staying power.

There is no question that sprinklers save lives. As has been said, there never has been a fatality in a properly sprinklered hotel or motel. Sprinklers are gathering in their recognition across the industrial world. I noticed the other day that in Vancouver, Canada, they have now required that all new residential facilities in that community be protected by automatic fire sprinklers.

Certainly, in combination with smoke detectors, they are an absolute best possible circumstance to protect lives from fire. When people in our country travel as much as we do officially and on vacations, we deserve to know that we will have the kind of protection that we would reasonably expect.

This bill is the product of the interaction with other committees, the Government Operations Committee and the Senate as well. They have all made good contributions to a system here that should set a standard that hotels and motels, regardless of whether they are particularly covered by this legislation, will want to meet on their own and as such, I am sure that there will be many instances where hotels and motels will upgrade their fire safety protection so that all their customers will know that they are protected in their facility in a way that is as full and complete as in any other commercial hotel or motel that someone might go to.

So Mr. Speaker, I would simply like to express my appreciation to all those who have worked on this bill over these past 3 years. We hope it makes a good contribution to the safety of the public.

Mr. WELDON. Mr. Speaker, I rise today to mark a very special occasion for fire and life safety. With the passage of the Hotel-Motel Fire Safety Act, Congress has taken a great leap forward in protecting the American public.

Today we are poised to take the last steps toward enactment of legislation which will provide greater fire safety for the traveling public. And while all Americans will reap the benefits, praise is due to three of our colleagues who labored hard and long for passage of this bill. My good friend, DOUG WALGREN, began this fight during his stint as chairman of the Science Committee's Subcommittee on Science, Research and Technology. Although he has moved on to a bigger assignment on the Energy and Commerce Committee, his wisdom and dedication were critical.

I would also like to commend my friend and colleague from New York, SHERRY BOEHLERT. His tireless efforts to secure passage of legislation to promote fire safety in places of public lodging was indispensible in the fight for H.R. 94. Let me also mention the work of a Member of the other body, the gentleman from Nevada [Mr. BRYAN]. As the new chair of the Senate Commerce Committee's Subcommittee on Consumer, his leadership secured Senate passage of H.R. 94.

Like most legislation, H.R. 94 is the product of compromise. Concessions were made to ensure that this bill does not unfairly penalize hotel owners and operators. My colleagues should be commended for their willingness to compromise and their unyielding dedication to the promotion of fire and life safety.

Each year, more than 6,000 Americans lose their lives to fire. More than one-third of the multiple death fires occur in public lodging facilities. Passage of H.R. 94 will encourage the expanded use of sprinklers, a proven tool for preserving life and property.

Mr. Speaker, I urge my colleagues to join me in strong support of the final passage of H.R. 94. The life you save may be your own.

Mr. WALKER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ROE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from New Jersey [Mr. ROE] that the House suspend the rules and concur in the Senate amendment to H.R. 94.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ROE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include therein extraneous matter on the Senate amendment to H.R. 94 just concurred in.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

□ 1310

JOHN F. KENNEDY CENTER ACT AMENDMENTS

Mr. ANDERSON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5070) to amend the John F. Kennedy Center Act to authorize appropriations for maintenance, repair, alteration, and other services necessary for the John F. Kennedy Center for the Performing Arts, and for other purposes, as amended.

The Clerk read as follows:

H.R. 5070

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. MAINTENANCE, REPAIRS, AND OTHER BUILDING SERVICES.

Section 6(e) of the John F. Kennedy Center Act (20 U.S.C. 761(e)) is amended to read as follows:

"(e) MAINTENANCE, REPAIR, ALTERATION, SECURITY, INFORMATION AND OTHER SERVICES.—

"(1) PROVISION OF SERVICES.—The Secretary of the Interior, acting through the National Park Service, and the Board shall provide for maintenance, repair, and alteration of the building and security, information, interpretation, janitorial, and all other services necessary for operating the building.

"(2) AGREEMENT.—The Secretary and the Board shall enter into a cooperative agreement setting forth their respective responsibilities under paragraph (1) of this subsection.

"(3) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary of the Interior to carry out this subsection—

"(A) for fiscal year 1991, not more than—

"(i) $6,750,000 for annual maintenance, repairs, alterations, and operating services; and

"(ii) $15,000,000 for deferred maintenance, repairs, and alterations; and

"(B) for fiscal year 1992, not more than—

"(i) $9,850,000 for annual maintenance, repairs, alterations, and operating services; and

"(ii) $15,512,000 for deferred maintenance, repairs, and alterations.".

SEC. 2. AUDITS.

Section 6(f) of the John F. Kennedy Center Act (20 U.S.C. 761(f) is amended to read as follows:

"(f) AUDITS.—The General Accounting Office shall review and audit, at least every 3 years, the accounts of the John F. Kennedy Center for the Performing Arts for the purpose of—

"(1) examining expenditures made under the cooperative agreement entered into under subsection (c)(2); and

"(2) determining the continuing ability of the Center to pay its share of future expenditures under such agreement.".

SEC. 3. REPEAL OF OUTDATED PROVISIONS.

Sections 6(d), 7, and 8 of the John F. Kennedy Center Act (20 U.S.C. 761(d), 76m, and 76n) are repealed.

SEC. 4. TECHNICAL AMENDMENT.

Section (a) of the John F. Kennedy Center Act (20 U.S.C. 760(a)) is amended by striking "the Second Liberty Bond Act, as amended," each place it appears and inserting "chapter 31 of title 31, United States Code,".

The SPEAKER pro tempore (Mr. MAZZOLI). Pursuant to the rule, a second is not required on this motion.

The gentleman from California [Mr. ANDERSON] will be recognized for 20 minutes, and the gentleman from Arkansas [Mr. HAMMERSCHMIDT] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5070 authorizes appropriations for the repair, maintenance, and operating services of the John F. Kennedy Center for the Performing Arts.

The Kennedy Center is our living memorial to the late President John F. Kennedy. It is living because of the ongoing public activities which bring

to mind the many programs President Kennedy initiated for the people of our country. Last year alone, 4 million Americans participated in the Center's tours education, and outreach efforts. Since 1971, when the Center opened, 66 million people have entered this memorial for tours and performances.

However, this memorial has fallen on hard times. The building has many structural and mechanical problems. Some of these problems are simply because of the age of the facility. For example, at 20 to 25 years, any building's needs major work done on its air-conditioning system. Other problems are a result of the poor design or construction of the building. Quite simply, the Carrera marble exterior was not designed for the changing Washington climate; the marble contracts too much during the winter and expands too much during the summer. Many buildings built in the United States during the same period are experiencing the same problem. The Kennedy Center is not unique in this respect. We cannot simply let the building fall apart and become a safety hazard to the public.

This building is owned by the Federal Government, and it is the responsibility of the Federal Government to maintain its property.

The bill before us today is a bare bones authorization. It authorizes $6.75 million in fiscal year 1991 for annual maintenance, repairs, alterations, and operating services such as janitorial services power, water, and sewage. It also authorizes $15 million in fiscal year 1991 to begin a 2-year project of eliminating the backlog of deferred maintenance, repairs, and alterations. These two programs are authorized in fiscal year 1992 at levels of $9.8 million and $15.5 million, respectively.

This funding is adequate to eliminate the backlog of repairs at the Center and to place the maintenance, repair, and alteration program on the same type of a normal planning cycle that other Federal buildings are on.

The Kennedy Center was opened in 1971. One of the problems that has arisen since that time concerns the responsibility for the long-term repair and alteration of the building. The John F. Kennedy Center Act did not vest this responsibility with either the Department of the Interior or the Kennedy Center Board. As a result, adequate long-term program planning for the replacement of aging building systems has not occurred. H.R. 5070 places this responsibility in the Interior Department and the Kennedy Center Board, and requires them to enter into a cooperative agreement setting forth their respective responsibilities to maintain, repair, and alter the building.

The Kennedy Center, by law, is the memorial in Washington to President Kennedy, just as the Lincoln Memorial and Jefferson Memorial were built as monuments to President Lincoln and Jefferson. The new Chairman of the John F. Kennedy Center for the Performing Arts, James Wolfensohn, has a vision of what the Kennedy Center can become to our Nation. Jim Wolfensohn, is going to build on the existing foundation to bring the Kennedy Center into the 21st century.

The funding in today's bill will help repair and maintain the building in order to help achieve that.

I urge my colleagues to support the passage of H.R. 5070.

Mr. Speaker, I reserve the balance of my time.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to express my support for H.R. 5070, which would authorize appropriations for the repair, maintenance, and operation of the John F. Kennedy Center for the Performing Arts for fiscal years 1991 and 1992. I am pleased to be a cosponsor of this legislation.

It has become apparent that urgent structural and mechanical repairs are needed at the Kennedy Center and can no longer be ignored. In fact, if these repairs are not completed, these problems will pose a serious safety hazard to visitors to the Center, if they do not do so already. H.R. 5070 would authorize a total of $30.5 million in fiscal years 1991 and 1992 to be appropriated to the Secretary of the Interior, acting through the National Park Service, to complete deferred maintenance and repairs.

The necessary repairs which have been identified by the Kennedy Center and the National Park Service include the continuation of the $16 million repair of the parking garage; structural and marble repairs to the roof and plaza terraces, including correcting major water leaks; repair to the plaza drive; and a replacement program for mechanical equipment which has reached the end of its useful life. In addition, $2.8 million in cyclical maintenance work which has been deferred and $1 million of disabled accessibility improvements are included in the $30.5 million authorization.

H.R. 5070 also authorizes annual operating, maintenance, and repair funding in the amount of $6,750,000 in fiscal year 1991 and $9,850,000 in fiscal year 1992. The 1992 figure reflects the continuing program of equipment repairs at the Kennedy Center.

One of the results of a hearing on this matter by the Public Buildings and Grounds Subcommittee was a recognition that responsibility for capital improvement to the Kennedy Center has never been specifically assigned. This has led to the deteriorated condition of the Kennedy Center that we now face. H.R. 5070 requires that the Secretary of the Interior, acting through the Park Service, and the Board of Trustees of the Kennedy Center negotiate a new cooperative agreement spelling out the responsibilities of each for the overall physical care and operation of the Kennedy Center. Congress would continue to control the amount of Federal funds being devoted to the Kennedy Center through the authorization and appropriations process.

I want to point out that no programing funds are included in this bill. Earlier this year, James Wolfensohn was elected as Chairman of the Board of Trustees of the Kennedy Center. I have met with Mr. Wolfensohn and am confident of his abilities in directing the future of the Kennedy Center. He has made a realistic, though difficult, assessment of current needs and has committed himself to increasing the fund-raising efforts of the Board of Trustees. I look forward to seeing the results of his service as Chairman in both the creative and financial operations of the Kennedy Center.

In addition to being a national performing arts center, the Kennedy Center has also been designated as the sole memorial to the late President Kennedy in the city of Washington. As such, we have a commitment to ensure that the physical integrity of this building, which is visited by 3.5 million people each year, is preserved. Without the funding authorized by this bill, the condition of the Kennedy Center will simply continue to deteriorate and repair costs will only increase. With a new cooperative agreement between the Park Service and the Board of Trustees of the Kennedy Center, we should not find ourselves in a position in the future where critical improvements are not made as a result of confusion over where responsibility lies.

Mr. Speaker, the $30.5 million in urgent repairs has been approved by the administration. I urge passage of H.R. 5070 today.

Mr. HAMMERSCHMIDT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ANDERSON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California [Mr. ANDERSON] that the House suspend the rules and pass the bill, H.R. 5070, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended) was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ANDERSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on H.R. 5070, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

CLAUDE PEPPER FEDERAL BUILDING

Mr. ANDERSON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4985) to designate the Federal building located at 51 Southwest 1st Avenue in Miami, FL, as the "Claude Pepper Federal Building."

The Clerk read as follows:

H.R. 4985

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The Federal building located at 51 Southwest 1st Avenue in Miami, Florida, shall be known and designated as the "Claude Pepper Federal Building".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal building referred to in section 1 shall be deemed to be a reference to the "Claude Pepper Federal Building."

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from California [Mr. ANDERSON] will be recognized for 20 minutes, and the gentleman from Arkansas [Mr. HAMMERSCHMIDT] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. ANDERSON].

□ 1320

Mr. ANDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4985 names the Federal building located at 51 Southwest 1st Avenue in Miami, FL, as the "Claude Pepper Federal Building."

When Claude Pepper died on May 30, 1989, it was the end of a long and distinguished career as a Member of the House of Representatives and the Senate that spanned over 50 years.

Claude served in the U.S. Senate from November 4, 1936, to January 3, 1951, and served as the chairman of the Committee on Patents in the 78th and 79th Congresses.

In 1962, Senator Pepper was elected to the U.S. House of Representatives. During this tenure he was chairman of the Committee on Rules from the 98th Congress to the 101st Congress; chairman of the Select Committee on Crime for the 91st through 93d Congresses; chairman of the Select Committee on Aging for the 95th Congress through the 97th Congress; and chairman of the U.S. Bipartisan Commission on Comprehensive Health Care.

Shortly before his death, President Bush awarded Senator Pepper with the Presidential Medal of Freedom in recognition of his distinguished service to the people of the United States. This is the highest possible award that can be bestowed by the President.

Claude was one of the most effective and relentless advocates of senior citizens rights and health care our country has ever known. The people of the United States recognized Claude as "Mr. Senior Citizen," "Mr. Social Security," and "Mr. Medicare." Senator Pepper was committed to protecting the dignity of older Americans.

Claude Pepper was moved by the true spirit of public service. He has left a legacy of a lifetime of dedicated public service. Few Americans have witnessed so much of America's history, have worked beside so many of its leaders, and have touched so many of its people as did Claude Pepper. The prologue in Claude's autobiography states "Providence has given me a life of personal satisfaction and fulfillment that comes only from knowing one has been able to make life a bit better for others."

Until his death, Senator Pepper continually cared about the people and their afflictions including illiteracy, adequate medical care for the sick, housing for the poor, and the sometimes lonely existence of our elderly. Above all, Claude was a friend of the American people and serves as an inspiration for the young people of the United States. Claude's goal was to provide everyone an equal chance to achieve the very best this country can offer.

In tribute to Claude Pepper's numerous contributions to the American people, it is fitting and appropriate to name this Federal building in Miami, FL as the "Claude Pepper Federal Building."

I urge my colleagues to support the passage of H.R. 4985, and I reserve the balance of my time.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to express my support for H.R. 4985, which would name a Federal building in Miami, FL, in honor of Claude Pepper, our late friend and colleague. Claude Pepper was first elected to the Senate in 1936, and served 14 years during the difficult times of the Depression and World War II. After a 13-year absence, Senator Pepper was back in Congress, being elected to the House in 1962. He continued to serve until his death last year.

Claude Pepper had a direct connection with my State of Arkansas.

As a newly graduated law student from Harvard, Claude taught at the University of Arkansas in 1925. Former Senator Bill Fulbright was one of his students.

I had a great appreciation for Senator Pepper's great intellect and for his warmth and friendship. I was honored to serve with him as the ranking Republican while he was chairman of the Select Committee on Aging.

During his many years of service, Claude Pepper became recognized as the champion of senior citizens—but his commitment and concern extended to all Americans, and particularly to his constituents in Miami. Many of the residents of Miami, arriving as refugees from Cuba or elsewhere, knew that his door was always open and relied on his assistance. One of these former refugees is now Claude Pepper's successor and sponsor of H.R. 4985, Representative ILEANA ROS-LEHTINEN.

Therefore, it is appropriate that we honor Claude Pepper's many decades of distinguished service in the Congress by designating the Miami Federal building in which his district office was located as the "Claude Pepper Federal Building." I urge passage of H.R. 4985 by the House today.

Mr. ANDERSON. Mr. Speaker, I yield 2 minutes to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Speaker, it was my great honor and privilege and joy when I was a senior at the University of Florida in 1934, to actively support Senator Pepper in his first race for the U.S. Senate. I had already known him before that time, and all the years that have followed, the enrichment of my life has come about because of this magnificent person who stood for integrity, courage, and compassion. A very magnificent individual, unexcelled and unequaled by most people I have ever heard of.

In the lifetime that we shared together, I saw in him a person who had the creativity and the courage and the vigor and enthusiasm for doing things that were to help people who needed help, and not himself or to put himself in great aggrandizement. He certainly was a great scholar, a very eloquent speaker, but most of all the compassion of his life is what is most outstanding to Members today, and most helpful to the country as a whole and to mankind as a whole.

I greatly appreciate this opportunity to speak in his behalf, and the naming of the building is very important.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the distinguished ranking member of the subcommittee, the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. Mr. Speaker, I want to express my support for H.R. 4985, legislation to honor our late colleague Claude Pepper by designating a Federal building in Miami, FL, as the "Claude Pepper Federal Building."

Until his death last year, Claude Pepper devoted his life to public service, first in the Senate and then for 27 years as the Representative of the 18th District of Florida. As a result of his tireless efforts in the Senate and the House, he became known across the country as a defender of the elderly, but was also active in the areas of health care, civil rights, and many other issues affecting all Americans. Although Claude Pepper was a national figure, he always served his Miami constituents well and his efforts were acknowledged and appreciated by them.

Mr. Speaker, it is truly appropriate that we recognize the many accomplishments of Claude Pepper by permanently designating the Miami Federal building in his honor.

Mr. ANDERSON. Mr. Speaker, I yield 2 minutes to the gentleman from Florida [Mr. FASCELL].

Mr. FASCELL. Mr. Speaker, I rise in strong support of H.R. 4985, and I congratulate my distinguished colleague, the gentlewoman from Florida [Ms. ROS-LEHTINEN] for being the primary sponsor on this bill in the committee to bringing the bill out to give recognition to a true statesman, a friend of all of ours, and the recognition that is justly deserved.

I think that one way to do it, because of Claude Pepper's not only long service, but because of something that he innately believed, and that is that government has a responsibility to people. In all of his life, Claude Pepper did everything he knew how to do to make sure that would be done. If anything, it symbolizes concern for people around this Nation of ours, the Federal edifices which represent the capability of the Federal Government to make those services available to our citizens.

So we are very proud, in fact, that the committee has seen fit, and that this Congress will enact a bill which will name the Federal building in Miami the Claude Pepper Building, a justifiable recognition for a great person.

Mr. Speaker, I rise in strong support of H.R. 4985, a bill to designate a Federal building located in Miami as the "Claude Pepper Federal Building." I wish to commend our colleague from Dade County, the successor to our colleague Claude Pepper, for introducing this bill to remember a man who was a distinguished public servant and a friend to us all.

History will record Claude Pepper as a man dedicated to public service, and there are 50 years of distinguished service which reflect it. His political values embodied of the New Deal of President Roosevelt, constantly being shaped by an ideal that government has a responsibility to take an active role in improving the lives of its citizens. In a sense, it is not right that many people will only remember Claude for his tireless work to protect Social Security and to provide for better health care for the elderly, for these are only several of the issues which reflect the cornerstone of his beliefs—that government has an obligation to take care of those who have given much and need a little help.

Claude Pepper was not a man of the past, he was a man of the future who always looked forward. This opinion was only reenforced when I visited Claude shortly before he passed away when he was talking of the work that still needed to be done that he knew he would not be part of. By naming this building in his honor, we are remembering his past and his legacy, but we are also challenging ourselves to look forward to accomplishing the work that he knew would need to be done.

□ 1330

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as she may consume to our distinguished colleague, the gentlewoman from Florida [Ms. ROS-LEHTINEN].

Ms. ROS-LEHTINEN. Mr. Speaker, it is an honor and a privilege for me to appear before the House of Representatives today to speak about the accomplishments of a man who represents the epitome of public service, and to urge your consideration of H.R. 4985 to rename the Federal building in downtown Miami as the Claude Pepper Federal Building. My colleagues, Representatives FASCELL, LEHMAN, SMITH, BENNETT, and SHAW join me in support of this proposal.

Mr. Speaker, Claude Pepper will be remembered as one of the giants of this institution, I would like to briefly recap his remarkable career.

First elected to the Senate in 1936, Claude Pepper, became a key leading figure during the difficult times of World War II. His leadership skills played a decisive role in the enactment of legislation designed to accelerate the incorporation of the citizenry to the war effort. At the same time, Senator Pepper became an ardent advocate of FDR's New Deal programs during the difficult times of the Great Depression.

These years of economic depression had a tremendous impact on Senator Pepper's career as a public servant and in the shaping of his legislative social agenda. Because he always reminded us about his growing up in the poverty of rural Alabama, he had a unique ability to understand the frustrations and needs of those less fortunate.

Senator Pepper's return to public service in 1963, as the newly elected Representative for the 18th Congressional District of Florida, marked the return to public life after a 13-year hiatus. Senator Pepper quickly became the leading force in the House of Representatives and distinguished himself as a champion of the people.

It was during these years that Congressman Pepper had his district office in the Federal building at 51 SW., 1st Avenue, in downtown Miami. Through those doors passed countless people who were helped by Congressman Pepper and his staff.

Senator Pepper established himself as the symbol of what our country stands for: equality and justice. He had the vision and courage to stand up and fight for a better America; an America where no one was denied the opportunity to excel because of the color of his or her skin, where the elderly were properly represented and their needs listened to, and where every citizen had access to good quality health care.

Senator Pepper challenged consensus and introduced an impressive number of legislation in the area of civil rights, health care, and social programs. He established himself as the tireless defender of the poor, the elderly, and the oppressed. His humanitarian and uninterrupted service to this country for 27 years as the Representative of the 18th Congressional District of Florida brought distinction and honor to our State.

Claude Pepper's life as a legislator represents the ultimate example of what a representative democracy is all about. He was the type of Representative who was always aware and alert to the needs of his constituents. He constantly encouraged the opinions of his electorate on the difficult issues of the day.

Mr. Speaker, in Miami we have a special fondness for Congressman Pepper. Whether Democrat or Republican, we remember his long years of service and his civic mindedness. When my family and I, and thousands like us, came to the United States after fleeting communism in Cuba, Claude Pepper's office was always open to help all refugees in filling out confusing Government documents and to help us become United States citizens.

Senator Pepper helped all who sought his help, whether they had been in Miami for many decades, as he had been, or whether they were new Haitian or Nicaraguan refugees or any other resident. There will never be enough words of praise that will do justice in paying tribute to the man who lived such as an exemplary life, and who did so much for the well-being of the citizens of the State of Florida as Claude Pepper.

Mr. ANDERSON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. SHAW], who is a cosponsor of H.R. 4985.

Mr. SHAW. Mr. Speaker, I thank the gentleman from Arkansas for yielding me this time.

So many of us who have served in this Hall have wonderful, fond memories of Claude Pepper. I had a some-

what unique relationship, though it was somewhat detached from Claude Pepper. Claude Pepper taught high school at Dothan High School in Dothan, AL. When he went to the Dothan High School, he replaced my father as a teacher as my father went on to Johns Hopkins University to study medicine.

My earliest remembrances of Claude Pepper was as I was being raised in Miami, FL, and, of course, Claude Pepper was our Senator. I remember the very difficult race that split so many people politically in the State of Florida, the Smathers-Pepper race. That was really my first remembrance of a real political race, have been raised in the State of Florida.

I am sure we all remember the many times Claude Pepper would take to the well of the House and speak. During periods of turmoil he seemed to have a way to just be able to calm the waters, and all of us have remembrances of some of the great speeches this man gave well into his eighties without a note, without hesitation, and with perfect memory and perfect organization as he spoke.

I would just like to remember one speech as we close what could not be characterized as debate but as discussion and found memories of a very much-loved colleague. I would like to close by reading from one of the speeches he gave in the last year as he served in this House.

This is what he said:

So I ask you, my colleagues, when you go home tonight and close your eyes in sleep and you ask, "What have I done today to lighten the burden upon those who suffer," at least you could say, I helped a little bit today; I voted to help those who needed help.

Mr. Speaker, these are the types of words that were always surrounding Claude Pepper as we remember him when he was our colleague. Whether we agreed with what he was voting on or agreed that the country could afford it or agreed that it was the best way to attack a problem, no one ever disagreed with the motivation of this great statesman. We are certainly far richer that he served among us here in the House of Representatives.

Mr. SMITH of Florida. Mr. Speaker, I rise in support of H.R. 4985, a bill to rename the Federal Building in Miami the Claude Pepper Federal Building.

It was with a deep sense of personal loss that I, along with U.S. Congress, the State of Florida, and indeed the entire country, mourned the passing last year of one of this century's greatest Americans, Claude Pepper. I knew Claude for 20 years, and it is impossible for me to imagine a more caring, dedicated, honest and loved man.

Claude Pepper began his 60 years of public service in 1929, as a member of the Florida State House. Claude went on to become a U.S. Senator from 1936 to 1951 and, finally a Member of Congress from 1962 until his death. Throughout his illustrious career, Senator Pepper served 10 U.S. Presidents and championed many noble causes—none as dear to his heart, however, as the plight of the elderly. This powerful commitment began not when he became older, but at the very start of his career. Sixty years ago, he sponsored a bill to permit senior citizens to fish without a license. Claude's deep compassion for all people—seniors, children, and the disadvantaged—came not from any political ambition but from a deep and abiding love and heartfelt concern.

As Senator Pepper grew older, he refused to slow down. One could find him poring over legislation, returning a constituent phone call, fighting for an issue on the House floor. As Time said of him in 1982, "he is like a vintage automobile with new parts: he keeps getting better and more powerful with age."

The Federal Building in Miami housed Claude Pepper's district office for over 20 years. It was here that he worked tirelessly to improve the lives of both the young and old, and it is here that we should pay tribute to him by renaming the Federal Building in his honor. By keeping Claude Pepper's name fresh in the minds of the people of Florida, the legacy of this wonderful human being and patriot will grow for generations to come.

Mr. HAMMERSCHMIDT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from California [Mr. ANDERSON] that the House suspend the rules and pass the bill, H.R. 4985.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ANDERSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

THOMAS P. O'NEILL, JR. HOUSE OF REPRESENTATIVES OFFICE BUILDING AND GERALD R. FORD HOUSE OF REPRESENTATIVES OFFICE BUILDING

Mr. ANDERSON. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 402) designating two House of Representatives office buildings as the "Thomas P. O'Neill, Jr. House of Representatives Office Building" and the "Gerald R. Ford House of Representatives Office Building," respectively, and for other purposes.

The Clerk read as follows:

H. RES. 402

Resolved,

SECTION 1. DESIGNATIONS.

(a) THOMAS P. O'NEILL, JR. HOUSE OF REPRESENTATIVES OFFICE BUILDING.—The House of Representatives office building located at C Street and New Jersey Avenue, Southeast, in the District of Columbia, and known as House of Representatives Office Building Annex No. 1, shall be known and designated as the "Thomas P. O'Neill, Jr. House of Representatives Office Building".

(b) GERALD R. FORD HOUSE OF REPRESENTATIVES OFFICE BUILDING.—The House of Representatives office building located at 3d and D Streets, Southwest, in the District of Columbia, and known as House of Representatives Office Building Annex No. 2, shall be known and designated as the "Gerald R. Ford House of Representatives Office Building".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to a building referred to in section 1 shall be deemed to be a reference to the building as designated in that section.

SEC. 33. STATUES.

The Speaker of the House of Representatives may purchase or accept as a gift to the House of Representatives, for permanent display in the appropriate building designated in section 1, a suitable statue or bust of the individual for whom the building is named. Such purchase or acceptance shall be carried out—

(1) in the case of the building referred to in section 1(a), in consultation with the majority leader of the House of Representatives; and

(2) in the case of the building referred to in section 1(b), in consultation with the minority leader of the House of Representatives.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from California [Mr. ANDERSON] will be recognized for 20 minutes, and the gentleman from Arkansas [Mr. HAMMERSCHMIDT] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this legislation being brought to the House floor for consideration today would result in an important and appropriate tribute to two former Members of the House: Speaker Thomas P. (Tip) O'Neill, Jr. and President Gerald R. Ford.

In addition to naming House of Representatives office buildings after Thomas P. O'Neill and Gerald R. Ford, this resolution provides that the Speaker may purchase or accept as a gift to the House of Representatives a suitable statue or bust of Speaker O'Neill or President Ford for display subject to certain conditions.

Thomas P. (Tip) O'Neill, Jr. had a remarkable career in the U.S. Congress, spanning 34 years. He was born in Cambridge, MA, on December 9,

1912. After attending parochial schools and graduating from St. John's High School in 1931, he graduated from Boston College in 1936.

From 1936 to 1952, Tip was a member of the Massachusetts State House of Representatives.

O'Neill was elected to fill John F. Kennedy's seat in Congress, when Kennedy was elected to the Senate in 1953. He represented this district from 1953 to 1987. He served as majority whip from 1971 to 1972, and as majority leader from 1973 to 1976.

Congressman O'Neill was Speaker of the House of Representatives from 1977 through 1986. This is longer than any other Speaker in continuous service. This is a remarkable achievement from a personal as well as an institutional standpoint.

Speaker O'Neill also cared greatly about the House of Representatives as an institution, and was an effective leader of the House for 9 years.

I believe that Tip was an exemplary role model for young people and demonstrated that politics can be clean and a profession to which young Americans can aspire.

Tip O'Neill was always a firm but fair Speaker. Yet Tip O'Neill did far more as Speaker. He raised the stature of the office and in doing so raised the stature of the entire House of Representatives. At the same time, he led the effort to democratize the House.

However, Tip was more than the Speaker of the House. During the Reagan era, he was the national spokesman for the Democratic Party. In particular, he cared strongly about reducing the trade deficit and the budget deficit, limiting aid to the Contras in Nicaragua, and sanctions on South Africa.

I will always remember Tip as someone of impeccable honesty who cared about people. Tip fought to make sure that the Government was there to help people who can't protect themselves. These qualities won for him the complete respect and admiration of those of us who have been fortunate enough to have served with him in the Congress as well as the American people.

Tip retired in 1986 and now resides in Cambridge, MA.

This remarkable man devoted 50 years to public service. It is fitting to honor Tip's many contributions to the House of Representatives and the Nation, by naming the House of Representatives Office Building Annex No. 1 as the "Thomas P. O'Neill, Jr. House of Representatives Office Building."

Gerald R. Ford, House minority leader and 38th President of the United States was born on July 14, 1913, in Omaha, NE. The family later moved to Grand Rapids, MI, and Ford attended South High School there.

Gerry Ford attended the University of Michigan from 1931 to 1935, where he excelled at football and graduated with a B.A. degree in 1935.

After graduating from Yale Law School in 1941, Gerry returned to Grand Rapids and went into law practice.

World War II interrupted this career. Gerry joined the U.S. Naval Reserve in 1942 as an ensign and was discharged in 1946, as a lieutenant commander.

After the war Gerry returned to Grand Rapids and soon entered politics. In 1948, he ran for a seat in the House of Representatives and won. Gerald Ford served with distinction in Congress from 1949 through 1973.

In 1961, Gerald became the chairman of the House Republican Conference. In 1965, Ford was elected minority leader and held this position for the remainder of his time in Congress.

As a guide to his political philosophy, Gerry once described himself as a "moderate in domestic affairs, an internationalist in foreign affairs, and a conservative in fiscal policy."

In 1973, Vice President Spiro Agnew resigned. President Nixon chose Gerald Ford to be his new Vice President on December 6, 1973. Shortly afterward, President Nixon also resigned from office.

On August 9, 1974 Gerald Ford became the 38th President of the United States. His calm strength and integrity reassured the country. As President, Ford faced many challenges. The foremost was to restore the credibility of the Presidency. He did this successfully.

In domestic policy he tried to fight inflation and unemployment.

In foreign policy, Ford focused on the Nixon initiatives of detente with the Soviet Union and peace in the Middle East.

In honor of the many years of distinguished service to the House of Representatives and the American people, it is fitting that the House of Representatives office building annex No. 2 be named as the "Gerald R. Ford House of Representatives Office Building."

I urge you to give your strong support to passage of House Resolution 402.

Mr. HAMMERSCHMIDT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support House Resolution 402, which would name the two House annexes, and I am proud to be a cosponsor of this resolution. Annex No. 1 would be named in honor of Tip O'Neill, who devoted 50 years of his life to public service on the State and national level. He served in the House for 34 years—the last 10 of those years as Speaker of the House. Tip had a great love and respect for this institution and it is appropriate that we remember his years of service in this way.

House Annex No. 2 would be named in honor of former President Gerald R. Ford. President Ford first came to the House in 1949. He served as the House minority leader for several years before being appointed Vice President in 1973. Shortly thereafter, of course, he became President and served admirably during a very difficult time in our Nation's history. In a more personal way I remember him as my minority leader when I first came to Congress in 1967.

The three House buildings which are currently named are named after the Member who was serving as Speaker during the time when the building was constructed. It is time that we finally give more impressive names to the two annexes, which were purchased in 1957 and 1975.

It is fitting that these House office buildings be named in honor of two distinguished former Members who served in the House together and continue their friendship to this day. Mr. Speaker, President Ford and Speaker O'Neill are certainly deserving of this honor and I would urge the House to adopt House Resolution 402 today.

Mr. Speaker, I want to yield time to our senior Republican in the House of Representatives and the dean of the Michigan delegation [Mr. BROOMFIELD]. He and the gentleman from Illinois [Mr. MICHEL] have memories of Tip and Gerry that go back as far as anyone on our side of the aisle, so it is my pleasure to yield such time as he may consume to the gentleman from Michigan [Mr. BROOMFIELD].

Mr. BROOMFIELD. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, as dean of the Michigan Republican Delegation, I am delighted to have a chance to speak on behalf of House Resolution 402. I have served with both Gerry and Tip for many years, and I can not think of two more deserving members.

I am particularly happy that we are going to honor my good friend, my former leader, and my fellow Michiganite, Gerry Ford.

I came to the House in 1957 after 8 years in the Michigan State Legislature. You might think that 8 years in another legislative body would prepare you for the U.S. House of Representatives. But as anyone in this Chamber can attest, there is nothing quite like the experience of your first few weeks in Congress.

Bob Griffin, who later became minority leader in the Senate, Chuck Chamberlain, Jack McIntosh, and I all arrived at the same time. Gerry went out of his way to help us those first few weeks, and not only acquired four new friends, but four very loyal supporters in the years ahead.

It is quite an honor to have a House building named after you. There are plenty of post offices, highways, and schools out there. But there are very few House office buildings.

There is a lot competition for the honor. There have been about 11,000 Congressmen and women since the first Congress met in 1789. Nineteen of them have served as President. Among them are John Quincy Adams, Abe Lincoln, Jack Kennedy, and George Bush. I might add that Daniel Webster, Henry Clay, John C. Calhoun, and many other great Americans have also served in the House.

Yet it is hard to think of many Members who have been so identified with the House of Representatives as Gerry Ford.

I can remember many times when political leaders back home in Michigan urged Gerry to run for the Senate or for the governorship. Each time, Gerry turned them down.

He was a man of the House, and there was only one ambition for him. He knew that the greatest political institution in America was the one that was closest to the people—and he wanted to lead that institution as Speaker.

It is one of my greatest regrets that he never did—and one of my greatest hopes that a Republican soon will.

Gerry certainly never sought the office of Vice President. But when the call came, he was too loyal to his country and his party to turn it down.

Nor did he seek the office of President. But when it was thrust in his hands, he served his Nation well. He entered the office at one of the most difficult periods in American history, and he used his straightforward honesty, his decency, and his uncommon good sense to bring the Nation together.

Nothing could be more appropriate than to name a House office building after the man who loved this body so deeply and served his country so well.

I urge my colleagues to support this resolution.

Mr. HAMMERSCHMIDT. Mr. Speaker, I ask unanimous consent that the gentleman from Wisconsin [Mr. PETRI], the distinguished ranking member of the subcommittee, be allowed to handle the balance of the time on this side.

The SPEAKER pro tempore (Mr. MAZZOLI). Is there objection to the request of the gentleman from Arkansas?

There was no objection.

Mr. ANDERSON. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Massachusetts [Mr. MOAKLEY], the chairman of the Rules Committee.

Mr. MOAKLEY. Mr. Speaker, I thank the gentleman from California for yielding me this time.

Mr. Speaker, I rise in support of House Resolution 402, legislation authored by my friend and colleague from Florida, Representative CLAY SHAW, renaming House Annex I and II in honor of two of the House of Representatives' most illustrious living alumni, former Speaker Thomas P. O'Neill and former President Gerald R. Ford.

It is altogether fitting that such an honor be accorded President Ford and Speaker O'Neill, who diligently in the course of their public lives and careers, contributed so much, on almost a daily basis, to the fabric of these United States, and to the traditions of service that define membership in the House of Representatives. It is equally fortuitous that this honor be accorded these two giants at the same time, when you consider the marked similarities in terms of the origin of President Ford's and Speaker O'Neill's career, their rise to elective office, their service in the House both as members of powerful state delegations—Michigan and Massachusetts, their rise to influence within the highest echelon of leadership in their respective parties, and finally, Gerald Ford's elevation to the Presidency in 1974, and Tip O'Neill's elevation to the Speakership in 1977.

In their own way and with their own style, both President Ford and Speaker O'Neill left an indelible stamp on the institution of the House. They opened up access to the seniority system, and limited the often tyrannical rule of institutional chairmen. They worked hand in hand to advance election law reform, stood firm in countering executive excess with a sure footed legislative response and restored honor, trust, and caring, to an institution often lacking in public relations counsel. Speaker O'Neill and President Ford stand for many of the identical characteristics we would hope to find in our national leaders—integrity, honor, intelligence, persistence and imagination. Their elective careers, their lives before the glare of the camera, and their post elective lives, all bespeak the same tradition of service, accessibility and delivery of results.

It is rare, I think, that living and thriving individuals receive the honor of having buildings named after them in their lifetime. Naming House Annex I and House Annex II after the former President and former Speaker are entirely appropriate and fitting. Annex I and Annex II house hundreds of committee staff, offices of the House and the page residence. What better way to commemorate the careers to these two statesmen and public servants than by renaming these facilities in their honor? In the tradition of Russell, Dirksen and Hart, in the footsteps of Rayburn, Longworth, and Cannon, Gerry Ford and Tip O'Neill, will hopefully now be a permanent part of Capitol Hill's geography.

I urge the committee's favorable consideration of House Resolution 402.

□ 1350

Mr. PETRI. Mr. Speaker, I yield such time as he may consume to the gentleman from Michigan [Mr. HENRY], President Ford's worthy successor from Grand Rapids.

Mr. HENRY. Mr. Speaker, how fitting it is that we honor our former President, and a truly distinguished former Member of this body in the manner proposed.

The building we are soon to call the Gerald R. Ford House of Representatives Office Building is a most appropriate place. For it is an unpretentious place where hundreds of House staff members get the job done. And getting the job done is what Gerald Ford's time in Washington was all about.

Gerald Ford served in the House of Representatives from 1949 to 1973. In 1965 he became Republican leader. He was known throughout his tenure as a solid voice of moderation.

When our Nation needed a leader to bring us through the crisis of Watergate, we could have done no better than Gerald Ford. As Vice President, and then as our Chief Executive, he helped to hold us together as we started the healing process.

Mr. Speaker, it is with great pride that I mention that my district, Michigan's Fifth District, is still frequently called the Gerald Ford District. You cannot visit the Grand Rapids area without realizing how its most distinguished son has touched the people there.

Gerald Ford once described himself as "a moderate in domestic affairs, an internationalist in foreign affairs, and a conservative in fiscal policy." Not a bad formula.

If I may, let me add to that description: "A good person who, throughout his life, has given exceedingly of himself to his country."

Mr. Speaker, if only we could have more Gerald Fords.

Mr. PETRI. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. SHAW], a sponsor of the resolution.

Mr. SHAW. Mr. Speaker, today I am pleased to rise in strong support of House Resolution 402, a resolution that would honor two of the most distinguished living alumni of the House: Former House minority leader and President Gerald R. Ford and former Speaker Thomas P. (Tip) O'Neill, Jr. This resolution renames the blandly named House Annex 1 and House Annex 2 to the Thomas P. O'Neill, Jr. House of Representatives Office Building, and the Gerald R. Ford House of Representatives Office Building," respectively. I am proud to

have introduced this measure, which enjoys the overwhelming bipartisan support of this body.

Additionally, I would like to thank Chairman Bosco and Congressman PETRI of the Public Buildings and Grounds Subcommittee, and Chairman ANDERSON and Congressman HAMMERSCHMIDT of the Public Works and Transportation Committee, for their support of this legislation, and their invaluable assistance in seeing this resolution to the House floor.

I would also like to thank Chairman MOAKLEY and Speaker FOLEY, without whom this resolution would not have been possible. Lastly, I would like to thank the 151 cosponsors of this measure.

Mr. Speaker, both Speaker O'Neill and President Ford served this House, their constituents, and the Nation, with honor and distinction. Their accomplishments are well-known and have been well-documented.

Gerry Ford started his career in public service with his election to the House of Representatives in 1948. Over time, he worked his way up the Republican party ladder in the House, eventually becoming minority leader in 1965. President Ford served in this position until his appointment to the Vice-Presidency in 1973. Later, of course, he assumed the Presidency following the resignation of Richard Nixon. Most historians would agree that one of President Ford's greatest achievements while President was his healing role after the national trauma surrounding the Watergate scandal. America will forever be indebted to him for his leadership through that grave crisis.

Tip O'Neill began his career in politics with his election in 1936 to the Massachusetts House of Representatives. There, He distinguished himself by becoming the first Democratic Speaker of the Massachusetts House in its history. Later, Tip O'Neill used his position as Speaker of the Massachusetts House to win John F. Kennedy's seat in the U.S. House of Representatives. Like Gerry Ford, Tip O'Neill worked his way up the Democratic party ladder, becoming majority whip in 1971, majority leader in 1973, and Speaker of the House in 1977. Tip O'Neill served as Speaker of the House until his retirement in 1986.

Although President Ford and Speaker O'Neill were often combatants in the political arena, their long friendship, based on trust and mutual respect for one another's beliefs, is almost legendary. And, of course, their shared love for the game of golf is legendary. Their friendship was so strong that even through they both could be scathingly critical of each other's policies, never once, in all their years of disagreeing on the issues, did their attacks become personal.

For example, Tip has written:

Democrats and Republicans can be friends, that, to me, is the special greatness of our political system. There's no rancor or hatred—only the energetic clash of conflicting ideas. Your views may be different from mine, but we can still respect each other and work together, which is what the Congress is all about.

In a similar vein, Speaker O'Neill once stated that he agreed with former Congressman Clarence Long of Maryland, who said that while Ford voted wrong most of the time, at least he was decently wrong.

I am sure President Ford felt the same way about Tip O'Neill's voting

Although I sat across the aisle from Tip O'Neill during his tenure as Speaker, I have long admired his dedication to God, family, party, and country. His political convictions in his 50 years of public office never wavered, whether his views were in vogue at the time or not. Tip O'Neill never made excuses or apologies for his brand of politics.

In my view, Tip O'Neill was, above all, a fair and reasonable man. Many in this House could count on Tip as a friend, while still opposing him on an issue. The saying, "People can disagree without being disagreeable," is but one way to sum up Speaker O'Neill's style of leadership. Certainly, his impact on this body and this Nation will be felt for many years to come.

In closing, I would like to read a passage about Gerry Ford from Tip O'Neill's excellent memoirs, "Man of the House". He writes:

God has been good to America especially during difficult times. At the time of the Civil War, He gave us Abraham Lincoln. And at the time of Watergate, He give us Gerald Ford—the right man at the right time who was able to put our Nation back together again. Nothing like Watergate had ever happened before in our history, but we came out of it strong and free, and the transition from Nixon's administration to Fords' was a thing of awe and dignity.

Such was the nature of their relationship. Mr. Speaker, the naming of two House of Representatives office buildings after these two great Americans is but one way the House, and the American people, can thank them for their decades of public service. For that reason, I urge my colleagues to pass House Resolution 402.

□ 1400

Mr. PETRI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Resolution 402 would rename House Annex I and House Annex II in honor of two former Members of this House—former President Gerald Ford and former House Speaker Thomas P. O'Neill, Jr.

President Ford and Speaker O'Neill served together in this House for many years and are deserving of this honor. President Ford began his congressional career in 1949, eventually being elected House minority leader. In 1973, President Nixon selected Gerry Ford to serve as his Vice President, which then led to his assuming the Presidency in 1974. During his time in office, President Ford's values and character saw the country through troubled times.

Likewise, Speaker O'Neill's accomplishments and 50 years of public service are worthy of being permanently honored here on Capitol Hill. His dedication and respect for this institution were obvious to all of us who served with him, as was his ability as a raconteur.

Mr. Speaker, along with former Speaker Carl Albert, President Ford and Speaker O'Neill are perhaps the most respected and accomplished former Member of this body living today. It is appropriate that we acknowledge their service to the House and to the country by designating two House office buildings in their honor.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ANDERSON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. MAZZOLI]. The question is on the motion offered by the gentleman from California [Mr. ANDERSON] that the House suspend the rules and agree to the resolution, House Resolution 402.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ANDERSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

WHITE HOUSE CONFERENCE ON SMALL BUSINESS AUTHORIZATION ACT

Mr. SKELTON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4773) to authorize the President to call and conduct a National White House Conference on Small Business, as amended.

The Clerk read as follows:

H.R. 4773

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "White House Conference on Small Business Authorization Act".

AUTHORIZATION OF CONFERENCE

SEC. 2. (a) The President shall call and conduct a National White House Conference on Small Business (hereinafter referred to as the "National Conference") not earlier than January 1, 1994, and not later than April 1, 1994, to carry out the purposes described in section 3 of this Act. The National Conference shall be preceded by State conferences, with at least one such conferences being held in each State, and with at least two conferences being held in any State with a population of ten million or more. The State conferences shall be held not earlier than December 1, 1992, and at their conclusion shall be followed by regional meetings of delegates in at least six cities prior to the National Conference.

(b) Participants in the National Conference and other interested individuals and organizations, are authorized to conduct activities at the State and regional level prior to the date of the National Conference, and shall direct such activities toward the consideration of the purposes of the National Conference.

(c) The National Conference shall be conducted under the general supervision and direction of the White House Conference on Small Business Commission (hereinafter referred to as the "Commission") established in section 5 of this Act.

PURPOSE OF CONFERENCE

SEC. 3. The purpose of the National Conference shall be to increase public awareness of the essential contribution of small business; to identify the problems of small business; to examine the status of minorities and women as small business owners; to assist small business in carrying out its role as the Nation's job creator; to assemble small businesses (particularly those who are not actively involved in small business or trade organizations) to develop such specific and comprehensive recommendations for executive and legislative action as may be appropriate for maintaining and encouraging the economic viability of small business and, thereby, the Nation; and to review the status of recommendations adopted at the 1986 White Conference on Small Business.

CONFERENCE PARTICIPANTS

SEC. 4. (a) In order to carry out the purposes specified in section 3 of this Act, the National Conference shall bring together individuals concerned with issues relating to small business: *Provided,* That no owner, officer or employee of a small business concern may be denied admission to any State conference, nor may any fee or charge be imposed on any such owner, officer, or employee except an amount to cover the cost of any meal provided plus a registration fee of not to exceed $10. The Commission may not impose any fees or charges except as specified in this subsection and may not accept any gifts of money from any source. Amounts collected as fees and charges shall be used solely to pay the cost of meals provided and to defray the expense of meeting rooms. The Commission shall—

(1) keep a record of all receipts and disbursements as directed by the Administrator of the Small Business Administration;

(2) open and maintain an account in an institution whose accounts are insured by an instrumentality of the United States, into which amount all receipts shall be deposited and from which all payments shall be disbursed; and

(3) provide such periodic financial reports to the Small Business Administration as the Administrator may request.

(b) Delegates, including alternates, to the National Conference shall be elected by participants at the State conferences: *Provided,* That each Governor and each chief executive official of the political subdivisions enumerated in section 4(a) of the Small Business Act may appoint one delegate and one alternate: *Provided further,* That each Member of the United States House of Representatives, including each Delegate, and each Member of the United States Senate may appoint one delegate and one alternate: and *Provided further,* That the President may appoint one hundred delegates and alternates. Only owners, employees or corporate officers of small businesses shall be eligible for appointment or election pursuant to this subsection, and delegates may be elected only at the conference for the State in which he or she resides.

COMMISSION

SEC. 5. (a) There is hereby established a White House Conference on Small Business Commission. The President shall select and appoint eleven individuals. The commissioners shall be responsible for the overall preparation for and conduct of the National Conference, including the issuance of the report specified in section 7 of this Act.

(b) At least seven of the individuals appointed shall be small business owners, employees or corporate officers of a small business. Other members may include representatives of businesses (other than small), associations, or educational institutions.

(c) Not more than six of the Commissioners shall be of the same political party. No member shall be an officer or employee of the Federal Government, in either the executive branch or the Congress.

(d) Commissioners shall be appointed for a term which shall expire on the date the report is submitted, except if the status of any such appointee changes so that he or she would have been ineligible for appointment, such individual may continue as a Commissioner for not longer than a thirty-day period beginning on the date such individual becomes ineligible.

(e) A vacancy shall be filled in the manner in which the original appointment was made.

(f) Commissioners shall serve without pay, except they shall be entitled to reimbursement for travel, subsistence, and other necessary expenses incurred by them in carrying out their functions in the same manner as persons employed intermittently in the Federal Government are allowed expenses under section 5703 of title 5, United States Code.

(g) Six Commissioners shall constitute a quorum for the transaction of business. Meetings shall be at the call of the Chairperson who shall be designated by the President.

(h) The Commission shall have an executive director who shall be appointed by the Chairperson, and such other staff as it deems appropriate. The executive director and other personnel may be appointed without regard to section 531(b) of title 5, United States Code, and without regard to the provisions of such title governing appointments in the competitive service, and may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that no individual so appointed may receive pay in excess of the annual rate of basic pay payable for GS-18 of the General Schedule.

(i) The Commission may procure temporary and intermittent services under section 3109(b) of title 5 of the United States Code but at rates for individuals not to exceed the daily equivalent of the maximum annual rate of basic pay payable for GS-18 of the General Schedule.

(j) Upon request of the Chairperson, the head of any Federal department or agency may detail, on a reimbursable basis, any of the personnel of such department or agency to the Commission to assist in carrying out of the National Conference without regard to section 3341 of title 5 of the United States Code. Except as otherwise prohibited by law, the Commission may secure directly from any department or agency of the United States information necessary to enable it to carry out its duties under this Act. Upon the request of the Chairperson, the head of such department or agency shall promptly furnish such information to the Commission.

(k) The Administrator of the General Service Administration shall provide to the Commission, on a reimbursable basis, such administrative support services as the Commission may request.

PLANNING AND ADMINISTRATION OF CONFERENCE

SEC. 6. (a) In order to facilitate the carrying out of the provisions of this Act, the Administrator of the Small Business Administration—

(1) shall provide such assistance as may be necessary for the organization and conduct of conferences at the State and regional levels as authorized under section 2 of this Act;

(2) is authorized to enter into contracts with public agencies, private organizations, business entities and academic institutions to carry out the provisions of this Act: *Provided,* That the Administrator shall coordinate any such contracting in advance with the Commission if it has met and organized; and

(3) shall prescribe such financial controls and accounting procedures for the handling of income received by the Commission as fees and charges and the payment by the Commission of authorized meal and meeting room expenses.

(b) The Chief Counsel for Advocacy shall assist in carrying out the provisions of this Act by preparing and providing background materials for use by participants in the National Conference, as well as by participants in State and regional conferences.

(c) The White House Conference on Small Business Commission shall conduct appropriate outreach efforts to obtain the participation, at both state conferences and at the National Conference, of individuals who are not actively involved in small business or trade organizations.

(d) EXPENSES.—Each delegate to the National Conference shall pay his or her expenses of attending the Conference. However, prior to the National Conference, any delegate may seek reimbursement from the Conference upon written application establishing that his or her anticipated expenses would constitute a financial burden.

(1) The Commission shall adopt rules, guidelines, and procedures to implement this provision. No delegate shall be reimbursed for any expense except transportation, meals and lodging and shall not be reimbursed at more than the rates provided to employees of the Federal Government who travel to Washington, DC, on official business during the time when the National Conference is held.

(2) At the beginning of each State conference, all attendees shall be advised of this provision and any rules or procedures adopted by the Commission to implement it.

(3) A separate accounting for these reimbursed expenses shall be provided to the Small Business Administration.

REPORTS REQUIRED

SEC. 7. (a) Not more than four months from the date on which the National Conference is convened, a final report of the National Conference shall be submitted to the President and the Congress. The report shall include the findings and recommendations of the delegates as well as proposals for any legislative action necessary to implement their recommendations. The report shall be available to the public.

(b) At the same time, the Commission shall—

(1) provide a final financial report to the Small Business Administration and shall deliver to the Agency all of its financial books and records; and

(2) deposit in the Treasury of the United States, for crediting as miscellaneous receipts, any monies collected as fees and charges pursuant to the authority of this Act which remain unexpended.

FOLLOWUP ACTIONS

SEC. 8. The Small Business Administration shall report to the Congress annually during the three-year period following the submission of the final report of the National Conference on the status and implementation of the findings and recommendations.

AVAILABILITY OF FUNDS

SEC. 9. (a) There are hereby authorized to be appropriated for fiscal year 1992, or any year thereafter, not to exceed $5,000,000 to carry out the provisions of this Act, and such sums shall remain available until expended. New spending authority or authority to enter contracts as provided in this Act shall be effective only to such extent and in such amounts as are provided in advance in appropriations Acts.

(b) No funds appropriated to the Small Business Administration shall be made available to carry out the provisions of this Act other than funds appropriated specifically for the purpose of conducting the National Conference. Any funds remaining unexpended at the termination of the National Conference, including submission of the report pursuant to section 7, shall be returned to the Treasury of the United States and credited as miscellaneous receipts.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Missouri [Mr. SKELTON] will be recognized for 20 minutes, and the gentleman from Florida [Mr. IRELAND] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Missouri [Mr. SKELTON].

Mr. SKELTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 4773, the White House Conference on Small Business Authorization Act.

This legislation would authorize and direct the President to convene a National White House Conference on Small Business in Washington early in 1994. The Washington conference would be preceded by State and regional conferences at which delegates would be selected and then briefed as to the issues that they had selected for consideration at the national conference.

This would be the third White House Conference on Small Business. I had the honor to participate in the White House Conference on Small Business in 1980. Back then I was a panel member on efforts to assist small businesses enter the field of international trade. At that conference a number of very difficult issues were handled. Among the recommendations which resulted in legislation being enacted by the Congress were the Small Business Innovation and Research Act [SBIR] which was authored by our Committee chairman, Representative JOHN J. LAFALCE. Also, the Equal Access to Justice Act, which was authored by the committee's ranking minority member, JOE MCDADE. In addition, the conference supported the subsequently passed Regulatory Flexibility Act and the Prompt Payment Act. I believe that Congress considered or took action on a majority of the recommendations that came from the 1980 conference.

The participants take these conferences very seriously. They build coalitions, they argue and persuade, they make presentations before their peers that are every bit as structured and impressive as we see here in the House. This is because they know that they are having an impact. Their recommendations are not only sent to every Member of Congress, they are taken by some of us as marching orders, a referendum, if you will on which issues really are supported by small business. I know also that my colleague from Florida who will speak to this bill in a moment has been among the strongest supporters of the White House conference and an active participant in the planning and the conduct of past conferences.

I attended the conference when it was held again in 1986. This conference occurred during very difficult times for the small business community. The Office of Management and the Budget was proposing to abolish the Small Business Administration, but the delegates very vociferously rejected this proposal and strongly recommended that the SBA be continued as an independent agency. In fact, they felt so strongly about the continuation of the SBA that most of the discussion at the conference was not about continuing the agency, but whether it should be elevated even further and made part of the President's Cabinet.

In addition, I am very pleased to note that among the recommendations was to provide equal access to credit by women entrepreneurs, legislation which was enacted by Congress 2 years ago.

Congress is still wrestling with other issues debated by the delegates, including matters concerning product liability, mandated benefits and deficit reduction.

I believe the interest shown by the small business community in these conferences is extraordinary. Delegates must volunteer their time to participate in this process and pay their own expenses. Clearly they are willing to do this as it is little short of amazing that of the delegates elected at the prior conferences, sometimes up to a year in advance of the date of the national conference, almost 90 percent have carried through on their commitment and have attended the Washington conference.

I am confident that this level of interest and commitment continues today and that particularly with the planning time provided by this bill, the 1994 conference can be the best in history.

Mr. Speaker, I reserve the balance of my time.

□ 1410

Mr. IRELAND. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, America's 19 million small business owners—whose determination, hard work, and community involvement are essential to the success of our free-enterprise system—deserve a strong voice in government policies. For that reason, I rise today to join the distinguished gentleman from Missouri in support of H.R. 4773, the White House Conference on Small Business Authorization Act.

Small business men and women make significant contributions to our economy. It is their creativity, innovation, and entrepreneurial spirit that generate more than 57 percent of all new jobs in the United States.

As demonstrated by previous conferences in 1980 and 1986, a White House Conference on Small Business can provide needed insight and understanding about small business and entrepreneurial development—insight that must be factored into Federal policy if we are to remain competitive as a nation.

The 1980 and 1986 conference served to rally thousands of owners and managers of small businesses and make them an integral part of the democratic process. It is time to draw these dedicated men and women into the Federal legislative process once again.

Our rapidly evolving work force, as well as moves in the European Community and in Eastern Europe toward a more global economy, will require our Nation's small businesses to make some major adjustments in the way they do business in the not-so-distant future. Job training, employee needs, and rapidly changing technologies are already challenging entrepreneurs to

rethink their ways of doing business. A White House Conference on Small Business can help to raise awareness about what lies ahead, and can provide a pro-active plan for dealing with these changes.

America's small business owners are productive, creative, and willing to take risks and overcome obstacles in their quest for a piece of the American Dream. They have built their businesses and successes over the years through personal sacrifice and sweat equity—and made them thrive in spite of Federal and State policymakers who at times were swayed into thinking that big business and big labor represented America and its future.

A new White House Conference on Small Business will help to remind those of us in Congress what small businesses mean to our local communities and our country.

Mr. Speaker, we must develop a wider appreciation of the innovation, the competitive strength and the quality of life that smaller firms bring to our economy if we are to insure the long-term strength and growth of this country.

We must once again call attention to the fact that the future of small business is dependent on the business climate created by fiscal policies and regulatory and legislative mandates from Washington.

And we must address not only the problems confronting business and our Nation as a whole, but also the particular problems of small business.

Quite simply, we must have another White House Conference on Small Business. For if we fail to pay attention to the effects of government activities on smaller firms, our shortsighted economic policies will make our Nation less productive, less innovative, less competitive and unable to maintain our status as the leader of the free world.

I have challenged the small business community to use this forum not to plead for special treatment, but instead to offer pro-active strategies for dealing with the issues we face as a nation—strategies that will complement free-market initiatives rather than competing with them. I am confident that our Nation's small business men and women will rise to that challenge.

Mr. Speaker, I urge my colleagues to strongly support this legislation.

Mr. McDADE. Mr. Speaker, I rise in strong support of the bill before us today and recommend it to our colleagues as a measure deserving of their support.

H.R. 4773 would authorize the President to convene a National White House Conference on Small Business in Washington, DC in 1994. This National Conference would be the third of its kind, building on the success of two precedings gatherings convened in 1980 and 1986. Preparatory to the National Conference, and in keeping with previous practice, each State would hold its own conference to examine issues of concern to small business owners and to elect delegates to the National Conference. These State meetings would then be followed by regional conferences at which delegates would explore issues they had identified for discussion and consideration at the National Conference.

The Nation's small businesses represent the most dynamic and productive force in our economy today. These firms brought about the economic miracle of the 1980's during which 18 million new jobs were created. Today, small enterprises create 2 out of every 3 jobs, employ 6 out of every 10 American workers, generate nearly 40 percent of our gross national product, and contribute an estimated 55 percent of all innovations. It is estimated that in the next 25 years the U.S. economy will need to create 43 million new jobs and 75 percent of these will have to come from small businesses.

If small firms are to continue to be America's partner in growth, they must have a voice in shaping those policies and laws that will not only affect them but that will also help them develop and grow. Periodic State and national conferences provide an opportunity for small businesses to gather and participate in a forum where issues can be examined, policies reviewed, and legislative recommendations for new policies and reforms put forth. Previous conferences have been helpful in yielding useful information and revealing insights into the problems and concerns of small businesses. This knowledge has proved of great use to the Congress and the administration which have acted to implement many of the recommendations suggested by previous conference participants. Yet, as one vexing problem is resolved, a new and often more perplexing one arises that requires corrective action. The continuing emergence of new challenges and opportunities makes the periodic convening of conferences imperative.

Mr. Speaker, I urge my colleagues to support the Nation's small business men and women and approve this measure.

Mr. OWENS of Utah. Mr. Speaker, just 4 short years ago, talk around the Beltway was that the administration wanted to eliminate the Small Business Administration, because critics of the SBA claimed it duplicated much of the work done by the Commerce Department. Mr. Speaker, last year the SBA provided more than $3 billion in loans to small businesses struggling to make the American dream come true.

More than $2.6 billion were in general business loans—$13 million went to handicapped assistance. The Economic Opportunity Loan Program for businesses in low income/high unemployment areas received over $50 million. Veterans programs received more than $17 million. Certified development companies, licensed by the SBA, received $364 million. The Small Business Investment Program, which provides money for venture or risk investment, was funded with more than $50 million. The 301D program for minority investment received $36 million and the 8A program to help minority businesses with procurement of Federal contracts was funded for almost $1 million more. Disaster loan assistance accounted for an additional $146 million. Without the SBA last year, thousands of small businesses probably would have failed and thousands more entrepreneurs would never have been able to make their ideas and innovations come to life.

Mr. Speaker, I mention these statistics for two reasons. First, small businesses are the backbone of the American economy. Without vigorous support from this body for the small businessmen and women, willing to harness the challenge and take the risk of making their ideas reality, then the future on this Nation's economy is very much in jeopardy.

I also note the accomplishments of the SBA because in 1986 there was a White House Conference on Small Business. Aside from many progressive recommendations that originated from it, one of the most important results was that the conference is credited with helping save the SBA. Despite proposals by the Administration, delegates at the conference overwhelmingly supported saving the SBA, and along with the backing of Congress, the agency's future was solidified.

Before this house today is H.R. 4773, which authorizes the President to conduct a White House Conference on Small Business in 1994. As it has done in the past, this conference would provide small businesses with a critical forum to voice concerns and opinions to policy makers in Washington. As many of us know, public officials are bombarded with more information and more issues than can logically be focused on. This is an opportunity for Washington to stand still for a moment and listen to the folks who are on the front lines of bolstering the American economy. I strongly recommend that my colleagues pass this bill.

Mr. SKELTON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. IRELAND. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Missouri [Mr. SKELTON] that the House suspend the rules and pass the bill, H.R. 4773, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SKELTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 4773, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

CABLE TELEVISION CONSUMER PROTECTION AND COMPETITION ACT OF 1990

Mr. MARKEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5267) to amend the Communications Act of 1934 to provide increased consumer protection and to promote increased competition in the cable television and related markets, and for other purposes, as amended.

The Clerk read as follows:

H.R. 5267

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE

This Act may be cited as the "Cable Television Consumer Protection and Competition Act of 1990".

SEC. 2. FINDINGS.

Section 601 of the Communications Act of 1934 (47 U.S.C. 521) is amended—

(1) by striking the heading of such section and inserting the following:

"PURPOSES; FINDINGS";

(2) by inserting "(a) PURPOSES.—" after "SEC. 601."; and

(3) by adding at the end thereof the following new subsection:

"(b) FINDINGS.—The Congress finds and declares the following:

"(1) Fair competition in the delivery of television programming should foster the greatest possible choice of programming and should result in lower prices for consumers.

"(2) Between the passage of the Cable Communications Policy Act of 1984 and July 1990, rates for cable television services have been deregulated in 96 percent of all franchises. A minority of cable operators have abused their deregulated status and their market power and have unreasonably raised cable subscriber rates.

"(3) In order to protect consumers, it is necessary for the Congress to establish a means for the Federal Communications Commission to identify such cable operators and, in those individual cases, to prevent them from imposing rates upon consumers that are unreasonable or abusive.

"(4) There is a substantial governmental and first amendment interest in promoting a diversity of views provided through multiple technology media.

"(5) The Federal Government has a compelling interest in making all nonduplicative local public television services available on cable systems because—

"(A) public television provides educational and informational programming to the Nation's citizens, thereby advancing the Government's compelling interest in educating its citizens;

"(B) public television is a local community institution, supported through local tax dollars and voluntary citizen contributions in excess of $10,800,000,000 between 1972 and 1990 that provides public service programming that is responsive to the needs and interests of the local community;

"(C) the Federal Government, in recognition of public television's integral role in serving the educational and informational needs of local communities, has invested more than $3,000,000,000 in public broadcasting between 1969 and 1990; and

"(D) absent carriage requirements there is a substantial likelihood that citizens, who have supported local public television services, will be deprived of those services.

"(6) The Federal Government also has a compelling interest in having cable systems carry the signals of local commercial television stations because the carriage of such signals—

"(A) promotes localism and provides a significant source of news, public affairs, and educational programming;

"(B) is necessary to serve the goals contained in section 307(b) of this Act of providing a fair, efficient, and equitable distribution of broadcast services; and

"(C) will enhance the access to such signals by Americans living in areas where the quality of reception of broadcast stations is poor.

"(7) Broadcast television programming is supported by revenues generated from advertising. Such programming is otherwise free to those who own television sets and do not require cable transmission to receive broadcast signals. There is a substantial governmental interest in promoting the continued availability of such free television programming, especially for viewers who are unable to afford other means of receiving programming.

"(8) Because television broadcasters and cable television operators compete directly for the television viewing audience, for programming material, and for advertising revenue, in order to ensure that such competition is fair and operates to the benefit of consumers, the Federal interest requires that local broadcast stations be made available on cable systems as a separate and distinct purchase option for subscribers.

"(9) Most subscribers to cable television systems do not or cannot maintain antennas to receive broadcast television services, do not have input selector switches to convert from a cable to antenna reception system, or cannot otherwise receive broadcast television services. A Government mandate for a substantial societal investment in alternative distribution systems for cable subscribers, such as the 'A/B' input selector antenna system, is not an enduring or feasible method of distribution and is not in the public interest.

"(10) Cable systems should be encouraged to carry low power television stations licensed to the communities served by those systems where the low power station creates and broadcasts, as a substantial part of its programming day, local programming.

"(11) Secure carriage and channel positioning on cable television systems are the most effective means through which off-air broadcast television can access cable subscribers. In the absence of rules mandating carriage and channel positioning of broadcast television stations, some cable system operators have denied carriage or repositioned the carriage of some television stations.

"(12) Cable television systems and broadcast television stations increasingly compete for television advertising revenues and audience. A cable system has a direct financial interest in promoting those channels on which it sells advertising or owns programming. As a result, there is an economic incentive for cable systems to deny carriage to local broadcast signals, or to reposition broadcast signals to disadvantageous channel positions, or both. Absent reimposition of must carry and channel positioning requirements, such activity could occur, thereby threatening diversity, economic competition, and the Federal television broadcast allocation structure in local markets across the country.

"(13) Cable systems provide the most effective access to television households that subscribe to cable. As a result of the cable operators provision of this access and the operator's economic incentives described in paragraph (12), negotiations between cable operators and local broadcast stations have not been an effective mechanism for securing carriage and channel positioning.

"(14) The public interest will be served by the development of competition in the marketplace for video programming and by encouraging new multichannel video programming distribution technologies. Prohibiting video program vendors in which a multichannel video system operator has an attributable interest from unreasonably refusing to deal with other multichannel video system operators with respect to provision of video programming is necessary to help establish a competitive marketplace.

"(15) It is necessary and appropriate to promote competition between cable operators and other multichannel video system operators by facilitating access of such other multichannel video system operators to video programming, subject to exclusive contractual arrangements between programmers and cable operators that do not have the effect of significantly impeding competition.".

SEC. 3. REQUIREMENTS FOR THE PROVISION AND REGULATION OF BASIC SERVICE TIER.

(a) AMENDMENT.—Section 623 of the Communications Act of 1934 is amended to read as follows:

"REGULATION OF RATES

"SEC. 623. (a) IN GENERAL; LIMITATIONS.—No Federal agency or State may regulate the rates for the provision of cable service except to the extent provided under this section. Any franchising authority may regulate the rates for the provision of cable service, or any other communications service provided over a cable system to cable subscribers, but only to the extent provided under this section.

"(b) ESTABLISHMENT OF BASIC SERVICE TIER RATE LIMITATIONS.—

"(1) COMMISSION REGULATIONS.—Within 120 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, the Commission shall, by regulation, establish the following:

"(A) BASIC SERVICE TIER RATES.—A formula to establish the maximum price of the basic service tier, which formula—

"(i) shall take into account only—

"(I) the number of signals required to be carried on the basic service tier pursuant to paragraph (2);

"(II) the direct costs of obtaining, transmitting, and otherwise providing such signals, and changes in such costs;

"(III) such portion of the joint and common costs of the cable operator as is determined, in accordance with regulations prescribed by the Commission, to be properly allocable to obtaining, transmitting, and otherwise providing such signals, and changes in such costs; and

"(IV) a reasonable profit (as defined by the Commission) on the provision of the basic service tier; and

"(ii) shall not take into account—

"(I) any additional video programming services carried on the basic service tier pursuant to paragraph (4);

"(II) any costs of obtaining, transmitting, marketing, or otherwise providing any such additional video programming services or any other signal not required to be carried on the basic service tier pursuant to paragraph (2);

"(III) any amount assessed as a franchise fee, tax, or charge of any kind imposed by any State or local authority on the transactions between cable operators and cable subscribers or any fee, tax, or assessment of general applicability which is applied in an unduly discriminatory manner against cable operators or cable subscribers; or

"(IV) any amount required to satisfy franchise requirements to support public, educational, or governmental channels or the use of such channels.

"(B) EQUIPMENT.—A formula to establish the price for installation and lease of the equipment necessary for subscribers to receive the basic service tier, including a converter box and a remote control.

"(C) CONVERTER BOXES AND REMOTES.—Standards concerning the availability for lease or purchase and pricing of converter boxes and remote controls.

"(D) COSTS OF FRANCHISE REQUIREMENTS.—(i) A formula to identify and allocate costs attributable to satisfying franchise requirements to support public, educational, and governmental channels or the use of such channels or any other services required under the franchise, and (ii) procedures by which the cable operator will recover from subscribers—

"(I) the costs described in clause (i) of this subparagraph, and

"(II) the costs of any amounts assessed as a franchise fee, tax, or charge of any kind imposed by any State or local authority on the transactions between cable operators and cable subscribers and any fee, tax, or assessment of general applicability which is applied in an unduly discriminatory manner against cable operators or cable subscribers.

"(E) IMPLEMENTATION AND ENFORCEMENT.—Additional standards, guidelines, and procedures concerning the implementation and enforcement of the regulations prescribed by the Commission under this subsection, which shall include—

"(i) procedures by which cable operators may implement and franchising authorities may oversee the administration of the formulas, standards, guidelines, and procedures established by the Commission under this subsection; and

"(ii) standards and procedures to prevent unreasonable charges for changes in the subscriber's selection of services or equipment subject to regulation under this section, which standards shall require that charges for changing the service tier selected shall not exceed nominal amounts when the system's configuration permits changes in service tier selection to be effected solely by coded entry on a computer terminal or by other similarly simple method.

"(F) EFFECTIVE DATES.—An effective date or dates for compliance with the formulas, standards, guidelines, and procedures established under this subsection.

"(2) COMPONENTS OF BASIC TIER SUBJECT TO RATE REGULATION.—Each cable operator of a cable system shall provide its subscribers a separately available basic service tier to which the rates prescribed under paragraph (1) shall apply and to which subscription is required for access to all other tiers of service. Such basic service tier shall, except as provided in paragraphs (3), (4), (5), and (6), consist only of the following:

"(A) All signals carried in fulfillment of the requirements of sections 614 and 615.

"(B) Any public, educational, and governmental access programming required by the franchise of the cable system to be provided to subscribers.

"(3) SMALL SYSTEM EXCEPTION.—The requirements of this subsection shall not apply to any cable system with 12 or fewer usable activated channels that has 300 or fewer subscribers, so long as such system does not delete any signal of a broadcast television station from carriage by that system.

"(4) ADDITIONS TO BASIC TIER PROHIBITED.—(A) No cable operator may add any video programming to the basic tier that is not a signal or programming required to be included in such tier pursuant to paragraph (2). Any obligation imposed by a franchise that is inconsistent with this paragraph is preempted and may not be enforced. A contract or other agreement that requires carriage on the basic service tier, or that establishes a rate for carriage (as part of the basic service tier), of a signal or programming that is not required to be included in such tier pursuant to paragraph (2) may not be enforced by a video programming vendor (as such term is defined in section 705A(g) of this Act) unless such contract or agreement is applied to require carriage of such signal or programming on the next most widely subscribed level of service.

"(B) Subparagraph (A) of this paragraph and paragraph (2) shall not prohibit a cable operator from carrying on the basic tier nationally distributed public and government affairs cable networks that are provided by nonprofit organizations that are exempt from Federal income tax, that do not carry advertising, and that were so distributed on or before January 1, 1990.

"(5) RATE REGULATION AGREEMENTS.—The provisions of this subsection (and the regulations thereunder) shall not apply to the cable system of a cable operator who has, before July 1, 1990, entered into an agreement with a franchising authority that authorizes the franchising authority to regulate the rates of such cable system for basic cable service where such system was not subject to effective competition pursuant to the rules of the Commission in effect on July 1, 1990.

"(6) TREATMENT OF EXISTING BROADCAST TIERS.—

"(A) CONTINUED CARRIAGE PERMITTED.—In the case of any cable operator that offered to subscribers a tier of programming as of January 1, 1990, consisting of not more than—

"(i) the signals of any broadcast television station carried on the system;

"(ii) any public, educational, or governmental access or local origination programming; and

"(iii) any nationally distributed public and government affairs cable network provided by a nonprofit organization exempt from Federal income tax, and that does not carry advertising,

the provisions of paragraphs (2) and (4) of this subsection shall not prohibit such operator from continuing to provide such tier.

"(B) RATE FORMULA ADJUSTMENT; RETIERING.—Any cable operator providing a tier of programming described in subparagraph (A) may—

"(i) continue to provide such tier to subscribers, subject to a formula for a maximum price established by the Commission, which formula shall comply with the requirements of paragraph (1), except that the Commission shall take into account additional costs described in subclauses (II) and (III) of paragraph (1)(A)(i) with respect to the signal of any broadcast television station not required by paragraph (2) to be offered on the basic service tier; or

"(ii) delete such programming from the tier described in subparagraph (A) as may be necessary to comply with the requirements of this subsection.

"(c) REGULATION OF UNREASONABLE OR ABUSIVE RATES.—

"(1) COMMISSION REGULATIONS.—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, the Commission shall, by regulation, establish the following:

"(A) criteria prescribed in accordance with paragraph (2) for identifying, in individual cases, rates for cable programming services that are unreasonable or abusive;

"(B) fair and expeditious procedures for the receipt, consideration, and resolution of complaints from any franchising authority or other relevant State or local government entity alleging that a rate for cable programming services charged by a cable operator violates the criteria prescribed under subparagraph (A), which procedures shall set forth the minimum showing that shall be required for a complaint to establish a prima facie case that the rate in question is unreasonable or abusive; and

"(C) the procedures to be used to reduce rates for cable programming services that are determined by the Commission to be unreasonable or abusive.

"(2) FACTORS TO BE CONSIDERED.—In establishing the criteria for determining in individual cases whether rates for cable programming services are unreasonable or abusive under paragraph (1)(A), the Commission shall consider, among other factors—

"(A) rates for similarly situated cable systems offering comparable cable programming services, taking into account similarities in facilities, regulatory and governmental costs, the number of subscribers, and other relevant factors;

"(B) the history of the rates for cable programming services of the system;

"(C) the rates, as a whole, for all the cable programming, equipment, and services provided by the system;

"(D) capital and operating costs of the cable system; and

"(E) the quality and costs of the customer service provided by the cable system.

"(3) LIMITATION ON COMPLAINTS CONCERNING EXISTING RATES.—On and after 180 days after the effective date of the regulations prescribed by the Commission under paragraph (1), the procedures established under subparagraph (B) of such paragraph shall be available only with respect to complaints filed within a reasonable period of time following a change in rates that is initiated after that effective date.

"(d) DISCRIMINATION; SERVICES FOR THE HEARING IMPAIRED.—Nothing in this title shall be construed as prohibiting any Federal agency, State, or a franchising authority from—

"(1) prohibiting discrimination among customers of basic cable service, or

"(2) requiring and regulating the installation or rental of equipment which facilitates the reception of basic cable service by hearing impaired individuals.

"(e) REVIEW OF FINANCIAL INFORMATION.—

"(1) COLLECTION OF INFORMATION.—The Commission shall, by regulation, require cable operators to file, within 60 days after the effective date of the regulations prescribed under subsection (c)(1) and annually thereafter, such financial information as may be needed for purposes of administering and enforcing this section.

"(2) CONGRESSIONAL REPORT.—The Commission shall submit to each House of the Congress, by January 1, 1994, a report on the financial condition, profitability, rates, and

performance of the cable industry and making such recommendations as the Commission considers appropriate in light of such information.

"(f) PREVENTION OF EVASIONS.—Within 120 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, the Commission shall, by regulation, establish standards, guidelines, and procedures to prevent evasions of the rates, services, and other requirements of subsections (a), (b), (c), (d), and (e) of this section.

"(g) DEFINITION.—As used in this section, the term 'cable programming service' means any video programming provided over a cable system, regardless of service tier, other than video programming required to be carried under subsection (b)(2) and video programming offered on a per channel or per program basis.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) of this section shall take effect 120 days after the date of enactment of this Act.

SEC. 4. CARRIAGE OF NONCOMMERCIAL TELEVISION STATIONS.

Part II of title VI of the Communications Act of 1934 is amended by adding at the end thereof the following new section:

"CARRIAGE OF NONCOMMERCIAL TELEVISION STATIONS

"SEC. 614. (a) CABLE OPERATOR OBLIGATIONS.—For the purposes of providing a basic service tier pursuant to section 623, each cable operator shall carry, on the cable system of that operator, the signals of qualified noncommercial television stations in accordance with the provisions of this section.

"(b) REQUIREMENTS TO CARRY QUALIFIED STATIONS.—

"(1) GENERAL REQUIREMENT TO CARRY EACH QUALIFIED STATION.—Subject to paragraph (2) of this subsection and subsection (e), each cable operator shall carry, on the cable system of that operator, each qualified local noncommercial television station requesting carriage.

"(2) EXCEPTIONS TO GENERAL REQUIREMENT.—

"(A) SYSTEMS WITH 12 OR FEWER CHANNELS.—Notwithstanding any other provision of this subsection, a cable operator of a cable system with 12 or fewer usable activated channels shall carry on that system only one qualified local noncommercial television station, but such operator shall comply with subsection (c) and may, in its discretion, carry on that system other qualified noncommercial television stations.

"(B) SYSTEMS WITH 13 TO 36 CHANNELS.—Subject to subsection (c), a cable operator of a cable system with 13 to 36 usable activated channels—

"(i) shall carry on that system at least 1 qualified local noncommercial television station but shall not be required to carry more than 3 such stations; and

"(ii) may, in its discretion, carry on that system additional such stations.

"(C) DUPLICATION OF AFFILIATES OF STATE PUBLIC TELEVISION NETWORKS NOT REQUIRED.—The operator of a cable system described in this paragraph which carries a qualified local noncommercial station affiliated with a State public television network shall not be required to carry any additional qualified local noncommercial television station affiliated with the same network if the programming of such additional station substantially duplicates the programming of the qualified local noncommercial television station receiving carriage.

"(D) DISTANT STATIONS.—In the case of any cable system with 36 or fewer activated channels which operates beyond the presence of any qualified local noncommercial television station—

"(i) the cable operator of such system shall carry on that system one signal of a qualified noncommercial television station;

"(ii) the selection for carriage of such a station shall be at the election of the cable operator; and

"(iii) in order to satisfy the requirements for carriage specified in this subsection, a cable operator of such system shall not be required to remove any other programming service actually provided to subscribers on January 1, 1990, except that such cable operator shall use the first channel available to satisfy the requirements of this subparagraph.

"(3) CONSEQUENCES OF INCREASE IN NUMBER OF CHANNELS.—A cable operator of a system described in paragraph (2)(B) of this subsection which increases the usable activated channel capacity of the cable system to more than 36 channels on or after January 1, 1990, shall, in accordance with the other provisions of this section, carry on that system each qualified local noncommercial television station requesting carriage, subject to subsection (e).

"(c) CONTINUED CARRIAGE OF EXISTING STATIONS; WAIVER.—Notwithstanding any other provision of this section, all cable operators shall continue to provide carriage to all qualified local noncommercial television stations carried on their systems as of January 1, 1990. The requirements of this subsection may be waived upon the written consent of the cable operator and any such station.

"(d) USE OF PUBLIC, EDUCATIONAL, AND GOVERNMENTAL CHANNELS.—A cable operator required to add the signals of qualified local noncommercial television stations to a cable system under this section may, with the approval of the franchising authority, do so by placing such additional stations on public, educational, or governmental channels not in use for their designated purposes.

"(e) DUPLICATION NOT REQUIRED ON SYSTEMS CARRYING 3 QUALIFIED STATIONS.—A cable operator of a cable system with a capacity of more than 36 usable activated channels which is required to carry three qualified local noncommercial television stations shall not be required to carry additional such stations if the programming of such additional stations substantially duplicates the programming broadcast by another qualified local noncommercial television station requesting carriage. For purposes of this subsection and subsection (b)(2)(C), substantial duplication shall be defined by the Commission by regulation in a manner that promotes access to distinctive noncommercial educational television services.

"(f) STATIONS CARRIED PROHIBITED FROM ASSERTING NONDUPLICATION RIGHTS.—A qualified local noncommercial television station carried by a cable operator shall not assert any network nonduplication rights it may have pursuant to section 76.92 of title 47, Code of Federal Regulations, as in effect on January 1, 1990, to require the deletion of programs aired on other qualified local noncommercial television stations carried by that operator.

"(g) CARRIAGE STANDARDS.—

"(1) CARRIAGE OF ENTIRE SIGNAL.—A cable operator shall carry in its entirety, on the cable system of that operator, the primary video and accompanying audio transmission of each qualified local noncommercial television station carried on the cable system (unless otherwise agreed upon by the cable operator and the station), and, to the extent technically feasible, program-related material carried in the vertical blanking interval, or on subcarriers, that may be necessary for receipt of programming by handicapped persons or for educational or language purposes. Retransmission of other material in the vertical blanking interval or on subcarriers shall be within the discretion of the cable operator.

"(2) SIGNAL STRENGTH, BANDWIDTH, AND QUALITY.—A cable operator shall provide each qualified local noncommercial television station carried in accordance with this section with bandwidth and technical capacity equivalent to that provided to commercial television broadcast stations carried on the cable system and shall carry the signal of each qualified local noncommercial educational television station without material degradation.

"(3) CHANNEL ASSIGNMENTS.—A qualified local noncommercial television station may be repositioned to a different channel in accordance with the requirements of section 623, but shall not be repositioned to a different channel by a cable operator unless the cable operator, at least 30 days in advance of such repositioning, has provided written notice to the station and all subscribers of the cable system. For purposes of this paragraph, repositioning includes assignment of a qualified local noncommercial television station to a cable system channel number different from the cable system channel number to which the station was assigned as of January 1, 1990.

"(4) SIGNAL QUALITY RESPONSIBILITIES OF STATION.—Notwithstanding any other provisions of this section, a cable operator shall not be required to carry any qualified local noncommercial television station which does not deliver to the cable system's principal headend a signal of good quality, as may be defined by the Commission by regulation.

"(h) PAYMENTS FOR CARRIAGE.—

"(1) GENERAL PROHIBITION ON PAYMENT FOR CARRIAGE; SIGNAL QUALITY COSTS PERMITTED.—A cable operator shall not request or accept monetary payment or other valuable consideration in exchange for carriage of the signal of any qualified local noncommercial television station carried in fulfillment of the requirements of this section, except that such a station may be required to bear the cost associated with delivering a good quality signal to the headend of the cable system.

"(2) PAYMENT OF COPYRIGHT CHARGES FOR CARRIAGE OF DISTANT SIGNALS.—Notwithstanding any other provisions of this section, a cable operator shall not be required to add a qualified local noncommercial television station not already carried under the provisions of subsection (c), where such station would be considered as a distant signal for copyright purposes, unless such station reimburses the operator for the incremental copyright costs assessed against such operator as a result of such carriage.

"(i) LISTING OF STATIONS PURSUANT TO REQUIREMENTS.—A cable operator shall identify, upon request by any person, those signals carried in fulfillment of the requirements of this section.

"(j) REMEDIES.—

"(1) COMPLAINTS BY BROADCAST STATIONS.—Whenever a qualified local noncommercial television station believes that a cable operator has failed to meet its obligations under this section, such station shall notify the operator, in writing, of the alleged failure and identify its reasons for believing that the

cable operator is obligated to carry the signal of such station. The cable operator shall, within 30 days thereafter, respond in writing to such notice and either commence to carry the signal of such station or state its reasons for believing that it is not obligated to carry such signal. A broadcast station that is denied carriage of a cable operator may obtain review of such denial by filing a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to meet its obligations and the basis for such allegations.

"(2) OPPORTUNITY TO RESPOND.—The Commission shall afford such cable operator an opportunity to present data, views, and arguments to establish that there has been no failure to meet its obligations under this section.

"(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed, the Commission shall determine whether the cable operator has met its obligations under this section. If the Commission determines that the cable operator has failed to meet such obligations, the Commission shall state with particularity the basis for such findings and order the cable operator to take such remedial action as is necessary to meet the requirements of this section. If the Commission determines that the cable operator has fully met such obligations, it shall dismiss the complaint.

"(k) DEFINITIONS.—As used in this section—

"(1) QUALIFIED NONCOMMERCIAL TELEVISION STATION.—The term 'qualified noncommercial television station'—

"(A) means any television broadcast station which—

"(i)(I) under the regulations of the Commission in effect on January 1, 1990, is licensed by the Commission as a noncommercial educational television broadcast station and is owned and operated by a public agency, nonprofit foundation, corporation, or association; or

"(II) is owned or operated by a municipality and transmits only noncommercial programs for educational purposes; and

"(ii) has as its licensee an entity which has been qualified by the Corporation for Public Broadcasting, or any successor organization thereto, to receive a community service grant, or any successor grant thereto, on the basis of the formula set forth in section 396(k)(6)(B) of this Act; and

"(B) includes any translator, as defined in section 74.701(a) of title 47, Code of Federal Regulations (as in effect on January 1, 1990), or any successor regulation thereto, which operates with five watts or higher power and which rebroadcasts the signal of a station described in subparagraph (A) or this subparagraph.

"(2) QUALIFIED LOCAL NONCOMMERCIAL TELEVISION STATION.—The term 'qualified local noncommercial television station' means a qualified noncommercial television station—

"(A) which is licensed to a principal community whose reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (as in effect on January 1, 1990), or any successor regulations thereto, is within 50 miles of the principal headend of the cable system; or

"(B) whose grade B service contour, as defined in section 73.683(a) of such title (as in effect on January 1, 1990), or any successor regulations thereto, encompasses the principal headend of the cable system.".

SEC. 5. CARRIAGE OF QUALIFIED LOCAL TELEVISION SIGNALS.

(a) AMENDMENT.—Part II of title VI of the Communications Act of 1934 is further amended by inserting after section 614 (as added by section 4 of this Act) the following new section:

"CARRIAGE OF QUALIFIED LOCAL TELEVISION STATIONS

"SEC. 615. (a) CARRIAGE OBLIGATIONS.—For the purposes of providing a basic service tier pursuant to the provisions of section 623, each cable operator shall carry, on the cable system of that operator, the signals of qualified local television stations as provided by section 614 and the following provisions of this section:

"(1) MAXIMUM NUMBER OF SIGNALS REQUIRED.—A cable operator of a cable system with more than 12 usable activated channels shall carry the signals of qualified local television stations up to the maximum number determined by the following table:

Number of usable activated channels	Maximum number of signals required to be carried
13 to 20	5
21 to 29	7
30 to 33	8
34 to 37	9
38 to 41	10
42 to 45	11
46 to 49	12
50 to 53	13
54 to 57	14
58 to 61	15
62 to 65	16
66 to 69	17
70 to 73	18
74 to 77	19
78 to 81	20
82 to 85	21
86 to 89	22
90 to 93	23
94 to 97	24
98 to 101	25
102 to 105	26
106 to 109	27
110 to 113	28
114 to 117	29
118 to 121	30
122 to 125	31
Above 125	25% of channel capacity

Carriage of additional broadcast television stations on such system shall be at the discretion of such operator. Beginning five years after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, cable systems with 12 or fewer usable activated channels shall be required to carry up to a maximum of three qualified local television stations, except that if such a system has 300 or fewer subscribers, such system shall not be subject to any requirements under this section so long as such system does not delete any signal of a broadcast television station from carriage by that system.

"(2) SELECTION OF SIGNALS.—Whenever the number of qualified local television stations for any cable system exceeds the maximum number of signals the system is required to carry under paragraph (1), the cable operator shall have complete discretion in selecting which such stations' signals shall be carried on its cable system, except that—

"(A) in fulfilling the requirements of paragraph (1)—

"(i) a cable system of 53 or fewer usable activated channels may count only one qualified local noncommercial television station carried pursuant to section 614;

"(ii) a cable system of 54 or more usable activated channels may count only two qualified local noncommercial television stations carried pursuant to section 614; and

"(iii) additional qualified local noncommercial television stations carried pursuant to section 614 may not be counted; and

"(B) if the cable operator elects to carry an affiliate of a broadcast network (as such term is defined by the Commission), such cable operator shall carry the affiliate of such broadcast network whose city of license reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (as in effect on January 1, 1990), or any successor regulation thereto, is closest to the principal headend of the cable system.

"(3) CONTENT TO BE CARRIED.—(A) A cable operator shall carry in its entirety, on the cable system of that operator, the primary video and accompanying audio transmission of each of the qualified local commercial television stations carried on the cable system (unless otherwise agreed upon by the cable operator and the station), and, to the extent technically feasible, program-related material carried in the vertical blanking interval, or on subcarriers, that may be necessary for receipt of programming by handicapped persons or for educational or language purposes, including use of separate audio program channels, or that relates to or enhances the primary video and audio signal (such as closed-captioning or multichannel sound). Retransmission of other material in the vertical blanking interval or other enhancements of the primary video and audio signal (including teletext and other subscription and advertiser-supported information or service, and material carried on subcarriers) shall be left to the discretion of the cable operator. Where appropriate and feasible, operators may strip signal enhancements, such as ghost-canceling, from the broadcast signal and employ such enhancements at the system headend. The Commission may study technological enhancements contained in broadcast signals and adjust cable system obligations consistent with this paragraph as necessary.

"(B) A cable operator is required to carry the entirety of the program schedule of such a station unless carriage of specific programming is prohibited pursuant to section 76.67 or subpart F of part 76 of title 47 of the Code of Federal Regulations (as in effect on January 1, 1990), or any successor regulations thereto.

"(4) SIGNAL QUALITY.—

"(A) NONDEGRADATION; TECHNICAL SPECIFICATIONS.—The signals of qualified local commercial television stations that a cable operator carries shall be carried without material degradation. The Commission shall adopt carriage standards, as necessary, to ensure that, to the extent technically feasible, the quality of signal processing and carriage provided by a cable system for the carriage of qualified local commercial television stations will be no less than that provided by the system for carriage of any other comparable type of retransmitted signal.

"(B) ADVANCED TELEVISION.—At any time that the Commission prescribes modifications of the standards for television broadcast signals, the Commission shall—

"(i) initiate a proceeding to consider technical standards applicable to cable carriage of broadcast signals; or

"(ii) consider submission to the Congress of suggestions for legislative changes necessary to ensure cable carriage of the new broadcast standard.

"(5) DUPLICATION NOT REQUIRED.—Notwithstanding paragraph (1), a cable operator shall not be required to carry the signal of any qualified local commercial television station that substantially duplicates the signal of another qualified local commercial station or to carry the signals of more than one qualified commercial television station affiliated with a particular broadcast network entity (as such term is defined by the Commission). If a cable operator elects to carry a signal which substantially duplicates the signal of another qualified local commercial television station carried on the cable system, or to carry the signals of more than one qualified local commercial television station affiliated with a particular broadcast network entity, all such signals shall be counted toward the number of signals the operator is required to carry under paragraph (1).

"(6) CHANNEL POSITIONING.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), each signal of a qualified local commercial television station carried in fulfillment of the requirements of this subsection shall be carried on the cable system, at the option of the licensee of the station, on one of the following channels:

"(i) The channel on which that signal was carried on June 26, 1990.

"(ii) The channel corresponding to the station's broadcast channel number, as assigned by the Commission, unless that channel on the cable system was occupied by another qualified local commercial television station on June 26, 1990, that does not wish to relinquish that channel position.

"(iii) A channel mutually agreed upon by the broadcast station and the cable operator.

"(B) EXCEPTION.—A cable operator may make a single election to carry all the signals of qualified local commercial television stations carried in fulfillment of the requirements of this section on channel numbers 2 through 13, inclusive. The channel position of any qualified local commercial television station carried on channels 2 through 13, inclusive, on June 26, 1990, shall not be changed without the consent of the station.

"(7) IDENTIFICATION OF SIGNALS CARRIED.—A cable operator shall identify, upon request by any person, those signals carried in fulfillment of the requirements of this section.

"(8) NOTIFICATION.—A cable operator shall provide written notice to a qualified local commercial television station at least 30 days prior to either deleting from carriage or repositioning that qualified local commercial television station. No deletion or repositioning of a qualified local commercial television station shall occur during a period in which major television rating services measure the size of audiences of local commercial television stations. The notification provisions of this paragraph shall not be used to undermine or evade the channel positioning or carriage requirements imposed upon cable operators under this section.

"(9) COMPENSATION FOR CARRIAGE PROHIBITED.—A cable operator shall not accept or request monetary payment or other valuable consideration in exchange for carriage of the signal of any qualified local commercial television station carried in fulfillment of the requirements of this section, or in exchange for carriage on the channel of carriage as of June 26, 1990, or the channel corresponding to the station's broadcast channel number, except that—

"(A) any such station may be required to bear the costs associated with delivering to the headend of the cable system a signal of the quality defined in subsection (c)(2)(A)(ii) of this section; and

"(B) a cable operator may continue to accept monetary payment or other valuable consideration in exchange for carriage or channel positioning of the signal of any qualified local commercial television station carried in fulfillment of the requirements of this section, through, but not beyond, the date of expiration of an agreement thereon between a cable operator and a qualified local commercial television station entered into prior to June 26, 1990.

"(b) REMEDIES.—

"(1) COMPLAINTS BY BROADCAST STATIONS.—Whenever a qualified local commercial television station believes that a cable operator has failed to meet its obligations under this section, such station shall notify the operator, in writing, of the alleged failure and identify its reasons for believing that the cable operator is obligated to carry the signal of such station or has otherwise failed to comply with the channel positioning or repositioning requirements of this section. The cable operator shall, within 30 days thereafter, respond in writing to such notice and either commence to carry the signal of such station or state its reasons for believing that it is not obligated to carry such signal or is in compliance with the channel positioning or repositioning requirements of this section. A broadcast station that is denied carriage or channel positioning or repositioning by a cable operator may obtain review of such denial by filing a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to meet its obligations and the basis for such allegations.

"(2) OPPORTUNITY TO RESPOND.—The Commission shall afford such cable operator an opportunity to present data, views, and arguments to establish that there has been no failure to meet its obligations under this section.

"(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed, the Commission shall determine whether the cable operator has met its obligations under this section. If the Commission determines that the cable operator has failed to meet such obligations, the Commission shall state with particularity the basis for such findings and order the cable operator to reposition such station or, in the case of an obligation to carry a station, to commence carriage of the station within a reasonable period, as specified by the Commission, and shall continue such carriage for at least 12 months. If the Commission determines that the cable operator has fully met such obligations, it shall dismiss the complaint.

"(c) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED LOCAL TELEVISION STATION.—The term 'qualified local television station' means any qualified local commercial television station, and any qualified noncommercial educational television station as defined in section 614.

"(2) QUALIFIED LOCAL COMMERCIAL TELEVISION STATIONS.—(A) The term 'qualified local commercial television station' means any full service commercial television station licensed and operating on a channel regularly assigned to its community by the Commission (except where such station would be considered a distant signal under section 111 of title 17, United States Code) and that, with respect to a particular cable system—

"(i) is licensed to a community whose reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (as in effect on January 1, 1990), or any successor regulations thereto, is within 50 miles of the principal headend of the cable system;

"(ii) delivers to the principal headend of the cable system a signal of good technical quality that is either a signal level of -45 dBm for UHF signals or -49 dBm for VHF signals at the input terminals of the video processing equipment, or a baseband video signal; and

"(iii) meets the television viewership standards specified in paragraph (3) of this subsection.

"(B) The term 'qualified local commercial television station' shall not include low-power television stations, television translator stations, and other passive repeaters which operate pursuant to part 74 of title 47, Code of Federal Regulations (as in effect on January 1, 1990), or any successor regulations thereto.

"(3) VIEWERSHIP STANDARD.—

"(A) MINIMUM VIEWERSHIP REQUIRED.—Except as provided in subparagraphs (C) and (D), the viewership standard that must be achieved by a qualified local commercial television station, as determined in accordance with subsection (d) of this section, is an average share of total viewing hours of at least 2 percent and a net weekly circulation of at least 5 percent.

"(B) LOSS OF VIEWERSHIP.—Once a commercial station has demonstrated that, on the basis of a full one-year television survey season, it meets the viewership standard specified in subparagraph (A) of this paragraph, it will be deemed to have met such standard until such time as the cable system operator demonstrates, using the methodology specified in subsection (d) of this section, that the station no longer meets such standard.

"(C) NEW STATIONS.—If a station commenced operations, as defined in subsection (d)(3), after December 11, 1987, and otherwise meets the requirements of paragraph (2) of this subsection, it shall be a qualified local commercial television station for one year after the date the station commenced operations or the date the carriage obligations imposed in this section become effective, whichever is later, regardless of whether the station achieves the viewership standard in subparagraph (A) of this paragraph. For purposes of this subparagraph, a station shall be deemed to have initially commenced operations as of the date it initially commences operations under program test authority. A station which changes station operations, upgrades facilities, transfers or assigns its license, or recommences its operations after operations have ceased shall not be deemed to have initially commenced operations.

"(D) SPECIAL FORMAT AND MINORITY STATIONS.—The viewership standard in subparagraph (A) of this section shall not apply with respect to carriage of a special format or minority station (as defined in subparagraph (E)) that otherwise meets the requirements of paragraph (2) of this subsection, but in no case shall this subparagraph require a cable operator to delete from carriage any signal carried on the system of that operator on July 26, 1990. Nothing in this section shall be construed to require a cable operator to delete from carriage the signal of any such special format or minori-

ty station that was carried on the system of that operator on July 26, 1990.

"(E) DEFINITIONS OF SPECIAL FORMAT AND MINORITY STATIONS.—For purposes of subparagraph (E)—

"(i) a 'special format station' is a station that provides, as a substantial portion of its program schedule, specialized format programming (including programming in foreign languages, programming directed at minority groups, or programming which is not otherwise provided to the subscribers served by the cable system by other commercial television stations); and

"(ii) a 'minority station' is a station that is over 50 percent minority-owned, as the term 'minority' is defined in section 309(i)(3)(C)(ii) of this Act.

"(d) SURVEY OF BROADCAST AUDIENCE.—Compliance with the viewership standard specified in subsection (c)(3) shall be demonstrated on the basis of an independent professional survey of noncable homes. Such survey shall cover 4 separate, consecutive 4-week periods, including one in each of April through June, July through September, October through December and January through March, pursuant to the methodology used to compile Appendix B of the Memorandum Opinion and Order on Reconsideration of Cable Television, Federal Communications Commission Report and Order (in C.T. Docket 72-530; 36 FCC 2d 326 (1972)), except that such methodology shall be modified, as necessary, to encompass all households or all cable homes when a station chooses to rely on viewing in such households and cable subscribership reaches 70 percent of the homes in the county.

"(e) INPUT SELECTOR SWITCH RULES ABOLISHED.—No cable operator shall be required—

"(1) to provide or make available any input selector switch as defined in section 76.5(mm) of title 47, Code of Federal Regulations, or any comparable device, or

"(2) to provide information to subscribers about input selector switches or comparable devices.

"(f) EFFECTIVE DATE.—The provisions of this section shall take effect on the effective date of regulations promulgated by the Commission pursuant to section 623(b) of this Act as amended by the Cable Television Consumer Protection and Competition Act of 1990.".

(b) CONFORMING AMENDMENTS.—Section 602 of the Communications Act of 1934 is amended—

(1) by redesignating paragraphs (13), (14), (15), and (16) as paragraphs (14), (15), (16), and (18), respectively; and

(2) by inserting after paragraph (12) the following new paragraph:

"(13) the term 'principal head- end' means a single location at which is located the cable system equipment used to receive and process the signals of local television broadcast stations for redistribution to subscribers. Where more than one location meets this definition, the cable operator shall designate to the Commission a single location as the principal headend for purposes of section 614 and 615. No designation of the location of the cable system's principal headend shall be made in a manner which will undermine or evade the signal carriage obligations imposed upon cable operators under this Act;";

(3) by striking "and" at the end of paragraph (16) (as redesignated); and

(4) by inserting after such paragraph (16) the following new paragraph:

"(17) the term 'usable activated channels'—

"(A) means channels engineered at the headend of the cable system for the provision of services generally available to residential subscribers of the cable system, regardless of whether such services actually are provided; and

"(B) includes any channel designated for public, educational, or governmental use but excluding channels whose use for the distribution of broadcast signals would conflict with technical and safety regulations as defined by the Commission; and".

SEC. 6. CONSUMER PROTECTION AND CUSTOMER SERVICE.

Section 632 of the Communications Act of 1934 (47 U.S.C. 552) is amended to read as follows:

"CONSUMER PROTECTION AND CUSTOMER SERVICE

"SEC. 632. (a) FRANCHISING AUTHORITY ENFORCEMENT.—A franchising authority may require, as part of a franchise (including a modification, renewal, or transfer thereof), provisions for enforcement of—

"(1) customer service requirements of the cable operator; and

"(2) construction schedules and other construction-related requirements, including construction-related performance requirements, of the cable operator.

"(b) COMMISSION STANDARDS.—The Commission shall, within 180 days of enactment of the Cable Television Consumer Protection and Competition Act of 1990, establish standards by which cable operators may fulfill their customer service requirements. Such standards shall include, at a minimum, requirements governing—

"(1) cable system office hours and telephone availability;

"(2) installations, outages, and service calls; and

"(3) communications between the cable operator and the customer (including standards governing bills and refunds).

"(c) AVAILABILITY OF TECHNOLOGY; PROCEEDING REQUIRED.—The Federal Communications Commission shall—

"(1) within 60 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, initiate a proceeding to determine—

"(A) whether equipment standards are necessary to permit the commercial availability, from cable operators or retail vendors that are not affiliated with cable systems, of converter boxes and remote controls compatible with cable systems; and

"(B) the feasibility of including converter and addressability technology for cable systems and other multichannel video systems in television receivers shipped in interstate commerce or imported from any foreign country into the United States for sale or resale to the public, taking into account (i) the impact on domestic manufacturers of including such technology in such television receivers, and (ii) the need for cable operators and other multichannel video systems to protect their signals against unauthorized reception; and

"(2) prescribe any standards determined to be necessary under paragraph (1).

"(d) CONSUMER PROTECTION LAWS AND CUSTOMER SERVICE AGREEMENTS.—

"(1) CONSUMER PROTECTION LAWS.—Nothing in this title shall be construed to prohibit any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not inconsistent with this title.

"(2) CUSTOMER SERVICE REQUIREMENT AGREEMENTS.—Nothing in this section shall be construed to preclude a franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards established by the Commission under subsection (b).".

SEC. 7. TECHNICAL STANDARDS.

Section 624(e) of the Communications Act of 1934 (47 U.S.C. 544(e)) is amended to read as follows:

"(e) Within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, the Commission shall prescribe regulations which establish minimum technical standards relating to cable systems' technical operation and signal quality. The Commission periodically shall update such standards to reflect improvements in technology. A franchising authority may require as part of a franchise (including a modification, renewal, or transfer thereof) provisions for the enforcement of the standards prescribed under this subsection. A franchising authority may apply to the Commission for a waiver to impose standards that are more stringent than the standards prescribed by the Commission under this subsection.".

SEC. 8. COMPETITION AND TECHNOLOGICAL DEVELOPMENT.

(a) PROHIBITION ON UNREASONABLE REFUSALS TO DEAL WITH MULTICHANNEL VIDEO SYSTEM OPERATORS.—Title VII of the Communications Act of 1934 is amended by inserting after section 705 (47 U.S.C. 605) the following new section:

"PROGRAMMING ACCESS TO PROMOTE COMPETITION AND CONTINUING TECHNOLOGICAL DEVELOPMENT

"SEC. 705A. (a) UNREASONABLE REFUSALS TO DEAL PROHIBITED.—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, the Commission shall, in order to promote competition and diversity in the multichannel video programming market and continuing development of communications technologies, prescribe regulations to prohibit any video programming vendor—

"(1) in which a multichannel video system operator has an attributable interest, and

"(2) that licenses video programming for national or multistate regional distribution,

from unreasonably refusing to deal with any multichannel video system operator with respect to the provision of video programming in accordance with such regulations. Entering into or abiding by the terms of an exclusive contract that does not have the effect of significantly impeding competition shall not be considered an unreasonable refusal to deal. Nothing contained in this subsection shall require any person who licenses video programming for national or multistate regional distribution to make such programming available in any geographic area beyond which such programming has been authorized or licensed for distribution.

"(b) REMEDIES FOR VIOLATIONS.—Any multichannel video system operator aggrieved by conduct that it alleges constitutes a violation of the regulations prescribed under this section may commence an adjudicatory proceeding at the Commission. Upon completion of such proceeding, the Commission shall have the power to order appropriate remedies, including, if necessary, the power to establish price, terms, and conditions of sale of programming to the aggrieved multichannel video system operator.

"(c) PROCEDURES.—The Commission shall prescribe regulations to implement this section. The Commission's regulations shall—

"(1) provide for an expedited review of any complaints made pursuant to this section;

"(2) establish procedures for the Commission to collect such data as the Commission requires to carry out this section with respect to exclusive contracts or other practices and their effects on competitors, competition, or the video programming distribution market or on the development of new video distribution technologies; and

"(3) provide for penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

"(d) SUNSET.—The regulations prescribed under subsection (a)(1) of this section shall cease to be effective 9 years after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, or on such earlier date as the Commission determines that a competitive national market for the delivery of video programming exists. Such regulations shall cease to be effective for any local market on such earlier date as the Commission determines that a competitive market for the delivery of such programming exists in such local market.

"(e) REPORTS.—The Commission shall, beginning not later than 18 months after promulgation of the regulations required by subsection (a), annually report to Congress on the status of competition in the market for the delivery of video programming.

"(f) EXEMPTIONS FOR PRIOR CONTRACTS.—Nothing in this section shall affect any contract (or the renewal or extension of any contract) that grants exclusive distribution rights to any person with respect to video programming and that was entered into on or before June 1, 1990.

"(g) DEFINITIONS.—

"(1) The term 'multichannel video system operator' includes an operator of any cable system, multichannel multipoint distribution service, direct broadcast satellite distribution service, television receive-only satellite distribution service, or other comparable system for the distribution of video programming.

"(2) The term 'video programming vendor'—

"(A) means any person who licenses video programming for distribution by any multichannel video system operator;

"(B) includes satellite delivered programming networks and other programming networks and services;

"(C) does not include a network or service distributing video programming intended for broadcast by a television station affiliated with a broadcasting network; and

"(D) does not include a network or service distributing video programming that is carried as a secondary transmission of a signal broadcast by a television station.

"(3) The terms 'cable system' and 'video programming' have the meanings provided by section 602 of this Act.".

(b) REGULATION OF CARRIAGE AGREEMENTS.—

(1) REGULATIONS.—Within one year after the date of enactment of this Act, the Commission shall establish regulations governing program carriage agreements and related practices between cable operators and video programming vendors. Such regulations shall—

(A) include provisions designed to prevent a cable operator or other multichannel video system operator from requiring a financial interest in a program service as a condition for carriage on one or more of such operator's systems;

(B) include provisions designed to prohibit a cable operator or other multichannel video system operator from coercing a video programming vendor to provide exclusive rights against other multichannel video system operators as a condition of carriage on a system;

(C) contain provisions designed to prevent a multichannel video system operator from engaging in conduct the effect of which is to unreasonably restrain the ability of an unaffiliated video programming vendor to compete fairly by discriminating in video programming distribution on the basis of affiliation or nonaffiliation in the selection, terms, or conditions for carriage of video programming vendors;

(D) provide for expedited review of any complaints made by a video programming vendor pursuant to this section;

(E) provide for appropriate penalties and remedies for violations of this subsection, including carriage; and

(F) provide penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

(2) DEFINITIONS.—As used in this subsection, the terms "video programming vendor" and "multichannel video system operator" have the meanings provided by section 705A(g) of the Communications Act of 1934 (as added by subsection (a) of this section).

SEC. 9. MARKETING OF CERTAIN SATELLITE COMMUNICATIONS.

(a) FINDINGS.—The Congress finds that—

(1) many satellite-delivered programming services have unnecessarily restricted options for consumers wishing to choose between competing television programming distributors;

(2) presently 3,000,000 Americans own C-band home satellite television systems and the number is growing at a rate of 350,000 to 400,000 each year;

(3) there is disparity in wholesale pricing between programming services offered to cable operators and to satellite programming distributors;

(4) independent, noncable third-party packaging of C-band direct broadcast satellite delivered programming will encourage the availability of programming to C-band direct broadcast home satellite television systems; and

(5) in order to promote the development of direct-to-home satellite service, Congress must act to ensure that video programming vendors provide access on fair and nondiscriminatory terms.

(b) AMENDMENTS.—Section 705 of the Communications Act of 1934 (47 U.S.C. 605) is amended—

(1) by striking subsection (f) as added by section 204 of the Satellite Home Viewer Act of 1988;

(2) by striking "subsection (d)" each place it appears in subsections (d)(6) and (e)(3)(A) and inserting "subsection (f)";

(3) by redesignating subsections (c) through (g) as subsections (d) through (h), respectively;

(4) by inserting after subsection (b) the following new subsection:

"(c)(1) Any person who encrypts any satellite delivered programming shall—

"(A) make such programming available for private viewing by home satellite antenna users;

"(B) when making such programming available through any other person for distribution through any medium, establish reasonable and nondiscriminatory financial, character, technical, and service criteria and requirements under which noncable distributors shall qualify to distribute such programming for private viewing by home satellite antenna users; and

"(C) when making such programming available through any other person for distribution through any medium, establish by the effective date of this subparagraph or January 1, 1991, whichever is later, price, terms, and conditions for the wholesale distribution of such programming which do not discriminate between the distribution of such programming to distributors for cable television subscribers and distributors to home satellite antenna users, nor among different distributors to home satellite antenna users, except that this subparagraph shall not prohibit rate differentials which are—

"(i) attributable to actual and reasonable differences in the costs of the creation, sale, delivery, or transmission of such programming as between different delivery media;

"(ii) attributable to reasonable volume discounts; or

"(iii) attributable to bona fide agreements for the distribution of such programming which were in effect prior to the enactment date of this subparagraph.

"(2) Where a person who encrypts satellite delivered programming has established a separate subsidiary for distribution to satellite antenna users, such person shall not be required to establish or license any entity on the same terms and conditions as such separate subsidiary; except that for purposes of any claim of discrimination under this section, a party aggrieved may, as evidence of discrimination, compare the prices, terms, and conditions established by the person who encrypts.

"(3) Nothing contained in this subsection shall require any person who encrypts satellite delivered programming to authorize or license any distributor for a secondary satellite retransmission of such programming, but, if any person who encrypts satellite delivered programming authorizes or licenses such a distributor, such person shall, consistent with the provisions of paragraph (1)(B) and (1)(C), establish criteria to qualify to distribute such programming through such secondary satellite retransmissions, and further establish nondiscriminatory price, terms, and conditions for such distribution. Nothing contained in this subsection shall require any person who encrypts satellite delivered programming to make such programming available in any geographic area beyond which such programming has been authorized or licensed for distribution.

"(4) Any person aggrieved by any violation of paragraph (1)(A) of this subsection may bring a civil action in a United States district court or in any other court of competent jurisdiction. Such court may grant temporary and final injunctions or other equitable relief on such terms as it may deem reasonable and appropriate to prevent or restrain such violations.

"(5) Any person aggrieved by any violation of paragraph (1)(B), (1)(C), or (2) of this subsection may bring a civil action in the United States district court or other court of competent jurisdiction. Such court may grant temporary and final injunctions on such terms as it may deem reasonable and appropriate to prevent or restrain such violations; and (i) direct the recovery of damages to a prevailing plaintiff, including actual damages, or statutory damages for all violations in a sum of not more than $500,000, as the court considers just; and (ii) direct the recovery of full costs, including reasonable attorney's fees, to a prevailing party.

"(6) As used in this subsection—

"(A) the term 'satellite delivered programming' means video programming transmitted by a domestic C-band direct broadcast communications satellite intended for reception by cable television systems or home satellite antenna users and does not include any satellite communication of any broadcaster or broadcast network;

"(B) the term 'home satellite antenna users' means individuals who own or operate C-band direct broadcast satellite television receive-only equipment for the reception of satellite delivered programming for viewing in such individual's single family dwelling unit; and

"(C) the term 'person who encrypts' means the party who holds the rights to the satellite delivered programming or who establishes the prices, terms, and conditions for the wholesale distribution thereof.

"(7) This subsection shall cease to be effective 7 years after the date of enactment of this subsection."; and

(5) in subsection (h) (as redesignated) by striking ", based on the information gathered from the inquiry required by subsection (f),".

(c) EFFECTIVE DATE.—The amendments made by subsection (b) of this section shall take effect 90 days after the date of enactment of this Act.

SEC. 10. C-BAND SATELLITE REGULATION.

(a) FINDINGS.—The Congress finds that—

(1) under existing technical regulations of the Federal Communications Commission, the development of the C-band home satellite television market is likely to be adversely affected in the future by interference caused by adjacent satellites;

(2) current home dishes, which are commonly 8 to 10 feet in diameter, might receive interference from new satellites that the Commission has authorized and assigned to orbital slots but which have not yet been constructed or launched; and

(3) future C-band home dishes, which might be as small as 4 feet in diameter and still receive good picture quality from higher power C-band satellites than are used today, may be unable to reject interference from adjacent satellites spaced as close as 2 degrees.

(b) TECHNICAL REGULATION OF C-BAND SATELLITES.—Section 303 of the Communications Act of 1934 (47 U.S.C. 303) is amended by adding at the end thereof the following new subsection:

"(u) Have authority to make such rules and regulations as may be necessary to assure that satellite Earth stations receiving signals in the 3700-4200 MHz band used for private viewing pursuant to section 705 are not unduly restricted from being used for the reception of television programming services, including regulations to assure that such receivers are protected from interference caused by unwanted satellite emissions.".

(c) BARRIERS TO USE OF SMALLER SATELLITE DISH RECEIVERS.—Section 705 of the Communications Act of 1934 is amended by adding at the end thereof the following new subsection:

"(i)(1) The Federal Communications Commission shall, within 45 days after the date of enactment of this subsection, initiate a combined inquiry and rulemaking proceeding for the purpose of—

"(A) determining the technical feasibility of using smaller C-band home dish receivers than are commonly used on such date of enactment,

"(B) determining the extent to which existing rules and regulations of the Commission in effect on such date act as a barrier to the use of smaller dish receivers,

"(C) determining the extent to which local zoning, construction, or other regulations have acted as barriers to the successful development of the C-band satellite television delivery service,

"(D) determining the extent to which smaller dish sizes might overcome such local barriers, and

"(E) evaluating the impact that any proposed regulation changes would have on the users, operators, or licensees of existing or authorized fixed satellite services (FSS) satellites, taking into account any Act, treaty, or convention binding on the United States which the Commission is authorized to administer.

"(2) If the Commission finds—

"(A) that any of its policies, rules, or regulations relating to two degree satellite spacing requirements act as barriers to the use of smaller C-band home satellite dishes,

"(B) that such dishes would be technically feasible but for the Commission's policies, rules, or regu- lations,

"(C) that modification of the such policies, rules, or regulations would be in the interest of current and future C-band home satellite dish users, and

"(D) that, considering the Commission's evaluation pursuant to paragraph (1)(E) of this subsection, such modifications would nevertheless be in the public interest,

the Commission it shall initiate a rulemaking to remove such barriers and complete such rulemaking within 360 days of the initiation of the inquiry.".

SEC. 11. EQUAL EMPLOYMENT OPPORTUNITY.

(a) FINDINGS.—The Congress finds and declares that—

(1) despite the existence of present legislation governing equal employment opportunity, females and minorities are not employed in significant numbers in positions of management authority in the cable television and broadcast industries;

(2) increased numbers of females and minorities in positions of management authority in the cable television and broadcast industries advances the Nation's policy favoring diversity in the expression of views in the electronic media; and

(3) rigorous enforcement of equal employment opportunity rules and regulations is required in order to effectively deter racial and gender discrimination.

(b) STANDARDS.—Section 634(d)(1) of the Communication Act of 1934 (47 U.S.C. 554(d)(1)) is amended to read as follows:

"(d)(1) Not later than 270 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, of this section, and after notice and opportunity for hearing, the Commission shall prescribe revisions in the rules under this section in order to implement the amendments made to this section by such Act. Such revisions shall be designed to promote equality of employment opportunities for females and minorities in each of the job categories itemized in paragraph (3) of this subsection.".

(c) CONTENTS OF ANNUAL STATISTICAL REPORTS.—Section 634(d)(3) of the Communications Act of 1934 (47 U.S.C. 554(d)(3)) is amended to read as follows:

"(3)(A) Such rules also shall require an entity specified in subsection (a) with more than 5 full-time employees to file with the Commission an annual statistical report identifying by race, sex, and job title the number of employees in each of the following full-time and part-time job categories:

"(i) Corporate officers.
"(ii) General Manager.
"(iii) Chief Technician.
"(iv) Comptroller.
"(v) General Sales Manager.
"(vi) Production Manager.
"(vii) Managers.
"(viii) Professionals.
"(ix) Technicians.
"(x) Sales.
"(xi) Office and Clerical.
"(xii) Skilled Craftspersons.
"(xiii) Semiskilled Operatives.
"(xiv) Unskilled Laborers.
"(xv) Service Workers.

"(B) The report required by subparagraph (A) shall be made on separate forms, provided by the Commission, for full-time and part-time employees. The Commission's rules shall sufficiently define job categories (i) through (vi) of such subparagraph so as to ensure that only employees who are principal decisionmakers and that have supervisory authority are reported for such categories. The Commission shall adopt rules that define job categories (vii) through (xv) in a manner that is consistent with the Commission policies in effect on June 1, 1990. The Commission shall prescribe the method by which entities shall be required to compute and report the number of minorities and women in job categories (i) through (x) and the number of minorities and women in job categories (i) through (xv) in proportion to the total number of qualified minorities and women in the relevant labor market. The report shall include information on hiring, promotion, and recruitment practices necessary for the Commission to evaluate the efforts of entities to comply with the provisions of paragraph (2) of this subsection. The report shall be available for public inspection at the entity's central location and at every location where 5 or more full-time employees are regularly assigned to work. Nothing in this subsection shall be construed as prohibiting the Commission from collecting or continuing to collect statistical or other employment information in a manner that it deems appropriate to carry out this section.".

(d) PENALTIES.—Section 634(f)(2) of such Act is amended by striking "$200" and inserting "$500".

(e) APPLICATION OF REQUIREMENTS.—Section 634(h)(1) of such Act is further amended by inserting before the period the following: "and any multichannel video system operator (as that term is defined in section 705A(g) of this Act)".

(f) STUDY AND REPORT REQUIRED.—Not later than 240 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, the Commission shall submit to the Congress a report pursuant to a proceeding to review and obtain public comment on the effect and operation of its procedures, regulations, policies, standards, and guidelines concerning equal employment opportunity in the broadcasting industry. In conducting such review, the Commission shall consider the effectiveness of such procedures, regulations, policies, standards, and guidelines in promoting equality of employment opportunity and promotion opportunity, and particularly the effectiveness of such procedures, regulations, policies, standards, and guidelines in promoting the congressional policy favoring increased employment opportunity for women and minorities in positions of management authority. In conducting such proceeding the Commission also shall review the effectiveness of penalties and remedies

for violation of existing regulations and policies concerning equality of employment opportunity in the broadcasting industry. The Commission shall forward to the Congress such legislative recommendations to improve equal employment opportunity in the broadcasting industry as it deems necessary.

SEC. 12. HOME WIRING.

Section 624 of the Communications Act of 1934 (17 U.S.C. 544) is amended by adding at the end the following new subsection:

"(g) Within 120 days after the date of enactment of this subsection, the Commission shall prescribe rules and regulations concerning the disposition, after a subscriber to a cable system terminates service, of any cable installed by the cable operator within the premises of such subscriber.".

SEC. 13. SALES OF CABLE SYSTEMS.

Part II of title VI of the Communications Act of 1934 is further amended by adding at the end thereof the following new section:

"SALES OF CABLE SYSTEMS

"SEC. 616. (a) 3-YEAR HOLDING PERIOD REQUIRED.—Except as provided in this section, no cable operator may sell or otherwise transfer ownership in a cable system within a 36-month period following either the acquisition or initial construction of such system by such operator.

"(b) TREATMENT OF MULTIPLE TRANSFERS.—In the case of a sale of multiple systems, if the terms of the sale require the buyer to subsequently transfer ownership of one or more such systems to one or more third parties, such transfers shall be considered a part of the initial transaction.

"(c) EXCEPTIONS.—Subsection (a) of this section shall not apply to—

"(1) any transfer of ownership interest in any cable system which is not subject to Federal income tax liability,

"(2) any sale required by operation of any law or any act of any Federal agency, any State or political subdivision thereof, or any franchising authority, or

"(3) any sale, assignment, or transfer, to one or more purchasers, assignees, or transferees controlled by, controlling, or under common control with, the seller, assignor, or transferror.

"(d) WAIVER AUTHORITY.—The Commission may, consistent with the public interest, waive the requirement of subsection (a), except that, if the franchise requires franchise authority approval of a transfer, the Commission shall not waive such requirements unless the franchise authority has approved the transfer.

"(e) LIMITATION ON DURATION OF FRANCHISING AUTHORITY POWER TO DISAPPROVE TRANSFERS.—In the case of any sale or transfer of ownership of any cable system after the 36-month period following acquisition of such system, a franchising authority shall, if the franchise requires franchising authority approval of a sale or transfer, have 120 days to act upon any request for approval of such sale or transfer that contains or is accompanied by such information as is required in accordance with Commission regulations. If the franchising authority fails to render a final decision on the request within 120 days, such request shall be deemed granted unless the requesting party and the franchising authority agree to an extension of time.".

SEC. 14. CABLE CHANNELS FOR COMMERCIAL USE.

(a) RATES, TERMS, AND CONDITIONS.—Section 612(c) of the Communications Act of 1934 (47 U.S.C. 532(c)) is amended—

(1) by striking "consistent with the purpose of this section" in paragraph (1) and inserting "consistent with regulations prescribed by the Commission under paragraph (4)"; and

(2) by adding at the end thereof the following new paragraph:

"(4) The Commission shall, not later than 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1990, by regulation establish—

"(A) a formula to determine the maximum rates which a cable operator may establish under paragraph (1) of this subsection;

"(B) standards concerning the terms and conditions which may be so established; and

"(C) standards concerning methods for collection and billing for commercial use of channel capacity made available under this section.".

(b) ACCESS FOR MINORITY PROGRAMMING SOURCES.—Section 612 of such Act is further amended by adding at the end thereof the following new subsection:

"(i)(1) Notwithstanding the provisions of subsections (b) and (c), a cable operator required by this section to designate channel capacity for commercial use may use any such channel capacity for the provision of programming from a qualified minority programming source, whether or not such source is affiliated with the cable operator. The channel capacity used to provide programming from a qualified minority programming source pursuant to this subsection may not exceed 33 percent of the channel capacity designated pursuant to this section. No programming provided over a cable system on July 1, 1990, may qualify as minority programming on that cable system under this subsection.

"(2) For purposes of this subsection, the term 'qualified minority programming source' means a programming source which devotes significantly all of its programming to coverage of minority viewpoints, or to programming directed at members of minority groups, and which is over 50 percent minority-owned, as the term 'minority' is defined in section 309(i)(3)(C)(ii) of this Act.".

SEC. 15. CABLE FOREIGN OWNERSHIP RESTRICTIONS.

(a) FINDINGS.—The Congress finds that—

(1) restrictions on alien or foreign ownership of broadcasting and common carriers first were enacted by Congress in the Radio Act of 1912;

(2) cable television service currently is available to more than 80 percent of American households, more than 59 percent of American households subscribe to such services, and the majority of viewers rely on cable as the conduit through which they receive terrestrial broadcast signals;

(3) many Americans receive a significant portion of their daily news, information, and entertainment programming from cable television systems, and such systems should not be controlled by foreign entities; and

(4) the policy justifications underlying restrictions on alien ownership of broadcast or common carrier licenses have equal application to alien ownership of cable television systems, direct broadcast satellite systems, and multipoint distribution services.

(b) AMENDMENT TO COMMUNICATIONS ACT.—Section 310(b) of the Communications Act of 1934 (47 U.S.C. 310(b)) is amended—

(1) by redesignating paragraphs (1) through (4) as subparagraphs (A) through (D);

(2) by inserting "(1)" after "(b)"; and

(3) by adding at the end thereof the following new paragraphs:

"(2)(A) No cable system (as such term is defined in section 602) in the United States shall be owned or otherwise controlled by any alien, representative, or corporation described in subparagraph (A), (B), (C), or (D) of paragraph (1) of this subsection.

"(B) Subparagraph (A) of this paragraph shall not be applied—

"(i) to require any such alien, representative, or corporation to sell or dispose of any ownership interest held or contracted for on or before June 1, 1990, or acquired in accordance with clause (ii); or

"(ii) to prohibit any such alien, representative, or corporation that owns, has contracted on or before June 1, 1990, to acquire ownership, or otherwise control, any cable system from acquiring ownership or control of additional cable systems if the total number of households passed by all the cable systems that such alien, representative, or corporation would, as a result of such acquisition, own or control does not exceed 2,000,000.

"(3)(A) For purposes of paragraph (1) of this subsection, a license or authorization for any of the following services shall be deemed to be a broadcast station license:

"(i) cable auxiliary relay services;

"(ii) multipoint distribution services;

"(iii) direct broadcast satellite services; and

"(iv) other services the licensed facilities of which may be substantially devoted toward providing programming or other information services within the editorial control of the licensee.

"(B) Subparagraph (A) of this paragraph shall not be applied to any cable operator to the extent that such operator is eligible for the exemptions contained in subparagraph (B) of paragraph (2).".

SEC. 16. THEFT OF CABLE SERVICE.

Section 633(b) of the Communications Act of 1934 (47 U.S.C. 533(b)) is amended—

(1) in paragraph (2)—

(A) by striking "$25,000" and inserting "$50,000";

(B) by striking "1 year" and inserting "2 years";

(C) by striking "$50,000" and inserting "$100,000"; and

(D) by striking "2 years" and inserting "5 years"; and

(2) by adding at the end thereof the following new paragraph:

"(3) For purposes of all penalties and remedies established for violations of subsection (a)(1), the prohibited activity established herein as it applies to each such device shall be deemed a separate violation.".

SEC. 17. STUDIES.

(a) STUDY OF VIDEO PROGRAMMING DIVERSITY AND COMPETITION.—

(1) COMMISSION STUDY.—The Commission shall conduct a review and study to determine whether it is necessary or appropriate in the public interest to prohibit or constrain acts and practices that may unreasonably restrict diversity and competition in the market for video programming. In conducting such review and study, the Commission shall consider the necessity and appropriateness of—

(A) imposing limitations on the degree to which multichannel video programming distributors may engage in the creation or production of such programming; and

(B) imposing limitations on the proportion of the market, at any stage in the distribution of video programming, which may be controlled by any multichannel video programming distributor or other person engaged in such distribution.

(2) REPORT.—Within one year after the date of enactment of this Act, the Commission shall submit a report on the review and study required by paragraph (1) to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate. Thereafter, the Commission shall continue to monitor (and summarize in the Commission's annual reports) the status of diversity and competition in the marketplace for video programming.

(3) PROCEEDING REQUIRED TO REVIEW DBS RESPONSIBILITIES.—The Federal Communications Commission shall, within 180 days after the date of enactment of this Act, initiate a rulemaking proceeding to impose, with respect to any direct broadcast satellite system that is not regulated as a common carrier under title II of the Communications Act of 1934, public interest or other requirements on direct broadcast satellite systems providing video programming. Any regulations prescribed pursuant to such rulemaking shall, at a minimum, apply the access to broadcast time requirement of section 312(a)(7) of the Communications Act of 1934 and the use of facilities requirements of section 315 of such Act to direct broadcast satellite systems providing video programming. Such proceeding also shall examine the opportunities that the establishment of such systems provide for the principle of localism under such Act, and the methods by which such principle may be served through technological and other developments in, or regulation of, such systems.

(4) PUBLIC SERVICE USE REQUIREMENTS.—(A) The Federal Communications Commission shall require, as a condition of any initial authorization, or renewal thereof, for a direct broadcast satellite service providing video programming, that the provider of such service reserve not less than 4 percent or more than 7 percent of the channel capacity of such service exclusively for noncommercial public service uses. A provider of such service may use any unused channel capacity designated pursuant to this paragraph until the use of such channel capacity is obtained, pursuant to a written agreement, for public service use. As used in this paragraph, the term "public service uses" includes—

(i) programming produced by public telecommunications entities, including programming furnished to such entities by independent production services;

(ii) programming produced by public or private educational institutions or entities for educational, instructional, or cultural purposes; and

(iii) programming produced by any entity to serve the disparate needs of specific communities of interest, including linguistically distinct groups, minority and ethnic groups, and other groups.

(B) There is established a study panel which shall be comprised of a representative of the Corporation for Public Broadcasting, the National Telecommunications and Information Administration, and the Office of Technology Assessment selected by the head of each such entity. Such study panel shall within 2 years after the date of enactment of this Act, submit a report to the Congress containing recommendations on—

(i) methods and strategies for promoting the development of programming for transmission over the public use channels reserved pursuant to subparagraph (A);

(ii) methods and criteria for selecting programming for such channels that avoids conflicts of interest and the exercise of editorial control by the direct broadcast satellite service provider; and

(iii) identifying existing and potential sources of funding for administrative and production costs for such public use programming.

(5) DEFINITION.—As used herein, the term "'direct broadcast satellite systems" includes (A) satellite systems licensed under Part 100 of the Federal Communications Commission's rules, and (B) high power Kuband fixed service satellite systems providing video service directly to the home and licensed under Part 25 of the Federal Communications Commission's rules.

(b) STUDY OF PROGRAMMING MARKET.—On or before January 1, 1995, the Commission shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report concerning the effects of exclusive licensing arrangements for video programming on competition between classes of multichannel video system operators. The Commission shall evaluate whether grantors or holders of exclusive licensing arrangements for video programming discriminate against classes of multichannel video system operators in a manner that deprives the public of access to diverse sources of programming. Such report shall include such recommendations for legislation as the Commission deems appropriate.

(c) STUDY OF THE FUTURE OF THE UNITED STATES VIDEO MARKETPLACE.—

(1) STUDY REQUIRED.—Not later than one year after the date of the enactment of this Act, the Commission shall submit to the Congress a report regarding the status, direction, and future of the video marketplace in the United States. Such report shall identify and address the principal financial, competitive, consumer, and other factors that are influencing, and will continue to influence, the development of the video marketplace for the remainder of this century. The Commission shall conduct such study in conjunction with an inquiry that elicits the views of the participants in the video marketplace and interested members of the public.

(2) SUBJECTS OF STUDY.—Among the issues to be reported upon, and upon which the Commission shall, if necessary, make recommendations for legislation, are the following—

(A) the promotion of full and fair competition among all participants in the video marketplace, including particularly the roles of terrestrial broadcasting, cable television, and other multichannel video services;

(B) the preservation of local news, public affairs, and other types of public service programming for the video audience;

(C) the availability of universal service with a broad range of news, sports, and entertainment programming (both local and national); and

(D) the extent to which interlocking relationships among participants in the video marketplace may affect the nature, quality, or competitiveness of such participants in the video marketplace.

(d) PROCEEDING WITH RESPECT TO AREAS RECEIVING POOR OVER-THE-AIR SIGNALS.—The Federal Communications Commission shall initiate an inquiry and rulemaking to examine the feasibility of providing access to network and independent broadcasting station signals to persons who subscribe to direct broadcast satellite service and are unable to receive such signals (of grade B quality) over the air from a local licensee, or from a cable system. In undertaking such rulemaking, the Commission shall take into consideration pertinent economic and technological factors, including the following:

(1) the extent to which individuals in rural, underserved areas are unable to receive broadcast television transmission; and

(2) potential ways in which operators of satellite-delivered programming services or the manufacturers or distributors of receiving equipment might enhance the ability of such persons to receive and readily access additional video distribution, including without limitation, an electronic switching capability as a minimum feature on satellite television receiving equipment.

(e) STUDY OF LOW-POWER TELEVISION.—

(1) STUDY REQUIRED.—Within 12 months after enactment of this Act, the Federal Communications Commission shall prepare and submit to the Congress a report on whether, and under what conditions, low power television stations (as defined in section 74.701(f) of title 47, Code of Federal Regulations, or any successor regulations thereto) which provide local origination programming should be entitled to carriage on cable systems whose service area encompasses the service area to which a low power television station is licensed.

(2) PUBLIC COMMENT; FACTORS FOR CONSIDERATION.—In preparing its report, the Commission shall provide an opportunity for public comment and take into account—

(A) whether and how many low power television stations provide local program services which serve the public interest, convenience and necessity;

(B) the status of low power television as a secondary service;

(C) the impact of carriage of low power television stations on the availability of channels for future communications needs;

(D) the burden on cable systems of carriage of low power television stations, the propriety of imposing such a burden, and any technical considerations relating to providing carriage limited only to the low power television station's community of license; and

(E) the extent of the burden presently imposed upon low power television stations as a result of charges for carriage imposed on stations by cable systems.

SEC. 18. EFFECTIVE DATE.

Except where otherwise expressly provided, the provisions of this Act and the amendments made thereby shall take effect 60 days after the enactment of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. RINALDO. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. MARKEY] will be recognized for 20 minutes, and the gentleman from New Jersey [Mr. RINALDO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. MARKEY].

Mr. MARKEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of this piece of legislation which is the product of a bipartisan effort undertaken

over the last 2 years in the Telecommunications and Finance Subcommittee, and the Committee on Energy and Commerce, at the insistence of the consuming public, cities and towns, and of competitors in this marketplace.

Over the last 2 years, in a long series of hearings, we have been able to elicit, I think, the concepts, the ideas that will substantially protect consumers and at the same time advance competition in this very important area of American life.

Mr. Speaker, let me begin by telling the Members that this landmark piece of legislation makes strides for American consumers in several important ways. First, in section 3, the bill creates a cost-based regulated tier of over-the-air broadcast channels and public educational and governmental access channels. Second, in section 3, the bill provides a regime for preventing unreasonable or abusive rates for the range of advertiser-supported channels and empowers affected local and State agencies to file complaints with the FCC to enforce the rate strictures, and, third, in sections 8 and 9, the bill contains specific provisions to promote competition in the marketplace for video services.

For example, in section 8(a), it facilitates companies that compete with cable operators to gain access to programming, and in section 8(b), it prevents certain types of discrimination and other practices by cable operators against programmers.

Significantly, this provision establishes new FCC remedies for conduct that violates standards which have been carefully crafted to deal with particular sorts of problems and circumstances in the video marketplace. These standards are not a replication of existing antitrust standards.

The legislation includes several other consumer safeguard measures. It guarantees national regulatory standards for the cost of the equipment that consumers need to receive cable programming. It enables both Federal and local authorities to establish meaningful customer service standards. It contains long awaited must-carry and channel positioning language needed to preserve our Nation's unique heritage of high-quality and ubiquitous over-the-air broadcasting.

It calls for an FCC evaluation of EEO performance in the broadcast industry, and it mandates several important studies of the nature and direction of present and likely future developments in the video marketplace with a view toward anticipating critical issues as we are moving toward the 21st century.

□ 1420

There are two matters that I would like to clarify. First, the portion of the committee's report on section 8(a) of the bill inadvertently does not accurately reflect language agreed to by Mr. RINALDO and me at the subcommittee's markup. The language should state that,

> It would be significant if a pattern developed whereby cable operators obtained or a video program vendor granted exclusivity foreclosing one or more other technologies from effectively competing with cable.

The second clarification concerns the portion of the report on section 8(b) of the bill with respect to how the committee intends the term "coercing" to be construed. I wish to make clear that the committee does not intend for the statutory provisions to interfere with fair but hard bargaining between multichannel video system operators and video programming vendors.

This legislation is the product of the combined efforts of many members of the Committee on Energy and Commerce and the Subcommittee on Telecommunications and Finance.

In particular, I would like to thank the chairman of the full committee, JOHN DINGELL, for his wise and active involvement and support in the drafting of this legislation. He made a commitment to legislating in this area, feeling that it was critical to protect consumers and to advance competition, and I think this bill accomplishes the goals which he laid out for our committee.

In addition, as usual, I want to thank the ranking member of the subcommittee, Mr. MATT RINALDO. He and I have worked cooperatively over the last year in trying to frame these issues and ensure that they could be worked out in a bipartisan fashion, and the product out here on the floor more than anything reflects the leadership of the gentleman from New Jersey in ensuring that we could deal with these issues in a nonideologically, pragmatic way, and it is a tribute to him that we have this bill to present to the floor today, because without his ability and a commitment to working in this type of fashion this issue could have been highly contentious and fractious, and could have consumed an entire week of the House's attention because of the nature of the issues involved.

In addition, I also want to commend my colleagues, including the gentleman from Louisiana [Mr. TAUZIN], the gentleman from Tennessee [Mr. COOPER], the gentleman from Virginia [Mr. BOUCHER], the gentleman from Oklahoma [Mr. SYNAR], the gentleman from Ohio [Mr. ECKART], the gentleman from Washington [Mr. SWIFT], the gentleman from Texas [Mr. BRYANT], the gentleman from New Mexico [Mr. RICHARDSON], the gentlewoman from Illinois [Mrs. COLLINS], the gentleman from Kansas [Mr. SLATTERY], the gentleman from California [Mr. WAXMAN], and the gentleman from Pennsylvania [Mr. WALGREN] for their leadership on these important public policy issues. I could spend 5 minutes on each one of these Members in eye-watering detail explaining the major contributions which they have made to the crafting of this legislation. But just let me let it go with the fact that without them we would not be here today, and I would just like to compliment each and every one of them and their staffs.

Finally, this legislation would not have been possible without the significant contributions of the National Cable Television Association, the Consumer Federation of America, the National Association of Broadcasters, the Community Antenna Television Association, the National League of Cities, the National Conference of Mayors, the National Association of Public Television Stations, the Association of Independent Television Stations, the Motion Picture Association of America, the Satellite Broadcasting Communications Association, and numerous public interest groups. The willingness of these parties to discuss deal fairly, and compromise paved the way for meaningful progress on this legislation.

H.R. 5267 addresses real problems in a surgical and balanced manner. It will provide strong protection for consumers, ignite vigorous competition in the video marketplace, and promote the public interest in securing diversity in video programming under fair and effective conditions. I urge my colleagues to give their full support to this bill. And I will do all within my power to secure President Bush's signature on this critical bill before the year's end.

Mr. Speaker, I reserve the balance of my time.

Mr. RINALDO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, sensible cable legislation is something that few people thought would come out of the House this year. But today we're going to beat the odds.

The Energy and Commerce Committee has developed a well-crafted, bipartisan bill which will solve the most pressing problems with the cable industry faced by cable subscribers and cable competitors. This bill was approved unanimously both in subcommittee and in the full committee.

The bill before the House today will correct the problems with rates and customer service that have been the target of numerous consumer complaints, with solutions that will provide immediate benefits to consumers and competitors.

Let me say a few words about why Chairman DINGELL, Chairman MARKEY, and I joined together to write this bill, and why it's so necessary.

Some people call this bill reregulatory. Others say that it doesn't go far enough because it doesn't substitute competition for regulation.

Both of those arguments are completely wrong.

This bill provides important and necessary adjustments to the existing regulatory structure of the Cable Act. The bill will significantly change the way the cable industry is regulated in order to benefit consumers.

The legislation imposes comprehensive must-carry rules to require cable carriage of local broadcast stations. This provision, which Members have overwhelmingly supported for years, reflects agreements among the broadcasting and cable industries.

The bill reimposes rate regulation of a broadcast basic tier, which is similar to the regulatory situation that existed before the Cable Act. The bill also gives the FCC authority to go after bad actors that charge unreasonable or excessive rates for basic cable services.

This regulatory regime will ensure that consumers who want nothing more than broadcast stations will get them at a reasonable price. It also removes the ability of cable operators to piggyback the sales of their services by forcing consumers to buy them in order to receive popular local broadcast TV stations. This fact alone should reduce rates and provide consumers a greater choice to pay only for the services they want, and not be forced to pay for lots of channels they don't want, to get the ones they do.

Finally, we have given the FCC more authority than they had even before the Cable Act to crack down on unreasonable cable rates and to ensure that cable systems provide friendly, courteous customer service without usurping the role local governments play in regulating the cable industry.

This bill also is an important victory for all cable competitors, whether those competitors are large DBS partnerships or local wireless cable systems.

Competition won't develop naturally without fair access to programming in a free marketplace. That's why this bill gives cable competitors the ability to bargain in a free program market through limited regulation targeted specifically to remove any unfair leverage which cable operators have over programmers.

These provisions will make it possible for programmers to bargain with whatever video outlets they choose. It also will preserve programmers' ability to make exclusive distribution arrangements with any particular distributor—or refuse to make any exclusive distribution arrangements if they choose.

It is regulation designed to remove market imbalances and make sure a free programming market can develop.

Most Members, particularly republican Members, prefer competitive solutions to regulatory ones. In fact, we are solving problems in a manner that benefits competitors as much as possible—whether it's broadcasters, wireless cable, C-band satellites, or DBS

While it may justifiably be argued that a purely competitive solution may be preferable in the long run, that won't help cable subscribers in the short run. So the committee's work is designed to solve the short-term problems with the cable industry in a manner that has the greatest long-term benefits for consumers and competition.

The legislation before the House today is a pragmatic, practical, doable approach, which I support wholeheartedly, and urge Members on both sides of the aisle to do the same.

I want to thank the full committee chairman, Mr. DINGELL, and the subcommittee chairman, Mr. MARKEY, for the bipartisan spirit in which they have worked with me, and with the minority, on this legislation. It has been a difficult process sometimes. But the result is good legislation which we all can recommend to the House both as effective protection for cable subscribers and an effect spur to cable competition.

□ 1430

In closing, let me just say a word or two about the gentleman from Massachusetts [Mr. MARKEY], because I want to acknowledge his willingness, his hard work, his dedication, and his desire to make this legislation truly reflect a consensus among all committee members.

That was an extremely difficult task, and I want him to know how much we in the minority appreciate the bipartisan spirit in which we joined in order to enact a very, very difficult bill.

So once again, Mr. Speaker, this is legislation that I hope everyone will support.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The gentleman from Massachusetts [Mr. MARKEY] has 12 minutes remaining.

Mr. MARKEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Louisiana [Mr. TAUZIN] who, throughout the course of the entire deliberation focusing upon the satellite issue, that is, the assurance that there would be new competition entered into the marketplace, but also on the whole question of could we bring together all of the various parties who were seemingly at irreconcilable loggerheads on this issue, Mr. TAUZIN dedicated himself to the reconciliation of those issues and in fact played a major role in insuring this piece of legislation would move forward.

Mr. TAUZIN. Mr. Speaker, I want to thank the chairman. I particularly want to thank the chairman of our subcommittee, the gentleman from Massachusetts [Mr. MARKEY] for the incredible work he has done in bringing these forces together to resolve some very, very difficult issues.

As peaceful as this debate may seem, let me assure the Members of this body there are some awfully controversial issues settled here today, and because of the incredibly successful strategy of the chairman working with the minority, Mr. RINALDO and several others, we were able to bring those awfully controversial issues to the surface.

The chairman's strategy was to force each side to look at the other's point of view and to try to reconcile them. As a result, we brought forth a bill that is good for the consumers and at the same time will foster, I think, an invigorated area of competition in the services for the industry and for America.

The bill is not so heavily weighed on one side or the other as to be identified as a reregulation bill. It contains elements of regulation to insure that the worst practices of the bad violators in the cable industry, who are raising rates inordinately and who are affecting the tiers of programs in a way that cause consumers to complain vigorously, so vigorously, to Congress, are dealth with.

It also assures the basic cable tier, people who do not want all of these exotic programs on cable that cable has so marvelously brought to the American marketplace, but simply want the must carry signals and the news services. This bill provides for that for Americans.

Finally, this really addresses the issue of competition. More than anything else, I think this area, this cable industry area, video service area is begging for vigorous competition. In no other place can the consumer eventually find the full satisfaction of protection in the marketplace than when there is more than one store to shop in.

When services in video are delivered not simply by wire but through the air, through the advances in satellite technology and eventually the new KU-band satellites that will deliver services on a dish no bigger than the size of a table napkin.

When those things are possible under this bill, the full-blown effects of competition will be realized, and I think the consumers in America will greatly benefit. Competition will continue to yield new programming formats, new program ideas, new menus for America to choose from, and yet prices and terms will be much more acceptable to the American consumer as a result of this compromise bill.

I particularly want to commend all the work done, and I particularly want to commend all the staff, the minority staff working with the majority staff, and the staffs of JOHN DINGELL's full committee who worked so diligently with us to bring people together so that they might come to compromise.

One final thought, AL GORE and I have been working for a long time on a thing called the Satellite Viewer's Protection Rights Act, an act designed in fact to yield competition to this area of the marketplace to make sure the consumers who are dissatisfied with their cable have another way to go, who could in fact receive the same menu of programming, at fair pricing, on a satellite dish that they may have in their homes.

As that technology improves, more Americans are going to have that option. This bill, in fact, incorporates all the provisions of the bill that Senator GORE and I pushed for so many years, to guarantee that menu availability to Americans and that choice for Americans.

Again I want to commend the chairman, the staff and all those who played a part in fashioning this compromise. It is a solid bill, it is good for the consumer. At the same time, it is not so oppressive in the marketplace as to discourage ingenuity, inventiveness, which has been the hallmark of the cable industry.

The cable industry has done great things for this country in terms of bringing new programs for us. We want to make sure that that continues.

This bill does that, and at the same time it affords new consumers protections that the industry sorely needed.

Again I want to commend the chairman for this bill, and I urge Members of the House to adopt it.

Mr. MARKEY. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. ECKART], who played a vital role in helping to construct this coalition which makes it possible for us to present this historic piece of legislation to the House today.

Mr. ECKART. Mr. Speaker, I thank my chairman. I congratulate both the Chair and the ranking Republican for the work that the committee and subcommittee have done to bring this piece of legislation here today. There is no doubt in any of our minds, as we have stated in other circumstances and at other times,. that if we had written this bill ourselves, it would not have looked like this.

The simple fact of the matter remains, however, that the Nation has enjoyed the tremendous benefits and opportunities in the entertainment arena from the burgeoning cable television industry.

But with their expansion and opportunities came more difficulties in some respects for consumers. The ultimate effect of the legislation adopted some years ago was that you had an unregulated monopoly. With that, quality of service freqently goes down while prices go up.

As my colleagues from Louisiana state so eloquently before me, the opportunity now to correct the errors of a run-amok deregulation is now presented to this Congress. That is what this bill does. It restores opportunities to local government to have a say in the cable television process. It gives them the rights and will set the standards nationally by which local governments can be involved in the mechanism by which they grant franchises and in forcing those franchisees to live up to the terms of their agreements.

Most importantly, as we go through the interrugnum between some regulation and new technologies that my colleague from Louisiana referred to, it is an opportunity for real competition to take place. No, not just the simple competition of direct over-the-air broadcasts, but the kind of direct competition from satellite, so-called wireless cable, and opportunities for folks in rural communities to know that they too can share in the wealth of entertainment that exists in the marketplace.

There have indeed been many opportunities that consumers have enjoyed from the cable industry. We know that in our own House, the Discovery Channel is a wonderful opportunity for my son, and indeed his mom and dad, to learn more about the world. But we also have seen prices rise. We have seen the quality of service decline.

This legislation restores the abilities of local government and the rights of consumers to be a more willing and meaningful partner in the cable television process. This bill should be adopted.

Mr. RINALDO. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. SCHULZE].

Mr. SCHULZE. Mr. Speaker, I want to commend my colleagues on the Energy and Commerce Committee who have worked long and hard on this legislation. However, I am very concerned with language in the bill regarding the so-called must carry provisions.

I am troubled by the special treatment afforded to one company under an amendment adopted in committee which creates a specialty format station status. The amendment was designed to grant special status for minority oriented and foreign language broadcast stations, which I applaud.

As drafted, the amendment appears to grant special treatment to one particular company, the Home Shopping Network, granting them the same must carry status as minority oriented and foreign language stations.

In legislation titled the Cable Television Consumer Protection and Competition Act, we in Congress should not establish a special exemption for one company to the disadvantage of its competitors. Legislation that bestows must carry rights on only one of the three major competitors in the televised home shopping field, while denying equal rights to the other two competitors, is grossly inequitable and not in the public interest.

I believe this discriminatory situation in the televised home shopping industry must be corrected in conference with the Senate and I would be happy to work with my colleagues to correct this inequity.

□ 1430

Mr. RINALDO. Mr. Speaker, I yield 3 minutes to the gentleman from Colorado [Mr. SCHAEFER].

Mr. SCHAEFER. Mr. Speaker, at the outset, I would like to commend Chairman DINGELL and Mr. LENT of the full committee and Chairman MARKEY and Mr. RINALDO of the subcommittee for taking a tempered and responsible approach to this rhetorically charged issue.

Mr. Speaker, the legislation before us has a noble intent. In the name of the American consumer, we are taking aim at those in the cable industry which have taken advantage of deregulation by charging unreasonable rates and providing poor customer service. Each of us, from the ratepayer to the vast majority of responsible cable operators, heartily supports ridding the industry of these so-called bad actors.

But before congratulating ourselves, we should first understand the full extent of our actions. For the penalties of reregulation imposed by this legislation go beyond the renegades of the cable industry. Over the district work period, I had the opportunity to meet with a number of representatives from cable systems in and around my district, like Columbine Cablevision in Fort Collins, CO, which offers 36 channels of programming for less than 50 cents per day, like United Artists Cable in Englewood which has wired 225 schools in the Denver area at no cost, and Jones Intercable in Englewood which already more than complies with the aggressive customer service standards contained in the legislation. They too, despite their actions, will be subject to reregulation under this bill.

As the GAO reported, an examination of the industry as a whole shows that responsible cable operators like those I mentioned are by far the norm. Consider that last year the average customer's cable bill rose $1.42. Broken down further, this means the typical subscriber paid 2 cents more per channel than he or she did at the beginning of 1989. Yet many quote the GAO report as documenting the need for reregulation.

I will not oppose the legislation today despite my fears that it exceeds the justified level of fine tuning which the Cable Act requires. I agree that

cable is now a mature industry which must exercise its freedoms responsibly. But it is clearly not in the public interest to reshackle this important source of information and entertainment with government regulation, discouraging reinvestment and responsiveness. Nothing less than the intent of the original Cable Act—to provide greater quality and diversity of television programming—is at stake.

Again, I commend the respective chairmen and ranking minority members for using restraint when the rhetoric surrounding this issue demanded otherwise. I look forward to working with them in ensuring that should legislation continue to proceed through the Congress, that our actions be governed by a similar sense of reason, And I urge my colleagues to remember that in our efforts to remove the few bad apples from the cable industry that we not do so at the expense of the entire tree.

Again, I certainly want to commend the chairmen, particularly the gentleman from Massachusetts [Mr. MARKEY] and the gentleman from New Jersey [Mr. RINALDO], for working so hard on this very difficult subject that so many people were so far apart on at the beginning. I look forward to working with the gentlemen so this legislation can continue on through the process. I would like to thank them for all their efforts.

Mr. MARKEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Tennessee [Mr. FORD].

Mr. FORD of Tennessee. Mr. Speaker, I would like to commend the chairman, the gentleman from Massachusetts [Mr. MARKEY] and other members of his subcommittee, as well as the full committee, for reporting this bill to the House floor today.

Mr. Speaker, I would like to engage in a colloquy with the chairman, my good friend from Massachusetts [Mr. MARKEY], if he would be willing to do so.

Mr. MARKEY. If the gentleman will yield, I would be more than glad to.

Mr. FORD of Tennessee. Mr. Speaker, I am concerned that the nondiscrimination provisions in H.R. 5267 may not guarantee access to cable for all programmers, and that this lack of access will result in higher prices for cable consumers. Nonetheless, I am willing to support this bill, but will this issue be revisited if discrimination in programming persists after this legislation is enacted and signed into law?

Mr. MARKEY. Mr. Speaker, if the gentleman will yield, I thank him for engaging in this colloquy, because as the gentleman knows, our bill allows exclusive arrangements between cable companies and programmers as long as they do not significantly impede competition. I believe this provision will help encourage competition, but the subcommittee will continue to monitor the competition in the video marketplace. If the situation merits, we will certainly reexamine the issue.

Mr. FORD of Tennessee. I have one more concern dealing with entry of the telephone companies into the cable market. As I understand it, there is no telephone provision in H.R. 5267, but you will be holding hearings next year to examine this issue. I want to encourage you to hold these hearings as soon as possible, and I want to compliment you on your work once again, and the committee's work for reporting this bill to the House floor.

Mr. MARKEY. Mr. Speaker, I thank the gentleman for his concern. It is going to be a very high priority in the next session. We will do it as part of a unified debate that looks at information services from top to bottom that the telephone industry may engage in, and it is our full intention to revisit that issue next year.

Mr. RINALDO. Mr. Speaker, I would like to engage in a colloquy with the chairman of the subcommittee, the gentleman from Massachusetts [Mr. MARKEY].

Mr. Speaker, section 5 of the bill dealing with carriage of qualified local television stations provides new FCC remedies. It is my understanding that these new remedies are not intended in any way to deprive Federal or State enforcement authorities, consumers, or other private parties of any rights or remedies which they may otherwise have under Federal or State laws safeguarding competition or consumer interests.

Mr. MARKEY. Mr. Speaker, if the gentleman will yield, the gentleman's understanding is correct.

FCC remedies created under section 5 of the bill are not intended in any way to limit any rights or remedies otherwise available under Federal or State laws safeguarding competition or consumer interests.

Mr. RINALDO. Mr. Speaker, I yield such time as he may consume, for purposes of colloquy with the chairman of the subcommittee, to the gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. Mr. Speaker, I want to thank the distinguished ranking member, the gentleman from New Jersey [Mr. RINALDO], for yielding, and for the cooperation of him and his staff.

I now ask the distinguished chairman of the subcommittee, the gentleman from Massachusetts [Mr. MARKEY] to please join in a colloquy. Since the beginning of the year when the syndex rule went into effect, I have sought to resolve this problem through various methods, considering a unique syndex problem adversely affecting a single region of Western Wisconsin. I introduced legislation, H.R. 4448, that I intended to offer as an amendment to the bill now before Members, until it became clear this bill was going to come up under the rule and calendar under which it is being considered.

The FCC rules were not intended to result in blackout or disconnection of the most local instate network broadcasts. One of the primary objectives of these communities' initial franchising requirements was to ensure that local broadcasts would be carried to the greatest extent possible over their cable systems.

Yet the law has resulted in the Prescott-to-Hudson corridor in Wisconsin losing broadcast channels with a strictly Wisconsin identity. Furthermore, the 4,000 homes hooked up to cable in these communities represent only 0.3 percent of the total households in the Twin Cities market. Granting a waiver of the new syndex rule would clearly not pose an economic hardship to the three Minneapolis broadcasters.

Mr. Speaker, I have tried unsuccessfully in the past to resolve this matter with the FCC. Therefore, I would appreciate your personal attention in this matter by requesting the FCC to study this particular case and report back with recommendations to a solution within 30 days. In addition, I ask the committee to carefully consider an amendment I expect to be offered in the Senate, similar to my legislation, that would resolve this unique situation.

Mr. VISCLOSKY. Mr. Speaker, if the gentleman will yield.

I share the concerns of the distinguished Member from Wisconsin.

Indiana's First Congressional District is adjacent to the greater Chicago metropolitan area. Due to the region's close proximity to Chicago, all major television stations are Chicago-based. Understandably, these stations provide predominantly Chicago and Illinois related news. Because very little information is broadcast about Indiana events, northwest Indiana residents have found themselves in an information void.

The advent of cable television had changed this situation for many northwest Indiana residents. When three South Bend stations were made available, via cable, they provided desperately needed news about Indiana.

However, the FCC syndex and network nonduplication rules have forced our cable providers to discontinue these Indiana stations. Once again, residents of northwest Indiana are without easy access to information that affects their everyday lives as residents of Indiana.

□ 1450

Mr. Speaker, I say to the chairman of the subcommittee, the gentleman from Massachusetts [Mr. MARKEY] that I do look forward to working with

him and with my colleague, the gentleman from Wisconsin [Mr. GUNDERSON], in addressing this important issue.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. GUNDERSON. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, I appreciate the remarks of the gentleman from Wisconsin [Mr. GUNDERSON] and the gentleman from Indiana [Mr. VISCLOSKY], and I want to assure them that the committee will make the request to the FCC, and that the committee will give full consideration to the anticipated Senate amendment.

Mr. GUNDERSON. Mr. Speaker, I appreciate the remarks of the chairman of the subcommittee.

Mr. RINALDO. Mr. Speaker, I yield 2 minutes to the gentleman from Connecticut [Mr. SHAYS].

Mr. SHAYS. Mr. Speaker, it has never ceased to amaze me that State governments gave cable franchises away without requiring anything in return for it, making instant millionaires out of cable operators.

But what amazed me even more was that Congress chose in 1984 to take what were clearly already regional monopolies and deregulate them, allowing them to change service and increase prices at will. And they clearly have done that since that time.

With deregulation, millionaires became multimillionaires, with cable consumers paying the bill. In fact, the Wall Street Journal noted that cable rates may currently be twice what they would be if operators faced true competition, meaning that cable customers may be overcharged $6 billion each year. But even if it were $1 billion, it would be $1 billion too much.

I would like to thank the chairman of the subcommittee, ED MARKEY, and also the ranking member, MATT RINALDO, for the fine work they have done in beginning to undo the mistake of 1984. I think this bill is a good step in the right direction. It provides for some regulation and encourages some competition as well.

It is my hope that in the years to come we will not need to further regulate, with the advent of more effective competition from satellite dishes, wireless cable and other services. The real impact of the bill will depend, however, on how the FCC implements it.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. SHAYS. I yield to the chairman of the subcommittee.

Mr. MARKEY. Mr. Speaker, I just wanted to comment that our committee is enormously indebted to the gentleman from Connecticut. He was amongst the earliest and most tireless workers on this subject. He testified twice before our subcommittee on the subject, and without question he has been one of the consciences of cable in this country over the last several years.

Mr. Speaker, I just wanted to publicly note that and compliment the gentleman for his good work.

Mr. SHAYS. Mr. Speaker, I thank the gentleman for his graciousness.

Mr. RINALDO. Mr. Speaker, I reserve the balance of my time.

Mr. MARKEY. Mr. Speaker, I yield 2 minutes to the gentleman from Washington [Mr. SWIFT].

Mr. SWIFT. Mr. Speaker, it is an old, old story in politics to say that when you are up to your waist in alligators, it is hard to remember that the original purpose was to drain the swamp.

This bill deals with a lot of important "alligators," and it does it well. I would like to commend both the chairman of the subcommittee and the ranking member of the subcommittee for making that possible and for drafting a bill which we can bring to the floor on suspension, which certainly tells all those listening, including those in the other body, that the House is very serious about doing something about cable legislation. But I would also like to note that there is contained in this—and this arrived with the cooperation of the chairman and of the ranking member—a swamp-draining provision as well.

Broadcasters under our system have a responsibility to serve the public. The question is, What will people using DBS have? We managed to let cable into the communications field without that responsibility, and this bill contains a provision which says that if you are going to go into the direct broadcast satellite business, you have, like terrestrial broadcasters, a responsibility to serve the public. It sets a percentage of the capacity that is devoted to that purpose.

This, I think, is terribly important. If in fact the communities of America are to be served with special interest programming, as well as that which will respond rather readily to the polls and to the measurements that are made of viewer listening, there has to be some programming that is not driven by those polls. This bill provides that, and I want to thank the chairman and the ranking member for enabling this provision to be possible.

Mr. Speaker, I urge all my colleagues to support this legislation as important both in terms of what it does with the alligators and what it does with regard to draining the swamp.

The SPEAKER pro tempore (Mr. MAZZOLI). The gentleman from New Jersey [Mr. RINALDO] has 4 minutes remaining, and the gentleman from Massachusetts [Mr. MARKEY] has 2 minutes remaining.

Mr. RINALDO. Mr. Speaker, I reserve the balance of my time.

Mr. MARKEY. Mr. Speaker, I yield 1½ minutes to the gentleman from Texas [Mr. BRYANT].

Mr. BRYANT. Mr. Speaker, I want to commend my chairman, the gentleman from Massachusetts [Mr. MARKEY], who has once again wrestled to the ground four or five gorillas at once and forged the competing interests and goals of this institution into a very workable and useful bill, clearly the best bill that could have been put together under the circumstances, the Cable Television Consumer Protection and Competition Act, which is now on the floor.

I also want to say a strong word of thanks to the gentleman from New Jersey [Mr. RINALDO], the ranking minority member, for his leadership as well, which has been constructive from beginning to end. I am particularly gratified to both of them for having allowed a resolution in this bill of the must carry and channeling position provisions which I have spent some time working on over the last several years. That, I think, is a very constructive part of this bill, and I commend it to the Members as they examine how to vote.

I have been a vocal critic, as many here have, of some of the ways in which the cable industry has used its monopoly power to control 45 million cable subscribers' access to over-the-air broadcast, and today in order to rectify the situation we are about to pass out of the House a sound and workable carriage requirement within this bill that would enable all local over-the-air broadcast signals to be carried on cable's basic tier and to be carried in a channel position the same as that used over the air.

I am pleased that the competing organizations of various broadcast groups were able to get together on this and to make it a part of the bill. I think this is a significant contribution to the public interest.

I would also like to comment that I have a continued interest in developing additional broadcast networks as an economic base for local stations. This public interest position may be a bit at odds with this bill's basic tier provisions with respect to emerging network coverage. I would, however, express my interest in enabling cable viewers in every corner of our Nation to receive both existing and emerging broadcast network programming in the most economic manner as part of the basic tier offerings.

Mr. Speaker, I hope we can continue to pursue this in committee and perhaps in the conference committee as well.

Mr. RINALDO. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. BRUCE], a member of the committee.

Mr. BRUCE. Mr. Speaker, I thank the ranking member for yielding this 1 minute to me.

Mr. Speaker, I want to express my appreciation to you, Mr. MARKEY, to the full committee chairman, and to the ranking members of your panels for bringing this legislation to the floor. Your efforts to move this bill quickly through the committee process while facing disagreements on a number of issues are admirable.

If the Federal Communications Commission vigorously enforces all of the provisions of this legislation, particularly those governing prior rate abuses and restricting retiering of prices to avoid compliance with this act, it will be successful in protecting consumers from the most abusive cable rates. However, the Energy and Commerce Committee must maintain its longstanding record of vigorous oversight to ensure that the FCC follows the will of the Congress.

I retain concerns that we are not doing enough to spur competition in the cable industry, and appreciate the commitment from Mr. MARKEY that his subcommittee will consider those concerns next year. I also appreciate the efforts of Mr. COOPER, Mr. TAUZIN, Mr. BOUCHER, Mr. MADIGAN, and a number of others who have worked to ensure that the Cable Television Consumers Protection and Competition Act lives up to its name. I look forward to working in the committee next year to improve competition for the cable industry.

□ 1500

Mr. RINALDO. Mr. Speaker, I yield 1 minute to the gentleman from Maryland [Mr. MCMILLEN], a member of the committee.

Mr. MCMILLEN of Maryland. Mr. Speaker, today I rise in support of H.R. 5267. The Cable Television Consumer Protection and Competition Act of 1990 would charge the Federal Communications Commission [FCC] with ensuring fair competition, reasonable cable subscriber rates, and the promotion of a diversity of views on our Nation's cable systems.

These are all laudable goals. Goals which I support. Therefore, I support H.R. 5267 although I am concerned that the bill does not address several important matters.

One of these is the issue of developing a fiber optics network to the home. Both the Japanese and the West Germans plan to have implemented a door-to-door fiber optics system by the middle of this decade. I continue to believe that if we are to compete effectively with the rest of the world, a door-to-door fiber optics network is a necessity.

With the passage of H.R. 5267 we achieved a necessary short-term solution to the problems of the cable industry. However, we need to address the long-term problems of developing an efficient door-to-door fiber optics system.

Mr. Speaker, I want to commend you for your efforts in moving cable legislation forward. It has been a difficult process, but as always you have handled the assignment in a fair and a professional manner. I urge support for passage of H.R. 5267.

Mr. RINALDO. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts [Mr. MARKEY], the chairman of the subcommittee.

Mr. MARKEY. Mr. Speaker, I thank the gentleman from New Jersey for yielding this time to me.

In concluding this debate, what I would like to do is to say that as good a job as the JOHN BRYANTS, the TERRY BRUCES, the AL SWIFTS, and the TOM MCMILLENS did on this job, it was matched by the quality of the staff work on this legislation.

I would like at this time to thank David Leach from the full committee, and Terry Haines from the minority for their work, Steve Cope who is legislative counsel for his patience and for his expertise in draftsmanship; but also individual staff members, Scott Cooper from the office of the gentleman from Washington [Mr. SWIFT]; Dan Tate, from the office of the gentleman from Louisiana [Mr. TAUZIN]; David Zesiger, from the office of the gentleman from Ohio [Mr. ECKART]; Larry Clinten, from the office of the gentleman from Virginia [Mr. BOUCHER]; Sara Matthews, from the office of the gentlewoman from Illinois [Mrs. COLLINS]; Kim Koontz, from the office of the gentleman from Oklahoma [Mr. SYNAR]; Howard Bauleke, from the office of the gentleman from Kansas [Mr. SLATTERY]; Dirk Forrester, from the office of the gentleman from Tennessee [Mr. COOPER]; Barbara Crapa, from the office of the gentleman from Texas [Mr. BRYANT]; Pablo Collins, from the office of the gentleman from New Mexico [Mr. RICHARDSON]; and my own staff led by Staff Director Herb Brown, excellent work; Lisa Gurskey; Gerry Salemme; Sara Morris; John Kinney; Mark Risch; and especially Larry Irving, who is our chief for the mass media counsel, who has worked on this bill tirelessly for the last 1½ years. This legislation is as much a tribute to him as it is to any Member of the House of Representatives.

Mr. Speaker, with the thanks I have as usual to the gentleman for his good work, I will conclude.

Mr. RINALDO. Mr. Speaker, I yield myself the final minute.

Mr. Speaker, I want to take this opportunity once again to thank the gentleman from Massachusetts [Mr. MARKEY] in particular, and also to commend the staff, but because we spoke about bipartisanship earlier when we spoke about a consensus, when we spoke about working together, I think that is epitomized not only in the work of all the Members who were mentioned here today on both sides of the aisle, but also on the staffs of both the majority and the minority.

I want to join Chairman MARKEY in commending the staff who worked so well together under the direction of Herb Brown on the majority side, and Margaret Durbin on our side. They did a yeoman's job. They cooperated. They discussed some very, very tough problems and were able to work them out.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. RINALDO. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, I thank the gentleman for yielding to me.

I just would like to note, because it was an oversight but not an insignificant one, which is that Jack Clough, who is staff director for the full committee under the gentleman from Michigan [Mr. DINGELL], was absolutely instrumental at each critical juncture in insuring that this package could be put together, and I think it should be noted publicly.

Mr. RINALDO. Mr. Speaker, let me just say that I completely agree with the gentleman, because without that kind of cooperation we would not have the bill here today.

Mr. MARKEY. Mr. Speaker, I thank the gentleman.

Mr. WELDON. Mr. Speaker, I would like to commend my colleagues, Chairman DINGELL, Chairman MARKEY, Mr. LENT, Mr. RINALDO, Mr. TAUZIN, and the others who have worked so hard to develop a piece of legislation that has as its goal a better environment for cable consumers.

I must point out a particular problem in this bill that I assume is an unintended consequence of fashioning the bill's must carry provisions. During the markup, an amendment was adopted that created a specialty format station status. This provision enabled certain types of broadcast stations to be exempted from the bill's viewership test in order to qualify for must carry status. The amendment, which was not a part of my colleague, Mr. TAUZIN's, successful effort to forge a broadcaster/cable operator compromise, was designed to bestow a special status on minority oriented and foreign language format stations. The goal is to promote diversity in programming.

However, as drafted, the amendment allows the Home Shopping Network [HSN] to receive the same special status accorded to minority oriented and foreign language stations. HSN is one of several satellite delivered cable shopping channels. However, it is the only cable shopping service that has also purchased broadcast licenses and has affiliation agreements with other broadcasters.

The fact that HSN goes out and buys up or signs up broadcasters in order to place their service in front of more people should not give them a special must carry status over

their competition. To give HSN the potential to receive must carry status while prohibiting competing shopping channels from being placed on the must carry tier is unfair not only to the other televised home shopping services, but to thousands of customers who rely on these services.

To give HSN a preferred status is incomprehensible. It will discourage diversity and localism by creating an incentive for struggling broadcasters to sell out to shopping services rather than offer diverse and local programming to the public. Further, it could force other shopping services to start buying up licenses.

In a time when the spectrum is so scarce that Congress has before it proposals to take spectrums reserved for government and military use and to make it available for commercial use, we should not, as a matter of policy, encourage the creation of a spectrum supermarket at the expense of diversity and localism.

Again, I commend the extraordinary efforts of my colleagues and hope that this must carry problem can be corrected.

Mr. LENT. Mr. Speaker, when President Reagan signed the 1984 Cable Act, Congress thought it had solved the problems which plagued the cable industry. We hoped we had encouraged real choices in programming and real competition to traditional television.

Those hopes came true faster and to a greater extent than we expected. Cable television has been one of the major growth industries of the 1980's. A great number of cable networks quickly became staples of the American TV diet, from CNN to MTV to ESPN—even to C–SPAN. Cable penetration jumped drastically: today, nearly 60 percent of American TV households are cable subscribers, and 85 percent can get cable if they want it.

Unfortunately, the Cable Act also has helped prove the law of unintended consequences. New problems sprang up in the wake of the new freedom granted to cable operators.

Within a few years after the Cable Act passed, the new kid on the block began to show some teeth. A few cable operators dropped some local TV stations. Other cable companies withheld programming from would-be competitors. Customer service quality has been uneven at best, and poor in many places.

In my district on Long island, the sole cable system simply refused to carry popular programming, including local pro sports teams, whether or not subscribers were willing to pay to see it. This decision blacked out coverage of New York Knicks basketball and New York Ranger hockey games, just as each team reached the playoffs. Hundreds of thousands of loyal fans could not watch their favorite teams because one man, operating a virtual monopoly, decided he did not want to make the games available.

I know how difficult it has been for many cable systems to keep up with the industry's explosive growth. But new market freedoms also carry responsibilities with them. The fact is that the cable industry hasn't shouldered those responsibilities as well as they should have.

In the worst cases, the industry's behavior provides classic examples of greed run amuck. On Long Island, everyone involved—the cable network, the cable system, and the teams—wrestled over profits.

All of them completely forgot about their obligation to the consumers who pay for the cable system, for the programming, and for the ticket when they go to the ball park.

The arguments in Long Island and elsewhere about cable began over programming costs and subscriber rates. These disputes quickly became consumer protection issues that started locally and ended up as a serious focus of congressional concern.

The simple question is whether every cable subscriber deserves access to a wide variety of programming, at reasonable rates, and with quick and courteous service. Our answer comes today in the legislation before the House.

This legislation is a serious effort to balance the scales and correct the unforeseen problems with the cable industry that have cropped up on a number of fronts. The bill will protect consumers from excessive rates and poor service, and enables competitors to compete for programming in a free market.

I strongly favor competitive solutions to market abuses in every industry. Adding regulatory burdens onto any industry should only be contemplated when there is no way that a competitive solution would immediately fix a problem, and only to the most limited extent possible. Whether or not cable systems are a natural monopoly, right now they are, in fact, the only outlet for multichannel programming available to the vast majority of Americans.

It looks like that will change in the near future. At last, full-fledged competition to cable will be coming from DBS, wireless cable, and a variety of other sources.

This legislation takes serious steps to make sure that all cable competitors can flourish to the greatest extent possible. But those new competitive systems won't be a true choice for most Americans for a few years. So the likelihood of increased competition to cable some time in the future will not solve any of our constituents' problems today. That is why the House is considering this legislation, and that is why I support it.

As long as cable retains its present monopoly status, limited regulation is the only solution to anticompetitive situations like the problems experienced by my constituents in Long Island.

We need to solve our constituents' immediate problems with limited regulatory reforms that ensure quality cable service, and not blindly rely on what may or may not happen in the next decade.

Our constituents do not want us to wait any longer to solve these problems, and I don't think we should. For that reason, I urge my colleagues to support H.R. 5267 as approved unanimously by the House Energy and Commerce Committee.

In closing, I want to thank the chairman of the full committee, the gentleman from Michigan [Mr. DINGELL] and the Telecommunications Subcommittee chairman, the gentleman from Massachusetts [Mr. MARKEY] for their willingness to make this legislation truly reflect a consensus among all committee members. I particularly want to commend the ranking Republican member of the Telecommunications Subcommittee, the gentleman from New Jersey [Mr. RINALDO], for the important role he played in making sure this bill accomplishes its goals without overregulating the cable industry. The result is a bipartisan bill which applies limited regulatory solutions to better achieve a free and competitive video marketplace.

I urge all members to support H.R. 5267.

Mr. MCGRATH. Mr. Speaker, I rise today in strong support of H.R. 5267, the Cable Television Consumer Protection and Competition Act.

Since the cable television industry was deregulated in 1984, subscription rates, along with consumer complaints, have skyrocketed. Once advertised as a minimal fee, cable rates now rival electric and gas bills as monthly payments for home dwellers. Subscribers in my district now pay $19.95 a month for basic cable service.

H.R. 5267 is a bill designed to restore reasonable statutes to the cable television industry. The bill requires cable systems to offer a low-cost tier of local broadcast, public television and cable-access channels, with the Federal Communications Commission [FCC] to decide on maximum rates for such a tier. The legislation also allows State and local authorities to challenge cable rates deemed unreasonable or abusive by the FCC for programming like ESPN or MTV.

Cable customers have been held hostage by the industry long enough. I was hopeful that the Congress would pass a bill that would also allow for competition; however, this legislation is an important first step in ensuring better service for cable television consumers. I urge my colleagues to support H.R. 5267 and help bring stability back to cable television.

Mr. SLATTERY. Mr. Speaker, I rise in support of H.R. 5267, the Cable Television Consumer Protection Competition Act of 1990.

This legislation would require the Federal Communications Commission to cap prices for a basic tier of cable programming, which would include local broadcasts and public access channels.

The FCC also would be required to regulate renegade cable operators that excessively raise rates for other programming. Complaints about abusive rate increases would have to be filed by State or local governments.

To discourage monopolistic practices in the industry, the legislation would prohibit cable programmers with financial ties to cable operators from unreasonably refusing to deal with competitors, such as the home satellite dish industry, wireless cable and direct satellite broadcasts. This provision would remain in effect for 9 years, or until the FCC determined that the cable market was competitive.

Cable companies would be allowed to enter into exclusive agreements with video programmers as long as doing so would not significantly impede competition.

I believe that all of these provisions will protect the interests of cable consumers in those communities which have suffered as the result of cable deregulation. This measure strikes an appropriate balance between the need to maintain regulation in areas of the marketplace where competition does not exist and

the importance of preserving free market incentives for the development of new programming and delivery services.

Unfortunately, the Energy and Commerce Committee did not vote on a proposal to allow telephone companies to enter the cable television business by carrying affiliated video programming over fiber optic telephone lines.

I believe that with strong and effective regulation, small, non-Bell telephone companies could bring additional competition to the video programming marketplace by providing a video dial tone for programmers and a small amount of affiliated programming. I oppose allowing telephone company entry into the local broadcasting business.

This legislation also includes an amendment I authored mandating an FCC study of whether low-power television stations should be granted mandatory carriage by local cable systems.

Low-power television stations that originate programming often provide the only local television service to small communities and to minority, ethnic and specialized interest groups.

People who have nowhere else to turn for television programming direct toward their own local concerns should not be denied access to low-power stations that address those concerns because cable TV systems refuse to carry the signals. I recognize that these low-power stations should not be carried on cable systems beyond their broadcast service areas. We should encourage the development of these low-power stations.

I would have liked to see this legislation include limited carriage requirements for low-power stations that have made a significant commitment to local programming and to meeting public service requirements imposed upon full power broadcasters. It is unfortunate that the bill before us today, on the other hand, allows mandatory carriage for certain Home Shopping channels that do not meet the generally applicable viewership standards for carriage.

My amendment directs the FCC to examine whether and how many low-power television stations provide local programming that serves the public interest and meets local needs.

The FCC would examine the status of low-power TV as a secondary service and the impact of low-power carriage on the availability of channels for future communications needs.

The FCC also would examine the burden that carriage would place on cable systems, technical issues related to carriage, and the burden presently imposed by carriage fees upon low-power stations that are carried by cable systems.

Mr. Speaker, I am concerned that as we move into a new century with pervasive new communications technologies, we will lose sight of our historic commitment to localism in communications. I believe that low-power television has a role to play in both serving the interests of minority communities in larger cities and providing local news and information in small towns across America.

Mr. MADIGAN. Mr. Speaker, I am disappointed that we have not solved the problem we set out attempting to address in consideration of H.R. 5267. Although cable systems in this legislation will be reregulated to some extent, reining in the bad actors in the cable industry, we have done very little, if anything, to introduce new competition in the delivery of video programming to many parts of the United States, especially small towns and rural areas. Reregulation without competition only solves one side of the cable equation—rates will either stay the same, or, most probably, increase. Beyond that, the key competitive element of encouraging telephone companies to provide fiber optic highways, or other modern broadband technology, to carry information services of all types sooner, rather than later, is greatly lacking in the current legislation.

As a result of the colloquy between the subcommittee chairman and the gentleman from Virginia [Mr. BOUCHER], I note that Chairmen DINGELL and MARKEY have stated that they will make the issue of telephone company entry into video programming a legislative priority for the subcommittee in the 102d Congress. It is still the intent, though, of this Member and many of the members of the committee to examine the following legislative remedies to this important question in the near future:

First, telephone companies should be able to provide video carriage, gateways, packaging, billing, and collection in their telephone service areas and the Federal Communications Commission [FCC] should allow a telephone company to own or originate video programming if the FCC finds that programming is not available for transport;

Second, cross-subsidies, a concern as a result of the entry of local exchange carriers [LEC's] into the cable programming marketplace should be strictly prohibited. Video services and marketing should be provided through a separate subsidiary of the telephone company. Violation of the cross-subsidy prohibition should force the immediate divestiture of the telephone company's video subsidiary;

Third, a Federal-State joint board should establish rules and regulations to ensure proper cost allocation between video and telephone services;

Fourth, telephone companies should not buyout existing cable systems;

Fifth, within a specified time after the passage of such legislation, telephone company video subsidiaries should be able to offer their own programming under the following conditions:

Fiber optic technology, or other state-of-the-art modern broadband technology, should be installed to the curb of all telephone company subscribers within the telephone company video service franchise area;

Telephone companies should provide video gateways for all unaffiliated programmers under the same terms and conditions available to affiliated programmers; and

Telephone company-affiliated programming should be limited to an amount of capacity equal to that made available to unaffiliated programmers.

Mr. Speaker, these and other issues germane to this debate, such as the rural area exemption, must be thoroughly reviewed in order to adequately legislate in this important telecommunications area. H.R. 5267 certainly does not go far enough and I predict we will need to revisit the whole issue of telephone company/cable competition in the near future.

Mr. WAXMAN. Mr. Speaker, I support H.R. 5267, the Cable Television Consumer Protection and Competition Act, and congratulate Chairman MARKEY and Chairman DINGELL for moving this significant legislation. I would like to highlight an area of concern, however, that is addressed in the Senate cable bill, S. 1880, but not in H.R. 5267. I urge the House conferees to consider the Senate language on this important issue.

Under the Cable Communications Policy Act of 1984, Congress vested in local governments the power to grant cable franchises in their jurisdictions. Since that time, individuals who have been denied cable franchises or who object to the terms and conditions of the franchises issued to them have brought lawsuits against Los Angeles and a number of other cities and municipalities. The plaintiffs in these suits have claimed that the cities' actions have violated their constitutional rights under the first and 14th amendments. While I do not take a position on the constitutional questions that have been raised, I am concerned that the plaintiffs have sought large monetary damages from local governments in these cases.

In California, the cities of Sacramento, Palo Alto, and Santa Cruz have faced lawsuits with damage claims worth millions of dollars, which they have settled for substantial sums of taxpayers' funds. Los Angeles is currently facing two suits seeking large damage awards.

When Congress passed the 1984 Cable Act, it did not intend to expose local governments to monetary damages for denying cable franchises. We are now faced with an anomalous situation, however, in which cities and municipalities are being threatened with such claims even though they have strictly adhered to cable laws and regulations.

I believe it is crucial for Congress to protect local governments from monetary claims, while permitting the courts to resolve the important constitutional issues in these suits. Large damage awards will only drain resources from our cities and encourage others to bring similar suits against other local governments. While this problem has been limited to a small number of cities to date, it has the potential of affecting thousands of local governments across the country.

I urge the conferees to pay close attention to the financial difficulties this problem has created for our cities and to adopt the provision in the Senate bill which would exempt them from liability as long as they have adhered to the provisions of the 1984 Cable Act.

Mr. RITTER. Mr. Speaker, H.R. 5267 is a compromise piece of legislation. This legislation is a compromise between the majority and minority, as well as a compromise between the cable and broadcast industries. I thank Chairman MARKEY and ranking member Mr. RINALDO for their dedication in bringing this bill to the floor today.

As with every good compromise, no party is completely satisfied. This bill opens up some possibilities of competition by allowing program suppliers and alternative delivery systems, such as wireless cable and direct broad-

cast satellite [DBS], to bargain freely and fairly for program carriage. Furthermore, program services that are vertically integrated with cable operators are forbidden from unreasonably refusing to deal with an unaffiliated cable operator for a 9-year period. Combined with the current antitrust laws, these provisions will allow for some future competition to cable from wireless cable and DBS.

However, the bill fails to allow competition in video services from the local telephone company. Telephone companies would be a natural competitor to cable companies. Allowing local telephone companies into cable would allow for greater investment in the telecommunications infrastructure that is so essential to our economic competitiveness in the information age. We will see the issue of cable/telco cross ownership again in the near future, but as for this bill, it is silent on the issue.

Compromises were also made in the bill relating to technical standards. The bill now requires the FCC to maintain national technical standards, instead of allowing local franchising authorities with little or no technical expertise to dictate unreasonable technical standards. Also, a compromise was reached on financial disclosures for cable companies. Instead of a broad, unreasonable requirement, the FCC is authorized to request only the financial information needed to carry out the provisions of this bill.

I do have some reservations regarding the must-carry section of the bill. While most of this section was the product of protracted negotiations between the National Association of Broadcasters [NAB] and the National Cable Television Association [NCTA], it appears that the one group of stations who would benefit most from cable carriage was left out of the picture. Under this bill, local UHF stations in secondary markets, such as WFMZ-TV in Allentown, PA, will not be able to obtain cable carriage in the lowest priced tier. WFMZ is the only local no-commercial television station in the Lehigh Valley, the third largest population center in the State. WFMZ has to compete with television stations from Philadelphia and New York City and is the only television station that provides local news and programming to the Lehigh Valley. Due to the mountainous terrain and the relatively low power of the station, it is difficult for WFMZ to be received outside of the Lehigh Valley. This is the type of station the must-carry rules need to help, but these marginal stations are losing out. The must-carry language we passed would do more for home shopping stations than it would for struggling local UHF programmers. Soon, the local independent UHF station may completely disappear from the scene. I strongly encourage that when this bill comes to conference, that the interests of the struggling independent UHF stations be taken into consideration.

I also have some reservations about the basic rate regulation. Under the bill, every cable system will have to provide a basic broadcast tier. Those systems who do not already have a basic tier will have to retier. Retiering will cost more than systems are able to recover in the cost of the basic service, forcing operators to increase the prices of the satellite-delivered tier. There is evidence that where a basic broadcast tier is available, only a small percentage of subscribers actually opt for that tier. The cost of implementing this tier for a small minority of consumers will be balanced on the vast majority of those consumers that receive satellite-delivered cable television. Furthermore, the way the FCC is required to develop a formula for basic service looks similar to the traditional rate of return regulation for telephone companies. Rate of return regulation is currently on its way out, in favor of a more economically efficient form of regulation. In the conference with the Senate on this bill, we need to take a good look at the rate reregulation portions of this bill and determine if we are really helping or hurting consumers.

Again, I thank Chairman MARKEY and ranking member Mr. RINALDO, as well as both the majority and minority staffs for their excellent work and unending dedication in bringing this bill to the floor today. Thank you Mr. Speaker, and I yield back the rest of my time.

Mr. RINALDO. Mr. Speaker, I yield back the balance of my time.

Mr. MARKEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Massachusetts [Mr. MARKEY] that the House suspend the rules and pass the bill, H.R. 5267, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MARKEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 5267, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

PROVIDING FOR TEMPORARY EXTENSION OF CERTAIN PROGRAMS RELATING TO HOUSING AND COMMUNITY DEVELOPMENT

Mr. GONZALEZ. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5558) to provide for the temporary extension of certain programs relating to housing and community development, and for other purposes.

The Clerk read as follows:

H.R. 5558

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EMERGENCY LOW INCOME HOUSING PRESERVATION ACT OF 1987.

Section 203(a) of the Emergency Low Income Housing Preservation Act of 1987 (12 U.S.C. 1715ll note) is amended by striking "September 30, 1990" and inserting "October 31, 1990".

SEC. 2. INTERAGENCY COUNCIL ON THE HOMELESS.

Section 209 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11319) is amended by striking "October 1, 1990" and inserting "October 31, 1990".

SEC. 3. FHA MORTGAGE LIMIT.

Section 203(b)(2) of the National Housing Act (12 U.S.C. 1709(b)(2)) is amended by striking "during fiscal year 1990" and inserting "until October 31, 1990".

The SPEAKER pro tempore. Is a second demanded?

Mr. WYLIE. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Texas [Mr. GONZALEZ] will be recognized for 20 minutes, and the gentleman from Ohio [Mr. WYLIE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. GONZALEZ].

Mr. GONZALEZ. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, this bill, H.R. 5558, before the House today would extend for 1 month three housing related requirements or programs that are set to expire at the end of the fiscal year. This short term extension is necessary to ensure that these requirements and programs do not lapse before Congress can reauthorize or otherwise resolve these issues before adjournment.

The first extension would extend the plan of action requirements under the Emergency Low Income Housing Preservation Act of 1987, commonly referred to as the moratorium provisions. The 1987 act put into place a temporary program to provide for the prepayment of mortgages on certain low-income rental housing. The 1987 program was to last until Congress could consider and address the issue in detail. During the consideration of H.R. 1180, the House dealt with this issue and I have confidence that the conference committee on S. 556, the 1991 housing authorization bill, will adopt a permanent program to cover the prepayment of these mortgages. This simple extension is needed to prevent the lapse of the temporary program until a permanent solution can be enacted.

The second extension is for the Interagency Council for the Homeless under the McKinney Act. This extension is necessary because if the Council is not extended it will have to be disbanded before Congress can reauthorize it in the general McKinney Act.

Finally, this bill would extend the current FHA limit of $124,500 for an additional month. This limit which was adopted for only fiscal year 1990 last year would be made permanent

under S. 556 as adopted by the House. This extension would allow the conference committee to act on the level before it lapses thereby avoiding disruption of the lending limits.

Mr. WYLIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 5558 and am pleased to join the distinguished chairman of the Committee on Banking, Finance and Urban Affairs, the gentleman from Texas [Mr. GONZALEZ] as a cosponsor.

The chairman has mentioned the three provisions which would extend until October 31, 1990, and I will not be repetitive there, but this involves the Emergency Low Income Preservation Act of 1987, the Interagency Council on the Homeless, and the increase in the FHA loan limit. Although all three items are addressed in the comprehensive housing authorization bills recently passed by the House and Senate, time constraints made it virtually impossible to enact final authorization legislation before the end of September. Because current law with regard to all three provisions is due to expire on September 30, 1990, it is essential that this bill be passed as temporary extensions of the three programs, until permanent legislation can be enacted.

The Emergency Low Income Preservation Act refers to the prepayment moratorium in title II of the 1987 Housing Act, which prohibited the prepayment of mortgages on privately owned, Government-assisted housing. In 1987 Congress took temporary action to prevent a large-scale loss—up to 360,000 units—of affordable, low-income housing units. The House-passed omnibus housing bill, H.R. 1180, contains the Barnard-Bartlett compromise as a permanent solution to the prepayment issue. The Senate-passed bill, S. 566, basically makes the prepayment moratorium permanent. This is a contentious issue which will take time to resolve. The point the prepayment moratorium contained in the 1987 Housing Act is due to expire on September 30, 1990, if we do not do something. We need to pass a temporary extender until a permanent solution can be agreed upon in conference.

Another section of this bill deals with the Interagency Council on the Homeless. The Interagency Council on the Homeless was established by the McKinney Act in July 1987. The Council provides Federal leadership and coordination for activities which assist homeless individuals and families. Although the Council membership is composed of various department and agency heads—chaired by Secretary Kemp of HUD—the Council receives a small, annual authorization for Washington, DC, staff and 10 regional coordinators. The provision authorizing the Council is due to expire on September 30, 1990. Again, this temporary extension is necessary until the McKinney Act is reauthorized.

In last year's appropriations bill, the FHA loan limit was raised from $101,250 to $124,875 for fiscal year 1990 only. This bill would temporarily maintain this increase, pending enactment of an authorization bill to permanently authorize the higher loan limit.

The administration supports this legislation and I urge all Members to support the bill.

Mr. GONZALEZ. Mr. Speaker, before yielding time to the gentleman from Massachusetts [Mr. FRANK], I do want to have the record reflect that if anyone has taken the leadership on what we call this prepayment issue, those Members who recall the general debate on the housing reauthorization bill, it sounds as if it is something that is almost impersonal, but it involves hundreds of thousands of low and moderate income renters, and the legislation would not be possible were it not for the efforts of the gentleman from Massachusetts [Mr. FRANK]. And I believe there have been others on the committee over on the minority side; we have had very active participation by not only the ranking minority leader, the gentleman from Ohio [Mr. WYLIE], but the gentleman from Texas [Mr. BARTLETT].

□ 1510

Mr. Speaker, on this point I do think we ought to reflect and give credit where credit is due to those that have taken the leadership in this very, very critical issue, and the gentleman from Massachusetts [Mr. FRANK], I think, was the member I would put at the head of the list.

So, Mr. Speaker, I yield up to 18½ minutes to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. Mr. Speaker, I thank the gentleman from Texas [Mr. GONZALEZ], my chairman, but, unlike the precedessor committee, I do not think we will be taking all or our time. But I want to thank him for his very gracious words and his leadership, and I want to acknowledge the speed with which he and the ranking minority member, the gentleman from Ohio [Mr. WYLIE], acted in allowing us to have this extension come to the floor.

The point, as has been made clear: We have a deadline with which we set ourselves because we were not trying to delay. We were making a good-faith effort to meet the deadline. We will come very close, I believe, but, in case we do not quite meet it and send the bill to the President that I hope he is going to sign and that 10 days may lapse, we want to make very important assets, namely subsidized tenancies. So, extending the deadline on this moratorium from September 30 to October 30 is very important.

As the chairman, the gentleman from Texas [Mr. GONZALEZ], has pointed out, we have been working very hard on this bill. We have not yet got the complete agreement, but I must say that I think, if my colleagues look at where we are today, we are closer to agreement. We will go to a conference with the other body. There will be not unanimity, but I believe we are within clsoe reach of an agreement. I think we will come out with something that will resolve most of the problems.

For many of us it is absolutely essential, given the scarcity of affordable housing in the country today, that we act so that we do not lose any units, and that means two things.

First of all, Mr. Speaker, we have to prevent vulnerable people from being evicted, people who moved into these buildings knowing that they were federally subsidized, who have lived up to their obligations of tenancies, who have paid their rent. They have a right to be protected in their homes.

In addition, Mr. Speaker, we have to make sure that the tenancies themselves remain. These subsidized units are a very scarce resource, and we cannot allow various economic forces to deprive us of the units we already have.

It will cost us some money, but, if my colleagues assume that providing subsidized housing is one of the relevant functions of this Government, it is very clear that protecting the existing subsidized units is by far the cheapest per unit way to maintain a given number of subsidized units. If we would have to rebuild these, or build them anew, it would cost a great deal more.

So, I look forward to working under the leadership of the gentleman from Texas [Mr. GONZALEZ] in our conference. I believe we are going to come out with a housing bill which will do this Congress proud. Obviously, because of the budget, we are not going to be able to fund it at the levels many of us would like to see right now, but we are, I believe, going to be able to do the right thing substantively.

Mr. Speaker, getting this passed is important so that we can legislate with some deliberation and know that whatever we come out with in conference does not come after the horse has been stolen. This locks the barn door, and we do not always do this in Congress. This locks the barn door before there can be any loss of a horse, and for that I appreciate the leadership of the gentleman from Texas, and I appreciate the willingness of the gentleman from Ohio [Mr. WYLIE] to allow us to move so rapidly so we could do that, and I am delighted to give my chairman a present of at least 16 minutes, which I am sure he can use, and I hope someday I will be rewarded for that.

Mr. WYLIE. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. BARTLETT] who has worked very, very hard on this issue and certainly has been a leader as far as prepayment is concerned.

Mr. BARTLETT. Mr. Speaker, I thank the gentleman from Ohio [Mr. WYLIE] for his generous yielding of time.

I do support this legislation, I want to say at the outset, of a 30-day extension for three items of Federal law that would otherwise expire on September 30. I support it with, I will confess, some level of modest misgiving, but nevertheless I support it in large part because of the fair play that has been exhibited by the gentleman from Texas [Mr. GONZALEZ], the chairman of the Committee on Banking, Finance and Urban Affairs. Because of his leadership on this issue as we in the House developed a consensus legislation, bipartisan legislation, not unanimous, but we did, in fact, grapple with the issues of preservation, and, in that spirit of fair play, I look forward to going to conference with the chairman, Mr. GONZALEZ, my colleague from Texas, and with the gentleman from Ohio [Mr. WYLIE], the ranking member.

Mr. Speaker, this legislation, as has been said, extends for 30 days, and 30 days only, three elements of current law. The first is what is current law is generally called a mortorium, or a so-called mortorium, that prohibits individual property owners who own their own property from paying their mortgage at the conclusion of the 20-year term of the mortgage.

Now I want to suggest for starters that that is a bad law. It is a law that is wrong on its face, and it leads to the disruption of the lives of countless thousands, indeed tens of thousands, of individuals, both property owners and tenants, and a 30-day extension of that bad law under ordinary circumstances would be then acceptable. But these are not ordinary circumstances, and so, with that caveat, I would support this modest, temporary 30-day extension.

I also support the extension of 30 days of the authorization of the homeless council. The world, I would note, would not come to an end if we do not extend the authorization of the homeless council for an additional 30 days, but it would be somewhat disruptive to those who serve on that council.

Then also included in this is an extension of the $124,875 cap on FHA mortgage insurance which does need to be extended, and it needs to be extended so that the marketplace can rely on a certain mortgage cap of FHA that does not change every 30 days because that would be quite costly to home buyers.

Mr. Speaker, I might want to go back just a little bit to the basis of the preservation law that was passed by the House.

First, I want to note that the House, with the leadership of the gentleman from Texas [Mr. GONZALEZ] and the assistance from those on both sides of the aisle, adopted a bipartisan approach. We adopted that approach in the committee in a rather substantial, overwhelming vote for that approach. It was not unanimous, and there are those who dissented, and then we adopted it on the House floor even though a number of individuals expressed their misgivings about it. Not a single amendment was offered that would change that bipartisan approach, and thus we do to conference on the House side with what is very close to a united front on the House side.

Mr. Speaker, I want to note that the Senate did not do that. The Senate side not consider the preservation issues at all. The Senate instead simply took what is a bad law, a law that denies rights to both property owners and to tenants of a temporary so-called moratorium and extended that so-called moratorium permanently.

Now the Senate bill is a bit more complicated than that, but, by boiling it all down, what the Senate provision provides is one that is not acceptable to a majority of the House as a whole or the House conference. The Senate bill provides for permanentizing the so-called moratorium. Since the Senate made no attempt, or not the kind of attempt that we made in the House, to deal with the problem, it does seem to me that the House provision will and should prevail in the conference.

Let me walk through a couple of the items of the House bill, of the bipartisan compromise that was adopted in the House bill.

We, first, provide, unlike the moratorium, we provide that tenants will be protected in every single case. We suggest in the House bill that every tenant who is income eligible for section 8 or for vouchers will be guaranteed the receipt of that voucher or certificate, and HUD will guarantee that that certificate or voucher is usable in that marketplace. Indeed we place that certificate at a value of 110 percent of the fair market value. We guarantee that HUD has to conduct a survey and guarantee that every tenant who is income eligible will receive that certificate for that marketplace. And should there be areas in which that certificate is not usable, then, in addition to the 2½ years of notification we place on every other marketplace, we would impose an additional 3 years of notification for that individual tenant so that high type rental markets, low vacancy markets, would be able to have a total of 5½ years to adjust to those additional certificates.

□ 1520

So the moratorium does not protect any tenants at all. The House-passed preservation package preserves the ability of tenants to live in subsidized housing, those tenants already in these 221's, 236's, and 231(d)(3)'s.

Second, the House provision treats project-based assistance, project-based units with expiring certificates, identically to the federally insured projects of 236's and 221-3's identically. They are the same units, same apartment complexes. They are operated and owned and built side by side with the project-based certificates.

The Senate provision would have one standard for project-based units, and a wholly different standard from Federal FHA insurance. In fact, the title projects would have a much tougher standard with regard to expiring certificates. So the House-passed bill treats both essentially the same.

Third, we would set in the House bill to respect property rights, the rights of people who own real property in the United States, including multifamily projects.

We first protect tenants, but we also understand a fundamental on the House side. The fundamental is these apartment complexes are not owned by the Federal Government; they are not owned by the taxpayers; they are not owned by local governments; they are not owned by HUD; they are not owned by public housing authorities. They are owned by individuals who bought them, built them, and paid for them, and in exchange for a 20-year mortgage, agreed by contract to a minimum of 20 years' worth of rent control.

It is at that point that the House understands the situation much better than the other body, in that the House understands that those private property owners own those units and should have some say over the conduct of their private property within the contracts. The contract clearly says that these are 40-year amortization schedules for rent, but they have a 20-year balloon, at which time a private property owner can pay those mortgages, if they choose.

Last, the House provision provides for dramatically improved, dramatic incentives, for these private property owners to continue to use this property in a safe and habitable form for low-income tenants. The Senate provision or an extension of the moratorium does nothing of the sort. Indeed, an extension of the moratorium would almost drive unsafe conditions, unhabitable conditions, in increasing numbers, into these projects.

The House provision, for example, requires an annual inspection by HUD to certify that these projects are livable. The House provision creates monetary incentives to keep these projects in the low-income pool for an additional 20 years, and an additional 10 years beyond that. The Senate provision, or an extension of the moratorium, does nothing of the sort.

We had testimony, Mr. Speaker, in the Housing Subcommittee that was very clear on one point. While we had disagreement on all sides from various witnesses, we had one bit of testimony that was agreed to by everyone who testified. That is the moratorium causes many of these properties to deteriorate physically, because property repairs are made from the stream of income from the property, and if the Congress erroneously, and I believe wrongly, were to continue the moratorium of limiting that income stream, the fact is that these properties are and will in a precipitous manner deteriorate in a rather dramatic form.

I would suggest what we are doing here is correct, if temporary. It is only correct because it is only temporary. It only continues through October 31. I am prepared to support this temporary extension, but not a day longer than this temporary extension. It will not be necessary. I am prepared to support a housing bill that comes back and in fact includes this provision.

I am also prepared to oppose a housing bill that would come back that were to deny tenants with the right of these incentives and this notice in the preservation package of the House. I believe that we will have a housing bill. I hope that we will have a housing bill. If we should fail to achieve a housing bill, the only solution at that point would be for the House to adopt a freestanding bill for preservation.

Mr. Speaker, I want to make it clear that no further extension of this so-called moratorium is acceptable. It is not acceptable to me, and I do not believe it would be acceptable to a majority of Members.

So the House conferees have our job set out for us. I look forward to working with the chairman of the committee, the gentleman from Texas [Mr. GONZALEZ], and the ranking member, the gentleman from Ohio [Mr. WYLIE].

Mr. WYLIE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GONZALEZ. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I think the main thing that remains to be said is for the record we should recognize the tremendous work and contribution, indefatigable, if I would use any word to describe his actions, of the gentleman from Massachusetts [Mr. KENNEDY], a member of the committee and subcommittee, who has been very active together with the gentleman from Massachusetts [Mr. FRANK] on this prepayment issue.

Mr. Speaker, on the noncommittee member level is the gentleman from Illinois [Mr. YATES]. Even though the gentleman is not a member of the committee, he has been in constant communication, in fact almost as if he were a member, and has contributed greatly to our success in the House deliberations on this prepayment issue.

Mr. Speaker, I also recognize the respective staffs, the majority as well as the minority, Mr. DeStefano, the staff director of the subcommittee, and the counsel, Ms. Fisher; and on the minority side I would recognize Mr. Tony Cole, and, above all, Mr. Joseph Ventrone, who have always been great forces in shaping this legislation.

Mr. Speaker, I will close by asking that Members unanimously pass out this extender.

Mr. VENTO. Mr. Speaker, I rise in support of this bill that will protect some key housing programs so that the soon to be named conference committee can work out the various differences on S. 566, the Housing and Community Development Act of 1990. Removing this rapidy approaching deadline from the horizon should allow the conferees to craft a solution to the prepayment crisis without unreasonable, unnecessary pressure.

I would hope that it will also give the conferees a chance to examine the deficiencies of the House-passed measure while maintaining as much of the assisted housing for low-income families as possible. Future Congresses hopefully will not have to wrestle with another prepayment crisis for many years if the Congress designs a long-term solution. Notwithstanding the rights of owners, their right to profit or their need to pull out equity in a specific time frame, a more stringent process for limiting prepayment would be preferable in the final measure. A conference compromise based on the Senate-passed bill could be a better response to hundreds of thousands of people and their families who are faced with losing their homes.

Qualified residents have housing as a result of Federal policies and subsidies and we as Members of Congress have a responsibility to maintain and preserve such housing. We cannot afford to add to the ranks of the homeless or the inadequately housed! Our efforts must focus on maximizing our Federal dollars for this purpose. In Minnesota alone, some 39 projects have been labeled "at risk," directly jeopardizing over 5,200 units. In total, over 11,000 units in 99 developments in my State could be affected by this legislation. I have met with concerned tenants from several locations in the Twin Cities area including the Maryland Park complex on the eastside of St. Paul and Bor-Son Towers in Minneapolis, MN. They are worried that they won't have a place to live or raise their families, to instill a sense of community, or to make a home. Whether it is in drafting language to protect acquisitions in progress or language to protect transactions yet to come, the overwhelming needs of tenants, such as these residents, must be appropriately balanced with the contractual rights of the owners. That is the goal of the upcoming conference and today's legislation should assist us in achieving this goal.

Mr. GONZALEZ. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Texas [Mr. GONZALEZ] that the House suspend the rules and pass the bill, H.R. 5558.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

IMPOSITION OF PENALTIES FOR INDUCING THE COAST GUARD TO RENDER AID UNDER FALSE PRETENSES

Mr. STUDDS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4632) to amend title 14, United States Code, to impose penalties for inducing the Coast Guard to render aid under false pretenses, to impose liability for costs incurred by the Coast Guard in rendering that aid, and to authorize appropriations for use for acquiring direction finding equipment for the Coast Guard, as amended.

The Clerk read as follows:

H.R. 4632

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PENALTIES AND LIABILITY FOR MAKING A FALSE DISTRESS REPORT.

Section 88 of title 14, United States Code, is amended by adding at the end the following new subsection:

"(c) An individual who knowingly and willfully communicates a false distress message to the Coast Guard or causes the Coast Guard to attempt to save lives and property when no help is needed is—

"(1) guilty of a class D felony;

"(2) subject to a civil penalty of not more than $5,000; and

"(3) liable for all costs the Coast Guard incurs as a result of the individual's action.".

SEC. 2. AUTHORIZATION FOR ACQUIRING DIRECTION FINDING EQUIPMENT.

There is authorized to be appropriated to the Secretary of the department in which the Coast Guard is operating not more than $2,000,000 for fiscal year 1991 and not more than $2,000,000 for fiscal year 1992 for ac-

quiring direction finding and transmitter identification equipment to improve land-based and mobile Coast Guard search and rescue capabilities.

The SPEAKER pro tempore. Is a second demanded?

Mr. DAVIS. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. STUDDS] will be recognized for 20 minutes, and the gentleman from Michigan [Mr. DAVIS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 4632, a bill that I introduced several months ago in response to a tragedy that occurred in my district.

Last March 25, two Coast Guard units in southeastern Massachusetts received a weak "May Day" from the fishing vessel *Sol E Mar.* Because the Coast Guard does not have up to date technology, it was not possible to pinpoint the source of the call. And when the "May Day" was followed immediately by another call, this one obviously phony, the Coast Guard concluded that both calls were fake, and no search and rescue resources were sent.

The two New Bedford fishermen who had radioed desperately for help, William Hokanson and his son William, Jr., died in that tragedy. We will never know whether their lives could have been saved.

What we do know is that false distress calls are a serious and growing problem for the Coast Guard. They waste resources; they needlessly endanger Coast Guard personnel; and they make it less likely that the Coast Guard will respond successfully when human lives are truly in danger.

We also know that the Coast Guard's ability to locate the source of distress calls is limited by World War II vintage communications equipment. Better direction-finding equipment could mean the difference between life and death in a real emergency; and between jail and freedom for the perpetrator of a hoax call.

Mr. Speaker, H.R. 4632 authorizes the Coast Guard to purchase state-of-the-art communications equipment and increases the penalty for making a false distress call. Under this bill, if you make a hoax call to the Coast Guard, and the Coast Guard sends out a helicopter or a patrol boat in response, you will be liable for every penny of the Coast Guard's increased operating expenses resulting from that call. The message is clear: if you're tempted to play games with the Coast Guard—don't because if you do, you'll be paying for it for the rest of your life.

Before closing, I want to mention two related issues. First, our hearings on this legislation convinced us of the need to reserve channel 16, the international distress channel, for emergency calls only. Today, that channel is so overloaded with routine, nonessential conversations that mariners in distress have no guarantee their calls will be heard. We have asked the FCC to take action on this matter, and we have been assured that it will.

Second, and this is news to no one, the Coast Guard needs more money. On Cape Cod, watchstanders are given so many other duties, and they are required to monitor so many radio speakers, they need superhuman energy, superhuman endurance, superhuman hearing, and a superhuman ability to tell when someone is speaking the truth. The men and women of the Coast Guard cannot be forced to cut back any more. They have reached their limit. They need our help. And people will die needlessly if that help is not forthcoming.

Finally, I want to express my deepest thanks to the chairman of the subcommittee on Coast Guard and Navigation, Mr. TAUZIN, for bringing his subcommittee to Woods Hole for a hearing on this bill, and for his support in bringing this measure to the floor today. There is not a Member of this body who is more knowledgeable or more powerful an advocate for the Coast Guard than the gentleman from Louisiana.

In that same spirit, I would also like to thank the chairman of our full committee, Mr. JONES of North Carolina; our ranking minority member, Mr. DAVIS; and Adm. William Kime, Commandant of the Coast Guard, for their help and support on this bill. And I urge its passage this afternoon.

□ 1530

Mr. DAVIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4632, authored by my colleague Mr. STUDDS, chairman of the Subcommittee on Fisheries and Wildlife Conservation and the Environment.

Unfortunately, the case of the *Sol E. Mar* Mr. STUDDS related to you, is no longer the only instance where lives have been needlessly endangered by the games being played by thoughtless individuals. This summer the life of a youth may have been lost on the Great Lakes because all available Coast Guard resources in the area were responding to a vessel's radioed call for help. That call was a hoax. And when the young man slipped off the end of a pier, there were no Coast Guard crews or vessels to aid in his rescue. The "vessel in distress" was never located, and later only the youth's body was recovered.

This is not just a regional problem, but one that has spread until it is national in scope, and it is a sad commentary on today's society. The momentary excitement of placing a prank call and creating a disturbance on the water has become more important than consideration for the persons whose lives it may impact. The Coast Guard must respond to those calls under the assumption that they are true emergencies, regardless of the weather and water conditions. They selflessly place their lives in jeopardy every time a boat or aircraft goes out on a search and rescue mission and it is difficult to imagine the guilt they must feel when they learn that a life has been needlessly lost while they were responding to a practical joke.

Since simple consideration for others is not sufficient cause to prevent someone from placing a hoax call, then stronger measures are demanded to make the perpetrators aware of the consequences of their actions. This bill will do that.

I strongly urge my colleagues to rise in support of H.R. 4632.

Mr. TAUZIN. Mr. Speaker, I rise to urge adoption of H.R. 4632, a bill which increases penalties for inducing the Coast Guard to render aid under false pretenses, and to hold the perpetrators liable for whatever costs are incurred as a result. The bill also authorizes the Coast Guard to acquire additional direction finding equipment.

The U.S. Coast Guard continually monitors and responds to calls from mariners on channel 16, which is the international distress frequently reserved for emergency calls.

When a distress call is received, the Coast Guard is obligated to respond. Occasionally, hoax calls are received which send the Coast Guard on an expensive, demoralizing and time consuming wild goose chase. Depending on the resources needed, a search and rescue case can cost tens or hundreds of thousands of dollars.

The bill under consideration today will curb the practice of hoax calls from vessels, land based radios or telephones.

Because of the significance of the problem, the Coast Guard and Navigation Subcommittee held a hearing on H.R. 4632, and marked up the bill within 2 months of it introduction. I am delighted that the subcommittee was able to move so swiftly on the bill and send it forward for what I hope will be approval by the House.

I applaud my friend and colleague, GERRY STUDDS, for introducting H.R. 4632, and for his outstanding efforts in bringing this matter to the attention of the Federal Communications Commission, the U.S. Coast Guard, and the House of Representatives.

Mr. Speaker, this is a significant bill which will aid the Coast Guard in its ability to assist mariners in need while penalizing those who would frivolously endanger the lives of seamen with bizarre false distress calls.

I strongly urge the passage of H.R. 4632.

Mr. STUDDS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DAVIS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. MAZZOLI). The question is on the motion offered by the gentleman from Massachusetts [Mr. STUDDS] that the House suspend the rules and pass the bill, H.R. 4632, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. STUDDS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 4632, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

PROVIDING FOR CONSIDERATION OF H.R. 4739, NATIONAL DEFENSE AUTHORIZATION ACT, FOR FISCAL YEAR 1991

Mr. FROST. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 457 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 457

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 4739) to authorize appropriations for fiscal year 1991 for military functions of the Department of Defense and to prescribe military personnel levels for fiscal year 1991, and for other purposes, and the first reading of the bill shall be dispensed with. All points of order against consideration of the bill are hereby waived. After general debate, which shall be confined to the bill and which shall not exceed two hours, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Armed Services, the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider an amendment in the nature of a substitute recommended by the Committee on Armed Services now printed in the bill as an original bill for the purpose of amendment under the five-minute rule, said substitute shall be considered as having been read, and all points of order against said substitute are hereby waived. No amendment to said substitute shall be in order except those specified by this resolution, the amendments designated in the report of the Committee on Rules accompanying this resolution, or by subsequent order of the House. Said amendments shall be considered in the order and manner specified and shall be considered as having been read when offered. Each amendment may only be offered by the Member designated for such amendment in the report of the Committee on Rules, or this resolution, or his designee. Debate on each amendment made in order by this resolution, unless otherwise specified, shall not exceed ten minutes, to be equally divided and controlled between the proponent and an opponent. During consideration of the bill, pro forma amendments for the purpose of debate shall be in order only if offered by the chairman or ranking minority member of the Committee on Armed Services, who may yield blocks of time. Any period of general debate specified in this resolution shall be equally divided and controlled by the chairman and ranking minority member of the Committee on Armed Services. No amendment shall be subject to amendment except as specified in this resolution or in the report of the Committee on Rules, nor be subject to demand for a division of the question in the House or in the Committee of the Whole. All points of order against the amendments printed in the report are hereby waived.

SEC. 2. It shall be in order to begin consideration of amendments as follows:

(A)(1) Upon the conclusion of general debate on the bill, it shall be in order to consider amendments en bloc, to be offered by Representative Aspin of Wisconsin, and all points of order against the amendments en bloc are hereby waived. Said amendments en bloc shall be debatable for not to exceed forty minutes.

(2) Following disposition of the amendments en bloc, it shall be in order to debate the subject of the appropriate levels of funding for the Strategic Defense Initiative for a period not to exceed one hour. It shall then be in order to consider the amendments printed in the report of the Committee on Rules relating to that subject in the following order: (A) by Representative Dornan of California; (B) by Representative Dellums of California; (C) by Representative Kyl of Arizona; and (D) by Representative Bennett of Florida. If more than one of said amendments is adopted, only the last amendment which is adopted shall be considered as finally adopted and reported back to the House.

(3) Following disposition of said amendments, it shall be in order to debate the subject of the Strategic Defense Initiative for a period not to exceed thirty minutes. It shall then be in order to consider the amendment printed in the report of the Committee on Rules relating to that subject offered by Representative Spratt of South Carolina.

(4) Following disposition of said amendment, it shall be in order to debate the subject of an acquisition work force for not to exceed one hour. It shall then be in order to consider the amendments printed in the report of the Committee on Rules relating to that subject in the following order: (A) by Representative Mavroules of Massachusetts; and (B) an amendment thereto offered by Representative Gilman of New York.

(5) Following disposition of said amendments, it shall then be in order to debate the subject of homeporting for not to exceed thirty minutes. It shall then be in order to consider the amendments printed in report of the Committee on Rules relating to that subject in the following order: (A) an amendment offered by Representative Bennett of Florida; and (B) a substitute amendment thereto offered by Representative Molinari of New York.

(6) Following disposition of said amendments, it shall then be in order to debate the subject of defense burdensharing for not to exceed thirty minutes. It shall then be in order to consider the following amendments printed in the report of the Committee on Rules relating to that subject in the following order: (A) amendments en bloc by Representative Martin of New York; (B) by Representative Bonior of Michigan; and (C) by Representative Mrazek of New York.

(B) It shall be in order for the chairman of the Committee on Armed Services, after giving at least one hour notice, and after consultation with the ranking minority member of that committee, to request the Chair to recognize for the consideration of amendment groups in an order other than that prescribed by this resolution.

SEC. 3. No further amendments shall be in order except as subsequently ordered by the House.

□ 1540

The SPEAKER pro tempore. (Mr. MAZZOLI). The gentleman from Texas [Mr. FROST] is recognized for 1 hour.

Mr. FROST. Mr. Speaker, I yield the customary 30 minutes to the gentleman from New York [Mr. SOLOMON] for the purpose of debate only, pending which I yield myself such time as I may consume.

Mr. Speaker, House Resolution 457 is the initial rule for the consideration of H.R. 4739, the National Defense Authorization Act for fiscal year 1991. The Rules Committee will meet again later this week to grant another rule providing for the further consideration of the bill.

Mr. Speaker, House Resolution 457 provides 2 hours of general debate to be equally divided and controlled by the chairman and ranking minority member of the Armed Services Committee. All points of order against consideration of the bill are waived. The rule makes in order the committee substitute now printed in the bill as the original bill for the purpose of amendment, and all points of order against the substitute are waived.

Mr. Speaker, only the amendments specified in the rule or printed in the report accompanying the rule will be in order during the initial consideration of the bill. House Resolution 457 waives all points of order against the amendments made in order by the rule. All the amendments are to be considered only in the order and manner specified.

The amendments are debatable for the time designated, to be equally divided between the proponent of the amendment and an opponent. The amendments are not subject to amendment, except as specified, nor are they subject to a demand for a division of the question in the House or in the Committee of the Whole.

House Resolution 457 structures the first days of the debate on the National Defense Authorization Act as follows: First, 2 hours of general debate; second, the amendments en bloc by Representative ASPIN of Wisconsin,

debatable for 40 minutes; third, SDI funding levels as follows: 1 hour of debate on appropriate levels of funding for the strategic defense initiative, equally divided and controlled by the chairman and ranking minority member of the Armed Services Committee, followed by consideration of four amendments on the subject, printed in the report, to be offered by Representative DORNAN of California, Representative DELLUMS of California, Representative KYL of Arizona, and Representative BENNETT of Florida under the king-of-the-hill procedure. If more than one of the amendments is adopted, only the last one adopted will be considered as finally adopted. Each amendment is debatable for 10 minutes; fourth, SDI policy as follows: 30 minutes of debate on the strategic defense initiative followed by consideration of the amendment by Representative SPRATT of South Carolina, debatable for 10 minutes; fifth, acquisition work force: 1 hour of general debate followed by consideration of two amendments on the subject, printed in the report, by Representative MAVROULES of Massachusetts and an amendment to the Mavroules amendment by Representative GILMAN of New York, each debatable for 10 minutes; sixth, homeporting: 30 minutes of general debate followed by consideration of two amendments on the subject, printed in the report, by Representative BENNETT of Florida and an amendment to the Bennett amendment by Representative MOLINARI of New York, each debatable for 10 minutes; and seventh, defense burdensharing: 30 minutes of general debate followed by consideration of three amendments on the subject, printed in the report, by Representative MARTIN of New York, Representative BONIOR of Michigan, and Representative MRAZEK of New York, debatable for 10 minutes each.

The rule further states that debate may be extended through pro forma amendments but only if offered by the chairman or ranking minority member of Armed Services, who may then yield blocks of time.

In addition, Chairman ASPIN may request the Chair to consider issue clusters of amendments including the Aspin amendments en bloc, in a different order than prescribed in the rule, but only after giving 1 hour notice and after consulting with the ranking minority member.

No other amendments will be in order except as specified by subsequent rule.

Mr. Speaker, the world has changed since this bill was reported. The gulf crisis will no doubt prompt us to rethink defense policy and to reconsider many defense issues, large and small. There is no reason, however, to postpone the debate. House Resolution 457 is a fair rule that permits the House to begin to consider H.R. 4739. I urge adoption of the rule.

Mr. SOLOMON. Mr. Speaker, I yield my self such time as I might consume.

Mr. Speaker, I join with the gentleman from Texas in urging the Members to support this rule. House Resolution 457 will provide for the initial phase of consideration of H.R. 4739, the Defense Department authorization bill for fiscal year 1991.

Mr. Speaker, you and the other Members should be aware that during the time when the House is debating H.R. 4739 tomorrow, the Rules Committee will be meeting to write another rule which will provide for the further disposition of amendments on Wednesday.

Mr. Speaker, at this time I have written a letter to the gentleman from Massachusetts [Mr. MOAKLEY], chairman of the Rules Committee.

The letter is as follows:

HOUSE OF REPRESENTATIVES,
Washington, DC, September 10, 1990.

Hon. JOHN JOSEPH MOAKLEY,
Chairman Committee on Rules, Room H-312, The Capitol, Washington, DC.

DEAR JOE: I have been in touch with Bill Dickinson and have seen the letter he sent to you concerning his interests for the rule on H.R. 4739, the Defense Department Authorization bill.

As the Republican Member who will be carrying that rule on the floor, I would like to weigh in on behalf of several items that Bill mentioned.

I very much hope—and request—that the second rule which provides for further disposition of amendments to H.R. 4739 will make in order the following items:

A mechanism whereby the majority and minority floor managers reach consent on the contents of omnibus en block amendments;

A right for the minority to offer a motion to recommit with instructions, with one hour of debate on such motion;

A right for Bill Dickinson to offer his amendmen #128 if the Mavroules amendments#119 and 120 and the Hochbrueckner amendment #69 are also made in order;

A right for Bill Dickinson to offer his amendment#129, with at least 30 minutes of debate time allowed;

A right for the minority to offer a substitute amendment if the Mavroules amendment #119 and 120 are made in order.

Thank you very much for your consideration, Joe.

Sincerely,

GERALD B. SOLOMON,
Member of Congress.

I call that letter to the attention of the Members.

Mr. Speaker, I will not repeat the details concerning the present rule which have already been outlined by the gentleman from Texas. I will reiterate, however, that this rule will permit the House to debate four important issues tomorrow: The strategic defense initiative; the training of a skilled work force to meet the Nation's defense needs; the issue of homeporting, about which I will have something to say in just a moment; and, finally the issue of burden sharing.

Mr. Speaker, the rule provides for several important amendments concerning each of these issues, as well as for adequate time to consider each one. In addition, the rule provides for Mr. ASPIN, the chairman of the Armed Services Committee, to offer an amendment pertaining to the overall defense budget, and yes, times have changed, and yes, I hope Mr. ASPIN does offer such an amendment.

I have not seen Mr. ASPIN's amendment, and its precise contents may still be under negotiation, but I cannot avoid making the observation that H.R. 4739 will be debated on the floor under dramatically different circumstances than those under which it was marked up in committee.

When H.R. 4739 was being marked up, no Member could possibly have foreseen the need to deploy nearly 200,000 American troops in the Persian Gulf. No Member could have anticipated calling up the Reserves for the first time in a generation.

Accordingly, the funding levels in H.R. 4739 were reduced much too much. This bill comes in $24 billion below the President's original request. Mr. Speaker, a defense cut of such magnitude is a reflection of the rather naive optimism which prevailed earlier in the year concerning a so-called peace dividend. And I guess it took a cunning, ruthless, despicable despot called Saddam Hussein, the most dangerous man in the world, to wake us up to that fact.

Mr. Speaker, all Americans are encouraged by the relaxation of tensions between the United States and the Soviet Union. Thank goodness tensions have been relaxed. Tensions have relaxed, but they are not gone altogether—there still are 10,000 nuclear warheads pointed in our direction. Nevertheless, the summit conference in Helsinki over the weekend is a hopeful sign that we can work together on important issues.

But, however much superpower tensions may relax, we have to be aware of the ironic effect that such a change in the superpower relationship brings: Namely, that it makes regional hoodlums like Saddam Hussein that much more powerful, relatively speaking, on the world scene. Moreover, people like Saddam Hussein are more unpredictable now that they are acting on their own instead of serving as proxies for the Soviet Union, as he was doing before.

So, Mr. Speaker, we continue to live in a dangerous world—make no mistake about it. America must remain ready to meet any challenge to our vital interests—and our allies must be more willing to stand up for our common interests, too. But the funding level presently contained in H.R. 4739 is inadequate and inconsistent

with America's responsibilities, and we had better do something about it.

It is my hope that the Aspin amendment and such additional amendments as may be made in order by the next rule on Wednesday will provide the House with the opportunity to bring funding levels in this bill back up to realistic and responsible amounts.

Mr. Speaker, we are probably $5 billion short in outlays and we are probably $7 billion short in budget authority. So, Mr. Speaker, let us take account of that when we work a second rule out tomorrow.

□ 1550

Finally, Mr. Speaker, I would just like to say a word about homeporting, an issue of great importance to my home State of New York. A total of $230 million has already been invested in the construction—now 90 percent complete—of a new naval homeport in Staten Island. This facility will provide state-of-the-art maintenance for our Naval Reserves; it will also enable the Navy to close its obsolete facilities in New York City and consolidate its activities there in one place.

For reasons that are not clear to me, the Staten Island homeport is the target of an amendment that seeks to shut it down. Not any other homeport in the country, just this one. Alone among the homeport projects now under way, the Staten Island homeport has been singled out for closing. This is clearly a case of being penny-wise and dollar-foolish. It also discriminates against my State.

If and when the amendment to close the Staten Island homeport is brought up, the gentlelady from New York, SUSAN MOLINARI, will be offering a substitute amendment which would give the Secretary of Defense adequate time to examine fully the status of this project and the status of our military construction program as a whole—and then report his recommendations to the U.S. Congress. That is the way it should be.

And so I urge support for the Molinari amendment and I urge support for this rule. We have a lot of work to do this week, Mr. Speaker, and so let's get started.

I reserve the balance of my time.

The SPEAKER pro tempore. The gentleman from Texas [Mr. FROST] has 26 minutes remaining.

Mr. FROST. Mr. Speaker, for purposes of debate only, I yield 6 minutes to the gentleman from Michigan [Mr. BONIOR].

Mr. BONIOR. I thank my colleagues, and I thank the Speaker.

Mr. Speaker, let me address an issue which relates to this rule. First of all, let me just commend my colleague, the gentleman from Texas [Mr. FROST] for bringing this rule to the floor. It is a fair, a good rule. It is a good start on an important subject that affects this Nation and the security of the free world.

I want to commend the gentleman from Texas and my colleagues on the Committee on Rules for bringing it forward.

The issue that I want to address is an amendment that is being made in order by this rule under burden sharing. And it deals with Japan and the cost of the United States' defense of Japan.

In last year's fiscal year 1990 Defense Authorization Act we in the Congress called on Japan to assume all the costs of the United States forces in Japan. While we do this on a constant basis, whether it is military or domestic or trade issues with Japan, and often, as my colleagues know and understand, the response from the other side is, "Well, we will see what we can do. We will try to accommodate you. Let's sit down and talk. Let's think about this a little longer."

You know, we have gotten ourselves into a situation where we have roughly 50,000 troops, American troops, stationed in Japan at 31 installations, costing us in the neighborhood of $7.4 billion a year. The Japanese pick up about $2.9 billion of that. But our people in this country are paying close to $5 billion a year to defend the Japanese.

Now, I go home, first of all, and I tell my people over the break that we have got 50,000 troops in Japan, and they are really sort of taken aback when you tell them that. They have come to assume that 45 years after the end of the war, that we certainly would not have that many people stationed in Japan.

They understand that we have hundreds of thousands in Europe, 40,000 in Korea, but when you tell them that we have got 50,000 troops stationed in Japan costing them almost $5 billion a year, while the Japanese have a $45 billion trade deficit with us, where their markets are closed to all of our products.

I represent the Detroit area. The Japanese have a $60 billion auto parts market, $60 billion.

We get 1 percent of that. Theirs is closed. "You can't come in."

Now, my colleagues from California have heard it with computers, with semiconductors, we hear it from our colleagues in agriculture that their markets are closed. But we have got 50,000 troops there, at 31 installations, $5 billion a year, taking care of their needs.

What about the needs of the American people? We have got people in this country who do not have health care; 37 million people, no health care insurance.

There are millions of homeless. Many of those are families.

Bridges and roads need repairs. What about those people?

Yet we are spending $5 billion a year for their defense.

Now, my amendment simply calls upon us to do what we said we wanted the Defense Department to do in the fiscal year 1990 bill last year, and that is for them to assume the cost. It is only fair that they do that. They have been reluctant to come forward.

In the Middle East they get 60 to 70 percent of their oil from the Persian Gulf. They said they were going to commit $1 billion to this effort. We have seen nothing as of yet. They are fighting in Japan now over, in fact, whether they are going to fulfill that commitment at all.

After all, a billion dollars, it is about a month's efforts of our troops in the Persian Gulf. Something is entirely out of whack, Mr. Speaker.

We have got to start taking care of our own in this country. Yes, we will defend freedom around the world, and obviously we are doing it, and I support the President—I think he has done an excellent job, quite frankly, in the way he has handled this so far. But our allies have to be there with us. We cannot police the entire world and pay for the cost by ourselves.

I want our European friends there, I want the check from the French, and I want the Japanese to pay their fair share because we have got concerns and needs here at home that have to be addressed.

We could use that $5 billion to take care of the insurance of those constituents that I have who do not have any health insurance; we could use that $5 billion to take care of the homeless in this country; we could use that $5 billion to take care of the educational needs of our younger people.

So I ask my colleagues to put a little teeth, tomorrow or Wednesday when we deal with this amendment, into our negotiating position.

The Senate did their bill. They did not do anything on it. This is a tough amendment. But you got to be tough with the Japanese. If we have not learned that, we have not learned anything in the last 45 years.

You have got to be tough negotiators. This amendment says to the President you got to negotiate for them to pay for the costs.

They got 22,000 people working at these installations, Japanese people working at the installations, and we are paying for the cost of many of those people. There is no necessity for that, not when our own people need work, when our own people need housing, when our own people need health care.

So I ask my colleagues to stay with me on the amendment tomorrow. It is fair, it is firm, it will give us a negotiation—it will give the administration the leverage it needs to sit down with them and hammer out more of the

burden sharing that is necessary in this part of the world.

I thank my colleagues for giving me the time to address this issue, and I hope my colleagues who are listening to this debate this afternoon will look at this amendment seriously and would give us the support that we need.

Mr. SOLOMON. Mr. Speaker, I yield such time as he may consume to the gentleman from Alabama [Mr. DICKINSON], the ranking Republican member on the Committee on Armed Services.

Mr. DICKINSON. Mr. Speaker, I thank my colleague for yielding.

Mr. Speaker, let me say that I do not always find myself in agreement with the gentleman who just preceded me in the well, the gentleman from Michigan [Mr. BONIOR], but let me just close ranks with him and say that I think that basically he is on the right track. I think we have been playing on an unlevel playing field when it comes to our exports and the deficit payments with Japan.

□ 1600

Whether we're talking about, as the gentleman pointed out, agriculture, automobiles, or electronics, it is ludicrous for us to be picking up the entire cost of the umbrella which encompasses Japan's defense. At the same time, we cannot work out any equitable arrangement for sales to offset our trade imbalance though I do feel like our presence there is good, and is needed.

As far as payments for our services, I think it is not unreasonable to expect the Japanese, who are so wealthy they are hard-put to find places to put their money—they are coming to invest in very great amounts in real estate and farms and so forth in this country—to compensate us. I think if they are really having trouble finding places to make their investments, let them help in their own protection. For the tremendous expense we are bearing there, not to mention our expenses in the Mideast, where, as has been pointed out, the figures range from 60 to 90 percent of Japan's total oil imports come from that section of the world, we should be compensated.

I was informed that they were supposed to, even going back to the Kuwaiti reflagging that caused the United States substantial military resources, they were going to do a great deal more than has, in fact, been forthcoming. So it just might be that when the gentleman from Michigan [Mr. BONIOR] offers his amendment on this bill, that he might find support from unexpected quarters.

Let me say that I rise in support of this resolution, the first rule of fiscal year 1991 Defense authorization bill. As one who normally opposes closed rules, I believe this is the only way in which to manage this particular bill, with over 130 amendments, in just 2 days. The first rule is generally uncontroversial and adequately protects the rights of the minority so far as we can ascertain. We are working with the Committee on Rules on the second rule, and I hope that it is equally uncontroversial. We have had to go about this process in a truncated fashion. We would begin debate tomorrow with the initial rule that we are debating today, which is noncontroversial.

The Committee on Rules will be meeting again tomorrow to determine what the second rule will look like, and which will make certain amendments in order, and allow only certain people to offer them.

In the committee, I opposed H.R. 4739 because it is terribly flawed, so the Committee on Rules, in my opinion, would be hard pressed to find a way to make this bill worse. I think the bill is bad. I think it needs a lot of remedial work. I think we need to do a lot to make it passable and make it supportable so far as this Member is concerned, and hopefully as far as the administration is concerned. H.R. 4739 cuts $24 billion from the President's request, it guts our strategic and conventional modernization programs, and is riddled with add ons that are not required and have been asked for because they are pure pork in nature. Many of the proposed amendments have the flavor of pure pork and they just benefit people back home. They are not necessary for our overall defense structure and posture, and I would hope they would be deleted. I intend to elaborate on the many flaws of this Defense bill during the general debate tomorrow.

The annual Defense authorization bill has always been difficult and cumbersome legislation under the best of circumstances. I do not believe this rule disadvantages the minority, so I urge its adoption.

I would like to take this opportunity, if I may, Mr. Speaker, to thank the gentleman from Massachusetts, [Mr. MOAKLEY], and also the gentleman from Tennessee [Mr. QUILLEN], and especially the gentleman from New York [Mr. SOLOMON], the ranking Republican on the Committee on Rules, for their hard work on the rule. I think we all are thankful to have avoided the misunderstandings that happened during considerations in the past. As the first rule, I urge unanimous support for it. I think it is fair, and I certainly intend to support it.

Mr. FROST. Mr. Speaker, for the purposes of debate only, I yield 5 minutes to the gentleman from Massachusetts [Mr. FRANK].

Mr. FRANK. Mr. Speaker, I rise in support of the rule. I wish we could have more time to debate some of the issues, but I do understand the need for prompt action as we get toward the end of a session.

I want to use my time to voice my very strong support for the amendment that will be offered by the gentleman from New York [Mr. MRAZEK] and the gentleman from Michigan [Mr. BONIOR]. Both of those amendments deal with a situation that cries out for change. It is a situation in which many wealthy nations in this world and many middle league nations in this world, act as if they were still poor and the United States was the only source of funds. In 1945 this Nation began a policy of extraordinary generosity. When World War II ended, we as a nation did not simply go to the aid of our former allies with financial and political and military support. We did something unprecedented, in my judgment. We went to the aid of our enemies. I do not think Members will find in the history of the world a clearer example of farsighted generosity than what America did with regard to Japan and Germany. And in part as a result of our policies, largely as a result of their own actions, obviously, those nations are today prosperous and democratic beyond what they have ever been.

The question is, shall we continue to act in 1990, when Germany and Japan are wealthy and strong nations, as if they were improverished victims of a war? Because if we do not begin to change our policy, this is what we will be doing. We spend more than $100 billion a year defending the nations of Western Europe against an invasion which is not coming. The likelihood that the Russians will lead Poland, Hungary, Czechoslovakia, Bulgaria, and for the few weeks it remains as an entity, East Germany, is any invasion of the West is nil. As to Japan, I do not know what our large troop concentration in Japan is defending the Japanese from. Partly the Chinese, whom the Japanese cannot wait to sell things to. I do not think it is the Russians. Whoever it is, however, if the Japanese feel imperiled, it is reasonable for Members to ask them to compensate the United States fully for the troops we have there. That is what the gentleman from Michigan says.

Let me address those who say, do we want Americans to be mercenaries. No, I do not want Americans to be mercenaries. A mercenary, as I understand it, is someone whose gun if for hire to the top bidder, regardless to any common moral purpose, regardless to any strategic justification. No Member would ever tolerate America's young people being in that situation. That is not what we are talking about. We are not talking about America simply taking bids and sending troops anywhere that people have the money. We are talking about America working in conjunction with allies to set a

common purpose, but saying, in some circumstances where it makes sense, for Members to supply the firepower, in pursuit of this common purpose, it makes sense for Japan to compensate the United States for it. Japan is a wealthy nation, spending 1 percent of the gross national product on the military. We spend 6 percent. Then, people wonder why they can outcompete the United States in other areas.

Suppose two business people who have the same business, maybe a factory, maybe a retail store, whatever it is, and they are separated by a channel, and because of different police policies in the two towns, one entity has to spend $6 out of every $100 on security, and the other entity spends $1. Who will win the competition for market share? That is the United States and Japan. When Japan needed the help, we gave it unstintingly and generously. Today, we are in the bizarre position of spending billions of dollars of American taxpayer money every year, money we have to borrow, to defend Japan, when Japan is quite wealthy enough to pay the United States for it.

□ 1610

The situation is similar with South Korea. The South Koreans do face a threat from an ugly and immoral North Korean regime, although there may be some signs of change. But South Korea is larger than North Korea. It has a bigger population, and it has a better industrial base. Surely they do not need 43,000 American ground troops. They need American commitment, which they should have.

And it is not simply the case in Asia; it is also the case in the Middle East. We should be insisting that our allies do more. We could not wait for that, because had we waited, we might have confronted a situation where Saddam Hussein would have seized part of Saudi Arabia. So the President, I believe, did the right thing by moving in, and he is doing the right thing by asking for a share. But that principle, which makes sense in the Middle East, makes equal sense in Western Europe, and it makes sense in South Korea and it makes sense in Japan.

The Bonior amendment and other amendments give us the chance to say to our allies that the free ride is over. We are willing to be equal participants in the defense of common interests, but we are not willing to be suckered into paying and paying and paying a subsidy to those who are at least as wealthy as we are.

Mr. Speaker, I hope the amendments are adopted when we consider the bill.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the gentlewoman from New York [Ms. MOLINARI].

Ms. MOLINARI. Mr. Speaker, today I rise in support of the rule, and I thank the chairman and the ranking minority of the committee and the committee members for making it in order.

My amendment which will be discussed early tomorrow seeks to substitute for the Bennett amendment, which would destroy a naval station existing and operating in my district right now. The Bennett amendment would subject Naval Station New York to an action enforced upon no other military installation in our Nation, in our Nation's history. It would fly in the face of the Base Closure and Realignment Act.

Why would they do this? I have great respect for Chairman BENNETT. He sent a letter out saying that this is not a parochial move, although he himself enjoys a home port which reaps $1.7 billion of Federal taxpayer money a year. Both of my colleagues, Chairman BENNETT and the gentlewoman from Colorado [Mrs. SCHROEDER], say this is about cost, and yet it will cost more to close this base down than it will cost to keep it functioning and operating.

So why? Why are we making this drastic move on just this one port, just this one military installation in 50 States? Perhaps this "Dear Colleague" letter to my colleagues sums it up in the last paragraph:

> New York City doesn't want the base. The base would open in an overwhelming Democratic area, but the city's Democratic mayor and 11 of the 12 Democratic city Representatives have told us, Congress, "Close the base."

What is that last paragraph saying? Is it saying that Democrats should decide national defense issues based upon in whose district the base is located? Perhaps it is saying that Democrats know more about national security than anybody else. Maybe it is saying that Democrats are willing to pay less for national security than any other political party.

Of course, none of that is accurate. Clearly, what they are saying is that this is a political party vote on national defense. I appeal to my Democratic colleagues tomorrow to judge the issues of the facts. You may decide on the facts to vote against the Molinari substitute. You may decide for the first time to start the ball rolling and subject every base in this country vulnerable to partisan policy or parochial attack, but your vote should not be cast on what is in the best interest of the Republican Party or the Democratic Party.

Mr. Speaker, I appeal to my colleagues through this exception in the rule to decide what is in the best interests of our country.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Members who just spoke, the gentleman from Massachusetts [Mr. FRANK] was eloquent in his presentation. I have a couple of things to say about that. But I also want to thank him in advance for his efforts in fairness, in passing legislation out of his subcommittee and out of the Committee on the Judiciary and referring it over to the Committee on Armed Services that would restore the pension, specifically, of Lt. Col. Oliver North and others like him who were being discriminated against because of the way the law was being interpreted.

Mr. FRANK. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Massachusetts.

Mr. FRANK. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I want to thank the gentleman for bringing that forward and for cooperating with us so that we were able to do it, not as an individual favor, because we changed public policy since many of us believe, I think, including the gentleman and I, that if you come before a court in a criminal situation, you should be treated like anybody else. We had this anomaly where some people lost their pensions and others did not.

Mr. Speaker, I think we have improved the criminal justice system, and I thank the gentleman for taking the initiative and giving us a chance to do that.

Mr. SOLOMON. Mr. Speaker, the gentleman was most fair, as he usually is, and certainly we thank him for his consideration.

Mr. FRANK. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. I yield to the gentleman from Massachusetts.

Mr. FRANK. What do you mean, "usually"?

Mr. SOLOMON. Mr. Speaker, let me just say also that the gentleman from Massachusetts [Mr. FRANK] was talking about the North Koreans. That was also true back in 1950 when North Korea invaded South Korea. It just so happened that they were backed up by a billion Chinese, and nothing has happened since. A billion Chinese are still there, and they are run by one of the most inhumane governments in the world, the Communist government that is in effect there.

The gentleman also mentioned that Japan and Germany now have some of the most democratic governments in the entire world, and, yes, he is right. Let me just say that the reason they have some of the most democratic governments in the world is because the United States of America and its allies beat their brains out in the Second World War. This is why they have a democratic government today.

Let us contrast that with what happened in the Korean War when we, because of our politicians, only went up to the 38th parallel and stopped; now the rest of that country, North Korea,

is still run by these same despots, these same Communists who have run that country since 1945.

Let us look at Vietnam. The same thing happened there. The politicians got involved, and we failed to win that war. So Vietnam is still ruled by these same Communists who have no respect for human life at all.

Mr. Speaker, let me just say in closing the debate here that we can be so proud of the United States military today and of the young men and women who serve throughout this country and the world. If you have traveled throughout the military bases, as I have, here and overseas, you know that we have a cross-section of America today operating an all-volunteer military—no draft involved, just young men and women who want to serve their country.

Let us contrast our military preparedness that we have in Saudia Arabia, something we can be proud of, with what we had in 1980. I can recall in 1980 a B-52 bomber that was being flown at that time which was older than the pilots who were flying those planes. I can recall one out in Colorado where the wing absolutely fell of the plane.

That was the condition of our military. Our young men and women who were trying to serve in the military had to live on food stamps. And Jimmy Carter, with all due respect to him, tried to rescue American hostages in Iran; we had to cannibalize parts for eight helicopter gunships just to get a few that would work, and those failed. That was our ability to defend American interests back in 1980.

Today, thank God, because of Ronald Reagan and because of George Bush and this Congress backing them up, we went through a period of peace through strength so that today we can defend ourselves over in Operation Desert Shield. We can defend American interests around this world, and we ought to be enacting a program here this week that will provide a decent Defense authorization bill that will keep us in that position.

Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, for the purpose of debate only, I yield 2 minutes to the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Speaker, I commend the Rules Committee for this rule on the Defense bill.

This is a particularly difficult time. It is hard to imagine a time when this country has faced greater challenges. We are now the single largest debtor nation in the world. We constantly have to tell the American people that we cannot provide adequate health care or adequate educational opportunities, and the challenge is before us on environmental policy and others that put pressure on the administration. These are things the leaders of this Congress are trying to work on now. For our part, we have to be ready to make tough choices as well.

It is hard to make the argument that we need a larger Defense budget to confront Saddam, Hussein than we needed to confront the Soviets. So we do have to go through some change. We have to find ways to convert our economy from a defense-dependent economy to an economy that spends more of its dollars on engineering and moving to exports.

□ 1620

We have to make sure that the workers who built the defense establishment of this Nation are not simply left behind. I would particularly like to commend the Rules Committee and its chairman for including the MAVROULES amendment that Congressman MAVROULES and myself and others, the majority leader, spent over the last year or so working on to make sure that the choice for America's defense workers was not either to simply let them drop off a cliff or try to make products that were not needed.

There are going to be changes. We have already had those affect each of our districts. In my district the workers at UNC have been laid off without any real opportunity, without the kind of program that is necessary to convert our economies. If we abandon these workers who helped build the best defense in the world, we have not fulfilled our obligations. If we allow our economy to disintegrate because of the changes that have occurred in this world, we have not fulfilled our responsibilities as Members of Congress.

The choice ought not to be massive unemployment or building weapons systems that are no longer necessary. We need to harness that energy, that talent, that capital, and those facilities to build a stronger economy for the future. That is going to be the real test for this Nation, to provide for an adequate defense and to have an economy that can sustain that defense and sustain the needs of the citizens of this country.

I thank the Rules Committee for the time and commend them for the work they have done.

Mr. SOLOMON. Mr. Speaker, I have no more requests for time, and I yield back the balance of my time.

Mr. FROST. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

NATIONAL HISTORICALLY BLACK COLLEGES WEEK

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 285), to designate the period commencing September 9, 1990, and ending on September 15, 1990, as "National Historically Black Colleges Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection of the request of the gentleman from Ohio?

Mrs. MORELLA. Reserving the right to object, Mr. Speaker, I yield to the gentleman from South Carolina [Mr. SPENCE], who is the chief sponsor of House Joint Resolution 552.

Mr. SPENCE. Mr. Speaker, I thank the gentlewoman for yielding to me.

Mr. Speaker, I rise today in support of Senate Joint Resolution 285, a resolution to designate this week, September 9 through September 15, as "National Historically Black Colleges Week." I have introduced the House companion bill, House Joint Resolution 552.

Over the past few years, I have been privileged to have sponsored legislation commemorating National Historically Black Colleges Week, and it is my honor to do so again. These schools are certainly deserving of recognition for the invaluable service that they have provided to our great Nation. Across the country there are 107 historically black colleges and universities, located in 20 States plus the District of Columbia and the Virgin Islands. Six of these institutions are located in my district alone.

I think we all realize the importance of education to full participation in our complex, highly technological society. Throughout their existence, historically black colleges and universities have provided, and continue to provide, the quality education that is vital in enabling individuals to improve their lives and the livelihoods of their families. They have allowed many underprivileged students to attain their full potential through higher education.

Mr. Speaker, it is appropriate that we honor historically black colleges and universities in this way.

At this time, I would like to express appreciation to those who have been so helpful in bringing this resolution before the House today; namely, the 223 cosponsors; the chairman of the full committee, the gentleman from Michigan [Mr. FORD]; the ranking member, the gentleman from New York [Mr. GILMAN]; the chairman of the subcommittee, the gentleman from Ohio [Mr. SAWYER]; and the

ranking member, the gentleman from Pennsylvania [Mr. RIDGE]. I would also like to thank the staffs of these Members and the committee staffs.

Mr. Speaker, again I would like to thank these people for their support in the consideration of this resolution.

Mrs. MORELLA. Mr. Speaker, further reserving the right to object, I just want to thank the gentleman for his sponsorship of this important resolution.

In the State of Maryland we have at least three historically black colleges which are renowned for the quality of their education and for nurturing leadership: the University of Maryland on the Eastern Shore, Bowie State University, and Morgan State University.

Mrs. MORELLA. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 285

Whereas there are 107 Historically Black Colleges and Universities in the United States;

Whereas such colleges and universities provide the quality education so essential to full participation in a complex, highly technological society;

Whereas black colleges and universities have a rich heritage and have played a prominent role in American history;

Whereas such institutions have allowed many underprivileged students to attain their full potential through higher education; and

Whereas the achievements and goals of the Historically Black Colleges are deserving of national recognition: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the period commencing September 9, 1990, and ending on September 15, 1990, is designated as "National Historically Black Colleges Week" and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States and interested groups to observe such week with appropriate ceremonies, activities, and programs, thereby demonstrating support for Historically Black Colleges and Universities in the United States.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NATIONAL REHABILITATION WEEK

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 279) to designate the week of September 16, 1990, through September 22, 1990, as "National Rehabilitation Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mrs. MORELLA. Reserving the right to object, Mr. Speaker, the minority has no objection to this important resolution, but does want to commend the prime sponsor, the gentleman from Pennsylvania [Mr. MCDADE].

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 279

Whereas the designation of a week as "National Rehabilitation Week" gives the people of this Nation an opportunity to celebrate the victories, courage, and determination of individuals with disabilities in this Nation and recognize dedicated health care professionals who work daily to help such individuals achieve independence;

Whereas there are significant areas where the needs of such individuals with disabilities have not been met, such as certain research and educational needs;

Whereas half of the people of this Nation will need some form of rehabilitation therapy;

Whereas rehabilitation agencies and facilities offer care and treatment for individuals with physical, mental, emotional, and social disabilities;

Whereas the goal of the rehabilitative services offered by such agencies and facilities is to help disabled individuals lead active lives at the greatest level of independence possible; and

Whereas the majority of the people of this Nation are not aware of the limitless possibilities of invaluable rehabilitative services in this Nation: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That,

(1) the week of September 16, 1990, through September 22, 1990, is designated as "National Rehabilitation Week" and the President is authorized and requested to issue a proclamation calling on the people of the United States to observe such week with appropriate ceremonies and activities, including educational activities to heighten public awareness of the types of rehabilitative services available in this Nation and the manner in which such services improve the quality of life of disabled individuals; and

(b) each State governor, and each chief executive of each political subdivision of each State, is urged to issue proclamation (or other appropriate official statement) calling upon the citizens of such State or political subdivision of a State to observe such week in the manner described in paragraph (1).

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

POLISH AMERICAN HERITAGE MONTH

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 289) to designate October 1990 as "Polish American Heritage Month," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mrs. MORELLA. Reserving the right to object, Mr. Speaker, I just want to commend the prime sponsor of the bill, the gentleman from Wisconsin [Mr. KLECZKA] for dedicating October 1990 as "Polish American Heritage Month."

I just returned during the recess from a trip to Poland and noted not only their adherence toward a market economy and trying to emulate the United States but their great love for Americans and their relatives who are here.

Mr. Speaker, I am very pleased to yield to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I thank the gentlewoman for yielding to me.

Mr. Speaker, I am pleased to rise in support of Senate Joint Resolution 289, which designates October 1990, as "Polish American Heritage Month," and commend my good friend Mr. SIMON and my distinguished colleague from Wisconsin, Mr. KLECZKA for their work on this resolution.

I am proud to recognize the myriad of contributions of Polish Americans to life in the United States, and to support legislation that will bring to national attention these contributions.

Since the days of Kosciuszco, ethnic Poles have shared their burning desire for freedom throughout the world. Polish Americans have served in our Armed Forces, and preserved, protected, and defended the American way of life since the inception of the American experience. From our steel mills to top foreign policy positions, to the fields of medicine and law, the contributions of ethnic Poles to the good of American society will be commemorated for generations to come.

Mr. Speaker, Polish Americans can look across the seas to the land of their ancestry and derive pleasure from the raging tide of democracy throughout Eastern Europe. These changes bring hope and inspiration to Polish citizens and give the opportunity to experience some of what their emigre counterparts have experienced in our great Nation for over 200 years. Accordingly, I urge my colleague to join with me in supporting this important resolution.

Mrs. MORELLA. Mr. Speaker, I withdraw my reservation of objection.

Mr. KLECZKA. Mr. Speaker, I rise today to thank my colleagues for approving House Joint Resolution 604, a resolution I introduced earlier this year designating October 1990 as Polish American Heritage Month.

As an American of Polish descent who represents tens of thousands of Polish Americans in Milwaukee and Waukesha Counties, I am proud that the House of Representatives is conferring this great honor on my community.

Poles have worked with other Americans to make this country the prosperous, democratic nation we know today ever since they first arrived in this land among the first settlers at Jamestown, VA in the 17th century. A century later, heroic Poles, such as Kazimierz Pulaski and Tadeusz Kosciuszko, led American patriots in battle against British troops in our War of Independence.

Polish Americans deserve special recognition in their effort and commitment to aid their Polish brothers and sisters in peacefully transforming Poland into a multiparty democracy and a free market economy. Americans of Polish ancestry are among the most enthusiastic investors in the reviving Polish economy.

Like other peoples that came to our shores, Polish Americans have made great contributaions to our society in the arts, sciences, industry, and government. While integrating fully into American society, Polish Americans have retained their own special culture.

The month of October will be a time to highlight and reflect on Polish American accomplishments so that all Americans can gain a deeper understanding and appreciation for this unique culture. I urge my colleagues to avail themselves of opportunities in their districts to celebrate Polish American Heritage Month by eating our delicious food, viewing our colorful folk dances, and listening and dancing to our famous polkas.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 289

Whereas the first Polish immigrants to North America were among the first settlers of Jamestown, Virginia in the seventeenth century;

Whereas Kazimierz Pulaski, Tadeusz Kosciuszko, and other Poles came to the British colonies in America to fight in the Revolutionary War and to risk their lives and fortunes for the creation of the United States;

Whereas Poles and Americans of Polish descent have distinguished themselves by contributing to the development of arts, sciences, government, military service, athletics, and education in the United States;

Whereas, the Polish constitution of May 3, 1791, was modeled directly on the constitution of the United States, is recognized as the second written constitution in history, and is revered by Poles and Americans of Polish descent;

Whereas Poles and Americans of Polish descent take great pride and honor the greatest son of Poland, His Holiness Pope John Paul the Second;

Whereas Poles and Americans of Polish descent and people everywhere applauded the efforts of Solidarity's leader Lech Walesa and the Polish Government in holding a Round Table conference in February-April 1989, which led to a peaceful transition to a multi-party democracy;

Whereas Americans of Polish descent and Americans take great pride in the election of Tadeusz Mazowiecki as Prime Minister of Poland;

Whereas Americans of Polish descent and Americans support the struggle of the Polish people to move toward a free-market economy; and

Whereas the Polish American Congress is observing its forth-sixth anniversary this year and is celebrating October 1990 as Polish American Heritage Month: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That October 1990 is designated "Polish American Heritage Month", and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such a month with appropriate ceremonies and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CRIME PREVENTION MONTH

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 309) designating the month of October 1990 as "Crime Prevention Month," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

□ 1630

The SPEAKER pro tempore (Mr. MAZZOLI). Is there objection to the request of the gentleman from Ohio?

Mrs. MORELLA. Mr. Speaker, reserving the right to object, I yield to the gentleman from New York [Mr. GILMAN], the ranking member of the Committee on Post Office and Civil Service.

Mr. GILMAN. Mr. Speaker, I rise in strong support of Senate Joint Resolution 309, which designates the month of October 1990 as "National Crime Prevention Month."

The terrible violence and suffering associated with the national scourge of illicit drug abuse has helped to energize the public outcry against all crime. While personal efforts by individual citizens are important, organized community crime prevention is imperative if the war on drugs and other crime is to be won.

Organized community action when in cooperation with local law enforcement officials can effectuate positive change. By mobilizing our citizens in an all out effort can help eradicate crime from our homes and our neighborhoods.

As we celebrate the 10th Anniversary of the National Citizen's Crime Prevention Campaign which features the McGruff crime dog, the outstanding efforts of the crime prevention campaign as well as those of the Department of Justice and a variety of organizations promoting local partnerships among our law enforcement agencies should be recognized and commended. It is through these programs that the quality of life in communities across our Nation is being improved.

Mr. Speaker, I urge all my colleagues to join with me in supporting this important resolution.

Mrs. MORELLA. Mr. Speaker, I thank the gentleman from New York [Mr. GILMAN] for his comments on this very important issue, and, before I withdraw my reservation, I want to say it is a pleasure to be a floor manager with my good friend, the gentleman from Ohio [Mr. SAWYER]. I have not done this for a while.

Mr. PRICE. Mr. Speaker, I rise in support of the resolution designating October 1990 as "Crime Prevention Month." I first want to thank Representative BILL HUGHES, chairman of the Judiciary Subcommittee on Crime, and Representative HAMILTON FISH, ranking minority leader on the Judiciary Committee, for working with me in promoting this resolution.

I hope all of our colleagues in the House and Senate will use Crime Prevention Month to commend the community-based organizations and programs that work to reduce crime in our communities everyday, and to encourage more of our constituents to get involved in these programs.

Citizen involvement has led to the development of diverse local partnerships among law enforcement agencies, citizens, businesses, and government such as: Neighborhood Watch, Crime Stoppers; Teens, Crime and the Community; and Congregations and Support for Families. These groups have already taught many people that they do not need to be helpless victims of crime, but by working together they can effectively reduce crime in their neighborhoods. These programs have also helped increase people's pride and shared responsibility in their community. Crime Prevention Month will also highlight the 10th anniversary of the highly successful McGruff The Crime Dog campaign. Through the McGruff campaign millions of schoolchildren have learned about the dangers of substance abuse and how to protect themselves against crime.

For my part, I hope this month will serve as a catalyst in the communities in my district to help teach schoolchildren more about the dangers of drugs; teach senior citizens how to protect themselves from attacks and robberies; and to help groups such as Neighborhood Watch meet the new challenges posed by the abuse or drugs. While skilled law enforcement agents are still the key to preventing crime and maintaining public order, crime prevention by individuals and communities plays a key role as well.

Crime Prevention Month is supported by the Crime Prevention Coalition which is made up

of 130 organizations including the Boy Scouts of America, the National Sheriffs Association, NAACP, FBI, AARP, and the National Association of Attorneys General. I appreciate all they have done to build support for this resolution, and anticipate working with them to make this observance a success.

Mrs. MORELLA. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 309

Whereas it has been proven that community crime prevention efforts are reducing victimization by crime and helping to rebuild a sense of mutual responsibility and shared pride in community;

Whereas the National Citizens' Crime Prevention Campaign, featuring McGruff the Crime Dog and promoted by the United States Department of Justice, the National Crime Prevention Council, the Advertising Council, and the Crime Prevention Coalition, helps spur diverse local partnerships among law enforcement agencies, citizens, businesses, and government which work to reduce crime and improve community life throughout the Nation; and

Whereas the 10th anniversary of McGruff the Crime Dog as a symbol of the Nation's fight against crime and drugs will be celebrated in October 1990: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the month of October 1990 is designated as "Crime Prevention Month", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such month with appropriate programs, ceremonies, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SAWYER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the several Senate joint resolutions just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

COMMUNICATION FROM THE HONORABLE LEON E. PANETTA, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from the Honorable LEON E. PANETTA, a Member of Congress.

HOUSE OF REPRESENTATIVES,
Washington, DC, August 24, 1990.

Hon. THOMAS S. FOLEY,
Speaker of the House,
H-204, Capitol.

DEAR MR. SPEAKER: This is to notify you pursuant to Rule L (50) of the Rules of the House that I have been served with a subpoena duces tecum issued by the Superior Court of California for the County of Monterey.

After consultation with the General Counsel to the Clerk, I will notify you of my determinations required by the Rule.

Sincerely,

LEON E. PANETTA,
Member of Congress.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 188

Mr. BRYANT. Mr. Speaker, I ask unanimous consent to remove my name as a cosponsor of H.R. 188.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

JAPAN SHOULD CONTRIBUTE MORE

(Mr. DONALD E. "BUZ" LUKENS asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous material).

Mr. DONALD E. "BUZ" LUKENS. Mr. Speaker, Japan is not shouldering a proportional share of the burden in the Middle East crisis, especially in light of what they have at stake. In the next 6 months, it will cost the United States $20 billion to maintain our forces in the Middle East, including the $7 billion debt we are forgiving Egypt. That is only if there is no military action over the next months.

What is Japan, the wealthiest country in the world, contributing? Not one soldier, not on plane, not one ship, and relatively little financial assistance in relation to her wealth and vital energy interests in the region.

What is Japan receiving? Multinational protection for 90 percent of her total energy requirements and 70 percent of her oil which is imported directly from the Middle East.

Japan should contribute more assistance that is proportionately accurate with the enormous interest she has at stake.

[From Newsweek, Sept. 17, 1990]

THE HIGH COST OF GIVING

We have more will than wallet," George Bush declared in his Inaugural Address last year. His response to Saddam Hussein has proven that. The United States is long on will to roll back the Iraqi leader's annexation of Kuwait. But as the world's largest debtor nation, it lacks the wallet for a protracted stay in the Persian Gulf. At the current level of commitment, Operation Desert Shield is expected to cost $17.5 billion by the end of fiscal 1991 (chart). Last week Secretary of State James Baker hopscotched across the gulf region and Treasury Secretary Nicholas Brady hit Europe and Asia in what Sen. Richard Lugar (Indiana Republican) called an "international United Way campaign." After talks in the oil-rich emirate of Abu Dhabi, Baker said, "We're making very good progress here."

It was a good haul. The Kuwaiti emir, Sheik Jabiral-Ahmad al-Sabah, now exiled in Taif, Saudi Arabia, offered $2.5 billion to offset U.S. military expenses to the end of 1990. The Saudi government promised to cover all of the "incountry" costs of American forces on Saudi soil—several hundred million dollars a month. Baker would only describe talks with the United Arab Emirates as "very forthcoming." In addition, Kuwait said it would extend $2.5 billion to frontline countries like Jordan, Egypt and Turkey, in compensation for losses suffered under the embargo against Iraq. In all, it seemed possible that the aid would almost cover the costs of the U.S. commitment, at least in the short run.

For the oil producers of the gulf (with the obvious exception of Kuwait) even these amounts are small compared with the billions of dollars in windfall they can expect from higher oil prices caused by the crisis. "This is a battle for survival and a few billion dollars don't mean much in that context. We will pay whatever it costs," said a Saudi official last week. In fact, it is oil consumers everywhere, America included, who will pay. For the whole world, an oil-price increase of $10 a barrel translates into a $36 billion annual payment to Saudi Arabia—money that will then be "recycled" into defraying the costs of the American military presence in the Middle East.

Meanwhile, Treasury Secretary Brady came away from his trip virtually empty-handed. Japanese officials told him that aid to countries hurt by the embargo will be "on a considerable scale"—an earlier promise was for $1.3 billion. Washington wants the aid quickly to help governments that otherwise might be tempted to break the sanctions against Iraq. Japanese Foreign Ministry sources said Japan felt it was "doing its best," but insisted there are institutional constraints in place that the government is not going to be able to get around any time soon. "Their bill will go higher," said one senior Bush aide. Washington also wants $720 million more from Tokyo for defense assistance to the United States. If the aid materializes, it will likely be in the form of in-kind contributions such as equipment or troop transportation services and in assuming more of the expenses for stationing U.S. troops in Japan.

Aside from participating in sanctions, Japan hasn't done much so far. This week the first team of Japanese medics are supposed to head for the region: one government official says perhaps 10 to 20 doctors, another says three. Last week a ship loaded with 800 four-wheel-drive vehicles, requested by the U.S. military, set out for the gulf—after a two-day strike by seamen who refused to sail with the cars to the gulf. Already congressmen returning from the Persian Gulf have warned Bush that Capitol Hill's patience will wane if American troops are sweltering in the Saudi heat by themselves, unaided by cash support from countries that depend far more on Mideast oil than Americans do. The Japanese "want to play golf at your club," said an angry Kuwaiti financier last week, "but they don't want to pay the dues."

As for West Germany, Bonn is willing to come close to the U.S. request of about $637 million to help countries hurt by the embar-

go. But the West Germans have vetoed supplying funds for U.S. military forces in the region. Rather, they will offer up ships and planes to transport American troops. The West Germans complain that the United States balked at Bonn's own scheme to bail out Eastern Europe and the Soviet Union. They say that their own energies are absorbed by the effort to reunify with East Germany, which will also absorb most of their spare cash over the next few years.

Though the administration's cost estimates have the ring of scientific precision, no one really has any idea how high the final price tag of the crisis might go. The Pentagon's cost estimate assumes a stay in the gulf at least through September of next year. But it also assumes that a shooting war won't break out. After that, all bets are off. The long-term costs to other countries are no clearer. Iraq and Kuwait were so thoroughly tied in to the world economy that there is essentially no end to the countries that can claim some harm from the cutoff of trade, with them. Brazil, which depended heavily on Iraqi crude, will lose $450 million per year from higher oil prices. Pakistan stands to lose almost $1 billion next year in lost wages from Pakistani workers streaming out of Iraq and Kuwait; Philippine workers could lose $100 million annually. The Institute for International Economics estimates Eastern Europe stands to lose $465 million next year in higher oil prices and lost exports. And with the oil pipeline from Iraq cut, the East Europeans have no way to recover the money Iraq owes them. Bulgaria alone says Iraq owes it $1.2 billion. Romania estimates it will lose $2.7 billion from the sanctions. Having seen that the Saudis and Kuwaitis are opening their wallets, many countries will be tempted to inflate the degree of pain they are suffering in effect demanding a higher payoff for staying on board the U.S.-led embargo. Administration economists are already trying to sort out legitimate relief requests from opportunistic attempts to grab a piece of the Kuwaitis' rock. As the crisis drags on and the costs rise, the United States may find that petrodollars are only a temporary solution to a permanent mismatch between America's global responsibilities and its internal resources.

ORDER OF BATTLE

Last week the Pentagon disclosed the incremental costs of Desert Shield through September 1991: Washington is planning for a long stay in the gulf.

[In millions of dollars [1]]

Item	Total cost
Deployment: Includes airlift, sealift and other deployment costs (support ships, storage, etc.)	5,300
Fuel costs: Increased use and cost of fuel	2,040
Reserve callup: Active duty pay, transport, support	3,015
Operating Expenses: Spares, logistics support	3,085
In-theater support: Housing, water, sanitation, etc	2,095
Construction costs: Facilities designed for 24 months of use	1,830
Other: Medical, family-separation pay, miscellaneous	165

INTRODUCTION OF MEDICAID PHYSICIAN SERVICE QUALITY IMPROVEMENT ACT OF 1990

(Mr. WEISS asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. WEISS. Mr. Speaker, today I am introducing legislation to prevent incompetent and negligent physicians from treating Medicaid patients. The need for this legislation has been identified during the ongoing investigation of the Medicaid Program being conducted by the Subcommittee on Human Resources and Intergovernmental Relations, which I have the privilege to chair. We conducted an initial hearing in my home State of New York, whose problems are similar to those of other States with large urban populations.

Our investigation is finding that substantial numbers of Medicaid patients are subjected to highly dangerous medical treatment by negligent or incompetent physicians. Although I believe these physicians represent a very small percentage of our Nation's doctors, in a State like New York—where only 15 percent of the licensed physicians treat Medicaid patients—the poor care provided by those few doctors can wreak medical havoc on thousands of patients.

In large urban areas such as New York City, we have identified patterns of poor care involving physicians who are often educated in Third World countries and are certified to practice by a loose State medical licensing system. These physicians are hired by unscrupulous entrepreneurs to work in shared health facilities, more commonly known as Medicaid mills. The care provided by the worst Medicaid mills is characterized by a wide range of improper practices, including blatant drug dealing, overutilization of diagnostic tests, and the failure to provide even minimal quality of care.

In New York City, it is estimated that there is a shortage of 500 physicians in innercity neighborhoods with large Medicaid-eligible populations. Of the doctors who are available, most do not provide the full spectrum of care considered to be basic medical practice in the United States. The majority of these physicians lack board certification or hospital affiliations, including more than half of those who provide care to pregnant women.

It is astonishing that some of these physicians are licensed and allowed into the Medicaid Program in the first place. But compounding the problem is the inability or unwillingness of Federal or State Medicaid authorities to remove dangerous doctors from the Medicaid system, even after their maltreatment of Medicaid patients has been identified.

Financial fraud is treated more seriously by State Medicaid agencies than negligent medical care. More resources are spent on fraud investigations than quality of care reviews. Typically, physicians excluded from the Medicaid Program or delicensed by State boards are removed because they committed fraud. Doctors who practice poor quality of care are rarely disciplined with more than a slap on the wrist.

Our review of all Medicaid physicians referred to the New York medical licensing authority for disciplinary action in 1987 and 1988 found that the penalties recommended by the State department of health had been dismissed or lessened in 40 percent of the cases. Most of these cases involved fraud. The most egregious quality of care cases investigated by the State were not referred for discipline at all.

We also found that, of the few doctors who are excluded from the Medicaid Program, most continue to practice medicine and eventually return to the program after the exclusionary period.

The Federal Government need not condone the leninent treatment given to dangerous physicians. We should close the loopholes that allow incompetent physicians to treat Medicaid patients. Today I am proposing remedial steps that the Congress can adopt to prevent truly incompetent and negligent physicians from treating Medicaid patients.

The Medicaid Physician Service Quality Improvement Act of 1990 will help State governments keep tabs on incompetent doctors by requiring that Medicaid physicians have unique identifying numbers for billing purposes. Under this provision, the identifying numbers of the physicians who actually treat Medicaid patients must be included in the billing, thus preventing incompetent physicians from using large health care firms to disguise their participation in Medicaid.

The bill also requires foreign medical school graduates to pass a certification exam already required for participating in the Medicaid Program in order to be eligible for Medicaid reimbursements.

To prevent the problem of unqualified doctors providing specialized treatment to patients, the bill would require that physicians providing pediatric and obstetrical services either be certified or hospital-affiliated in these specialities, or have a consulting arrangement with a physician who is certified or hospital-affiliated.

The legislation would also require State governments to conduct quality of care reviews of high-volume physicians or health care plans.

Finally, my proposal would require all State health care agencies to report all adverse findings involving physicians in the Medicaid Program to the Federal Government, even when no

formal action has been taken against the physician.

These protections for Medicaid patients will not create additional costs for the program; in fact, they should save money by keeping out of the program physicians who are prone to overutilization. The intent of my proposed bill is to ensure that Medicaid patients receive the best available care, and that the program no longer be susceptible to rip-off artists and unqualified physicians. I urge my colleagues to support the Medicaid Physician Service Quality Improvement Act of 1990.

H.R.—

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicaid Physician Service Quality Improvement Act of 1990".

SEC. 2. USE OF UNIQUE PHYSICIAN IDENTIFIERS.

(a) ESTABLISHMENT.—The Secretary of Health and Human Services (in this Act referred to as the "Secretary") shall established a system, for implementation by not later than July 1, 1991, which provides for a unique identifier for each physician who furnishes services for which payment may be made under a State plan approved under title XIX of the Social Security Act. Such systems may be the same as, or different from, the system established under section 9202(g) of the Consolidated Omnibus Budget Reconciliation Act of 1985.

(b) USE OF UNIQUE IDENTIFIERS.—

(1) REQUIRING INCLUSION WITH CLAIMS.—Section 1903(i) of the Social Security Act (42 U.S.C. 1396b(i)) as amended—

(A) by striking the period of the end of paragraph (9) and inserting "; or", and

(B) by inserting after paragraph (9) the following new paragraph:

"(10) with respect to any amount expended for physicians' services furnished on or after the first day of the first quarter beginning more than 60 days after the date of establishment of the physician identifier system under section 2(a) of the Medicaid Quality Improvement Act of 1990, unless the claim for the services includes the unique physician identifier provided under such system.".

(2) MAINTENANCE OF ENCOUNTER DATA BY HEALTH MAINTENANCE ORGANIZATIONS.—Section 1903(m)(2)(A) of such Act (42 U.S.C. 1396(m)(2)(A)) is amended—

(A) by striking "and" at the end of clause (vii),

(B) by striking the period at the end of clause (viii) and inserting "; and", and

(C) by adding at the end the following new clause:

"(ix) such contract provides for maintenance of sufficient patient encounter data to identify the physician who delivers services to patients.".

MAINTENANCE OF LIST OF PHYSICIANS BY STATES.—Section 1902(a)b of such Act (42 U.S.C. 1396a(a)) is amended—

(A) by striking "and" at the end of paragraph (52),

(B) by striking the period of the end of paragraph (53) and inserting "; and", and

(C) by inserting after paragraph (53) the following new paragraph:

"(54) maintain a list (updated not less often than monthly, and containing each physician's unique identifier provided under the system established under section 2(a) of the Medicaid Quality Improvement Act of 1990) of all physicians who are certified to participate under the State plan.".

(4) EFFECTIVE DATE.—

(A) The amendments made by paragraph (2) shall apply to contract years beginning after the date of the establishent of the system described in subsection (a).

(B) The amendments made by paragraph (3) shall apply to medical assistance for calendar quarters beginning more than 60 days after the date of establishment of the physician identifier system under subsection (a).

SEC. 3. FOREIGN MEDICAL GRADUATE CERTIFICATION.

(a) PASSAGE OF FMGEMS EXAMINATION IN ORDER TO OBTAIN IDENTIFIER.—The Secretary shall provide, in the identifier system established under section 2(a), that no foreign medical graduate (as defined in section 1886(h)(5)(D) of the Social Security Act) shall be issued an identifier under such system unless the individual has passed the FMGEMS examination (as defined in section 1886(h)(5)(E) of such Act).

(b) EFFECTIVE DATE.—Subsection (a) shall apply with respect to issuance of an identifier applicable to services furnished on or after January 1, 1992.

SEC. 4. MINIMUM QUALIFICATIONS FOR BILLING FOR PHYSICIANS' SERVICES TO CHILDREN AND PREGNANT WOMEN.

Section 1903(i) of the Social Security Act (42 U.S.C. 1396b(i)), as amended by section 2(b)(1) of this Act, is further amended—

(A) by striking the period at the end of paragraph (10) and inserting "; or", and

(B) by inserting after paragraph (10) the following new paragraph:

"(11) with respect to any amount expended for physicians' services furnished by a physician on or after January 1, 1992, to—

"(A) a child under 21 years of age, unless the physician—

"(i) is certified in family practice or pediatrics by the medical specialty board recognized by the American Board of Medical Specialties for family practice or pediatrics,

"(ii) is employed by, or affiliated with, a Federally-qualified health center (as defined in section 1905(1)(2)(B)),

"(iii) holds admitting privileges at a hospital participating in a State plan approved under this title,

"(iv) is a member of the National Health Service Corps, or

"(v) documents a current, formal, consultation and referral arrangement with a pediatrician or family practitioner who has the certification described in clause (i) for purposes of specialized treatment and admission to a hospital; or

"(B) to a pregnant woman (or during the 60 day period beginning on the date of termination of the pregnancy) unless the physician—

"(i) is certified in family practice or obstetrics by the medical specialty board recognized by the American Board of Medical Specialties for family practice or obstetrics,

"(ii) is employed by, or affiliated with, a Federally-qualified health center (as defined in section 1905(1)(2)(B)),

"(iii) holds admitting privileges at a hospital participating in a State plan approved under this title,

"(iv) is a member of the National Health Service Corps, or

"(v) documents a current, formal, consultation and referral arrangement with a obstetrician or family practitioner who has the certification described in clause (i) for purposes of specialized treatment and admission to a hospital.

SEC. 5. EXPANDING ACCESS OF QUALIFIED PHYSICIANS TO HOSPITALS.

(a) REQUIREMENTS TO QUALIFY AS A DISPROPORTIONATE SHARE HOSPITAL.—Section 1923(d) of the Social Security Act (42 U.S.C. 1936r-4(d)) is amended—

(1) in paragraph (1), by inserting "(A)" after "unless",

(2) in paragraph (1), by inserting before the period at the end the following: ", and (B) the hospital extends admitting privileges to any physician who is qualified to participate under this title, who enters into an agreement with the single State agency described in section 1902(a)(5) to provide services under the plan, and who meets professional standards established by the hospital for the granting of such privileges and agrees to abide by the published bylaws of the hospital and the published bylaws, rules, and regulations of its medical staff", and

(3) in paragraph (2)(A), by striking "Paragraph (1)" and inserting "Paragraph (1)(A)".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to payments under section 1923 of the Social Security Act made on or after July 1, 1992.

SEC. 6. MANDATORY QUALITY REVIEW FOR HIGH-VOLUME PHYSICIANS.

(a) IN GENERAL.—Section 1902(a)(30) of the Social Security Act (42 U.S.C. 1396a(a)(30)) is amended—

(1) by striking "and" at the end of subparagraph (B),

(2) by adding "and"' at the end of subparagraph (C), and

(3) by adding at the end the following new subparagraph:

"(D) provide for (i) independent, external review (in a manner consistent with professionally recognized standards of health care) of the quality of services furnished by any physician who submits claims for services under this title at a rate of visits per month or at a rate of visits per year exceeding a threshold rate per month or rate per year established by the State (which threshold rates may not be greater than 387 visits per month or 4320 visits per year), (ii) independent, external review (in a manner consistent with professionally recognized standards of health care) of the quality of services furnished by a physician, receiving payment through a contract under section 1903(m), who has patient encounters with individuals entitled to medical assistance under this title at a rate of visits per month or at a rate of visits per year exceeding the threshold rates of visits per month or visits per year established under clause (i), and (iii) referral of physicians identified under such a review as not providing quality services to the single State agency under paragraph (5), the medical licensing board of the State, and the Inspector General for the Health Care Financing Administration for possible sanctions;".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to calendar quarters beginning on or after January 1, 1991, without regard to whether or not regulations to implement such amendments have been promulgated by such date.

SEC. 7. REPORTING OF MISCONDUCT OR SUBSTANDARD CARE.

(a) IN GENERAL.—Section 1921(a) of the Social Security Act (42 U.S.C. 1396r-2(a)) is amended—

(1) in paragraph (1), in the matter before subparagraph (A), by inserting "(or any peer review organization or private accreditation entity reviewing the services provided by health care practitioners)" after "health care practitionrs", and

(2) in paragraph (1), by adding at the end the following new subparagraph:

"(D) Any negative action or finding by such authority, organization, or entity regarding the practitioner or entity.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to State information reporting systems as of January 1, 1992, without regard to whether or not the Secretary of Health and Human Services has promulgated any regulations to carry out such amendments by such date.

WE CANNOT GO IT ALONE

The SPEAKER pro tempore (Mr. MCMILLEN of Maryland). Under a previous order of the House, the gentleman from Florida [Mr. IRELAND] is recognized for 5 minutes.

Mr. IRELAND. Mr. Speaker, in late 1986, Iran began attacking ships in the Persian Gulf. The United States responded in March 1987 by reflagging and escorting Kuwaiti ships through the Gulf. The United States called on its allies to help protect shipping lands from aggression by Iran.

Our colleague PAT SCHROEDER and I recently released a General Accounting Office report on burdensharing. The report looks at how fairly the burden of that operation was shared by countries who depend on those shipping lanes to import or export oil.

The GAO report shows that the United States bore the brunt of the burden for keeping oil shipping lanes open in the Persian Gulf in 1987 and 1988. For instance, Japan—which contributed little to keeping the Persian Gulf open during the crisis—depended on oil from that part of the world for 58 percent of its daily consumption. In contrast, the United States dependence on Persian Gulf oil was only 7 percent, while the United States contributed 40 percent of the assets used to protect the gulf. Overall, only 15 nations—nine non-gulf countries and 6 gulf States—lent any support to the effort.

I'm pleased to report, however, that the lessons of the earlier Persian Gulf crisis are being heeded by the Bush Administration. As the current crisis in the gulf unfolds, the President has made it abundantly clear that the United States will not go it alone once again. He is delivering an indisputable message: our allies around the world must contribute, economically, and militarily, to this united effort against the aggressive, terrorist actions of Iraq's Saddam Hussein.

The numbers show that our allies are responding. As of 2 weeks ago, 22 nations had established a physical presence in the gulf—either in troops or equipment. By last Friday, that number had grown to 25 nations. The number and extent of each country's commitment is growing hour by hour.

This cooperation has been an essential element in our strategy to-date. If we tried to do it alone, we'd have 250 million Arabs against us. As it is, we have all the nations of the world with us, united against Iraq.

The American people will continue to support the operation in the Middle East if they are convinced we are not going it alone. We need help from all our allies and from other oil-importing countries to sustain this effort. I'm confident that the President will be able to garner that support.

TRIBUTE TO EARNESTINE SCHNEIDER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. STARK] is recognized for 5 minutes.

Mr. STARK. Mr. Speaker, I rise today to pay tribute to a constituent, Earnestine Schneider, who recently passed away after a lifetime of service to public education in the State of California. Mrs. Schneider had been elected to the board of trustees of the former Pleasanton Joint School District in 1977, and following unification of the local school districts in 1988, she was elected to serve on the first school board of the new district. Her fellow trustees elected Earnestine Schneider to serve as school board president for three terms, and as clerk of the board four terms.

Mrs. Schneider was a familiar figure to California State legislators in her role as an elected member of the California School Boards Association delegate assembly. In that capacity, she worked tirelessly as an advocate for all students' right to a quality education, and she helped to formulate education policy statewide.

Earnestine Schneider began as a teacher of remedial reading, physical education, and dance. After that, she dedicated 20 years as a parent volunteer, 13 years on local school boards, and at least 10 years on county and State school board committees. Through her endless supply of time, energy, and resources, Mrs. Schneider did much to ensure that the children of California receive the best education possible.

Mrs. Schneider's countless contributions extended her role in public education. She was involved in various political activities and was the recipient of several distinguished community service awards, including recognition last year as a "Woman of Distinction" by Soroptimist International of Pleasanton, CA.

I feel privileged to have had Earnestine Schneider as a constituent in my congressional district, and I commend her unwavering dedication to the youth of our community. It is with great respect and admiration that I pay tribute to Mrs. Schneider. She truly understood that the children are our future, and her commitment stands as a monument to public educators everywhere.

ANNUNZIO SUPPORTS LEGISLATION TO DETER GAS PUMP PRICE GOUGING

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO Mr. Speaker, gas prices at the pump have increased tremendously since the Persian Gulf turmoil began on August 2. And for no apparent reason.

Assistant Energy Secretary John J. Easton, Jr. testified before the House Government Operations Committee last week, saying the main reason for rising gasoline prices was a near-record demand during the heavy summer traveling season and the loss of refining capacity in Kuwait. However, he said the Bush administration would not tap the Nation's 560-million-barrel reserve to ease rising prices.

Mr. Easton also put off questions about collusion by the oil industry to push prices up, saying there isn't enough evidence at this point to make statements like that.

But all one has to do is to talk to the customer who pulls into a station to put gas into his car, to get a different opinion. Each time they make a trip to the station, they see a higher price for gasoline. Yet, we're told there is no shortage.

At the start of the Persian Gulf turmoil, I called on President Bush to crack down on the oil companies who unjustly increase prices at the gas pumps and profiteer at the expense of the American public. That is why I strongly support and am cosponsoring legislation to give the President the power to prohibit gas pump price gouging during times of a national emergency.

The oil companies have refused to comply voluntarily, so we in Congress must take strong official action. The United States has dispatched nearly 100,000 young men and women to the Middle East to protect our national security interests. Yet, the oil companies are lining their pockets with extraordinary and unnecessary profits from the black gold coming out of the pumps.

The bill, which I am cosponsoring, would give the President new powers to deter and punish those in the energy industry who take advantage of international crises and raise prices excessively for essential commodities. Currently, price gouging is not illegal under Federal law, unless collusion or price fixing can be proven.

The bill, introduced by Representative RICHARD J. DURBIN of Illinois, would give the President power to declare a national economic emergency in the event of severe market disruptions resulting from war, civil disorder, extraordinary weather, or other catastrophes that result in actual or threatened shortage or price increase for essential commodities, such as oil or other petroleum products. Violators would face criminal penalties of up to 5 years in prison, fines of $500,000 and a return of the profits. The Government could also seek civil remedies such as injunctions, restitution, and double damages.

Mr. Speaker, no one begrudges the oil companies from making a profit from their products. But they should not be allowed to take advantage of a situation where all Americans

are sacrificing. They, too, must sacrifice. If they won't do it on their own, then we must see to it that they do.

NATIONAL EMERGENCY ANTI-PROFITEERING ACT OF 1990

The SPEAKER pro tempore. The gentleman from Illinois [Mr. DURBIN] is recognized for 60 minutes.

Mr. DURBIN. Mr. Speaker, about 5 weeks ago this House of Representatives went into its August recess so that Members could vacation with their families and return home to their congressional districts. Now that we are back in session in Washington, we can reflect on the events of the past week.

Mr. Speaker, we can certainly say that the climate in the world has changed, and certainly the issues that face us here on Capitol Hill have changed dramatically. Few, if any of us, would have predicted that the United States would be as deeply involved militarily today as we are. But I can say without fear of contradiction that President Bush's actions in the Middle East enjoy widespread bipartisan support, not only within this Chamber, but I believe quite honestly across the Nation.

We understood the President had few alternatives. I believe personally even as a Democrat speaking that the President has handled this situation with a great deal of care and restraint. We were encouraged by the fact that he first turned to the United Nations to make certain that the U.S. response was international in tone, and that he worked both with the United Nations and the superpowers around the world to make certain that we did not go it alone.

We have made a major commitment, a much greater commitment than any other nation, and we are working in concert with some 25 other nations in an effort to bring peace and stability to that region of the world.

Mr. Speaker, as I traveled across the 20th District of Illinois, central and western Illinois, I have found support for the President coming from both political parties and independent voters alike.

There is an issue which I would like to address in this special order, however, which is a disquieting note in the course of events which have occurred since August 1. I believe the people of America now, as they have in the past, are prepared to make sacrifices as necessary for the good of this Nation. But I do not believe that now or ever should we be in a position where individuals or corporations within America take advantage of a national emergency.

In my part of the world, in the Midwest, I can say that the people who were infuriated by the savings and loan crisis probably are still infuriated. But they are now angry as well at what happened to gasoline prices across America.

It is virtually unforgiveable to view what happened in gasoline stations and at pumps across America the day after the Mideast crisis began. It appears that in the corporate boardrooms of the greatest oil companies across America, when they heard of the crisis in the Middle East, they sprung into action and sent out their emergency response teams to every gas station across America to increase and inflate the price of gasoline.

This has caused quite a few people to be upset. It has caused many people to reflect on whether or not there is price gouging and profiteering taking place.

Mr. Speaker, I would like to call to mind some things that have occurred during my trip back to Illinois during the last month, and also to reflect on what we should do as the Congress of the United States in response to this situation.

Mr. Speaker, I am reminded of a small businessman in my district who said to me, "You know, Congressman, when you get to think about the fact that your own son might be called into service in the Middle East to defend our energy policies, it really convinces me that we ought to take a look at the way we are consuming energy in the United States, to determine whether or not we can do a better job."

I do not think there is any Member who serves in this Chamber of either political party who does not believe we can do a better job as a Nation. About 10 years ago President Jimmy Carter suggested that we needed a national energy policy. He made that suggestion when we faced an energy shortage. In fact, we were at the mercy of the OPEC nations in terms of our future oil supplies.

President Carter proposed a comprehensive program. We can all recall it. We were turning down our thermostats, adding insulation to our homes. We found cars on the road that got better miles per gallon, and we paid attention to that.

Over the last 10 years we have gotten lazy as a Nation, becoming more and more dependent on foreign oil and not making the personal sacrifice really necessary for us to have a national energy policy that works. We are not changing our lifestyle, changing our consumption habits, but we are going to have to. If we do not, we will become even more dependent in the future on foreign sources of oil.

For those who mocked and ridiculed President Carter's national energy policy, I would suggest that we owe him an apology. Let us dust off those books and find out what was proposed then that did work, and let us return to those policies that make sense today, to lessen our dependence on foreign oil. Because if the United States was not so dependent on foreign oil, perhaps we would not be so committed militarily in the Middle East. There may not be as many American lives on the line if we did not have to rely on the Persian Gulf area for some 27 percent of the oil which the United States consumes.

Of course, now as you look at what has happened, the oil companies around the United States have increased the price of oil dramatically since the Mideast crisis. When you compare the price of gasoline, however, with other countries in the world who are similarly affected by what has happened in the Middle East, you will find some surprises.

For the several weeks following the outbreak of hostilities in Iraq and Kuwait, Japan, even more dependent on foreign oil than the United States, did not see any increase in gasoline prices. In Canada, the increase was nominal.

Why then in the United States overnight did we see this increase of 10 cents, 20 cents, or more per gallon? To my mind these questions have not been adequately answered. The oil companies have said that they are anticipating what might occur down the line. Anticipating what might occur.

They are not suggesting that the oil in the pipelines today is even affected by what is happening in the Middle East. But in fact they have increased their gasoline prices.

What does this mean to us? As a Nation it means a great deal. I for one happen to believe that we have enjoyed remarkable prosperity for 9 years now, but that in fact we could be on the brink of a recession. I hope it is not serious.

We realize as we found in the past that the increase in energy prices across our Nation can send us into a recession, a recession that, of course, would cost us jobs, would cause businesses to fail, and family farmers to lose their farms. It would see downturns in the productive capacity of the United States.

Energy is that critical to our economic future. If the gasoline prices remain high or inflated or beyond what is necessary for a market response, we as a nation will not only pay out of our own wallets as we go to the pump, but will find our own economy unfortunately in terrible trouble.

Mr. Speaker, I hope President Bush when he comes to this Chamber tomorrow evening again will address this issue as to whether or not the oil companies have overstepped, whether or not they are guilty of profiteering. When I first heard of these increases in gasoline I contacted some of the experts in Washington to ask what legislative response could we take at the Federal level to respond to what has

occurred. How do we set loose those forces of our Federal Government to take a look at these gasoline prices and see if they are in fact warranted, and if in fact they are not, what penalties can be imposed?

I was surprised to learn that there are very few options available today. If in fact there was collusion or price fixing, and there is no evidence of that, and I do not suggest it, there is a remedy. But if in fact anyone who has control of a basic commodity sees a national emergency occur and inflates the price of that commodity, there is no law on the books at the Federal level today to address it.

Some States have already responded. In our own State of Illinois, the attorney general, Neil Hartigan, has already started, with other attorneys general across the United States, to take a look at these prices, to determine if they are warranted, and whether any State action could be necessary. But we should do something at the Federal level as well, because it is in fact a national problem.

Mr. Speaker, that is why this week I will be introducing on the floor of this House of Representatives the National Emergency Anti-Profiteering Act of 1990. This act would give the President the power to declare a national economic emergency in the event of abnormal market disruptions resulting from military threat, war, civil disorder, extraordinary weather conditions, or other catastrophic failures that result in actual or threatened shortages or price increases for essential commodities such as oil.

The President must designate under this act the essential commodities with respect to which the national economic emergency exists.

□ 1650

We spell out in this act the essential commodities to include petroleum products such as crude oil, gasoline, diesel fuel, home heating oil, and aviation fuel and any other commodity that the President finds to be of significant importance to the American economy or vital to the public health, safety, welfare of the American citizens.

When the President declares under this act a national economic emergency to exist with respect to any essential commodity, the sellers of that product are prohibited from profiteering under the law, that is, they are prohibited from charging an excessive price for such products, those excessive prices that are not justified by the actual costs plus a reasonable profit. Increasing the price for an essential commodity for which the President has declared a national economic emergency faster than increases in the seller's actual cost for the product actually sold is evidence of profiteering under this law.

People or companies who profiteer during a national economic emergency would be subject to criminal penalties of up to 5 years in prison, fines of up to $500,000 and, of course, they would lose all the profits earned through profiteering.

The Attorney General of the United States and the attorneys general of the States of our Nation can also seek civil remedies including double damages, restitution of profits and injunctions.

A national economic emergency can last only up to 180 days unless renewed by the President, and renewals can last for 90 days each. Congress can terminate a national economic emergency by passing a joint resolution which requires the President's signature or two-thirds majority of each House. The President can terminate it by Presidential order.

State laws are not terminated. This act will not affect State price-gouging statutes.

What we are setting in place is a statute, I hope, which will pass, and I hope will never be needed, but certainly our experience with the crisis in the Middle East and the unwarranted increase in gasoline prices across the Nation should suggest to us that we send a loud and clear message that those individuals or companies who take advantage of a national emergency to increase their profits at the expense of working families must, in fact, be held accountable. There should be statutory authority for the President of the United States to step forward in that instance and to declare that certain commodities are so essential to the well-being of this Nation that they would be protected under this act.

We can see that the impact of increases in gasoline prices and other oil prices across the Nation are going to take their toll. Already some airlines have increased their prices because of fuel costs. There has already been an increase of 3 to 5 percent in food prices according to agricultural economists because of increases in the price of energy just in the past 30 days. Road construction costs are anticipated to increase 30 percent next spring if the price of crude stabilizes at near $28 a barrel and, of course, utilities which are dependent on oil or petroleum will find their rates going up. As people in New England and other parts of the country who are dependent on heating oil face a cold winter, they are going to find their heating bills increasing as well.

This, I hope, does not lead to a serious recession in this country. What I hope it leads to is that the oil companies who are purchasing full-page advertising in newspapers across the United States to suggest they have not crossed the line, that they have not gouged us, I hope they will come to their senses and realize that if the American people are being asked to sacrifice by paying more in taxes to sustain our efforts in the Middle East, if American families are being asked to sacrifice by sending their sons, their husbands, wives, and in many cases daughters overseas to defend the interests of the United States in the Middle East, if that kind of sacrifice is being made by individuals, then certainly we could ask the same spirit of sacrifice and cooperation from the oil companies.

I do not know what the future may hold. I sincerely hope this crisis and emergency will be behind us in short order. If it goes on for some period of time, I hope that this Congress of the United States will consider passing this legislation which I will be introducing this week.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mrs. MORELLA) to revise and extend their remarks and include extraneous material:)

Mr. BURTON of Indiana, for 60 minutes, each day on September 24, 25, 26, 27, and 28.

Mr. IRELAND, for 5 minutes, today.

Mr. MCEWEN, for 60 minutes, today.

(The following Members (at the request of Mr. SAWYER) to revise and extend their remarks and include extraneous material:)

Mr. STARK, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. FRANK, for 60 minutes, today.

Mr. DURBIN, for 60 minutes, today.

Mr. VOLKMER, for 60 minutes, on September 13.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mrs. MORELLA) and to include extraneous matter:)

Mr. BROOMFIELD in two instances.

Mr. LOWERY of California.

Mr. CRANE.

Mr. BEREUTER.

Mr. FRENZEL.

Mr. CONTE.

Mr. WOLF.

Mr. WELDON.

Mr. SCHAEFER.

Mr. OXLEY.

Ms. SCHNEIDER in two instances.

Mr. LEWIS of California.

Mrs. JOHNSON of Connecticut.

Mr. SHAW.

(The following Members (at the request of Mr. SAWYER) and to include extraneous matter:)

Mr. ANDERSON in 10 instances.
Mr. GONZALEZ in 10 instances.
Mr. BROWN of California in 10 instances.
Mr. ANNUNZIO in six instances.
Mr. PAYNE of New Jersey.
Mr. ROE in two instances.
Mr. MONTGOMERY.
Ms. SLAUGHTER of New York.
Mr. BILBRAY.
Mr. BONIOR.
Mr. FRANK.
Mr. WAXMAN.
Mr. ROYBAL.
Mr. VENTO.
Mr. MAZZOLI.
Mr. LANTOS.
Mr. BRYANT.
Mr. SLATTERY.
Mr. EDWARDS of California.
Mr. PALLONE.
Mr. KOSTMAYER in two instances.
Mr. YATRON.

ADJOURNMENT

Mr. DURBIN. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 4 o'clock and 55 minutes p.m.), the House adjourned until Tuesday, September 11, 1990, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

3832. A communication from the President of the United States, transmitting amendments to the fiscal year 1991 request for appropriations for the Departments of Agriculture, Defense, Health and Human Services, the Interior, and Veterans Affairs, pursuant to 31 U.S.C. 1107 (H. Doc. No. 101-233); to the Committee on Appropriations and ordered to be printed.

3833. A communication from the President of the United States, transmitting amendments to the fiscal year 1991 request for appropriations for the Department of Agriculture, the Department of Education, the Department of Health and Human Services, the Department of Labor, the Department of Veterans Affairs, the Board for International Broadcasting, and the U.S. Information Agency, pursuant to 31 U.S.C. 1107 (H. Doc. No. 101-234); to the Committee on Appropriations and ordered to be printed.

3834. A letter from the Secretary, Department of Defense, transmitting a study of close support for land forces, including close air support, pursuant to Public Law 101-189, section 1102(f) (103 Stat. 1553); to the Committee on Armed Services.

3835. A letter from the Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Army's proposed letter(s) of offer and acceptance [LOA] to the Philippines for defense articles (Transmittal No. 90-60), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3836. A letter from the Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Air Force's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles (Transmittal No. 90-58), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3837. A letter from the Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles (Transmittal No. 90-52, pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3838. A letter from the Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles (Transmittal No. 90-53), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3839. A letter from the Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] to Thailand for defense articles (Transmittal No. 90-59), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3840. A letter from the Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] for defense articles (Transmittal No. 90-61), pursuant to 10 U.S.C. 118; to the Committee on Armed Services.

3841. A letter from the Secretary of Defense, transmitting a selected acquisition report [SAR] as of June 30, 1990, for the strategic defense system, phase I, pursuant to 10 U.S.C. 2432; to the Committee on Armed Services.

3842. A letter from the Board of Governors, Federal Reserve System, transmitting the first annual report on the profitability of credit card operations of depository institutions, pursuant to 15 U.S.C. 1637; to the Committee on Banking, Finance and Urban Affairs.

3843. A letter from the Secretary of Health and Human Services, transmitting the 10th annual report on the implementation of the Age Discrimination Act of 1975 by departments and agencies which administer programs of Federal financial assistance, pursuant to 42 U.S.C. 6106a(b); to the Committee on Education and Labor.

3844. A letter from the Secretary of Health and Human Services, transmitting Volume II of the Agency for Toxic Substances and Disease Registry's Biennial Report, pursuant to Public Law 99-499, section 110(10) (100 Stat. 1641; to the Committee on Energy and Commerce.

3845. A letter from the Inspector General, Railroad Retirement Board, transmitting the Board's budget request for fiscal year 1992, pursuant to 45 U.S.C. 231f(f); jointly, to the Committees on Appropriations, Energy and Commerce, and Ways and Means.

3846. A letter from the Chairman, U.S. Consumer Product Safety Commission, transmitting the fiscal year 1992 budget requests, pursuant to 15 U.S.C. 2076(k)(1); to the Committee on Energy and Commerce.

3847. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Air Force's proposed letter(s) of offer and acceptance [LOA] to the Coordination Council for North American Affairs for defense articles and services (Transmittal No. 90-62), pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

3848. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Air Force's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles and services (Transmittal No. 90-58), pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

3849. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Army's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles and services (Transmittal No. 90-60), pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

3850. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] to Thailand for defense articles and services (Transmittal No. 90-59). pursuant to 22 U.S.C. 2776 (b); to the Committee on Foreign Affairs.

3851. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles and services (Transmittal No. 90-52), pursuant to 22 U.S.C. 2776(b), to the Committee on Foreign Affairs.

3852. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] for defense articles and services (Transmittal No. 90-61), pursuant to 22 U.S.C. 2776 (b); to the Committee on Foreign Affairs.

3853. A letter from the Director, Defense Security Assistance Agency, transmitting notification of the Department of the Navy's proposed letter(s) of offer and acceptance [LOA] to Korea for defense articles and services (Transmittal No. 90-53), pursuant to 22 U.S.C. 2776 (b); to the Committee on Foreign Affairs.

3854. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting the 1990-91 report on plans regarding major disasters and incidents abroad affecting U.S. citizens, pursuant to Public Law 101-246, section 115(e) (104 Stat. 24); to the Committee on Foreign Affairs.

3855. A letter from the Director, Arms Control and Disarmament Agency, transmitting the 1989 annual report to Congress on arms control and disarmament studies; pursuant to Public Law 100-213, section 4 (101 Stat. 1445); to the Committee on Foreign Affairs.

3856. A letter from the Assistant Secretary of State for Legislative Affairs, transmitting a letter from the Government of Belgium confirming that it granted export licenses to a private Belgian firm for transfers of F-104 spare parts between 1987-89, without first ensuring that the prior written approval of the U.S. Government had been obtained pursuant to section 3(e) of the Arms Export Control Act; to the Committee on Foreign Affairs.

3857. A letter from the Director, U.S. Information Agency, transmitting a report on USIA-TV's production expenses through the third quarter of fiscal year 1990, pursuant to Public Law 101-246, section 205(a)

(104 Stat. 51); to the Committee on Foreign Affairs.

3858. A letter from the Director, Institute of Museum Services, transmitting a copy of the annual report of the Agency's compliance with the Government in the Sunshine Act for calendar year 1989, pursuant to 5 U.S.C. 552(j); to the Committee on Government Operations.

3859. A letter from the Deputy Associate Director for Collection and Disbursement, Department of the Interior, transmitting, notice of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

3860. A letter from the Secretary of the Interior, transmitting the annual report on oil and gas leasing, exploration and development activities on Federal lands in Alaska for fiscal year 1989, pursuant to Public Law 96-487, section 1008(b)(4); to the Committee on Interior and Insular Affairs.

3861. A letter from the Acting Assistant Administrator for Legislative Affairs, National Aeronautics and Space Administration, transmitting notification concerning the proposed use of $1.7 million in fiscal year 1989 research and development funds for the design and construction of an addition to the avionics systems laboratory, building 16, at NASA's Johnson Space Center, pursuant to Public Law 100-685, section 203 (102 Stat. 4089); to the Committee on Science, Space, and Technology.

3862. A communication from the President of the United States, transmitting a copy of a proclamation that extends nondiscriminatory treatment to the products of the Czech and Slovak Federal Republic; also enclosed is the text of the "Agreement on Trade Relations Between the Government of the Czechoslovak Federative Republic," pursuant to 19 U.S.C. 2437(a) (H. Doc. 101-231); to the Committee on Ways and Means and ordered to be printed.

3863. A letter from the Secretary, Department of Health and Human Services, transmitting a report on actions States have taken in adopting standards equal to or more stringent than the National Association of Insurance Commissioners [NAIC] model transition regulation for Medicare supplemental health insurance policies, pursuant to 42 U.S.C. 1395ss; jointly, to the Committees on Ways and Means and Energy and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. ROSTENKOWSKI: Committee on Ways and Means. H.R. 5269. A bill to control crime; with amendments (Rep. 101-681, Pt. 2). Ordered to be printed.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 3764. A bill to amend the Wild and Scenic Rivers Act to designate certain segments of the Delaware River in the States of Pennsylvania and New Jersey as components of the national wild and scenic rivers system; with an amendment (Rep. 101-683). Referred to the Committee of the Whole House on the State of the Union.

Mr. JONES of North Carolina. Committee on Merchant Marine and Fisheries. H.R. 4632. A bill to amend title 14, United States Code, to impose penalties for inducing the Coast Guard to render aid under false pretenses, to impose liability for costs incurred by the Coast Guard in rendering that aid, and to authorize appropriations for use for acquiring direction finding equipment for the Coast Guard; with an amendment (Rep. 101-684). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 2335. A bill to provide Federal recognition for the Lumbee Tribe of North Carolina; with an amendment (Rep. 101-685). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 3618. A bill to authorize the lease of lands on the Mille Lacs Indian Reservation for a term not to exceed 99 years; with an amendment (Rep. 101-686). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 3703. A bill to authorize the Rumsey Indian Rancheria to convey a certain parcel of land (Rep. 101-687). Referred to the Committee of the Whole House on the State of the Union.

Mr. CONYERS: Committee on Government Operations. Report on: Are Scientific misconduct and conflicts of interest hazardous to our health? (Rept. 101-688). Referred to the Committee of the Whole House on the State of the Union.

Mr. ANDERSON: Committee on Public Works and Transportation. H.R. 4985. A bill to designate the Federal building located at 51 Southwest 1st Avenue in Miami, FL, as the "Claude Pepper Federal Building" (Rept. 101-689). Referred to the House Calendar.

Mr. ANDERSON: Committee on Public Works and Transportation. House Resolution 402. designating two House of Representatives office buildings as the "Thomas P. O'Neill, Jr. House of Representatives Office Building" and the "Gerald R. Ford House of Representatives Office Building," respectively, and for other purposes (Rept. 101-690). Referred to the House Calendar.

Mr. BROOKS: Committee on the Judiciary. H.R. 467. A bill to provide for a waiting period before the purchase of a handgun; with an amendment (Rept. 101-691). Referred to the Committee of the Whole House on the State of the Union.

Mr. JONES of North Carolina. Committee on Merchant Marine and Fisheries. H.R. 3977. A bill to protect and conserve the continent of Antarctica, and for other purposes; with an amendment (Rept. 101-692, Pt. 1). Ordered to be printed.

SUBSEQUENT ACTION ON A REPORTED BILL SEQUENTIALLY REFERRED

Under clause 5 of rule X the following action was taken by the Speaker:

The Committees on Armed Services, Banking, Finance and Urban Affairs, Education and Labor, Energy and Commerce, Government Operations, Interior and Insular Affairs, Public Works and Transportation, and Veterans' Affairs discharged from further consideration of H.R. 5269. H.R. 5269 referred to the Committee of the Whole House on the State of the Union.

SUBSEQUENT ACTION ON A REPORTED BILL

[Omitted from the Record of Sept. 5, 1990]

Under clause 2 of rule XIII, the following action was taken by the Speaker:

H.R. 849. Committee of the Whole House on the State of the Union discharged, and referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. GONZALEZ (for himself and Mr. WYLIE):

H.R. 5558. A bill to provide for the temporary extension of certain programs relating to housing and community development, and for other purposes; to the Committee on Banking, Finance and Urban Affairs.

Mr. GONZALEZ:

H.R. 5559. A bill to amend the National Housing Act to provide mortgage assistance payments to avoid foreclosure on mortgages of members of the Armed Forces who are killed or seriously injured while on active duty; to the Committee on Banking, Finance and Urban Affairs.

By Mrs. BOXER (for herself, Ms. SCHNEIDER, Mr. STARK, Mr. RAVENEL, Mr. MILLER of California, Mr. ROSE, Mr. PANETTA, Mr. DEFAZIO, Ms. PELOSI, Mr. GEJDENSON, Mr. MARKEY, Mr. SCHUMER, and Mr. OWENS of New York):

H.R. 5560. A bill to amend the Motor Vehicle Information and Cost Savings Act to require new standards for corporate fuel economy, and for other purposes; to the Committee on Energy and Commerce.

By Mrs. BYRON:

H.R. 5561. A bill to provide for free mailing privileges for members of the Armed Forces assigned to duty in the Persian Gulf area as part of Operation Desert Shield; to the Committee on Post Office and Civil Service.

By Mr. CONTE (for himself and Mr. IRELAND):

H.R. 5562. A bill to amend the Federal Deposit Insurance Act and the Federal Credit Union Act to establish a limit of $100,000 on the amount of deposit insurance which may be paid to any person during any 36-month period; to the Committee on Banking, Finance and Urban Affairs.

By Mr. McCLOSKEY (for himself, Mr. FORD of Michigan, Mr. CLAY, Mr. HAYES of Illinois, Mr. GILMAN, Mr. HORTON, and Mr. RIDGE):

H.R. 5563. A bill to amend title 39, United States Code, to allow free mailing privileges to be extended to members of the Armed Forces while engaged in temporary military operations under arduous circumstances; to the Committee on Post Office and Civil Service.

By Mr. OWENS of New York:

H.R. 5564. A bill to require that federally insured depository institutions establish random drug testing programs; to the Committee on Banking, Finance and Urban Affairs.

By Mr. WEISS:

H.R. 5565. A bill to amend title XIX of the Social Security Act to improve the quality of physicians' services provided under

the Medicaid Program; to the Committee on Energy and Commerce.

By Mr. GEPHARDT (for himself and Mr. MICHEL) (both by request):

H.J. Res. 649. Joint resolution approving the extension of nondiscriminatory treatment (most-favored-nation treatment) to the products of Czechoslovakia; to the Committee on Ways and Means.

By Mr. RITTER (for himself, Mr. BONIOR, Mr. JONTZ, Mr. HORTON, Mr. SOLOMON, Mr. LIPINSKI, Mr. CAMPBELL of Colorado, Mr. BATES, Mr. HASTERT, Mr. DERRICK, Mrs. ROUKEMA, Mr. HUCKABY, Mr. PAXON, Mr. CHAPMAN, Mr. OWENS of New York, Mr. RIDGE, and Mr. WALSH):

H. Con. Res. 366. Concurrent resolution expressing the sense of the Congress that other countries benefiting from the deployment of U.S. military forces in Saudi Arabia and the Persian Gulf region should contribute to the cost of such deployment; to the Committee on Foreign Affairs.

By Mr. ROHRABACHER:

H. Con. Res. 367. Concurrent resolution expressing the sense of the Congress concerning the May 27, 1990, elections in Burma; to the Committee on Foreign Affairs.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII,

Mr. SHAW introduced a bill (H.R. 5566) for the relief of Patricia A. McNamara; which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 303: Mr. COX, Mr. COSTELLO, Mr. VALENTINE, and Mr. SERRANO.

H.R. 446: Mr. LAUGHLIN and Mr. BEREUTER.

H.R. 708: Mr. HOAGLAND.

H.R. 1260: Mr. DORGAN of North Dakota.

H.R. 1287: Mr. MCMILLAN of North Carolina.

H.R. 1317: Mr. MINETA, Mr. LEWIS of Florida, Mr. BRUCE, Mr. CHAPMAN, Mr. DWYER of New Jersey, Mr. DORGAN of North Dakota, Mr. FASCELL, Mr. HUTTO, and Mrs. PATTERSON.

H.R. 2037: Mrs. KENNELLY, Mr. NEAL of Massachusetts, Mr. EDWARDS of Oklahoma, Mr. MACHTLEY, Mr. WALSH, Mr. DEFAZIO, Mr. FORD of Tennessee, Mr. MCDERMOTT, Mr. SCHULZE, and Mr. FLIPPO.

H.R. 2168: Mr. SHAYS.

H.R. 2353: Mr. EDWARDS of Oklahoma, Mr. SYNAR, Mr. INHOFE, and Mr. HAYES of Louisiana.

H.R. 2460: Mrs. LOWEY of New York, Mr. HATCHER, Mr. WOLPE, Mr. HAYES of Louisiana, Mr. MFUME, Mr. OWENS of New York, and Mr. KENNEDY.

H.R. 2499: Mr. BURTON of Indiana and Mr. ATKINS.

H.R. 2926: Mr. MFUME, Mr. MADIGAN, Mr. SKAGGS, and Mr. COYNE.

H.R. 2967: Mr. KOSTMAYER.

H.R. 2972: Mrs. UNSOELD and Mr. WOLPE.

H.R. 3203: Mr. EVANS.

H.R. 3240: Mr. WEISS and Mrs. KENNELLY.

H.R. 3355: Mr. LEHMAN of Florida.

H.R. 3437: Mr. SMITH of Texas.

H.R. 3546: Mr. SCHEUER.

H.R. 3643: Mr. EDWARDS of Oklahoma.

H.R. 3734: Mr. FAUNTROY, Mr. CROCKETT, Mr. BROWN of California, Ms. ROS-LEHTINEN, Mr. DANNEMEYER, Mr. KOSTMAYER, Mr. FALEOMAVAEGA, Mr. HUGHES, and Ms. SLAUGHTER of New York.

H.R. 3922: Mr. MACHTLEY.

H.R. 3936: Mr. LEVINE of California, Mr. SKAGGS, Mr. STALLINGS, Mr. GONZALEZ, Mr. MATSUI, Mr. GILMAN, Mr. LEVIN of Michigan, and Mr. GLICKMAN.

H.R. 3979: Ms. PELOSI.

H.R. 4098: Mr. MARKEY.

H.R. 4261: Mr. GRADISON.

H.R. 4274: Mr. MCMILLEN of Maryland.

H.R. 4362: Mr. ATKINS.

H.R. 4427: Mr. PASHAYAN.

H.R. 4461: Mr. RAVENEL.

H.R. 4485: Mr. STUMP.

H.R. 4492: Mr. SMITH of Florida and Mr. SKAGGS.

H.R. 4494: Mr. SLATTERY, Mr. FROST, Mr. PURSELL, Mr. HUCKABY, and Mr. CLEMENT.

H.R. 4518: Mrs. LOWEY of New York.

H.R. 4659: Mr. RICHARDSON.

H.R. 4761: Mr. MACHTLEY, Mr. BRYANT, Ms. LONG, Mr. SHUMWAY, Mr. WOLF, Mr. SMITH of New Jersey, and Mr. KOLBE.

H.R. 4801: Mr. JONTZ and Mr. SAXTON.

H.R. 4816: Mr. GUNDERSON.

H.R. 4840: Mr. FEIGHAN, Mr. CAMPBELL of Colorado, Mr. FAUNTROY, Mr. HAYES of Louisiana, Mr. JOHNSTON of Florida, Mrs. PATTERSON, Ms. PELOSI, Mr. KLECZKA, Mr. DURBIN, Mr. TOWNS, Mr. MCCLOSKEY, Mrs. BYRON, Mr. OWENS of New York, Mr. BORSKI, Mr. MURTHA, Mr. COSTELLO, Mr. MARTINEZ, Mrs. ROUKEMA, and Mr. SARPALIUS.

H.R. 4868: Mr. OWENS of New York, Mrs. COLLINS, Ms. MOLINARI, Mr. MARTINEZ, and Mr. MADIGAN.

H.R. 4994: Mr. HERTEL, Mr. HORTON, Mrs. COLLINS, Mr. OWENS of New York, Mr. FAUNTROY, Mr. KOSTMAYER, Mr. CAMPBELL of Colorado, Ms. PELOSI, and Mr. FAZIO.

H.R. 4997: Mr. ROBERTS, Mr. HILER, Mr. ESPY, and Mr. HATCHER.

H.R. 5007: Mr. MCDERMOTT and Mr. ROE.

H.R. 5008: Mr. CONDIT.

H.R. 5050: Mr. COUGHLIN.

H.R. 5052: Mr. HORTON.

H.R. 5097: Mr. JOHNSTON of Florida and Mr. PICKETT.

H.R. 5120: Mr. TOWNS.

H.R. 5154: Mr. MARTIN of New York, Mr. BUSTAMANTE, Mrs. SCHROEDER, Mr. SKELTON, Mrs. LLOYD, Mr. BLAZ, Mr. ROWLAND of Connecticut, Mr. BENNETT Mr. MACHTLEY, Mr. HUTTO, Mr. DORNAN of California, Mr. GEJDENSON, and Mr. MCNULTY.

H.R. 5174: Mr. PACKARD and Mr. DURBIN.

H.R. 5188: Mr. JONTZ.

H.R. 5196: Mr. GOSS.

H.R. 5202: Mr. DEFAZIO, Mr. MOODY, Mr. SAXTON, Mr. SHAYS, and Mr. DURBIN.

H.R. 5212: Mr. FAUNTROY, Mr. FUSTER, Mr. MCMILLEN of Maryland, Mr. PALLONE, Mr. WOLF, Mr. GRANDY, Mr. BRYANT, Mr. WYDEN, Mr. PENNY, Mr. PAYNE of Virginia, Mr. BROWN of California, Mrs. UNSOELD, Mr. CARPER, Mr. GORDON, Mr. MANTON, Mr. WALSH, Mr. RAHALL, Mr. ROYBAL, Mr. STARK, Mr. ROE, Mr. LEATH of Texas, Mr. THOMAS A. LUKEN, Mr. CROCKETT, Mr. LEHMAN of Florida, Mr. EVANS, Mr. PANETTA, Mr. SMITH of Florida, Mr. DELLUMS, Mr. GILMAN, Mr. RANGEL, Mr. PACKARD, Mr. MADIGAN, Mr. BONIOR, and Mrs. BOXER.

H.R. 5216: Mr. THOMAS of California and Mr. VANDER JAGT.

H.R. 5237: Mr. WILLIAMS.

H.R. 5244: Mr. LAUGHLIN, Mr. EMERSON, Mr. CRAIG, and Mr. ROWLAND of Georgia.

H.R. 5288: Mr. BONIOR, Mr. FAZIO, and Mr. FEIGHAN.

H.R. 5306: Mr. COOPER, Mr. DERRICK, Mr. DOWNEY, Mr. MARKEY, Mr. MATSUI, and Mr. RAHALL.

H.R. 5335: Mr. MCNULTY and Mr. BENNETT.

H.R. 5338: Mr. ORTIZ and Mr. DE LUGO.

H.R. 5356: Mr. COYNE, Mr. TOWNS, and Mr. SOLARZ.

H.R. 5426: Mr. MADIGAN, Mr. PARRIS, Mr. BAKER, Mr. HERTEL, Mr. HORTON, Mr. CONTE, and Mr. VALENTINE.

H.R. 5443: Mr. OBEY, Mr. BLAZ, Mr. FAUNTROY, Mr. CARPER, Mr. SMITH of Vermont, Mr. MACHTLEY, Mrs. SAIKI, Mr. SMITH of New Hampshire, Mr. MOAKLEY, Mr. CRAIG, Mr. VENTO, Mr. STALLINGS, Ms. SNOWE, Mr. RAHALL, Mr. FRANK, Mr. MOLLOHAN, Mr. AUCOIN, Mr. MCDERMOTT, Mr. RICHARDSON, Mr. MCMILLEN of Maryland, Mr. OBERSTAR, Mr. RHODES, Mr. THOMAS of Wyoming, Ms. SCHNEIDER, Mrs. COLLINS, and Mr. DICKS.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.R. 188: Mr. BRYANT.

PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

226. By the SPEAKER: Petition of the Association of Pacific Island Legislatures, Guam, relative to the disposal of chemical weapons; to the Committee on Armed Services.

227. Also, petition of the Outer Banks VFW Post 10950, Nags Head, NC, relative to the desecration of the American flag; to the Committee on the Judiciary.

228. Also, petition of the Outer Banks VFW Post 10950, Nags Head, NC, relative to the Rostenkowski plan; to the Committee on Ways and Means.

EXTENSIONS OF REMARKS

IN DESPERATE STRAITS: HUMAN RIGHTS IN PERU

HON. PETER H. KOSTMAYER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. KOSTMAYER. Mr. Speaker, while we were away Americas Watch came out with an excellent report on the human rights situation in Peru. It makes sobering reading.

What alarms me almost as much as the situation itself is the possibility that the United States is exacerbating the situation by strengthening Peru's principal human rights violator—the military—as part of the drug war. I believe this approach is mistaken. The Americas Watch report reinforces my belief.

I include the report's summary and recommendations for the information of my colleagues:

I. SUMMARY AND RECOMMENDATIONS

Peru has reached the end of a crucial and painful decade. Weakened on all fronts, Peru's democracy has resorted to desperate measures to survive, and the cost has been so high that the State can barely sustain it. A new government is about to inherit this crisis, a government elected largely as a protest against traditional leadership and as perhaps the last hope for moderating the violence that grips Peruvian society.

A brutal insurgent movement, *Sendero Luminoso*, undermines the State through terrorism and, ten years into its so-called popular war against the government, is active in most of the national territory. As a result, about half of Peru's twenty million citizens live under sustained state of emergency, effectively governed by the military and lacking basic protections against arbitrary arrest, disappearance, extrajudicial execution by the armed and police forces or the paramilitary groups they tolerate.

The nation's elected leadership, faced with an unparalleled economic crisis, has been unable or unwilling to confront subversion with reforms that could reduce the economic, racial, cultural and regional divisions feeding the insurgency. Nor has it been able to curb the corruption that undermines confidence in the rule of law. After initially seeking to control human rights abuses in the emergency zones, the government of Alan García gradually ceded authority to the military, such that abuses not only have continued but since 1988 have notably increased, even spreading outside the zones of conflict.

As a major producer of coca leaf, the basis for cocaine, Peru also suffers from the criminality and violence that the drug traffick engenders. This aspect of the national crisis has now become internationalized and may be further militarized, as the United States has determined to train army and marine forces for drug interdiction in the coca-producing Upper Hullaga region. Though not engaged in the processing or distribution of cocaine, peasants in the Upper Huallaga jungle areas already feel the effects of the war against drug traffic and *Sendero* in their region; there has been a substantial increase in human rights violations, by both *Sendero* and the official forces, in the past year and a half.

These problems emerge from the poverty in which most Peruvians live and the State's historical failure to respond to the needs of this majority. With the brief exception of Gen. Juan Velasco's military regime (1968–75), Peruvian governments of the past forty years have avoided addressing the problems of land tenure that have embittered Peru's rural, largely Indian, population and led many to abandon the countryside for the capital. Social advances that the urban and rural poor were able to achieve under Velasco were diminished or eliminated under succeeding governments, even after Peru returned to democracy in 1980. And although Garcia was elected in 1985 on a platform of social progress, his government instead presided over an economic crisis that has brought Peru to the edge of bankruptcy.

Thoughtful Peruvians of varied political views, including some members of the forces, argue that the spread of *Sendero*, the cultivation of coca, and the unhealthy expansion of military power within a democratic State are problems which cannot be resolved without a coherent strategy for development and national integration. At a seminar in Lima earlier this year, analysts as diverse as human rights advocate Diego García-Sayán, executive director of the Andean Commission of Jurista, and Sinesio Jarama, retired Army general and former commander of the military region that comprises Lima and the central jungle areas, agreed on the dangers of a policy that meets Peru's political challenges only with force and rhetoric.

Speaking of the challenge to the State to legitimize itself in the battle against *Sendero*, Gen. Jarama spoke of the need for "projects for development, for administration of justice, for elimination of corruption, for solving the ancestral problems of land tenure, [and] . . . for integration into the country's political, social and economic life of the sectors which are marginalized and segregated; only in this way can social organization be achieved around concrete projects for development and defense, as a prior step toward the national popular mobilization that is so much talked of and of which nothing has been realized. . . ." [1] García-Sayán, noting the human costs of the military policy, suggested that advances need to be made in five areas: the democratization of the State's own machinery, to encourage popular participation; an increased presence of the State and its authority throughout the country; the protection of human rights, including outreach to the population; respect for international humanitarian law; and the promotion of developmental alternatives in the coca-producing areas.[2]

[1] Paper prepared for delivery to the *Instituto de Estudios Peruanos, Seminario-Taller sobre Liderazgo y Concertación Democrática*, April 23-27, 1990, Lima.

[2] Paper prepared for seminar of *Instituto de Estudios Peruanos, ibid.*

Peru enjoys important democratic freedoms, including freedom of the press and of union organization, and a few members of the National Congress have been active in the defense of human rights. On the other hand, although human rights abuses have skyrocketed since our last report was published in October 1988, the issue of human rights has faded from the nation's front pages, and the disappearance of a trade unionist no longer has the power to shock public consciousness. The recommendations of the most important Congressional commission on violence—the commission presided by Senator Enrique Bernales—have not been followed, and to date no military officer has been punished for a single instance of abuse of human rights. Human rights were barely discussed in the Presidential campaign of 1990.

Indeed, as Peruvians grow ever more desperate for relief from economic and political instability, there is a danger that public opinion will grow to tolerate official violence as a "solution" to *Sendero*. Americas Watch is concerned by the decline of public debate about human rights, especially when it goes hand in hand with a worsening human rights situation. The conflict with *Sendero* has been costly, both economically and in terms of human life. But as great a threat as the insurgency poses for the democratic State, the legitimacy of that State rests on its refusal to adopt cruel methods of response. The new government of Alberto Fujimori, elected on June 10, faces a combination of problems unique in Latin America. But it also may benefit from the lessons of the past ten years. In this report, we review what we believe to be those lessons, with particular emphasis on the escalation of human rights violations during 1989 and early 1990. Among the observations of Americas Watch are:

"During 1989, more than 300 Peruvians disappeared after detention. This practice—employed primarily by the army—not only continued in the emergency zone containing Ayacucho and Apurimac, where it had become common, but spread to new zones of counterinsurgency activity such as Junín. In the first four months of 1990, at least another 60 persons disappeared.

"Politically related deaths rose by more than sixty percent in 1989 as compared to the year before, and, at more than 3,000, constitued one-fifth of all deaths for the decade, according to an official investigation. Although it is not possible to be precise about the number of these deaths that resulted from combat—for reasons explained in this report—it is clear that the vast majority of Peruvians who have died, and continue to die, in the war between *Sendero* and the Peruvian military are civilians. And while *Sendero* is the single group responsible for most deaths, the official forces bear a heavy responsibility as well. We note in particular that new forms of confronting *Sendero*, such as bombardment of inhabited areas of the Upper Huallaga in 1989, substantially increase the risk of civilian deaths. As for 1990, Senator Bernales of the parliamentary commission on violence has said that, in the first four months of the

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

year, political violence led to more than 1,000 deaths, presaging a year at least as bloody as 1989.

"The crucial task of fortifying the nation's legal structure fell victim to the Garcia government's crisis mentality and the myriad political pressures from military and police forces. The government failed to protect or support the only special prosecutor whose investigations into disappearances in the Ayacucho emergency zone were producing results; when that prosecutor, Carlos Escobar Piñeda, began to isolate military responsibility for a 1988 massacre in Cayara, Ayacucho, he was removed from his job, leaving him increasingly vulnerable to the death threats that forced him, in November 1989, to seek political asylum in the United States. Failure to prosecute the Cayara case effectively has added one more cover-up of military abuses to an already long list. And the State's abandonment of Escobar has further eroded confidence in the legal system as a means to control human rights violations.

"With regard to the prosecution of terrorism, the State removed legal safeguards it had earlier provided to ensure due process for, and protect the physical integrity of, suspects accused of terrorism. It also failed to provide protection to judges trying terrorism cases, thus leaving its legal representatives vulnerable to attack by armed groups. These were two features of an approach to the prosecution of terrorism which Americas Watch finds incoherent and insensitive to the rights of persons on both sides of the bench.

"A positive step was taken in granting the International Committee of the Red Cross access to security-related inmates of the prisons and to the interrogation centers of the anti-terrorism police unit, DIRCOTE. This policy did not, however, address the serious need for ICRC monitoring of detainees held in army barracks and police stations in the rural zones of emergency, where detainees routinely suffer torture and many disappear. The fact that torture is so common a practice in Peru, on both political and non-political detainees, makes the ICRC presence an absolute necessity in all centers where detainees accused of terrorism or terrorist sympathies may be held.

"The legal case arising from the massacre of more than 120 prisoners in Lurigancho penitentiary, in June 1986, ended recently and unsatisfactorily in the military's highest court. Although police and press sources reveal that convictions extended to the ex-Republican Guard Director, Gen. Máximo Martinez Lira, he was sentenced to only 30 days of military confinement (which he is to serve in conditional liberty), and separation from the service during that one month, for the crime of negligence. Senior army officers were acquitted—as they had been in lower military court—despite overwhelming evidence of responsibility. Thus the military courts have maintained their perfect record of absolving armed forces personnel in cases of human rights abuse.

"Current conditions in Lurigancho are indicative of the State's failure to control corruption by prison guards or to provide adequate resources for even the minimal care of common inmates. The predatory practices of the guards, the subhuman physical conditions, the lack of adequate food or medicine, apply in Canto Grande penitentiary and other Lima—Callao prisons as well, according to prison experts, although the security-related prisoners in Canto Grande fare slightly better than the ordinary prisoners and appear to enjoy some extra consideration by the State. We recommend immediate attention to the problem of unrestricted guard authority in the prisons, which has made the prisons an example of abuse and anarchy. We also recommend review of the policy by which all *Sendero*-related inmates, even the young and minor offenders, are channeled into the *Sendero* prison population in Canto Grande, where they may be intimidated or indoctrinated.

"During 1989 the police, and combined forces of the army and police, were utilized to suppress peaceful labor and peasant protests and to conduct raids on universities, squatter settlements and poor urban neighborhoods in search of *Sendero* sympathizers. Although the right of assembly and the inviolability of the home are suspended under the state of emergency, these actions were of a disproportionate scope and violence, further contributing to a polarization between dissident sectors of the civilian population and the military and police forces.

"A pattern of abuses has begun to emerge from the formation of civil defense patrols in the zones of conflict; these local groups, known as *rondas campesinas*, receive little training or arms but are considered legitimate targets by *Sendero* and are also used aggressively by military authorities in some cases. *Sendero*, the military and police, and *ronderos* themselves have all been responsible for bloody abuses as a result of the development of the patrols. While the need for adequate defense of isolated communities is evident, the abuses associated with some of the *rondas* require a re-examination of the way in which they are defined and the military's authority over them.

"*Sendero* continues to enforce its control through brutality, including the killings of entire family groups, threats against the lives of citizens who participate in elections, selective murders of local officials and parliamentary candidates, and bombings, in clear violation of the relevant laws of war. Another insurgent group, the *Movimiento Revolucionário Tupac Amaru* (MRTA), also has committed acts that violate the laws of war, including the kidnapping of a prominent businessman and selective murders, although neither its zeal nor its scope of activity matches *Sendero's*.

"The Lima offices of three international human rights organizations were bombed by unidentified persons in February and March 1990, and the president of a Huancavelica human rights committee, Angel Escobar Jurado, remains disappeared as of February 27. The government's investigation into the bombings was superficial and unsatisfactory, the disappearance of Escobar has not been clarified, nor have the murders of human rights monitors and witnesses to the Cayara massacre during 1989 or the threats that human rights monitors have received from paramilitary groups.

"Paramilitary groups have killed labor activists, members of Congress and others they choose to call sympathizers of the insurgents, often in areas tightly controlled by the army and police. No one has been prosecuted for these abuses. It is also disappointing that a parliamentary commission created to investigate paramilitary groups divided along partisan lines and could not agree on a final report. As a result, the widespread suspicions of military and APRA party involvement in the most important group, the *Comando Rodrigo Franco*, were neither confirmed not dispelled."

Americas Watch is also deeply concerned about the proposed role of the United States in Peru. As part of the "Bennett Plan" for drug interdiction in the Andean region, the United States has allocated some US $36 million for training of Peruvian army and marine personnel and the provision of motor launches, airplane replacement parts and uniforms. A slightly increased amount of military aid is proposed for next year. U.S. officials acknowledge that a secondary aim of the aid is to train for counterinsurgency against *Sendero*, because the insurgents have made themselves a party to negotiations between coca-growing peasants and drug traffickers.

As we note in various sections of this report, grave human rights abuses have accompanied the militarization of the Upper Huallaga. We believe that U.S. involvement in training and the supplying of equipment to the Peruvian military will not eliminate these abuses and may contribute to their increase. We do not discount the seriousness of the *Sendero* presence in the Upper Huallaga or the violence associated with the drug trade. But both *Sendero* and the production of coca have evolved from conditions that are not addressed by militarization, and we fear an enormous loss of civilian life in the conflict that may come to the region. Militarization elsewhere in Peru has, to some extent, assisted *Sendero's* recruitment, as the army's abusiveness has fed local frustrations and increased divisions among the peasant population. Thus we are concerned that providing military assistance will involve the United States in a complex and protracted conflict, the civilian casualties of which will become, in part, the United States' responsibility.

It is our hope that the government of Alberto Fujimori will work to create a national consensus on the issues of security and human rights, such that the counterinsurgency strategy employed successively by the Belaúnde and Garcia governments during the 1980s will be re-examined and that nonviolent means of fortifying the Peruvian State may be seriously explored. The "national popular mobilization" of which retired Gen. Jarama spoke at the Lima seminar remains elusive because its bases are not agreed upon and because the people whose participation is essential to its success, predominantly the urban poor and peasants in the emergency zones, are targets of official as well as insurgent violence. President-elect Fujimori gave voice to the disaffection of these citizens in his campaign. As President, he can represent them first and foremost by ensuring that their basic rights are respected.

MILITARY LESSON FOR U.S. OPERATIONS IN THE GULF

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BEREUTER. Mr. Speaker, it is almost 1 month since President Bush made the decision to deploy United States military forces in the Persian Gulf. In the last 4 weeks the performance of those forces has been magnificent. In a region of the world that is inaccessible and inhospitable, they are performing their mission with admirable professionalism. Starting from scratch, an airlift and sealift operation of unprecedented dimensions has transformed

the Saudi Arabian desert into a relatively secure defensive position. United States ground and air forces, together with contingents from a number of our allies, have successfully deterred an attack upon Saudi Arabia. A naval blockade has already been remarkably successful in isolating Iraq from most of the rest of the world. In short, our Armed Forces have once again demonstrated their ability to defend U.S. vital interests, even under adverse conditions.

While the size of our military presence in the Persian Gulf has taken some by surprise, there are sound military and diplomatic reasons for deploying a large force. The U.S. military commitment is sufficiently large that there is no question these forces can fulfill their missions. Given the size and speed of the build-up, there can be no mistaking our resolve, and Saddam Hussein clearly understands that he cannot finesse the situation by diplomatic methods. A smaller force, while possibly being less costly, would also be less certain of achieving its objectives and may convey the wrong signals. This is not some abstract academic exercise to find the absolute minimum response needed to restore order in the Persian Gulf—Iraq is much more likely to be influenced by an overwhelming show of force.

Mr. Speaker, I would draw the attention of my colleagues to an editorial in the August 23, 1990 edition of the Norfolk (NE) Daily News that speaks to the issues I have raised. As the editorial rightly notes that U.S. forces should be "massive enough to deter attackers, massive enough to defeat them if deterrence fails. The failure to commit forces sufficient for the situation would only invite further aggression."

MILITARY LESSON

A shortage of active military doctors, cargo handlers and other specialists means that selected units of America's reserve forces will be called to active duty. Whether they will be sent to the Persian Gulf region or simply replace personnel already scheduled to be there, the presidential decision reflects an effort to respond in force rather than with token steps, gradually.

At the outset of the invasion of Kuwait by Iraq, in evidence was the firm support of congressional leaders which a president's actions require if they are to succeed. It reflected public opinion.

When it became clear that the response would require several hundred thousand troops, not a few thousands, a few of the senators and members of Congress equivocated. Who so many, they wondered aloud.

Now that reserve forces will be called, the initial support will erode further. It takes only a few constituents adversely affected by a callup to get members to suggest that the presidential response ought to be "reexamined."

If nations now allied with the cause of stopping Saddam Hussein and dealing effectively with his conquest of Kuwait begin dropping off because their interests are not directly at stake, the support will be further undermined. A few terrorist acts will further test the will of the president—and even more, it will test that less resolute co-leader of the American government which Congress represents.

The military lesson applies in this situation, however. It is to apply force massive enough to deter attackers; massive enough to defeat them if deterrence falls. The failure to commit forces sufficient for the situation would only invite further aggression.

A failure now of the Congress to recognize that point—indeed, to applaud because the very size of the American commitment encourages those nations reluctant to pledge their own resources—will jeopardize the chances of success.

Further jeopardizing the chances would be congressional refusal to recognize that there is unlikely to be quick end to the crisis in the Persian Gulf, and thus no early withdrawal of American forces deployed in Saudi Arabia.

They must remain until replaced by a truly international peace-keeping force sufficient to the threat; and until Kuwait's independence is restored.

COMMEMORATING THE ROSOL-DUL MEMORIAL POST #359 45TH GALA CELEBRATION DINNER-DANCE

HON. ROBERT A. ROE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. ROE. Mr. Speaker, it is with distinct pleasure that I rise today to make note of a very special event taking place on Saturday, September 15, 1990, in my Eighth District of New Jersey. The American Legion Rosol-Dul Memorial Post No. 359 is holding its 45th Gala Celebration Dinner-Dance. This gathering has become an annual social event of great importance to my Passaic, NJ, community. Veteran organizations such as this provide important services to those who have served their country. As a veteran, I am particularly proud and grateful for the work they do, especially for the youth of their community.

Mr. Speaker, at this point I would like to insert for the RECORD a short history of the Rosol-Dul Memorial Post No. 359 so that everyone might share in the growth and commitment of this organization on its 45th anniversary:

ROSOL-DUL MEMORIAL POST NO. 359

During the winter of 1945, a group of veterans from throughout the Lower Dundee Passaic area met at Holy Rosary R.C. Church auditorium on Wall Street, Passaic, N.J. for the purpose of organizing into a visible voice for veterans and their dependents and also as part of a concerned group in and for the community. This was all first started by Msgr. Francis P. Kowalczyk, better known as Father Frank. It was through his persuasion that we continued meeting until we came up with a suitable, recognizable organization and name that would service the cause of all veterans.

Invited were members of the American Legion, Veterans of Foreign Wars and others. Their purpose was to have the veterans present decide which organization would be most appropriate to meet their aims and goals. Mr. John J. Schneider and Mr. Aaron Troast of the Passaic County American Legion organization and Internal Affairs Committee spoke, as did Mr. Thomas Hopkins of the same committee on behalf of the Veterans of Foreign Wars. There was much debate under which banner to organize. At the following meeting, the veterans chose the American Legion because it would embrace all the veterans present in the area.

In choosing the name many names of deceased veterans from the area were received. These names were placed in a veterans cap, and the first two names picked were Michael Rosol and Stanley Dul.

The Rosul-Dul Post soon requested and received a temporary charter followed by a permanent charter in 1946 and was given the number 359.

The members decided to conduct their meetings at the Passaic Boys Club on Third Street until another meeting place and headquarters could be found. The Director of Polish Peoples Home 1-3 Monroe Street, now called the Polish Cultural Center graciously offered a meeting room and office of our own where the post conducted many of their functions always with the greatest assistance and co-operation, especially during the big band era and the sporting events such as baseball and basketball.

In 1955, the Post acquired the property at 50-52 Third Street, Passaic from the City of Passaic at a tax sale. In 1957, with the great helping hand of a mutual friend and builder, Mr. Steve Dudiak, the post received a loan for materials and supplies to start construction of our present headquarters. It was the knowledge of Mr. Dudiak and the ingenuity of two members, Past Commanders Stanely Blazewski and Edward Serafin, together with a group of members, each evening with their hammers and saws, they worked until dark doing what had to be done. Electric power was supplied by next door neighbor, at the time, Post Commander Joseph P. Lazur, and on week-ends, they brought lunch with them.

The members continued their meetings and activities at the Polish Peoples Home until the completion of its present headquarters. The Rosol-Dul membership grew and reached the largest membership in Passaic County American Legion. The community looked upon Rosol-Dul as one of great leadership for Veterans and Civic encounters.

The Rosol-Dul Ladies Auxiliary was formed in 1948 after membership meeting with Mrs. Elizabeth Shipley and a delegation of women representing the Passaic County American Legion Auxiliary. Also wives and others representing members of Rosol-Dul were in attendance.

Throughout the existence of Rosol-Dul Post, the primary objective is and was the care and service of all veterans as was promised by our government from the time of the very first encounter and battle in defense of our country. To that end we as members have taken a solemn oath to continue.

The Rosol-Dul Post has a most vital interest in its youth, Sons of American Legion, Auxiliary Junior, Boys State, Girls State, Oratorical programs, American Legion Baseball, and Little League Baseball, Student Scholarship programs for continuing education. The youth of our nation is our most valuable asset. The care and guidance of today is the security of tomorrow.

Mr. Speaker, I am very proud to have the honor to represent this outstanding organization and its Members here in Congress. The selfless contribution and sacrifice that these individuals made in the past and continue to make with their service here is a sterling example of what duty, honor and commitment are all about. I am sure that you and my colleagues share my strong feelings for the work

they are doing and join me in congratulating them on 45 years of accomplishment and wishing them continued success.

REFUGEES FROM IRAQ WAR NEED A HELPING HAND—AND NOW

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BROOMFIELD. Mr. Speaker, one of the deeply disturbing results of Saddam Hussein's invasion of Kuwait is the number of refugees this military operation has left in its wake.

The many thousands of refugees who have fled into Jordan face hunger, disease, and worse in makeshift refugee camps.

Last week I sent a letter to President Bush urging him to spearhead an international rescue mission to return these many thousands of people to their homes throughout the world.

However it is organized, whether through the United Nations or by the several nations individually, whether with military or commercial aircraft, it would long be remembered around the world as an extraordinary act of generosity.

There is a precedent for such an effort—the Berlin airlift. For 1½ years, from April 1948 until September 1949, American, British, and French planes flew more than 2 million tons of supplies to the people of Berlin. The Berlin airlift is still remembered today.

Here once again is an opportunity for the people of America and other industrial democracies to demonstrate that they are blessed not only with great political freedoms and economic abundance, but with great generosity as well.

BILLY CLAUDE BRYANT'S UNSELFISH LIFE

HON. JOHN BRYANT

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BRYANT. Mr. Speaker, I call your attention to a very special citizen of Balch Springs, TX, whose life was recently lost, but whose spirit will live on in a very special reminder.

Mr. Billy Claude Bryant—who I regret to say is not kin to me even though we both bear the same last name—helped build the first Balch Springs Volunteer Fire Station. Serving his community as a volunteer remained one of his strongest interests.

As a disabled veteran of World War II, Mr. Bryant knew that his widow would one day be presented an American flag at his funeral. Mrs. Bryant said that he requested she donate the flag to fly in front of the fire station that is the next door neighbor to the Bryant's home.

That's where it flies today.

The Balch Spring Community News had the following to say about Mr. Bryant:

Every once in a while you run into or hear of a person that seems to be able to do it all or is always there to help when they can. They don't do the things they do for money or glory, they just sincerely have that desire to help. A smile, handshake or soft thank you is about all the payment they will accept. You can tell from the way they carry themselves that they are people of principal and integrity.

Billy was that kind of a guy in Balch Springs. He helped build the 1st Balch Springs Fire Department. He used to have a phone, without a dial on it, in his bedroom for ring downs (fire calls). Billy would get up and be over at the fire house warming up the engine on cold days before anyone else arrived. All of his gear had number one on it. He used to say his name came first in the alphabet so he got #1.

Up until a couple of years ago, when he injured his eye, Billy could be found helping out around the fire house.

Age, a bad eye and finally cancer took its toll. Billy died a couple of weeks ago. He remained a good neighbor and firefighter to the end.

Billy may be gone but his flag remains a symbol of all that is good in mankind. Next time you go by the firehouse, take a minute to look at the new flag. This time it's not just a symbol of America but because of Billy and guys like him, it is a symbol of all that is right with America.

Mr. Speaker, Billy Bryant lived an unselfish life from his service to his country in World War II on through countless battles against fires, a man who spent his life asking what he could do for his country.

And that wasn't enough for him. He made sure he left something more with his fellow firefighters and neighbors. As his hometown newspaper put it so well, Billy Claude Byrant is a symbol of all that is right with America.

THE LAST GIFT FROM A VERY SPECIAL MAN

Every once in a while you run into or hear of a person that seems to be able to do it all or is always there to help when they can. They don't do the things they do for money or glory, they just sincerely have that desire to help. A smile, handshake or soft thank you is about all the payment they will accept. You can tell from the way they carry themselves that they are people of principal and integrity.

Billy was that kind of a guy in Balch Springs. He helped build the 1st Balch Springs Fire Department. He used to have a phone, without a dial on it, in his bedroom for ring downs. (That is a fire call.) Billy would get up and be over at the fire house warming up the engine on cold days before anyone else arrived. All of his gear had number one on it. He used to say his name came first in the alphabet so he got #1.

Up until a couple of years ago, when he injured his eye, Billy could be found helping out around the fire house.

Age, a bad eye and finally Cancer took its toll. Billy died a couple of weeks ago. He remained a good neighbor and firefighter to the end.

The Fire Station was without its own flag. Billy asked that after his burial, the flag on his coffin be donated to the Fire Department.

Billy may be gone but his flag remains a symbol of all that is good in mankind. Next time you go by the firehouse take a minute to look at the new flag. This time its not just a symbol of America but because of Billy and guys like him, it is a symbol of all that is right with America.

A REMARKABLE FAMILY

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. FRANK. Mr. Speaker, those of us who have served in the House recently have had the great privilege of knowing our colleague LINDY BOGGS. She is an extraordinary person, and a member of an extraordinary family. Her late husband, Hale Boggs, who preceded her in this body was widely recognized as one of the best Members of the House. Many of us who serve today have also had the great pleasure of getting to know her daughter Cokie Roberts, who is as good a reporter of congressional events as exists in the United States today, and her son Tom who is one of the brightest and ablest legislative advocates around. Others of us have also had the great privilege of knowing LINDY'S daughter Barbara who has put her very great talents to work in local and county positions in New Jersey, most recently as mayor of Princeton.

We were all deeply saddened by LINDY'S decision to retire at the end of this term, and those of us who have been lucky enough to consider ourselves friends of the BOGGS family were especially sad because this decision was so heavily influenced by LINDY'S concern over Barbara's illness.

During the congressional recess, People magazine printed an article about LINDY, Barbara, and Cokie consisting of some text and a superb interview. There is no substitute for knowing these extraordinary, wonderful, stimulating people, and I can think of no privilege greater than to be able to call them friends, and benefit from their stimulating company. But this article in People comes closer than I would have thought possible in print to convey some sense of the extraordinary quality of this family. Because of the enormous contribution they have made to our society, and because of the extraordinarily mature way in which they are dealing with a difficult situation, I think people in general would benefit enormously from reading this example of strength and love and I ask that it be printed here:

When Lindy Boggs announced she would not seek reelection to her seat in Congress this year, it sent shock waves across Capitol Hill. After all, a Boggs has represented the people of New Orleans for nearly 50 years. Lindy, who succeeded her husband, Hale, in March 1973, five months after a small plane in which he was riding vanished over Alaska, said she was stepping down because of "family considerations." Yet no one tried harder to dissuade her than her two remarkable daughters: Barbara Sigmund, 51, mayor of the Borough of Princeton. N.J., since 1984, and Cokie Roberts, 46, an influencial congressional reporter for National Public Radio and political commentator for ABC-TV. (Their brother, Thomas Hale Boggs Jr., 49, a powerful Washington lobbyist, also opposed the move. "Are you sure you'll be happy not being there?" he asked his mother.)

Lately Lindy's priorities, shaped once again by a family tragedy, have returned to her kin. In 1982, Barbara lost an eye to cancer. With characteristic pluck and style, she took to wearing eye patches color-co-

ordinated with her outfits. Then last year she discovered that the disease had returned and spread. Neither Barbara nor her doctors expect a remission this time. For Boggs, grandmother of eight, great-grandmother of one, there was no choice other than to retire. "She feels strongly that for everything there is a reason," says Barbara.

For 17 years Lindy was one of Washington's most effective politicians. "I never wanted to run for anything," she says. Yet she was a lot more than a sentimental favorite when her husband, then 58, disappeared. Hale first went to Washington, D.C., in 1940 as a freshman in Congress. Beginning in 1948, Lindy, a onetime schoolteacher, ran all 12 of his subsequent campaigns, managed his Capitol Hill office and chaired numerous organizations—including John F. Kennedy and Lyndon Johnson's inaugural ball committees. "I went from being president of everything to being a mere member of Congress," she says.

Tenacious in pursuit of a broad legislative agenda, Boggs disarmed opponents with southern charm acquired during her upbringing on two plantations in Pointe Coupee Parish, La. "You could get diabetes standing next to Lindy—she's that sweet," a colleague once remarked. But she also spearheaded legislation on issues ranging from civil rights to credit access and civil service pay equity for women. Her greatest pride, she says, was helping to establish the Select Committee on Children, Youth and Families, which assesses the conditions of the nation's families and children.

Recently Lindy and her two daughters talked with national correspondent Garry Clifford, not about their successful careers or their families (Barbara, married to Princeton University political science professor Paul Sigmund, 61, has three sons, while Cokie and her husband, U.S. News & World Report senior writer Steven Roberts, 47, have a son and a daughter), but about their roles in a sorority that has become legendary in American politics—the Boggs women.

BARBARA: Mother cannot accept the fact that I may die before she does—it's not in the natural order of things. When I lost my eye in 1982, we felt it was a case of, "If thine eye offend thee, pluck it out," and that that was the end of it. So learning that the cancer had spread was traumatic. The worst part was telling Mother. She said, "I wish I could rock you and make it all better." Such a Mama thing to say.

Unfortunately there is nothing much I can do except take two pills a day, run the Borough of Princeton and write poems. That's the way I distill my emotions. In 1987 I wrote a poem to my great-grandchildren. I suppose it was some unconscious knowledge that something was going to happen again. I wanted them to know I had existed and had been real.

COKIE: Barbara sets the tone. If she's going to be cheery, you're going to be cheery. But her openness allows us to vent our anger about this happening.

BARBARA: During this illness, Cokie has been spectacular. She leaves important assignments all over the country to be with me. She calls up and is her dear, funny self.

You could spend 24 hours a day having cancer. Almost immediately these self-help books began to arrive. I heard from a lot of people who wanted to give me cures outside the cancer establishment. One told me that the heart of the remedy was an enema every four hours. I was so astonished I said, "Oh, I'm sorry, I don't even floss."

LINDY: I have a problem discussing [Barbara's illness] and my reasons for retirement. My decision was a difficult one. I thought about it for months. But my family considerations are very important, and the opportunity to be able to spend quality time with my daughter is very precious to me. I go up to Princeton almost every weekend. I have a good time. Barbara is one of the most entertaining and attractive personalities I know.

COKIE: When we are together, my mother, my sister, my daughter, Becca [age 19] and Tommy's daughter, Elizabeth [age 27] and I, we all laugh a lot and we all laugh exactly alike. We genuinely like each other. That's not to say we don't have intellectual disagreements.

BARBARA: We are all united in our personal beliefs about abortion, but whereas the rest of the family thinks that in the civic realm you have to allow people choice. Mama always votes against abortion. She also is anti-death and pro-gay right. She is the only person I know who is truly pro-life rather than pro-punishment.

COKIE: Barbara took Becca to a pro-choice rally in New Jersey last fall. When Becca noticed that all the speakers were either male or past childbearing age, she thought she ought to speak up. I'm told it was the most rousing speech.

BARBARA: Becca's probably going to be our first woman President. All our children are political science majors. There's a government gene there. We keep trying to slap it down, but it keeps popping up again.

COKIE: Politics is our "family business." Growing up, our expectation was to do what our mother did. We thought we would graduate from college, have an interesting job for a year or two, get married, have babies and contribute to the community. It never occurred to us that we would have careers. But it is no accident that we are doing what we do. Throughout our lives at home, we talked and analyzed and synthesized.

LINDY: The world changed. Vietnam, the civil rights movement, the women's movement. Everyone became activated.

BARBARA: Rather than protecting us from campaigns and political realities, my parents thought we would never be a family unless we were all part of it. So we went to school half of the time in New Orleans and half of the time in Washington. Our school calendar was dictated by the congressional calendar.

Lots of my memories involve traveling the highway between Washington and New Orleans. We had our own direct experience with the foolishness of segregation on those trips back and forth. Oftentimes, the woman who helped raise us, Emma Cyprian, who was black, traveled with us. One night, when I was about 7 years old, we were driving around southern Virginia looking for a hotel. It was getting later and later, but Daddy kept coming out of every place we tried saying, "No soap." He meant no hotel would accept Emma. Finally around 1 o'clock in the morning, when he came out and announced there was no soap again, I asked him, "Daddy, why can't we bring our own soap?" I don't recall where we slept that night. So this was a system that benefited no one as far as we could make out.

COKIE: I remember the night before the debate on the 1965 Voting Rights Bill, and we were all giving Daddy a hard time, and he said, "I'm voting for it, leave me alone." We said we don't want you just to vote for it, we want you to talk as well. He said we were asking too much for somebody from the Deep South. But the next day he heard one of his colleagues saying there was no discrimination in Louisiana. He couldn't stand it, and he got up and gave the most phenomenal speech of his career.

LINDY: In 1971 Hale was elected Majority Leader. It was widely assumed he would become Speaker of the House, but then his plane disappeared with Hale and three other men aboard. Carl Albert, who was Speaker of the House, called to tell me the plane was eight hours late. He didn't want me to hear it on the news. My first reaction was terrible shock and disbelief.

The formal search went on until Thanksgiving. There were 55 investigations of sightings made during that time. I heard from a number of psychics all convinced that they were receiving information that needed to be investigated. The plane was never found. But even when I was finally persuaded to run for his seat, I'm not sure it was because I really accepted the fact he was gone. I figured that if anybody was willing to give up the seat to him if he came back, it would be me.

BARBARA: There was no finality about my father's disappearance. For a burial, a body is essential, and that's true for a psychological burial as well as a physical one. Our parents were the rock upon which we built our own adult lives. What used to give me a great feeling of warmth and stability was hearing Mama kind of giggle at whatever Daddy was telling her in bed at night.

COKIE: Mama gave us the role model of someone who knew how to juggle. She was always there, and yet she was always working. We thought she was the most beautiful woman alive. I was shocked to discover that other people didn't think their mothers were beautiful. When we got bigger, the most striking thing was that she was the most reliable woman around. My friends and I would be in school until 10 at night putting out the school paper, and it was Mama who would come and get us even though she had worked all day.

When my son was small, I'd pull Mama off the House floor and cry that it was 9 in the evening and I wasn't home with my child. Mama would look at me and say, "He's fine." The mothers of many of the women of my generation were the great guilt inculators; my mother was the great guilt remover.

BARBARA: But it wasn't until she was widowed that Mama became radicalized in the feminist sense. She herself had trouble getting credit to buy a condominium, and as a result she's very feisty about all those issues that tend to hold women back in society.

People have called me Hale Boggs in ruffles, but the truth of the matter is, politically at least, I would rather be my mother's daughter. Her style still works best in a male-dominated profession. Whenever I want to do something directly, I think of what Daddy would have done. And whenever I want to accomplish something indirectly, I try to emulate what Mama would do.

LINDY: I go about getting things done in a natural way. But that doesn't mean I'm not persistent. I think it was Sen. Bennett Johnson who said dealing with me was like a Chinese water torture . . . drip, drip, drip.

COKIE: I've had a chance to see what an impact Mama has had on the House, and was against her leaving it. She is also leaving people who care about her at a time when she needs to be surrounded by caring people.

BARBARA: I think it's going to be difficult for her to find a job that matches her talent and energy. You have a 40-year-old woman trapped in a 74-year-old body.

LINDY: None of my children was in favor of my retiring now. I think they are apprehensive because I've been associated with the institution for so many years and are afraid I will be lonely without it. Of course I will miss it and my friends. But I don't think I will be lonely. I always said that being a Congresswoman was an interruption in my regular life. I can't hug Barbara from here.

TIME FOR MOST FAVORED NATION TREATMENT FOR CZECHOSLOVAKIA

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BEREUTER. Mr. Speaker, on September 6, the President sent to the leadership in Congress the long-awaited trade agreement with Czechoslovakia. With this step, this body is now in a position to approve most favored nation treatment for Czechoslovakia.

Few nations recently have proved themselves more deserving of improved relations. Czechoslovakia has a tradition of democracy from the inter-war period, a tradition that once again is blossoming. Since casting out their totalitarian leaders in the "velvet revolution," Czechoslovakia has embraced the principles of pluralism and free markets with an energy and a passion that has pleased us all. Under the inspired leadership of President Vaclav Havel, this nation has made an eloquent case that Czechoslovakia is ready to become a close friend and equal trading partner with the United States.

Mr. Speaker, the positive relations between our two peoples run quite long and deep. There is an extremely large Czech-American community in the United States. I would add that this Member is proud that in his native Nebraska, there is an especially large, energetic, vibrant Czechoslovakian-American community. It is also worth noting that Czechoslovakian-Americans played a major role in the creation of the modern nation of Czechoslovakia, and that our nations had close ties during the inter-war period. Indeed, our poor relations during the decades of Communist dictatorship are an aberration and it is clear did not reflect the will of the Czech or Slovak people.

This Member has recently returned from Czechoslovakia, and it is clear from my meetings that the Government and the people of Czechoslovakia are ready and striving to improve economic relations. Czechoslovakia is using the United States as its role model in many areas. They are eager for American exports. They welcome the expertise that American business can offer. It is a friendly and receptive market.

But we must move fast if we are to take advantage of this opportunity. Competition for the Czechoslovakian market will be fierce, and American businessmen must not be put at a disadvantage because of outdated trade restrictions. America must work with its business community to ensure that the existing good will is translated into improved trade.

We are now, at long last, beginning to supply the necessary assistance to our business community. Czechoslovakia now has access to OPIC guarantees and insurance. Last week, the embassy in Prague finally acquired an experienced commercial service officer. One major missing link, however, is most favored nation [MFN] tariff status.

Mr. Speaker, given the excellent business opportunities, and given the close cultural ties, speedy approval of MFN treatment for Czechoslovakia should be a high congressional and American priority. It is this Member's understanding that the Ways and Means Committee intends to move rapidly to approve a resolution for nondiscriminatory treatment, and that MFN status can then be put into place within the next few weeks.

This Member applauds and encourages the leadership on both sides of the aisle on this matter, and welcomes the decision on the Ways and Means Committee for speedy consideration. The time for debate has passed; Czechoslovakia needs and deserves MFN status now.

LETTER FROM UNIVERSITY OF MEDICINE AND DENTISTRY OF NEW JERSEY

HON. ROBERT A. ROE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. ROE. Mr. Speaker, I call my colleagues' attention to a recent accomplishment of a New Jersey dental school scientist at the University of Medicine and Dentistry of New Jersey.

The research findings described in the following letter underscore the importance of continued funding of general dentistry programs and dental research centers in particular as the source of important new scientific information. Further, the work of this research team demonstrates the board scope of dental research in general and the increasingly important interactions between medicine and dentistry.

I would, therefore, like to share with you a letter recently received from the university.

UNIVERSITY OF MEDICINE
AND DENTISTRY OF NEW JERSEY,
Newark, NJ, June 29, 1990.

Recently, a University of Medicine and Dentistry of New Jersey biochemist announced important news for millions of Americans who suffer from gastric ulcers and chronic gastritis.

Dr. Bronislaw Slomiany has determined how a bacterium called C. pylori destroys the protective mucus lining of the stomach. This finding is expected to enable scientists to develop a drug therapy which will not only treat the symptoms of these two common ailments, but will eliminate the cause. Up until now, gastric ulcers and gastritis could only be treated with drugs to block acid or strengthen the stomach lining. Since such drugs do not eradicate the bacterial culprit, the ailments often recur when the patient stops taking the medication.

The new information uncovered by Dr. Slomiany's team will allow development of a drug to cure these widespread stomach ailments. Between five and 10 percent of the U.S. population will at some time develop a gastric ulcer; fifty percent of all Americans over age 50 have gastritis.

What makes this breakthrough particularly interesting is that it emanates from the University's Dental Research Center. Named in 1988 to direct the UMDNJ-New Jersey Dental School's developing research initiative, Dr. Slominay, a prominent biochemist, specializes in research involving saliva and gastrointestinal secretions, both in oral diagnosis and in the prevention of disease.

The development of the Dental Research Center is a good illustration of how State dollars invested in UMDNJ pay dividends for the State. In FY 89-90, the dental school received an appropriation of $402,000 to support the research center. The center's research beam generated $1.2 million in Federal support and industrial contracts, a $3 return for every State dollar.

At the same time, the center has been generating important new scientific information.

We at UMDNJ thank you for your support of programs such as the Dental Research Center. We will continue to work to make these projects valuable assets for New Jersey.

Sincerely,

STANLEY S. BERGEN, Jr., M.D.,
President.

HUMAN RIGHTS VIOLATIONS IN KOSOVO: AN ONGOING TRAGEDY

HON. WM. S. BROOMFIELD

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BROOMFIELD. Mr. Speaker, as the world becomes increasingly sensitive to the need to respect basic human liberties, recent developments in Yugoslavia are truly disappointing and disturbing. I believe that it is time for Congress to again voice its deep concerns about the violence, and human rights abuses in the Kosovo region of Yugoslavia. In July, I introduced House Concurrent Resolution 352, which expresses the sense of the Congress regarding human rights violations against the Albanian ethnic minority in southern Yugoslavia, and I urge my colleagues to cosponsor this legislation.

In March 1989, the Government of the Republic of Serbia approved a constitutional amendment that drastically reduced the autonomy of the Province of Kosovo. This action triggered unrest that claimed the lives of over 50 ethnic Albanians. On July 2, ethnic Albanian members of Kosovo's Parliament passed a declaration proclaiming the region a sovereign political unit within Yugoslavia. A few days later, Serbian authorities took direct control of the region's entire administration.

It is important to realize that the winds of change that made 1989 the "year of the people" in Eastern Europe were welcome in Kosovo. The ethnic Albanians in that province eagerly embraced the promises of democracy, justice, and respect for human rights. Thousands of ethnic Albanians rejected commu-

nism and quickly formed a pro-democracy party as an expression of their love for liberty.

In late August, Senator DOLE led an official congressional delegation to Yugoslavia. Unfortunately, Serbian and Yugoslav federal police broke up a demonstration of about 10,000 ethnic Albanians who had gathered in Pristina, the capital of Kosovo, to greet the group. Scores of police officers and ethnic Albanians were injured in the ensuing street fighting.

As the delegation was arriving, a young American citizen, Shaban Kastrati, age 19, from Plainfield, IL, was arrested at a check point in Pristina. He was on his way to welcome the U.S. congressional group. When he produced his passport, he was seized and beaten by Serbian police and his body was extensively bruised. He was later sentenced to a 60-day prison term for participating in a demonstration and throwing rocks at police officials even though he had not actually done anything illegal. So much for justice in Kosovo.

Last week, an official delegation from the Helsinki Federation for Human Rights visited Kosovo for the purpose of investigating human rights abuses there. As incredible as it may sound, the group was arrested, ordered to leave Yugoslavia, and banned from returning to that country.

The following article from the Washington Post gives additional details concerning this latest human rights incident in Kosovo. As the situation there worsens and as Serbian officials become increasingly resentful of international concerns about human rights violations in that province, the American Congress should, in the strongest terms, call for justice and a democratic solution to the problems in Kosovo.

[From the Washington Post, Sept. 6, 1990]

SERBIA SAID TO ARREST, EXPEL RIGHTS

(By Blaine Harden)

BELGRADE, Sept. 5.—A delegation investigating charges of human-rights abuses in the ethnically driven Servian province of Kosovo was arrested this week by local authorities, ordered to leave Yugoslavia and banned from returning to the country for three years, the International Helsinki Federation for Human Rights charged today.

The Serbian government officially denied that police had detained or expelled the Helsinki delegation and described reports of the alleged incident as "anti-Serbian." The government-controlled press leveled the same charge recently at the U.S. Embassy and U.S. Senate Minority Leader Robert Dole (R- Kan.), who led a U.S. congressional visit here last week.

The four-member delegation from the Helsinki organization was detained Tuesday in Pristina, capital of Kosovo province, according to Liesel Lotte Leicht, program director in Vienna for the human-rights group. She said they were taken to a hotel, where Serbian police confiscated their documents and held them under house arrest for several years.

"It is bad news," said the Yugoslav government's Foreign Ministry spokesman, Ivo Waigl, when asked about the reported expulsions. News of the alleged incident broke as a three-member delegation from the Council of Europe arrived here today to assess Yugoslavia's application to join that organization.

Waigl said the Yugoslav government views membership in the council as crucial to the country's goal of attaining full membership in the European Community. One of the major criteria for membership in the council is a good human-rights record, he said.

"The Ministry of Foreign Affairs wasn't asked about this," Waigl said, referring to the reported expulsions. "It was obviously handled by the local [Serbian] authorities. We in the federal government are advocating, of course, free dialogue and free access for everyone who is concerned with human-rights."

After a visit to Kosovo last week during which riots broke out in the province, the Dole delegation said it was "deeply distrubed . . . [by] fresh evidence that Serbian authorities are engaged in a systematic pattern of violating the rights of Albanians." Twenty-one police officers and scores of ethnic Albanians were injured in the riots.

The Helsinki federation described the Serbian government's denial of the reported expulsions as incomprehensible and said it was scheduling a news conference Thursday in Vienna with those expelled.

"This shows very clearly that the situation in Kosovo is really very serious. How will it be possible from now on for independent delegations to go to Kosovo and investigate what is going on there? One can only fear that this will be impossible in the future," Leicht said.

She said she was in telephone contact today with the leader of the Helsinki delegation and was told that the group had been given 24 hours to leave Yugoslavia.

Many Serbian and Western analysts also say Milosevic, a longtime doctrinaire Communist who recently declared himself a socialist, appears to be using Serbian nationalism as a means to try to hang on to power.

There is strong anti-Communist sentiment across Yugoslavia, and two of the country's northern republics, Croatia and Slovenia, have voted Communists out of power in free elections. The analysts say Milosevic needs to keep nationalist sentiment in Serbia at fever pitch if he is to have a chance in the republic's democratic elections scheduled for late this year.

For many Serbians, few other issues rival in emotional intensity that of Kosovo, their historic homeland. Because he refuses to compromise on Serbian control of Kosovo, many Serbians say they are willing to forget Milosevic's Communist orthodoxy.

Ethnic nationalism in Serbia has helped inflame similar sentiment across the country in recent months. Newly elected leaders in Slovenia and Croatia want to redefine Yugoslavia and are seeking to change it from a centrally governed federation to a loosely allied confederation of sovereign states. Serbia staunchly opposes the idea.

To complicate the ethnic situation further, the Serbian minority in Croatia recently conducted a referendum to demand that it, too, be granted autonomy. Not surprisingly, Milosevic is a strong supporter of the Serbian minority movement in Croatia.

MIAMI JOB CORPS CENTER

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Ms. ROS-LEHTINEN. Mr. Speaker, I would like to bring to your attention the many accomplishments of the Miami Job Corps Center, which is a federally funded program contracted by RESCARE, Inc., in Louisville, KY. Rated among the top 10 Job Corps Centers in the country, the Miami Job Corps Center helps young people to overcome various problems they have experienced in their personal lives and become productive and self-sufficient citizens.

The success of the Miami Job Corps is largely owed to the excellent leadership and guidance provided by Mr. Don E. DeJarnett. Mr. DeJarnett came to Miami approximately 7 years ago from Kentucky, where he was the deputy center director at the Whitney M. Young Job Corps Program for 19 years. From his earlier position of welding instructor, Mr. DeJarnett has elevated himself to the post of director of the Miami Job Corps.

The Miami Job Corps makes the dreams of such program students as Mario Hair become a reality. Mr. Hair was recently notified that he had won two first-place National Awards in the arts and craft competition this year. Two first place trophies and a check for $600 were awarded to Mr. Hair upon his trip to Washington, DC, where the awards were presented. This achievement is one that Mr. Hair can be very proud of, as well as the Center's staff and students.

The Center's Culinary Arts Program also had much to celebrate when they were placed second in the annual Region IV Food Fair competition in Jacksonville, FL. Hyacinth Welsh, instructor, Dominick Aira, manager of training and the students competed against 22 other Job Corps Centers in the region competition. The Culinary Arts Program's teamwork and dedication brought the second place trophy in the Food Preparation Program home to the Miami Job Corps Center. This is just one of the many achievements the Center has experienced since its inception.

Linkages have been established to improve the Center's total operation with the following organizations: Dade County Public School System, Foster Care Program [HRS], Project Independence Program [HRS], Boy Scouts of America "BSA Charter," National Association for Hispanic Elderly, Florida Memorial College, Miami-Dade Community College [North Campus], Metro Dade Correctional Authorities, Juvenile Justice Center, Dade Schools Adult Evening Educational Program, U.S. Military, Goodwill Industries, U.S.D.A. Free Food Donation Program, Miami Coalition for care to the Homeless, Senior Citizens' Association of Miami, Florida, Juvenile Day Treatment Program and Private Industry Council.

For all their hard work and strong dedication to helping our young people and the community at large, I extend my deepest thanks to the following: Don E. DeJarnett, center director; Larry Lunsford, manager residential living; Kennedy Williams, center standards officer; Dominick Aira, manager of training; Sonja Lester, coordinator maximum benefits; Joseph Akoni, manager personnel/finance; Shirley Brayon, coordinator health services; J.P. Marc-Charles, manager support services; Yenda Williams, personnel specialist; Vickie Sutton, purchasing agent; Susie Williams, comptroller assistant; Silvia Perez, secretary support services; Manny Santana, H.B.I. supervisor; Yimian Abreu, center recruiter; Gloria Chaparro, placement specialist; Flor Rodri-

guez, orientation counselor; Rosa Pache, property/warehouse officer; Dino Torres, driver/warehouse attendant; Gloria Hernandez, executive secretary; and, Joana Tapia, secretary training.

It is my sincere hope that the Miami Job Corps Center continues their superb job in educating our young people, both in terms of academics, and in matters of adult responsibility and life in general.

TRIBUTE TO THE GRADUATING CLASS AT MARATHON HOUSE

HON. CLAUDINE SCHNEIDER

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Ms. SCHNEIDER. Mr. Speaker, I would like to take this opportunity to commend some friends of mine in Rhode Island for their courageous fight against chemical dependency. Specifically, I would like to applaud this year's graduating class at Marathon House, each of whom has successfully completed a year or more of residential treatment.

Established in 1967, Marathon House has earned a national reputation for quality prevention and treatment programs for victims of substance abuse. Marathon's comprehensive program of clinical, educational, and vocational services is based on the principle of helping people build productive, self-sufficient lives. The size of this year's graduating class, the largest in Marathon's 23 year history, is a testament to the program's success.

The men and women graduating on September 16, 1990, have taken the difficult steps necessary to break the debilitating cycle of isolation and declining self-esteem chemical dependencies engender. Their commitment to building more satisfying lives serve as an inspiring model to us all. It is exactly this type of commitment and this type of program that will help us win our war on substance abuse and chemical dependency. As I have stated repeatedly, the drug epidemic is a national problem with personal, community-based solutions.

Once again, I would like to applaud all these men and women for their determined efforts.

WE STILL NEED THE PEACE DIVIDEND

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. KILDEE. Mr. Speaker, I commend to the attention of my colleagues in the House of Representatives the excellent column from the Washington Post written by Gordon Adams and Stephen Alexis Cain of the defense budget project. The authors cogently make the argument that the Persian Gulf crisis does not change the need for Congress to significantly reduce the defense budget.

[From the Washington Post, Sept. 9, 1990]

YES, WE STILL NEED DEFENSE CUTS

(By Gordon Adams and Stephen Alexis Cain)

Before the eruption of the Persian Gulf crisis, the need to cut the federal deficit to meet the Gramm-Rudman-Hollings target, combined with the evaportation of the Warsaw Pact and the decline in Soviet conventional military capabilities, made it almost certain that the defense budget would be cut significantly. Defense Secretary Dick Cheney sought $307 billion for defense in FY 1991; the Senate offered $289 billion and the House Armed Services Committee $283 billion just before Saddam Hussein's boot came down on Kuwait.

Now there is talk of a budgetary reversal. President Bush castigates those who would cut national defense. Assistant Defense Secretary Henry Cooper argues that the Iraq crisis indicates a need for strategic defenses. Supporters of the stealth bomber argue that the crisis demands the B-2's capabilities.

We should not be playing such political games with our security needs. The first lesson of the current crisis is that the United States already possesses more than adequate troops and equipment to cope with the Iraqi situation. If we can't draw that lesson, we wasted the more than $2 trillion spent on defense over the past decade.

Even the costs of the Gulf operation do not support a case for restoring funding that the House and Senate have cut. In fact, the costs of the deployment are relatively small in terms of the overall defense budget. These divisions, carriers and air wings already exist; it is not a matter of raising and equipping new forces, even with the reserve call-up. Added costs involve principally those of transporting forces by air and sea, resupplying them once there, maintaining a higher pace of operations (flying hours, steaming days, combat vehicle miles) than they might have engaged in otherwise; and paying full salaries to reservists who have been called up.

The Defense Department has calculated this net cost at roughly $46 million per day, a figure which should decline once the forces are fully deployed. Let's assume that this means roughly $1 billion per month in additional costs spread over five to six months.

However, as the administration has already pointed out, the United States will not assume all these costs. The Saudis have agreed to provide funding for fuel, food and other supplies for U.S. forces, and the Kuwaitis and others have declared their willingness to assist. Even if the United States paid for the entire operation, the additional cost, over five to six months, is approximately the same as the difference between the House Armed Services and Senate defense numbers. Costs beyond six months, if any, could be covered by a supplemental appropriation or by reducing the level of operations for the 90 to 95 percent of U.S. forces not involved in the Persian Gulf.

Nor can the Iraqi threat justify restoration of individual weapons targeted for cuts. In the area of strategic weapons, for example, it is argued that funds for the B-2 bomber (cut by the House Armed Services Committee), the Strategic Defense Initiative (reduced by both the Senate and the House) and the Milstar communications satellite system (cut by the Senate) should all be restored, thanks to Saddam Hussein.

The B-2, its supporters suggest, would be useful for conventional bombing missions against Iraq. However, at $860 million per plane, the increase in bombing capability (assuming the B-2 performed as planned) has an unreasonably high price tag, especially since we have numerous other systems available for this mission (tactical aircraft, B-52s and cruise missiles).

Advocates of SDI argue that it is needed in response to the risk that, one day, the Iraqis will possess long-range ballistic missiles capable of hitting U.S. territory. However, Iraq currently possesses only short-range missiles, against which an SDI System is not useful. Moreover, SDI technologies are far from ready for production. It would be imprudent to rush to deploy an ineffective system against a phantom threat, only to jeopardize strategic arms control talks with the Soviet Union, which could contribute much to the security and deficit reduction efforts of both countries.

Milstar could provide communications links between commanders and forces in the field—but it is excessive and redundant for this mission. In canceling Milstar, the Senate Armed Services Committee argued that we already possess substantial command, control and communications capabilities, having invested some $40 billion in such systems during the 1980s. The additional expenditures for Milstar are meant primarily to maintain communications after an extended nuclear exchange, a problem thankfully unrelated to the current situation in the Middle East.

Furthermore, the Gulf operation provides no reason to reverse the troop reductions—between 100,000 and 129,000 active duty personnel—proposed by Congress. The forces deployed in Saudi Arabia and the Gulf are likely to total roughly 100,000 or five percent of total U.S. active duty personnel. Should the deployment double, it would still place only 10 percent of our forces in the region. Projected reductions tied to changes in the Warsaw Pact and the Soviet threat should be able to continue at the rate projected by Congress, leaving ample active forces for Third World contingencies.

Even the Defense Department projects a 25 percent reduction in active forces by 1996 (roughly 500,000 troops). After such reductions, the services would continue to have forces in and intended for Europe, deployments in the Pacific, and a rapid-reaction force of seven air wings, and five airborne and light infantry Army divisions, as well as Marine Corps forces and reserves to respond to Third World conflicts.

As for the reserves, a call-up of 50,000 reservists (to date, roughly 9,000 have been called up) would involve only 4 percent of selected reserve personnel. The reserve callup does not indicate that active duty forces are inadequate. Reserves are being activated because, under the "Total Force" policy, the reserves supply the majority of medical, water supply, transport, refueling and other support services for active forces. In any case, reserve personnel were not reduced by either the House committee or Senate actions.

Advocates of conventional modernization programs are also trying to hitch a ride on the Iraqi threat. Now we truly need the C-17 cargo plane, its supporters argue, since airlift has become so important. But the Senate did not delay procurement funding for the C-17 in order to cancel it. Instead, the Senate argued that the program requires additional testing before production. This sound principle—"fly-before-buy"—should not be jettisoned simply because the Saudi operation demonstrates the impor-

tance of airlift. In reality, as former defense official Russell Murray recently pointed out, we could have purchased approximately 70 C-5 aircraft for the money we have already invested in just the R&D on the C-17.

Sealift is another requirement demonstrated by the Gulf operation. Since buying eight fast sealift ships in the early 1990s, the Navy has purchased no more. For 1990, Congress appropriated $600 million for fast sealift but Cheney sought to transfer all these funds. In the end, $225 million was reprogrammed, but the remaining funds have still not been spent. Sealift could be important to long-term military operations in the post-Cold War world; it has not had the priority it deserves.

The House committee and the Senate have also been criticized for reducing funding for—or deferring—other new hardware modernization programs: the Navy's A-12 attack bomber and SSN-21 submarine; the Air Force's Advanced Tactical Fighter, JSTARS aircraft and AMRAAM missile and the Army's LH helicopter. But none of these systems has any bearing on the current operation, since none will be operational anywhere close to the likely time frame of the Gulf deployment. Moreover, if war broke out, it would be more important to keep production lines for operational systems open than to rush new weapons into production. Thus the Middle East operation tends to support Congress's emphasis on improving current systems over starting new programs.

It might still be argued that these new programs are needed to stay ahead of potential adversaries. Nothing in the Gulf situation suggests, however, that staying ahead of the Iraqis technologically is part of our military problem. Their fighter aircraft and tank forces are more than a generation behind ours.

Aside from sealift, there is one other area where the Gulf operation may give budget-cutters pause. The House defense committee cut FY 1991 operations and maintenance (O&M) funding by $6.3 billion and the Senate cut it by $3.9 billion. Some of these funds may need to be restored to support the Persian Gulf operations. Particularly harmful would be the indiscriminate automatic cuts that would be imposed by Gramm-Rudman should Congress fail to develop a realistic budget alternative.

But even the O&M accounts are not sacrosanct. Saudi contributions and other potential allied support may limit the need for fund restoration. Moreover, as is frequently overlooked, not all of the O&M budget is essential for readiness, and much of it is wasted. And planned force cuts and reduced operations for Europe-oriented forces will free up operating funds.

In short, the Gulf deployment should not provide an excuse for reversing the course on which Congress has set defense funding and planning: slowing the rush into the untested and expensive next generation of military hardware; measuring each item against the new world realities to make sure we need it; making sure that it can perform as advertised; and moving toward the lighter, more mobile, more reserve-based forces that the new world requires. Nothing in the Gulf situation changes that sound strategy.

IMPLICATIONS OF A NATIONALIZED SYSTEM OF HEALTH CARE

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. CRANE. Mr. Speaker, as a nationalized system of health care is considered as an alternative to our current system, we must ensure that the American people fully understand the implications of such a system. I remain absolutely opposed to socialized health care and can cite Canada and Great Britain as examples of how such a system results in lower quality and less available health care. I commend to my colleagues an article in the October 28, 1989 issue of Family Practice magazine, written by Dr. William E. Goodman. Dr. Goodman is a practitioner in Canada who has become quite familiar with the effects of a nationalized system of health care in our neighboring country. In the article he makes several points that my colleagues, and the American public alike, would do well to heed.

[From Family Practice Magazine Oct. 28, 1989]

SHIPPING CANADIAN HEALTH CARE TO THE U.S.—C.O.D.

(By Dr. William E. Goodman)

The progressive and well-documented reduced access to first-rate medical care in Canada's national health insurance system is matched, unhappily, by increasing demands for a similar scheme by many of our uninformed American neighbours. From an unlikely alliance of U.S. labour unions, university academics, Chrysler president Lee Iacocca, the American Association of Retired Persons, Senator Edward Kennedy, and even the National Association of Manufacturers come paeans of praise for our medical utopia.

For the first few years the Canadian open-ended scheme was lovely, like an all-purpose, unlimited use, no-questions-asked and no-payment-required American Express card. But as with a credit card, the bill for our free scheme has now come in and overwhelmed both the system and our economy.

POPULAR GOODY

As I'm fond of telling my friends in the U.S., Americans can have this highly popular goody. All they have to do is the following:

(1) Increase taxes exponentially. Our federal taxes have increased over 100 percent in the past five years. Michael Wilson's new value-added tax is due shortly. Provincial taxes have also risen steeply in the past year.

(2) Double the per capita federal indebtedness and annual deficit, not to mention the massive provincial debt.

(3) Abrogate the civil rights of large-segments of the population, i.e. the health care providers and health care institutions. As financial analyst Don Coxe has said: "Universality is one of the heresies of our time. To say that everyone has a right to a service is to mandate that someone else will supply that service at a price that government is willing to pay. Thus, the universal is achieved through the regimenting of a subsector of society."

(4) Renege on written contracts, as Ontario did when it refused to honour a signed financial arrangement with its doctors several years ago.

(5) Impose a negligible fee settlement for medical services, even when the government's own arbitrator has recommended more than double that amount, as Ontario did recently.

CIVIL CONSCRIPTION

(6) Introduce civil conscription, by designating where and under what financial arrangements doctors may practice, as was done in Quebec and British Columbia.

(7) Present the joys of a national health service that is compulsory and universal; has no deterrents, no maximum and unlimited access; and is completely run and controlled by bureaucracy as part of the government's mandate. (The independence of doctors and hospitals is a cruel fiction but that's another story.) Add the oxymoron of civil service efficiency, and when the system collapses of its own weight, you:

(8) Blame the greedy doctors, hospitals, nurses, drug companies, diagnostic clinics, etc.

(9) Introduce de facto rationing of health care by "rationalizing" the system. That is, limit the number and types of services which doctors or hospitals may offer and for which the government will pay, underfund desperately needed facilities, drive health care providers and institutions out of the field (or the country), increase waiting periods for urgent treatment to months or years, and deny payment for essential but expensive treatments to the aged or other "unproductive" segments of society (already government policy in the U.K. and France).

To my American friends I add the old proverb: Be careful what you ask for. You may get it.

THE MIAMI FAMILY FRIENDS PROJECT

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Ms. ROS-LEHTINEN. Mr. Speaker, the Family Friends Project will face its last day of funding from a special foundation on November 1, 1990. This is a prospect that the Community Action Agency, the Family Friends Advisory Council and the National Council on the Aging are not willing to accept, but rather are committed to the Project's continuation.

Family Friends is a 4-year program which matches older volunteers, 55 years of age or older, with chronically ill or disabled children and their families. They provide social and emotional support and other types of assistance in the families' homes. The project, which is funded by the National Council on the Aging, Inc. [NCOA], benefits children, parents, and volunteers alike. Parents receive support to help them cope with the stress of caring for their children, while the children benefit from the personal attention given them by a caring and experienced older person. For the volunteers, greater self-esteem and a sense of purpose in their lives is achieved from the knowledge that they are helping those less fortunate than they.

The Family Friends Project is one of seven senior programs which falls under Special Programs for the Elderly, a division of the Dade

County Community Action Agency [CAA]. The project has served a total of 70 chronically ill or disabled children and their families throughout Dade County. Six of their volunteers are also placed in two public schools and three are placed at Easter Seals. Such work and dedication in the name of helping others, cannot go unnoticed. On behalf of myself and the countless recipients of the tender care of the Family Friends Project, I extend my heartfelt appreciation.

The following individuals are worthy of the highest praise for their compassionate efforts in this endeavor: Vilma Vera, chairperson; Shirley Hunte, vice chairperson; Barbara Reiser, secretary; Martha Pelaez, director of education and training Southeast Florida; Lynn Heyman, volunteer services director; Gust Niarchos, program manager; Olga Busutil; Alisa Adler; Juana Quiroz; Ellen Dickerson; Irma Emory; Beba Sosa, administrator, Retired Senior Volunteer Program; Maria Tindle; Isabel Del Pino; Exilda Cardozo; Ezra Jones; Terry Lucas; Meridith Miller, Ph.D.; and, the volunteers, without whose help there would be no Family Friends Project.

VEHICLE FUEL EFFICIENCY

HON. CLAUDINE SCHNEIDER

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Ms. SCHNEIDER. Mr. Speaker, I am joining my colleague Representative BARBARA BOXER today in introducing one of the most important pieces of legislation to be considered by the Congress this session, the Motor Vehicle Fuel Efficiency Act. This legislation will increase the Federal vehicle fuel efficiency standards to 40 miles per gallon by the end of the decade. This single act will eventually displace the entire amount of oil the United States must not allow itself to be held hostage by such oil tyrants.

I have made this point repeatedly over the past decade, pointing out that two-thirds of the world's remaining cheap oil is located in the Middle East where wars and conflicts have occurred with regularity for decades. More than half a decade ago Representative BOXER and I first joined forces in introducing the Energy Efficient America Act, which included a title to increase Federal fuel efficiency standards to 45 miles per gallon by the early 1990's. The Nation would now be approaching that level if Congress had implemented our legislation, and we would not be as dependent on vulnerable Mideast oil imports. We cannot allow this golden opportunity to go untapped. Not only does higher fuel economy strengthen our national security by freeing us from Mideast oil addiction, but it will lower the trade deficit, over $50 billion of which now goes for importing foreign oil.

Improved fuel standards will also save Americans billions of dollars at the gas pumps. Equally valuable is the fact that this one energy efficiency gain will prevent the combustion of billions of barrels of oil and the generation of a chemical soup of pollutants that would worsen the problems of smog, acid rain, and global warming. In short, this move buys us security and environmental quality at no cost to the taxpayers or consumer.

On the contrary, with the everpresent threat of higher oil prices stemming from Mideast conflicts and wars, the global demand for fuel efficient cars will inevitably increase. It is in our Nation's economic self-interest to maintain the technological lead on fuel efficient vehicles so we can enhance our competitive position in the world market. Most of us remember all too well the oil price shocks of the 1970's that had a devastating impact on American automakers as American consumers shifted to fuel-efficient foreign automobiles. As has been noted many times before, there is no lesson in the second kick of a mule. We should prevent any further erosion of our domestic auto industry by spurring greater reliance on highly fuel efficient vehicles.

Some analysts argue that more demanding standards will make it impossible to produce the big cars consumers want and to provide adequate safety for drivers. But Department of Transportation studies indicate that employing a range of technological advancements make it possible to achieve over 45 miles per gallon in large cars. A few four- and five-passenger prototypes have done far better—achieving between 75 and 100 miles per gallon. As for safety, design is far more important than weight. Chevrolet's 4,100-pound 1985 Astro minivan, for example, was one of the worst performers in crash tests; on the other hand, the high mileage 2,600-pound Chevy Nova had the best crash test rating of any of the new cars tested that year.

However, our bill is more modest in scope, in the hopes of galvanizing congressional action around this very important policy step before we adjourn this year. The Senate Commerce Committee has already reported out a counterpart bill (S. 1224), and it is scheduled to be voted by the Senate very shortly. It is time for the House to move forward as expeditiously as the Senate. Public sentiment overwhelmingly favors higher fuel standards, even if it should turn out that a vehicle would cost several hundred dollars more. This was the findings of a poll recently conducted for the Union of Concerned Scientists, which found over 80 percent of the public strongly advocates fuel economy standards over 40 miles per gallon.

It has been 15 years since the Congress first enacted Federal vehicle fuel economy standards. According to studies by the U.S. Department of Energy, these standards have been extraordinarily successful in saving energy and saving money. Between 1976 and 1988 the standards helped accrue gas savings in excess of $250 billion, for an investment of $40 to $80 billion to make vehicles more fuel efficient.

Standards remain an indispensable part of securing additional savings. Many argue for simply raising the price of oil, while ignoring higher fuel economy standards. But higher prices, alone, will not lead to higher fuel savings. This is self-evident in countries like Japan and in West Europe, where gasoline prices are 200 to 400 percent higher than in the United States, but vehicles are only slightly more efficient than in the United States. The reality is that gasoline becomes a relatively small part of the overall cost of operating and maintaining a vehicle when fuel mileage reaches 30 miles per gallon. Yet, enormous societal savings remain economically attractive even up to 75 miles per gallon or more. Standards are essential for spurring these technological advancements and capturing these societal savings.

We can eliminate Persian Gulf oil dependency, and we can do it while saving money. No other energy option offers this win-win combination of enhancing national security, environmental quality, and economic productivity.

ANOTHER FAILURE ON OIL?

HON. MICHAEL G. OXLEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. OXLEY. Mr. Speaker, I would like to call my colleagues' attention to an article by Frank G. Zarb in the September 4th edition of the Washington Post.

Recent events in the Persian Gulf have served to remind us that America needs a national energy policy. We needed it in the 1970's and we need it now. Mr. Zarb's article points out the opportunities we missed to adequately provide for energy security as well as suggested solutions for reaching our goal of energy independence. I commend the article to my colleagues and ask that it be reprinted in the RECORD.

ANOTHER FAILURE ON OIL?

(By Frank G. Zarb)

Since the 1970s, the Western nations have faced three major threats to oil supplies. The most recent threat finds us all less vulnerable than we were in 1973, when the Organization of Petroleum Exporting Countries first imposed an oil embargo. Yet we, and particularly the United States, have not since found the will to reduce substantially our oil dependence.

Here we are in 1990 with troops deployed in the Gulf states and oil prices approaching $30 a barrel (at the height of the first embargo, prices reached $40 a barrel). The unpredictable consequences of military action and the very predictable economic consequences of higher oil prices loom large on the horizon.

What is so disturbing about our current fix is the recollection of missed opportunities. In 1975, in his State of the Union address, President Ford proposed to deal with a future embargo. He outlined a massive effort to increase domestic energy supplies of oil, gas, nuclear and coal, in order to reduce foreign oil imports by as much as 1 million barrels daily. His proposal also focused on a broad range of conservation and emergency supply measures.

Congress listened politely and in the end did move, at snail's pace, to deregulate prices and pass a small number of other energy measures. But with the passing of the crisis, neither Congress nor public opinion could be further stirred to enact the coherent national energy policy we needed them and need more urgently now.

I remember vividly in early 1976 at the end of a particularly frustrating week of dealing with the politics of energy asking for a private meeting with the late senator Henry (Scoop) Jackson, who was chairman

of the Senate Energy and Natural Resources Committee. There I was, hat in hand, asking the senator what we could do to reignite national concern about our vulnerability to oil imports. His answer was, simply: "Frank, do you know how to make another energy crisis?"

Do we have another potential energy crisis on our hands? You bet we do.

In the short term, however, the threat to our immediate needs is lessened by our action to protect the remaining oil flowing from the Middle East in addition to the supplies and sources elsewhere in the world. As a nation we are more energy efficient and conscious, using as much energy as we did a decade ago in an economy a third larger. Then there is one of the successes of the Ford program, the Strategic Petroleum Reserve of more than 600 million barrels.

But for the long term, there is continuing potential for crisis. The United States sits on enormous reserves of natural gas and coal and nearly 27 billion barrels of oil reserves. Yet domestic oil production is at its lowest level since the 1960s, while we import more than 50 percent of our oil and, at this rate, could import two-thirds by the year 2000. Nuclear power development is moribund; synthetic fuel production by and large is currently uneconomic. The crisis is not one of available resources. It is more grounded in complacency and lack of consensus needed to support a national energy program for the 21st century and to make the hard choices required to formulate an effective program. The prescription for energy security lies in clearing these hurdles:

Resist the destructive temptation to use government price or supply controls. We learned in the 1970s that price controls contribute to the producers—not to the solution.

Unravel the crazy quilt of restrictions—whether federal, state or local—that stand in the way of increased oil and gas production, particularly for offshore drilling and leasing of federal lands. Investment incentives to production should be encouraged.

Strengthen our ability to fulfill expanding electricity needs. While utility regulation, particularly rate setting, remains the province of the states, at least enact federal legislation to expedite energy facility applications and prevent their nullification by local governments. The promising technologies for coal burning (with nearly 270 billion recoverable tons in the ground, coal is our largest fuel supply and most-used source of electricity by utilities) that meet today's stricter environmental standards also must be encouraged. Unless increasing demand for electricity is satisfied, we will be facing brownouts verging on blackouts with increased frequency by the end of the decade.

Come to grips with the need for a realistic policy to expand nuclear power. In his 1975 message to Congress, President Ford proposed building 200 nuclear power plants by 1985 on a standardized basis, a method used to good effect by, for instance, France. Standard design legislation would overcome many safety questions and speed construction.

Address the very real dangers of energy production and use to the environment in ways that do not cripple growth but encourage new incentives and technologies. It appears to me that there is a growing dialogue and communion of goals between environmentalists and producers that may build a consensus and support for a balanced approach for energy development. But any new national environmental moves must be examined in the light of a sensible, as well as balanced, long-term energy program. Underlying any plan to reduce our energy dependence is the reality that efforts to enhance our energy supply require long lead times—as much as a decade in the case of oil. The program proposed by President Ford for implementation by 1985, after all, was generated in 1975. Had most of it passed, it must be said, we would not be sending troops to the Gulf in 1990.

However we resolve the critical steps toward energy security—and tomorrow is not a day early to begin taking those steps—there is one more salient ingredient in the mix of government, private enterprise and environmental interests directed at the problem. That ingredient is the marketplace, and the best efforts toward reaching our energy goals cannot ignore the power of pricing their value. In the end, the price of development and production will be the best regulator of supply and of conservation as well.

It is, to say the least, unclear how the current crisis in the Gulf will be settled; the universal hope is, of course, a political solution. Much clearer is the solution to energy security in the next century and beyond—more commitment of the national will to energy independence and a swift end to our national complacency.

CONGRESSWOMAN MARY T. NORTON MEMORIAL AWARD ESTABLISHED SALUTING WOMEN OF THE UNITED WAY

HON. FRANK J. GUARINI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. GUARINI. Mr. Speaker, on September 25, 1990, the United Way of Hudson County will be presenting distinguished awards and making an important announcement at its annual luncheon to be held at the Meadowlands Hilton Hotel in Secaucus, NJ.

In 1887, four Denver religious leaders founded what we know today as the United Way and which subsequently spread nationwide. These leaders were concerned about the hardships suffered by men, women, and children in America's gold rush. They banded together to form a charity organization, utilizing a community chest in the middle of the town to receive donations.

Today millions of volunteers across America make up the United Way. Their service, energy, and resourcefulness make their communities better places to live and raise families.

The United Way of Hudson County, under the dynamic leadership of its executive director, William E. Martin, has built a unique partnership with labor, industry, Federal, State, and local governments and public and private agencies all working together solving problems in our communities.

The United Way's board of directors is composed of outstanding men and women from the community. This year's chairman of the board is William Thornton of Jersey City.

Founded in 1932, the United Way of Hudson County has joined with the United Way of Tri-State bringing together 36 organizations in New Jersey, New York, and Connecticut. Under this arrangement, it works with 840 communities and more than 1,800 human services agencies providing a lifetime of caring and sharing.

The September 25 luncheon will feature a special salute to the accomplishments of women in the United Way. As a tribute, Bill Martin and the board of directors have established the "Congresswoman Mary T. Norton, 1875–1959, Memorial Award."

In 1925, Mary Teresa Hopkins Norton became a member of the 69th Congress from the 12th Congressional District which encompassed Jersey City and Bayonne. She was the first woman from the Democratic Party and the first woman of an eastern State elected to the House of Representatives in her own right. During that period of American history, most of the women who served in Congress were filling the seats of their deceased husbands.

This award is designed to recognize the deep commitment to human services exemplified by Congresswoman Norton. In her 13 consecutive terms until she retired in 1950, Mary T. Norton expressed concerns which still command our attention in the areas of day care, veterans, health facilities, maternity care, fair employment practices, rights of labor, and inclusion of women in high levels of government service. Often her voice was a voice in the wilderness.

During the 1930's, Congresswoman Norton served as the unofficial "Mayoress" of Washington, DC, and worked diligently for individual rights and laws regulating child labor.

Mrs. Joan D. Lovero, the librarian at the New Jersey Room of the Jersey City Public Library, conducted a seminar recently on Congresswoman Mary T. Norton. She described her as a woman of great dignity and poise who was always confident in controversy. An astute politician, she was proud of her calling and was an effective advocate for issues still vital today. As a legislator, she was 60 years ahead of her time in assessing the needs of women and families in Hudson County and the Nation.

This award recognizes women who have made outstanding contributions and deep commitments to United Way programs. It symbolizes the United Way's tradition of helping people help each other.

At the luncheon, I will present awards along with George B. Harvey, chairman of the United Way of Tri-State. Mr. Harvey is also chairman of the board and chief executive officer of Pitney Bowes, Stamford, CT. He is to be congratulated for appearing on the recent cover of Business Week magazine as "Chairman of the Best Company for Women in the USA."

The 1990 recipients of this prestigious award are:

Betty Beene, president, United Way of Tri-State, former president of the United Way of the Texas Gulf Coast, Houston, TX.

Rosalie Burns Davis, chief professional officer of the United Way of Central Jersey.

Vivian G. Dupree, vice president, comptroller, allocations director of the United Way of Hudson County.

Elinor Ferdon, former chairperson of the board, Bergen County United Way 1984–89, and member of the Tri-State board of directors.

Ann Johnson, past president, United Way of North Essex, and chair of Partner Issues & Resources, Tri-State.

Dell Raudelunas, first woman executive director of a Metro III United Way, Union County, NJ.

Denise Richardson, Fox 5–TV personality, and Tri-State Film Production, "Making the Best Better."

Mary Stewart, president of the Hudson County Education Association.

Also, I will be proud to announce that for the first time in the Nation we have created an American Way division to provide for the estimated 100,000 newcomers to Hudson County. According to a survey, this group greatly underutilizes available services. The division was developed after many weeks of work this past summer by our executive director, William E. Martin, and Conrad J. Vuocolo, one of my aides.

Our Nation and our community have reached a unique historical juncture. We are faced with the need to meet competing yet equally important social and economic problems simultaneously.

In the nineties we need every pair of hands in America put to work forging, shaping, and molding an economy that will restore our competitive advantage. Social problems demand that we do everything in our power to help lift people up, give them hope, make them whole, and prepare them for taking on a greater more meaningful role in society.

United Way sees these issues as interrelated. This comes at a time when United Way, through its commitment to the second century initiative looks toward the work place in the year 2000. We need to understand the shifting dynamics of the workplace of the future and the effect of those changes on society.

To meet these needs, United Way has begun to redefine the communities' problems in this context.

We must begin now to undertake initiatives to solve problems which may take generations to complete as we attempt to move people toward full self-sufficiency.

United Way is one organization offering the kind of leadership that we need the most. The quality and commitment of our volunteers and professionals make this system the best way to care for our neighbors.

The following are the chairpersons of the American Way:

Philippine division—Flor Alcantara Medel, community leader and educator.

Indo-Pakistani division—Hardyal Singh, president, Mahatma Gandhi Association.

Korean division—E. Yong Lee, Ph.D., chairman, professor of economics, Upsala College.

Egyptian division—Mohamed Emara, community leader, auditor.

Chinese division—Mary G. Cheng, educator.

Vietnamese division—Tony C. Tran, businessman, TCT Imports, Inc.

Also, extending congratulations to the honorees will be J. Michael Cook, incoming chairman of the board of the United Way of Tri-State. Mr. Cook is also chairman and chief executive officer of Deloitte and Touche, of Wilton, CT.

I know that my colleagues in the House of Representatives want to join me in extending congratulations to the recipients of the Congresswoman Mary T. Norton Memorial Award, and best wishes to the leadership of the ethnic groups on the American Way Program.

THE DEPOSIT INSURANCE LIMITATION ACT OF 1990

HON. SILVIO O. CONTE

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. CONTE. Mr. Speaker, I rise today to introduce the Deposit Insurance Limitation Act of 1990, a measure that offers a commonsense solution to one of the most significant causes of the savings and loan crisis. This bill will reform Federal deposit insurance and restore some depositor discipline to the banking industry in this country.

The savings and loan crisis is a financial morass the threatens to engulf our Federal budget and potentially the entire economy. The cost is conservatively placed at $300 billion. In all likelihood it will be a staggering $500 billion disaster. A sum that would cost the American people an average of $2,000 apiece.

Last year this body dealt with many of the causes and consequences of this disaster through the Financial Institutions Reform and Recovery Act. FIRREA attacked many of the causes of the savings and loan mess: It increased capital standards for banks and thrifts, tightened up Federal banking regulations, gave new powers to the FDIC and recapitalized the insurance funds. Yet, with all the good that it did FIRREA never addressed Federal deposit insurance itself. It required a study from the Treasury Department on deposit insurance reform and that was all.

The savings and loan crisis has pointed out the fatal flaw in deposit insurance. The deposit insurance system was started in the 1930's to raise the confidence of depositors and put an end to destructive bank runs. Even then experts warned about the possible ill effects of such a measure; they spoke of a possible decline in ethics in banking and lack of depositor discipline creating a vast potential for abuse. Their premonitions were, unfortunately and amazingly, correct. Deposit insurance has taken the discipline out of most of the banking industry, and out of the depositors themselves. Investors no longer care about the stability of a bank. They look only for the place with the extra percentage point on the sign in the window, which all too often is run by an incompetent or a thief.

Restoring some of the discipline and sanity is the reason I am introducing this bill. Essentially, this bill amends the Federal Deposit Insurance Act and the Federal Credit Union Act to do the following:

First, reduce Federal deposit insurance limits to a total of $100,000 per person rather than per account, and limit such coverage to once every 36 months.

Second, it authorizes the FDIC Board of Directors and the National Credit Union Administration Board to set up regulations to monitor such coverage.

Third, it protects the "pass-through" coverage of qualified pension accounts and exempts them from the aggregate limit.

Fourth, it maintains the existing coverage of public funds held by agents of State, local, or the Federal Government.

The Deposit Insurance Limitation Act, simply by limiting coverage to $100,000 per person, will have the effect of reducing the insurance fund's exposure by approximately 16,000 times. That is the approximate number of federally insured financial institutions in the country. Obviously, the average American is not going to have 16,000 $100,000 accounts, but those investors who have multiple accounts—investment banks, brkerage houses, the very wealthy—are going to be exposed. That is the point, these are the people who have the ability to learn about the banks they are using. Let them show a little discipline, a little care. They have brokers and analysts and advisors, use them.

This body was concerned with these large chunks of federally insured money. FIRREA put a limit on brokered deposits; they can go to adequately capitalized banks and thrifts only. Last year, the chairman of the FDIC, William Seidman testified about them before the House Committee on Banking, Housing and Urban Affairs. He said that, "Brokered accounts can represent a valuable liquidity management tool for all financial institutions" and added that "the problem is not brokered deposits per se, but how these funds, like any other funds, are used." He pointed out that the FDIC has several regulations that govern such deposits. That is fine, and my bill adds one more safety mechanism: depositor discipline. If a bank has a liquidity problem and it is well run, then the brokered deposits will go there, with or without insurance. If it is not well run, then let's remove the incentive for putting money into it and making it one of the walking dead.

The Chairman of the Federal Reserve System, Alan Greenspan, in testimony before the Senate Committee on Banking, Housing, and Urban Affairs in July of this year said, "Serious study should be devoted to the cost and effectiveness of policing the $100,000 limit so that multiple accounts are not used to obtain more protection for individual depositors than Congress intends." The Deposit Insurance Limitation Act requests that the FDIC establish just such a policing mechanism.

My bill will not hurt the average investor, who has savings of roughly $8,700. The safety of his or her deposits will remain the same. Nor will my bill jeopardize their pension funds, large of small. My bill takes the burden of insuring these multiple chunks of federally insured money off of the FDIC and the American taxpayer. It puts the burden squarely where it belongs, on the people and corporations whose money it is. They have the knowledge and capabilities to invest it wisely and safely.

The deposit insurance system was designed to promote stability in our banking system and to protect the average, less sophisticated de-

positor. It has become a system which promotes carelessness and greed. The Deposit Insurance Limitation Act brings us back toward that original intention. It will encourage large, sophisticated depositors to excercise discipline concerning their investments. Their discipline will encourage banks to follow more conservative, safer policies in order to attract depositors, thereby strengthening the entire banking system. At the same time, my bill continues to protect the average depositor.

Reforming deposit insurance is the key to protecting the banking industry from future failures. My bill provides some of those reforms. I ask all my colleagues to join with me and cosponsor the Deposit Insurance Limitation Act and restore safety and sanity to the deposit insurance system.

DESERT RADIOLOGISTS SILVER ANNIVERSARY

HON. JAMES H. BILBRAY

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BILBRAY. Mr. Speaker, I would like to take this opportunity to call attention to the Desert Radiologists silver anniversary.

This year marks the 25th year of medical practice for Nevada's largest group of radiologists. The founder of this group, Dr. Robert Taylor, was the first radiologist to practice diagnostic and therapeutic radiology in Las Vegas in 1956. Joined by Drs. Harris Knudson and James Lum, their professional affiliation was the first medical professional corporation established in 1966. Since then their practice has grown to now include a total of 14 diagnostic radiologists: James Lum, M.D., Richard Ellis, M.D., Paul D. Bandt, M.D., Brent B. Birkin, M.D., Stephen A. Kollins, M.D., Peter C. Christenson, M.D., Carl A. Recine, M.D., Luther Creed, M.D., George P. Mulopulos, M.D., Charles F. Hales, M.D., Thomas E. Costello, M.D., Steve N. Rindsberg, M.D., David D. Diment, M.D., and Robert B. Poliner, M.D. and four radiation oncologists: Douglas S. Wong, M.D., Bruce B. Borgelt, M.D., Raul T. Meoz, M.D., and Danny L. Curtis, M.D.

Of the original members, Dr. Lum is still currently practicing with his associates.

The group offers a full range of diagnostic imaging services at their primary offices in Las Vegas, NV, including x ray, fluoroscopy, mammography and breast evaluations, diagnostic ultrasound, computed tomography—CT scanning—both high and midfield magnetic resonance imaging [MRI] and noninvasive vascular evaluations. These physicians provide full consulting services for the Departments of Radiology at Desert Springs Hospital and University Medical Center of southern Nevada, as well as for almost all of the health care provider organizations in southern Nevada.

The innovative practice style of the founders has been maintained as the group has grown. Many dramatic changes in the type of equipment available to radiologists have occurred in the past 25 years and staying at the leading edge of technology has been a constant challenge. Desert Radiologists brought to the State of Nevada the first diagnostic ultrasound equipment in 1974, the first nuclear medicine Gamma camera in 1969 and the first dedicated nuclear cardiology system in 1977. Their medical practice was instrumental in bringing University Medical Center's first whole body CT scanner into clinical use in 1976. They have recently placed the first Hitachi 0.2 Tesla MRI into operation at their Palomino office to complement their existing high field 1.5 Tesla General Electric sigma MRI system, used to provide medical imaging without x-ray exposure since 1987. They continually provide access to the most up-to-date equipment for their patients.

Desert Radiologists established the State's first fully staffed radiation therapy center in 1980. Known as the Nevada Radiation Oncology Center, the facility utilizes two sophisticated linear accelerators with state-of-the-art therapy planning computers as well as full-time onsite physics support and is a major referral center for cancer care. Through the federally-funded Community Clinical Oncology Program, which it helped bring to Las Vegas in 1983, the Nevada Radiation Oncology Center maintains affiliations with the Radiation Therapy Oncology Group [RTOG], the University of California, San Diego, the Cancer and Acute Leukemia Group B [CALGB], the National Surgical Adjuvant Breast and Bowel project [NSABP], the Children's Cancer Study Group (CCSG) and the University of Texas System M.D. Anderson Hospital and Tumor Institute. These affiliations make it possible to offer the latest forms of diagnosis and cancer treatment to local physicians and their patients.

Many of the group are talented teachers of medicine and have academic appointments on the faculty of the University of Nevada School of Medicine where they teach medical students and resident physicians. In addition, the group established, nearly 25 years ago, the forerunner for the current University of Nevada, Las Vegas College of Health Sciences Training Program for radiologic technologists at the original Clark County Hospital, now known as University Medical Center of Southern Nevada. Since the program's establishment, Desert Radiologists have donated x-ray and ultrasound equipment to the university as well as many hours of teaching time to its students. They recently helped launch the UNLV Ultrasound Technologist Program and are assisting in the development of an upcoming radiation therapist training program as well.

Desert Radiologists' silver anniversary year is felt to be an important milestone in the history of medicine in Las Vegas, NV. And for these doctors, a time to reflect upon their history and to rededicate themselves to providing continued high quality, cost-effective medical care to the entire community.

TRIBUTE TO GIORGIO PERLASCA—RECIPIENT OF THE U.S. MEDAL OF REMEMBRANCE

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. LANTOS. Mr. Speaker, I invite my colleagues in the Congress to join me in paying tribute to a hero—Giorgio Perlasca, who saved the lives of thousands of Hungarian Jews in Budapest during the bitter nightmare of the holocaust. While we generally consider heroes to be men and women who perform great feats to considerable public acclaim, Giorgio Perlasca has received little public recognition for these great acts of true heroism.

Mr. Perlasca is a modest man who has never sought public praise, and he has not trumpeted his actions. Thus, until recently, his remarkable feats were not widely known. But his modest silence through the years has never stopped him from continually raising his voice in protest against prejudice and injustice.

Mr. Speaker, last Thursday evening Giorgio Perlasca was presented the U.S. Medal of Remembrance by the Honorable Harvey M. Meyerhoff, chairman of the U.S. Holocaust Memorial Council—a recognition that was most deserved and long overdue.

Giorgio Perlasca is an Italian businessman who found himself in Budapest in 1944. He was what was happening to the Jews of Hungary, and he refused to be a bystander. At grave personal risk, Perlasca was personally responsible for saving thousands of Hungarian Jews destined for certain death. During the spring and summer of 1944, hundreds of thousands of Jews were being deported from Hungary to Auschwitz/Birkenau where ten thousand were being murdered daily.

Giorgio Perlasca undertook a bold and daring mission. Without diplomatic credentials or standing, Perlasca represented himself as a Spanish diplomat, issued safe passes, and maintained protected houses. Daily, with total disregard for his own life, Perlasca combed the streets and Nazi prisons and personally brought Jews back to safety. Daily he supplied them with food and other necessities, sometimes purchased with his own money. He was creative, imaginative, brilliant in his heroic effort to save this persecuted minority.

Many of his activities are similar to those of the Swedish businessman-diplomat Raoul Wallenberg, who saved tens of thousands in Budapest at the same time. Giorgio Perlasca and Wallenberg knew each other and worked together on many occasions in their heroic work of saving lives and human dignity.

Eva Lang, a poet who still lives in Budapest, was one of the many saved by this quiet, unassuming man. In her poem "Homage"—Giorgio Perlasca, she paid tribute to him:

Our bodies bore the burden of a star,
But that man, who saved thousands, made
our burden lighter.
Turned the yellow star of shame into a
decoration.
That man, who saved thousands, still lives,
but he is silent.
I must shout for him.

Giorgio Perlasca is now retired and lives quietly in Padua with his wife Romilda. He has never sought publicity, but his herioc story is now being told principally by others. His commitment to human values is as firm and unwavering now as it was over 45 years go in Budapest when he put his life on the line to save the lives of others.

Earlier this year, he spoke up publicly against the recent desecration of Jewish cemeteries in France. For his public statement, he received death threats, and his home in Padua was spray painted. These vicious actions, however, have not intimidated this brave man. In a statement published in Il Gazzetino, Perlasca wrote:

Am I afraid? Absolutly not. Those who act with bravura solely to make themselves feel big and who entrench themselves behind anonymity don't make me afraid. Perhaps it is they who should be afraid of us.

The world doesn't need heroes, men who want to go into history, but it needs many people who, with their humanity know how to be history.

Mr. Speaker, Giorgio Perlasca is a man of great integrity, a man who takes seriously his obligation to his fellow man, and one who is willing to honor that obligation at great personal risk and cost to himself. I congratulate Mr. Perlasca—he is a most worthy recipient of the U.S. Medal of Remembrance.

H.R. 5559 THE HOMEOWNER PROTECTION ACT OF 1990

HON. HENRY B. GONZALEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. GONZALEZ. Mr. Speaker, I have today introduced the Homeownership Protection Act of 1990, H.R. 5559

The Homeownership Protection Act of 1990 provides assistance for mortgage payments of members of the Armed Forces, or their families, who are killed or are seriously injured while serving their Nation, in order to prevent foreclosures on their homes.

This bill provides monthly payments on behalf of any member of the armed services for a 2-year period beginning upon the death or serious injury of the member. In addition, after the end of this 2-year period, supplemental assistance payments are available to ensure that the member, or their families, will not lose their home because of continuing financial distress as a result of such death or injury.

With the additional supplemental assistance, the household of the member of the Armed Forces is safeguarded from paying more than 30 percent of their household's monthly income for housing. This 30-percent determination is consistent with what Congress has determined through other assistance programs, as reasonable household payment for housing without causing undue burdens.

My bill addresses a gap in current law to ensure protection of the homes and financial stability for those who have been killed or seriously injured in the line of duty. The Soldiers and Sailors Civil Relief Act of 1940 provides assistance to members of the Armed Forces who have been called to service by reducing their interest payments on debts acquired prior to such service to 6 percent when necessary to prevent default and foreclosure. However, I want to ensure that in circumstances more dire, the member and family are provided for.

This Wednesday, September 12, the House and Senate Veterans Committees are holding a joint hearing on this bill, the Soldiers and Sailors Civil Relief Act, for which I commend my good friend SONNY MONTGOMERY, chairman of this committee. It is important for our servicemen and servicewomen to know that Congress is behind them with material support as well as expressions of confidence.

I also want to commend Fannie Mae and Freddie Mac for coming out so strongly in support of our members of the military. Their recent announcements that they will absorb whatever losses arise from the interest rate reduction for servicemen and servicewomen as stipulated by the Soldiers and Sailors Civil Relief Act of 1940, are truly salutory.

My bill, together with these other efforts, will go far in showing our respect and gratitude for those who put their lives on the line for our Nation.

OIL, OIL, EVERYWHERE?

HON. DAN SCHAEFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. SCHAEFER. Mr. Speaker, recently, the House took action to condemn the invasion of Kuwait by Iraq. This unprovoked attack by Iraq is a clear example of the political instability which remains a fact of life among many of the world's oil-producing nations.

There is no doubt this attack should be condemned in the strongest possible terms, and that the world's strong response to this provocation has been completely warranted. The senseless loss of life brought on by this conflict is unpardonable. For a moment, however, I would like to touch on one of the broader implications of the invasion.

In recent years, this country has been importing more oil than it produced. In the immediate aftermath of the Iraqi invasion, we saw the price of oil skyrocket in response. Our growing dependence on foreign oil has the potential to cripple this great Nation of ours. Recent price increases are only a small taste of the damage a full oil embargo would wreak on this Nation.

Our response, in my opinion, is an easy one. Stop the dependence. Recent history already has many examples of how energy dependence has paralyzed our country. It's time to learn from history, instead of dooming ourselves to repeat it.

Restrictions on responsible domestic oil exploration and development are not helping. It's time to take a hard look at how these restrictions are crippling U.S. independence. Serious and sustained efforts on alternative energy sources such as solar, wind, and nuclear power are also needed. With an emphasis on developing a number of alternative power sources, we build for ourselves a confident, capable, self-sufficient energy future.

It's probably not too late for us—yet. But it's certainly not too early for us to start taking actions to eliminate our energy dependence. Allowing U.S. oil to provide our energy needs, and working diligently on alternative energy sources for the future are two key steps we need to take now.

We shouldn't wait for another embargo to figure out that oil is one of the world's most powerful strategic weapons. While oil may still be plentiful now, an uncertain future may quickly prove that what we thought was oil was only a mirage in the desert.

TRIBUTE TO SHAWNEE INTERMEDIATE SCHOOL

HON. DON RITTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. RITTER. Mr. Speaker, I rise today to pay tribute to the students, parents and teachers of the Shawnee Intermediate School in Easton, PA, upon being selected as a bicentennial school by the Commission on the Bicentennial of the U.S. Constitution.

Two hundred years ago, Gouverneur Morris and James Madison penned those immortal words, the Preamble of our United States Constitution:

We the people of the United States, in order to form a more perfect Union, establish justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

Mr. Speaker, if our precious freedoms are to be preserved, our young people must appreicate the heritage that has made them possible. Good citizenship depends upon a clear understanding of our Constitution and the story of how our representative government developed.

To this end, the Commission on the Bicentennial of the United States invited schools from around the country to join the celebration of the 200th anniversary of the establishment of the U.S. Constitution, the three branches of Government—Congress, the President and the Judiciary—the Bill of Rights, and the subsequent amendments. The Shawnee Intermediate School is one of only 400 schools nationwide selected to recieve this prestigious recognition.

To participate in the Bicentennial School Program, the Commission on the Bicentennial of the U.S. Constitution urges schools to form a representative committee composed of teachers, students, administrators, parents and community representatives to plan and implement appropriate commemorative and educational activities related to the Constitution. These activities are to be encouraged throughout the school year, from Constitution Week in September to Flag Day in June.

I would like to recognize the members of the Shawnee School Bicentennial Committee for their major contributions to this program:

Dr. Phyllis Finger, chairperson; Charles A. DeBellis, principal; Marnie Barefoot, parent PTA representative; Jack Master, teacher representative; Robert Krome, community representative; and Jeff Gulini, student representative.

I would also like to recognzie Easton Area School District Superintendent Dr. William J. Maloney for his guidance and support of the Bicentennial School Program.

The school has received a certificate recognizing the school's achievements signed by former Chief Justice of the United States Warren Burger, chairman of the Commission on the Bicentennial of the U.S. Constitution.

Mr. Speaker, my colleagues, please join me in congratulating the students, parents and teachers of Shawnee Intermediate School upon receiving this well-deserved recognition.

H.R. 3200, THE OLDER WORKERS BENEFIT PROTECTION ACT

HON. EDWARD R. ROYBAL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. ROYBAL. Mr. Speaker, last year Representatives AUGUSTUS HAWKINS, WILLIAM CLAY, MATTHEW MARTINEZ, JAMES BILBRAY, and I introduced legislation designed to preserve the fundamental employment rights of this Nation's older workers, H.R. 3200, the Older Workers Benefit Protection Act. This legislation has recently been reported out of the House Education and Labor Committee, and I believe that it is critically important that we now move quickly to pass this legislation before Congress adjourns.

I would like to briefly revisit the need for H.R. 3200. For more than 20 years, older workers have been protected from age discrimination not only in hiring, firing, promotions, demotions, and compensation, but also in the critical area of employee benefits. However, on June 23, 1989, the U.S. Supreme Court in the Betts decision essentially eliminated the applicability of the Federal Age Discrimination in Employment Act to employee benefits. As a result of the Court's decision, employers can now freely discriminate against older workers in such vital employee benefits as health insurance, disability and life insurance.

H.R. 3200 restores the pre-Betts interpretation of the ADEA, and clearly prohibits employers from arbitrarily discriminating against older workers in their employee benefit plans. It does this by putting into law the Federal agency regulations in effect for 20 years prior to the Betts decision, regulations that were invalidated by the Court. It would prohibit what happened to June Betts, the 61-year-old claimant in the Betts case, who was denied disability retirement benefits by her employer simply because she became severely disabled after the plan cutoff age of 60.

The House Education and Labor Committee approved this legislation on April 4, 1990, and filed its report on August 3, 1990. As approved by the committee, the bill continues to preserve basic employment and benefit rights of older workers. In addition, committee amendments would reduce restrictions on certain employee benefit arrangements offered by employers, and provide a special transition rule for collectively bargained plans. The committee also agreed to provide State and local public employers additional time to bring their plans into compliance.

Finally, the committee added a provision to protect older workers from unknowing and involuntary waivers of their rights under the ADEA.

This bill currently has 117 cosponsors, and the strong support of the major national organizations which advocate on behalf of the elderly.

In conclusion, I would like to emphasize that the longer the Betts decision remains the existing law, the longer older workers will face the risk of becoming the victims of benefits discrimination. It is imperative therefore that we act now to reassert Congress's intent to prohibit age discrimination in all critical aspects of the employment relationship, including employee benefits. H.R. 3200 will accomplish this, and insure millions of older Americans true equality in the workplace.

NEBEKER FAMILY SELECTED AS "GOOD EARTH FAMILY" BY NATIONAL ENDOWMENT FOR SOIL AND CONSERVATION

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. LEVINE of California. Mr. Speaker, I would like to recognize one of my constituents, Mr. Eugene B. Nebeker. Mr. Nebeker and his family have been selected as a "Good Earth Family" by the National Endowment for Soil and Water Conservation. He is representing California in an awards program for outstanding achievement in conserving soil and water resources and preventing pollution.

The purpose of this program is to give new visability and meaning to the natural resource and agricultural programs in each State, so that more farmers and ranchers will be motivated to become responsible partners with the environment.

The awards program honors "Good Earth Families" who do an effective job of: Managing soil and water resources; preventing or reducing air and water pollution from agriculture; and helping other producers and the public learn how and why to protect natural resources.

The State winners are selected from among several hundred nominees by public and private agricultural and conservation leaders in each State.

Mr. Nebeker owns Nebeker Ranch located in the high-desert area in Los Angeles County known as Antelope Valley. Among the conservation techniques which Mr. Nebeker has used as part of an overall farm and community plan are:

First, since 1981, Mr. Nebeker has used a laser to accurately relevel his fields in both the direction of irrigation and the sidefall in order to conserve water, irrigate in less time, assure uniform crop cover by improving irrigation uniformity, minimize weeds, and minimize tailwater and ponding.

Second, in 1988, a pipeline, pumping station, and storage reservoirs were created from a sanitation district to Nebeker Ranch. This, along with the monitoring wells installed around the ranch to make sure that ground water resources are not being contaminated are known as the wastewater reuse pipeline and pump project. The purposes of the project are to conserve ground water, conserve electrical energy, eliminate the possibility of ground water pollution from effluent, mitigate health and safety concerns to people and animals, and mitigate minor chemical soil problems at ranch by leaching salts below root zone. Receiving this wastewater at the ranch benefits the community because it alleviates the need to expand excessive amounts of capital to evaporate the water.

Third, in 1982, the U.S. Department of Energy established a grant to design a hydraulic system which would transmit power from a wind turbine to an agricultural pump. The system was tested and demonstrated at Nebeker Ranch. The hydraulic system controlled the load on the wind turbine, was more efficient than electrical systems in capturing and utilizing wind energy and could also use energy from wind gusts.

Fourth, deep tillage. Mr. Nebeker initiated experiments to economically break up and mix the alluvial layers of clay loam that retard water movement downward to the entire root zone. Plant growth will be enhanced if the soil can be mixed to 4 or 5 foot depths.

Fifth, recycling of animal wastes. In the future spreading soil wastes on the fields prior to field preparation will be part of the deep tillage work to aid in soil mixing.

His farm has been used to demonstrate to other members of the community solutions associated with soil and water conservation. He has been chosen for the Goodyear Conservation Award by the local resource conservation district, and newspaper articles have been written about his attempts at alleviating some of the customary conservation problems.

Mr. Speaker, I rise to applaud Mr. Nebeker's unique achievements in conserving soil and water resources and preventing pollution, and ask my colleagues to join with me in honoring him for his commitment to conservation.

VIOLENCE AGAINST ARAB-AMERICANS MUST STOP

HON. DAVID E. BONIOR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BONIOR. Mr. Speaker, The United States responded swiftly and decisively to Iraq's invasion of Kuwait. We have committed 100,000 troops to defend Saudi Arabia and stand firm in our resolve that Iraq withdraw from Kuwait. Yet, events in the Persian Gulf have unleashed a series of disturbing events in this country.

Past experience shows that any crisis in the Middle East has a corresponding anti-Arab backlash in the United States. Unfortunately,

the current crisis is no exception. On August 15, a businessman in Toledo, Ohio, was reported being beaten by members of the National Association for the Advancement of White People. In my State of Michigan, the publisher of an Arab-American newspaper has received telephone calls threatening his life.

Other incidents of anti-Arab discrimination have been reported across the country. This disturbing trend has been reported in the Macomb Daily in my district and prompted the Detroit News to editorialize against such acts of hate.

The Metropolitan Detroit area has one of the country's largest Arab-American populations. The recent rise in anti-Arab hate crimes has me gravely concerned. Let me make this absolutely clear—discrimination and hate have no place in our free and democratic society.

Clearly, acts of hate left unchecked only produce a vicious cycle of violence. Let us learn from history and act quickly to condemn and by our example put an end to all acts of anti-Arab violence.

Arab-Americans are easily identifiable, making them an easy target. To make a scapegoat out of our own citizens for religious or ethnic reasons is not only simplistic, it is morally irresponsible. For any American to stand by and let this happen is just as bad. I urge my colleagues to speak out against all acts of anti-Arab discrimination, our national character and conscience depends on it.

TRIBUTE TO DR. ALEX BOYD

HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. PAYNE of New Jersey. Mr. Speaker, I would like to ask my colleagues here in the U.S. House of Representatives to join me in paying tribute to Dr. Alex Boyd, a New Jersey citizen whose achievements and contributions to the Newark community were recognized at a special event this past weekend.

On Sunday, September 9, the WBGO Second Annual Jazz Records and Crafts Fair celebrated the Revitalization of Arts and Culture in Newark. Dr. Boyd, the director of the Newark Public Library, was the honored guest for the day.

Dr. Boyd played an active role in initiating a project known as Jazz Century in Newark this summer. Jazz Century celebrated the first 100 years of jazz through a collaboration among the Newark Public Library, the Institute of Jazz Studies of Rutgers University, radio station WBGO/Jazz 88, and the city of Newark. This innovative program, dedicated to Newark's own Sarah Vaughan, featured a major exhibition, live remote broadcasts from the library, and jazz performances.

Artifacts in the exhibition included photographs, concert programs, musical scores, instruments, and posters tracing this unique music form from its early roots and African music, ragtime, and the blues through the modern period.

Dr. Boyd was appointed the Newark Public Library's 10th director in November 1988. Dr. Boyd's enthusiasm for the renaissance of Newark and of the library is reflected in his ambitious plans as the library enters its second century. These include the restoration of the library's original splendor and of its role as a major community cultural and educational center. Also being developed are plans to incorporate the latest technology, new materials, and expanded services to the diverse populations of the city, the region, and the State.

In addition, Dr. Boyd has pledged to renovate each of our branch libraries during the coming decade.

Over the course of the past year, the library expanded programs to serve special groups including senior citizens, those with language and literacy problems, and young adults.

Before serving in his current position, Dr. Boyd was assistant commissioner for planning and development at the Chicago Public Library where he participated in the revitalization of that major urban library system. He played an active role in the development of the Harold Washington Library Center. He also supervised the development of literacy projects in Chicago, and is using this experience to help promote literacy in the Newark community.

Dr. Boyd received his doctorate from the Rutgers University School of Communication, Information and Library Studies. Before going to Chicago, he was an associate professor and assistant dean in the graduate school of library service of the University of Alabama.

Mr. Speaker, we in Newark are fortunate to have a man of Dr. Boyd's vision, competence, and dedication to community service. I know my colleagues join me in congratulating Dr. Boyd and in extending our very best wishes for continued success.

A TRIBUTE TO DR. H. THOMAS HARVEY

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. EDWARDS of California. Mr. Speaker, I rise today to pay tribute to Dr. H. Thomas Harvey, a fine biologist whose foresight and knowledge were a driving force in the movement to save the endangered species of the San Francisco Bay. I am deeply saddened to say that Tom passed away last month in San Francisco at the age of 66.

In the early 1960's, Tom, a professor at San Jose State University, was one of the very first to recognize that urban development was taking a toll on the health of the San Francisco Bay. Long before the environmental movement began, Tom was educating local citizens about the importance of preserving the bay's wetlands.

In 1971, Tom came to Washington to educate Congress about the need for a national wildlife refuge to protect the bay's threatened marshlands. Today, the San Francisco Bay National Wildlife Refuge encompasses nearly 20,000 acres of endangered species habitat, and in 1988 Congress authorized the acquisition of another 20,000 acres of wetlands and marshland. The San Francisco Bay Refuge is now one of our Nation's most progressive and important wildlife preserves.

As a result of Tom's efforts, citizens all over the San Francisco Bay area have dedicated themselves to the protection of the bay's fragile ecosystem. Without this great educator we may have been too late to save valuable wildlife resources.

Tom's work has left a lasting legacy of life. This dear friend of San Francisco Bay will be sorely missed.

EXTENSION OF MOST-FAVORED-NATION TREATMENT FOR CZECHOSLOVAKIA

HON. RICHARD A. GEPHARDT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. GEPHARDT. Mr. Speaker, today Minority Leader BOB MICHEL and I are introducing, by request, a joint resolution approving the extension of nondiscriminatory treatment—most-favored-nation treatment—to the products of Czechoslovakia.

In the new world in which we live, adversaries are becoming allies, and the tools of aid and trade are standing alongside military hardware as the means by which we build nations and relationships between them. As Czechoslovakia went through its democratic revolution last year, many of us in Congress asked what the United States could do to speed that nation's movement toward political and economic reform.

One way to help the Czechs lift themselves economically and consolidate their political reforms is by normalizing the trade relationship which exists between our two countries. American consumers and Czech producers both stand to gain by the reduction of American tariffs placed on their goods. This resolution seeks to do precisely that.

Under current law, we cannot extend nondiscriminatory trade treatment to goods made in Czechoslovakia. Under the Jackson-Vanik amendment, title IV of the Trade Act of 1974, countries must meet specific freedom of emigration requirements in order for the President to grant most-favored-nation [MFN] status to a nonmarket economy.

Sections 405(c) and 407(c) of the Trade Act, as amended, requires that a joint resolution of approval be enacted before a trade agreement and the Presidential proclamation granting MFN status take effect.

On February 20, 1990, President Bush waived application of sections 402 (a) and (b) of title IV of the Trade Act with respect to Czechoslovakia, upon a determination that such a waiver would substantially promote the act's objectives relating to freedom of emigration.

The waiver made Czechoslovakia eligible immediately for U.S. Government credits, credit guarantees, and investment guarantees.

On April 12, a bilateral trade agreement was signed by U.S. Trade Representative Carla Hills and Czechoslovak Foreign Trade Minister Andrej Barcak.

This agreement was negotiated under authority of title IV. At that time, side letters on

trade and financial matters, intellectual property rights, and tourism were signed. That agreement and the side letters were submitted formally to the Congress this morning. The legislation introduced today was introduced pursuant to the requirements of the Trade Act.

This resolution signifies more than the fact that Czechoslovakia now meets our emigration requirements. It signifies our resolve in Congress to do what we can to reward the people who fought for freedom in Eastern Europe. It represents our commitment to economic growth in the post-cold-war world.

A TRIBUTE TO DR. JOHN PAULUS

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. LEWIS of California. Mr. Speaker, I would like to bring to your attention today the distinguished career of a most outstanding community leader, Dr. John Paulus of Redlands, CA. Dr. Paulus is retiring after many years of dedicated medical service to our local community.

Dr. Paulus was born and raised in Ohio. He left his native Midwest to study at Yale University and, following service with the U.S. Naval Reserve during World War II, attended the Columbia University College of Physicians and Surgeons. With his medical degree, Dr. Paulus served his medical internship and residency in California at the Los Angeles Children's Hospital. As a captain with the U.S. Air Force, Dr. Paulus served as the chief of the department of pediatrics at the Travis Air Force Base Hospital during the Korean war.

Dr. Paulus began a long and successful practice in Redlands in April 1954, and shortly thereafter, founded the Pediatric Medical Group. Through his work, he was instrumental in recruiting more than 50 doctors and medical professionals to serve Redlands and the surrounding community, thus making the city a center of medical activity and expertise.

Dr. Paulus became the chief of medical staff at Redlands Community Hospital in 1966, and has also been an attending physician at Loma Linda University Hospital, San Bernardino County Hospital, and San Gorgonio Pass Hospital. In addition, he is certified by the American Board of Pediatrics, and is a lifetime member of the corporate body at Redlands Community Hospital. He is also a member of the American Academy of Pediatrics, the Los Angeles Pediatric Society, the American Medical Association, the California Medical Association, and the San Bernardino County Medical Society.

Dr. Paulus has also been directly involved in education as a leader in both medical and community affairs. He has served in many capacities as a grade school physician for the Redlands Schools Guidance Council, the past medical director of student health at the University of Redlands, the past president of Redlands High School PTA, and a member of the Redlands High School Scholarship Foundation. He is also a lifetime member of the National Congress of Parents and Teachers and is the recipient of an honorary service award by the same organization.

Mr. Speaker, I ask that you join me and my colleagues in recognizing the tremendous achievements and contributions of this most outstanding individual. It is indeed appropriate that the House of Representatives pay tribute to him today.

THE RETIREMENT OF MS. HILDA MARGULIES YABLIN

HON. GUS YATRON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. YATRON. Mr. Speaker, I rise today to pay tribute to a woman who is truly a credit to the Jewish community of Reading, PA. I am speaking of Ms. Hilda Margulies Yablin, who will be retiring from a long and dedicated career at the Reading Jewish Community Center. Ms. Yablin has dedicated more than 40 years of her life to the center and in so doing has played a major role in the center's growth and success. Through her dedication to the center, the Temple, and her family, she has served as an exemplary member of the Reading community.

Ms. Yablin began her career at the Reading Jewish Community Center in 1949 as the day camp director. Since then, she served as president of Pioneer Women, president of the Oheb Sholom Sisterhood, program director of the center, organizer of the new center's opening event in 1967, and has been director of the center since 1976. Throughout her service to the Jewish Community Center in these leadership roles, Ms. Yablin has found the time to share her artistic expertise and talents as a volunteer music teacher and as a writer, director, and performer in various Jewish theatrical productions for the Kesher Zion, Temple Oheb Sholom, the JCC, and other organizations.

Mr. Speaker, Ms. Yablin has brought guidance, inspiration and leadership to the Jewish community and she epitomizes the essence of civic and community service. It is only fitting that she be recognized for her contributions. Indeed, it is an honor and a privilege to congratulate Ms. Yablin on the occasion of her retirement and to commend her on the House floor for her outstanding service.

IN MEMORY OF WILLIAM M. WAUGH

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. WOLF. Mr. Speaker, I regret having to share some sad news with my colleagues on the death of William M. Waugh, 74, of McLean, VA, who was a friend of many here on Capitol Hill. Mr. Waugh died of cancer on August 28 at Arlington Hospital in northern Virginia.

As my colleagues may recall, Mr. Waugh worked for nearly 20 years starting in 1956 with the National Republican Congressional Committee, serving as the NRCC's research director from 1961 to 1975.

A long-time northern Virginia Republican leader, he was the former chairman of the Fairfax County Republican Committee. He also served as a Presidential Elector in 1968 and was a former member of the Fairfax County Water Authority.

Mr. Waugh, a 1938 graduate of Yale University, was born in Chicago and moved to the Washington area in the 1940's. During World War II, he recruited civilian war workers while employed by the U.S. Civil Service Commission and served as supervisor of small district offices in North Carolina and West Virginia. He later worked from 1946 to 1955 for the Army Times Publications where he wrote a civil service column and edited a monthly home magazine.

A noted stamp expert, he was well known in stamp-collecting circles, specializing in the field of France and its colonies and early U.S. issues.

Mr. Waugh is survived by several cousins. I'm sure his many friends and former colleagues on Capitol Hill will miss him and we all extend our sympathies to his family.

VA HELPS 13 MILLIONTH VETERAN BUY A HOME

HON. G.V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. MONTGOMERY. Mr. Speaker, on August 28, some 46 years after the first GI bill home loan, Indianapolis veteran Gregory A. Tyner became the 13 millionth veteran to participate in the Department of Veterans Affairs program. VA Secretary Edward J. Derwinski was present to congratulate the new homeowner at special ceremonies in Indianapolis.

Mr. Tyner, who served 6 years in the U.S. Navy during the Vietnam era, is a design engineer in Indianapolis. He is purchasing a three-bedroom home and will pay 10 percent interest on his VA-guaranteed, no-downpayment, $100,500 loan.

The first VA home buyer, Miles E. Meyers of Washington, DC, bought a $7,500 rowhouse with a 4-percent, no-downpayment loan. The dollar amount of the 13 million homes purchased with VA guarantees totals $345 billion.

The VA Home Loan Guaranty Program began in June 1944, when President Frranklin D. Roosevelt signed the GI bill into law for World War II veterans.

During the bill's 46-year history, 5 million World War II veterans, nearly 4 million Korean conflict and post-Korean conflict veterans, and more than 4 million Vietnam era and post-Vietnam era veterans have used the VA home loan guaranty.

Over the years the program has expanded to include loans for condominiums and manufactured homes. Also included are grants for disabled veterans who need specially adapted housing.

There is no expiration date for the use of the loan benefit. The guaranty amount has been increased several times since the program began, so veterans who used their

home loan entitlement years ago may now have additional eligibility that can be used to obtain another VA-guaranteed loan. Veterans also may have their eligibility restored if they sold the home, and the VA loan has been paid in full.

Eligible veterans make their own arrangements for VA-guaranteed loans through the usual lending sources, such as mortgage companies and banks. VA guarantees the lender against loss up to 50 percent of the loan, with a maximum guaranty of $36,000. Loans of more than $144,000 have a maximum guaranty of $46,000. For qualified veterans, this means that a no-downpayment, VA home loan may be obtained for loan amounts up to $184,000.

Mr. Speaker, in my opinion, no other single piece of legislation has made a more significant impact on American society than the 1944 GI bill of rights. Thanks to its provisions, the country has been able to say to its defenders, "Thank you for serving. Thank you for sacrificing for freedom. We appreciate what you have done and we offer our assistance in helping you readjust." Thirteen million veterans and their families have been able to put roofs over their heads because of this commitment.

REMEMBERING AMERICA'S LONGEST HELD HOSTAGE IN THE MIDDLE EAST

HON. LOUISE M. SLAUGHTER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Ms. SLAUGHTER of New York. Mr. Speaker, America is now spending at least $1 billion a month in search of peace in the Persian Gulf. As we consider the staggering military cost of this crisis, we cannot ignore another huge cost, impossible to calculate in dollars, that Saddam Hussein's aggression has exacted. I am talking about the incredible amount of human suffering endured by thousands of hostages held against their will in Kuwait and Iraq.

My heart goes out to the families of these hostages who desperately scan the news reports for clues to their loved ones' safety and whereabouts. My constituents in Batavia, NY, know this gruesome routine only too well. For more than 5 years they have sought out every morsel of news about the fate of their native son, Terry Anderson, the longest held American hostage still in Beirut.

This week, on Wednesday, September 5, 1990, Terry Anderson marked his 2,000th day as a hostage—a grim milestone in captivity described as "a crucifying aloneness" by the recently freed Brian Keenan of Northern Ireland. From Keenan, held with Terry for about 8 months, we are given brief, heart-wrenching glimpses of Anderson's life including images of Terry pacing the floor "in his patched and repatched and much more patched—but still very holey—socks." Keenan tells how Terry cherishes letters from his family as well as a picture of his second daughter, Sulome, born 3 months after he was abducted on March 16, 1985. He also tells of Terry's periodic bouts with despair and the solace Terry finds in talking about his wife and family.

I join Terry's family, along with his friends and supporters in Batavia, NY, in asking all of America to remember in their thoughts and prayers the hostages held in Lebanon, Iraq, and Kuwait. They suffer unspeakable pain and they must know that we want them home.

TRIBUTE TO ROBBIE SANDERS

HON. JACK BUECHNER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. BUECHNER. Mr. Speaker, as much as we may hear the term "hero," once in a while an act of true heroism will remind us how rare a commodity heroism is. It is far more impressive when the source of such an act is a mere 12 years of age. With this in mind, I rise today in tribute to my constituent, Robbie Sanders of Florissant, MO, the boy-hero from McCurdy Elementary, who recently received the American Automobile Association [AAA] School Safety Patrol Lifesaving Medal Citation.

Robbie Sanders had volunteered to participate in his school's safety patrol, and the morning of October 11, 1989, marked only his third day on duty in this responsible role. He had just walked out into the street, arms outstretched to stop traffic so that several smaller students could cross the street. As the students entered the crosswalk Robbie noticed that an oncoming car was not slowing down as it approached.

Rather than simply avoiding the car, and thus guaranteeing his own safety, Robbie quickly decided to remove the children from the car's path, putting his own life in danger. He took two children in his arms and pulled them back to the curb while pushing the other two students. They all reached the curb, narrowly avoiding the oncoming car. In those brief seconds, Robbie saved the lives of these small children.

The School Safety Patrol Program is an excellent idea which provides a badly needed service to the community. It helps in ensuring the safety of younger children, while teaching responsibility to the older children. The AAA is to be congratulated for providing the lifesaving medal citation and recognizing students for their courage—students like Robbie.

Mr. Speaker, perhaps the most remarkable thing about this is that Robbie, while participating in a program designed to teach him responsibility, has taught all of us a great deal about courage and heroism. Accordingly, I ask my colleagues to join me in saluting Robbie Sanders and all of the other recipients of the AAA School Safety Patrol Lifesaving Medal Citation.

COMMENDING THE COCA-COLA CO.

HON. GEORGE (BUDDY) DARDEN

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. DARDEN. Mr. Speaker, there is a photograph on my office wall of American GI's drinking Coca-Cola in their foxhole during World War II. This photo is a reminder that we should never allow our troops to feel that they are completely isolated from home and from the simple pleasures of life that we usually take for granted here. Coca-Cola has played an important role in providing a small, but comforting boost in morale for America's service men and women throughout some of the most difficult crises of the century.

And now, as American troops are digging in in the Saudi Arabian desert, the Coca-Cola Co., whose home is in Georgia, is again demonstrating its good citizenship by donating $500,000 to the USO in support of our forces in the Middle East. I commend Coca-Cola for contributing to the welfare of our troops overseas and trying to make their difficult assignment a little easier to bear. The USO's mission is uniquely vital to our defense, and the corporate support of companies like Coca-Cola is an indication of the unity of support for those serving our Nation in faraway places.

THE GOOD GRIEF PROJECT

HON. E. CLAY SHAW, JR.

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. SHAW. Mr. Speaker, too often we open our daily newspapers and read horror stories about the problems facing our Nation's children. Divorce, drugs, and teen deaths are just a few of the many obstacles that we read about plaguing the lifeblood of our future.

Today, however, I am not here to tell another horror story. Instead, I am here to tell you about a program that has been started in my district to help our children fight back. It is called Good Grief Project.

The Good Grief Project is a joint effort between Hospice Care of Broward, Inc., and the Junior League of Fort Lauderdale, Inc. These two groups have worked to provide support for the nearly 30,000 bereaved children and adolescents in Broward County, and to prevent the development of emotional problems caused by unresolved grief.

The Good Grief Project provides advanced training to professionals who work with bereaved children; is developing a resource of materials to be located in a special section of the main branch of the Broward County Library; and is increasing public awareness of these resources through public speaking presentations to the community.

Mr. Speaker, I applaud Hospice Care of Broward and the Junior League of Fort Lauderdale for their efforts and wish them well. Good Grief Project should be a huge success and I hope that other groups in my col-

leagues' districts around the Nation can follow the lead of these two organizations and set up similar programs to help our children in their time of need.

TRIBUTE TO MABEL BONNEY

HON. NANCY L. JOHNSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mrs. JOHNSON of Connecticut. Mr. Speaker, there are few individuals who have so unselfishly given of their time and devotion to a town as has Mabel Bonney. On September 14, 1990 Mabel will be recognized for over 50 years of dedicated community service to New Britain, CT. Her list of associations and leadership roles is long and extensive: She served 53 years on the Republican Town Committee, 48 years as chairman of her voting district, and been involved with the Girl Scouts for 67 years, serving several years on the Girl Scouts board of directors. Mabel, a member of the Daughters of the American Revolution for 28 years, has also been past chairman of the New Britain Welfare Commission and has long been devoted to the Boys Club. She has served all of these organizations altruistically, energetically and with abiding devotion. She has spent endless hours for the benefit of others.

Volunteerism is one of the unique strengths of the American way of life; Mabel is the model volunteer. She has helped countless individuals in their pursuits and has left a significant mark on the lives of many people. Mabel is a rare and extraordinary person and I count myself as fortunate to have had the opportunity to be associated with her. I wish to commend and thank Mabel for her strong commitment and outstanding service to the people of central Connecticut.

Mr. Speaker, and my colleagues in the House, please join me in honoring Mabel Bonney. Let us applaud her outstanding lifetime achievements and for serving as a role model and friend to legions.

TRIBUTE TO THE U.S. LIFEGUARD TEAM

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. PALLONE. Mr. Speaker, I rise today to pay tribute to the U.S. Lifeguard Team for its fine showing in a major international competition last month. Team U.S.A. came within just a few points of capturing the world championship at the World Safety Congress Rescue '90 Tournament at Lubeck/Travermunde, West Germany, on the Baltic Sea.

The world title at the competition, which took place during August 8–16, was eventually captured by the Australian team, long considered one of the world's top lifeguard squads, after an exhausting and tightly contested match. But the Americans impressively outperformed the other 35 national teams—including teams from the Soviet Union, Great Britain and a West German-East German team competing together for the first time since World War II—over the course of the grueling 21-event program.

I take special pride in the accomplishment of these Americans because they were coached by one of my constituents, Mr. Tim Gallagher, a 39-year-old businessman from Belmar, NJ. Mr. Gallagher is a veteran lifeguard and has long been identified with the U.S. Life Saving Association, the Team U.S.A. sponsor. The American team performed so impressively and exceeded expectations to such a degree, that the Australian coach went out of his way to congratulate Coach Gallagher and the men and women of his team.

I would also like to take this opportunity to salute another one of my constituents who was a member of the American team. Matt Nunnally, a 20-year old lifeguard in Bradley Beach, NJ, and a student at LaSalle College, finished fifth in the 2-kilometer beach run in soft sand in his first appearance in international competition.

On the Jersey Shore, as in other coastal areas, lifeguarding has a special mystique, conjuring up images of long, carefree days at the beach. However, the perception overlooks the stiff physical conditioning regimen that lifeguards are required to maintain, as well as the exacting training in saving lives that they must master.

Mr. Speaker, while we shower praise on our most talented athletes competing in baseball, football, tennis or other high-profile sports, there are many talented and hard-working American athletes whose achievements go barely noticed by their countrymen. Yet these gifted young men and women bring great distinction to the United States, while helping to forge links between our country and other nations in the best tradition of international competition. Therefore, it is my pleasure to share the achievements of the U.S. Lifeguard Team with the Members of this House.

TRIBUTE TO JIM FARLEY

HON. BILL LOWERY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. LOWERY of California. Mr. Speaker, it gives me great pleasure to call my colleagues' attention to the accomplishments of Jim Farley, an outstanding community leader in San Diego, CA.

Mr. Farley will be honored by the Jewish National Fund on November 17, 1990, for his contributions to that worthwhile cause. Since its creation in 1901, the Jewish National Fund has helped to purchase and preserve land for the Jewish people in Palestine. After the founding of the State of Israel in 1948, the fund has been instrumental in supporting land development and forestation in Israel. The forests and farm land of Israel exist in large part because of the Jewish National Fund.

Individuals like Jim Farley have been instrumental to the success of the Jewish National Fund. As a member of the Board of Directors, Jim has devoted much of his time, energy and knowledge to insuring the continued success of the fund.

In addition to his work for the Jewish National Fund, Jim has actively participated in other valuable organizations including the United Jewish Federation, the Jewish Community Council and the American Israel Public Affairs Committee.

Mr. Speaker, Jim Farley has made great contributions to the Jewish Community of San Diego and his efforts have done much to strengthen the bonds between San Diego and Israel. Please join me in saluting Jim Farley and his commitment to his community.

MICHAEL JACKSON TO RECEIVE THE GOOD SCOUT HUMANITARIAN AWARD

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. WAXMAN. Mr. Speaker, on September 14, 1990, the Los Angeles Area Council of the Boy Scouts of America will present its Good Scout Humanitarian Award to world-renowned musical genius Michael Jackson.

Michael Jackson has displayed astonishing musical ability virtually throughout his life. At the young age of 5, he helped win national recognition for his family group, the Jackson 5. When he was not yet 20 years old, Michael surprised the music world with his first solo album, "Off the Wall"—a history-making creative intermingling of pop, rhythm and blues, and jazz.

Michael Jackson continued to display his virtuosity as a singer, producer, composer, and arranger with such memorable albums as "Thriller," "Victory," and "Bad," winning fans not only in the United States, but around the world.

While Michael Jackson has dazzled the world with his unique style and unparalleled talent, he has also consistently devoted his energy to philanthropic pursuits. He has donated his efforts to many areas of need, with a special emphasis on organizations dedicated to the health, education, protection and welfare of children.

I am delighted that Michael Jackson will receive the Good Scout Humanitarian Award and thank him for all of his good work to help those in need.

TRIBUTE TO LT. COL. AUGUST LOWE

HON. ROBERT J. MRAZEK

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. MRAZEK. Mr. Speaker, I rise today to pay tribute to Lt. Col. August Lowe, who is retiring after 17 years of service in the West Point Liaison Program.

After graduating from Hofstra University, Lieutenant Colonel Lowe served in the U.S. Army's Ordnance Corps at Aberdeen, MD., and at Ft. Gordon, GA. Following his active duty, Lieutenant Colonel Lowe pursued a

career as a junior high school teacher and guidance counselor.

In 1973, Lieutenent Colonel Lowe joined the liaison program at West Point and 1986 became the Suffolk County, Long Island, coordinator. During this tenure, he also served as Reserve individual mobilization augmentee with training assignments at Aberdeen, Fort Lee, and Fort Bragg.

In addition to his distinguished military service, Lieutenent Colonel Lowe has been active in numerous community and civic causes. He serves as a board member of the Strongs Neck Civic Association and has been a Cub and Boy Scout leader for the past 4 years.

Mr. Speaker, candidates to the U.S. Military Academy from Suffolk County have one of the highest rates of acceptance of the Nation. In addition, these students have experienced great success over the years at West Point. Lieutenent Colonel Lowe has clearly played an integral role in this record of achievement and has helped to mold a future generation of our Nation's leaders.

Mr. Speaker, I am honored to join in the tribute being paid to Lieutenent Colonel Lowe for his distinguished service to the Long Island community. I wish him well in all of his future endeavors.

SOCIAL SECURITY DISABILITY APPEALS HEARINGS TO CONTINUE

HON. ROMANO L. MAZZOLI

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 10, 1990

Mr. MAZZOLI. Mr. Speaker, I was deeply disturbed by an article in the August 1, Courier-Journal which indicated that the Social Security Administration [SSA] was unexpectedly running short in administrative funds and was planning to suspend disability appeals hearings.

Mr. Speaker, because so many individuals rely on Social Security disability benefits, Congress has provided a contingency fund—$90 million for fiscal year 1990—solely for emergencies, such as these. These funds are controlled by the President's Office of Management and Budget [OMB].

Upon learning of this unconscionable situation, many Members of Congress conveyed their dismay and outrage. I elected to call the Administrator of Social Security, Ms. Gwendolyn King.

Apparently, OMB had already gotten the message because Ms. King told me that OMB had already authorized a release of the contingency funds insuring a full schedule of disability appeals hearings through the end of this fiscal year, September 30.

While the immediate funding shortage for Social Security disability appeals hearings has been addressed, there still exists the problem of the increasing number of appeals occurring in disability cases.

In our congressional office, almost all disability awards come after appeals of rejections at the earlier stages of the process. This has led to an increasing backlog of disability case appeals. This backlog has been a nightmare for my constituents.

In one instance, a man was notified in October 1989, that he was no longer eligible for Social Security disability benefits. The next month, he requested an appeals hearings. The hearing was conducted in February 1990. However, my constituent was not notified of the outcome—for the continuation of benefits—until June 1990, and then, payment action did not begin until late last month.

This timetable is hardly efficient nor is it humane.

Mr. Speaker, we need to do two things. One, we need to do all we can, in the short term, to help Social Security in its tug of war for funds with OMB. Then we have to get to the heart of the problem which has seen such an increase in disability appeals.

Social Security disability cases, and the people behind the statistics, deserve more timely and more sympathetic attention.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, September 11, 1990, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

SEPTEMBER 12

9:00 a.m.
Labor and Human Resources
Business meeting, to mark up S. 2649, to provide for improved drug abuse treatment and prevention, S. 2724, authorizing funds to extend and improve arts and humanities programs, museum services, and arts and artifacts indemnification, proposed legislation on research and education of the aging, and the proposed "Civilian Ex-Prisoner of War Health Benefits Act."
